The Florida Statistical Analysis Center

The Florida Statistical Analysis Center (SAC) is funded in part by a grant from the U.S. Department of Justice, Bureau of Justice Statistics. The Florida SAC is part of the Division of Staff Services, Florida Department of Law Enforcement (FDLE). The primary responsibility of the SAC is to improve the effectiveness of policy-making, programs development and planning through the provision of data and interpretive analysis of data concerning crime, the criminal justice system and related issues.

The Florida SAC welcomes inquiries concerning any of our research studies. Please feel free to contact us should you require more methodological detail, or wish to offer comment.

Acknowledgements

The Florida SAC wishes to express its appreciation for the support which we received in researching the drug offender profile. In particular, we wish to thank the FDLE's Law Enforcement Data Center (LEDC) for programming support. We are also most appreciative of the efforts of Sharri Smith in the production of this research study. None of the aforementioned Divisions or individuals are responsible for any errors or omissions which might have arisen in this publication.

Drug Other.....	139

INTRODUCTION

The analysis below is a follow-up to the felony drug arrest profile which was highlighted in the Fall 1988 issue of the Florida Statistical Analysis Center's (SAC) Criminal Justice Newsletter. At the request of the Florida Department of Law Enforcement (FDLE) Commissioner's Office, another pass of the Department's Computerized Criminal History (CCH) file was made, extracting detailed criminal histories for all drug offenders (both misdemeanor and/or felony) who were arrested during calendar year 1987.

The inclusion of misdemeanors was necessitated because the structure of the historical CCH file made it impossible to partition many of the drug categories into misdemeanors and felonies. The FDLE has addressed these concerns and the current structure of the file includes specific statutes, which will enable a mutually exclusive and exhaustive partitioning of all crimes into misdemeanors and felonies. Unfortunately, analysis by specific drug categories (e.g., cocaine, marijuana, and heroin) was not possible using 1987 CCH data. The drug classifications found below (e.g., sale, possession, and trafficking) are as detailed as the historical file would provide. Starting in February of 1988, data by specific drug groupings were once again included in the CCH file.

All data and analyses found below refer to the entire criminal histories of these 1987 drug offenders, from each offender's first contact with Florida's criminal justice system to their last (up to the date of the computer run which was early December, 1988). Because data were not available for the latter part of 1988 at the time of this analysis, they are not tabulated separately below; 1988 data are, however, included in all crime profile statistics. A summary of the analysis and an overview of how to interpret the data and graphics follow.

Two versions of this study are being released, a summary version for the general public and an expanded version which is intended for local law enforcement and the Governor's Drug Policy Task Force. The expanded version also includes full data detail and two appendices; the first an alphabetized listing of offenders by Florida county who have five or more drug arrests (misdemeanor and/or felony) in the state, and the second contains a listing of habitual drug offenders who have also been targeted as career criminals.

There were 55,906 Florida offenders having at least one calendar year 1987 misdemeanor and/or felony drug arrest in the state. The offenders were overwhelmingly male (84.9%). Of the eight drug categories, drug smuggling had the highest percentage of female offenders (21.6%).

Table One (page two) summarizes the percent of specific categories of drug arrests by six age cohorts (complete age specific breakdowns for each of the drug categories are included in the study). Offenders under the age of 20 comprised a minuscule percent of drug offenders (ranging from 1.3% for drug production to 2.8% for drug possession). The 20 through 29 year old age cohort was by far the most represented (comprising from 35.6% of all other category drug offenders to 56% of all drug smuggling offenders). Drug production (2.7%) and drug trafficking (1.4%) were the categories with the greatest number of offenders 60 years of age and older.

TABLE ONE
Age Distributions of Drug Offenders

	<u>Under 20</u>	<u>20-29</u>	<u>30-39</u>	<u>40-49</u>	<u>50-59</u>	<u>60 and Over</u>
Possession	2.8%	54.1%	33.1%	7.8%	1.7%	.5%
Sale	2.2%	51.7%	34.8%	8.7%	2.0%	.6%
Smuggling	2.3%	56.0%	31.0%	8.4%	2.3%	0%
Production	1.3%	44.3%	38.2%	9.1%	4.4%	2.7%
Trafficking	2.2%	43.4%	33.6%	14.7%	4.7%	1.4%
Delivery/Dist.	2.1%	47.7%	37.9%	9.4%	2.0%	.9%
Equipment	2.0%	48.3%	39.9%	8.4%	1.2%	.2%
Other	1.4%	35.6%	46.9%	13.0%	2.5%	.6%

The age compositions of the eight categories of drug offenders are found on pages 7 and 8. Each of the polygons depict the age distribution for the drug offenders of that particular drug category; the mean and age ranges are also contained in each chart. The age ranges of the drug offenders were from 18 through 58 for drug smuggling to 15 through 85 years of age for drug possession. In terms of the actual dispersion of ages (standard deviation), drug production had the greatest deviation of ages from their mean. The average age of the drug offenders hovered near 30 years of age for all of the drug categories.

