Foreword

The Department of Public Safety is pleased to participate in and serve as the coordinating agency for the Arizona Uniform Crime Reporting program.

The purpose of the Arizona Uniform Crime Report 1988 is to provide data regarding the nature and extent of crime throughout the state. This report does not draw conclusions as to the causes of crime. However, it does provide the vital information necessary to assist law enforcement agencies, government, and the public in their approach to crime in our state.

This report is the culmination of a joint effort by our State's law enforcement agencies to collect and organize crime data. The information contained in this report should provide a valuable overview of the crime problem.

Sincere appreciation is expressed to all Arizona law enforcement agencies without whose cooperation this publication would not be possible.

THE ARIZONA UNIFORM
CRIME REPORTING SYSTEM

HISTORY OF UNIFORM CRIME REPORTING

The Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) was established in 1927 to initiate a national program for collecting crime information. This Committee's responsibility to provide management information to law enforcement agencies was eventually turned over to the Federal Bureau of Investigation (FBI) in 1930, when the FBI received a Congressional mandate to collect and disseminate national crime information. The IACP has continued to serve the Uniform Crime Reporting Program (UCR) in an advisory capacity and has joined in this responsibility by the Committee on Crime Records of the National Sheriff's Association (NSA) in 1966.

The Arizona Uniform Crime Reporting (AUCR) Section first began receiving voluntary crime information from Arizona law enforcement agencies in January 1975. Prior to this date these agencies submitted their crime data directly to the FBI.

OBJECTIVES OF ARIZONA UCR

Due to increased attention being focused on the problem of crime in our communities in recent years, many segments of our population need more complete information for a variety of reasons.

Law enforcement professionals, managers and administrators who must focus on crime in their own jurisdictions, also need to know what is occurring in surrounding jurisdictions in order to deploy personnel and equipment most efficiently. Researchers and planners need to know what is actually happening to predict trends and recommend changes.

The goal of the *Arizona Uniform Crime Report* is to identify the nature and extent of criminal activity in this state and present the information needed by each of these groups. This information will not in itself prevent crime, but it may encourage all segments of society, by understanding the problem, to work together with law enforcement agencies to reduce crime through more effective enforcement.

The objectives of the *Arizona Uniform Crime Report* are:

- (1) To identify the nature and extent of crime in our state;
- (2) To provide the management information needed by the law enforcement community to augment their ability to attack the crime problem;
- (3) To provide our citizens

with the most complete information available; (4) To provide legislators with the information necessary to formulate laws which address the crime problems, and (5) To provide sufficient detailed data for researchers and planners.

CONSIDERATIONS FOR INTERPRETATION

Statistics are tools used to summarize information so that patterns or trends become clearer. All statistics must be interpreted with an understanding of just what it is that they can say. Too often information of the type in this report is used incorrectly to draw conclusions that the statistics simply do not support. We ask that great care be taken in analysis and interpretation.

The following factors have a major influence on the statistics presented in this report:

1. Crime figures are police statistics as distinguished from the findings of a court, coroner, jury or decision of a prosecutor.
2. Density and size of community population.
3. Variations in composition of the population, particularly age structure.
4. Stability of population with respect to transient factors.
5. Economic conditions, including job availability.
6. Climate.
7. Effective strength of law enforcement agencies; some police jurisdictions overlap.
8. Attitudes of citizenry toward crime.
9. Crime reporting practices of citizenry.
10. Crime rates are based on census-fixed residential populations of police jurisdictions.
11. Crimes committed on Indian reservations are not reported to the AUCR program, although their population is included in the state's population figures.
12. There were six reporting agencies that were unable to provide complete data in 1988 - one each in Coconino, Gila, Greenlee and Maricopa Counties and two in Pinal County.

To obtain accurate information from many different agencies, the national UCR program had to precisely define the methods for collecting such information as the number of offenses, arrests, clearances and value of stolen or recovered property.

Classification of Offenses

UCR divides offenses into two major classifications which are designated Part I and Part II offenses. This distinction is important to keep in mind because different information is collected for each.

