October 30, 1984

The Honorable Irwin I. Kimmelman
Attorney General of the
State of New Jersey

Sir:

I respectfully submit the Annual Report of the Division of State Police for the fiscal year July 1, 1983 through June 30, 1984, our sixty-third year of service to the people of New Jersey.

I wish to express our gratitude to you for your confidence and support.

Sincerely,

Clinton L. Pagano

Colonel Clinton L. Pagano,
Superintendent

POWERS & DUTIES

Under the executive leadership of the Superintendent, the Division has full police powers and is authorized to enforce any law or ordinance anywhere within the State. Members of the Division of State Police are subject to the call of the Governor. They are peace officers of the State, and are empowered to furnish police protection; to render first aid to the injured and succor the helpless; and to exercise, in general, the same powers and authority as are conferred by law upon police officers and constables.

The Division of State Police has the power to prevent crime; to pursue and apprehend offenders; and to obtain legal evidence necessary to insure the conviction of such offenders in the courts. Division members are authorized by law to execute any lawful warrant or order of arrest issued against any person, and to make arrests without warrant for violations of the law in their presence, and for felonies committed, the same as are or may be authorized by law for other peace officers.

Members of the Division of State Police provide statewide enforcement of the criminal, motor vehicle, marine, and alcoholic beverage control laws. They are authorized to cooperate with any state department, or any state or local authority in the preservation of law and order. The Division may not however, be used as a posse in any municipality except upon order of the Governor when requested by the governing body of such municipality. This does not preclude the assignment of Division personnel to aid election superintendents on election day in the enforcement of the State's election laws. The Division directs and controls the State Emergency Management program and when directed by the Governor assists local police authorities in controlling civil riots and other unlawful civil disturbances of major proportions. Division members may also act as wardens in the protection of the forests and the fish and game of the State.

ORGANIZATION

The Division of State Police, one of nine Divisions of the Department of Law and Public Safety, was established in 1921. The Division is headed by a Superintendent and supported by a Deputy Superintendent, Executive Officer and staff whose areas of responsibilities are divided into nine categories: Emergency Management, Administration, Division Staff, Field Operations, Investigations, Special Staff, Records and Identification, Casino Gaming and Special & Technical Services. Through his staff, the Superintendent directs the activities of the five police commands which are: Troop A (Southern New Jersey), Troop B (Northern New Jersey), Troop C (Central New Jersey), Troop D (New Jersey Turnpike), and Troop E (Garden State Parkway).

The Deputy Superintendent is the Chief of Staff and serves as Acting Superintendent in the absence of the Superintendent. He is responsible for the execution of staff tasks, the efficient and prompt response of the staff, and the coordinated efforts of its members. He is responsible for directing and coordinating the personnel and functions of the Investigations, Special Staff, Records and Identification, Casino Gaming, and Special and Technical Services Sections. The Executive Officer is the principal staff advisor to the Deputy Superintendent and serves as Acting Chief of Staff in his absence. He is responsible for directing and coordinating the personnel and functions of the Administration, Emergency Management, Division Staff and Field Operations Sections.

The organizational structure of the Division of State Police, as depicted in the Organizational Chart, is designed to provide maximum efficiency in the performance of the diversified functions of the Division.

[illegible]

INVESTIGATIONS

The Supervisor of the Investigations Section holds the rank of Major. Under the administrative direction of the Deputy Superintendent, he performs a staff function. He conducts formal communications with all Staff Officers. His delegated authority primarily includes the directing, coordinating and controlling of the Criminal Investigation Bureau, Special Investigation and Services Bureau, Organized Crime Bureau, Narcotic Bureau, and Alcoholic Beverage Control Enforcement Bureau.

Major Joseph A. Flynn

CRIMINAL INVESTIGATION BUREAU

The Criminal Investigation Bureau is comprised of five units: Auto Unit, Major Crime Unit, Arson Unit, Fugitive Unit, and the Missing Persons Unit.

AUTO UNIT — The primary function of the Auto Unit is the investigation of commercial vehicle theft. This includes trucks and heavy equipment, as well as automobiles. Detectives assigned to the Auto Unit are thoroughly trained to identify vehicles through various methods, for example, restoring altered or obliterated VIN's by use of heat or acid and the location of the VIN numbers at confidential locations. Unit personnel are also familiar with all systems and procedures used by the Division of Motor Vehicles in recording and filing data.

In addition to assisting Division personnel in identifying stolen and abandoned vehicles, assistance is rendered to federal, state, and local agencies. Continuous liaison is maintained with International, National, and State Auto Theft Association members involved in complex investigations. Members of the Auto Unit lecture at the various police academies throughout the State to educate the municipal police in the latest auto theft techniques and the means to combat them.

Unit personnel conducted 984 auto theft investigations during the year, effected 72 arrests on 258 counts related to auto theft, and recovered 225 stolen vehicles valued at \$589,175. In addition to recovered vehicles, \$108,010 in stolen property was recovered. Identification of 572 vehicles were made for VIN verifications and the issuance of special vehicle identification numbers.

MAJOR CRIME UNIT — The Unit is staffed with personnel that are specially trained and equipped to provide assistance in the investigation of homicides and kidnappings. These investigations require highly trained investigators. The Major Crime Unit provides this type of expertise to all law enforcement agencies upon request. The support rendered has resulted in the solution of many homicides which heretofore would have remained unsolved.

The Unit provides expertise in the proper care and evaluation of the crime scene, and the proper handling of evidence. Unit members assist and give guidance at autopsies, and assure that all medico-legal aspects of the investigation are covered. The Unit is solely responsible to investigate all shootings and incidents resulting in serious injury or death of or by sworn members of the Division of State Police.

Personnel of the Unit continually update their knowledge by attending medico-legal and other homicide investigation schools and seminars. They are kept abreast of all the new and modern techniques and scientific equipment available. All Unit personnel are active members of the Harvard Associates of Police Science. Because of the increasing number of kidnap/hostage situations, Unit personnel have received specialized training to properly cope with these occurrences.

The Unit members have given numerous lectures at law enforcement training schools and seminars. During the past year, the Major Crime Unit received and investigated a total of 41 homicides or major crime complaints. Thirty-two of these cases have been closed, 7 are still pending court and 2 pending further investigation.

ARSON UNIT — The Arson Unit continues to provide the State of New Jersey with Statewide Arson investigative capabilities. Unit personnel initiate and coordinate investigations, as well as, assist other agencies in the detection and investigation of arson. They also provide expertise in the determination of the cause and origin of fires, which are the most critical areas in arson investigation. Additionally, they appear in court as expert witnesses. During this year, the Unit received a total of 405 requests for assistance from state, county, and local police, and fire departments. During this period, the Unit arrested 33 persons on a total of 38 charges, which cleared 36 cases of arson, and has on numerous occasions, assisted state and local police in arrest and prosecution of arsonists. The Arson Unit has met an increased demand for lectures during this year, and has given a total of 38 lectures to Civic Groups, Fire and Police Departments to acquaint them with the operations and objectives of the Unit.

The Unit maintains one of the most comprehensive and up-to-date data systems in the nation on all fires occurring in New Jersey as well as convicted arsonists. At the present time, this system has in excess of 30,000 entries.

The Bomb and Explosives Investigative Team within the Arson Unit is responsible for the handling of all bomb investigations, theft of explosives and the collection of data on bomb incidents for the entire state. The team conducted 16 investigations this year.

FUGITIVE UNIT — The New Jersey State Police having long realized the need and value of a statewide Fugitive Tracking System, applied for and received a Federal Grant to implement such a program with input from and dissemination to, local, county, and federal law enforcement agencies charged with the apprehension of fugitives from justice.

The Fugitive Unit opened 167 investigations. Of these a total of 149 were closed, 90 cases were cleared by arrest, 3 fugitives were found already incarcerated in prison, 2 fugitives had been previously arrested, and 59 were closed for administrative reasons.

The primary objective of the Fugitive Unit is to significantly reduce the number of Class I offenders, wanted fugitives from justice. The Fugitive Tracking System has been tested and proven effective in bringing this about.

The Fugitive Unit publishes the *New Jersey 12 Most Wanted List*. This list is formulated to generate both official and public awareness of the fact that these dangerous subjects are at large. The accused selected are chosen from candidates submitted by the various prosecutors' offices and prison system.

Since the inception of this program in May of 1979, 27 of the 39 subjects placed on this list have been apprehended.

The investigations regarding the escape of JoAnne Chesimard from Clinton Reformatory on November 2, 1979; fugitive Marilyn J. Buck, who is involved in the October 20, 1981 Brinks Robbery; and the December 21, 1981 shooting of Trooper Lamonaco continue to be the top priorities of the New Jersey State Police Fugitive Unit.

MISSING PERSONS UNIT — The Missing Persons Unit is charged with the responsibility of coordinating and investigating cases involving missing persons and unidentified bodies. Cooperating with federal, state, and local law enforcement agencies, the unit collects and maintains a centralized data base on missing persons and unidentified bodies. Upon request, the unit provides investigative assistance to law enforcement authorities.

The unit provides staff support for the work of the New Jersey Commission on Missing Persons.

Unit members provide specialized training to law enforcement personnel and medical examiners throughout the state to enable them to more efficiently handle the tracing of missing persons and unidentified bodies on the local level.

During its one month of existence in this reporting period, a total of six missing persons were located by the Missing Persons Unit and unit personnel assisted other law enforcement agencies in the location of two missing persons.

OFFICE OF THE STATE FIRE MARSHAL — The Office of the State Fire Marshal was transferred on December 10, 1983 to the Department of Community Affairs.

SPECIAL INVESTIGATIONS AND SERVICES BUREAU

The Special Investigations and Services Bureau is comprised of four units; Polygraph Unit, Race Track Unit, Special Investigations Unit, and Sports Complex Unit. The activities of these units for this year are enumerated upon in the following paragraphs.

POLYGRAPH UNIT — The Unit conducts polygraph examinations for all state, county and municipal law enforcement agencies in New Jersey during the course of criminal investigations.

The Unit also provides service to other agencies and some out-of-state agencies with the proper authorization. The Polygraph Unit was involved in 630 criminal investigations, resulting in the examination of 831 persons.

The Polygraph Unit is presently composed of four polygraph examiners all trained at the Keeler Polygraph Institute in Chicago, Illinois. They are court accepted experts and active members of the New Jersey Polygraph Association and the American Polygraph Association which sets the professional standards for examiners.

RACE TRACK UNIT — Racetrack Unit members are responsible for investigating all criminal activity that occurs on the grounds of the four pari-mutuel wagering facilities in the State. Primarily Unit members investigate any and all pre-race blood or post-race urine analysis findings where a foreign substance has been found to exist, mutuel thefts, questionable races, mutuel ticket frauds and hidden ownership of racehorses. The Unit members, who are considered to be the investigative arm of the New Jersey Racing Commission, assist the Racing Commission Investigators, Harness Track Security, (HTS) and the Thoroughbred Racing Protective Bureau, (TRPB) in maintaining integrity throughout the racing industry. The New Jersey Racing Commission requires that all persons, horsemen and employees at the pari-mutuel wagering racetracks, be fingerprinted and Unit members check any and all arrest records and forward their recommendations concerning the licensing of these individuals, to the Commission. Three-way name checks are also conducted on owners, trainers, officials and stock transferees.

The Unit conducted a total of 10,765 criminal background and other investigations during the year. Included in these are 532 criminal investigations which resulted in 141 arrests, 95 drug "positive" investigations, 2,956 miscellaneous requests and 7,182 fingerprint records checks.

SPECIAL INVESTIGATIONS UNIT — The Special Investigations Unit conducts confidential investigations for the Governor, Attorney General, and the Superintendent of State Police, Casino Control Commission, Division of Criminal Justice, and the State Commission of Investigation. Unit personnel conduct various types of security clearance investigations, process requests for assistance or information from out-of-state agencies, federal authorities and local law enforcement agencies. They also investigate crimes or suspicious circumstances of an unusual nature that are not normally handled by other investigative units of the Division of State Police.

The unit conducts investigations of applicants for New Jersey State Private Detective licenses as well as the background investigations of Campus Police, Railroad Police, Airport Police and Capitol Police applicants for commission. Requests for investigations by INTERPOL are also processed by this unit. 52 Railroad police commissions, 81 Campus police commissions, and 1 Airport police commission was approved.

This unit conducted a total of 1,007 criminal and security clearance investigations of which 641 were in-depth field investigations.

SPORTS COMPLEX UNIT — The Sports Complex Unit's primary responsibility is the investigation of criminal activity at the Sports Complex. The Sports Complex is located in East Rutherford, New Jersey, and is operated by the New Jersey Sports & Exposition Authority. The Sports Complex is composed of three separate facilities: Meadowlands Racetrack, Giants Stadium, and the Brendan Byrne Arena. During triple events the Sports Complex can accommodate 150,000 patrons on site at one time.

