FOREWORD

This is the seventeenth Crime and Justice Annual Report prepared by the Division of Criminal Justice Services pursuant to Sections 837, 837-a, and 837-b of the Executive Law.

The Division appreciates the cooperation and support of the nearly 600 police departments, sheriffs' offices and specialized police agencies that provide offense and arrest data for the report. We also wish to express our gratitude to District Attorney and Special Prosecutor offices throughout the State for their continued cooperation and assistance in providing data on the processing of felons. The Division is also indebted to the Superintendent of the Division of State Police, the Chairman of the Board of Parole, the Chairman of the Commission of Correction, the Commissioner of Correctional Services, the State Administrator of the Courts, the Chairperson of the Crime Victims Board, the Director of the Division for Youth, and the Director of Probation and Correctional Alternatives for the data provided by their respective agencies.

The contributions of all involved in the preparation of this report permit the Division to provide a clear picture of the nature of crime and justice issues in New York State. Without the concerted and dedicated efforts of the people who serve in the many local and State agencies which comprise our criminal justice system, the publication of this report would not be possible. It is these efforts which are documented in this Crime and Justice Annual Report.

1991 CRIME AND JUSTICE ANNUAL REPORT

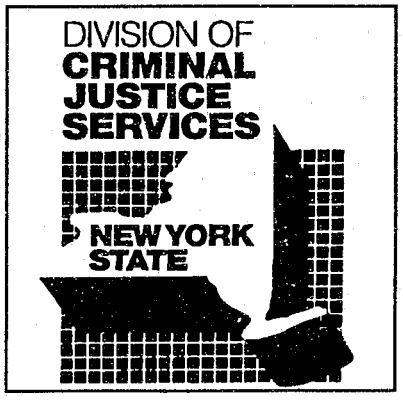
NEW YORK STATE COUNTIES AND COUNTY SEATS★

Published by

STATE OF NEW YORK

INTRODUCTION



The New York State Division of Criminal Justice Services was assigned the responsibility for the collection of data concerning crimes and arrests in New York State, effective January 1975, pursuant to Sections 837, 837-a and 837-b of the Executive Law.

In assuming that responsibility, the Division was also committed to providing relevant data to the National Uniform Crime Reporting Program administered by the Federal Bureau of Investigation and to disseminating this information to the New York State criminal justice community.

This publication is the seventeenth annual report produced in discharge of that responsibility.

Because of incomplete reporting by some agencies in Allegany, Cattaraugus, Chenango, Delaware, Dutchess, Genesee, Rockland, Seneca, Suffolk, Sullivan, Ulster, Wayne and Westchester counties, tables presenting data for these agencies and counties (see pp. 14ff) may have reduced 1991 crime totals. Comparisons with the 1990 data should be made with this in mind. The effect on upstate and statewide crime totals for 1991 must also be taken into consideration when making any comparisons.

UNIFORM CRIME REPORTING

Uniform Crime Reports submitted monthly by police agencies in New York State are the basis for much of the material contained in this report. These reports include information on:

- Part I Offenses
- Part II Offenses
- Location and Time of the Offense
- Value of Property Stolen
- Part I Arrests
- Part II Arrests
- Law Enforcement Officers Killed or Assaulted
- Number of Law Enforcement Employees

This report also provides greater detail regarding the following aspects of Part I Offenses:

a. Type of Weapon/Force Used
b. Type of Location in which the Crime was Committed
c. Number of Offenses Cleared
d. Type and Amount of Property Stolen and Recovered

For many reasons, not all offenses come to the attention of the police. Victims may feel too embarrassed to report a crime or that the loss sustained was too small to report or believe that there is nothing the police can do. Victimization studies have confirmed that many offenses are never reported.

When an offense is cleared, it is usually done by one or more arrests. However, there are exceptional circumstances when an offense may be cleared without an arrest. Exceptional clearances result when the police know who and where the offender is and have enough evidence to support an arrest, but are prevented from doing so because of some reason outside of their control.

To combat crime effectively, it must be known when and where crime is occurring. The county, as a crime location, is not sufficiently definitive. Therefore, we have instituted direct reporting to the state program from every police chief and sheriff in New York State in accordance with state law.

It is important to note that without the collaboration of the law enforcement agencies and cooperation of the criminal justice agencies, this report would not be possible.

- In 1991, 557 of 571 law enforcement agencies participated in the Uniform Crime Reporting Program and agencies with multi-county jurisdictions reported separately for each county within their jurisdiction. Because of incomplete reporting by some agencies in Allegany, Cattaraugus, Chenango, Delaware, Dutchess, Genesee, Rockland, Seneca, Suffolk, Sullivan, Ulster, Wayne and Westchester counties, tables presenting data for these agencies and counties (see pp. 14ff) may have reduced 1991 crime totals. Comparisons with the 1990 data should be made with this in mind. The effect on upstate and statewide crime totals for 1991 must also be taken into consideration when making any comparisons.

AGE, SEX, RACE AND ETHNIC ORIGINS OF PERSONS ARRESTED

1. Persons Under 16 Years of Age (Juvenile)
2. Persons 16 Years of Age and Over (Adults)

- Note: The FBI/UCR Program treats persons under 18 as juveniles, and requires that they be so reported. This report, however, is compiled in accordance with New York State law which classifies juveniles as those persons under 16 and adults as those 16 and over.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Statistics are provided on the number of New York State law enforcement officers killed or assaulted. A description of the conditions under which the officers were assaulted is also provided.

HOMICIDE ANALYSIS

- Details on homicides committed in New York State, including characteristics of victims and circumstances under which such homicides occurred, are provided.

ARSON ANALYSIS

- This report provides additional detail concerning arson. The analysis describes the types of structures involved, distribution of activity and clearance rates.

DOMESTIC VIOLENCE

- Statistics are presented relating to the incidence of domestic violence by geographic locations in New York State, New York City and Upstate Counties.

In addition to Uniform Crime Reporting data contained in this report, we have provided data on felony arrests, felony drug arrests, and felony indictments and dispositions.

- The arrest material is derived from the Computerized Criminal History (CCH), which is based on the arrest fingerprint cards submitted to the Division of Criminal Justice Services in compliance with Section 160.20 of the Criminal Procedure Law. Adult felony and misdemeanor arrests are presented for each county from 1987 through 1991.

FELONY INDICTMENT AND DISPOSITION

The felony indictment and disposition material is reported by District Attorneys and Special Prosecutors throughout the State pursuant to Section 837-a of the Executive Law. This material includes data on felony indictments, felony drug indictments, felony dispositions and median time from indictment through disposition.

- Information from other criminal justice agencies is included in this report to present, in one volume, as much information as possible about the criminal justice system.

OTHER SUBMITTING AGENCIES

Agencies that have submitted data and are included in this report are:

Office of Court Administration
Division of Probation and Correctional Alternatives
Department of Correctional Services
Commission of Correction
Division of Parole
Division For Youth
Crime Victims Board

POPULATION DATA SOURCE

Population data used for calculating crime rates for the 1991 Crime and Justice Annual Report are based on 1990 census data and updates provided by the United States Department of Commerce - Bureau of Census and the United States Department of Justice - Federal Bureau of Investigation.

OFFENSES

For over 50 years criminal offenses have been used as a crime index to assess the level of criminal activity within an area. The index offenses were selected because of their seriousness or frequency of occurrence.

The index offenses are murder & non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny and motor vehicle theft.

Comparisons of crime rates between police agencies or counties should be made with extreme caution. The crime rates published in this report are based solely on offenses reported or known to the police and the size of the resident population. Additional factors which may influence crime rates are density of population, geographic location, social attitudes, economic conditions, number of law enforcement officers, seasonal and transient populations, and rural or urban environments.

NEW YORK STATE
HOMICIDE
1991

SUMMARY

Reported Homicides

- There were 2,567 homicide victims in New York State in 1991, a 2.2 percent decrease over the 2,624 victims in 1990.
- The 2,567 homicide victims were slain in 2,466 homicide incidents which involved a total of 1,480 known offenders.
- The month of February had the fewest homicides (170) and August had the most (242), a range of 72.
- The first quarter of 1991 had the fewest homicides (23 percent) and the third quarter had the most (27 percent).
- New York City reported 84 percent of the homicides in the State, the remaining 16 percent being reported by counties outside New York City.

Offender Characteristics

- In the 1,120 cases where the age of the offender was known, 49 percent of the offenders were in the age group of 16-24.
- Offenders were predominately male. In the 1,377 cases where the sex of the offender was known, 91 percent of the offenders were male.
- In the 1,334 cases where offender race was known, 42 percent of the offenders were white and 56 percent were black.

