ACKNOWLEDGEMENTS

This report was prepared jointly by the Bureau of the Census and the Law Enforcement Assistance Administration. In the Law Enforcement Assistance Administration, general supervision was supplied by Anthony G. Turner and Charles R. Kindermann, assisted by Dawn D. Nelson, all of the National Criminal Justice Information and Statistics Service. In the Bureau of the Census, Governments Division, general supervision was provided by Kenneth E. Anderson and Alan R. Jones. Karl K. Kindel directed the project. Significant contributions were made by Robert G. Bloomberg, John Coleman, Ulvey Harris, Edward C. Malloy, Jr., Daniel L. Pflum, Carolyn D. Yandle, Operations units under the supervision of Charles W. Meyer and Richard Neach including Marjorie Barnes, Elston Bridgewater, Clyde Rains, and Ella Thomas, and in the Publication unit, Helen D. Files and Corrine Davis.

INTRODUCTION

This publication is part of an annual series of reports which present public expenditure and employment data on criminal justice activities in the United States. In this report, expenditure data cover the fiscal year 1970-71 and employment data refer to the month of October 1971.

As in previous years, specific data are supplied for the Federal Government, each of the 50 State governments and the aggregate local level of government within each State. However, this year, survey coverage was expanded considerably so that estimates at an acceptable level of confidence could be produced for each State of the percentum of the State and local law enforcement expenditure funded and expended by units of general local government. These estimates (table 1) are necessary to fulfill the provisions of the Omnibus Crime Control and Safe Streets Act of 1968 as amended by the Omnibus Crime Control Act of 1970 (further discussion with table 1). Due to the expanded coverage, it was possible to publish data separately for the aggregate county governments and the aggregate municipal governments within each State, and for each of 312 counties with a 1970 population of 100,000 or more, as well as 384 cities with a 1970 population of 50,000 or more. Also, data are shown for the 15 largest standard metropolitan statistical areas (SMSA's) introduced into the series for the first time last year.

The presentation of the tables has been re-organized into two major parts--the summary "Criminal Justice System" section showing the interrelationship of the various sectors of the system, and the six "Sector" sections providing,

where possible, a further breakdown of data on a particular criminal justice activity. The six sectors of criminal justice activity covered in this report are: Police protection, judicial, legal services and prosecution, indigent defense, correction, and other criminal justice. In addition, appendix 1 contains two new tables which show expenditure and employment data (not included in the summary totals) for special police force activities in selected school districts and special districts not regularly included in the survey.

Definitions for concepts, categories and terms used in this report are contained in appendix 2.

General

Local governments continue to spend more than the Federal and State Governments combined for all criminal justice activities. Table A shows that local governments accounted for 63.0 percent of all direct criminal justice expenditure (\$10,513 million), while State governments contributed 25.5 percent and the Federal Government 11.5 percent. However, when each activity is examined separately, the proportion accounted for by the different levels of government varies throughout the criminal justice system.

Three of the activities--police protection, judicial, and legal services and prosecution are supported mainly by local governments; the Federal Government is the principal supporter of indigent defense; while State governments are the largest supporters of correction and those activities included in the other criminal justice sector (see table A).

Table A. Percent Distribution of Total Direct Expenditure for the Criminal Justice System by Activity and Level of Government: Fiscal Year 1970-71

Level of government	Total	Police protection activities	Judicial activities	Prosecution activities	Indigent defense activities	Correction activities	Other activities
Total.....	100.0	100.0	100.0	100.0	100.0	100.0	100.0
Federal.....	11.5	13.0	9.9	18.1	47.6	4.8	16.2
State.....	25.5	14.2	23.1	21.9	12.8	57.8	59.1
Local.....	63.0	72.8	67.0	60.0	39.6	37.4	24.7

Relationships similar to those found for expenditure among the levels of government also apply to the employment situation. Table B shows that two-thirds of the total full-time equivalent criminal justice employees of all governments are employed by local governments. However, the distribution of employees at each level of government varies for each activity. In general, the level of government which expends the largest amount of the total expenditure for an activity also employs the greatest number of workers for that activity. The area of indigent defense is an exception to this pattern due to the extensive use of private counsel systems whereby fees are paid private counsel to defend indigent clients accused of crimes. Therefore, while the Federal Government expends the largest amount on indigent defense, 47.6 percent of the total, it is the local governments that employ the greatest number of employees in this activity, 70.5 percent of the total (table B).

Federal Government (tables 4 and 5)

In previous years, only Federal Government agencies which were obviously part of the criminal justice system were included in the survey. This year, however, an intensive effort was made to include criminal justice activities conducted by agencies not previously included in the survey.

Owing to this expanded coverage in combination with the normal yearly changes, the amount expended on the criminal justice system by the Federal Government (\$1,448 million) was 44.2 percent larger than the figure for the previous fiscal year. Over two-fifths (\$174 million) of the additional Federal expenditure was accounted for by the other criminal justice sector, comprised mostly of Law Enforcement Assistance Administration (LEAA) expenditures. LEAA total expenditure rose from \$65 million in fiscal year 1969-70 to \$233 million in fiscal year 1970-71.

The number of full-time equivalent Federal employees in criminal justice activities increased accordingly by 30.6 percent bringing the total to

77,523 full-time equivalent employees in October 1971. However, the increase is not accounted for by additional employees in the other criminal justice sector, but rather is the result of including employees performing police protection functions in agencies not previously covered by the survey. The payroll amounts for all Federal criminal justice employees totaled \$83 million, up \$16 million or 23.0 percent over October 1970.

State governments (tables 6-10)

State governments total general expenditure in fiscal year 1970-71 was \$89 billion. Of this amount just under \$3 billion or 3.3 percent was expended on criminal justice activities. This represents an increase of \$653 million or 22.4 percent in criminal justice expenditure over the previous fiscal year.

The sector showing the greatest proportionate increase in expenditure was the other criminal justice sector which spent \$113 million (323.0 percent) more this fiscal year. A large portion of this amount was accounted for by inter-governmental payments to local governments. A large relative increase (69 percent) in expenditure also occurred in the indigent defense sector. As in previous years, however, the correction sector still accounts for nearly half (\$1,387 million) of the State governments' criminal justice expenditures. The remaining amount was accounted for as follows: \$932 million in the police sector; \$327 million in the judicial sector; \$148 million in the other sector; \$109 million in the legal services and prosecution sector; and \$17 million in the indigent defense sector.

This increase in expenditure was accompanied by an increase in criminal justice employment and payrolls. The number of full-time equivalent employees in State criminal justice increased 19.5 percent and the payrolls increased 22.6 percent between October 1970 and October 1971.

The 205,859 State criminal justice employees represent 8.7 percent of the total 2,368,714 full-time equivalent State employees. These State

Table B. Percent of Full-Time Equivalent Employment in the Criminal Justice System by Activity and Level of Government: October 1971

Level of government	Total	Police protection activities	Judicial activities	Prosecution activities	Indigent defense activities	Correction activities	Other activities
Total.....	100.0	100.0	100.0	100.0	100.0	100.0	100.0
Federal.....	9.0	10.7	6.9	14.2	1.5	4.0	26.0
State.....	23.9	13.1	18.5	20.5	28.1	58.9	51.3
Local.....	67.1	76.2	74.6	65.3	70.5	37.1	22.7

criminal justice employees received \$165 million in salaries, wages, fees, and commissions in the month of October 1971. The payroll for each sector of the system was roughly proportionate to the number of employees accounted for by that sector. For example, the 106,045 State corrections employees (51.5 percent of the total State criminal justice employees) received 47.7 percent of the total State payroll for criminal justice. The proportions for the remaining sectors were: 69,375 police employees (33.7 percent) received 32.1 percent of the payroll; 19,856 judicial employees (9.6 percent) received 14.1 percent of the payroll; 8,133 legal services and prosecution employees (4.0 percent) received 4.9 percent of the payroll; 1,465 other employees (0.7 percent) received 0.7 percent of the payroll; the 985 indigent defense employees (0.5 percent) received 0.5 percent of the payroll.