Personnel of the Sports Complex Unit maintain liaison with Troop "B" and Troop "D" in coordinating traffic flow and other police activity in the area during major or multiple scheduled events.

This year Unit personnel conducted 862 criminal investigations which resulted in 516 arrests. Unit members provided criminal patrol coverage for 256 Racetrack events, 49 Stadium events, and 208 Arena events.

ORGANIZED CRIME BUREAU

The Organized Crime Bureau is charged with the responsibility of identification and investigation of those groups engaged in organized crime, as well as those involved in major criminal activity who are not members of the traditional organized crime spectrum. The current complexity and diversification of this criminal effort represents a serious threat to society, requiring the utilization of highly sophisticated investigative techniques in conjunction with continuing communications and cooperation with law enforcement agencies at all levels of state and federal government.

The investigative force of the Bureau is assigned to field units strategically located throughout the state in order to enhance the ability to fulfill the assigned responsibilities. Additionally, the Bureau maintains an administration section located at Division Headquarters in West Trenton.

The Organized Crime Bureau conducted 254 investigations and held 80 raids based on criminal activities. As a result, a total of 132 arrests were effected, with \$1,541,892 in monies and property recovered or confiscated.

OFFICIAL CORRUPTION UNIT — The Official Corruption Unit of the Bureau is charged with the responsibility for the analysis and investigation of allegations of official corruption on a statewide basis. This unit functions in conjunction with the Division of Criminal Justice, utilizing the legal expertise of personnel from that Division to supplement the State Police investigative efforts in this area.

TRIAL UNIT — The Trial Unit provides investigative assistance to the Division of Criminal Justice for the preparation and presentation of criminal cases which originate from State Police investigations. This assistance is afforded cases at the State Grand Jury level as well as the pretrial and trial stages.

NARCOTIC BUREAU

The Narcotic Bureau continues to cooperate with all State Police Stations, local, county and federal enforcement agencies. This posture of extensive communication and cooperation provides the Bureau with an excellent capability to collect, evaluate and properly disseminate significant intelligence data.

The Bureau presently has a complement of 61 Detectives and three civilian clerks. The bureau is administered from Division Headquarters, West Trenton, with regional offices strategically located at the Hackensack Station for North Jersey, Edgewater Park Station for Central Jersey, and Berlin Station for South Jersey.

The trafficking of controlled dangerous substances has expanded to such a great degree that the present policy of the Narcotic Bureau is the identifying of targets at the level of initial distribution within this State, and then to conduct extensive investigations in order to apprehend and convict a complete narcotic importing and distributing organization.

Narcotic Bureau personnel effected 522 arrests, conducted 193 raids, confiscated various controlled dangerous substances and recovered other property, e.g., firearms, vehicles, monies and paraphernalia valued at \$1,776,935.

As well as the two regional offices mentioned above, the Narcotic Bureau also has the following specialized units.

TRI-COUNTY MULTI-AGENCY NARCOTIC UNIT — The counties of Hunterdon, Sussex and Warren, along with the Narcotic Bureau, entered into an agreement to conduct controlled dangerous substance investigations geared to result in arrests and prosecutions at the level of distribution which supplies the consumer within their confines. The unit maintains an office in a State facility in Glen Gardner and is supervised by a Narcotic Bureau Detective Sergeant First Class. In addition, five full time State Police Officers are assigned, along with county and local officers.

PATROL DRUG RESPONSE UNIT — The Patrol Drug Response Unit, with an office located at Edison Station, continues to be responsible for assisting all State Police Road Stations, toll roads and interstate highways regarding substantial seizures of drugs. The ability of the PDRU to respond immediately facilitates the gathering and dissemination of vital intelligence information in effort to further pursue the destination and source of the drug involved. PDRU is also responsible for the gathering of confiscated material and goods and following the proper procedure to its final termination.

ALCOHOLIC BEVERAGE CONTROL ENFORCEMENT BUREAU

The Alcoholic Beverage Control Enforcement Bureau is comprised of 65 Alcoholic Beverage Control Inspectors. In addition seven members of the New Jersey State Police are assigned supervisory roles to coordinate all alcoholic beverage investigations.

The Bureau has the responsibility of initiating and investigating complaints which are violations of Title 33, Intoxicating Liquors and Title 13, Administrative Code violations. There are 11,630 liquor licenses throughout the 21 counties of the State which are policed by this Bureau.

The Alcoholic Beverage Control Bureau is comprised of eight units: Special Interest Unit, Retail and Liquor Gauging Unit, Rehabilitation Unit, License Application Unit, Atlantic City Joint Liquor Task Force, and North, Central and South Undercover Units.

SPECIAL INTEREST UNIT— The Special Interest Unit conducts investigations relative to ascertaining and documenting violations of the New Jersey Intoxicating Liquor Laws. The thrust of these inquiries are concerned primarily with the Undisclosed Interest and/or Fronts, Farm-out and/or Leasing License, Disqualified Employees and Failure to Maintain True Books of Account.

This Unit completed 32 investigations this period, resulting in 198 established violations which were referred to the Division of Alcoholic Beverage Control Prosecution Bureau for appropriate action.

RETAIL & LIQUOR GAUGING UNIT— This Unit makes unannounced retail and liquor gauging inspections and investigations in all plenary retail and club licensed premises to determine proper licensing, qualifications of employees, possession of narcotics, gambling paraphernalia, indecent and lewd material, illegal storage and transportation of alcoholic beverages. Inspectors also gauge and test the contents of open bottles for evidence of tampering.

This year Inspectors conducted 1,752 retail inspections and uncovered 596 violations. Also, 1,112 liquor gauging inspections were made and 546 questionable bottles of alcoholic beverages were detained. A total of 16,236 bottles of alcoholic beverages were tested in licensed premises.

REHABILITATION UNIT— In order for a person to work in or own a licensed premises, he must be free of any criminal conviction which involves Moral Turpitude. Any individual who has a conviction of this type of crime and desires to work in or own a licensed premises must apply for a Rehabilitation Permit or have his disqualification removed. This Unit investigates the background of these individuals to determine if the applicant qualifies.

The Unit's function is to keep the undesirable person from entering the liquor industry. Last year 202 applicants applied for either a Rehabilitation Permit or a Disqualification Removal. Another 72 applicants applied for the annual renewal of their Rehabilitation Permit.

LICENSE APPLICATION UNIT— The function of the License Application Unit is to investigate all applications for State Licensing which consists of 19 various types of licenses. In addition, investigations are conducted on a municipal level when a member of the governing body purchases a license or becomes a stockholder in a corporation involved in the liquor industry.

This Unit also conducts investigations of licenses on the wholesale level. Records pertaining to the purchase and sales of alcoholic beverages are examined to make certain that administrative violations are not being made. In addition, complaints against wholesalers for alleged kickbacks, illegal transportation of alcoholic beverages, stolen liquor and employing persons with a criminal record are conducted. A total of 214 inspections were conducted, resulting in the completion of 93 investigations for 250 violations.

NORTH, CENTRAL AND SOUTH UNDERCOVER UNITS— All of these Units have the same function. They are broken into two units for the purpose of covering the 21 counties within the State. Investigations conducted by these Units generally involve sales to minors, intoxicated patrons, sales without a license, narcotics, gambling, lewd shows, prostitution and sales beyond the scope of a license.

The North Unit, which has an office in Clifton has the responsibility of seven counties which include the heavily populated metropolitan area of North Jersey. It is estimated that within these seven counties there are over 6,000 licensed establishments. This year 2,167 investigations were conducted by the North Unit which resulted in 366 violations causing 152 arrests.

The South Unit, which has an office in Bellmawr, handles 7 counties. There are 2,000 licensed establishments within the South Unit's area of responsibility. This year 1,092 investigations were conducted by this Unit which resulted in 347 violations with 176 persons being arrested.

The Central Unit, which is located at Keyport, has jurisdiction over seven counties located in the central portion of the State. This Unit was formed in February of 1983 for the purpose of curtailing expenses and to better control activities of the 3,600 licensed premises located within its jurisdictional boundaries. The Central Unit conducted 972 investigations resulting in 212 violations and 113 arrests.

Atlantic City Joint Liquor Task Force - The Bureau also has allocated two members to the Atlantic City Joint Liquor Task Force. This "Task Force" is composed of members of the Atlantic County Prosecutor's Office, Criminal Justice and other members of the New Jersey State Police. Its duties involve the investigation of all liquor license transfers for premises located in Atlantic City.

SPECIAL STAFF

The Supervisor of the Special Staff Section holds the rank of Major. Under the administrative direction of the Deputy Superintendent, he performs a staff function. He conducts formal communications with all Staff Officers. His delegated authority includes the directing, coordinating and controlling of the personnel and functions of the Intelligence Bureau, Central Security Bureau, and the Atlantic City Special Investigations Bureau.

Major Charles H. Coe

INTELLIGENCE BUREAU

The primary function of the Intelligence Bureau is to gather intelligence data used in the formulation of strategic public policy issues designed to provide criminal justice practitioners and administrators with a more accurate assessment of organized crime and the major criminal problems confronting the State of New Jersey. To fulfill this mandate, the Intelligence Bureau advises the Superintendent of any pertinent changes in the current structure of organized crime's legitimate and/or illegitimate enterprises. In addition, the Bureau projects future trends in organized crime movement in order to develop strategies for the effective and efficient allocation of resources. The Bureau has continued to initiate strategic and tactical studies examining and recommending new methods of reducing and/or controlling organized criminal involvement in the areas of narcotics, labor racketeering, sophisticated organized conspiracies, and political corruption.

The scope of organized crime and its ancillaries is international. As such, the Intelligence Bureau maintains a close and constant liaison with the intelligence community and law enforcement agencies worldwide. The Bureau is a standing member in the Middle Atlantic - Great Lakes Organized Crime Law Enforcement Network (MAGLOCLN), and the Law Enforcement Intelligence Unit (LEIU).

The secondary responsibility of the Intelligence Bureau is to collect tactical data focused on assisting the operational units of the Division. Tactical analysts assigned to the various regional units collate and assess incoming raw intelligence data on a daily basis, enabling the Analytical Unit to continually monitor significant changes in the criminal structure and operations of organized crime within the State. From this process, the Analytical Unit provides the appropriate operational units with recommendations for further investigation.

ANALYTICAL UNIT — The Analytical Unit is comprised of 11 intelligence research analysts. Analysts are devoted to the analysis of data regarding the casino gaming industry; the analysis of data relative to economic crimes; and the study of organized crime. Since the primary function of this Unit is to conduct strategic intelligence assessments for the Attorney General and the Superintendent, an integrated strategic/tactical analytical concept has been initiated whereby the data analyzed in tactical assessments is subsequently utilized to provide strategic assessments of illicit marketplaces and the criminal organizations which supply these marketplaces. Toward this goal, analysts are assigned to assist the investigative components of the Division and Federal and local law enforcement agencies. In addition, the Analytical Unit has conducted several analytical seminars designed to broaden the scope of an investigative inquiry into a particular criminal phenomenon.

ADMINISTRATIVE UNIT — The Unit's primary function is to assist other law enforcement agencies in their investigative efforts to combat organized crime by responding to their inquiries for information. In addition, the Unit is responsible for the acquisition of telephone toll records requested by members of the Division. During the past year, this Unit has responded to 5,687 requests for information, both oral and written, received from various law enforcement agencies located throughout the country. The Unit also processed 107 requests for telephone toll records and provided information on 14,925 individual telephone listings.

ELECTRONIC SURVEILLANCE UNIT — This Unit is primarily responsible for maintaining an inventory of all court authorized audio and video electronic surveillances conducted by the Division. Unit personnel are responsible for the installation, maintenance and removal of all equipment and the processing of audio evidence for the operational units. During the year, this Unit implemented 17 wiretaps, 2 microphone eavesdrops, 57 "Dialed Number Retrievals", 5 video surveillance and 11 Government security checks. In addition they investigated 13 illegal wiretaps; processed 670 "official" evidential recordings; duplicated 2,029 audio and 39 video tapes; and made 39 evidential composites.

COLLATION AND EVALUATION UNIT — This Unit is responsible for the reports submitted to the Intelligence Bureau. The primary function of the Collator is to determine if the data meets the criteria set forth in the Intelligence Bureau Manual and to assign priorities for further investigation. In addition, the Collator records and answers any queries received from other agencies. During the past year, this Unit processed 848 intelligence reports submitted by the regional field units; responded to 45,813 information requests from outside the Bureau; and transmitted 133 reports to other Divisions, Sections, Bureaus and Units.

ORGANIZED CRIME LABOR RACKETEERING UNIT — The Organized Crime Labor Racketeering Unit was established in 1976 to examine organized crime's involvement in labor unions in New Jersey. To partially fulfill this function, a comprehensive analytical study was undertaken and completed scrutinizing labor laws. Investigative personnel assigned to this Unit continue to collect an extensive amount of intelligence data which is continually being analyzed. Several investigations have been initiated in cooperation with the U.S. Department of Labor and the U.S. Attorney's Office.

