1990 Directory of Automated Criminal Justice Information Systems

Vol. III — Law Enforcement

122228

Bureau of Justice Statistics reports

(revised February 1990)

Call toll-free 800-732-3277 (local 301-251-5500) to order BJS reports, to be added to one of the BJS mailing lists, or to speak to a reference specialist in statistics at the Justice Statistics Clearinghouse, National Criminal Justice Reference Service, Box 6000, Rockville, MD 20850.

BJS maintains the following mailing lists:

- Law enforcement reports (new)
- Drugs and crime data (new)
- Justice spending & employment
- White-collar crime
- National Crime Survey (annual)
- Corrections (annual)
- Juvenile corrections (annual)
- Courts (annual)
- Privacy and security of criminal history information and information policy
- Federal statistics (annual)
- BJS bulletins and special reports (approximately twice a month)
- Sourcebook of Criminal Justice Statistics (annual)

Single copies of reports are free; use NCJ number to order. Postage and handling are charged for bulk orders of single reports. For single copies of multiple titles, up to 10 titles are free; 11-40 titles $10; more than 40, $20; libraries call for special rates.

Public-use tapes of BJS data sets and other criminal justice data are available from the National Archive of Criminal Justice Data (formerly CJAIN), P.O. Box 1248, Ann Arbor, MI 48106 (toll-free 1-800-999-0960).

National Crime Survey

Criminal victimization in the U.S.:
1987 (final report), NCJ-115524, 6/89
1988 (final report), NCJ-111456, 9/88

BJS special reports
Hispanic victims, NCJ-120507, 1/90
The redesigned National Crime Survey: Selected new data, NCJ-114746, 1/89
Motor vehicle theft, NCJ-109978, 3/88
Elderly victims, NCJ-107676, 11/87
Violent crime trends, NCJ-107217, 11/87
Robbery victims, NCJ-104638, 4/87
Violent crime by strangers and nonstrangers, NCJ-103702, 1/87
Preventing domestic violence against women, NCJ-102037, 8/86
Crime prevention measures, NCJ-100438, 3/86
The use of weapons in committing crimes, NCJ-99643, 1/86
Reporting crimes to the police, NCJ-99432, 12/85
Locating city, suburban, and rural crime, NCJ-99535, 12/85
The risk of violent crime, NCJ-97119, 5/85
The economic cost of crime to victims, NCJ-93450, 4/84
Family violence, NCJ-93449, 4/84

BJS bulletins
Criminal victimization 1988, NCJ-119845, 10/89
Households touched by crime, 1988, NCJ-117434, 6/89
Criminal victimization 1987, NCJ-113587, 10/88
The crime of rape, NCJ-96777, 3/85
Household burglary, NCJ-96021, 1/85
Measuring crime, NCJ-75710, 2/81

BJS technical reports
New directions for the NCS, NCJ-115571, 3/89
Series crimes: Report of a field test, NCJ-104615, 4/87
Lifetime likelihood of victimization, NCJ-104274, 3/87
Response to screening questions in the NCS, NCJ-97624, 7/85
Redesign of the National Crime Survey, NCJ-111457, 3/89
The seasonality of crime victimization, NCJ-111033, 6/88
Crime and older Americans information package, NCJ-104569, $10, 5/87
Teenage victims, NCJ-103138, 12/86
Victimization and fear of crime: World perspectives, NCJ-93872, 1/85, $9.15
The National Crime Survey: Working papers, vol I: Current and historical perspectives, NCJ-75374, 8/82
vol II: Methodological studies, NCJ-90307, 12/84, $9.50

Corrections

BJS bulletins and special reports
Prison rule violators, NCJ-120344, 12/89
Capital punishment 1988, NCJ-118313, 7/89
Prisoners in 1988, NCJ-116315, 4/89
Recidivism of prisoners released in 1983, NCJ-116261, 4/89
Drug use and crime: State prison inmate survey, 1986, NCJ-111940, 7/88
Time served in prison and on parole 1984, NCJ-108544, 12/87
Profile of State prison inmates, 1986, NCJ-109926, 1/88
Imprisonment in four countries, NCJ-103967, 2/87
Population density in State prisons, NCJ-103204, 12/86
State and Federal prisoners, 1925-85, 102494, 11/86
Prison admissions and releases, 1983, NCJ-100582, 3/86
The prevalence of imprisonment, NCJ-93657, 7/85
Examining recidivism, NCJ-96501, 2/85

Correctional populations in the U.S.:
1987, NCJ-118762, 12/89
1986, NCJ-111611, 2/89
1985, NCJ-103957, 2/89
Historical statistics on prisoners in State and Federal institutions, yearend 1925-86, NCJ-111509, 6/88
1984 census of State adult correctional facilities, NCJ-105585, 7/87
Historical corrections statistics in the U.S., 1850-1984, NCJ-102529, 4/87

Census of jails and survey of jail inmates
BJS bulletins and special reports
Census of local jails, 1988 (BJS bulletin), NCJ-121101, 2/90
Jail inmates, 1987, NCJ-114319, 12/89
Drunk driving, NCJ-109945, 2/88
Jail inmates, 1986, NCJ-107123, 10/87
The 1983 jail census, NCJ-95536, 11/84
Census of local jails, 1983: Data for individual jails, vols I-IV, Northeast, Midwest, South, West, NCJ-112796-9

The Assistant Attorney General, Office of Justice Programs, coordinates the activities of the following program offices and bureaus: the Bureau of Justice Statistics, National Institute of Justice, Bureau of Justice Assistance, Office of Juvenile Justice and Delinquency Prevention, and the Office for Victims of Crime.