Note: *Prior to 1989, a homicide victim with an undetermined number of offenders was counted as one offender and added to the "unknown" offender tally. Beginning with the 1989 report, no assumption is made about the number of offenders in a case with an undetermined number of offenders. As a result, the "unknown" value is not reported in the offender tables, since it is truly unknown. For this analysis, the number of incidents and the number of victims are the basic units of count, with the offender, weapon and other data as subordinate data fields attached to the victim(s) in a given incident.*

Victim Characteristics

- In the 2,514 cases that the age of the victim was known, 62 percent of the victims were in the age group of 20-39.
- In the 2,564 cases where the victim's sex was known, 83 percent of the victims were male.
- For the 2,514 cases where victim race was known, 48 percent of the victims were white and 50 percent were black.

Victim-Offender Characteristics

- Both victims and offenders are most likely to be in the 20-24 age range.

Victim-Offender Relationship

- Males are more likely to be killed in situations outside the family setting, usually involving a stranger or a casual acquaintance. This occurs in 82 percent of the 474 cases where the relationship is known.
- Females are more likely to be killed by a family member or in a romantic dispute. This occurs in 62 percent of the 213 cases where the relationship is known.

Circumstances

- The circumstances surrounding a homicide were unknown in 59 percent of the cases.
- For the 1,047 cases where the circumstances were known, 45 percent were felony connected.
- In the 2,567 cases where the location was known, 48 percent of the victims were killed indoors and 52 percent outdoors.

Weapons

- In the 2,541 cases where the type of weapon was known, 71 percent were killed by firearms and 29 percent were killed by all other means.
- Among the firearm victims, 95 percent were killed by handguns and 5 percent by rifles, shotguns, etc.
- The most frequently occurring homicide was a shooting with a handgun of a victim 20-24 years old.

ARSON

This is the thirteenth analysis of arsons in New York State to be presented in the Crime and Justice Annual Report. The data for these analyses are derived from a supplementary arson data collection program begun in 1979 under the Uniform Crime Reporting (UCR) System.

- *Arson is defined by the Uniform Crime Reporting Program as a "willful or malicious burning, or attempted burning of a dwelling house, public building, motor vehicle, aircraft, or personal property of another." Only fires determined through investigation to have been willfully or maliciously set are classified as arsons.*
- *A "cleared"* arson incident is defined as an offense for which a perpetrator has been taken into custody or is otherwise known by police to have committed the crime, but for reasons outside police control cannot be taken into custody.*

Arsons reported under Part II of the UCR program and shown elsewhere in this volume are reported under the "hierarchy rule," whereby an offense is counted only if it is the most serious in an incident. Under this program,an arson offense is reported regardless of whether it occurred in conjunction with a more serious offense. This analysis, therefore, shows more arson offenses than are shown for arson offenses in the UCR Part II offense presentations.

Estimated values of property damaged are included the report in order to provide an estimate of the absolute *minimum* dollar value. Because many police departments have little or no access to dollar amounts for arson, the monetary values for many arson cases are not reported.

TYPE OF PROPERTY

STRUCTURAL	MOBILE	OTHER
Residential *Single Occupancy*: Houses, townhouses, duplexes *Other*: Apartments, flats, tenements, hotels, dormitories, boarding houses	**Motor Vehicle** Automobiles, trucks, buses, motorcycles, snowmobiles **Other** Airplanes, boats, trailers, recreational vehicles	Crops, timber, fences, signs
Commercial *Storage*: Warehouses, garages, barns *Industrial/Manufacturing*: Factories, manufacturing facilities *All other:* Stores, restaurants, offices		
Public/Community Churches, schools, hospitals, jails		
Other Monuments, construction sites, out-buildings		

* *The clearance rate is the ratio of clearances to the net number of arsons reported, expressed as a percent. Because a 1991 clearance does not necessarily reflect clearance of an offense reported in 1991, the clearance rate should be considered only as a general indicator of processing efficiency.*

ARSON ANALYSIS
NEW YORK STATE
SUMMARY

ARSONS REPORTED

There were 10,488 arson incidents reported in New York State in 1991, an 8.0% decrease from 1990.

Structural Arsons

- *Arsons of structures accounted for 59.1% of all New York State arsons. Of these, 40.0% were residential arsons. Consistent with data from previous years, residential structural arsons remained the most common type of structural arson throughout the state.*

- *Commercial structure arsons accounted for 13.4% of all arsons in New York State. "Other Commercial" arsons, the most frequent form of commercial arson in New York State, accounted for 8.3% of the arsons statewide.*

- *The 694 arsons that occurred in abandoned structures accounted for 6.6% of all arsons in New York State. Residential structures were the most common form of abandoned structures to be targets for arson.*

Mobile Arsons

- *In this category, the 3,887 "motor vehicle" arsons reported in New York State accounted for 37.1% of all New York State arsons, while "other mobile" accounted for 1.1% of these arsons.*

ARSONS CLEARED

- *In 1991, 1,084 arson incidents were cleared in New York State. Of these, 79.8% were structure arsons, of which 52.9% were residential and 16.6% were commercial.*

- *Two hundred eighty-six of the arson clearances involved persons under age 18. Persons in this age group accounted for 26.4% of the arson clearances in the state; this represents an increase from 1990 when they accounted for 24.5%.*

ARSON CLEARANCE RATES

- *The 1991 clearance rate for all arsons in New York State was 10.3%. This relatively low clearance rate seems to reflect the extreme difficulty in solving a crime in which much of the physical evidence is destroyed.*

- *Arson clearance rates also vary by the type of property involved. In 1991, statewide clearance rates for the "community/public" (19.0%) category had the highest clearance rate, while "motor vehicle arson" had the lowest clearance rate (4.7%).*

NEW YORK STATE
DOMESTIC VIOLENCE
1991

The Governor's Task Force on Domestic Violence was established by Executive Order #90 on May 17, 1979, to study "the traumatic effects of domestic violence and how our social and legal systems can better deal with such violence and its causes."

The Uniform Crime Reporting System (UCR) is utilized by DCJS as the data collection instrument for obtaining domestic violence data from the local law enforcement agencies. The domestic violence data reflected in this report are based on those offenses which have come to the attention of law enforcement officers, regardless of whether a formal complaint was filed or an arrest made.

Statewide, domestic violence offenses reported decreased. A total of 79,190 offenses were reported in 1991 as opposed to 88,227 reported in 1990, a decrease of 10.2 percent. For New York City, the 46,904 offenses reported in 1991 is a 5.1 percent increase over 1990, while the Upstate counties decreased 26 percent.

INDICTMENTS AND DISPOSITIONS

The following tables present data on felony indictments and dispositions for 1991 and 1990. This information is obtained from a statistical reporting system based on individual reports of each indictment and each disposition submitted by district attorneys and special prosecutors throughout the State. The unit of count in this reporting system is the defendant/indictment; that is:

- When several defendants are named in one proceeding or indictment, each defendant is counted separately; and
- When one defendant is named in multiple proceedings or indictments, each indictment is counted separately.

The use of offender-based statistics and the tracking of each defendant from time of indictment until final disposition makes possible the measuring of elapsed time between various stages in processing. The median time is obtained by ranking all the values in a specific category (for example, time from indictment to disposition) and choosing the middle number - that is, the number with an equal amount of values above and below it. As a result, the median values are not influenced by very large or very small numbers which can affect averages.

It should be noted that the disposition data reported in these tables pertain to cases handled during the specified year by the superior courts. These dispositions may be for indictments in the same or previous years.

DEFENDANT - INDICTMENTS

- Felony indictments in New York State totaled 78,073 in 1991, down 2 percent from the 79,845 felony indictments reported in 1990.
- In each of the previous eight years, statewide felony indictments had registered an increase over the preceding year.
- The decrease in total felony indictments is directly attributable to the decline in felony drug indictments.
- Felony drug indictments in New York State dropped from 33,892 in 1990 to 31,166 in 1991, a decrease of 8 percent.
- This is the second successive year that felony drug indictments have declined.
- Class A felony drug indictments in New York State decreased from 2,371 in 1990 to 1,987 in 1991, a drop of 16 percent.
- Statewide non drug felony indictments increased by 2 percent from 1990 to 1991.