CASINO INTELLIGENCE UNIT → The Casino Intelligence Unit functions as an integral part of the Intelligence Bureau. The primary responsibility is to gather intelligence data concerning organized crime and criminal activities related to, and as a product of, the legal casino gaming industry in New Jersey. Unit personnel collect and formulate background information concerning the corporations and their key personnel which function as serious prospective investors in the casino gaming industry in this State. They also identify and monitor activities and maintain files on persons involved in illegal endeavors generally associated with the gaming industry, i.e., credit frauds, cheats, card mechanics, slot cheats, prostitutes and con operatives. The Unit also provides data and strategic intelligence that will aid in the formulation of future legislation and regulation concerning the casino gaming industry.

CENTRAL SECURITY BUREAU

The Central Security Bureau, reports to the Supervisor of the Special Staff Section. The Bureau's primary responsibility is to identify, reduce, control and prevent social-political organized crime and terrorism in the State of New Jersey. In addition, the Bureau has the responsibility of keeping the Superintendent of State Police and the State Attorney General informed of any developing situations that may lead to civil disorders in the State; and to investigate all threats directed toward members of the New Jersey Judiciary.

In order to fulfill the primary responsibility of the Bureau, strategic intelligence assessments have been designed and developed to provide a descriptive analysis of social-political organized crime systems and terrorist groups operating in the State. The Bureau depicts their capabilities and assesses the efforts of law enforcement in the control against these groups.

The Bureau must also continually develop tactical intelligence data designed to provide operational units of law enforcement agencies with the necessary data to investigate and combat social-political and terrorist organized criminal activity, and identify those persons in these groups.

ATLANTIC CITY SPECIAL INVESTIGATIONS BUREAU

A commitment for policing the casino industry and the residue of ancillary services is clearly vested in the Special Staff Section. The designation of an Atlantic City Special Investigations Bureau creates a unique and separate identity for this Bureau. The primary mission of the Bureau is initiating and developing criminal investigations with respect to syndicated and organized predatory crimes committed in Atlantic City proper.

Reporting to the Supervisor of the Special Staff Section, the Bureau is also responsible for the coordination and monitoring of all criminal investigations in the greater Atlantic City area which emanate from within the Division of State Police.

The Bureau is also charged with maintaining cooperative relationships with all law enforcement agencies who have the authority to enforce the criminal law in Atlantic City and the surrounding area.

RECORDS AND IDENTIFICATION

The Supervisor of the Records and Identification Section holds the rank of Major. Under the administrative direction of the Deputy Superintendent, he performs a staff function. He conducts formal communications with all Staff Officers. His delegated authority primarily includes the directing, coordinating and controlling of the Expungement Unit, Criminal Justice Records Bureau, State Bureau of Identification, and Computer Bureau.

Major Louis E. Grossi

EXPUNGEMENT UNIT — The Expungement Unit is responsible for complying with lawful court orders for the expungement or the sealing of criminal records and to object to the motions or orders that conflict with the intent of the law. The unit received and processed 20,412 pieces of correspondence.

The Expungement Unit helps to insure an individual's right to privacy by providing security in the sealing and expunging of criminal records ordered by the court. The unit is also responsible for processing individuals who wish to review their criminal record for content and accuracy. During this period 159 individuals received their criminal record.

CRIMINAL JUSTICE RECORDS BUREAU

The Criminal Justice Records Bureau is comprised of four units: Uniform Crime Reporting; Criminal Records; Traffic Records and Micrographics. The Bureau receives and processes reports and maintains files regarding traffic and criminal investigations. The Bureau also collects and analyzes statewide crime statistics. The Bureau is designated as the agent for the reproduction of reports for the Division. It is guided by the dictates of the New Jersey State Statutes and court rules as to what reports are legally recoverable by authorized agencies. From the 29,220 requests received this year the Bureau reproduced, certified, and released the applicable records, internal records and photographs for pre-set fees. There were 17,549 reports reproduced at a recovery of \$180,105 and 1,814 photographs at a recovery of \$7,585, resulting in a total of \$187,690 being returned to the state treasury. The Bureau is responsible for reproducing "No-Fee" copies for other State agencies as well as copies attached to correspondence in files. The total number of pages copied this year was 124,609.

Administrative personnel of the Criminal Justice Records Bureau processed 1,357 requests for discovery during the past fiscal year. Personnel activity reports for all members of the Division were also processed. Additionally statistical reports are prepared on a monthly, calendar, and fiscal year basis which provides information to staff.

UNIFORM CRIME REPORTING UNIT — The Uniform Crime Reporting Unit is responsible for the collection, compilation, and analysis of crime statistics reported by all

police agencies in the State. As required by law, each police agency in the State submits prescribed reports to the Uniform Crime Reporting Unit. Each report received by the Unit is recorded, examined and reviewed for mathematical accuracy and for reasonableness as to the interpretation of offense classifications. A copy of the corrected report is forwarded to the Federal Bureau of Investigation for each contributor to the program.

Field Representatives of the Uniform Crime Reporting Unit made personal contacts with contributing law enforcement agencies for the purpose of report corrections, instructions for new reporters, surveying and updating internal record systems, verification of statistics submitted and conducting statistical crime analyses. In a continuous educational program, the Unit delivered lectures to police officers and civilian personnel throughout the twenty-one counties of the State.

In August 1983, the sixteenth annual "Crime in New Jersey" publication was presented to the Governor, the Legislature, the news media, police departments, various libraries and other related law enforcement agencies. This report presents an impartial and accurate account of the reported crime in the State. During this year, the Unit also compiled and released two reports, depicting crime index trends.

CRIMINAL RECORDS UNIT — This Unit's responsibilities led to the processing of 19,389 investigation reports, 16,175 arrest reports, 7,110 property reports, 2,402 vehicle reports and 62,911 supplementary reports for up-dating various investigations conducted by members of the Division. The Unit also responded to 12,590 inquiries for criminal records by authorized criminal justice agencies. The total number of reports processed by this Unit was 108,117.

TRAFFIC RECORDS UNIT — The Traffic Records Unit is responsible for processing all State Police reports of motor vehicle accidents and drinking drivers. The Unit processed 27,416 traffic type reports. In addition, the Unit is responsible for providing traffic statistics for analysis purposes and for the processing of Troop Car accidents.

MICROGRAPHICS UNIT — The Micrographics Unit is responsible for document life perpetuation through microfilming. This function allows for a more efficient method of storage and retrieval and is available to the entire Division. Personnel of the Unit prepared and filmed more than 2,320,439 documents during the past fiscal year.

STATE BUREAU OF IDENTIFICATION

The State Bureau of Identification serves as the central repository for criminal history record information for all New Jersey criminal justice agencies. Sophisticated computer technology has been applied to input, update, and disseminate criminal history record information in an accurate, timely manner to authorized agencies. Automated criminal history summary, arrest and conviction information, is currently available "on-line" for rapid transmittal via NJCJIS Field Terminals. Fully detailed criminal history information is available on an "off-line" basis and forwarded via mail to all authorized requestors. Presently, there are 293 NJCJIS Field Terminals with the capacity of accessing the CCH files. Further expansion is anticipated during 1985. The State Bureau of Identification consists of six operational Units: Court Disposition Reporting Unit, Data Reduction Unit, Technical Unit, Records Assembly Unit, Criminal Information Unit, and the Records Identification Unit. The effective utilization of automated criminal history records systems

permitted the Bureau to process 1,953,315 criminal inquiries, 1,184,834 criminal record updates/modifications and the dissemination of 1,071,040 criminal history records. The protection of society, as well as federal security and privacy requirement, dictate that this service be maintained at a high level of efficiency.

COURT DISPOSITION REPORTING UNIT — This Unit is responsible for the manual initiation and audit control of all court disposition reporting forms not initiated by the automated systems employed by the Bureau. The Unit initiated 10,974 CDR-6 Probation Reports and 8,425 CDR-7 Conditional Discharge Reports during the year. A field staff of eight personnel are responsible for the training and auditing of the criminal justice components reporting to the State Bureau of Identification. The field staff contacted 10,781 agencies.

DATA REDUCTION UNIT — This Unit is responsible for the data input and verification of all criminal history record information to the computerized criminal history file along with input to the automated name index. During the year, 98,717 index records were added to the automated name index file. At the end of the year, the CCH System contained the criminal history records of 552,288 individuals arrested since January 1, 1972.

TECHNICAL UNIT — This Unit is responsible for classifying incoming fingerprints, conducting searches by classification (machine and manual), filing and related duties necessary for maintaining the master print file. During this year, there were 54,255 criminal identifications made from previous records and 18,146 non-criminal identifications made by the Unit.

RECORDS ASSEMBLY UNIT — This Unit is responsible for the manual assembly of record inquiries for licensing and employment purposes along with the assembly of any historical record not contained in the computerized criminal history file. During the year, the Unit assembled 7,136 records.

CRIMINAL INFORMATION UNIT — This Unit is responsible for maintaining the manual index and historical data jacket files. Further, they process all telephonic inquiries for criminal history record information and name search all inquiries received on correspondence. During the year, the Unit responded to 3,504 telephone inquiries and processed 40,975 correspondence inquiries.

IDENTIFICATION RECORDS UNIT — This Unit is responsible for the quality control processing of all incoming documents. Further, the Unit types all manual CHRI responses assembled by the Records Assembly Unit and is responsible for the mailing of all Bureau correspondence. During the year, the Unit received 176,574 fingerprints and 390,202 documents.

COMPUTER BUREAU

The State Police Computer Bureau is responsible for the planning, coordinating, and direction of data processing activities for the entire Division of State Police. This group also performs data processing services for many other Criminal Justice Agencies within

the State. Computer Bureau personnel perform systems analysis tasks and program sophisticated computerized systems to assist users in the planning and implementation of automated data processing applications.

Computer Bureau personnel have the responsibility of defining the data processing needs of the various Criminal Justice Agencies throughout the State, and insuring that these needs are satisfied in the most expeditious manner. This includes liaison with State Criminal Justice Agencies and out-of-state agencies. Bureau personnel have regular communications with agencies such as the National Crime Information Center, the Federal Bureau of Investigations, SEARCH Group Incorporated, National Law Enforcement Telecommunications System, and various other progressive out-of-state computer centers.

The major State Police areas of data processing involvement are Communications, Records and Identification, Criminal Investigation, Transportation, Logistics, Intelligence, Uniform Crime Reporting, and Traffic.

CASINO GAMING

The Supervisor of the Casino Gaming Section holds the rank of Major. Under the administrative direction of the Deputy Superintendent, he performs a staff function. He conducts formal communications with all Staff Officers. His delegated authority includes the directing, coordinating and controlling of the personnel and functions of the Casino Investigations Bureau, Casino Licensing Bureau and the Casino Identification Bureau.

Major Robert C. Winters

CASINO LICENSING BUREAU

The primary function of the Casino Licensing Bureau is to coordinate the combined efforts of the Entity Licensing Unit, Casino Operations Unit, Employee Licensing Unit, Service Industry Licensing Unit, Trial Unit, and the Renewal Licensing Unit.

ENTITY LICENSING UNIT — The unit investigates, maintains records and reports on the suitability of all entity applicants for casino licenses. This includes all initial and renewal type investigations. The unit operates in cooperation with the Division of Gaming Enforcement, as mandated by the New Jersey Casino Control Act.

CASINO OPERATIONS UNIT — The Casino Operations Unit is responsible for the enforcement and compliance of certificate of operations, casino facilities and casino floors, accounting and internal controls, rules of the games, gaming equipment, alcoholic beverage controls, security/surveillance, advertisements, casino staffing requirements, slot machines, tournaments, promotions, job compendiums and operational audits. This is to assure that each casino licensee functions within the context of the regulatory process as all regulations and internal control submissions are viewed for consistency and operational applicability by the unit.

Unit personnel completed 12,253 inspections and related operational field work requirements relating to slot inspections, games and gaming equipment, alcohol and beverage control, casino staffing, public information network, facilities and floor plans, audit and submission coordination.

EMPLOYEE LICENSING UNIT — This unit conducts background investigations, record checks, Criminal Justice employment applicant investigations, general public investigations on all individuals who have applied for licensure as casino/hotel employees in New Jersey's Gaming Industry. This includes key casino licenses, casino gaming and non-gaming related licenses; their yearly and three year renewals, and hotel registrant investigations. Also, the unit gives assistance of a general police nature when requested by out-of-state police, federal authorities, municipal departments and other state and county regulatory bodies.

Unit personnel completed 10,195 investigations in the area of Form 1 and 2 type licensures, four-way checks, renewals and reviews.

SERVICE INDUSTRY LICENSING UNIT — This unit investigates, maintains records and reports on the suitability of those persons and enterprises which have applied to the Casino Control Commission for licensure as casino service industries or placement on the Master Vendor's List. This includes all such initial and renewal type investigations..