The geographical dispersion of the drug offenders varies greatly by drug category (Table Two). Three South Florida counties (Dade, Broward and Palm Beach) account for over 41% of Florida's total drug arrests. When drug categories are analyzed individually, however, South Florida's contribution to the state's total drug arrests range from 6.4% for drug production to 50% for drug trafficking. This countywide discrepancy is further highlighted by focusing solely on Dade County, which accounts for 28.4% of the state's drug smuggling arrests, yet only 0.9% of the drug production arrests. Other individual counties which stand out in their patterns of drug arrests are Broward, Hillsborough, Orange and St. Lucie Counties with 27.4%, 30.1%, 11.8% and 5.9%, respectively, of the state's drug delivery/distribution arrests. Drug category data are tabulated geographically on pages 9 through 12.

TABLE TWO
County Drug Arrest Highlights: County Percent Contribution to the State Total

	<u>Dade</u>	<u>Broward</u>	<u>Palm Beach</u>	<u>South Florida Total</u>	<u>Hills- borough</u>	<u>Pin- ellas</u>	<u>Orange</u>	<u>Duval</u>
Possession	23.2%	13.2%	7.0%	43.4%	7.3%	5.7%	5.0%	5.3%
Sale	18.8%	3.1%	12.9%	34.8%	2.9%	10.8%	6.2%	6.5%
Smuggling	28.4%	2.6%	4.2%	35.2%	9.9%	7.0%	3.1%	5.2%
Production	.9%	2.4%	3.1%	6.4%	6.0%	9.3%	2.2%	5.1%
Trafficking	24.2%	18.0%	7.8%	50.0%	7.1%	3.4%	5.3%	5.1%
Delivery/Dist.	6.0%	27.4%	1.9%	35.3%	30.1%	1.9%	11.8%	.5%
Equipment	19.4%	10.7%	12.8%	42.9%	3.0%	7.6%	3.3%	5.5%
Other	18.1%	18.3%	5.2%	41.6%	10.0%	3.4%	6.0%	8.9%

Crime profiles of drug offenders by specific drug classifications are summarized in Table Three. An alarming percentage of the Florida drug offenders have violent criminal histories. Over 34% of the drug sale offenders have at least one violent felony arrest; the comparable percentages for drug smuggling and drug delivery/ distribution are 30.5% and 30.6%. Drug production is the least violent of the drug offenses with under 14% of those offenders having a violent felony arrest. Data are also presented for individual crime categories. For example, 3.2% of the drug sale population have at least one arrest for homicide, and 15.7% have at least one arrest for robbery.

Substantial percentages of the specific drug offender populations have also committed property crimes. Nearly 40% of the drug smuggling offenders have been arrested at least once for property crimes, while 43% of the drug equipment possession and drug other offenders have at least one property crime arrest. The drug offenders least likely of committing a property crime are drug production and drug trafficking with only 15% and 18%, respectively.

TABLE THREE
Drug Arrest Criminal Profile Summary
Percent of Specific Drug Offender Population Having Other Categories of Arrests

	<u>Violent Felony Arrests*</u>	<u>Property Crimes**</u>	<u>Homicide Arrests</u>	<u>Robbery Arrests</u>	<u>Burglary Arrests</u>	<u>Vehicles Arrests</u>	<u>Larceny Arrests</u>
Possession	24.0%	29.1%	2.0%	10.3%	19.6%	7.7%	11.1%
Sale	34.5%	38.1%	3.2%	15.7%	25.7%	9.5%	15.0%
Smuggling	30.5%	39.6%	2.3%	15.6%	29.7%	10.2%	18.2%
Production	13.5%	15.0%	1.1%	3.3%	10.8%	2.0%	6.0%
Trafficking	17.4%	18.1%	2.1%	6.1%	10.4%	4.7%	7.1%
Delivery/Dist.	30.6%	33.6%	2.9%	13.2%	22.5%	7.9%	13.8%
Equipment	31.8%	43.0%	2.4%	15.7%	30.4%	12.3%	17.2%
Other	37.0%	43.2%	4.1%	17.3%	29.9%	12.5%	18.8%

*Violent Crimes = Homicide+Sexual Assaults+Robbery+Aggr. Assault+Kidnapping+Arson
 **Property Crimes = Burglaries+Stolen Vehicles+Grand Larceny+Stolen Property

Florida's drug offender population burdens all aspects of the state's criminal justice system. The 1987 drug possession population for example, totaled over 104,000 felony arrests over their criminal histories, including nearly 20,000 violent felony arrests. The numbers of total felony arrests and violent felony arrests, attributable to each of the eight drug offense categories analyzed in this study, are detailed below in Table Four.