1991

Comprised of fifteen uniformed State Troopers, the **New York State Police Hazardous Materials Unit** has in the past targeted all vehicles placarded as carrying hazardous materials. As of May 1987, this unit was given the authority to inspect any vehicle whether or not suspected of carrying hazardous materials. In August 1990, Uniform Traffic Tickets could be issued to commercial vehicles not transporting hazardous materials for certain safety violations. Specializing in inspection of highway transport of hazardous materials, the following was reported to the Division of Criminal Justice Services as 1991 activity:

DEPARTMENT OF ENVIRONMENTAL CONSERVATION
DIVISION OF ENVIRONMENTAL ENFORCEMENT
1991-92 REPORT ON HAZARDOUS WASTE AND WASTE DISPOSAL VIOLATIONS

The Department of Environmental Conservation's (DEC) Division of Environmental Enforcement (DEE) assists in the civil and criminal enforcement of Environmental Conservation Law. Consisting of attorneys, engineers, geologists and chemists, DEE provides valuable legal and technical assistance to a number of State units; Environmental Conservation Investigations, County District Attorney's Offices, the State Attorney General's Office, and the U.S. Department of Justice. Support services provided by DEE include legal sufficiency evaluations of investigations, sampling and analysis of evidence, the drafting of search warrants, legal research, and investigator assistance in the development of matters for prosecution referral.

While DEE does not have independent criminal prosecution authority, on many occasions DEE attorneys have been deputized to handle environmental prosecutions.

The Division of Environmental Enforcement's report on 1991-92 Division activities concerned with hazardous waste and waste disposal violations includes assistance with the cases already reported by Environmental Conservation Investigations and several reported by the District Attorney's Offices. In addition, Environmental Enforcement assists the Department of Justice, the Attorney General's Office, and District Attorney's offices with cases.

Last year the Division of Environmental Enforcement reported 42 criminal cases leading to a conviction. Sentences for these convictions resulted in prison, jail, probation, community service, restitution, fines and other monetary penalties exceeding eight million dollars.

DIVISION OF CRIMINAL JUSTICE SERVICES
OFFICE OF JUSTICE SYSTEMS ANALYSIS
ENVIRONMENTAL CRIME REPORT

The Computerized Criminal History/Offender-Based Transaction Statistics (CCH/OBTS) data system utilized by the Division of Criminal Justice Services (DCJS) is a compilation of data from police, courts, and correctional agencies and is used to track individual offenders through the criminal justice system. The total number of violations reported from the information contained in this file is considerably lower than the total number reported by Environmental Conservation Investigations (currently considered the most complete data source on the subject). The reasons are several. In order to be included in the DCJS data base, the charge must have been for a fingerprintable offense as designated by State law. Not all Environmental Conservation hazardous waste/waste disposal violations are fingerprintable. It also follows that in order to be fingerprintable, the charge must have been levied against a person as opposed to a corporation or other entity. In a 1988 review of the hazardous waste/waste disposal violation data on cases disposed by the DEC Investigations Unit it was determined that less than 20 percent of violators charged were individuals. Lastly, Environmental Conservation hazardous waste/waste disposal charges are counted here only if they are the most serious charge levied ('top-charge') in an arrest or disposition event. Often a violation will include other more serious charges.

The information available through the Division's CCH/OBTS file includes a regional breakdown of the number of violations.

New York City	2	1	2	0
Suburban New York City	4	1	6	0
Upstate New York	5	0	8	2
Total New York State	**11**	**2**	**16**	**2**

For reasons described above, the number of environmental crimes reported to this agency are small. However, throughout the State there was an increase in the number of arrests in which a hazardous waste violation was the most serious charge.

Dispositions for 1991 indicated five cases disposed with one disposed in the lower courts and four in the upper courts. The lower court disposition resulted in a conviction. Of the four Upper Court dispositions, three were dismissed and one resulted in a conviction with a sentence of jail. (Information on the reasons for dismissal is not available. In many cases criminal prosecutions are dismissed in order to pursue civil or administrative remedies.)

FUTURE DIRECTION

In this period of environmental consciousness our continued focus on hazardous waste and waste disposal violations will attempt to point out the extent of the problem and the responses to it. Although several state agencies and district attorneys have contributed to this report, it is difficult to provide a complete statewide summary of these violations because these agencies deal with different aspects of the problems such as offenses known, arrests, court dispositions, clean up, investigation and prevention.

Legislation is in place that prohibits a wide variety of environmentally harmful acts of waste disposal and hazardous waste disposal but these offenses are not presently specified on the offense reports collected from local police agencies. When the incident based reporting system is implemented, data on these offenses will become available.

NEW YORK STATE
DIVISION OF CRIMINAL JUSTICE SERVICES

REPORT ON
FELONY INSURANCE FRAUD CASE PROCESSING
IN NEW YORK STATE

Introduction:

Insurance fraud is an issue of increasing public concern in New York State and has taken on many forms. Automobile insurance fraud is a factor in underwriting losses and premiums. Personal injury fraud has had a significant effect on workers compensation and property-casualty insurance, which is exposed to schemes involving motor vehicle theft rings, staged accidents, and arson. The growing sale of health insurance policies that prove worthless because of fraud, has also added to the nation's health insurance crisis. Perhaps even more disturbing is that regulators and researchers suggest that insurance fraud is far more common and costly than even insurance industry estimates.

Because of the increasing concern with insurance fraud, Legislative enactment (Chapter 480 of the 1992 Laws of New York) now requires the New York State Division of Criminal Justice Services (DCJS) to collect and analyze statistical information on the number of felony insurance fraud offenses violating Article Four of the New York State Insurance Law and Sections 176.15, 176.20, 176.25 and 176.30 of the New York State Penal Law relative to insurance fraud. In compliance with this mandate, this report presents a general overview of the number of felony insurance fraud arrests, indictments, and dispositions that occurred in New York State between 1987 and 1991. In addition, it describes each of the felony insurance fraud offenses as specified in the New York State Penal Law.

All of the insurance fraud offenses under the Penal Law are fingerprintable offenses and therefore recorded in the Computerized Criminal History/Offender-Based Transaction Statistics System (CCH/OBTS). This system uses data collected from police, prosecutors, courts and correction agencies to track individual offenders through the criminal justice system. With CCH/OBTS, both arrests and dispositions are recorded where the specific insurance fraud offense is the most serious charge in an arrest or disposition event. Indictments (and dispositions) for these felonies are recorded in the Indictment Statistical System (ISS). Data for ISS are provided by each District Attorney and Special Prosecutor in the State.

Penal Law Insurance Fraud Offenses:

§176.05 Insurance fraud; defined:

A fraudulent insurance act is committed by any person who, knowingly and with intent to defraud presents, causes to be presented, or prepares with knowledge of belief that it will be presented to or by an insurer or purported insurer, or any agency thereof, any written statement as part of, or in support of, an application for the issuance of, or the rating of an insurance policy for commercial insurance, or a claim for payment or other benefit pursuant to an insurance policy for commercial or personal insurance which he knows to: (i) contain materially false information concerning any fact material thereto; or (ii) conceal, for the purpose of misleading, information concerning any fact material thereto.

§176.15 Insurance fraud in the fourth degree:

A person is guilty of insurance fraud in the fourth degree when he commits a fraudulent insurance act and thereby wrongfully takes, obtains or withholds, or attempts to wrongfully take, obtain or withhold property with a *value in excess of one thousand dollars*. Insurance fraud in the fourth degree is a class E felony.

§176.20 Insurance fraud in the third degree:

A person is guilty of insurance fraud in the third degree when he commits a fraudulent insurance act and thereby wrongfully takes, obtains or withholds, or attempts to wrongfully take, obtain or withhold property with a *value in excess of three thousand dollars*. Insurance fraud in the third degree is a class D felony.

§176.25 Insurance fraud in the second degree:

A person is guilty of insurance fraud in the second degree when he commits a fraudulent insurance act and thereby wrongfully takes, obtains or withholds, or attempts to wrongfully take, obtain or withhold property with a *value in excess of fifty thousand dollars*. Insurance fraud in the second degree is a class C felony.

§176.30 Insurance fraud in the first degree:

A person is guilty of insurance fraud in the first degree when he commits a fraudulent insurance act and thereby wrongfully takes, obtains or withholds, or attempts to wrongfully take, obtain, or withhold property with a *value in excess of one million dollars*. Insurance fraud in the first degree is a class B felony.