The unit operates in cooperation with the Division of Gaming Enforcement, as mandated by the New Jersey Casino Control Act.

Unit personnel conducted 6,113 investigations of qualifiers, gaming related companies, labor organizations, gaming schools and junket representatives.

TRIAL UNIT — This unit is primarily responsible for the preparation of administrative cases presentment before the Office of Administrative Law, the Casino Control Commission and State and Federal Appellate Courts.

The unit also maintains records with the cooperation of the Division of Gaming Enforcement for licensure and/or revocation.

The unit received a total of 2,094 notifications in the area of arrest notification, exclusion list investigations, license denial hearings, prohibited gaming investigations, prohibited gratuity investigations and Criminal Justice referrals for their investigation and preparation.

RENEWAL LICENSING UNIT — This unit conducts renewal background investigations pertaining to qualifiers, i.e., principals, of the entity which have applied for a casino hotel license. The unit also investigates the entity's background focusing on the continued financial stability of the parent corporation and subsidiaries and significant business associates, after licensing. Finally, members conduct on-going renewal investigations related to fully licensed casino applicants. Currently there are ten casinos licensed in Atlantic City.

CASINO INVESTIGATIONS BUREAU

The primary function of the Casino Investigations Bureau is to enforce all the rules and regulations of the Casino Control Act. The bureau is also empowered to investigate, apprehend and assist with all criminal investigations, investigate all complaints of violations, and arrest/charge all violators of the Casino Control Act and all crimes against New Jersey Criminal Statutes.

In addition to investigating and apprehending violators of the Act, the bureau monitors the surveillance and security departments of the various licensed casinos and insures the compliance of all internal control submissions.

The Casino Investigations Bureau is comprised of three squads that perform the above mentioned functions during the operational hours of the various casinos.

Bureau personnel conducted 1,238 casino related investigations that resulted in 757 arrests.

The Bureau also includes the Special Investigation Unit.

SPECIAL INVESTIGATION UNIT — The primary function of the Special Investigation Unit is to handle the in depth criminal investigations that occur within the complex casino industry. This calls for a close liaison with local, county, and federal authorities within the framework of the casino industry. The unit also has developed a working relationship with the Nevada Gaming Board, Nevada Metro Police and international police authorities throughout the world as they relate to the gaming industry.

Unit personnel initiated 49 in depth casino related investigations that resulted in the arrest of 42 individuals.

CASINO IDENTIFICATION BUREAU

The primary function of the Casino Identification Bureau is to provide fingerprinting and photographing availability for all casino and hotel employees. The Bureau maintains all records and reports for the license issuance process.

The Bureau maintains a liaison between the Casino Gaming Section and Casino Control Commission.

This Bureau has fingerprinted nearly 15,000 individuals and has issued over 14,000 licenses.

SPECIAL & TECHNICAL SERVICES

Major Edward R. Leibe

The Supervisor of the Special and Technical Services Section holds the rank of Major. Under the administrative direction of the Deputy Superintendent, he performs a staff function. He conducts formal communications with all Staff Officers. His delegated authority primarily includes the directing, coordinating and controlling of the Equine Testing Bureau, Forensic Sciences Bureau, State Regulatory Bureau, and Technical Bureau.

EQUINE TESTING BUREAU

The Equine Testing Bureau is committed to pre-race and post-race testing of standard-bred and thoroughbred horses, with laboratories situated at the Meadowlands and Freehold Raceways. The analysis also encompasses the testing of horses at the Atlantic City and Monmouth Park Racetracks, and testing in non-pari-mutuel races (sire stakes) in Cumberland, Middlesex, Monmouth and Ocean Counties.

The laboratories are staffed with technical personnel who perform all testing and screening for numerous drugs. A breakdown of testing conducted at the Meadowlands and Freehold Laboratories this period resulted in 46,347 pre-race specimens being analyzed, 47 of which were found to be positive in that they contained prohibited medication or drugs. In post-race testing 28,785 specimens were examined with a total of 51 found to be positive.

FORENSIC SCIENCES BUREAU

The units of the Forensic Sciences Bureau provide scientific analysis of specimens related to the investigation of criminal matters submitted by the criminal justice agencies of the State. The Bureau provides expert testimony in all of the county and municipal courts of the State relative to the forensic analyses conducted. The Bureau also provides a wide range of instruction and training to members of law enforcement agencies of the State relative to evidence collection, police photography, identification skills and in other related fields.

REGIONAL CRIME LABORATORIES — The New Jersey State Police Laboratory system includes four Forensic Laboratories located for geographical convenience at the following locations: the North Regional Lab at Little Falls, Passaic Co., the South Regional Lab in Hammonton, Atlantic Co., the East Regional Lab in Sea Girt, Monmouth Co., and the Central Regional Lab at West Trenton, Mercer Co. These Laboratories provide full time crime laboratory services in the inspection and analysis of crime related evidence. Drug analysis, toxicology, trace and bio-chemistry examinations are conducted. Our chemists are able to enhance vital information, through research and development, and provide the Forensic Science community with this data via the publishing of papers and books. The North Regional Laboratory also serves as the "confirmation" laboratory for the Equine Testing Bureau.

The laboratories are staffed by 93 chemists and technicians and 20 clerical persons. There were 23,149 cases submitted to the laboratories for analysis during this period. There were 22,058 cases completed this year. Personnel completed 383,158 examinations on 112,241 specimens submitted. The laboratory personnel received 7,548 subpoenas which led to 743 court appearances.

BALLISTICS UNIT — The Ballistics Units located at the Central, North, South and East Regional Laboratories provide technical services to all law enforcement agencies in matters which pertain to the use of firearms during the commission of crimes. Highly trained specialists conduct tests of all types of firearms and perform microscopic examinations of discharged bullets and shells to identify the particular firearm in which they were discharged. Other related services include the restoration of obliterated serial numbers, the examination of clothing for gunpowder residue and the performance of tests to determine the distance from which a shot was fired. Expert testimony is provided during criminal trials. Ballistics personnel also receive, inventory and destroy contraband firearms which are confiscated during investigations throughout the State.

During the year, there were 1,542 cases received for examination and 1,410 cases completed. Unit personnel tested 2,173 firearms, made 1,161 microscopic comparisons and examined 4,858 specimens of evidence. There were 116 obliterated serial numbers on weapons restored and test patterns were fired to determine the distance from which shots were fired in 89 investigations. There were 381 subpoenas received and Ballistics experts appeared and testified in 64 trials. A total of 6,745 contraband firearms were received, inventoried and 9,627 were destroyed during the year.

STATE REGULATORY BUREAU

The State Regulatory Bureau, comprised of the Firearms Investigation Unit, and the Private Detective Unit, performs a regulatory function in the overseeing and administration of licensing throughout the State and in coordination with federal agencies.

FIREARMS INVESTIGATION UNIT — In administering the state firearms control laws, the Firearms Investigation Unit is required to promulgate standards and qualifications for the manufacture and sale of firearms as well as develop forms for distribution to firearms dealers, police departments and superior courts. A central repository of registration forms relating to the acquisition of firearms in this State is maintained by the Unit. As of July 1, 1984 there have been 821,964 firearms registered with the Division. The Unit maintains a file on all firearms applications processed by municipal police departments as well as the Division of State Police. Since the enactment of the State gun control program 1,071,575 applications have been processed and recorded, including 49,153 this period.

The Unit has a total responsibility to investigate applicants for a New Jersey License to retail, wholesale and manufacture firearms, and to investigate employees who will actively engage in the sale or purchase of firearms. During this period there were 662 investigations of such applicants. In addition, the Unit is required to investigate illegal firearm transactions occurring throughout the State, and to assist other law enforcement agencies in firearm related investigations. The Unit conducted 88 criminal investigations resulting in 31 arrests. Recovered firearms totalled 343 with a value of \$60,691.

Each dealer, by statute, is required to keep a record of the acquisition and disposition of firearms. Unit detectives periodically inspect these records to assure that the dealer is

complying with existing statutes as well as regulations promulgated pursuant to these statutes. In this period, 893 inspections were conducted which include examining the dealer's security system to assure that minimum standards to safeguard firearms and ammunition at the business premises are met.

PRIVATE DETECTIVE UNIT — The Private Detective Unit has the statutory responsibilities for the administration and enforcement of all laws regulating the Private Detective Industry, including pursuers and private detective/security agencies and their employees within the State of New Jersey. Personnel of this Unit screen all applicants for licenses in accordance with the Private Detective Act of 1939 and the New Jersey Administrative Code. Unit personnel maintain files and computer printouts of all licensed private detective agencies and their employees, conduct inspections and audits of agencies, and investigate complaints and violations of the Private Detective Act, making arrests when necessary.

Private detective licenses are issued for a two year period whereupon they become renewable. There are 794 licensed private detective agencies in the State of New Jersey. This year 412 licenses were issued of which 203 were corporations, 3 were partnerships, and 206 were individual. Unit personnel conducted 21,479 record checks on agencies' employees. A total of \$555,785 in license and employee fees were received, recorded, and forwarded to the Budget Bureau, and 893 agency inspections were conducted.

TECHNICAL BUREAU

The Technical Bureau is comprised of four units: Photography Unit; Document Examination/Voiceprint Identification Unit; Composite Drawing Unit; and the Crime Scene Investigation Unit. The Bureau provides a highly specialized technical service to all law enforcement, State regulatory agencies, and Federal Departments.

PHOTOGRAPHY UNIT — The Photography Unit provides a support service to the Technical Bureau with its many varied photographic capabilities.

There were 673 forensic evidence photography requests completed this year which required 37,694 applications in the photographic recording of weapons, explosives, arsons, powder marks, criminalistic comparisons, indented writing, laundry, jewelry, latent prints and narcotics. The applications require all phases of black and white, color, ultra-violet, infra-red and x-ray photography.

Operational photography, logistics support, training and repair services are provided to all bureaus and units within the Division in addition to limited requests of State and municipal law enforcement agencies. The processes required to fulfill these requests included 9,765 black and white negatives 14,417 color film negatives, 23,821 black and white prints, and 14,399 color photograph prints.

DOCUMENT EXAMINATION/VOICEPRINT IDENTIFICATION UNIT — The Document Examination/Voiceprint Identification Unit provides a highly specialized and technical service to all law enforcement and State regulatory agencies, as well as to Federal Departments.

Documents of evidential value are encountered throughout the full range of criminal activities. Examinations include, but are not limited to, handwriting identification, typewriter recognition, microscopic and chemical analysis of inks and papers, charred and water-soaked documents, indented writing, erasures, obliterations and alterations.

Spectrographic analysis is accomplished by conversion of a magnetic tape medium into graphic renditions for contrast and comparisons.

Both document examinations and voiceprint identifications are used as a means to aid the investigator and the courts in arriving at successful conclusions.

There were 1,436 new document examination cases received and 1,507 cases were completed, which included the examination of 25,579 specimens submitted and total of 77,586 examinations conducted.

Voice identification cases totaled 11 for the year with the examination of 330 spectrograms. Court appearances totaled 42 during the year.

COMPOSITE DRAWING UNIT — The Composite Drawing Unit is responsible for answering requests received from law enforcement agencies throughout the State and adjoining states. Requests are accomplished by rendering freehand sketches of descriptions given by victims or eyewitnesses involved in criminal investigations.

The Unit is additionally responsible for the reconstruction of unidentified decomposed bodies, drawing the facial features from unidentifiable skeletal remains with the aid of an anthropologist; alterations of wanted person mug photos, crime scene sketches and preparation of wanted fliers.

During the year, there were 359 composite drawings made.

CRIME SCENE INVESTIGATION UNIT (CSI) — There are three units: North Unit, located at Totowa, Troop B State Police Headquarters, Central Unit, located at Princeton, Troop C State Police Headquarters and South Unit, located at Hammonton, Troop A Headquarters. The CSI personnel investigate all types of crimes, i.e., homicides, rapes, arsons, assaults, etc. They furnish either full, partial or advisory services that involve crime photography, latent fingerprint processing, criminal identification, evidence collecting and labeling and submission. During this period the Unit handled 1,774 criminal investigations including 107 homicides, 52 sexual assaults, 55 robberies, 65 aggravated assaults, 73 arsons, and 676 burglaries. The Unit also investigated 509 non-criminal cases some of which were 221 motor vehicle fatalities, 29 suicides and 68 sudden deaths.

ADMINISTRATION

The Supervisor of the Administration Section holds the rank of Major. Under the command of the Superintendent, he performs a staff function and reports directly to the Executive Officer. He conducts formal communications with all Staff Officers. His delegated authority primarily includes the directing, coordinating and controlling of the Logistics Bureau, Personnel Bureau, Training Bureau, Fiscal Control Bureau, and Grant Management Unit.

Major John E. Wambold

EMPLOYEE ASSISTANCE PROGRAM — On March 12, 1982 an Employee Assistance Program was instituted within the Administration Section. The general purpose of the New Jersey State Police Employee Assistance Program is to help enlisted personnel overcome behavioral-medical or personal problems. The Program provides information, confidential professional assistance and subsequent referral services.