Acknowledgments

Hundreds of criminal justice professionals contributed to the success of the 1990 series of *Directories* by providing information on the level of automation in their agencies and describing criminal justice information systems. The National Clearinghouse for Criminal Justice Information Systems is grateful for the participation of these practitioners and developers and for the support and leadership of the Bureau of Justice Statistics which has long recognized the value of information technology to the administration of justice.

Foreword

The Bureau of Justice Statistics has supported and long encouraged the criminal justice community to replicate, coordinate and share information management systems, policy and data. To facilitate such sharing, BJS and SEARCH Group have, since 1980, collaborated on producing three editions of the *Directory of Automated Criminal Justice Information Systems*, a project initiated by the Law Enforcement Assistance Administration in 1972. The *Directories* provide information about particular information systems and the level of automation among justice agencies. They are designed with the specific intent of facilitating the exchange of information and the transfer or adaptation of exemplary systems.

Our latest, and fourth such collaboration, the 1990 edition of the *Directory of Automated Criminal Justice Information Systems*, is comprised of five separate volumes, one for each of the principal criminal justice disciplines: Corrections, Courts, Law Enforcement, Probation and Parole, and Prosecution. Taken together, the *Directories* are a valuable resource for criminal justice agencies in the process of selecting an automated information management system that will meet their individual needs. It is the hope of the Bureau of Justice Statistics that this series of *Directories* will promote computerized information processing and also will help state and local agencies to generate accurate and timely criminal justice statistics.

This series of *Directories* is part of the Bureau of Justice Statistics' continuing efforts to inform the national justice community of advances in information management and to promote automation among criminal justice practitioners nationwide.

TABLE OF CONTENTS

Law Enforcement

Introduction ix

Part I

Agency Description Records 1

Part II

System Description Records 393

Part III

A. Agency Indices

1. Agency Name 485
2. Total Personnel/1988 492
3. Computer Equipment 499
4. Automated Functions 530
5. Criminal Justice Software 581

Part IV

Appendices 621

1. Automated Functions: Discipline-Specific
2. Manufacturer Abbreviations
3. Sample Survey: Law Enforcement
4. Sample Survey: Software Developer
5. Update/Correction Notification Form

Introduction

In 1976 SEARCH Group created the National Clearinghouse for Criminal Justice Information Systems to promote and facilitate the transfer of automated, public domain information management systems. The role of the Clearinghouse has grown to include the collection and dissemination of information about proprietary information systems as well. In support of this function, the Clearinghouse maintains the Automated Index of Criminal Justice Information Systems — a database containing information on automated systems and the hundreds of agencies using those systems. Since 1980 the Clearinghouse, with support from the Bureau of Justice Statistics, has published three editions of the *Directory of Automated Criminal Justice Information Systems* based on information generated from the Index's database. The *Directory* has served as a valuable resource for criminal justice practitioners who needed guidance in selecting an appropriate automated records system and it has also helped to minimize duplicate system development efforts.

Methodology

The SEARCH Automated Index of Criminal Justice Information Systems, the database for the printed *Directory*, was completely redesigned in 1989 and this *Law Enforcement Directory* reflects that revision. The redesign of the Automated Index altered the structure of the database and required modifications to the survey instrument used to collect the data. (See Appendix 3, *Sample Survey: Law Enforcement* and Appendix 4, *Sample Survey: Software Developer* for samples of the survey instrument.) Surveys were mailed to all agencies and software developers listed in the 1986 *Directory of Automated Criminal Justice Information Systems*. In addition, SEARCH requested state planning agencies, statistical analysis centers, state Attorneys General, and the directors of state and national criminal justice associations to identify automated criminal justice agencies and justice information systems that would be appropriate to include in the 1990 series of *Directories*. SEARCH then mailed surveys to the agencies and the

system developers/vendors. If a vendor identified agencies where the vendor's product was installed, a survey was also mailed to those agencies.

Organization and Use

The *Directory* has traditionally been published at three-year intervals as a single, large volume. In this 1990 edition, five separate volumes were published — one *Directory* for each of the principal criminal justice disciplines: *Corrections* (Volume I); *Courts* (Volume II); *Law Enforcement* (Volume III); *Probation and Parole* (Volume IV); and *Prosecution* (Volume V). Separate, discipline-specific volumes significantly reduced the publication size, making it easier for users to quickly locate the information they need. Together, the *Directories* contain profiles on 130 automated systems and over 700 criminal justice agencies.

Each *Directory* is divided into four parts: Part I, Agency Description Records; Part II, System Description Records; Part III, Indices; and Part IV, Appendices. The Agency Description Records are based on information provided by individual agencies that responded to SEARCH's national survey of criminal justice agencies, and the System Description Records reflect survey responses from the system developers and vendors.

A primary difference between past editions of the *Directory* and the 1990 edition is the manner in which information is presented. Previously, an automated system that was operating in several different agencies was independently described in the *Directory* by each installation, causing a great deal of duplication and some inaccuracies in the publication. Now, in the 1990 edition, the system information is listed only once, and agencies using that particular system are cross-referenced.