Felony Insurance Fraud Arrests:

In 1991, there were 202 felony insurance fraud arrests in New York State, nearly twice as many as 1987. Insurance fraud in the third degree constituted approximately 80 percent of all felony insurance fraud arrests, while insurance fraud in the fourth degree comprised 18 percent. Arrests for insurance fraud in the first and second degrees remained relatively low between 1987 and 1991.

2.2 CRIMINAL CASES

Criminal cases are processed in the trial courts as follows: Felony indictments and superior court informations are processed in the Criminal Term of the Supreme Courts in New York City and in the County Courts outside New York City. In several counties outside New York City, a portion of the felony caseload is processed in the Supreme Court as well. The District Courts of Nassau and Suffolk and the City, Town, and Village Courts outside New York City have original jurisdiction over felonies and complete jurisdiction over misdemeanors, violations, and infractions.

1. Criminal Term of Supreme and County Courts

Filings: Statewide, 78,354 felony cases were filed in the Supreme and County Courts during 1991.[3] Sixty-six percent (52,089) of the 1991 filings occurred in New York City.

Table 2-2 shows 1991 filings by judicial district.

Table 2-3 focuses on individual counties, showing the twenty counties with 400 or more felony case filings in the Supreme and County Courts. These twenty counties accounted for 91% of all felony filings in these courts.

3"Cases" are a count of "defendant-indictments", i.e., each defendant on each indictment counts as a case.

Dispositions: Statewide, 82,138 cases reached disposition (guilty plea, trial verdict, dismissal, or miscellaneous other) in 1991. Sixty-six percent (54,387) of the 1991 dispositions occurred in New York City.

Table 2-2 shows 1991 dispositions by judicial district.

Table 2-3 shows the twenty counties with more than 400 dispositions in 1991; these counties accounted for 91% of all felony case dispositions. Thirteen counties which commenced over 40 trials accounted for 89% of felony trials commenced statewide in 1991. Of the total of 5,158 felony trials commenced, 4,460 (86%) were jury trials.

Figure 2-1 shows felony case dispositions by type. There were 69,344 guilty pleas (84%) 6,633 dismissals (8%), 4,693 trial verdicts (6%) and 1,468 other dispositions (2%).

In addition, 156,222 traffic tickets were filed and not answered. In jurisdictions without a parking violations bureau, the City and District Courts process parking tickets. Dispositions totaled 640,325 in 1991. In addition, 164,121 parking tickets were filed and not answered.

Investigations

Probation departments conducted 116,606 regular investigations (pre-sentence, pre-plea, JD, and PINS) and 82,879 other investigations in 1991, as compared to 114,284 and 77,894 respectively, in 1990. This 199,485 total is a 4% increase over the 192,178 investigations conducted in 1990.

Pre-disposition Services

Probation Supervision

The total number of family and criminal cases sentenced to probation decreased slightly from 54,194 in 1990 to 54,138 in 1991. The number of family and criminal cases under probation supervision at the end of the year increased from 152,491 in 1990 to 164,942 in 1991, an increase of 8%.

The number of criminal cases sentenced to probation in NYC increased by 7% from 17,932 in 1990 to 19,134 in 1991. During 1991, there were a total of 47,440 criminal cases sentenced to probation in New York State. This is a slight decrease from 1990 when 47,656 cases were sentenced to probation.

Felony cases sentenced to probation increased between 1987 and 1991. Misdemeanor cases increased between 1987 and 1988 and then began to decline between 1988 and 1991. The increase in felony cases was more obvious in NYC than in Upstate counties.

The number of criminal court cases supervised on December 31 in NYC rose from 65,792 in 1990 to 70,656 in 1991, and increase of over 7%. Statewide the number of criminal court cases supervised at the end of the year rose from 145,266 in 1990 to 157,653 in 1991, an increase of 8.5%.

Since 1987, the total number of felony cases supervised at the end of the year have outnumbered misdemeanors. However, outside NYC, there has continued to be a larger number of misdemeanor cases supervised than felony cases.

Of the 40,438 criminal cases closed in 1991, 13,389 (33%) were by early discharge and another 10,811 (27%) were closed by maximum expiration. In NYC, these categories reflected 45% of all case closings. Outside NYC, these categories reflected 68% of all case closings.

DIVISION OF PROBATION & CORRECTIONAL ALTERNATIVES
ALTERNATIVES TO INCARCERATION PROGRAMS

During 1991, the Division of Probation and Correctional Alternatives (DPCA) funded 145 different Alternatives to Incarceration Programs (ATI) across the state. For data reporting purposes the programs are organized into four different program models: Pretrial Release, Defender Based Advocacy, Community Service Sentencing, and Specialized Services.

The following summary defines the four program models and provides basic information on program activities during calendar year 1991.

PRETRIAL RELEASE:

Pretrial Release programs fundamental purpose is to facilitate the release of individuals from detention. These include programs which promote Release on Own Recognizance (ROR), Release Under Supervision (RUS), Bail and Bail Reduction.

DPCA funded 47 Pretrial Release programs during 1991. Together these programs interviewed approximately 65,000 individuals detained in jail and facilitated the release of almost 50% of those interviewed.

DEFENDER BASED ADVOCACY:

DPCA funded fifteen DBA programs in 1991. Their primary purpose is to prepare pre-plea and pre-sentence memorandum for the courts, specifying plans that incorporate non-incarcerative sentences. During 1991, these programs provided services to over 1,000 cases.

COMMUNITY SERVICE SENTENCING:

During 1991, DPCA funded 41 Community Service programs. These programs place clients at worksites and monitor the completion of their community service sentences.

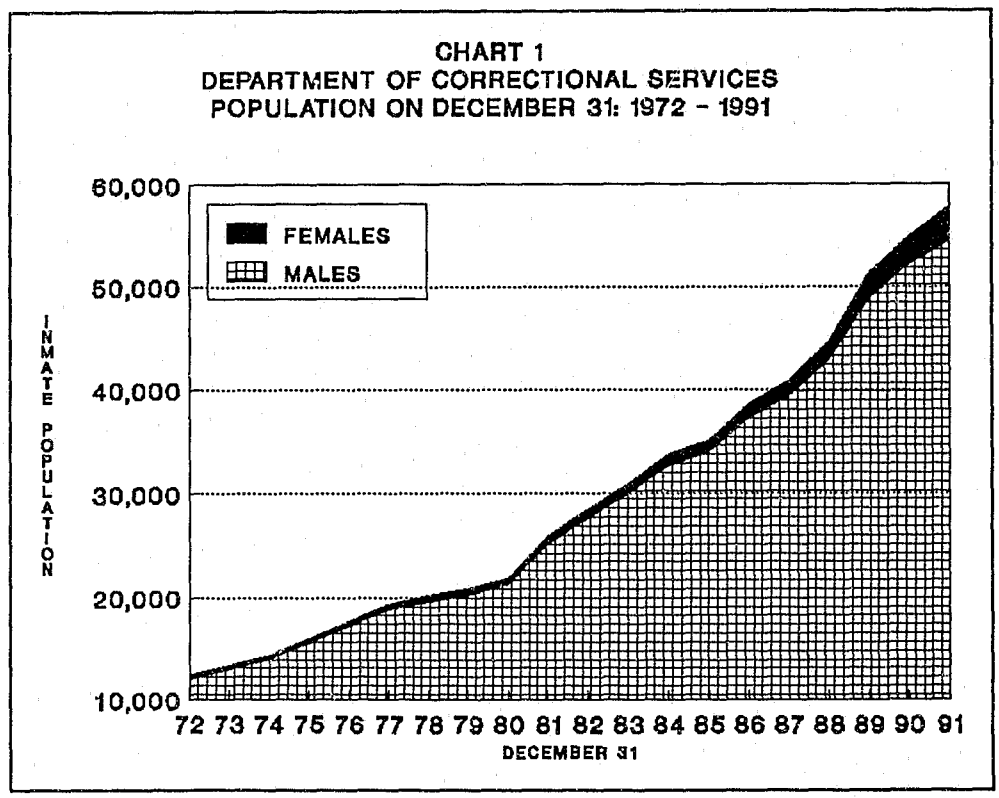
Approximately, 4,000 individuals were interviewed by these programs during 1991. Over 3,000 were placed in worksites completing over 300,000 hours of community service.

SPECIALIZED SERVICES:

Specialized Service programs are programs which do not readily lend themselves to one of the other three program models. Many of these programs directly address the treatment needs of the clients and several provide a higher level of supervision than an individual would normally receive while participating in alternative programming. Specialized service programs include: Drug and Alcohol programs (Residential, Outpatient, and Day Reporting), TASC and TASC-like programs which provide assessment and case management services, Sex Offender programs and Domicile Restriction programs.