Local governments-counties and municipalities (tables 6-10 and 13-22)

Direct criminal justice expenditure by local governments amounted to \$6,621 million in fiscal year 1970-71. The municipal governments outspent the county governments on criminal justice by 2 to 1 overall (\$4,468 million to \$2,152 million), but the difference can be attributed wholly to the police sector. Municipal governments spent \$3,758 million on police protection; more than county governments spent on the six sectors altogether. Due to this concentration of municipal expenditure in one sector, county governments actually spent more than municipal governments in four of the six sectors: Judicial (\$645 million vs. \$266 million), legal services and prosecution (\$171 million vs. \$124 million), indigent defense (\$41 million vs. \$10 million), and corrections (\$564 million vs. \$293 million). In the other criminal justice sector, the municipal governments spent \$18 million compared to the \$2 million spent at the county level.

At the local level, expenditure, employment and payrolls were distributed in nearly the same percentages throughout the various sectors. The distribution of the county government direct expenditure (\$2,152 million) among the sectors was: 33.9 percent for police protection, 30.0 percent for judicial, 8.0 percent for legal services and prosecution, 1.9 percent for indigent defense, 26.2 for correction, and 0.1 percent for other criminal justice. Correspondingly, in October 1971, the 193,011 full-time equivalent county employees in the criminal justice system were distributed throughout the sectors as follows: 35.7 percent in the police sector, 29.2 percent in the judicial sector, 8.3 percent in the legal services and prosecution sector, 1.2 percent in the indigent defense sector, 25.5 percent in the

correction sector, 0.1 percent in the other sector. Each sector received a percentage of the \$143 million county government payroll for that month in proportion to the number of employees in that sector.

The same relationship among expenditure, employment, and payroll was exhibited at the municipal level. The distribution of the municipal government direct expenditure (\$4,468 million) among the sectors was: 84.1 percent for police protection, 6.0 percent for judicial, 2.8 percent for legal services and prosecution, 6.6 percent for correction, 0.2 percent for indigent defense, and 0.4 percent for other. Similarly, of the 385,383 full-time equivalent criminal justice employees in October 1971, 86.6 percent were in the police sector, 6.1 percent in the judicial sector, 2.6 percent in the legal services and prosecution sector, 4.5 percent in the correction sector, 0.1 percent in the indigent defense sector, and 0.1 percent in the other sector. The payroll for the month of October totaled \$324 million.

Separate data are presented in tables 18-22 for the 312 county governments with a 1970 population of 100,000 or more and in tables 13-17 for the 384 city governments with a 1970 population of 50,000 or more. Together, the 312 county governments accounted for over three-fourths (\$1,654 million) of the total direct criminal justice expenditure of all counties in the United States. These counties also employed 138,401 (71.7 percent) of the total full-time equivalent criminal justice employees at the county level. However, only 57.1 percent of the total United States population live within these counties.

Direct criminal justice expenditure by the 384 city governments amounted to \$3,183 million and the number of full-time equivalent criminal justice employees totaled 257,268. While accounting for over two-thirds of the criminal justice expenditure and employment at the municipal level of government (71 percent and 67 percent of the total, respectively), these 384 cities only contained slightly over one-third (35.6 percent) of the total United States population.

The distribution of expenditure and employment throughout the various sectors in the 312 counties and the 384 cities reflect the distribution for all county governments and for all city governments.

It should be noted that in the individual city tables, certain cities are either independent, being wholly outside any county area, or operate wholly or in part as a consolidated city-county.

The units appearing are as follows: San Francisco, Denver, Washington, D.C., Jacksonville, Fla., Columbus, Ga., Honolulu, Indianapolis, Baton Rouge, New Orleans, Baltimore, Boston, St. Louis, New York City, Philadelphia, Nashville, and all displayed cities in Virginia.

Local governments in the 15 largest SMSA's (tables 11 and 12)

For the second time, data are presented on criminal justice expenditure and employment of all governments in the 15 largest standard metropolitan statistical areas (SMSA's) and each of their component county areas. The county area data include aggregate figures for the county government and for all municipalities within the county. However, in a few instances data for an individual government are included in the SMSA tables because it is the only government within a county area or county area equivalent. For example, data are shown for Baltimore city because it is the only government within the county area equivalent of Baltimore city. Similarly, New York City, Philadelphia, St. Louis, San Francisco, and Washington, D.C., and Alexandria, Fairfax, Falls Church, all in Virginia, are the only governments within their respective county area equivalents. The State Economic Area (SEA) rather than SMSA is shown for Boston because the SMSA's in New England are comprised of the towns rather than the counties, a deviation from the general SMSA concept. The SEA on the other hand, is comprised of counties.

The 15 largest SMSA's expended \$3,299 million for criminal justice activities in fiscal year 1970-71. As in 1969-70, one-half (49.8 percent) of the Nation's total local criminal justice direct expenditure was spent by governments in areas where 28.8 percent of the United States population resides. The percentage distribution of the 1970-71 total local government criminal justice

direct expenditure for government in these SMSA's for each of the six sectors was: Police protection, 50.0 percent; judicial, 46.4 percent; legal services and prosecution, 42.0 percent; indigent defense, 51.7 percent; correction, 54.9 percent; and other criminal justice, 52.7 percent (see table C).

The local governments in the 15 largest SMSA's employed 248,159 full-time equivalent personnel in criminal justice or 42.9 percent of the total number of local government employees working in criminal justice. The percentage of all local government employees working in each criminal justice sector in these SMSA's was: Police protection, 43.5 percent; judicial, 38.3 percent; legal services and prosecution, 38.3 percent; indigent defense, 45.6 percent; correction, 46.3 percent; and other criminal justice, 66.2 percent.

SURVEY METHODOLOGY - SOURCES AND LIMITATIONS OF THE DATA

General

The data for this report were developed in part from a special mail canvass questionnaire and in part from field compilations by trained field agents. Survey coverage and collection methods are described in detail later in the text and the definitions applied in the collection of data are presented in appendix 2.