Part I: Agency Description Records

Agency Description Records for law enforcement are divided into four sections. The first section at the top of the page provides the name, address and telephone number of the agency, the name and title of a contact person, and indicates the type of agency, the size

of the population served, the total number of personnel and the number of full-time personnel, and the number of service requests processed in 1988.

The second section, "Computer Equipment," contains information on the agency's computer hardware. The record describes the agency's access to a computer (whether it has exclusive use, shares with another agency or division, or relies on a central data processing bureau for computer services); the number of Full-time Equivalent data processing employees; and the hardware configurations used (type, manufacturer and model, operating system, quantity and the type of Local Area Network).

The third section, "Automated Functions," lists the agency's general functions that are automated, such as accounting, electronic mail, spreadsheets and word processing. This section also lists any automated functions that are specific to law enforcement, such as computer aided dispatch, crime analysis, field interrogation and UCR/IBR. (See Appendix 1, *Automated Functions: Discipline-Specific*, for a complete listing of the choice of automated functions for each discipline.)

The final section of the Agency Description Record is "Criminal Justice Software Applications," which lists the name and acronym of any criminal justice or law enforcement-specific software application currently used by the agency. If the software package has a corresponding System Description Record entry containing system information supplied by the developer/vendor, then the page on which that record appears is also listed. This cross-reference enables the reader to learn about the functions, features and operational requirements of the system.

Part II: System Description Records

Law Enforcement System Description Records are divided into five sections. The first section lists the product name and acronym (if there is one), as well as the developer's name, address, telephone number and the name and title of a contact person. The record indicates whether the product is proprietary or in the public

domain, whether the software can be modified and whether the source code is available. It also identifies the programming language the system is written in, and lists the vendor support services offered and any special product features.

Section two, "Computer Equipment," lists the hardware configurations upon which the system runs, indicating the type (mainframe, minicomputer or microcomputer), manufacturer and model, operating system, and if it runs on a Local Area Network.

Section three, "Automated Functions," lists any automated functions of the system that are specific to law enforcement, such as fleet management, intelligence and missing persons. (See Appendix 1, *Automated Functions: Discipline-Specific,* for a complete listing of the choice of automated functions for each discipline.)

The fourth section is the "Narrative" in which the vendor provides a general description of the system, and often includes the price of the product.

The fifth, and final, section of the System Description Record, "System Users," lists up to three agencies that have obtained the named product. If the specified agency has a corresponding Agency Description Record entry containing operational information supplied by a law enforcement agency, then the page on which that record appears is also listed. This cross-reference enables the reader to learn about the agency in which the system is operating.

Part III: Indices

The *Law Enforcement Directory* has two major types of Indices which enable readers to search the *Directory* quickly and easily for information on agencies and systems: Agency Indices and System Indices.

Index A, Agency Indices, includes five Indices of the agencies described in Part I: Agency Description Records:

1. *Agency Index by Agency Name* — alphabetically lists agencies by name, and includes each agency's city and state;

2. *Agency Index by Total Personnel/1988* — numerically ranks the agencies by the number of personnel the agency had in calendar year 1988, and includes the agency name, city and state;

3. *Agency Index by Computer Equipment* — alphabetically lists hardware manufacturer and model number of the computer equipment used by each agency;

4. *Agency Index by Automated Functions* — organizes the agencies by type of law enforcement-related automated function, and alphabetically lists each agency by name;

5. *Agency Index by Criminal Justice Software* — alphabetically lists the criminal justice software applications that each agency has indicated it uses.

Index B, System Indices, includes five Indices of the systems described in Part II: System Description Records:

1. *System Index by System Name* — alphabetically lists systems by name, and includes each system's acronym, if there is one;

2. *System Index: Mainframes and Minicomputers* — alphabetically lists hardware manufacturer and model number of the mainframe or microcomputer that runs the listed software system;

3. *System Index: Microcomputers* — alphabetically lists the microcomputer's operating system that is required to run the listed software system;

4. *System Index by Automated Functions* — organizes systems by type of law enforcement-related automated function, and alphabetically lists each agency by name; and

5. *System Index of Public Domain Systems* — alphabetically lists those systems that are in the public domain.

Part IV: Appendices
This *Law Enforcement Directory* has the following five Appendices:

1. *Automated Functions: Discipline-Specific* — A list of the discipline-specific, automated system functions included on the survey instrument. This listing includes the automated functions for each of the five disciplines: Corrections, Courts, Law Enforcement, Probation and Parole, and Prosecution;

2. *Manufacturer Abbreviations* — An alphabetical list of the abbreviations used to describe hardware manufacturers throughout the *Directory*, and the corresponding full company name;

3. *Sample Survey: Law Enforcement* — A sample of the survey form mailed to law enforcement agencies;

4. *Sample Survey: Software Developer* — A sample of the survey form mailed to software developers and vendors; and

5. *Update/Correction Notification Form* — A form to be used to inform SEARCH of any agency or system record additions, updates, omissions or corrections.