Fourty-four programs fell into this category in 1991. These programs interviewed approximately 5,000 individuals and provided services to over 60% of these individuals.

NEW YORK STATE DEPARTMENT OF CORRECTIONAL SERVICES



Under Custody Population **(Table 1 and Chart 1)**

The number of inmates in New York State prisons rose to an all-time high of 57,862 by the close of calendar year 1991. This represents a rise of 5.4% or 2,967 inmates from the previous year and 365.0% from a low of 12,444 inmates on December 31, 1972. Prior to 1972 the prison population had declined following a series of executive, legislative and judicial actions which diverted a number of offenders to other agencies. In the early 1970's, a rising volume of crime led to the enactment of more stringent legislation which was accompanied by an increase in admissions to state prisons. In 1973 admissions exceeded prison releases for the first time since 1963 and the prison population increased. This increase has continued annually and is expected to continue over the next five years.

The number of women in prison has risen at a higher rate than the rate of increase for men. At the close of 1991, the female population at 3,368, was 25.2% (677) higher than the 2,691 at the close of 1990 and 753.4% (2,991) more than the 1973 low of 397. By the close of 1991, males increased to 54,494, up 4.4% (2,290) over the 52,204 in 1990 and 352.3% over the 1972 low of 12,047.

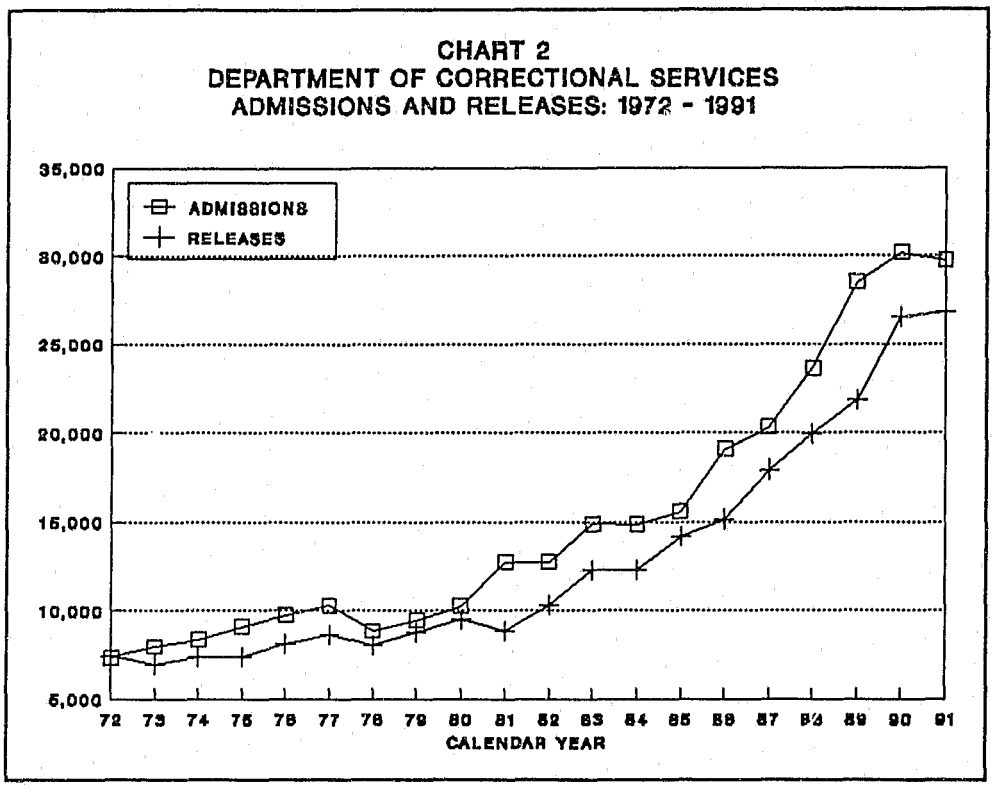
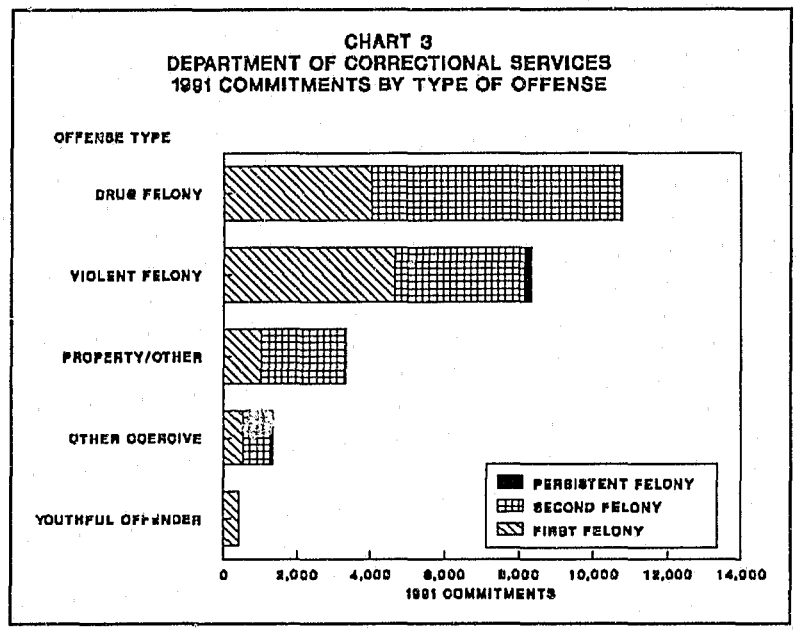
Admissions To Department Custody (Table 1 and Chart 2)



Admissions to DOCS facilities continued at a high level in 1991 led by an all time record of 24,116 court commitments. Admissions have shown a general rise over the twenty year period 1972 - 1991, with a volume of 29,743 in 1991. Court commitments account for over four out of five admissions and trends in this category largely shape the flow of offenders into state prisons. Beginning in 1971, felony commitments rose rapidly, offsetting declines in commitments for lesser offenses which have been diverted to other agencies. Contributing to this trend have been a rise in crime, felony arrests, indictments, and court dispositions and an increasing tendency of the courts to commit convicted felons to prison. Several stringent laws enacted in 1973 and in subsequent years have added to this increase in commitments. These include the second felony offender law which imposes mandatory state prison terms for such offenders; a drug law which imposes harsher penalties on drug felons; the imposition of mandatory terms of imprisonment on all Class B and certain Class C and Class D felonies. The trend toward a higher level of court commitments has continued through 1991 reflecting the additional impact of the violent felony legislation that became effective in 1978 as well as the growing pool of felony offenders who must be sent to prison in the event of any new felony conviction.

Reason For Commitment (Table 2 and Chart 3)

Of 24,116 commitments to DOCS in 1991, 54.9% or 13,238 were sentenced as second felony offenders. A mandatory state prison term is required for persons convicted of a second felony offense. The single largest crime group was made up of drug felons accounting for 44.7% or 10,778 of all commitments. Over half, 62.4%, of the drug felons were sentenced as second felony offenders.



One out of three (8,329 or 34.5%) of the 1991 commitments had been convicted of crimes designated in the penal law as Violent Felony Offenses (VFO). Robbery led the VFO group followed by burglary, dangerous weapons, homicide, assault, and violent sex crimes. The VFO crime group had the smallest (41.9%) portion sentenced as second felony offenders.

Property and other felonies accounted for 13.7% or 3,314 of the 1991 commitments. Burglary 3rd was the largest crime category in this group followed by larceny, stolen property, forgery and driving while intoxicated. This group had the highest portion sentenced as second felony offenders, 68.6%.

There were 1,280 commitments for lesser felonies involving violence or coercion. Robbery 3rd led this group followed by assault, homicide, and other sex crimes. Over half, 58.4% were sentenced as second felony offenders.

A small group of inmates (225) were sentenced as persistent felony offenders with a maximum term of life. Offenders convicted of three or more VFO's receive a mandatory persistent felony sentence while this type sentence is optional for other combinations of felonies. The largest portion (183) of the persistent felons were VFO's. Drugs at 26 was the next largest category followed by property crimes at 10 and other coercive at 6.