GRANT MANAGEMENT UNIT — The Grant Management Unit is responsible for coordinating the administration of all State Police projects or programs which are funded by Federal, State or private grants.

LOGISTICS BUREAU

The Logistics Bureau is responsible for providing logistical support as required by the Division of State Police in everyday operations and during civil disturbances and emergencies. This responsibility encompasses the procurement and maintenance of transportation, equipment, supplies and facilities that are necessary for the Division to complete its mission. The Logistics Bureau is comprised of the following units: Facilities Management, Transportation, Purchase and Property Control, and Printing.

FACILITIES MANAGEMENT UNIT — The Facilities Management Unit is responsible for the preliminary planning and technical specifications for the construction of new facilities and for the continual renovation of buildings to meet the needs of the Division. Liaison is maintained with the Division of Building and Construction from the inception of a project through the project close-out and subsequent occupancy of the building. The Unit acts as the administrator of all warranty conditions as related to the guarantee period, and provides representation for the Division at all job site meetings during construction. The Capital Improvement Budget is prepared and submitted by this Unit.

This Unit is also responsible for maintaining records of all real property and construction projects, including administration and coordination with the Bureau of Real Estate and Insurance Management on all leased facilities and associated insurance coverages.

Additionally, programmed preventative maintenance of all State Police owned and leased buildings within the Division constitutes a major area of responsibility for this Unit. This encompasses 35 State owned and 52 leased buildings. Examples of improvements: All interior and exterior repainting of State Police buildings is being performed by the maintenance staff.

TRANSPORTATION UNIT — The Transportation Unit is responsible for the acquisition, replacement and maintenance of the entire State Police fleet of 1,614 vehicles, and of approximately 80 stationary generators and other combustion engines utilized by the Division. The updating of vehicle and equipment specifications, operational procedures and practices, as well as continuous testing and evaluations of vehicle components and equipment are also the responsibility of this Unit. Through this effort, the Division is able to keep abreast of all new modifications and changes, and operationally maintain the fleet at its required peak efficiency.

The present maintenance program of rebuilding engines, differentials, and transmissions, and the repair of vehicles, has saved considerable "downtime" and money for the Division. To enhance the continued operation of the fleet, this Unit also handles the acquisition of fuel and necessary replacement parts for the patrol fleet, emergency generators, and all other combustion engines owned by the Division.

Processing of all correspondence, reports, forms and related clerical duties pertaining to all the vehicles presently in the fleet, new vehicle purchases, sale of old vehicles and maintenance records are handled by this Unit. There were 344 replaced vehicles processed.

PURCHASE AND PROPERTY CONTROL UNIT — This Unit is responsible for the acquisition, storage and distribution of all uniforms and related equipment for members of the Division of State Police as well as all stationery, janitorial and office equipment and supplies required and utilized by the entire Division. Inventories are maintained on all permanent articles and equipment, clothing, weapons, janitorial and office equipment, stationery and supplies on hand.

The Unit is also responsible for the storage, distribution, inventory transferring and disposing of all police and riot equipment, office furniture and related office equipment, and mechanical tools and equipment for the entire Division of State Police.

PRINTING UNIT — The Printing Unit composes, prints and provides all standard forms, guides, booklets, manuals, reports, rosters and training materials used by the Division of State Police. One of the greatest assets the Unit provides the Division is its capability to immediately produce local and regional maps of areas which are in various stages of civil unrest or emergency situations. The Unit also prints composite drawings of suspected criminals, missing persons and wanted persons for immediate distribution which has been very effective.

During the year, the Printing Unit received 1,669 requests for printed material providing the Division of State Police, and other Departments and Divisions within the State Government, with over 9 million forms and copies. Printing projects included the following: operational maps, missing and wanted persons' fliers and posters, composite drawing and instructional materials for use in training courses, manuals and booklets.

PERSONNEL BUREAU

The Personnel Bureau maintains records of all enlisted members of the Division of State Police as well as all Civil Service employees working for the Division. Bureau personnel are responsible for payroll, health benefits, insurance, pension, interviewing and hiring applicants for all civilian positions.

During the past year, 2,164 personnel action requests were prepared and forwarded to the Department of Civil Service. Additionally, interviews were arranged and conducted for over 325 individuals certified to the Division by the Department of Civil Service as eligible for employment.

The Division's authorized strength at the close of the year was 2,191 although the actual strength was 2,104. There were 1,128 Civil Service employees working for the Division which represents a decrease of 105 employees or 8.5%.

MEDICAL UNIT — The Medical Unit is responsible for maintaining the sick leave and medical files on all Division members. They also process medical bills and handle inquiries concerning medical and health insurance plans. Liaison is maintained between this Unit and the four Division physicians. Medical examinations for State Police applicants are arranged by this Unit.

PAYROLL UNIT — The Payroll Unit is responsible for processing all personnel pay actions within the Division. A total of 3,182 actions were processed this year. The Unit is also responsible for timekeeping records; regular and supplemental payrolls; medical and health insurance payroll deduction records, enrollment and changes in coverage.

RECRUITING AND RESEARCH UNIT — The Recruiting and Research Unit supervises and administratively controls all the required phases necessary in the selection process for employment as a New Jersey State Trooper. The Unit presents career programs to various civic and fraternal groups, high schools and institutions of higher learning, human rights and government sponsored agencies and organizations in a continuing effort to recruit qualified applicants. The Unit is responsible for researching and developing the various phases in the selection process relative to fair and equitable employment practices and has the administrative responsibility to respond to various affirmative action guidelines both at the State and Federal levels.

PROMOTIONAL SYSTEMS UNIT — The Promotional Systems Unit is responsible for administering promotions of Division personnel consistent with State Police policy and promotional agreements between the State of New Jersey and the State Troopers Fraternal Association and the State Troopers N.C.O. Association.

RECORDS MANAGEMENT UNIT — The Records Management Unit is responsible for maintaining all enlisted and civilian personnel records. The Unit collects and stores data concerning all personnel changes. Personnel position titles and locations are administered through the Unit.

TRAINING BUREAU

The New Jersey State Police Training Bureau is located at Sea Girt, New Jersey. Bureau personnel train state police as well as personnel from municipal, county and other law enforcement agencies. The Training Bureau is divided into five units. The unit concept enables the Training Bureau to best utilize instructors and facilities, and present new and improved programs.

IN—SERVICE TRAINING COORDINATOR — The In-Service Training Coordinator is responsible for the coordinating of the Annual In-Service Training; the Quarterly Firearms Training with the H&K P7-M8 semi-automatic handgun; the Medical and Physical Test, and other related In-Service areas.

SPECIAL PROJECTS UNIT — The Special Projects Unit was established to conduct research concerning the validation of police training standards.

Procedures were put into effect to assist poor performing recruits to meet minimum standards.

As a result of refined methodology, all research documentation has been placed into a computerized format. This includes information developed during interviews and field observations.

This unit is responsible for scheduling all Training Bureau courses, coordinating medical research, and reviewing and updating all course outlines. The unit is also responsible for coordinating the State Police and Seton Hall University Affiliation Program.

POLICE SCIENCE UNIT — This unit is directly responsible for the basic training of State Police and municipal police officers. This year 54 troopers graduated from the 101st State Police class. Each graduate is eligible for 24 semester hours of credit. The accredited college courses are offered as part of the basic program and are conducted by qualified members of the Training Bureau Staff.

An eleven-week Basic Police Training course for newly appointed police and law enforcement personnel is offered as a service to various law enforcement agencies in the State. A total of 147 trainees graduated from the three courses conducted this year. Basic police related subjects, as well as college accredited courses, were administered by qualified Training Bureau personnel. Graduates of this program can obtain up to fifteen credits from Seton Hall University upon graduation. Other unit functions included assisting in the initial Division Indoctrination and Qualification of the H&K P7-M8. The unit also conducts advanced courses in Firearms Instructor and Police Survival Tactics training.

CRIMINAL SCIENCE UNIT — The Criminal Science Unit instructs Basic Municipal Police Trainees and State Police recruits in criminal related subjects which include the New Jersey Penal Code, Arrest, Search and Seizure, Investigation Procedures, Interview Procedures, Rules of Evidence, Narcotics, Judicial System, U.S. Constitution, Civil Rights Code, Courtroom Testimony, Hostage Negotiations, Crime Scene Preservation, and Alcoholism Treatment and Rehabilitation Act (A.T.R.A.).

The unit also instructs in special and advanced courses. These include Criminal Investigation, Drug Enforcement, Sex Crime Investigation and Analysis, Organized Criminal Groups, Hostage Negotiations, and Missing Persons Investigation. These courses are offered to all levels of federal, state, and municipal police agencies

throughout the country. The Criminal Science Unit was involved in the development and presentation of criminal related subjects for In-Service and Special Training Programs.

TRAFFIC SCIENCE UNIT — The unit instructs Basic Municipal and State Police classes in traffic-related subjects which include Motor Vehicle Law, Traffic Accident Investigation, Defensive Driving, Crash Injuries Management (as coordinated through the Department of Health), and Evasive Driving.

Courses in Advanced Traffic Accident Investigation, Traffic Law Enforcement, and Driving While Intoxicated (D.W.I.) are offered to all police agencies throughout the state. A two-day Evasive Driving Course has been developed for experienced municipal and state police officers.

Traffic Accident Investigation — The in-depth investigative role of the police officer regarding traffic accidents. Among other subjects, he learns to develop scale diagrams, establish minimum speeds from skid marks, and compute critical curve speeds.

Crash Injuries Management — Instruction and certification are provided to the basic municipal and state police candidates in cardio-pulmonary resuscitation, bandaging and splinting, medico-legal aspects, extrication from auto, and emergency birth.

Traffic Law Enforcement — A one-week course designed to ameliorate attitudinal disciplines of the police officer with those of the public. This course also updates motor vehicle law changes, case law, and selective assignment programs.

D.W.I. (Driving While Intoxicated) — A one-week course that concentrates on the detection and apprehension of the drinking driver, the problems encountered with a drunk driver, controlled exercises, and chemical testing of intoxicated subjects and the psychological analysis and evaluation of the D.W.I. suspect.

SOCIAL SCIENCE UNIT — The Social Science Unit is responsible for teaching Psychology and Sociology to State Police Recruits and Municipal Trainees. They are also responsible for teaching Language and Communication to State Police Recruits. In addition, a Crisis Intervention program is presented to all State and Municipal Trainees.

Basic Police Supervision courses are conducted for Municipal Police and State Police supervisors. This course consists of an in-depth study into the principles of police supervision.

A five-day Mid-Level Management course was conducted for those sworn members of the Division holding the rank of Lieutenant and Sergeant First Class. Management Theory is discussed and workshops are conducted for those occupying middle management positions.

A five-day Civilian Supervision course was offered for non-enlisted State Police personnel occupying supervisory or management position. Problems relating to civilian employees are explored and management theory is emphasized.

An Instructor Training and In-Service Development Program is offered. This program is designed to train qualified police instructors for municipal and county police departments, followed by the development of the in-service training modules for statewide use.

A five-day Juvenile Justice Training course is designed to assist law enforcement personnel in dealing with delinquency problems. This comprehensive training program is available to all law enforcement personnel throughout the State and is designed to develop, in policemen, skills and knowledge pertinent to the handling of juveniles in a uniform, unbiased, helpful, understanding, and preventive manner.

A five-day Child Abuse Seminar is offered for police officers and social workers. The course is presented as a joint effort by the State Police and Division of Youth and Family Services. This program provides an excellent opportunity for police and social workers to receive useful information from experts in the field. It also provides an atmosphere whereby a good working rapport can be established between agencies.

A Spousal Stress course was conducted for the immediate families of the members of the State Police class. The course included instruction on stress in the police marriage, firearms safety, the role of the Trooper in Society, State Police Tradition, Division Benefits and Salary.

SUMMARY OF ACTIVITIES — During this year, the Training Bureau conducted various classes for State Police personnel, training a total of 1,106. There were 98 police training classes conducted which totalled 1,891 federal, state, county and municipal police officers.

FISCAL CONTROL BUREAU

The Fiscal Control Bureau coordinates the efforts of the Budget and Allocation Unit and the Accounting Unit toward the development of the annual budget, the allocation of appropriated resources, and the accounting for all expenditures of funds within mandates of law and in accordance with guidelines established by competent authority.

The General State Operation expenditures for the Division for this year are as follows:

Personal Services	\$ 65,182,847
Materials and Supplies	5,440,879
Services other than Personal	6,165,544
Maintenance and Fixed Charges	2,033,987
Special Purpose	13,327,903
Capital Construction, Improvement and Equipment	3,368,631
	<u>\$ 95,519,791</u>

BUDGET AND ALLOCATION UNIT — Responsible for all duties relating to the supervision, coordination and preparation of the annual budget of the Division, and controlling the expenditure of allocated funds.