As in previous editions of this annual series, several tables show comparisons of criminal justice expenditure and full-time equivalent employment with the total general expenditure and full-time equivalent employment for all functions of the particular government or level of government. The total general expenditure and total

Table C. Criminal Justice Total Direct Expenditure of All Local Governments and Local Governments in the 15 Largest SMSA's: Fiscal Year 1970-71

(Millions of dollars)

Local government	Total	Police protection activities	Judicial activities	Prosecution activities	Indigent defense activities	Correction activities	Other activities
All local governments....	6,621	4,488	910	295	51	857	20

Percent of all local governments ¹	49.8	50.0	46.4	42.0	51.7	54.9	52.7

¹Percents based on unrounded figures shown in tables 7 and 11.

full-time equivalent employment figures shown for the "local" level of government in these comparisons include data for units of general local government only. Since the "variable pass-through" provisions of the Omnibus Crime Control Act of 1970 required that the concept of "local" government be confined to units of general local government in determining the ratio of State-to-local government criminal justice expenditure, the same concept was applied consistently throughout the publication to reflect the intent of the law. Therefore, unlike the 1969-70 report, the total general expenditure and total full-time equivalent employment figures used for comparison with criminal justice figures do not include independent school districts or special districts. This may result in significant differences from the percentages shown last year in those States where education is largely the responsibility of independent school districts, or where there are large special districts. (In any case, criminal justice expenditure and employment data in this series have always been for units of general local government only. However, in this report, appendix 1 shows those independent school districts and special districts having significant special police expenditures and employment.)

Readers should be generally cautious in comparing governments, since other differences in functional responsibilities from State-to-State and government-to-government can also affect the comparability of finance and employment data. For example, some State governments directly administer certain activities which elsewhere are undertaken by local governments, with or without fiscal aid, and the same variation in the division of responsibilities exists for counties and cities. Sampling error and response error are discussed in the following section.

The available source documents did not consistently provide full itemization of expenditure or employment for the functional subcategories presented in this report. As a result, itemized breakdowns may be incomplete for particular governmental units.

Due to rounding, the detail data in some tables may not add precisely to the totals shown.

Survey coverage

The survey through which basic figures for this report were gathered, covered all State governments and a representative sample of local governments within each State. Data were gathered for all county governments, all municipalities (including townships in the New England

and Middle Atlantic States) having a 1970 population of 10,000 or more, plus a sample of the remaining cities and townships under 10,000 population, selected according to the relative size of their annual expenditures as reported in the 1967 Census of Governments. The survey panel was therefore comprised of the 50 State governments, the 3,044 county governments, and 5,994 municipalities, including 1,706 townships, for a total of 9,038 local governments.

The sample selected to develop local government figures is one of all possible samples of the same size that could have been chosen using the same sampling design. Estimates derived from these different samples would differ from each other, and also from a complete census using the same data collection procedures. This variation among all possible estimates is sampling error.

Since all State and county governments were included in the survey, State and county figures are not subject to sampling error. The local government sample was designed to produce an estimate for each State of the ratio of State to local government criminal justice expenditure with a sample error of less than one-half of one percent at the 95 percent confidence level.

The relative error of the State-by-State estimates of local government criminal justice expenditures has also been calculated at the 95 percent confidence level. All States had a relative error of less than one percent except Wyoming (with 2.5 percent). The implication of this calculation is that there is a 19 out of 20 probability the estimated State-by-State criminal justice total for the local level of government (except in Wyoming) is within one percent of the total which would result from a complete enumeration of local governments.

The estimated data are also subject to the inaccuracies in classification, response, and processing which would occur if a complete census had been conducted under the same conditions as the sample. Every effort was made to keep such errors to a minimum through care in examining, editing, and tabulating the data submitted by government officials. Followup procedures were used extensively to clarify inadequate and inconsistent survey returns.

The survey period

Federal Government data are shown for fiscal year 1970-71 which ended June 30, 1971.

The State expenditure data presented in this report cover the fiscal year ending June 30 for all States except three whose fiscal years end as

INTRODUCTION

follows: New York, March 31; Texas, August 31; and Alabama, September 30. However, there are some State agencies which operate on a different fiscal year basis from the rest of the State government. In such instances, figures shown are for the agency's fiscal year that ended within the State's regular fiscal year.

For local governments, the 1970-71 fiscal years reported are those which closed between July 1, 1970 and June 30, 1971. Most municipalities and counties ended their fiscal years on December 31, 1970 or June 30, 1971.

Employment data shown for Federal, State, and local governments are for October 1971.

Data collection

The survey was accomplished using two methods of data collection: Field compilation and mail canvass. Trained field representatives compiled expenditure and employment data for the 50 States, 312 largest counties, and 384 largest cities from the government's own records, between July 1971 and June 1972, in accordance with the definitions presented in appendix 2. All other units in the sample were canvassed by mail for expenditure and employment data, over a 4-month period beginning in late December 1971 and ending in early April 1972. Response for field-compiled units was 100 percent. The

response from mail canvass units was 80 percent. The mail canvass questionnaires are included as appendix 3.

The field survey efforts and mail canvass were supplemented by reference to a variety of published government documents such as budgets, financial statements, and audit reports. In some cases, such sources were the basis for breakdowns of totals into more detailed employment and expenditure figures.

The expenditure and employment data for the Federal Government were collected through a special mail survey, with telephone followup, of Federal criminal justice agencies, in accordance with definitions used for State and local governments (see appendix 2). For previous reports in this series, expenditure data were derived from the Budget of the United States Government and employment figures were obtained from the U.S. Civil Service Commission. Thus, this marks the first year comprehensive Federal data were collected which are compatible with the State and local data.

ACKNOWLEDGEMENT

The Bureau of the Census is indebted to the many Federal, State, and local government officials who provided the information and gave other assistance for the preparation of this report.

Section I. VARIABLE PASS-THROUGH DATA

The data in this table were developed to comply with the Omnibus Crime Control and Safe Streets Act of 1968 as amended, which requires that the block grants made by the Law Enforcement Assistance Administration to each State be allocated between the State and local governments according to the ratio of State-to-local law enforcement expenditure from their own revenue sources.

The concept of "expenditure from own sources" specified in the law and used in the data collection means that the expenditure figures from which the State-to-local ratio was developed do not include amounts expended from revenue received from other governments. For example, State or local government expenditure from sales or property tax revenue are included but not amounts expended from intergovernmental revenue, such as Federal grant monies. (It should be noted that this is the only table in this publication based on this concept. All other expenditure tables reflect expenditure from all sources.)

Specifically for local government, any expenditure from revenue received from another local government, or received directly from the Federal Government or from the State government must be excluded. Likewise for State governments, expenditure from revenue received from local governments or from the Federal Government must be excluded.

The following items were deducted from total criminal justice expenditure of local governments to arrive at local government expenditure from own revenue sources: Revenue received directly from the Federal Government for criminal justice purposes, State payments to local governments for criminal justice purposes, and payments from local government(s) to other local government(s) for criminal justice purposes. The same procedure was followed to arrive at State government expenditure from own revenue sources. Criminal justice revenue received directly from the Federal Government and local criminal justice payments to the State government were deducted from the total State expenditure for criminal justice. This procedure assumes that all intergovernmental payments received by a government will be expended during the same fiscal year they were received. While this may not be the case in a particular year, any discrepancy will cancel out over time.

- Represents zero or rounds to zero.

X Not applicable.

¹The total line for each sector, and for the total criminal justice system excludes duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount. The intergovernmental expenditure lines are not totaled for the same reason.

- Represents zero or rounds to zero.

² Less than half the unit of measurement shown.

¹ The relation of criminal justice total expenditure to total general expenditure is based on data for general purpose governments only and does not include data for independent school districts or special districts.

² For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.

Z Less than half the unit of measurement shown.

¹The relation of criminal justice direct expenditure to total direct expenditure is based on data for general purpose governments only and does not include data for independent school districts or special districts.

- Represents zero or rounds to zero.
 x Not applicable.
 For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

CRIMINAL JUSTICE EXPENDITURE AND EMPLOYMENT

 X Not applicable.