Limitations

Although the compilers of this *Law Enforcement Directory* have sought to create a useful and comprehensive resource document, readers need to be aware of and understand its limitations. It is not an exhaustive list of all automated criminal justice agencies or of all criminal justice information management systems. The publication is based on information voluntarily provided by criminal justice practitioners and system developers and vendors who responded to our survey. It was not possible to verify all submitted information and thus the data were accepted and used as reported.

If, for example, a survey was incomplete or an answer was unclear, the *Directory* will show a blank for that particular response.

Whenever possible, systems listed under "Criminal Justice Software Applications" in an Agency Description Record will be cross-referenced with a System Description Record. Likewise, if a developer describes a system in a System Description Record and indicates that the system is operational in a particular agency, every attempt was made to create a corresponding Agency Description Record. As mentioned above, however, records were only created if the developer and the agency submitted a complete survey form.

This *Law Enforcement Directory* can provide an excellent overview of an agency's size and level of automation, as well as a representative sketch of a system's functions and features. Systems are frequently updated, however, and just as frequently are replaced. Personnel turnover and organizational changes may also cause some of the information contained in the *Directory* to be out of date. We suggest that readers interested in a particular system contact the developer or the agency that is using the system to verify the *Directory*'s information and to learn first-hand of the system's capabilities.

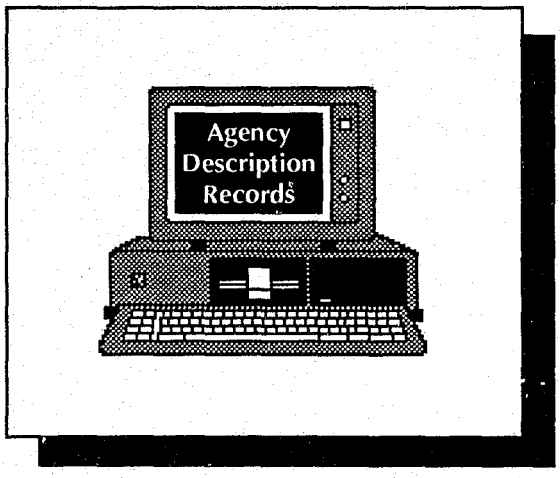
Readers are strongly encouraged to review the other four volumes in the *Directory* series when searching for an appropriate system or a comparable agency. For example, it is possible that a sheriff's office, classified as a law enforcement agency, would have an Agency Description Record in *Law Enforcement* (Volume III), yet is using an automated jail management system that has a System Description Record in *Corrections* (Volume I).

When reviewing the contents of the *Directories*, readers should also bear in mind that two different systems may have the exact same name. By checking the information in the System Description Record, readers can determine if identically-named systems are, in fact, produced by the same developer.

Finally, it is important that any omissions or errors be corrected and new information added to the Automated Index of Criminal Justice Information Systems. Readers are asked to use the *Update/Correction Notification Form* (See Appendix 5) to keep SEARCH informed of agency and system changes. This form may also be used to request a survey for the purpose of adding new Agency Description Records or System Description Records. All submitted forms will be used to amend and expand future editions of the *Directory* and the Automated Index of Criminal Justice Information Systems.

Computerized Access to Directory Information

As noted earlier, the Automated Index of Criminal Justice Information Systems is the database for the printed *Directories*. The Automated Index is continuously updated and revised as SEARCH receives new information on systems and automated agencies. Practitioners may access the Automated Index through the SEARCH-BBS, an electronic bulletin board that is available free of charge to the criminal justice community. Users may search the Automated Index for systems that meet specific functional, hardware, or software needs. They may also identify agencies which meet certain criteria and then review the criminal justice information systems in use by those agencies. Both of these approaches utilize a user-friendly, menu-driven system. To access the Automated Index through the SEARCH-BBS, users need a microcomputer, a modem and a communications package. Users are registered on-line by dialing 800-448-8257. (Please set your communication package to 8 data bits, 1 stop bit, no parity). Practitioners may also call or write to SEARCH and request a custom search of the Index database.



1990 Directory of Automated Criminal Justice Information Systems

Vol. III — Law Enforcement

AGENCY DESCRIPTION - A10648

Agency..... Decatur Police Dept
302 Fourth Ave, NE
Decatur, AL 35601
(205) 552-3000

Contact person..... Patricia Upton
Director, Data Processing

Type of agency ..... Municipal Police
Population served..... 50,000
Total personnel..... 117
Full-time personnel..... 90
Requests for service/1988.... 30,250

arrests, case disposition reports, case management, citation control, computer aided dispatch, crime analysis, criminal associates, criminal case processing, criminal history, evidence control, field contact reporting, fingerprint processing, fleet management, geoprocessing/geocoding, juvenile records, missing persons, name index, organized crime, physical goods inventory, process service control, stolen property, summons control, traffic accident reporting, traffic case processing, victim/witness information, wanted persons, warrants

NARRATIVE

The AT&T Law Enforcement software is a user-friendly records management system that was designed by a law enforcement officer. It offers easy access to all the data agency personnel need and eliminates paperwork with automatically compiled statistical and summary reports. By design, the system is easy to learn and simple to use.