ACCOUNTING UNIT — Responsible for all duties relating to maintaining an accounting control system to record all financial transactions of the Division.

EMERGENCY MANAGEMENT

Major Harold E. Spedding

The Supervisor of the Emergency Management Section holds the rank of Major and also serves as Deputy State Director, Office of Emergency Management. Under the command of the Superintendent, who is State Director, Office of Emergency Management, he performs a staff function and reports directly to the Superintendent. His delegated authority primarily includes the directing, coordinating and controlling of the Operational Planning Bureau, Emergency Services Bureau, Training and Grant Management Bureau and Regional Organization Bureau. He is also responsible for planning, directing and coordinating emergency operations within the State which are beyond local control.

OPERATIONAL PLANNING BUREAU

The Bureau supervises and coordinates the activities of the Resources Management, Welfare Services, Population Protection Planning, Radiological Emergency Response Planning, and Natural Disaster Planning Units, and is primarily responsible for the preparation, coordination, review, approval, and implementing of State Emergency Operating Plans designed to protect the citizens, public and private property from all types and levels of disasters that could occur within the State, (such as the current planning for Radiological Emergency Operations at Nuclear Power Stations).

The Bureau also conducts training of municipal, county, and State Emergency Management personnel in the areas of Emergency Planning and Operations in Emergency Operating Centers during disaster situations. Operation, manning, staff training, and procedural development for the State Emergency Operating Center are also key responsibilities of the Bureau.

RESOURCES MANAGEMENT UNIT — The Resources Management Unit develops and coordinates a statewide program for utilization of essential resources during an emergency and the ensuing recovery period.

POPULATION PROTECTION PLANNING UNIT — This Unit is responsible for the emergency operations plan development and the shelter survey effort designed to protect people and property from the variety of hazards each jurisdiction within New Jersey is likely to face. In-place sheltering or temporary evacuation are included as possible public response actions.

WELFARE SERVICES UNIT — This Unit is responsible for defense and disaster welfare operations in designated disaster areas. The Unit prepares predisaster plans, coordinates State Welfare Operations, collects information on Welfare Resources and acts as liaison with Federal private welfare agencies.

RADIOLOGICAL EMERGENCY RESPONSE PLANNING UNIT — The Radiological Emergency Response Planning Unit maintains plans for protecting the population near the State's nuclear generating stations. The Unit is responsible for coordinating training of personnel, purchasing equipment and developing annual exercises for each nuclear generating station.

NATURAL DISASTER PLANNING UNIT — This Unit is responsible for the development and maintenance of a comprehensive "State of New Jersey Emergency and Disaster Operations Plan." It also provides training to State Departments/Agencies and volunteer organizations in their emergency and disaster functions and responsibilities.

EMERGENCY SERVICES BUREAU

The Emergency Services Bureau supervises and coordinates the activities of the T.E.A.M.S. (Technical, Emergency and Mission Specialists) Unit, Rescue Training School, Liquified Petroleum Gas Unit, Radiological Defense Unit, and the Communications Unit.

T.E.A.M.S. UNIT — T.E.A.M.S. personnel, strategically located at Troops A, B, and C are called upon to conduct underwater recovery, rappel and other rescue/evacuation type operations. They also respond to incidents abnormal in nature, including hazardous chemical spills, radiation accidents and hostage situations, and are sometimes called upon to participate in raids conducted by the Division's Investigations Section.

RESCUE TRAINING SCHOOL — Provides training to volunteer ambulance and rescue personnel, firefighters, police as well as representatives of private industry. The training curriculum includes classroom as well as practical exercises in Organization, Use of Techniques, Casualty Handling, and Appreciation of Damage to Buildings and Utilities.

LIQUIFIED PETROLEUM GAS UNIT — The Unit is responsible for the enforcement of liquified petroleum gas transportation regulations, which govern the operation and handling of equipment that is used to transport Liquified Petroleum Gas.

RADIOLOGICAL DEFENSE UNIT — This Unit is responsible for developing and maintaining a statewide radiological defense system to measure and report on fallout conditions in the event of a nuclear attack or emergency. The Unit prepares and updates emergency plans, and organizes State and local governments for radiological defense operations, and provides for the care and maintenance of a \$15 million inventory of radiation detection instruments to support nuclear attack and peacetime disaster activities. Over 2,500 kits of instruments are processed annually in a central maintenance shop under this program.

COMMUNICATIONS UNIT — This Unit is responsible for planning and implementing statewide programs designed to provide Emergency Communications for the support of disaster recovery operations and to provide an adequate Emergency Warning System for the State.

TRAINING AND GRANT MANAGEMENT BUREAU

The Training and Grant Management Bureau consists of four units: Auditing, Federal Aid, Federal Surplus Property and Field Training.

The **AUDITING UNIT** is responsible for managing State and Federal emergency management funds allocated for State use, and distribution of Federal emergency management funds earmarked for municipal and county use. The **FEDERAL AID UNIT** processes all state, county and local applications for Federal emergency management matching funds. The **FEDERAL SURPLUS PROPERTY UNIT** takes custody of Federal surplus property for donation to eligible applicants. The **FIELD TRAINING UNIT** conducts basic, advanced and specialized Emergency Management training programs for emergency personnel.

REGIONAL ORGANIZATION BUREAU

The Regional Organization Bureau is comprised of the North, Central and South Regional Units and the Local Services Unit. The **REGIONAL UNITS** coordinate the Emergency Management activities in all twenty-one counties of the State. The **LOCAL SERVICES UNIT** coordinates Emergency Management education of the public through the use of exhibits and seminars.

DIVISION STAFF

The Supervisor of the Division Staff Section holds the rank of Major. Under the command of the Superintendent, he performs a staff function and reports directly to the Executive Officer. He conducts formal communications with all Staff Officers. His delegated authority primarily includes the directing, coordinating and controlling of the Internal Affairs Bureau, Public Information Bureau, Planning Bureau, Division Services Bureau, and State Governmental Security Bureau.

Major Edward R. Martin

INTERNAL AFFAIRS BUREAU

The Internal Affairs Bureau coordinates the efforts of the Staff Inspection Unit, the Internal Investigation Unit, and the Administrative Proceedings Unit. The Bureau reports on the status of all complaints, investigations and inspections and insures the maintenance of records.

STAFF INSPECTION UNIT — The Staff Inspection Unit conducts field inspections to assure that the activities of the Division are conducted in accordance with its policies, procedures, rules and regulations and orders. Remedial recommendations are made to provide direction for necessary change.

INTERNAL INVESTIGATION UNIT — The system of conducting and managing internal investigations concerning misconduct complaints against sworn members is designed to strike an equitable balance between the rights of the complainants and the rights of the members. The requirement to inform the complainant of the outcome is an important factor within this system. The Unit registers, monitors and maintains permanent records on every internal investigation conducted within the New Jersey State Police.

ADMINISTRATIVE INTERNAL PROCEEDINGS UNIT — This unit is responsible for administering all disciplinary action for the Division. They review and analyze all internal investigations; prepare and present disciplinary cases to an Advisory Board consisting of 6 commissioned officers; prepare and serve disciplinary charges; and monitor all disciplinary hearings. They establish liaison with the attorney general's office in obtaining legal counsel and in the preparation of criminal and civil cases. The Unit represents the Division at arbitration/grievance hearings.

PUBLIC INFORMATION BUREAU

This Bureau is responsible for the proper dissemination of information concerning the functions and activities of the Division of State Police in an effort to maintain good public relations. During the year, there were 643 official news releases and 1,950 photographs issued from the Public Information Bureau at Division Headquarters. News of a general police nature was issued daily from all State Police stations upon request from local newspapers and radio stations. The dissemination of spot news regarding events of special interest was supervised by the Public Information Bureau Officer. Research material for 400 feature articles was prepared for magazine and newspaper publication.

Spot broadcasts and taped messages concerning special events and safety campaigns were supplied to radio and television stations. Exhibits depicting various phases of police work were monitored and shown at many county fairs and other large public gatherings. Brochures and other Division publications were designed, edited and distributed by the Public Information Bureau. There were 40 graphic arts and 20 photographic assignments completed this year.

The New Jersey Committee on Public Information, representing all recognized news gathering agencies in the State, meets regularly to screen applicants for New Jersey press credentials. The Division of State Police prints, registers and issues both wallet and visor cards to all qualified applicants. There were 3,600 credentials issued this year.

A news clipping file is maintained in this Bureau. News of a general nature is clipped, mounted, identified by publication and date, bound and filed by month. News of a specific nature is similarly processed and filed by topic. This file, plus special reports and periodic surveys, affords a good means of evaluating the effects of our program.

PLANNING BUREAU

This Bureau is responsible for planning Division operations, both short and long range, and for coordinating and preparing Division orders, instructions and procedures, which insures that they are not in conflict with existing orders or rules and regulations. Members of this Bureau conduct studies and research to assist in the solving of police problems, and lend assistance to other Sections in the preparation and improvement of their plans as may be required.

All legislative bills and appellate court decisions pertaining to the Division are reviewed and brought to the attention of the personnel concerned. All legislation that is enacted, which is of interest to or has a direct or indirect bearing on the Division, is brought to the attention of the Superintendent. A member of this Bureau serves as coordinator between the Division of State Police and the Division of Administrative Procedures in the promulgation of rules affecting the general public, and maintains liaison with the New Jersey Lobby in Washington, D.C. concerning pending legislation bearing upon our Division.

The Planning Bureau is responsible for the preparation of the monthly major accomplishments reports and the calendar and fiscal year annual reports, for the Division of State Police. These reports are submitted to the Attorney General as required. Bureau personnel conduct research projects into various planning activities, including but not limited to assisting other police departments with patrol scheduling; responding to inquiries and questionnaires from various criminal justice agencies; developing Division manpower allocation recommendations; studies and recommendations reference local police services performed by the Division of State Police; and assist in drafting and negotiating contracts for State Police service with the Turnpike, Parkway, Atlantic City Expressway and Meadowlands. During 1984 the Bureau played a major role in the planning and coordinating the development of the Uniform Crime Reporting Guide and in the completion of the merger of the Highway Patrol Bureau into the Division of State Police.

DIVISION SERVICES BUREAU

The Division Services Bureau is comprised of two units: Governor's Security Unit, and Labor Relations Unit.

GOVERNOR'S SECURITY UNIT — The Governor's Security Unit has the primary responsibility for maintaining security for the Governor and Attorney General and their families. Personnel assigned to this Unit accompany their charges throughout the state functioning both as an Aide and for the purpose of providing security. Personnel maintain offices at the Governor's official residence, and Drumthwacket, and have the responsibility of maintaining security of the residence and its occupants.

LABOR RELATIONS UNIT — The Labor Relations Unit is responsible for the administration and review of grievances, assists in contract administration and serves as part of the negotiations advisory team. The Unit also provides liaison between the employee groups and the Superintendent in order to maintain effective two way communications.

STATE GOVERNMENTAL SECURITY BUREAU

The State Governmental Security Bureau, consisting of Troopers, Capitol Police and Security Guards, is responsible for the security of all State offices within the State House Complex. The Bureau includes all persons performing security functions within the complex. Responsibilities include traffic control, investigation of crime and patrolling of the grounds and buildings within the complex. Other responsibilities include escorting of state monies, policing of legislative chambers when they are in session, public hearings and other public gatherings at state offices. Building access control is conducted at facilities throughout the complex. Security and transportation is also provided for the Governor, Chief Justice and dignitaries.

As a result of absorbing security guards in this bureau, a twenty-one (21) hour Security Guard Training Program has been successfully initiated by the State Governmental Security Bureau. This training program is continuing on a need basis. To date, 323 persons have attended the three (3) day course.

FIELD OPERATIONS

Major Richard H. Kelly

The Supervisor of the Field Operations Section holds the rank of Major. Under the command of the Superintendent, he performs a staff function and reports directly to the Executive Officer. He conducts formal communications with all Staff Officers. His delegated authority primarily includes the directing, coordinating and controlling of the Marine Law Enforcement Bureau, Communications Bureau, Traffic Bureau, and Helicopter Patrol Bureau. He is also responsible for the coordination of inter-troop and inter-agency operations dealing with special events, crowd control, prison riots, disasters, traffic programs, interstate highways and other police related activities as they apply to the Division.

MARINE LAW ENFORCEMENT BUREAU

The Marine Law Enforcement Bureau, is the primary provider of police services on the waters of this State. The Bureau is comprised of a headquarters command and repair facility supporting the seven stations strategically located throughout the State. The patrol area consists of, but is not limited to, New Jersey's territorial seas, inland waters and sole State waters, both tidal and non-tidal.

The Bureau provides response to waterborne emergencies requiring police investigation and/or assistance; rescue and aid to the distressed boater; and basic criminal investigative services, including vessel and related equipment thefts; and identifies and recovers stolen property used on the waters of this State and apprehends smugglers through patrol coverage.