Part I offenses include:

Violent Crimes

1. Criminal Homicide
2. Forcible Rape
3. Robbery
4. Aggravated Assault

Property Crimes

5. Burglary
6. Larceny-Theft
7. Motor Vehicle Theft
8. Arson

Part II offenses include:

9. Other Assaults-simple
10. Forgery and Counterfeiting
11. Fraud
12. Embezzlement
13. Stolen Property; Buying, Receiving, Possessing, Etc.
14. Vandalism
15. Weapons; Carrying, Possessing, Etc.
16. Prostitution
17. Sex Offenses (Except forcible rape and prostitution)
18. Narcotic Drug Laws
19. Gambling
20. Offenses Against Family and Children
21. Driving Under the Influence
22. Liquor Laws
23. Drunkenness (not reported in Arizona)
24. Disorderly Conduct
25. Vagrancy
26. All Other Offenses (except traffic)
27. Suspicion (not reported in Arizona)
28. Curfew and Loitering Law Violations (Juveniles)
29. Runaways (Juveniles)

Note: Only arrests are counted for Part II offenses.

All offenses are classified on the basis of law enforcement officer investigation in accordance with UCR offense definitions (which will not necessarily be identical to Criminal Code definitions). Because UCR identifies a police problem, offense classifications are not based on the findings of a court, coroner, jury or decision of a prosecutor.

Counting of Offenses

The number of offenses is collected only for Part I crimes and simple assault. The method of counting offenses varies with the type of crime committed, and it is important to remember that the number of offenders does not determine the number of offenses.

For murder and nonnegligent manslaughter, negligent manslaughter, rape aggravated assault and simple assault, one offense is counted for each victim, regardless of the number of offenders involved.

For robbery and larceny-theft, one offense is counted for each distinct operation which is separate in time and place. The number of victims in any one operation does not determine the number of offenses.

For burglary, one offense is counted for each structure which is illegally entered. However, when the structure is an apartment house, business or office building in which units are leased for a period of time, one offense is counted for each unit burglarized.

For motor vehicle theft, one offense is counted for each vehicle stolen.

Note: Attempts to commit any one of the above are also counted as offenses, except that attempts to kill and assaults to kill are counted as aggravated assaults.

For multiple offenses that occur in one crime incident, only the most serious offense is counted. In cases when an arson occurs in conjunction with other Part I crimes, both are reported. Part I offenses are ranked according to seriousness and appear in order from most serious to least serious under "Classifications of Offenses".

Clearances

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved.

Offenses may also be cleared by exceptional means when the offender: commits suicide; makes a dying declaration; confesses while in custody or serving time for another crime; is prosecuted in another jurisdiction for the same offense; is a juvenile who is handled by notifying the parents; when the victim refuses to prosecute or another jurisdiction refuses to extradite the offender.

Clearances are counted as "adult" and "juvenile". A "juvenile" clearance is counted only when juveniles are *exclusively* involved in the clearance of an offense. If the arrest of both adults and juveniles results in a clearance, it is counted as an "adult" clearance.

Property Stolen and Recovered

The figures for value of property stolen and recovered report the value at each point in time. Although property can increase in value over time, it is more likely that stolen property will be recovered in a damaged condition. Therefore, recovery value does not necessarily represent a "clearance rate" for stolen property, and one cannot use it to determine law enforcement effectiveness in recovering stolen goods. Because stolen and recovered property figures indicate thefts and recoveries in the current year, it is important to note that recovered property may have been stolen in a previous year. In addition, the type and value of stolen or recovered property is reported only for Part I offenses and does not include such Part II offenses as fraud, forgery or embezzlement.

Arrests

Arrest information is collected for all Part I and Part II offenses according to the age, sex and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because arrest totals count all offenders arrested for each offense, and clearance totals count only the offenses for which an arrest(s) or exceptional clearances have occurred.

Reporting Variations and Procedures

Arizona now receives Uniform Crime Reports from 94 law enforcement agencies. One must be aware that unintentional variations from UCR guidelines may occur that would affect the validity of the data presented in this report. Offense totals vary from the actual number of offenses that occur because UCR statistics are based on crimes that are reported to law enforcement agencies and many crimes are not reported.

