# 1. BASIC INFORMATION

## Purpose of the Funding

The Office of Justice Programs (OJP) is committed to advancing work that furthers the U.S. Department of Justice's (DOJ) mission to keep our country safe and secure and uphold the rule of law and protect the rights of American citizens. OJP provides federal leadership, funding, and other critical resources to directly support law enforcement, combat violent crime, protect American children, provide services to American crime victims, and address public safety challenges, including human trafficking and the opioid crisis.

This notice of funding opportunity (NOFO) is for the **Criminal History Record Assessment and Research Program (CHRARP)**. Funds will be used to convert state- and federal-specific fields in criminal history records into research datasets with standardized codes that support statistical analysis and provide support with multiple recidivism statistics and research projects.

Under the 2026 CHRARP the recipient will:

- convert state- and federal-specific data fields into a uniform coding structure and account for variations in administrative records when analyzing multistate data.
- thoroughly examine the content and attributes of the criminal history data, identifying and documenting differences in the composition of the arrest, prosecution, court, and supervision information within and across jurisdictions.
- identify potential data quality issues and obtain feedback from federal, state, and tribal agencies as needed about these issues.
- develop methods to successfully transform 100% of the data fields found in the parsed rap sheet datasets into BJS's standardized values.
- transform each standardized dataset into a set of research extracts, including a research dataset and criminal history summary file, according to BJS's specifications.
- assist BJS in using criminal history data and other data sources to examine criminal offending patterns among at least two new cohorts. One cohort includes persons who served time in federal prisons and a second cohort is not defined. The undefined cohort may focus on persons who served time in prison, convicted offenders on community supervision, or updated criminal history analyses on previous studies lengthening the original recidivism follow-up periods. Each parsed dataset is expected to

include criminal history data on a sample of approximately 90,000 to 100,000 offenders.

- work with BJS to develop these new studies, explore specialized topics on criminal offending and recidivism patterns, and assess alternative sources of data that can support the research. The recipient will assist with developing the sample designs and weights for the studies.

Applicants are encouraged to propose cost-efficient methods and innovative solutions to carry out these tasks.

See the [Eligible Applicants](#) section for eligibility details.

### Statutory Authority

BJS is authorized to issue this solicitation under 34 U.S.C. § 10132.

### Agency Funding Priorities

To help meet its mission, OJP may give priority consideration to applications proposing (as applicable within the scope of this NOFO) projects designed to advance the goals listed below:

- (a) Directly supporting law enforcement operations (including immigration law enforcement operations);
- (b) Combatting violent crime;
- (c) Supporting services to American citizens;
- (d) Protecting American children; and
- (e) Supporting American victims of trafficking and sexual assault.

**Note:** Addressing these priorities is one of many factors that OJP considers in making funding decisions. Receiving priority consideration does not guarantee funding.

**Unallowable Activities:** The following are certain unallowable costs and certain activities that are out of the program scope and will not be funded.

1. Out of program scope is any program or activity, at any tier that, directly or indirectly, violates (or promotes or facilitates the violation of) federal immigration law (including 8 U.S.C. § 1373) or impedes or hinders the enforcement of federal immigration law—including by failing to comply with 8 U.S.C. § 1373, give access to DHS agents, or honor DHS requests and provide requested notice to DHS agents.
2. Out of program scope is any program or activity, at any tier that violates any applicable Federal civil rights or nondiscrimination law. This includes violations that (1) indirectly violate the law, including by promoting or facilitating violations; or (2) unlawfully favor individuals in any race or protected group, including on a majority or minority, or privileged or unprivileged, basis, within a given area, population, or sector.
3. As specified in Chapter 3.13 of the [DOJ Grants Financial Guide](#), “Unallowable Costs” (“Legal Services for Aliens”), any obligations of funds, at any tier, under this award to provide (or to support the provision of) legal services to any removable alien or any alien otherwise unlawfully present in the United States shall be unallowable costs for purposes any award made under this notice, but the foregoing shall not be understood to apply: (1) to legal services to obtain protection orders for victims of crime; or (2) to immigration-related legal services that may be expressly authorized or

required by any law, or any judicial ruling, governing or applicable to the award.

## Goals and Objectives of This Funding Opportunity

**Goal 1: Enhance and expand BJS's capabilities to process rap sheet datasets to support research on crime, criminal offenders, and the operation of justice systems.**

- **Objective 1:** Update classifications of rap sheet data and crosswalk tables with standardized numeric codes for use in research.
- **Objective 2:** Update and enhance computer programs to create high-quality research files.
- **Objective 3:** Create and implement quality control checks at each data processing stage.
- **Objective 4:** Create documentation on computer programs and rules developed to update and process rap sheet data.