AUTOMATED FUNCTIONS

crime analysis, criminal associates, criminal history, modus operandi, name index, organized crime, victim/witness information

NARRATIVE

The Criminal Network Analysis (CNA) is a stand-alone analytical tool that permits an investigator or analyst to analyze complex criminal networks. A data file consists of "links" between "entities" (people, places, or things). "Strength" values and "validity estimates" are assigned to each link. (CNA can accommodate as many as 2,000 entities, 5,000 links and as many as 20 separate "linktypes" (e.g., money, stolen property, drugs, etc.) CNA produces several analytic products, including "link networks". CNA will also produce a graphic link chart (automatically and immediately) based on a link network. The CNA program is not sold without training. The cost for CNA and the three-and-one-half day training course is $675.00.

AUTOMATED FUNCTIONS

patrol resource allocation

NARRATIVE

The Patrol Workload Analysis System evaluates patrol effectiveness based on calls-for-service consumed time. The system prepares shift and day-off schedules for either "4-10" or "5-8" work schedules. It produces reports of queue, travel and response time by priority of call, by hour, shift and day of week. The system analyzes consumed time by beat and reporting district and allows experiments to reassign reporting districts from one beat to another. Adequacy of patrol staff is analyzed, relative to consumed time workload. This system is available at no cost to law enforcement agencies. Requesting agencies must supply two 360KB floppy disks or equivalent.

AUTOMATED FUNCTIONS

arrests, case disposition reports, case management, citation control, crime analysis, criminal associates, criminal history, evidence control, field contact reporting, fingerprint processing, firearms registration, fleet management, geoprocessing/geocoding, juvenile records, licensing/registration, missing persons, modus operandi, name index, narcotics control, organized crime, parking tickets, pawned articles, physical goods inventory, process service control, stolen property, summons control, traffic accident reporting, uniform crime reporting, vehicle inspection, victim/witness information, wanted persons, warrants

NARRATIVE

AIM is a criminal records management system designed to allow for "one-time" data entry. All information is available to all users through the control of a system-wide security process built into the database. CAD and Jail Management are interfaced directly to the system. Prices range from $10,000.00 to $50,000.00, depending on the degree of interface necessary and the size of the CPU used.

MINI	H-P 3000/CLASSIC	MPE	No

AUTOMATED FUNCTIONS

computer aided dispatch, geoprocessing/geocoding

NARRATIVE

The on-line Computer-Aided Dispatch system uses a geographic base file for address validation. Formatted screens for complaint taking and dispatching are interfaced to the Records Management modules. "Touch" screen capabilities provide the user with speed and ease in training. Prices range from $10,000.00 to $50,000.00, depending on degree of interface necessary and size of the CPU used.

arrests, case management, citation control, crime analysis, criminal associates, evidence control, field contact reporting, firearms registration, fleet management, juvenile records, licensing/registration, modus operandi, name index, parking tickets, pawned articles, physical goods inventory, stolen property, traffic accident reporting, traffic case processing, victim/witness information, wanted persons, warrants

NARRATIVE

Police-Trak is a complete records management system consisting of 24 modules including incident, arrests and tickets, employees, budget and vehicles. Both tally and incident-based UCR systems are supported. The system provides 10 levels of user security, unlimited data size, and allows easy user modification. Single user price is $9,500.00 (including source code and installation). Multiuser systems start at $11,000.00 (less if purchased with other IPTM packages). Police-Trak interfaces with IPTM-CAD.

crime analysis

NARRATIVE

TCAP is an easy-to-use program for crime analysis which enables agency personnel to perform responsive, tactical analysis. This includes the identification and detection of current crime patterns, performing suspect correlation and target profiling for immediate response by line units. TCAP allows analysis of a wide range of crime types and costs $1,700.00.

NARRATIVE

MapInfo is a desktop mapping system which allows display, management, and analysis of information geographically. Data from dbase or ASCII files can be overlaid onto maps, automatically pinpointing data or shading areas. MapInfo has many other features such as address matching, map and boundary editing, polygon searches, presentation output, and a built-in database management system. With the optional mapcode language, MapInfo can be tailored for custom applications. MapInfo is also available for network use. MapInfo supplies maps, ranging from nationwide boundary files to actual street maps of thousands of cities in the U.S.

NARRATIVE

The ALERT System automatically captures and indexes detailed information pertaining to calls for service, offenses, arrests, juvenile contacts, incidents, personnel, vehicles, stolen property, and other important items. In addition, the system prints concise reports for department management, monthly UCR's, crime summaries, and crime analysis. ALERT also provides a Special Search and Report Generation feature which allows the operator to search records utilizing self-determined parameters to retrieve information. The Report Generation module can then be used to produce a user-defined report of the records selected. ALERT can run on any H-P 3000 system with any combination of disk drives, terminals, and printers. The software license price is $30,000.00.

NARRATIVE

RESPONSE is a fully integrated computer and software system designed to assist public safety agencies in responding to requests for service. It automates many time consuming communication, call taking, dispatching, deployment, and unit status recording activities. The RESPONSE Computer-Aided Dispatching implementation improves productivity of both communications center operations and field personnel. More time can be devoted to decision making because of automated call data transfer and unit assignment. Field safety is substantially improved and field resources utilized more effectively. RESPONSE can run on any H-P 3000 with at least 2MB of main memory and 120MB of disk storage. Software prices start at $20,000 for the small system and vary with the needs of the installation to a maximum fo $80,000.00 for the large-scale system.