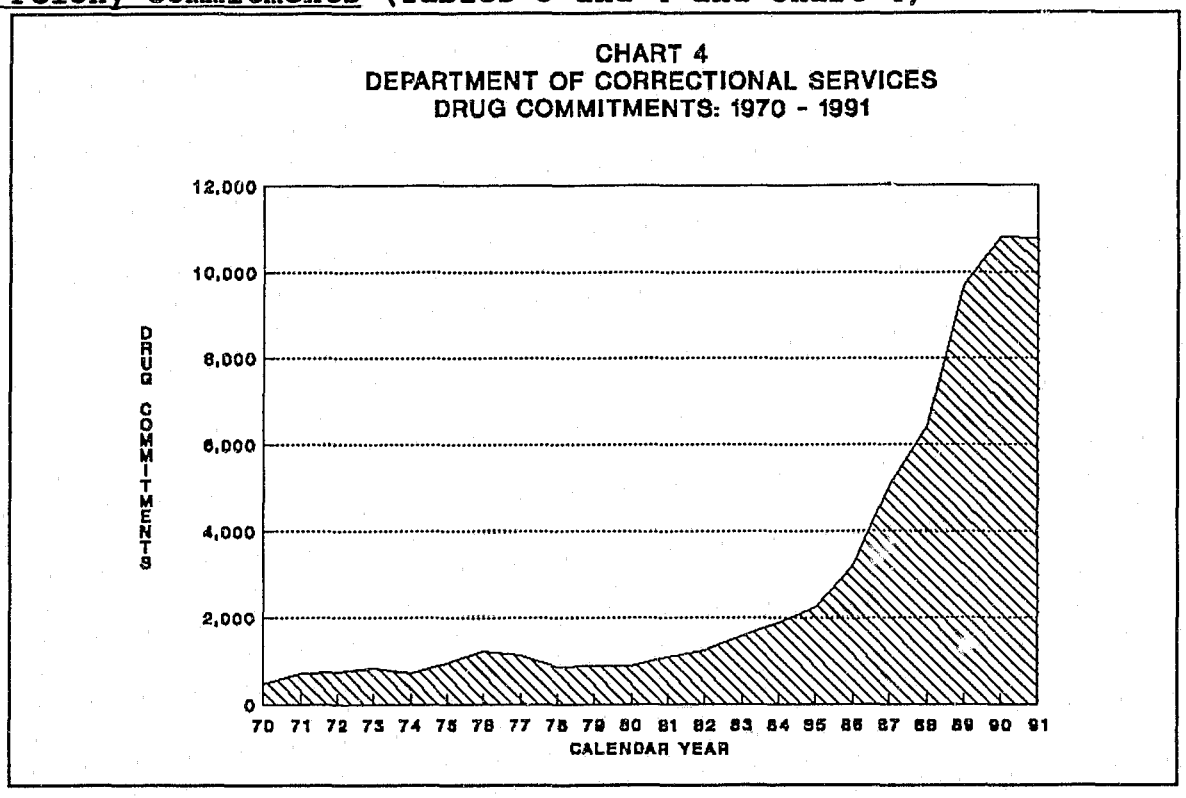
Drug Felony Commitments (Tables 3 and 4 and Chart 4)



Drug commitments to DOCS have risen over the 1970 - 1991 period from an annual figure of 470 to 10,778. Over the 14 year period from 1970 to 1983, drug felons accounted for an average of 12.2% of all DOCS commitments ranging from a low of 10.5% to a high of 15.0%. Since then the proportion of drug felons to total commitments has increased markedly and in 1991 accounted for 44.7% of all commitments to DOCS. Class A felonies accounted for 853 or 7.9% of all drug commitments in 1991 (82 for Class A-I and 771 for Class A-II). There were 2,502 or 23.2% Class B drug felons committed followed by 2,459 Class C (22.8%); 3,697 Class D (34.3%); and 1,267 Class E (11.7%). Crimes of drug sale accounted for 70.7% of drug commitments while possession accounted for 29.3%. Only among Class A felons did possession at 60.3% account for a greater portion of commitments than did sales at 39.7%.

Over one half (62.6%) of the all drug commitments received predicate felony sentences. Only 7.4% of the Class A drug felons were sentenced as second or persistent felony offenders. Among the Class B group, 26.8% or 671 were sentenced as predicate felons and 56.9% or 1,398 of the Class C group. Class D drug felons had the second highest portion sentenced as predicate felony offenders at 91.8% or 3,394 with the Class E goups at 96.5% or 1,223 with the highest portion of predicate felony sentences.

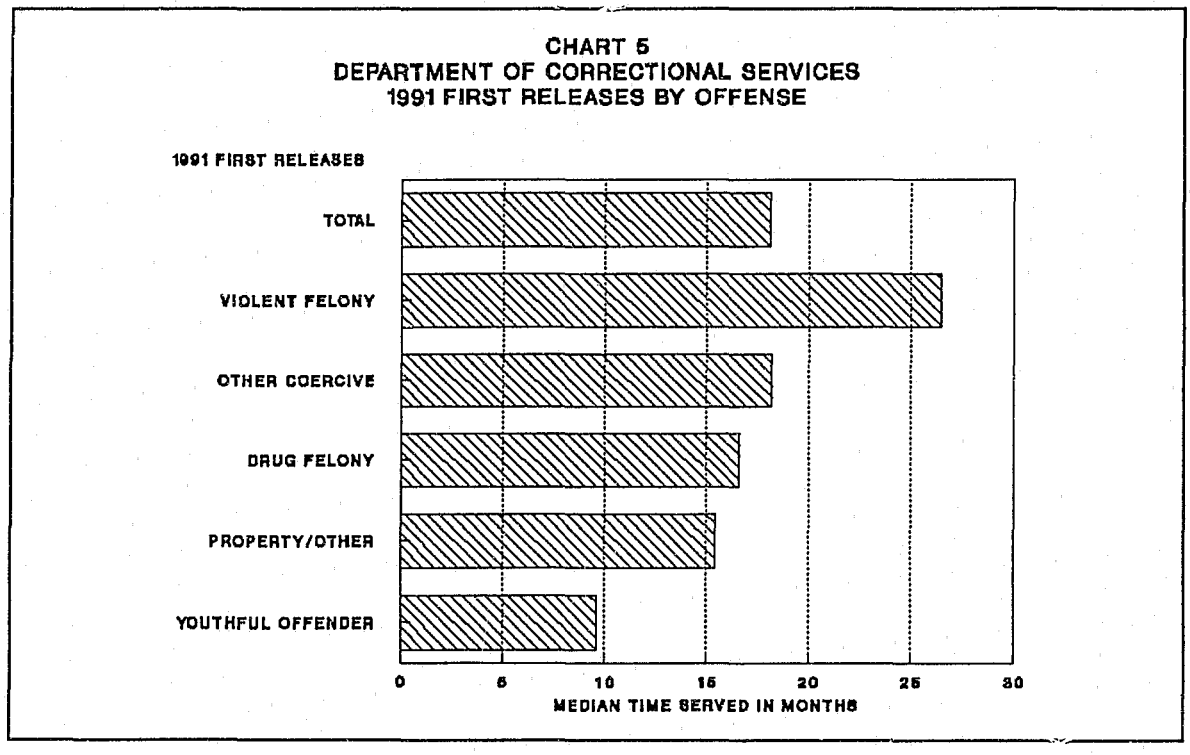
Releases From Department Custody (Table 1 and Chart 2)

Releases from Department custody in 1991 totaled 26,776. Paroles at the discretion of the Board of Parole accounted for 72.4% (19,394) of all releases. Conditional releases to parole supervision (which are mandatory) made up 12.1% (3,247) of the releases. Unauthorized absences from temporary release made up an additional 7.2%; transfers to other agencies 3.3%; expirations of sentence 2.9%; deaths 1.2% and other releases 0.8%. Total releases trailed admissions by 2,967 accounting for 5.4% rise in the population under custody at the close of 1991.

Time Served By First Releases (Table 5 and Chart 5)



There were 18,400 inmates released to parole supervision for the first time on their current sentence during 1991. The median time served by these offenders in Department facilities was 18.1 months. Violent felony offenders had the highest time served at 26.5 months. Other coercive felons served a median time of 18.2 months followed by drug felons at 16.6 months; property/other felons at 15.4 months; and Youthful Offenders at 9.6 months. As expected, persons convicted of murder served the longest period of time, 179.8 months, followed by manslaughter 1st at 70.4 months and rape 1st at 57.6 months. As noted, Youthful Offenders served the shortest period (9.6 months) followed by stolen property at 14.7 months and forgery at 14.8 months.