While many of Florida's drug offenders have extensive criminal histories, a small percentage are highly active violent felons. Table Five summarizes the disproportionate impact of a relatively small percentage of habitual drug offenders (defined for the table as having five or more drug arrests for that particular drug category) on total violent felony arrests. A group of 18 habitual trafficking offenders, for example, which accounts for but 0.5% of the

drug trafficking offender population, had a total of 113 violent felony arrests (11.5% of the total violent felony arrests for the entire drug trafficking population). When normalized (analogous to an elasticity), one percent of the habitual drug trafficking population accounts for 23% of the violent felony arrests of the entire drug trafficking cohort. Clearly, there is an extremely violent subset of offenders within each drug category.

TABLE FOUR
FELONY ARREST SUMMARIES OF THE 1987 FLORIDA DRUG OFFENDERS

	% of Offenders with Violent Felony Arrests	Number of Violent Felony Arrests	Number of Total Felony Arrests
Possession	24.0%	19,436	104,024
Sale	34.5%	5,359	35,140
Smuggling	30.5%	230	1,685
Production	13.5%	86	953
Trafficking	17.4%	982	8,020
Del/Dist.	30.6%	1,107	7,975
Equipment	31.8%	3,813	27,423
Drug Other	37.0%	2,761	19,217

TABLE FIVE
VIOLENT FELONY CRIMINAL ACTIVITY ATTRIBUTABLE TO HABITUAL DRUG OFFENDERS*

	Number with 5 or more Violent Arrests	% of Total Violent Arrests	Number of Violent Felony Arrests	Percent of Violent Felony Arrests	Relative % of Violent Felony Arrests
Possession	502	1.1%	3,085	15.9%	14.5%
Sale	143	1.7%	883	16.5%	9.7%
Smuggling	9	2.3%	61	26.5%	11.5%
Production	0	-	-	-	-
Trafficking	18	.5%	113	11.5%	23.0%
Del/Dist.	28	1.4%	172	15.5%	11.1%
Equipment	120	1.9%	743	19.5%	10.3%
Drug Other	96	2.5%	598	21.7%	8.7%

*Habitual is defined in Table Five as having five or more drug arrests for that particular drug category.

The arrest interrelationships between the various categories of drug offenders are examined in Table Six. For example, from the first line of Table Six it can be noted that 11% of the offenders arrested for drug possession were also arrested for drug sale, while only 2.5% of those arrested for drug possession had been arrested for drug trafficking. With the exception of drug possession, and to a lesser extent drug sale, there are little arrest interrelationships among the various drug categories. Drug production is the most independent of the drug arrest categories.

TABLE SIX
Interrelationship of Drug Arrests by Specific Drug Categories
Percent of Specific Drug Offender Population Having Other Categories of Drug Arrests

	<u>Poss.</u>	<u>Sale</u>	<u>Smuggling</u>	<u>Production</u>	<u>Trafficking</u>	<u>Delv/ Dist.</u>	<u>Equip.</u>	<u>Other</u>

*Less than 1/2 of 1%

Drug data detail are contained on pages 15 through 158 for eight categories of drug arrests: (1) possession, (2) sale, (3) smuggling, (4) production, (5) trafficking, (6) delivery and distribution, (7) possession of drug equipment, and (8) other drug arrests. For each of the drug categories, frequency distributions are included for: race, sex, age, county of last arrest (ORI), total felony arrest events, violent felony arrests, nonviolent felony arrests, arrests for specific crimes (i.e., homicide, rape, robbery, aggravated assaults, burglary, stolen vehicle, grand larceny, stolen property, and other felony arrests), each of the eight available drug arrest classifications, and breakdowns of arrests by year.