NARRATIVE

The Community Management System is a fully integrated, table-driven, relational data base designed system for public safety agencies. All modules use interactive data entry to eliminate redundant data entry. Since immediate and automatic file updating are used, information is immediately accessible to all authorized users regardless of the source of the data. Security is insured via hardware and software methods.

MAIN	IBM 370	MVS 2.1	No

AUTOMATED FUNCTIONS

arrests, case disposition reports, criminal history

NARRATIVE

The Arrest/Disposition System provides a means of categorizing, by date and individual, all arrests and dispositions. In addition to direct data entry of arrests and dispositions, an interface--the City Booking System and the Municipal Courts Criminal Justice System--has been provided to generate updated records from these systems. All inquiries to the data base are logged to record the inquisitor and the record against which the inquiry was made. This inquiry also requires special authorization. Additionally, a program has been developed to print a complete RAP sheet in the Identification Bureau. Either a portion or the complete RAP sheet may be printed. Each record contains the offense at arrest time and, if different, the offense in the Municipal Courts Criminal Justice System. This Arrest/Disposition System is used as an investigative tool by other departments. Implemented in 1987 and rewritten in 1985, this system consists of NATURAL and CICS command level programs and uses ADABAS as its Database Management System.

AUTOMATED FUNCTIONS

inmate intake & accounting

NARRATIVE

The City Booking System features on-line booking capability to process the more than 25,0000 persons who are booked annually by the San Antonio Police Department. As persons are booked into either the jail or the detoxification unit, the appropriate arrest, confinement and charge data are entered directly into the computer from video terminals. The booking file is linked to the proper identification number and it is updated and available for immediate inquiries or updates. An appropriate booking number is assigned by the system to each booking and a booking slip is automatically printed. As a person is booked, an automatic warrant check is made at the local, state and national levels.

This system interfaces directly wtih the Arrest Disposition System, the County Booking System and the Municipal Court System. This system is written using NATURAL and CICS command level programming languages and uses ADABAS as its Database Management System. This system was implemented in 1985.

AUTOMATED FUNCTIONS

computer aided dispatch

NARRATIVE

The Computer-Assisted Dispatch System (CADS) system allows the telephone clerks to enter information concerning a citizen's call for assistance on a video terminal, validate the incident adddress, determine the appropriate patrol district, and route the call data and patrol units available to answer the call to a dispatcher. The dispatcher contacts a patrol unit by radio and enters information concerning patrol activity into the file using a video terminal. This maintains the file in an up-to-date status to provide information for the next call. The system incorporates five subsystems: 1) Geographic Base Subsystem; 2) Unit Avaialbility Subsystem; 3) Request for Service Subsystem; 4) Dispatch Subsystem; and 5) Police Personnel Subsystem. This system was implemented in 1978.

AUTOMATED FUNCTIONS

crime analysis, criminal associates, field contact reporting, modus operandi, name index

NARRATIVE

The Persons of Interest to Police Subsystem (PIPS) creates a suspect data base. PIPS provides the capability of adding and maintaining a file of active "Known Offenders." The primary source of information used in maintaining this file comes from investigative personnel, field investigative reports and information on selected persons from the Master Name File. The data collected by PIPS is analyzed daily through a batch process establishing crime-with-crime suspect and suspect-with-crime associations. On-line inquiry capabilities into the PIPS data base provide for ad hoc reports based on known data about a crime or suspect.

applicant processing

NARRATIVE

On an annual basis, the Police EEO Statistics System manages approximately 4,000 applications of citizens desiring to be police officers. The processing of these applicants includes testing, interviewing, background investigations, assessments, polygraphs and physical examinations. This system captures information on race, sex, and the pass/fail rates of those applicants who complete any processing activity required by the San Antonio Police Department. This system, developed for the San Antonio Police Department's Personnel Office, was implemented in April, 1987. It consists of 11 on-line programs and six batch programs all written in NATURAL language.

NARRATIVE

The Report Entry and Production Subsystem (REAPS) provides the capability to enter all new offense reports in a standard, accurate, timely, and relevant manner. The report entry clerks enter these reports through a video terminal with appropriate screen formats. The data is then edited and reviewed for accuracy and completeness by the Report Review Officer. In January 1980, additional on-line modules were implemented which added names associated with the offense report to a name file. This name file has on-line name or case number inquiries as well as update capabilities. REAPS was implemented in September 1979.

AUTOMATED FUNCTIONS

vehicle management

NARRATIVE

The Vehicle Impound Management System (VIMS) helps the San Antonio Police Department control the more than 25,600 vehicles impounded annually. It also aids in the management of the more than 4,000 unclaimed vehicles that are auctioned each year by the City of San Antonio. Vehicles brought into the pound are documented and entered on the system. Information recorded includes vehicle, towing, owner and reason for impounding. The system prints notices to the owners so they may claim their vehicles. VIMS produces a list of recovered vehicles and prints releases when vehicles are reclaimed by owners or sold at auctions. Impound, release, auction and tow activities are recorded. Inquiries can be made by vehicle, license and owner information. VIMS was implemented in February 1987 and consists of 36 programs written in NATURAL and CICS COBOL.