Each contributing law enforcement agency is responsible for compiling its own monthly reports. An FBI UCR handbook is supplied to all contributors outlining reporting procedures in detail and is also complete with examples and illustrations.

POPULATION GROUPING

The crime statistics reported by an individual agency indicates what is happening in one particular area. AUCR groups jurisdiction on the basis of population size and reports crime rates among these groups. The cities, towns and counties within the state have been divided into seven groups according to population size. The seventh group (ungrouped) is provided for identification of volume and type of crime to account for total offenses. This population grouping factor has some influence on the volume and type of crime presented in this report. For use in interpreting this report, the UCR grouping is listed below:

Group No.

1. Over 250,000 population. There are four (4) cities and counties that fall within this group.
2. 100,001 to 250,000 population. There are four (4) cities and counties that fall within this group.
3. 50,001 to 100,000 population. There are three (3) cities and counties that fall within this group.
4. 25,001 to 50,000 population. There are nine (9) cities and counties that fall within this group.
5. 10,001 to 25,000 population. There are fifteen (15) cities, towns, or counties that fall within this group.
6. 10,000 or less population. There are fifty-one (51) cities, towns, or counties that fall within this group.
7. Ungrouped. There are eight (8) reporting agencies. These are Educational Institutions and the Department of Public Safety, that by definition do not have measurable population. For purposes of this report, they are combined for the crimes by population distribution.

The following is a listing by population group of law enforcement agencies submitting crime data to the Uniform Crime Reporting Section.

SUMMARY OF
STATE CRIME DATA

ARIZONA CRIME CLOCK

1988

one
MAJOR CRIME
every 2 min. 2 sec.

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Offenses. This mode of display should not be taken to imply a regularity in the commission of the Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

ARIZONA CRIME CYCLE

The following represents the approximate number of Crime Index Offenses that were reported to Arizona law enforcement agencies every 24 hours during 1988.

STATE CRIME SUMMARY

CRIME INDEX OFFENSES

- There were 258,501 Crime Index Offenses reported in 1988.
- August recorded the highest incidence of offenses with 23,066 reported while April recorded the lowest incidence of offenses with 19,963 reported.
- The value of property stolen amounted to \$206,457,930 in 1988.
- The value of property recovered amounted to \$63,857,738 for a recovery rate of 31.0 percent.
- The crime rate for 1988 for Arizona was 71.9 crimes per thousand population.

CRIME INDEX ARREST/CLEARANCES

- During 1988, a total of 58,549 persons were arrested for Index offenses.
- Adult Index arrests were 40,199 and juvenile arrests were 18,350.
- Males accounted for 76.4 percent of the Index arrests and females accounted for 23.6 percent.
- A total of 61,087 clearances, representing 23.6 percent, of Index Offenses were reported in 1988. Juveniles represented 22.4 percent of this total.

VIOLENT CRIME

OFFENSES

- A total of 20,872 violent crimes were reported in 1988.
- Violent crimes accounted for 8.1 percent of the total Crime Index.
- The highest number of violent crimes was reported in August with 2,033 offenses while the lowest number was reported in February with 1,515 offenses.
- Aggravated assault accounted for the largest incidence of violent crimes with 14,514 offenses while homicide accounted for the smallest with 290 offenses.
- The value of property stolen was \$ 3,764,825.

ARRESTS/CLEARANCES

- There were 8,796 arrests for violent crimes in 1988.
- Adult arrests were 7,568 and juvenile arrests were 1,228.
- Males accounted for 87.9 percent and females accounted for 12.1 percent.
- A total of 12,052 clearances, representing 57.7 percent, of violent crimes were reported in 1988. Juveniles represented 10.0 percent of this total.

PROPERTY CRIME

OFFENSES

- A total of 237,629 property crimes were reported in 1988.
- Property crimes accounted for 91.9 percent of the total Crime Index.
- The highest number of property crimes was reported in December with 21,074 offenses while the lowest number was reported in April with 18,250 offenses.
- Larceny-theft accounted for the largest incidence of property crimes with 165,880 offenses while arson accounted for the smallest with 1,787 offenses.
- The value of property stolen was \$ 202,693,105.