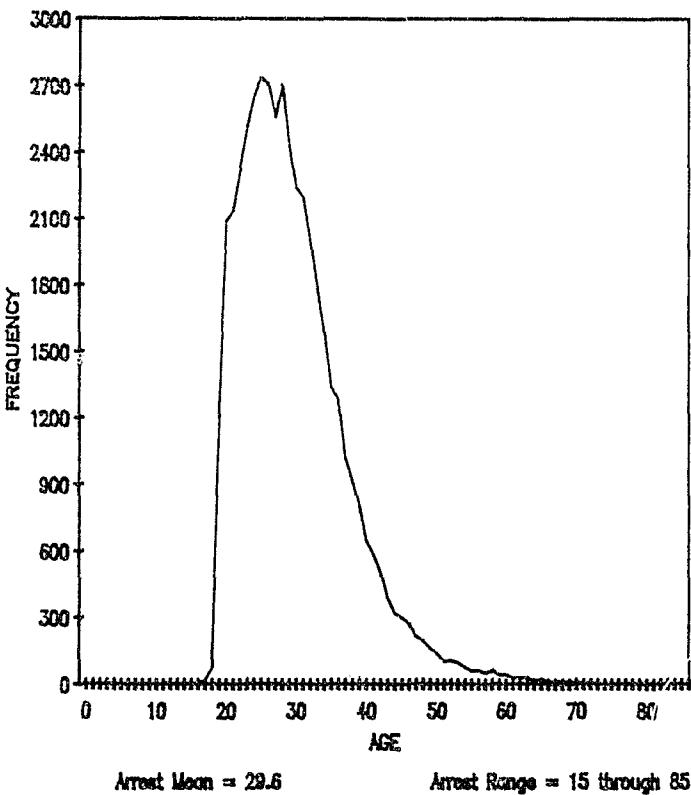

A set of charts and maps visually summarize the drug profile data. Age profiles for each of the eight categories of drug offenders are found on pages 7 and 8. The maps on pages 9 through 12 depict the county breakdowns for each of the eight drug arrest categories; as can be seen from the map legends, the darker the shading, the higher the arrest percentage. The drug arrest data detail used to generate the maps can be found in Tables Seven and Eight. Table Seven (page 13) breaks out the percent of drug offenders from each of Florida's 67 counties by each of the eight drug categories. Table Eight (page 14) depicts the same county drug relationships as Table Seven except the total numbers of offenders are presented rather than percentages.

A wealth of data is contained in this publication for criminal justice researchers and policy-makers. The data detail output format (pages 15 through 118) for each of the frequency distributions is identical. For example, out of the total population of 3,308 1987 Florida drug trafficking offenders (pages 86 through 102), 79 were 20 years old (see the frequency for the value 20 on page 100), while 4.6% of the offenders were under 21 years old (see the cumulative percent for the value 20 on page 87).

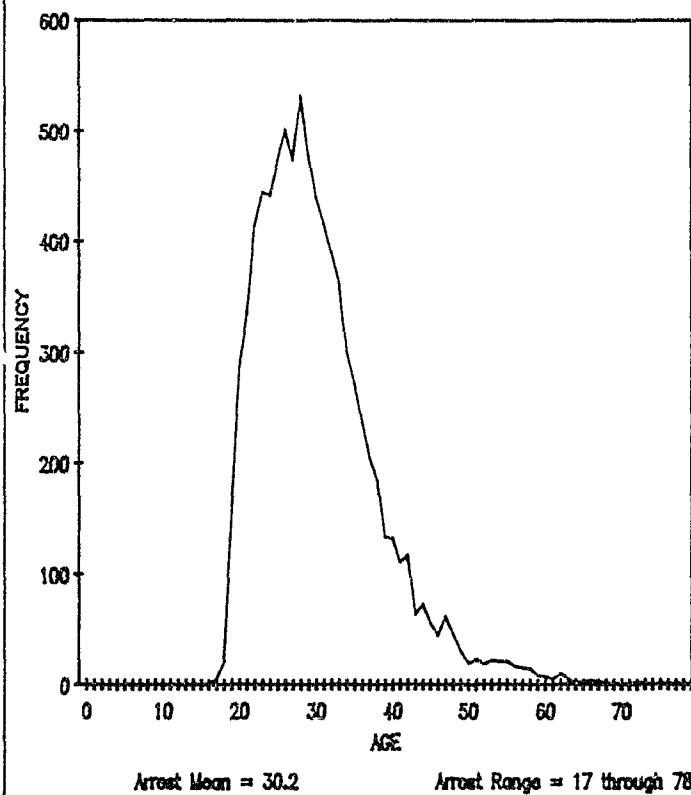

The crime profiles of Florida drug offenders detail the substantial criminal histories of many of the offenders. The research associated with the drug profiles has generated county lists of habitual drug offenders (defined in

Appendix One as having five or more Florida drug arrests). There is a linkage between these habitual drug offenders, and the career criminals who were identified in the Florida SAC's March 1988 research study, **The Impact of Career Criminals on Florida's Criminal Justice System**. A total of 1,241 of the 12,873 career criminals identified in that study (defined as offenders having five or more felony arrest events, at least one Part One Index Crime arrest, a minimum of two state prison terms, under 40 years of age, and at least one arrest since 1/1/85) were also habitual drug offenders (Appendix Two).