For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

¹ Represents zero or rounds to zero.
² Not applicable.

For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

1. Represents zero or rounds to zero.
 2. Not applicable.

For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined de-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that

- Represents zero or rounds to zero.
 1 Not applicable.

For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for the government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

CRIMINAL JUSTICE EXPENDITURE AND EMPLOYMENT

X Not applicable.

¹For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

APPENDIX 2: DEFINITION OF TERMS

Following is a glossary of terms, concepts, and categories used in this report and comments concerning their limitations.

The definitions are those applied in the field compilation of data for the 50 States, 312 largest counties, and 384 largest cities. These definitions were necessarily summarized for inclusion in the survey questionnaires (see appendix 3) sent to governments on the mail panel.

Government Expenditure

Expenditure comprises all amounts of money paid out (net of any correcting transactions) other than for retirement of debt, investment in securities, extensions of loans, or agency transactions. It includes only external cash payments and excludes any intragovernmental transfers and noncash transactions, such as the provision of meals or housing of employees. It also includes any payments financed from borrowing, fund balances, intergovernmental revenue, and other current revenue. In several instances, two or more governments share the expense of maintaining a court or other criminal justice agency. In these cases, the allocable direct expenditure amount is reported for each government in the appropriate category. When a government pays pensions directly to retired employees from appropriated funds, such payments are included as expenditure of the government concerned. However, State and local government contributions to retirement systems and various other employee benefits are not included in expenditure data, since the majority of governments make lump-sum contributions to plans covering all government employees and cannot report for criminal justice employees separately. Neither in government's basic accounting records (from which criminal justice expenditure figures are drawn) nor in the records of their general-coverage employee benefit systems is there usually any breakdown of amounts contributed in terms of the various agencies or functions involved. Nor has an adequate procedure for calculating the proportion of such contributions allocable to criminal justice employees been developed due to the wide variation in the coverage of various plans, employee status requirements, benefit rates, etc.

For those governments whose records reflect contributions for criminal justice employees separately, separate data were obtained. However, these data are subject to the same variation referred to above and neither the amount nor the quality of the data reported would permit any attempt to estimate total contributions for all similar governments in a given State. Given the problems involved, no estimation procedure seems feasible. Such data as were reported separately were therefore excluded from total criminal justice expenditures to provide a consistent data base for administering the variable pass-through requirement.

Expenditure is divided into two major categories by character:

1. Direct expenditure comprises all expenditure except that classed as intergovernmental and is further divided into two principal object categories:

- a. Current operation, which includes salaries, wages, fees, and commissions, purchase of supplies, materials, and contractual services.
- b. Capital outlay, which includes expenditure for the three subcategories below:

Construction: Production of fixed works and structures, and additions, replacements and major alterations thereto undertaken either on a contract basis by private contractors or through force account construction by the employees of the government. Included are the planning and designing of specific projects, the grading, landscaping, and other site improvement, and the provision of equipment and facilities that are integral parts of the structure.

Equipment: Purchase and installation of apparatus, furnishings, office equipment, motor vehicles and the like having an expected life of more than 5 years. This includes both additional equipment and replacements. Rentals for equipment,

including rental payments that may be credited on the purchase price if purchase options are exercised, are classified as current operation expenditure. Equipment and facilities that are integral parts of constructed or purchased structures are classified respectively under construction or purchase of land and existing structures.

Purchase of land and existing structures: Purchase of these assets as such, purchase of rights-of-way, and title search and similar activities associated with purchase transactions.

The other object categories--interest on general debt, assistance and subsidies, and insurance benefits--are not applied to specific functions.

2. Intergovernmental expenditure comprises payments from one government to another, including grants-in-aid, shared revenues, payments in lieu of taxes, and amounts for services performed by one government for another on a reimbursable or cost-sharing basis (for example, payments by one government to another for boarding prisoners).

Total expenditure is comprised of direct and intergovernmental expenditure of a government or level of government for criminal justice activities.

Total general expenditure comprises all expenditure of a government or level of government for all governmental functions, including criminal justice activities, but excluding utility system expenditure, liquor store expenditure and insurance trust expenditure. Unlike the 1969-70 report, total general expenditure shown for the local level of government includes expenditure only of general purpose governments, and excludes expenditure of special districts and school districts.

Government Employment

Employees includes all persons paid for personal services performed, including all paid officials and persons in paid leave status, and excludes unpaid officials, persons on unpaid leave, pensioners and contractors. Under this definition are two classes:

1. Full-time employees, which comprises all persons employed during the pay period including October 15, 1971 on a full-time basis, including all full-time temporary or seasonal workers employed during this pay period as well as persons having permanent status.

2. Part-time employees, which includes persons employed during the pay period including October 15, 1971 on a basis other than full-time, and persons paid by more than one government.

Derived from these two classes is:

Full-time equivalent employees, which is the total number of employees, discounted by applying average full-time earning rates. This is calculated by dividing the total payroll (full-time plus part-time) by the full-time payroll and multiplying this by the number of full-time employees.

Payroll is the gross payroll before deductions and includes salaries, wages, fees and commissions paid to employees as defined above for the month of October 1971.

Governmental Functions

Police protection is the function of enforcing the law, preserving order, apprehending those who violate the law, and directing traffic, whether these activities are performed by a police department, a sheriff's department, or a special police force maintained by an agency whose prime responsibility is outside the criminal justice system, but which has a police force to perform these activities in its specialized area (geographic or functional).

Included in this activity are regular police services, traffic control, traffic safety and related traffic engineering (but not highway planning and engineering), the maintenance of buildings used for police purposes and such specialized police forces (including public and private contract forces) as airport police, free and toll highway police, free and toll bridge and tunnel police, housing police, maritime police, park police, transit and other utility system police, college and university campus police and alcoholic beverage control agents. Coroners and medical examiners are also included. Excluded are vehicular inspection and licensing, fish and game wardens, fire marshals and the like.

Data on special police forces were included only when such a force employed 10 or more full-time sworn police officers. The expenditure and employment data reported, however, covers both sworn officers and civilian support personnel.

The special police forces included in the data are only those which are part of general purpose governments. Those special police forces which are part of independent school districts or special

districts are not included in the data, inasmuch as these districts are not general purpose governments. However, data for special police forces of these districts are displayed in Appendix 2, Tables A and B.

Security forces and building guards without the power to make a police arrest were excluded, as were smaller forces not meeting the minimum criteria and those for which data were unavailable.

At the county government level, both county police agencies and the sheriff's department, where such a department exists, are included in the police protection sector, unless research has indicated that the sheriff has no substantial responsibility for police activities. The lack of needed information has prevented the consistent proration of expenditure or employment of the sheriff's department where the department is multifunctional.

Short-term custody and detention have traditionally been considered part of the "police protection" function; and in editions prior to the 1969-70 report, were treated as such. However, beginning with the 1969-70 report, the concept was modified on the basis of information obtained from the 1970 National Jail Census. Data for institutions with authority to hold prisoners 48 hours or more are included in the "correction" sector. Data for lockups or "tanks" holding prisoners less than 48 hours are included in the "police protection" sector.

Judicial activities encompass all courts and activities associated with courts such as law libraries, grand juries, petit juries and the like. Since the names of courts with similar functions and legal jurisdiction vary from State to State and even within States, data have been categorized by types of court rather than by court name.