**Goal 2: Assist BJS with at least two research studies.**

- **Objective 1:** Assist BJS with cohort sample selection, weighting, and sample matching as needed.
- **Objective 2:** Provides support to BJS with statistical analysis and report writing for research studies.
- **Objective 3:** Assist BJS with producing the necessary data and information to upload study results to the [Recidivism Patterns Explorer](#).

For a description of how awards under this NOFO will contribute to achieving these goals and objectives, see the [Performance Reports](#) section below.

## Expected Outcomes

OJP expects recipients to submit deliverables and performance reports, as described below. Read the [Application Resource Guide](#) for more information. OJP will measure success by reviewing a recipient's submission of performance reports and data and the extent to which project implementation reflects progress toward the goals and objectives of this NOFO.

### Deliverables

Recipients will be expected to submit the following:

- **Overall project management:** The recipient will be expected to develop and submit: (1) kickoff meeting summary memo and detailed timeline; (2) semiannual reports; (3) quarterly financial reports; (4) monthly progress reports; (5) completed criminal background checks for all project personnel

with access to the project data; (6) agendas for project meetings; and (7) summaries of project meetings.

- **Develop new studies on criminal offending and recidivism patterns with BJS:** The recipient will assist BJS in developing and conducting at least two research studies. The recipient will submit sampling plans and written recommendations on statistical methods to adjust sampling weights to account for each study subject for whom a complete criminal history record was not obtained through the FBI and state repositories.
- **Examine the content and attributes of criminal history data for each study and document differences:** The recipient will submit a report that documents differences in the composition of arrest, prosecution, court, and supervision information within and across jurisdictions, including statistical tables on state-level variation on key indicators and recommendations for analytic options to account for the variations.
- **Convert the parsed rap sheet datasets into standardized datasets that include BJS's uniform coding structure and provide technical reports:** The recipient will update crosswalk tables and programs to account for changes to the coding rules identified during the study period; provide a brief report summarizing how well the current coding rules standardize the parsed rap sheet data; and submit preliminary and full standardized versions of each dataset for each study (provided at varying points in time).
- **Prepare research extracts from each standardized dataset according to BJS specifications:** The recipient will provide BJS with: (1) computer programs developed to create research extracts; (2) codebook(s) that includes information about the data variables, coding values, and recodes implemented during the data processing stage; (3) written recommendations on statistical methods to adjust sampling weights to account for missing or partial criminal history records; (4) datasets that contain the variables needed to populate recidivism estimates and standard errors in electronic data analysis tools; (5) generalized variance functions to support computation of standard errors for the estimates provided by the data tools; (6) research extracts for both studies (delivered at varying points in time), along with accompanying statistical tables containing criminal history and recidivism estimates and corresponding standard errors; (7) the programming code, crosswalk tables, and databases used to process each parsed rap sheet dataset and produce each standardized dataset and research extract; (8) detailed documentation describing the methods used to produce the research extracts; and (9) detailed instructions documenting how to use the computer programs to reproduce the standardized datasets and research extracts and process additional parsed datasets.

- **Data Management Plan:** Recipients are required to develop and maintain a BJS-approved data management plan (DMP). The DMP will provide general program information and describe the specific procedures and controls that will be used during the award period for data collected or acquired, received, handled, processed, stored, transferred, and/or disposed of under BJS's authority.

For programs including information identifiable to a private person or personally identifiable information (PII), the DMP should complement the information provided in the Privacy Certificate (28 C.F.R. § 22.23) to describe data security and confidentiality controls. The recipient will complete the DMP in collaboration with the BJS Program Manager and must submit it to BJS for review and approval **no later than 60 days** after the award start date. The recipient must receive written BJS approval before changing the approved plan. The recipient must submit, as applicable, an updated copy of the DMP for review with its semi-annual performance reports and at any time upon BJS's request. A model DMP template is available on the BJS website at [Human Subjects Protection, Confidentiality, and Data Management Plan Requirements](#).

### Performance Reports

OJP requires recipients to submit regular performance reports that communicate progress toward achieving [Program Goals and Objectives](#). Read information on [performance reporting](#).

A list of performance measure questions for this funding opportunity can be found at [Data Collection Performance Measures](#).

**Substantial Involvement of Federal Agency:** OJP expects to make all awards under this NOFO as cooperative agreements, which allows OJP to have substantial involvement in carrying out the project. Read the [Application Resource Guide](#) for a discussion of this involvement and related award conditions.
