INTRODUCTION

The 1989 edition of the **Federal Court Management Statistics** contains key statistics on the workload of Federal judges during the years ended June 30, 1984 through 1989. Statistical reports submitted by the clerks of the U.S. courts provide the basis for the information on the following pages. The profile pages devoted to each court supply six years of statistical data on the condition of the dockets.

The national profile for the regional courts of appeals appears on the foldout on page 29. The national caseload totals and averages for the district courts are displayed on the last page of this report. Use caution when comparing these national averages to the averages for a particular court. Unique circumstances which could cause a court to vary substantially from the national average are not reflected in the individual court profiles. Some of the factors which could have an impact are long-term judgeship vacancies, an unusual case in progress requiring the full-time service of one judge, a relatively high number of senior judges augmenting regular judgeship strength, or administrative burdens of chief judges in the large metropolitan courts.

The following three pages provide detailed explanations on the data contained in the statistical profiles for the appeals and district courts. Pages 29 and 167 present additional information on specific judicial workload statistics. Refer to these pages before using the statistics in this report.

When the District had less than 10 terminations the median case was not computed.
Civil**

WHAT THE DISTRICT'S NUMERICAL STANDINGS MEAN

These show where an individual district court stands in relation to other district courts in the circuit and in the country. All "workload" statistics are ranked in descending order (highest value receives rank of 1) and all other statistics are ranked in ascending order (lowest value is ranked first). In some categories fewer than 94 courts are ranked because the information was not available for all districts.

¹ A case participation by an individual judge is defined as an appeal in which the judge hears oral argument or where the appeal is submitted on briefs. Thus, where a single appeal is heard before a panel of three judges, the number of participations would be three.

CHANGES IN REPORTING CRITERIA

Effective July 1, 1984, the court of appeals statistical reporting criteria were changed. As a result, the format of the appeals profile pages for 1985 through 1989 has also been revised in the following ways.

1. The revised profile provides more detailed data on the overall number and types of filings and terminations, and the number of filings and terminations per panel.
2. Appeals dispositions are shown as terminated on the merits or procedural terminations. In years prior to 1985 dispositions were shown as after hearing or submission or without hearing or submission. See the section below for further explanation of this change.
3. The profile now provides the number of terminations and written decisions of only the judges who were active the entire 12 month period.
4. Median time shows the time interval from filing the notice of appeal to disposition instead of from filing the complete record to disposition.
5. New data include the disposition of applications for interlocutory appeals, pro se mandamus petitions (where no filing fee was paid), and the number of petitions for rehearing filed.

DISPOSITION NOT BASED ON THE MERITS (PROCEDURAL TERMINATION)

For 1985 through 1989, procedural terminations include any termination where the disposition is not based on the merits of the case. For data prior to 1985, this item includes terminations without either a hearing or submission on Rule 28, Federal Rules of Appellate Procedure (F.R.A.P.), briefs.

DISPOSITION BASED ON THE MERITS

For an appeal to be considered "terminated on the merits," the disposition must have been before a full panel and based on the merits of the case after oral argument, submission of Rule 28, F.R.A.P. briefs, or some other written form such as informal briefs. For data prior to 1985, dispositions based on the merits include dispositions after hearing or submission on Rule 28, F.R.A.P. briefs only.

The new criteria emphasizing termination on the merits instead of termination after hearing or submission may affect the number of decisions reported in some circuits. In past years, if no formal Rule 28, F.R.A.P. briefs were filed the appeal was not considered to be terminated after a submission on briefs. Some case types, such as prisoner petitions, however, may have been terminated based on the merits of the case after submission on informal briefs. Because there was no oral hearing or submission on formal briefs such cases were reported as terminated without hearing or submission. The same situations reported under the new statistical system would be included with terminations based on the merits. The impact of this change was apparent in the Fourth Circuit. In 1984, the Fourth Circuit reported 1,266 cases terminated without hearing or submission, including 656 prisoner petitions (some of which may have been submitted on informal briefs), and 884 cases terminated after hearing or submission, including 83 prisoner petitions. In 1985 the circuit reported 661 procedural terminations including 181 prisoner petitions and 1,553 cases terminated on the merits, including 598 prisoner petitions.

ACTIONS PER PANEL

The workload statistics for the courts of appeals are presented as "actions per panel" as compared to the "actions per judgeship" profile used for the district courts. This type of profile provides a more accurate indication of the workload of an individual judge since appeals cases are generally handled by a panel of three judges rather than a single judge.

WEIGHTED FILINGS

The weighted filings figures were based on weights developed from the 1979 Time Study conducted by the Federal Judicial Center. A detailed discussion of that project can be found in the 1979 **Federal District Court Time Study**, published by the FJC in October 1980. Also, a historical statement about weighted caseload studies completed in the U.S. district courts appears in the 1980 **Annual Report of the Director**, pages 290 through 296.

CIVIL MEDIAN TIME

The median time from filing to disposition of civil cases has been revised for the period 1984 through 1988. Civil median times shown for all six years on the profile pages now exclude not only land condemnation, prisoner petitions, and deportation reviews, but also all recovery of overpayments and enforcement of judgments cases. The large number of these recovery/enforcement cases (primarily student loan and VA overpayments) are quickly processed by the courts and had shortened the median times in most courts. Excluding these cases gives a more accurate picture of the time it takes for a case to be processed in the Federal courts.

TRIALABLE FELONY DEFENDANTS IN PENDING CRIMINAL CASES

Triable defendants include defendants in all pending felony cases who were available for plea or trial on June 30, as well as those who were in certain periods of excludable delay under the Speedy Trial Act. Excluded from this figure are defendants who were fugitives on June 30, awaiting sentence after conviction, committed for observation and study, awaiting trial on state or other Federal charges, mentally incompetent to stand trial, or defendants for whom an authorization of dismissal had been requested by the U.S. Attorney to the Department of Justice.