NARRATIVE

This system provides the capability to retrieve information on all repossessed and relocated vehicles by owner name, vehicle information and the location from where it was towed. This gives the Police Department a fast means of checking to see if a vehicle is impounded before a stolen vehicle report is filed. Vehicles that are impounded are entered into the system at the Report Message Center. This system was implemented in December 1987 and consists of six programs written in NATURAL.

1989 Survey of Automated Criminal Justice Agencies

Many criminal justice practitioners are discovering the benefits of using computers in their agencies. But agencies are often not informed about the existence and capabilities of automated information systems designed specifically for criminal justice. The National Clearinghouse for Criminal Justice Information Systems — a multi-functional program of SEARCH Group, Inc. and the Bureau of Justice Statistics — was established to collect and disseminate this information to benefit state and local justice agencies.

The Clearinghouse documents public domain and proprietary automated information systems and promotes and facilitates the transfer of proven criminal justice systems. For more than 12 years, the Clearinghouse has operated the Automated Index of Criminal Justice Systems. This Index contains information on over 1,500 operational justice systems and is an invaluable resource for criminal justice personnel who are turning to computers to solve their information management problems. In response to telephone requests from criminal justice agencies, SEARCH staff query the Automated Index database about systems that perform specific justice functions or which operate on particular hardware or operating systems.

SEARCH Group, Inc., is a nonprofit, public-interest organization dedicated to applying information technology to benefit criminal justice. SEARCH was recently awarded a grant by the Bureau of Justice Statistics, U.S. Department of Justice, to redesign and enhance the Automated Index. Enhancements planned for the Automated Index will increase its usefulness in responding to inquiries from agencies and expand its capability for more detailed data.

This survey is part of the Index enhancement effort and is designed to collect information on the types of **automated** system(s) maintained by your agency. Knowledge of your agency's automated system could help other agencies which are seeking to use technology to effectively manage their data. Your completed and returned survey will ensure that:

- The descriptions of your automated systems are included in the 1989 edition of the *Directory of Automated Criminal Justice Information Systems,* published by the Bureau of Justice Statistics; and
- The information on your agency's system(s) listed in the Automated Index is current, complete and accurate.

Does your agency use a computer to accomplish any of its tasks?

☐ No, we have a manual system

☐ Yes, we have an automated system.

If "No", it is not necessary for you to complete this survey. However, in order that this survey may be accounted for, we ask that you kindly return it as soon as possible. Please refold the survey, staple it (taking care to expose the portion that is addressed to SEARCH Group, Inc.) and drop it in the mail.

If "Yes", we would appreciate your completing the survey, which should take about 10 minutes. To return the survey, please refold and staple it (taking care to expose the portion that is addressed to SEARCH Group, Inc.) and drop it in the mail. If you have any questions regarding this survey, please contact Cheryl Moore at SEARCH Group, Inc. (916) 392-2550. Thank you.

SECTION I — AGENCY DESCRIPTION

1. **Please check the *one box* that best describes your agency:**

   - ☐ Municipal Police
   - ☐ County Police
   - ☐ Sheriff's Office
   - ☐ State Police
   - ☐ Highway Patrol
   - ☐ Other *(please specify)* _____

   _____

2. **Population of jurisdiction served (approximate):** _____

3. **Total number of agency personnel:** _____

4. **Number of full-time sworn personnel:** _____

5. **Number of requests for service in 1988:** _____

SECTION II — COMPUTER HARDWARE

■ This section collects information about the physical equipment (hardware) and system software your agency is currently using. Included are questions about how your agency's information processing is accomplished.

1. **Please check the *one box* that best describes the computer access within your agency:**

   - ☐ Have exclusive use of one or more computers
   - ☐ Share computers with another agency, division or unit
   - ☐ Rely on a city, county or state central data processing bureau or agency for computer services

   Other *(please specify)* _____

2. Which computers are used by your agency? *(Please indicate the quantity in front of the manufacturer's name and include the model name or number for each computer system.)*

Mainframe computers			Minicomputers			Microcomputers		
#	Manufacturer	Model	#	Manufacturer	Model	#	Manufacturer	Model
							Altos	
	Amdahl							
							Apple II/III	
							Apple Macintosh	
	AT&T			AT&T			AT&T	
							Compaq	
	Control Data							
	Data General			Data General				
				DEC			DEC	
	Hewlett Packard			Hewlett Packard			Hewlett Packard	
	Honeywell Bull			Honeywell Bull				
	IBM			IBM			IBM	
							ITT	
							Leading Edge	
	NCR			NCR			NCR	
				NEC			NEC	
				Prime				
	UNISYS			UNISYS			UNISYS	
							Tandy	
				Texas Instruments			Texas Instruments	
				Wang			Wang	
							Zenith	

3. If your agency uses a computer system that is not listed in the above table, please provide the following information:

	Quantity	Manufacturer	Model
Mainframe	_____	_____	_____
Minicomputer	_____	_____	_____
Microcomputer	_____	_____	_____

4. Which operating systems are used by your agency? *(Check all that apply)*

	Version		Version
☐ Macintosh	_____	☐ VAX/V MS	_____
☐ MSDOS/PCDOS	_____	☐ VM	_____
☐ MVS	_____	☐ VSE	_____
☐ RSTS	_____	☐ XENIX	_____
☐ UNIX	_____	☐ Other _____	_____

5. **Approximate number of microcomputers used by your agency** _____

6. **Number of microcomputers that are networked** _____

7. **Number of local area networks in your agency** _____

8. **Network(s) used (e.g. Novell, 3Com, 10Net, IBMPC)** _____

9. **Does your agency have any employees whose primary responsibilities include data processing, computer maintenance, programming, etc.?**

   ☐ Yes
   ☐ No

   If yes, how many full time equivalent (FTE)? _____

SECTION III — LEVEL OF AUTOMATION

■ This question collects information on your agency's use of software packages which are *not specifically oriented to criminal justice.* (e.g. WordStar, Lotus 123, Rbase 5000). Please check one box for each function.