1. Appellate courts include courts of last resort and intermediate appellate courts. These are courts having jurisdiction of appeal and review, with original jurisdiction conferred only in special cases.

a. Court of last resort is the court of final appeal within the judicial structure of each State. It is called the "Court of Appeals" in the District of Columbia, Kentucky, Maryland, and New York; the "Supreme Court of Appeals" in Virginia and West Virginia; the "Supreme Judicial Court" in Maine and Massachusetts. In Texas and Oklahoma two courts of last resort are authorized--the "Court of Criminal Appeals" for criminal cases and a "Supreme Court" for civil cases. In every other State the court of last resort is titled the "Supreme Court."

b. Intermediate appellate courts are those which hear cases appealed from trial court decisions before review by the court of last resort. In 15 of the 23 States with a court of this type operating in fiscal year 1970-71, the name "Court of Appeals" is used. These States are:

Arizona	Missouri
California	New Mexico
Colorado	North Carolina
Florida	Ohio
Georgia	Oklahoma
Indiana ¹	Oregon
Louisiana	Washington
Michigan	

In Illinois the title is "Appellate Court"; in Maryland, "Court of Special Appeals"; in New Jersey, "Appellate Division of the Superior Court"; in New York, "Appellate Division of the Supreme Court"; and in Texas, "Court of Civil Appeals." In Alabama the civil and criminal cases are heard on appeal by separate courts--a "Court of Civil Appeals" and a "Court of Criminal Appeals". In Tennessee the "Court of Appeals" hears only civil appeals; a separate "Court of Criminal Appeals" reviews criminal cases before review by the court of last resort. In Pennsylvania the "Commonwealth Court" reviews all cases brought by or against the State government or its agencies; the "Superior Court" reviews all other appeals before the court of last resort.

2. Major trial courts are trial courts of general jurisdiction having unlimited original jurisdiction in civil and/or criminal cases, the names of which vary considerably. The list below shows the title of the courts of general jurisdiction in each State. Several States are listed more than once because local situations led to the development of separate courts, either to hear cases involving different types of pleadings or to hear cases in particular local jurisdictions.

In those States where the State statutes provide for the local governments to supplement the salary of State-paid judges of major trial courts, the judges were counted as State employees, and the salary including the local supplement amount, was reported in the State payroll. This was done to try to minimize double counting of these judges, once at the State level and again at the local level, and also to minimize the distortion of having only partial salary amounts reported at both levels.

¹The name of the intermediate appellate court in Indiana was changed effective January 1, 1972 from "Appellate Court" to "Court of Appeals."

However, salary expenditure was reported at the State or local government level, as appropriate, under "Current Operation."

Thus employment and payroll amounts for the major trial court judges were reported at the State level while expenditures were reported where they were actually made.

Circuit Courts

Alabama	Mississippi
Arkansas	Missouri
Florida	Oregon
Hawaii	South Carolina
Illinois	South Dakota
Indiana	Tennessee
Kentucky	Virginia ¹
Maryland	West Virginia
Michigan	Wisconsin

District Courts

Colorado	Nevada

County Courts

New Jersey
Vermont
Wisconsin

Common Pleas Court

Ohio
Pennsylvania

¹Includes Corporation, Hustings, Law and Equity, and Law and Chancery Courts.

Supreme Court

New York

Criminal Court

Indiana

3. Courts of limited jurisdiction are courts which are inferior to the major trial courts and whose legal jurisdiction covers only a particular class of cases, or cases where the amount in controversy is below a prescribed sum or which is subject to specific exceptions. These courts are tabulated under three subcategories. Juvenile Court and Probate Court data are reported in separate subcategories when such jurisdiction is exercised by an independent court having only juvenile or probate jurisdiction.

a. Probate courts are also called Orphans Courts, Surrogate's Courts or Courts of Ordinary. The subject jurisdiction varies from place to place, but generally includes estate settlement, probate and contest of wills, adoption, commitment of the insane, administration of the affairs of orphans, mental defectives and incompetents, guardianship of minors, apprenticeship, receivership, change of name proceedings, and the administration of trusts. Data were tabulated separately only for independent probate courts. Where probate matters are part of the jurisdiction of another court, either generally or in a separate division or branch, the data are not tabulated separately but are included with the court exercising jurisdiction.

b. Juvenile courts are those which deal primarily with delinquent and neglected children regardless of the name of the court. In various places such courts are Juvenile Courts, Family Courts, Juvenile and Domestic Relations Courts, Domestic Relations Courts, or other similar names. The jurisdiction of these courts can include crimes committed by persons under legal age, offenses against children, probation of minor delinquents, adoption, custody, or disposition of minor and mentally incompetent children, child neglect or abandonment, child and wife support, and paternity. Data were tabulated separately only for independent juvenile courts. Where juvenile cases are handled by another court, either generally or in a separate division or branch, the data are not tabulated separately but are included with the court exercising jurisdiction.

c. Other courts includes various other State and local courts with jurisdiction inferior to the major trial courts such as justices of the peace, district magistrates, justice courts, county courts of limited jurisdiction, municipal courts, city courts, etc. Also included in this category are data on specialized courts such as Tax Courts, Courts of Claims and Courts having jurisdiction over more than one type of case (e.g., a court which handles both juvenile and probate cases).

4. Miscellaneous judicial includes data on judicial activities which could not be reported under any of the above court categories, such as judicial councils and conferences, court administration offices (where identifiable), law libraries, jury commissions, and grand juries.

Legal services and prosecution includes the civil and criminal justice activities of the attorneys general; district attorneys, State's attorneys and their variously named equivalents; corporation counsels, solicitors, and legal departments with various names. It includes providing legal advice to the chief executives and subordinate departmental officers, representation of the government in lawsuits, and the prosecution of accused violators of criminal law. These activities are included whether performed by one office or several, since in some jurisdictions a single officer provides all legal services, while in others a prosecutor's office handles only criminal matters and a separate attorney's office performs all civil legal services.

Indigent defense includes activities associated with the right of persons to have legal counsel and representation, office of the public defender and other government programs which pay the fees of court-appointed counsel. These include court-paid fees to individually retained counsel, fees paid by the court to court-appointed counsel, government contributions to private legal aid societies and bar association sponsored programs, and the activities of an established public defender office or program. Employment data are included only for public defender offices since fee-paid counselors are not considered government employees, nor are counselors working for bar associations or legal aid societies.

Correction is that function of government involving the confinement and rehabilitation of adults and juveniles convicted of offenses against the law, and the confinement of persons suspected of a crime and awaiting adjudication. Data for institutions with authority to hold prisoners 48 hours or more are included in this sector. Data for lockups or "tanks" holding prisoners less than 48 hours

are included in "Police Protection." Correction includes the operation of prisons, reformatories, jails, houses of correction, and other institutions. It also includes institutions, facilities and programs exclusively for the confinement of the criminally insane or for the examination, evaluation, classification, and assignment of inmates; and institutions and programs for the confinement, treatment, and rehabilitation of drug addicts and alcoholics if the institution or program is administered by a correction agency of the criminal justice system. Pardon boards, parole and probation agencies, including resettlement or halfway houses for those not in need of institutionalization, are included in the correction sector as a separate subcategory.