NEW YORK STATE COMMISSION OF CORRECTION

The State Commission of Correction oversees all correctional facilities in New York State including state prisons, county jails, city, town and village lockups and precincts. Its goals are: to regulate and oversee the operation and management of state and local correctional facilities; to develop policies, plans and programs that will improve the administration of these facilities; and to promote a safe and secure correctional environment for both staff and inmates. In light of these goals, the Commission investigates incidents and correctional management issues; establishes and enforces minimum standards; provides training for county correction officers and managers; offers technical assistance on health services including AIDS related issues; and, approves plans and specifications for new jail construction or renovations. The Commission also serves as a central repository for information on the correctional system in New York State.

Three Commissioners head the agency: A Chairperson and two members who chair the Citizens' Policy and Complaint Review Council and the Medical Review Board, respectively. The Citizens' Council monitors grievances in county facilities and provides an avenue for citizen participation in development of Commission policies and programs. The Medical Review Board monitors medical and mental health services in correctional facilities and investigates circumstances surrounding inmate deaths.

The correctional system in New York State is comprised of three major correctional jurisdictions including the Department of Correctional Services, the New York City Department of Correction, and county jails/penitentiaries. The Department of Correctional Services (DOCS) operates all state correctional facilities. DOCS houses only those inmates who are sentenced to more than one year. The New York City Department of Correction (NYCDOC) operates all county correctional facilities within the City of New York; and thirdly, county jails and penitentiaries are operated by individual county sheriffs/correction departments. These county departments house pre-trial individuals as well as those who are sentenced to one year or less.

In addition, the Commission of Correction monitors and serves as a central repository of data for the New York City Police Department (operating New York City Precinct Lockups) and all other City, Town and Village Police Department Lockups outside the City of New York.

INMATE POPULATIONS

The Commission began collecting inmate population data by conducting semi-annual telephone surveys to county jails and penitentiaries in 1981. Currently, county facilities report daily inmate populations via the on-line Jails Daily Population Reporting System.

Inmate population counts for both the New York City Department of Correction and the State Department of Correctional Services are obtained from Daily Population Reports produced by both departments.

Table I and Figure 1 present the inmate populations across the three major correctional jurisdictions from 1981-1991.

Figure 1

Table II illustrates the percent of occupancy of county inmates to jail capacity for upstate facilities as well as the City of New York. The average daily count for the month of December, 1991 includes the physical body count only. It is common for "upstate" jails to board their inmates out to other counties due to overcrowding. This decreases their body count in order to maintain facility compliance for maximum occupancy. Conversely, many counties board-in inmates from surrounding counties when they have bed space available. This increases their body count to include all inmates housed. The following table reports the actual body count for all jails across New York State for the last month of 1991. The design capacity represents the amount of permanent jail space within each facility. The total capacity includes all permanent and temporary jail space available within each facility. Examples of approved temporary capacity would include a day room that has been converted to house inmates until permanent jail space is obtained.

The average daily CENSUS for county correctional facilities for the last four years, 1988-1991, are displayed in Table III. The average census reflects the number of county inmates for whom the sheriff/commissioner are responsible. The census is computed by adding to the physical body count all those inmates who are boarded out to another county, housed out to a mental hygiene facility, etc. Inmates who are boarded in would not be included in the census. Rather these inmates are reflected in the county of origin or census county.

TOTAL INMATE ADMISSIONS FOR COUNTY JAILS/PENITENTIARIES AND THE NEW YORK CITY DEPARTMENT OF CORRECTION

County jail and penitentiary admission data are derived from the Statewide Compilation of Data from Sheriffs' Annual Reports for the years 1977-1990. The Commission of Correction compiles annual data from individual Sheriff and Penitentiary reports submitted by all county correctional facilities. Annual reports submitted by the New York City Department of Correction since 1983 are the source of all City admission data. The annual report for 1991 has not yet been completed by the New York City Department of Correction.

Tables IV and V represent total admissions reported by county correctional facilities. Total admissions include both sentenced and unsentenced admissions.

TOTAL ADMISSIONS TO CITY, TOWN AND VILLAGE LOCKUPS

The total number of admissions reported by police department lockups across New York State from 1977-1991 are reflected in Table VI. The Commission compiles annual data from individual record of detention reports received from police department lockups.

Beginning in 1985, the Commission requested a one day population figure from police departments. This one day population represents the number of admissions during the 24 hour period of 12/31. Table VII reports these December 31 population figures.

DIVISION OF PAROLE 1989–1991

THE BOARD OF PAROLE

During the 1989–90 and 1990–91 fiscal years, the Parole Board conducted over 54,000 interviews and/or hearings in State correctional facilities to determine the release readiness of eligible inmates for parole supervision and the re–release of parole violators, as well as other types of administrative hearings.

The number of release interviews conducted by the Parole Board increased from 26,393 in 1989–1990 to 28,093 in 1990–91, a 6% increase.

The Parole Board granted release to 36,182 inmates during the last two fiscal years with an increase of 6% in 1990–91. Release decisions were granted to 23,167 initial applicants during the two year period (inmates who became eligible for parole release after serving their minimum sentence from April 1, 1989 through March 31, 1991). Reappearance interviews resulted in 5,499 release decisions for inmates who were previously eligible for parole release, but were denied release and became eligible again. Re–release interviews for violators and other release interviews resulted in 7,516 inmates released to the community. The decisions rendered at the various release interviews are summarized in Table 1 below.

The community protection efforts of the Parole Board are reflected in a comparison of some of the characteristics of inmates granted and denied release at initial interviews. The comparison reveals that inmates who were denied release were more likely to have committed crimes involving the use of a weapon or the occurrence of an injury. Further, those who were denied release had more extensive prior records than inmates granted release. The effectiveness of the Parole Board's screening is demonstrated in greater detail in the table to follow:

PAROLE OPERATIONS

Institutional Parole

The Parole Officer assigned to an institution plays a critical role in the inmate's transition from institutional to community life. These Parole Officers serve in a bridging capacity between the inmate and the community, the inmate and the field parole officer, and the inmate and the Parole Board.

The role of the Parole Officer with an institutional assignment includes an assessment of the needs of each inmate and encouragement of their participation in programming, during incarceration, which meets these needs. These Parole Officers conduct inmate group counseling sessions and Parole orientation classes for inmates. Additionally, they interview inmates, in advance of their Board release interviews, to gather information which is presented to the Board in summary reports together with recommendations for the granting or denial of parole release and possible conditions of release.

After a parolee has been granted release, the Parole Officer continues to participate in Parole Board release planning through the Community Preparation Program. The Parole Officer provides the link between the institution and the community both through pre-release interviews conducted with inmates and through ongoing communication with the Field Area Office to which the parolee is to be released. These services are provided to both inmates who are released by decision of the Parole Board and to those conditionally released.

Finally, institutionally assigned Parole Officers participate on correctional temporary release committees, which grant temporary work release and furloughs to inmates. The Institutional staff is involved in committees within the state's correctional facilities that give support and advice to drug and alcohol programs.

Community Supervision of Parolees

Community supervision is at the heart of the Division's community protection mission. The Parole Officer with a field assignment is located in the community supervising offenders released from state correctional facilities. Community protection requires that Parole Officers adhere to strict supervision standards. Additionally, it is essential to ensure that parolees comply with the terms and conditions of release. When the conditions of release are violated, the Parole Officer must take appropriate action.

Presence in the community allows the Parole Officer to become familiar with the services and resources within their neighborhood. Through their familiarity with the surrounding community, the officer can expedite the reintegration of the offender by linking offenders with particular needs to relevant services.

Beginning in FY 85–86, the Division implemented Differential Supervision, which was a unique approach to community supervision caseload management. The concept targets resources on parolees with the highest levels of need for surveillance and social services in an attempt to meet the agency's goals of community protection and parolee reintegration. Allocation of these resources is based on a model of risk management under which newly released parolees are placed on Intensive caseloads which require extensive contact standards and reduced caseload size. After fifteen months, parolees are moved to Regular caseloads when their potential threat to the community and level of service needs have been reduced.

There were 50,921 individuals under community parole supervision during fiscal year 1990–91, as reflected in Table 3. This represented an increase of 15% over the previous year's figure of 44,202. Parole Board releases from state correctional facilities increased from 17,327 during fiscal year 1989–90 to 20,026 during fiscal year 1990–91. Statistics reflecting median time-served of those released by the Parole Board have remained very consistent over the years.