In addition the Bureau provides boating safety management through boating safety courses; regulating and patrolling marine regattas, races and events; and has the sole responsibility for the investigation of boating accidents and the administration of boating accident programs.

Bureau personnel enforce the State's boating laws; assist Federal, State and local agencies; and provide coordination in the placement of aids to navigation. They provide for the removal of minor debris from the water; and enforcement of the Fish and Game Laws.

This year the Marine Law Enforcement Bureau initiated 353 criminal investigations, investigated 264 boating accidents, initiated 14,250 boater contacts, responded to 895 requests for assistance from boaters and provided services for 2,600 other requests. The Bureau conducted boating safety courses for 15,120 individuals.

COMMUNICATIONS BUREAU

The Communications Bureau is comprised of the Telecommunications Unit, and the Radio/Electronics Maintenance Unit, the Frequency Coordination Planning Unit and the New Jersey Criminal Justice Information System Control Unit. The Bureau is responsible to insure an efficient and expedient means of inter-state and intra-state communications.

NEW JERSEY CRIMINAL JUSTICE INFORMATION SYSTEM CONTROL UNIT

— The CJIS Control Unit manages the New Jersey Criminal Justice Information System. Unit personnel provide administrative control and support to CJIS participants. Terminal applications for prospective member agencies are processed by the Unit. The management team coordinates the acquisition of terminal equipment and computer software requirements. It has assumed the responsibility for maintaining the integrity, discipline, and security of the various indexes and communications facilities statewide. Terminal inspections are conducted by the Unit.

The New Jersey Criminal Justice Information System (NJCJIS) is linked to the National Crime Information Center (NCIC), Washington, D.C. and the National Law Enforcement Tele-communications System (NLETS), Phoenix, AZ. This computerized system provides New Jersey's Law Enforcement - Criminal Justice Agencies with indexes and communication facilities nationwide. The State and National Crime Information Centers (SCIC/NCIC) provide instant access to the stolen property, wanted person, missing person, unidentified person, unidentified person, Canadian warrant, and U.S. Secret Service protective files. Inquiries made of the SCIC/NCIC hot files totaled 2,863,571 for the year, and resulted in 73,006 'hits'.

State Police stations and the five Troop Headquarters are equipped with a total of 29 CJIS terminals. The stations in Troops A, B, and C are set up to service the CJIS needs of participant agencies which have no terminals of their own. Another 246 terminals are located at the various Federal, State, county, and municipal agencies throughout the State. In addition, eight computer systems are tied into the CJIS computer. These control points support another 213 terminals in-house, mobile and at connected agencies.

The CJIS Control Unit is responsible for developing and updating administrative and operational procedures vital to all terminals. Over one-quarter-million records are being validated annually by way of the State's validation certification program. A quality control program ensures accurate record maintenance on a daily basis. Unit personnel prepare operating manuals and guides which are then provided to police and civilian communications/terminal operators. During the fiscal year 486 persons attended the terminal operator training course.

TELECOMMUNICATIONS UNIT — The Telecommunications Unit is responsible for the 24 hour per day operation of NJCJIS Agencies. Monitor related responsibilities for message traffic via NLETS and NJLETS extend to an additional 162 telecommunication machine equipped participants.

Telecommunications Summary

Message Alarms Broadcasted	6,606
Message Alarms Cancelled	2,698
NJ LETS Miscellaneous Messages	380,613
NJ DMV Vehicle Lookups	159,828
Telephone Calls Processed	134,325
Civil Defense Tests and Daily Statewide Warning Center Checks	38,825
Radio Transmissions	4,102,633
National LETS Messages	2,090,505

RADIO-ELECTRONICS MAINTENANCE UNIT — The Division of State Police maintains a "State Wide" radio communications system providing mobile contact with patrols and allied State Agencies. This system provides communications for the several divisions within the Department of Law and Public Safety as well as the Departments of Defense, Corrections, Treasury, Environmental Protection, and Institutions and Agencies.

The Radio/Electronics Maintenance Unit provides repairs on all two-way radio equipment *i.e.*, base stations, mobiles and portables. In addition, visual-audible warning systems such as sirens, roof top lights and public address systems are installed and maintained as well as in-house security systems such as burglar alarms, intercoms and closed circuit television systems. Radar and electronic speed detectors are also maintained by this unit as well as electronic scales for the weight enforcement program.

FREQUENCY COORDINATION PLANNING UNIT — In 1968, the Division accepted the responsibility of coordinating police frequencies in New Jersey from the Associated Public Safety Communications Officers Inc., (APCO). APCO is responsible on a National level for the management of the coordination process by action of the Federal Communications Commission (FCC).

Frequency coordination consists of rendering technical assistance to state, county and municipal public safety agencies in the selection of radio frequencies which will result in minimum interference. The staff reviews the proposed use of radio in and around State, and formulates recommendations to the FCC concerning licensing. In this fiscal year 337 formal applications were reviewed for New Jersey public safety agencies. Comments were offered in 442 secondary applications for radio operations in surrounding states which resulted in reduced interference to users in New Jersey.

The daily administration and technical operation of the SPEN (Statewide Police Emergency Network) radio system is supported by this Unit.

TRAFFIC BUREAU

The Traffic Bureau, composed of the Research & Analysis Unit, Fatal Accident Unit, Chemical Breath Test Unit, Educational Services Unit, Hazardous Materials Transportation Compliance and Enforcement Unit, Special Projects Unit, Operational Units functioning in Troop areas, and an Administrative Unit at Division Headquarters has as its primary purpose the supplementing of existing police patrols at locations throughout the state where high accident rates or special traffic hazards exist.

The Operational Units are an integral part of the Traffic Sections at the Troop Headquarters and are the responsibility of the Troop Commander. These units consist of Radar Teams, Mobil Task Force Patrols, Tactical Patrol Units, Weigh Teams and Commercial Truck Inspection Teams.

The Traffic Bureau, through the five Troop Traffic Sections, directs and coordinates all Traffic related activities within the Division of State Police. This includes formulating plans, orders, instructions and conducting the necessary training related thereto concerning traffic direction, enforcement and accident investigation. The Bureau is guided by analysis of current programs together with continuing research of new concepts and philosophies.

Units which are directly concerned with traffic, as well as those serving in a support capacity, are continually striving for results both individually and collectively. The vitally important field of traffic safety cannot be neglected. To achieve a total Division goal, priority of needs must be established, and with the loss of life, serious injuries and property damage on our streets and highways, the priority for highway traffic safety is self-evident.

In an effort to reduce motor vehicle accidents and to ensure the safe and efficient movement of persons and goods on the publicly travelled highways of New Jersey, traffic enforcement continued at a high level. Division personnel issued 197,062 warnings and 385,808 summonses, of which 281,646 or 73% were for hazardous driving violations which contribute to or cause the majority of motor vehicle accidents.

RESEARCH AND ANALYSIS UNIT — The Research and Analysis Unit provides information to management for use in formulating and evaluating the effectiveness of the traffic safety effort within the Division. This Unit evaluates on-going programs and, explores new methods, techniques and philosophies having relationship to highway traffic safety.

FATAL ACCIDENT UNIT — The Fatal Accident Unit reinvestigates all fatal accidents initially investigated by municipal police departments and reviews all fatal accidents investigated by the Division of State Police. There were 867 fatal accidents in the State this year that resulted in 934 fatalities. In 40.6% of the assignments completed by this Unit, recommendations were made to the Driver Improvement Section in the Division of Motor Vehicles for further action to be taken against negligent drivers.

BREATH TEST UNIT — The Breath Test Unit is required to evaluate and recommend breath testing instruments for certification, instruct and recommend all breath test operators for certification, instruct and recommend members of the State Police as breath test coordinators, inspect certified breath testing instruments, maintain a file of certified, suspended and revoked operators, conduct periodic refresher courses, instruct in methods of detection and apprehension of the drinking driver and to continue an ongoing program that is necessary in taking the drinking driver off the highway.

Division personnel assigned to this Unit conducted 33 five-day courses with 759 graduates, and 132 one-day refresher courses with 2,575 graduates during the year. Unit personnel serviced, on a bi-monthly basis, 110 State Police instruments and 611 instruments utilized by other law enforcement agencies.

This year, of all persons involved in a fatal accident, alcohol was a factor in 40.5%. Division personnel continued their diligent effort against the drinking driver by arresting 10,899 persons for that violation. During this year 16% of the persons arrested for drinking driving were involved in a motor vehicle accident.

In January the Unit initiated the Driving While Intoxicated Course. This course teaches police officers the technics of detection, apprehension and processing of the intoxicated driver. Since the initial course there have been a total of 15 courses completed with 355 graduates.

EDUCATIONAL SERVICES UNIT — The Educational Services Unit is involved in various activities throughout the year, i.e., classroom and assembly instruction and

lectures on safety procedures; inspections of outside patrols; trips with patrol members; school bus checks; and workshops for school bus drivers.

This Unit was organized in 1929 in 31 elementary schools for the purpose of preventing pedestrian accidents at school crossings. The value of this program over the years can be measured by one significant fact; not one fatal or serious-injury accident has occurred at a school pedestrian crossing while a patrol member has been on duty. There are 16,565 students that are patrol members who protect 427,261 at 530 schools throughout the state.

HAZARDOUS MATERIALS TRANSPORTATION COMPLIANCE AND ENFORCEMENT UNIT — The Hazardous Materials Transportation Compliance and Enforcement Unit is responsible for implementation and enforcement of the federal regulations governing the transportation of hazardous materials on our highways. Division personnel assigned to this newly created unit are presently drafting recommendations for the proposed adoption of federal regulations necessary to initiate on-the-road inspections and enforcement effort in this vital area. In addition, this unit will provide instruction on proper response to hazardous materials incidents to all Division personnel during the 1984 in-service training program.

SPECIAL PROJECTS UNIT — The Special Projects Unit is involved in licensing Motor Vehicle Race Tracks and conducting investigations originating at the Division of Motor Vehicles. Personnel assigned to this unit oversee all motor vehicle races to assure that the provisions of the rules and regulations for the operation of a motor vehicle race track are being obeyed (13:22-NJAC). Investigation referrals from the Division of Motor Vehicles concern the misuse of driver licenses, odometer rollbacks, motor vehicle dealer violations and title frauds.

TRAFFIC PROGRAMS — The other traffic programs in operation within the Division and their activities for the year are enumerated in this section.

TACTICAL PATROL UNIT — The Tactical Patrol Unit was federally funded in 1972 and became fully operational in November 1973 and consists of specially trained men who are assigned to each Troop Headquarters. This Unit is dedicated to enforcing traffic laws, reducing motor vehicle accidents and providing police services. They are assigned to patrol areas identified as having a high accident experience to concentrate on specific violations which contribute toward these accidents.

During the year, members of the Tactical Patrol Units issued 33,243 summonses and 13,969 warnings. They also effected 437 other arrests that included narcotics violations, weapons violations, possession of stolen property and stolen motor vehicles. Tactical patrols also effected 1,501 drinking driver arrests.

The Tactical Patrol Units assisted 5,101 motorists disabled on the highways of the State.

Mobile Task Force Patrol — Mobile Task Force Patrol operations are confined to the New Jersey Turnpike and Garden State Parkway. The New Jersey Turnpike employs a complement of 12 troopers. These patrols, working in groups of two or four vehicles on a designated portion of roadway, provide concentrated patrol efforts in critical areas of

high accident frequency with strict enforcement of all moving violations that cause accidents. There were 20,943 summonses issued by the Turnpike Task Force Patrols during this fiscal year.

The Garden State Parkway Task Force, consisting of eight troopers, patrol the Parkway in both marked and unmarked cars. Patrols are assigned areas depicted as high accident locations with enforcement concentration targeted at accident producing violations. Selective assignment provides for patrol coverage during peak hours of high incidence of drunk driving and bus violations. There were a total of 2,655 summonses which includes 60 drunk driving violations and 113 bus violations, since their inception in December 1983.

Radar Program — In conjunction with the National 55 m.p.h. speed enforcement emphasis, the State Police originally instituted a federally funded "Speed Compliance Accident Reduction Program." This project provided funding for the purchase of 294 "moving Radar" devices to provide the capability of mobile speed enforcement on all state and inter-jurisdictional highways. The ultimate goal of the project is to achieve crash and injury reductions through voluntary speed compliance by motorists throughout the state.

A total of 1,746 Radar operators and 132 instructors have currently been re-trained and certified after attending a Radar refresher course and 564 units are operational throughout the Division.

RADAR SPEED ENFORCEMENT

	<u>Radar</u>
July	15,231
August	14,936

June	<u>11,158</u>
Total	152,906

Truck Weighing Program — The Truck Weighing Program insures compliance with state laws pertaining to weight and dimensional restrictions on trucks. On January 21, 1984, as the result of the Highway Patrol Bureau merging with the State Police, the Division was able to increase the number of personnel assigned to the Truck Weighing Program. These additional weigh teams are pursuing the Division's Weigh Programs throughout New Jersey's highway system. In addition, the New Jersey Turnpike and Garden State Parkway are also actively involved in the enforcement of the weigh and dimensional laws of our state.