ARRESTS/CLEARANCES

- There were 49,753 arrests for property crimes in 1988.
- Adult arrests were 32,631 and juvenile arrests were 17,122.
- Males accounted for 74.3 percent and females accounted for 25.7 percent.
- A total of 49,035 clearances, representing 20.6 percent, of property crimes were reported in 1988. Juveniles represented 25.4 percent of this total.

TOTAL ARRESTS

- There were 224,236 persons arrested in 1988.
- Adult arrests were 177,311 and juvenile arrests were 46,925.
- Males accounted for 81.0 percent and females accounted for 19.0 percent.
- Part I offenses accounted for 58,549 arrests.
- Part II offenses accounted for 165,687 arrests.

*Motor vehicles that were stolen in conjunction with a more "serious" index offense such as robbery or burglary are not included in this count. This count represents only those instances in which motor vehicle theft was the only or most "serious" offense committed. The total value shown here reflects the value of all property stolen during the commission of the offense (i.e., not just the value of each vehicle).

TYPE AND VALUE OF PROPERTY STOLEN AND RECOVERED - STATE TOTALS

The table below reflects the amount of property stolen and recovered by property type. Locally stolen motor vehicles accounted for the property loss in a single category with \$85,431,349. Locally stolen motor vehicles were also the most easily recovered property with a recovery rate of 64 percent or \$54,628,676.

BURGLARY

DEFINITION

The unlawful entry of a "structure" to commit a felony or theft. The use of force to gain entry is not required to classify the crime as burglary. A structure is considered to include the following, but not limited to: dwelling houses, apartments, public buildings, offices, barns, cabins, etc. Burglary is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

SUMMARY

- There were 54,178 burglaries reported during 1988.
- Burglaries accounted for 21.0 percent of the total Index offenses and 22.8 percent property crimes.
- October recorded the highest number, with 4,828, while June recorded the lowest with 4,115.
- Forcible entry was used in 34,387, or 63.5 percent of the total burglaries.
- Residential burglaries accounted for 40,378, or 74.5 percent of the total burglaries.
- In burglaries where the time of occurrence was known, 18,470, or 34.1 percent occurred between the hours of 6 AM - 6 PM.
- Residential burglaries accounted for the highest property loss, \$48,820,498.

ARRESTS/CLEARANCES

- A total of 7,705 persons were arrested in 1988.
- Adults accounted for 4,375 arrests and juveniles accounted for 3,330 arrests.
- Males accounted for 87.9 percent and females accounted for 12.1 percent.
- There were a total of 7,488 clearances for burglary reported in 1988. Juveniles represented 22.7 percent of this total.

MOTOR VEHICLE THEFT

DEFINITION

The unlawful taking or stealing of a motor vehicle including attempts and joyriding. This definition excludes taking for temporary use by those persons having lawful access to the vehicle.

SUMMARY

- There were 15,784 motor vehicle thefts reported during 1988.
- Motor vehicle thefts accounted for 6.1 percent of the total index offenses and 6.6 percent of the property crimes.
- August recorded the highest number, with 1,474, while February recorded the lowest with 1,182.
- Autos represented the highest single category of motor vehicle theft, with 7,903, or 50.1 percent.
- Recovered motor vehicles that were locally stolen amounted to 12,052 or a 76.4 percent recovery rate.
- The total dollar loss amounted to \$85,431,349. Of that amount, \$54,628,676 was recovered. The recovered amount reflects the value of the vehicle when recovered and may be lower than the value when stolen because of missing parts or damage.

ARRESTS/CLEARANCES

- A total of 2,025 persons were arrested in 1988.
- Adults accounted for 1,092 arrests and juveniles accounted for 933 arrests.
- Males accounted for 86.3 percent and females accounted for 13.7 percent.
- There were a total of 3,467 clearances for motor vehicle theft reported in 1988. Juveniles represented 25.4 percent of this total.