Table 3: **Parolee Movement And Census For Years 1989–1990 and 1990–1991**

Total End of Year Caseload (March 31)	35,388	41,922

A/ These individuals were actually released from state prison during the given fiscal year. The total number of releasees should not be confused with the number of inmates granted release by the Parole Board during the same year. Release interviews are done two months in advance, so that the number of actual releases is usually less than the number of inmates granted release by the end of a year. Moreover, inmates granted release in March, which is the close of the fiscal year, would be counted as releasees in the new fiscal year.

B/ During fiscal year 1989–90, community supervision of local releasees was transferred to local probation departments.

C/ This includes cases released to supervision both within and out-of-state.

D/ Removals include parolees discharged from parole supervision by expiration of maximum sentence, death, Board action, court order and prison returns.

E/ Dynamic population is the cumulative number of parolees under supervision during all or any part of the year.

F/ Delinquents are those parolees carried by parole officers who are either in the stages of the violation process or are absconders. Not all delinquents in the violation process will have their parole revoked.

Shock Incarceration

In response to prison overcrowding, in 1987 New York State created the Shock Incarceration Program. Carefully selected inmates who participate in this six-month regimented program of physical exercise, education, substance abuse treatment and counseling do not have to serve their entire minimum sentence but may be released from prison after successful completion of the six-month program. During fiscal year 1990–91, 1,937 Shock graduates were released from prison.

After release, the Shock program is continued by the Division of Parole; Shock parolees are supervised on reduced caseloads at a ratio of two parole officers for every thirty-eight parolees for the first six months in the community before moving to standard intensive caseloads. The goal of the Shock Supervision program is to reinforce the Shock experience by continuing to provide intensive supervision and a variety of programming opportunities.

Outcome of Parole Supervision

The primary goals of the Division of Parole are to assist offenders released from correctional institutions to adjust to community life, and to provide community protection by preventing these individuals from re-engaging in criminal behaviors.

Parole Officers carry out these goals by supervising parolees in the community, coordinating the delivery of available social services, and helping to motivate and guide the parolees towards a more positive life-style. However, one must realize that not all persons will abide by their conditions of release. The Division must, therefore, fulfill the goal of community protection by returning a violator to prison.

A violation of parole occurs when an individual under supervision violates the conditions of parole in an important respect. These conditions are agreed to in writing by an inmate upon release from prison to community parole supervision. They stipulate, for example, that if the releasee absconds from supervision or re-engages in criminal activity, his/her parole is subject to revocation. The individual may consequently be returned to prison following a series of due process hearings.

In the 1990-91 period, 15% of all parolees under supervision during the year were returned to prison by the courts for committing new crimes or by the Parole Board for violating the rules of parole (e.g., absconding, or illegal use of drugs). Table 4 provides a more detailed analysis of the parole success rate.

Table 4: **Outcome of Parole Supervision**

Outcome Measure	1989-1990 A/	1990-1991 B/
Rate of Parolees Returned to Prison with New Court Conviction During Year	5% (N=2,408)	6% (N=3,145)
Rate of Parolees Returned to Prison for Violating Conditions of Parole During Year	15% (N=6,764)	9% (N=4,424)
Total Rate of Prison-Returns During Year	21% (N=9,172)	15% (N=7,569)

A/ Rates computed on basis of dynamic population of 44,202 parolees during April 1, 1989 through March 31, 1990.

B/ Rates computed on basis of dynamic population of 50,921 parolees during April 1, 1990 through March 31, 1991.

In view of the data in Table 4, the parole success rate can be measured in several different ways.

In terms of total number of parolees not returned to prison, the success rate was 79% in 1989-90 and 85% in 1990-91. These results are an indication of the Division's overall performance in deterring parolee crime and reincarceration.

From the point of view of enforcing the rules of parole, parolees returned to prison for rule violations cannot really be considered "failures" in the same sense as those who were returned for new criminal convictions. For example, absconding from supervision is less serious than committing a violent offense. But, more importantly, a prison return based on a rule violation decreases the chances of a parolee being a threat to community safety. Given this, the success rate was actually 95% for fiscal year 1989-90 and 94% for fiscal year 1990-91.

Using the most rigorous definition of success, those parolees in an active reporting status, the success rate for 1989-90 was 71%; in 1990-91 it was 70%. This measure excludes parolees in either an incarcerative or absconder status. It is important to note that not all of these incarcerated or absconder parolees will have their parole revoked or even enter the violation process.

CRIME VICTIMS BOARD

Violent crimes such as murder, rape, robbery and assault perpetrated against our citizens often result in severe injuries and death and may cause crime victims and their family members to suffer financial hardship. With the acute proliferation of violent crime within the State in the 1960's and the apparent financial burden placed on the victims of these crimes, the need for crime victim compensation became apparent.

Created under Article 22 of the Executive Law, the Crime Victims Board (CVB) is a part of the Executive Department and is governed by five Board members. The Executive Law specifically provides that no more than three Board members can belong to the same political party, resulting in a bi-partisan Board. Board members are appointed for seven year terms by the Governor with the advice and consent of the Senate.

Since its establishment on August 1, 1966, the Board has provided substantial financial relief to victims of crime and their families by paying unreimbursed crime-related expenses, including medical and funeral expenses, loss of earnings or support, the cost of repairing or replacing items of essential personal property, reasonable court transportation expenses, and the cost of residing at or utilizing the services of a domestic violence shelter.

On July 5, 1979, the Board's role was expanded as it was designated by the Legislature to be the advocate for crime victims' rights, needs and interests in New York State. This advocacy role has resulted in the Board's formulation of legislation, subsequently enacted, which not only has protected and extended the rights of crime victims but also expanded the service and assistance available to them.

Since fiscal year 1981-82, the Board has been provided with additional funding by the New York State Legislature to award grants to local community-based programs across the State for the purpose of establishing victim/witness service delivery systems. Beginning in fiscal year 1986-87, the Board has also received federal Victims of Crime Act (VOCA) funds for this same purpose.

Offices of the Board are located in Albany (Principal Office), Buffalo and New York City.

CRIME VICTIM COMPENSATION PROGRAM

Providing compensation to innocent victims of crime and their dependents remains the primary function of the Crime Victims Board.

Upon a determination of eligibility a crime victim may submit evidence of unreimbursed causally related expenses to the Board for payment. To be eligible a victim between the ages of 18 and 60 must have suffered a personal physical injury. Victims under 28, over 60 or disabled may be eligible for an award without physical injury. All victims must establish that the crime was reported to the police, that they were innocent victims of crime, that all collateral sources of payment have been applied to their losses, and that there are unreimbursed causally related expenses.

During the fiscal year 1991-92 an eligible claimant could receive reimbursement for the following expenses:

- Unreimbursed expenses for medical or other related services.
- Lost earnings or loss of support up to $400 per week for a total maximum of $25,000.
- Burial expenses up to $2,000.
- Occupational rehabilitation expenses for victims or their family members, where necessary.
- Counseling services for victims suffering traumatic shock, as well as counseling services to spouses of sexual assault victims, survivors of homicide victims, eligible family members of a child victim and elderly and disabled victims not necessarily physically injured.
- For Good Samaritan victims only, property losses up to $5,000. A Good Samaritan victim is a person who has been killed or injured while attempting to prevent a crime, lawfully apprehend a perpetrator of a crime, or assist a police officer in making an arrest.
- Cost of repair or replacement of essential personal property lost, damaged or destroyed as the direct result of a crime up to $500.
- Transportation expenses for necessary court appearances in connection with the prosecution of the crime.
- The cost of residing at and utilizing the services of a domestic violence shelter.

- The cost of reasonable burial expenses without regard to the financial difficulty of the survivors when a police officer or firefighter dies from injuries received in the line of duty as a direct result of a crime.

For fiscal year 1991-92 the Crime Victims Board accepted 27,811 claims for compensation. In addition, 18,948 claims remained outstanding from the previous fiscal year. A total of 24,131 decisions were rendered resulting in 9,912 awards. At the end of the fiscal year a total of 23,890 claims remained outstanding.

VICTIM/WITNESS GRANTS-IN-AID PROGRAM

In 1981 the Crime Victims Board was provided with a legislative appropriation for the purpose of providing grants-in-aid for local victim/witness assistance services provided by programs operated by local governments and not-for-profit organizations. In that first year twenty-three victim/witness assistance programs received funds. In fiscal year 1991-92, ninety-two programs received $6.775 million in crime victim assistance funds appropriated and allocated to the Board for this purpose. Of this amount, $2.5 million represented State funds and $4.2 million represented federal Victims of Crime Act (VOCA) funds.