1. Correctional institutions are prisons, reformatories, jails, houses of correction, penitentiaries, correctional farms, workhouses, reception centers, diagnostic centers, industrial schools, training schools, detention centers, and a variety of other types of institutions for the confinement and correction of convicted adults and juveniles, and for the incarceration of those accused of a crime and awaiting adjudication. When an institution maintains a prison industry or agricultural program, data on the cost of production or the value of prison labor used by agencies of the same government, if identifiable, are excluded (and classed as expenditure for the function using the products or services). Expenditure for the manufacture, production, sale and distribution of goods produced for sale or use outside the government are included under this heading.

a. Institutions for youths are those under the control of a youth authority or a similarly designated administrative body, as well as independently administered institutions where examination of supplementary documents has indicated that the institution primarily houses persons classed as juveniles.

There is great variability in the age limits defining juveniles (for example, "16 and up," "16 to 21," "15 to 30," "17 to 25"), and an allocation to this category was sometimes approximate and sometimes impossible because data times could not be separated into their elements. Institutions housing youths treated as adults by the courts or other authority, were not classed juvenile institutions.

b. Institutions for women includes identifiable expenditure and employment data for institutions exclusively for adult female offenders. Where there is no separate

women's prison, women offenders are either maintained in a prison complex that also houses other offenders, or are boarded in private facilities or institutions in another State. No attempt was made to prorate data on institutions housing more than one type of inmate, but where females are boarded in private institutions or in another State, available expenditure data were tabulated. Employment data were not tabulated because the personnel were employees of another government.

New Hampshire and Rhode Island board their female offenders in the Massachusetts Correctional Institution for Women at Framingham; Vermont operates a split system, housing some females and contracting with Massachusetts for the rest. South Dakota and Wyoming house all of their female offenders in the Nebraska Reformatory for Women; and Idaho contracts with the State of Oregon for boarding its female offenders in the Oregon Women's Correctional Center.

c. Other and combined institutions are those housing adult male offenders and institutions holding a combination of inmates. Where expenditure of employment data for physically separate institutions for juveniles, adult females and adult males were not separable by institution or type of institution, the entire amounts were included under this category. This was the case in the States of Colorado, Delaware, Louisiana, Nevada, New Mexico, New York, Ohio, Oklahoma, Oregon and Texas.

2. Correctional administration consists of data for the administration of the correctional

system, including data on the central administrative office (for example, the department of corrections or a youth authority) and available data on the administration of individual correctional institutions. For some individual institutions, administration data were not segregable from data on the operation of the institution.

3. Probation, parole and pardon includes data on boards of pardon, boards of parole, probation agencies, and their variously named equivalents. Although probation agencies frequently function under the administration of the major trial court, the data are presented here after having been deducted from the judicial data, because of the correctional nature of the probation function. If the probation, parole, and pardon activities, or any of them individually, were part of the correctional administrative office, data were deducted and shown separately here and the balance under the "Correctional Administration" category. The overlapping character of the probation, parole and pardon activities prevented the separate presentation of these data.

4. Miscellaneous correction includes expenditure and employment data which could not be classified under one of the other subcategories.

Other criminal justice activities, shown in some tables, includes expenditure of employment data not elsewhere classified, or which cuts across more than one category, or is unallocable to separate categories; e.g., expenditure on a general curriculum in educational institutions, the operation of State criminal justice agencies, crime commissions, etc. Such data are included in the totals, where they are not shown separately.

APPENDIX 3

Form Approved: O.M.B. No. 41-R2630

Data supplied by			FORM CJ-6 (10-15-71)	U.S. DEPARTMENT OF COMMERCE BUREAU OF THE CENSUS
Name			SURVEY OF EXPENDITURE AND EMPLOYMENT FOR CIVIL AND CRIMINAL JUSTICE ACTIVITIES OF LOCAL GOVERNMENTS	
Title			In correspondence pertaining to this report, please refer to the Census File number above your address	
Official address (Number and street, city, State, ZIP code)				
Telephone			(Please correct any error in name and address including ZIP code)	
Area code	Number	Extension	TO: Bureau of the Census Governments Division Washington, D.C. 20233	

Dear Sir:

The Bureau of the Census has been requested by the Law Enforcement Assistance Administration, U.S. Department of Justice, to identify expenditure and employment data for five important criminal justice activities; police protection, corrections, judicial, prosecution and indigent defense activities.

These data will be utilized by the Law Enforcement Assistance Administration in implementing and administering the planning and action grant programs of the Omnibus Crime Control and Safe Streets Act of 1968 as amended by the Omnibus Crime Control Act of 1970.

Please complete and return the questionnaire in the preaddressed postage-paid envelope. Your cooperation and assistance in this project will be greatly appreciated. If you have any problems in filling out this questionnaire, you may call for assistance through the Federal Telecommunications System operator in your area (see enclosed instructions).

Sincerely,

GEORGE H. BROWN
Director
Bureau of the Census

Enclosures

ACTIVITY A person working in more than one of the following activities should be counted only once, in the one which he works the largest part of his time.	Part I — EMPLOYMENT AND PAYROLL Enter the appropriate employment and payroll data for the pay period including October 15, 1971. Do NOT report annual payroll data				Part II — FINANCES Enter the annual expenditure data for the activities listed below for your fiscal year ending between July 1, 1970 and June 30, 1971. Please specify your fiscal year ending date here ▶				
	FULL-TIME EMPLOYEES		PART-TIME EMPLOYEES		CURRENT OPERATION	CAPITAL OUTLAY	INTERGOVERNMENTAL EXPENDITURE		GOVERNMENT CONTRIBUTIONS FOR EMPLOYEE BENEFITS
	Number of employees (a)	Payroll amount (pay period including October 15, 1971) (omit cents) (b)	Number of employees (c)	Payroll amount (pay period including October 15, 1971) (omit cents) (d)	Exclude employer contributions to employee benefits and report in column (e) (e)	Construction, equipment and land (b)	Payments to other local governments (c)	Payments to the State government (d)	Exclude employee contributions (e)
1. POLICE PROTECTION — In addition to all regular police, include special police force units (park, housing, etc.) with 10 or more full-time sworn officers having the power to arrest. Exclude jails holding adults or juveniles more than 48 hours and report under "Corrections".									
2. JUDICIAL — All courts and activities associated with courts; exclude probation and parole and report under "Corrections".									
3. LEGAL SERVICES AND PROSECUTION — Prosecution of law violators and representation of the government in lawsuits.									
4. INDIGENT DEFENSE — Services providing legal counsel to accused persons.									
5. CORRECTIONS — Jails, prisons, reformatory, detention homes and the like holding adults or juveniles more than 48 hours. Also narcotics rehabilitation programs and probation and parole.									
6. OTHER CRIMINAL JUSTICE — Other criminal justice activities not reported above. Please list these activities separately on page 3.									