The four stationary scale sites in New Jersey are open and in use. Division personnel checked a total of 172,461 trucks during this period throughout the state. Of this number 115,082 were weighed resulting in 5,647 weigh violations and 2,187 dimensional violations for a total of 7,834 violations.

	<u>"A"</u>	<u>"B"</u>	<u>"C"</u>	<u>"D"</u>	<u>"E"</u>	<u>HPB</u>	<u>Total</u>
Trucks Checked	108,598	98,448	130,545	12,414	1,390	71,152	422,547

Total Violations	1,910	6,363	3,658	1,414	33	4,169	17,547

Supplemental Patrol Program — Originally instituted with monies obtained through a Federal Grant in March 1978, the Division of State Police instituted a Supplemental Patrol Program which has been continued by Federal grants open to personnel on a voluntary basis, the program's goals are to reduce motor vehicle accidents on highways of the state in selected geographic areas through the apprehension and arrest of speed violators, drinking drivers and other accident causing violations. The success of this program is indicated by the issuance of 20,487 summonses; 17,085 for speeding, 69 for drinking-driving and 3,333 for other violations. There were 25 Pedestrian Contacts made, 2,040 motorists aided and 891 warnings issued.

Commercial Vehicle Inspection Program — To further promote highway safety, the Division of State Police employs a Commercial Vehicle Inspection Program to insure compliance with the Self-Inspection Regulations effective in New Jersey in November 1970. Trucks registered over 6,000 pounds are checked for compliance with both State Regulations and Title 49 of the Federal Regulations.

The Highway Patrol Bureau had total responsibility for insuring compliance in the areas encompassed by Troops "A", "B" and "C" for the period of July 1, 1983 to January 20, 1984. Upon completion of the merger, effective January 21, 1984, the Commercial Vehicle Inspection Program is the responsibility of Troops "A", "B", and "C". Troops "D" and "E" have total responsibility on the New Jersey Turnpike and the Garden State Parkway respectively. The following figures reflect the involvement of both Highway Patrol Bureau and Division of State Police personnel. A total of 15,964 trucks were stopped, of which 12,265 were checked for compliance with Title 49. As a result of these checks 66,312 violations were discovered, including 5,397 which were serious enough to place 3,216 vehicles out of service.

HELICOPTER PATROL BUREAU

The Helicopter Patrol Bureau is responsible for maintaining liaison with and providing assistance to the ground patrol with the investigations of a criminal, traffic or general police nature. The services of this Bureau are also available to other departments within state government and also to other police departments at a county and municipal level. The Bureau also provides a Med-Evac service to all medical facilities and first aid squads in the state.

The Bureau has five turbine powered helicopters, four of which have a passenger capacity of five persons each including the pilot. Three of these helicopters are used for the Med-Evac program and are capable of carrying two litters. The fifth helicopter is a twin engine with a capacity for six persons plus the pilot and co-pilot, as well as the capability for two litters for Med-Evac transports.

Bureau personnel logged 2,003 patrol flight hours; and 227,000 patrol miles during the year and were involved in 10 traffic related activities, plus 39 speed timing flights; 54 criminal activities; 94 general police activities; 589 special activities; 62 Med-Evac transports with 60 patient and 2 other transports; 119 technical services; and 17 Med-Evac lectures/demonstrations or static displays.

HIGHWAY PATROL BUREAU

On December 23, 1983, the Highway Patrol Bureau members were assimilated into the other Bureaus of the Field Operations Section in accordance with Chapter 403 of the Laws of 1983, Assembly Bill A-4068. The statistics of the Highway Patrol Bureau are reflected in those other Bureaus.

TROOP A

South Jersey

Captain Charles S. Purgavie

Captain Charles S. Purgavie commands Troop "A" which is headquartered in Hammonton. Troop "A" serves the southern geographical portion of the State from the Delaware River to the Atlantic Ocean. The entire area covers 3,034 square miles and has a population of over 1.3 million people.

Troop "A" consists of eight stations. The Atlantic City Expressway is responsible for all police functions on that 44 mile toll road. Mantua Station has similar responsibilities on a 35 mile stretch of I-295, all of I-76, I-676, and SH 42 from the A.C. Expressway. Absecon, Bridgeton, Port Norris, Red Lion, Tuckerton and Woodstown have primary police responsibilities for certain municipalities, and also work in close conjunction with established municipal police departments within their geographic areas.

The present complement consists of 349 Officers and Troopers. This year Troop "A" personnel investigated 4,071 motor vehicle accidents, issued more than 65,000 motor vehicle summonses, and 52,000 written warnings. Additionally, there were 6,969 criminal investigations conducted and 9,013 persons arrested.

Within the Troop "A" area there are two nuclear generating plants, two race tracks, four state correctional facilities and four state mental facilities. The area is serviced by five interstate bridges and one interstate ferry. With the advent of casino gaming the ten casinos in Atlantic City have generated a huge increase in motor vehicle traffic in South Jersey, bringing with it the adjunct of increased criminal and general police activities coupled with traffic congestion and accidents.

A two mile section of Route 40 at the foot of the Delaware Memorial Bridge has become infamously known as "Drug Alley." In 1983, Troop "A" personnel arrested 299 drivers carrying a total of 80 pounds of Cocaine and 1,847 pounds of Marihuana.

TROOP B

North Jersey

Captain Raymond L. Maralla

Captain Raymond L. Maralla commands Troop "B" which is headquartered in Totowa, N.J. Troop "B" serves the northern geographical portion of the State. The entire area covers 2,807 square miles and has a population of over 4.1 million people.

Troop "B" consists of eight stations. Blairstown, Flemington, Hainesville, Netcong, Newton, Somerville, Totowa-sub, and Washington have varying degrees of police functions and responsibilities within the ten northern counties of New Jersey. This Troop has a complement of 340 Officers and Troopers.

Troop "B" has the full responsibility for providing police services to 32 townships and boroughs and patrolling the five Interstate Highways traversing this portion of the State; I-78, I-80, I-95, I-280, and I-287, consisting of over 700 road miles with a combined daily use of 150,000 vehicles, plus the many miles of State, county, and municipal roads.

The responsibility of each station varies according to location. The geographical location of Troop "B" is unique as it varies from heavy populous in the East to light populous in the West. Totowa sub-station has the responsibility of patrolling I-80, I-95, and I-280 in the New York metropolitan area. The rural areas are patrolled by personnel assigned to Hainesville, Newton, Blairstown, Washington and Flemington stations. The urban counties are patrolled by Somerville and Netcong stations.

This year Troop "B" personnel issued 84,575 summonses, 41,128 warnings, and arrested 2,802 drinking drivers. In addition, they covered over 6,000,000 miles, rendered assistance to over 42,000 motorists, responded to over 14,000 general police complaints ranging from barking dogs to bank alarms and generated over 1,800 criminal arrests for varying degrees of crimes ranging from forged checks to murder. This Troop also investigated 5,708 motor vehicle accidents including 42 fatal accidents.

TROOP C

Central Jersey

Captain Steven Rosacha

Captain Steven Rosacha commands Troop "C" which is headquartered in Princeton, N.J. Troop "C" serves the central geographical portion of the State from the Delaware River to the Atlantic Ocean. The entire area covers 2,316 square miles and has a population of over 2 million people.

Troop "C" consists of six stations located in Bordentown, Colts Neck, Edison, Fort Dix, Hightstown and Hopewell covering Mercer, Middlesex, Monmouth and the northern portions of Ocean and Burlington Counties.

The present complement consisting of 279 Officers and Troopers are responsible for patrolling the highways throughout Troop C and for the full police function in areas not protected by local police. There were 60,058 summonses issued, including 2,440 drinking drivers, 45,961 warnings and 1,715 patrol related arrests. Troop "C" patrols also rendered assistance to over 26,000 motorists.

In addition, the Troop "C" Weigh Teams, Commercial Vehicle Inspection Teams, Tactical Patrol Units and Technical Emergency and Mission Specialists (T.E.A.M.S.) were all active in selective enforcement. These units issued 20,443 summonses, including 621 drinking drivers, and 7,373 written warnings. Troopers assigned to truck weighing activity weighed 100,681 trucks and issued 3,122 summonses for overweight and over dimension violations. The roadside examination of 5,599 trucks detected 27,189 violations of which 1,141 were equipment violations placing commercial vehicles out of service.

The Troop conducted 3,022 investigations resulting in 2,417 arrests. A total of 59 stolen motor vehicles were recovered valued at \$415,560. Property valued at \$465,312 was recovered along with the confiscation of CDS valued at \$362,912. Troop "C" CIS conducted "Operation Heavyweight" into the drug traffic in the Mercer County area resulting in the arrest of 14 persons. Another investigation of thefts from the Halston Fragrance Company, Dayton, N.J., resulted in the recovery of Halston Spray Cologne valued at \$286,564 and the arrest of 4 subjects.

TROOP D

New Jersey Turnpike

Captain George F. Mucci

Captain George F. Mucci commands Troop "D", New Jersey Turnpike. The New Jersey Turnpike is the nation's busiest limited access non-stop toll road consisting of 141.5 linear miles. Incorporating the four to twelve mutiple lanes it is 932 lane miles long.

From the Delaware Memorial Bridge at Deepwater (Interchange 1) the Turnpike extends past 28 interchanges and 13 service areas north-easterly across the state and terminates at Interchanges 18E and 18W, just below the George Washington Bridge. The roadway is designated Interstate 95 from Interchange 6 (Pennsylvania Turnpike Exit) to the northern terminus at Ridgely Park.

Troop "D" is headquartered at the Turnpike's Administration Building at Interchange 9 in East Brunswick, as is the New Brunswick Station. Other stations are located at Moorestown and Newark. Each station patrols approximately one third of the 142-mile roadway network. There are 174 Officers and Troopers assigned to Troop "D".

Virtually all highway traffic between the great seaports of New York and Philadelphia passes through New Jersey. Yet, in spite of this incredible volume of traffic, the New Jersey Turnpike has consistently been one of the safest major toll roads in the United States.

With 144.5 million vehicles traveling over 3.21 billion miles this year the Turnpike had an accident rate of 96.1, and a fatality rate of 0.62 per 100 million miles traveled. 1983 was the safest year in the history of the Turnpike. Patrols have issued 78,854 summonses and made over 800 drinking driver arrests. They have assisted over 78,000 disabled motorists and initiated 1,200 First Aid and Fire Department calls.

Criminal activity on the Turnpike has been on a steady increase in the past few years. With the increase in the volume of traffic, the patrol related arrests have been on a rise. Troop "D" has been averaging approximately 870 cases and 2,550 arrests per year.

Located just off the northern end of the turnpike the Meadowlands Sports Complex, consisting of a Race Track, Stadium and Sports Arena, has generated much more service area crime, such as Breaking and Entering, Larcenies, Stolen Motor Vehicles, Armed Robberies, Credit Card Frauds, and Prostitution.

TROOP E

Garden State Parkway

Captain Michael P. Visconti

Captain Michael P. Visconti commands Troop "E" the Garden State Parkway which is headquartered in Woodbridge.

The Garden State Parkway stretches 173 miles from the southern tip of New Jersey to the New York Thruway in the north and provides easy access to most seashore points in the State. It is the dominant roadway for access to Atlantic City and its' casinos. While most of the roadway is owned and maintained by the New Jersey Highway Authority, there are approximately 20 miles which are owned and maintained by the New Jersey Department of Transportation. Offering one of the most pleasant and picturesque panoramas of the eastern portion of our State, the roadway traverses 49 municipalities and ten counties.

The New Jersey State Police has full police responsibility for the entire roadway, and addresses this task with 153 Officers and Troopers. In addition to traffic and criminal patrol responsibilities, the State Police is responsible for the safety and protection of all Highway Authority buildings and equipment, including the "Garden State Arts Center."

Troop "E" is divided into three patrol areas, Bass River Station covers the southern portion of the roadway; Holmdel Station the center portion; and Bloomfield Station the northern portion. The roadway, which continues to be rated one of the safest toll roads in the nation, consists of over 1,000 inclusive road miles which are divided into 2, 3, and 5 lane sections. Over 3,855,110,000 vehicle miles were recorded for the past year; 256,070,000 vehicles used the road (including approximately 1,000 charter buses travelling to and from the Atlantic City casinos). State Police patrols issued in excess of 45,000 summonses and arrested over 1,600 drunk drivers. Assistance was rendered to over 50,00 motorists in various states of need.

Criminal activities have shown a significant increase on the Parkway over the past several years. Casino traffic has generated some of that activity; however, changing traffic patterns and the types of patrons has had the greatest impact. Troop "E" C.I.S. personnel have conducted many 'in-house' investigations which include thefts, conspiracy, and official misconduct. Activity was increased over the past year by 50% for patrol related arrests and cooperative arrests.
