TIME SERVED BY SPECIFIC OFFENSE TYPE;  
1984 RELEASES TO PAROLE SUPERVISION

This report provides data on time served in custody according to conviction crime. Time served data are presented for first releases to parole supervision during 1984.

## Time Served by Specific Offense Type

### I. INTRODUCTION

The Department of Correctional Services routinely receives requests regarding the length of time in custody that is served by persons sentenced to state prison for various types of offenses. Persons and organizations interested in areas such as sentencing law changes or projection of prison populations also make use of information on time served.

This report contains a series of tables that present the time served experience of persons sentenced to state prison for various types of offenses. The data base used for this report is the population of persons who were first released to parole supervision during 1984. First releases refers to those persons who were released from Department of Correctional Services facilities to parole supervision for the first time on the immediate sentence either by action of the Board of Parole or by attainment of the conditional release date (which is two-thirds of the maximum sentence).

In this report, time served refers to the total period of incarceration following a conviction for a specific offense and a sentence to state prison. Defendants who receive a state prison sentence are given credit toward the minimum period of imprisonment for time served in a local jail prior to commitment to state prison. Many defendants are held in a local jail while court proceedings are taking place or while awaiting transfer to state prison. These days (or months) served in a local jail are credited toward the minimum period that a defendant must be imprisoned before reaching his parole eligibility date. Total time served (i.e., state prison time plus jail time) more accurately reflects the total period of incarceration that is served by persons convicted of particular types of offenses.

Time served data are presented in two forms. In the first, the time served distribution is broken into ten categories. The number and percent of cases in each specific offense category that fall into each of the ten time served categories is presented. Secondly, the average (arithmetic mean) time served (in months) for releases in each specific offense category is presented. Looking, for instance, at persons committed for Murder 2nd in Table 1, it can be seen that 20% (N = 1) served between 42 and 47 months, 20% (N = 1) served between 60 and 71 months, and 60% (N = 3) of the cases served 72 months or longer. The total number of cases in this category is five, and the

average time served for the five cases in this specific offense category is 71.6 months. The percentage figures listed under the column heading "Row Total" reflect the percent of total 1984 first releases made up by the persons in each specific offense category. So, the five persons convicted of Murder 2nd who were released to parole supervision during 1984 made up 0.1% of the total group of first releases to parole supervision during 1984 (Total = 9,414). For those specific offense categories that contain fewer than five cases, the average time served is not reported. (Where there are so few cases, it is more likely that the average might be distorted by one or more cases with extreme values.)

Each specific offense type or offense category is listed separately (e.g., Robbery 1st degree, Robbery 2nd degree, Robbery 3rd degree). Appendix A contains a more detailed description of each offense category as well as the Penal Law section number and felony class category for each offense. The codes for each offense that are used in the Tables (e.g., Murder 2nd is coded as 102) correspond to the codes in the left hand column in Appendix A. In addition, attempts of each specific offense are listed (in the tables) directly below each particular offense type. Numerical codes in the table for each offense type that include the .1 designation are cases that were attempts of the particular offense. In Table 1, for instance, Murder 2nd is coded as 102.0. Directly below this offense are cases coded as 102.1 and these are persons committed to DOCS custody for Attempted Murder 2nd. Similarly, persons committed for Attempted Manslaughter 1st are coded as 201.1. The labels for attempts of each crime are not listed in the tables but can be identified by the .1 designation in the code.

Offenses in the New York State Penal Law are categorized into one of six felony class categories (Class A-I, A-II, B, C, D, and E). In general, these categories are ranked such that more serious offenses are categorized as Class A or Class B felony crimes and the less serious offenses are categorized as Class D or Class E felonies. The range of legally permissible minimum and maximum sentences available to the judge at sentencing is, in part, determined by the felony class category of the conviction offense.

In general, attempts of any particular offense fall into the next lower felony class category. For instance, Robbery 1st is a Class B felony offense, but Attempted Robbery 1st is a Class C

felony offense. Since attempts for each particular crime generally fall into the next lower felony class category, and consequently into a different sentencing category, the time served data for attempts is presented separately for cases that were not stated to be attempted.

The felony class category of the offense is not the only factor that influences the length of the minimum or maximum term. In general, persons who have a prior felony conviction are sentenced as a Second Felony Offender. The Penal Law provides for more severe penalties for persons who are sentenced for a second felony offense (see New York State Penal Law Section 70.06). Likewise, persons sentenced for a third felony offense (Persistent Felony Offender) face even more severe sentences.

Table 1 presents information on time served by offense type for the total group of first releases in 1984 (Total cases = 9,414). Table 2 presents time served information by offense type for persons who had been sentenced as First Felony Offenders and were released at some time during 1984 (Total cases = 5,850). Table 3 presents data on time served by offense type for persons who had been sentenced to state prison as Second Felony Offenders (there are a very small number of persons who had been committed as Persistent Felony Offenders, these cases have been grouped with those sentenced as Second Felony Offenders; Total cases = 3,564). Since the range of minimum and maximum sentences that apply to Second Felony Offenders are, in many cases, different from those of First Felony Offenders, it may be helpful for some users to look at the time served experience of those two groups separately. The time served figures (from Tables 1, 2, and 3) for two different types of crimes (Robbery 1st, Burglary 1st; in both cases, attempts are excluded) serve to illustrate this point.

|              | Total<br>Group            | First<br>Felony | Second<br>Felony |
|--------------|---------------------------|-----------------|------------------|
| Robbery 1st  | 48.9 <u>A/</u><br>(N=947) | 39.5<br>(N=727) | 80.1<br>(N=220)  |
| Burglary 1st | 45.3<br>(N=42)            | 39.2<br>(N=33)  | 67.9<br>(N=9)    |

A/ Average Time Served in Months

For the total group of persons who have been committed for Robbery 1st and were released in 1984, the average time served was 48.9 months. There are, however, large differences depending on first or second felony offender status. First felony offenders committed for Robbery 1st served 39.5 months, but persons committed for Robbery 1st and sentenced as second felony offenders served an average of 80.1 months. The same pattern is observed for persons committed for Burglary 1st. It is clear that the average time served figure for all persons convicted of any particular offense (e.g. Robbery 1st, Assault 1st, etc.) may mask important differences in time served between those who were first felony offenders and those who are sentenced as second felony offenders.

As the data on 1984 releases in the tables below indicate, for many of the particular offense categories there are only a small number of releases in the category. Looking at the data for a single release year makes it more difficult to provide a reliable estimate of time served for particular offense categories in which there are only a small number of cases. Accordingly, the reader is referred to an earlier report in this series which contains data on time served for persons released from DOCS facilities over the six year period 1978 through 1983. The larger number of cases in each particular offense category will hopefully provide a more reliable estimate of the time served experience for persons sentenced to state prison in each particular offense category.

Additional information on time served can be found in other reports produced by the Department A/.