A. Mark the pay period interval which applies to the payrolls reported above. 1. Full-time employees ("X" one box only) ☐ Monthly ☐ Twice a month (24 pay periods per year) ☐ Every two weeks (26 pay periods per year) ☐ Weekly ☐ Other — Specify _____ 2. Part-time employees ("X" one box only) ☐ Monthly ☐ Twice a month (24 pay periods per year) ☐ Every two weeks (26 pay periods per year) ☐ Weekly ☐ Other — Specify _____		B. Major trial court judges receiving a supplementary salary check directly from your government — Please report below the number of judges of major trial courts (as defined in the special instructions enclosed) reported in Part I, Line 2 (Judicial) above, and the monthly salaries paid to them by your government for October, 1971. <table border="1"> <tr> <th>Major trial court judges</th> <th>Number of judges</th> <th>Monthly payroll amount</th> </tr> <tr> <td></td> <td></td> <td>\$</td> </tr> </table>	Major trial court judges	Number of judges	Monthly payroll amount			\$
Major trial court judges	Number of judges	Monthly payroll amount						
		\$						
C. Revenue direct from the Federal Government — Enter all revenue your government received for criminal justice activities direct from the Federal Government (not passed through any State agency) in your fiscal year ending between July 1, 1970 and June 30, 1971. \$								

FORM CJ-6 (10-15-71)

Page 2

DEFINITIONS

ACTIVITIES

- POLICE PROTECTION** — Enforcing the law, preserving the public peace, maintaining traffic safety, and investigation and apprehension of accused violators of the law, by a police agency, sheriff or similar agency. Also special police units employed by your government such as park, airport, housing and like police force units with 10 or more full-time sworn officers having the power to arrest. Also include coroner and medical examiner offices. Exclude — Sheriff offices which engage primarily in the work of a court (report under "Judicial"), and operation of jails or lock-ups which hold adults or juveniles for more than 48 hours (report under "Corrections").
- JUDICIAL ACTIVITIES** — All civil and criminal courts and court-associated activities (e.g., law libraries, jury selection). Exclude — The prosecuting attorney's office or the equivalent (report under "Legal Services and Prosecution"), indigent defense (report under "Indigent Defense") and probation and parole activities (report under "Corrections").
- LEGAL SERVICES AND PROSECUTION ACTIVITIES** — Prosecuting attorney's office, legal advice to the chief executive of the government, representation of the government in lawsuits and prosecution of accused violators of the law.
- INDIGENT DEFENSE** — Activities associated with the right of accused persons to have legal counsel and representation, office of the public defender, and other governmental programs which pay the fees of court-appointed counsel.
- CORRECTIONS** — Confinement and rehabilitation of adults and juveniles suspected or convicted of offenses against the law. This includes the operation of institutions and the management of non-institutional programs. Include jails and the like holding adults or juveniles more than 48 hours, "Half-way Houses," probation and parole, and narcotic rehabilitation programs directly related to institutions. Exclude — Lock-ups or tanks holding adults or juveniles less than 48 hours, institutions solely for dependent and neglected children or the like, and narcotic addiction programs not directly related to institutions (include these narcotic addiction programs under "Other Criminal Justice").
- OTHER CRIMINAL JUSTICE** — Expenditures for programs which are not separable into the given categories or cannot be included in these categories, such as criminal justice planning agencies, crime councils and commissions on alcoholism and drugs. If expenditures are reported here, they must be itemized on Page 3 of this questionnaire.

Part I — EMPLOYMENT AND PAYROLL

- EMPLOYEES** — All persons paid by your government for personal services performed, including all officials, salary workers and other persons in paid leave status. Exclude — Unpaid officials, persons on unpaid leave, pensioners, contractors and their employees and persons paid entirely by another government for services performed for your government.
 - FULL-TIME EMPLOYEES** — Persons employed during the pay period including October 15, 1971, on a full-time basis. Include all full-time temporary or seasonal workers employed during this pay period.
 - PART-TIME EMPLOYEES** — Persons employed during the pay period including October 15, 1971, on a part-time basis. Include here all persons working for your government who are paid by more than one government (e.g. with a supplemental check).

Part I — EMPLOYMENT AND PAYROLL — Continued

- PAYROLL** — Gross payroll before deductions including salaries, wages, fees, or commissions earned during the pay period including October 15, 1971, by employees as defined in (1a) and (1b) above. If some employees are paid on some basis different from the predominant pay period, please include amounts for them on an adjusted basis.
 - Report the pay period interval for which all or most of the full-time (or part-time) employees are paid.
- MAJOR TRIAL COURT JUDGES RECEIVING A SUPPLEMENTARY SALARY CHECK DIRECTLY FROM YOUR GOVERNMENT** — Enter the appropriate employment and payroll figures for major trial court judges reported on line 2 ("Judicial"), and defined in the "Special Instructions" enclosed. Any judges paid by your government who work in the courts defined as "Major Trial Courts" in the Special Instructions should be reported at both line 2 and B. If your government employs no major trial court judges as defined here, please enter "None" in the data spaces. Include in the "Payroll" column only the total of salary checks paid directly to the major trial court judges. Exclude from the "Payroll" column any payments made to the State for salaries of major trial court judges.

Part II — FINANCES

- CURRENT OPERATIONS** — Salaries and payroll of your government's officers and employees and the purchase of supplies, materials, and contractual services. Exclude — all capital outlay (see 2 below), debt retirement, securities investment, loan extensions, within-government transactions, and employer contributions to employee benefits (report in column "e").
- CAPITAL OUTLAY** — Direct expenditure for contract or force account construction of buildings and other improvements, and for the purchase of equipment, land, and existing structures.
- INTERGOVERNMENTAL EXPENDITURE** — All money paid to other governments as fiscal aid, or payment for services rendered.
 - PAYMENTS TO OTHER LOCAL GOVERNMENTS** — Payments of your government to another county, city, town, special or school district.
 - PAYMENTS TO THE STATE GOVERNMENT** — Payments of your government to the State government or any of its departments, agencies or instrumentalities. Exclude money paid to another government for the purchase of commodities, property, utility services, any taxes imposed and paid as such, and contributions for social insurance.
- GOVERNMENT CONTRIBUTIONS FOR EMPLOYEE BENEFITS** — Any employer contributions, separable by activity, to the Federal Social Security System, State and local retirement systems, commercial or mutual insurance plans, workmen's compensation funds, and insurance premiums paid by your government for health, hospital, disability, and life insurance programs. Exclude payments directly to individuals and contributions made by employees to any of the above programs.
- REVENUES DIRECT FROM THE FEDERAL GOVERNMENT** — Enter only the revenue received directly from the Federal Government. Do not enter amounts passed from the Federal Government through the State or its instrumentalities to your government.

TO: Bureau of the Census
Governments Division
Washington, D.C. 20233

Dear Sir:

The Bureau of the Census has been requested by the Law Enforcement Assistance
Administration, U.S. Department of Justice, to identify expenditure and employment
data for Special Police Forces.

These data will be utilized by the Law Enforcement Assistance Administration in
implementing and administering the planning and action grant programs of the
Omnibus Crime Control and Safe Streets Act of 1968 as amended by the Omnibus
Crime Control Act of 1970.

Please complete and return the questionnaire in the preaddressed postage-paid
envelope. Your cooperation and assistance in this project will be greatly appreciated.
If you have any problems in filling out this questionnaire, you may call for assistance
through the Federal Telecommunications System operator in your area (see enclosed
instructions).

Sincerely,

George H. Brown

GEORGE H. BROWN

DEFINITIONS

ACTIVITY

SPECIAL POLICE FORCE - A group of law enforcement agents other than the regular police which services a special area or jurisdiction, e.g., campus police, park police, transit police, harbor police, airport police. Though a special police force usually cooperates fully with the regular local police force, it is administratively independent.

Part I - EMPLOYMENT AND PAYROLL

1. EMPLOYEES - All persons in your special police force unit (officers and employees) paid for personal services performed, including all officials, salary workers and other persons in paid leave status in your unit.

Exclude unpaid officials, persons on unpaid leave, pensioners, contractors and their employees and persons paid entirely by another government for services performed for your government.

a. **FULL-TIME EMPLOYEES** - Persons employed during the pay period including October 15, 1971, on a full-time basis. Include all full-time temporary or seasonal workers employed during this pay period.

b. **PART-TIME EMPLOYEES** - Persons employed during the pay period including October 15, 1971, on a part-time basis.

2. PAYROLL - Gross payroll before deductions including salaries, wages, fees, or commissions earned during the pay period including October 15, 1971, by employees as defined in (1a) and (1b) above. If some employees are paid on some basis different from the predominant pay period, please include amounts for them on an adjusted basis.

a. Report the pay period interval for which all or most of the full-time (or part-time) employees are paid.

Part II - FINANCES

1. CURRENT OPERATIONS - Salaries and payroll of your unit's officers and employees and the purchase of supplies, materials, and contractual services.

Exclude all capital outlay (see 2 below), debt retirement, securities investment, loan extension, within government transactions and employer contributions to employee benefits.

2. CAPITAL OUTLAY - Direct expenditure for contract or force account construction of buildings and other improvements, and for the purchase of equipment, land, and existing structures.

3. INTERGOVERNMENTAL EXPENDITURE - All money paid to other governments as fiscal aid, or payment for services rendered.

a. **PAYMENTS TO OTHER LOCAL GOVERNMENTS** - Payments to another county, city, town, special or school district or any of their agencies or instrumentalities.

b. **PAYMENTS TO THE STATE GOVERNMENT** - Payments to the State government or any of its departments, agencies or instrumentalities.

Exclude money paid to another government for the purchase of commodities, property, utility services, any taxes imposed and paid as such, and contributions for social insurance.

4. GOVERNMENT CONTRIBUTIONS FOR EMPLOYEE BENEFITS - Any employer contributions, separable for your unit, to the Federal Social Security System, State and local retirement systems, commercial or mutual insurance plans, workmen's compensation funds, and insurance premiums paid by your government for health.

Exclude payments directly to individuals and contributions made by employees to any of the above programs.

5. REVENUES DIRECT FROM THE FEDERAL GOVERNMENT - Enter only the revenue received directly from the Federal Government. Do not enter amounts passed from the Federal Government through the State or its instrumentalities to your unit.

SECOND REQUEST

O.M.B. No. 41-S72051; Approval Expires December 31, 1972

Data supplied by			FORM CJ-25 (6-12-72)		U.S. DEPARTMENT OF COMMERCE SOCIAL AND ECONOMIC STATISTICS ADMIN. BUREAU OF THE CENSUS	
Name			SURVEY OF EXPENDITURE AND EMPLOYMENT FOR CIVIL AND CRIMINAL JUSTICE ACTIVITIES OF THE FEDERAL GOVERNMENT			
Title						
Official address (Number and street, city, State, ZIP code)						
Telephone			(Please correct any error in name and address including ZIP code)			
Area code	Number	Extension	TO: Bureau of the Census Governments Division Washington, D.C. 20233			

Dear Sir:

The Bureau of the Census has been requested by the Law Enforcement Assistance Administration, U.S. Department of Justice, to collect expenditure and employment data for five important criminal justice activities: law enforcement, judicial, prosecution, indigent defense and correction.

These data will be used to implement and administer the provisions of the Omnibus Crime Control and Safe Streets Act of 1968 as amended by the Omnibus Crime Control Act of 1970. Information contained in the final report will include data on criminal justice activities of the Federal government for intergovernmental comparisons and to meet the needs of criminal justice planners at all levels of government.

It is requested, therefore, that you complete and return this questionnaire in the enclosed envelope. The information you enter should be only for the bureau, agency, or office capitalized in the address block above. Your cooperation and assistance in this project will be greatly appreciated. Should you have any questions or problems in filling out the questionnaire, please call Mr. Edward C. Malloy, Jr. on 76-35284 or 76-35794 before July 15, 1972. After July 15, call 899-6345.

Sincerely,

George H. Brown

GEORGE H. BROWN

Bureau of the Census

Enclosure

Part I - EMPLOYMENT AND PAYROLL (FOR THE PAY PERIOD INCLUDING OCTOBER 15, 1971 ONLY - NOT ANNUAL DATA)	
NOTE: Temporary employees should be reported as full- or part-time on the basis of number of hours worked.	
1. How many FULL-TIME (40 hours or more a week) employees did you have on your rolls during the PAY PERIOD INCLUDING OCTOBER 15, 1971?	Full-time employees
2. What was the total payroll amount for all FULL-TIME employees noted in item 1 for the PAY PERIOD INCLUDING OCTOBER 15, 1971?	\$ _____
3. What is the pay period interval which applies to the payroll reported in item 2? ☐ Monthly ☐ Twice a month ☐ Every 2 weeks ☐ Weekly ☐ Other - Specify _____	CENSUS USE ONLY
4. How many PART-TIME (less than 40 hours a week) employees did you have on your rolls during the PAY PERIOD INCLUDING OCTOBER 15, 1971?	Part-time employees
5. What was the total payroll amount for all PART-TIME employees noted in item 4 for the PAY PERIOD INCLUDING OCTOBER 15, 1971?	\$ _____
6. What is the pay period interval which applies to the payroll reported in item 5? ☐ Monthly ☐ Twice a month ☐ Every 2 weeks ☐ Weekly ☐ Other - Specify _____	CENSUS USE ONLY
Part II - FINANCES (FOR FISCAL YEAR 1971: JULY 1, 1970 THROUGH JUNE 30, 1971)	
If unable to show actual cash disbursement please show total obligations incurred minus the sum of unpaid accounts payable and undelivered orders.	
Please indicate in boxes below your entry what the entry represents: cash disbursements (CD) or obligations incurred (OI).	
1. What was your total CASH disbursement for CURRENT OPERATIONS; i.e. salaries, wages, and expenses of officers and employees, purchase of supplies and materials, and contractual services with other Federal agencies or private organizations? (Do NOT include government contributions to employee benefits - see item 5 below for further detail.)	\$ _____ ☐ CD ☐ OI
2. What was your total CASH disbursement for CAPITAL OUTLAY; i.e. direct expenditure FROM YOUR OWN BUDGET for acquisition of land, construction, renovation and repairs of buildings and facilities, and purchases of equipment?	\$ _____ ☐ CD ☐ OI
3. What was your total INTERGOVERNMENTAL CASH DISBURSEMENT to STATE GOVERNMENTS for fiscal aid (e.g. grants, including amounts which were "passed through" State governments to local governments) or for services rendered?	\$ _____ ☐ CD ☐ OI
4. What was your total INTERGOVERNMENTAL CASH DISBURSEMENT to LOCAL GOVERNMENTS for fiscal aid (e.g. grants) or for services rendered, made DIRECTLY to local governments and NOT "passed through" State governments or their agencies or instrumentalities?	\$ _____ ☐ CD ☐ OI
5. What was your total CONTRIBUTIONS FOR EMPLOYEE BENEFITS; i.e. payments made to the Federal Social Security program, Federal retirement systems, commercial or mutual insurance plans, or premiums paid for accident and health, hospital and other insurance programs? (Do NOT include payments made directly to and contributions made by employees for any of the above programs.)	\$ _____