1. **Does your agency use one or more software packages for the following general office automation functions?**

Y	N		Y	N	
☐	☐	Accounting	☐	☐	Personnel
☐	☐	Computer Assisted Training	☐	☐	Scheduling/Time Management
☐	☐	Database Management	☐	☐	Spreadsheets
☐	☐	Desktop Publishing	☐	☐	Statistical Analysis
☐	☐	Electronic Mail	☐	☐	Word Processing
☐	☐	Graphics			
☐	☐	Payroll			

■ This question collects information on your agency's use of software packages which are *specifically oriented to criminal justice functions or information systems.* Please check one box for each function. Check no if the function or information system is performed solely by one of the general office automation software packages listed above.

2. **Does your agency use one or more software packages for the following criminal justice functions?**

Y	N		Y	N		Y	N	
☐	☐	Arrest or Crime Records	☐	☐	Intelligence	☐	☐	Officer Training
☐	☐	Computer Aided Dispatch	☐	☐	Missing Persons	☐	☐	UCR/IBR
☐	☐	Crime Analysis	☐	☐	Pawned Articles	☐	☐	Warrants/Summons
☐	☐	Field Interrogation	☐	☐	Property	☐	☐	Workload Analysis
☐	☐	Fleet Management	☐	☐	Traffic/Parking			

Other *(please specify)* _____

SECTION IV — AUTOMATED JUSTICE APPLICATIONS

■ We will use the following information to contact the developer(s) of the software system(s) currently being used by your agency. This will allow us to gather specific information about the software packages.

1. Please provide the following information about the criminal justice software system(s) currently being used by your agency:

❖ System name _____ Developer _____
Address and/or phone number _____
☐ Purchased ☐ Developed in-house

❖ System name _____ Developer _____
Address and/or phone number _____
☐ Purchased ☐ Developed in-house

❖ System name _____ Developer _____
Address and/or phone number _____
☐ Purchased ☐ Developed in-house

SECTION V — CONCLUSION

■ Please provide the following information about the person in your agency who is best qualified to provide **technical information** about the computer hardware and software system(s) used by your agency. This individual will be included as the contact person in the 1989 edition of *The Directory of Automated Criminal Justice Information Systems* and should be the person who will be available to respond to inquiries from SEARCH staff and justice agencies.

Name _____ Title _____

Agency _____ Telephone _____

Address _____

_____

In the event that a question may arise during the processing of this survey, please provide the name, title, agency and telephone number of the person who completed this survey.

Name _____ Title _____

Agency _____ Telephone _____

■ Thank you for taking the time to complete this survey. The timely data you provide will help to ensure the effectiveness of the Automated Index.

1989 Survey of Criminal Justice Software Developers

Many criminal justice practitioners are discovering the benefits of using computers in their agencies. But agencies are often not informed about the existence and capabilities of automated information systems designed specifically for criminal justice. The National Clearinghouse for Criminal Justice Information Systems — a multi-functional program of SEARCH Group, Inc. and the Bureau of Justice Statistics — was established to collect and disseminate this information to benefit state and local justice agencies.

The Clearinghouse documents public domain and proprietary automated information systems and promotes and facilitates the transfer of proven criminal justice systems. For more than 12 years, the Clearinghouse has operated the Automated Index of Criminal Justice Systems. This Index contains information on over 1,500 operational justice systems and is an invaluable resource for criminal justice personnel who are turning to computers to solve their information management problems. In response to telephone requests from criminal justice agencies, SEARCH staff query the Automated Index database about systems that perform specific justice functions or which operate on particular hardware or operating systems.

SEARCH Group, Inc., is a nonprofit, public-interest organization dedicated to applying information technology to benefit criminal justice. SEARCH was recently awarded a grant by the Bureau of Justice Statistics, U.S. Department of Justice, to redesign and enhance the Automated Index. Enhancements planned for the Automated Index will increase its usefulness in responding to inquiries from agencies and expand its capability for more detailed data.

This survey is part of the Index enhancement effort and is designed to collect information on the types of **automated** system(s) maintained by your agency. Knowledge of your agency's automated system could help other agencies which are seeking to use technology to effectively manage their data. Your completed and returned survey will ensure that:

- The descriptions of your automated systems are included in the 1989 edition of the *Directory of Automated Criminal Justice Information Systems,* published by the Bureau of Justice Statistics; and
- The information on your agency's system(s) listed in the Automated Index is current, complete and accurate.

Please take this opportunity to provide us with information about the automated system(s) your organization has developed. The survey can usually be completed in less than 15 minutes. When you have completed this survey, please refold and staple it (taking care to expose the portion that is addressed to SEARCH Group, Inc.) and drop it in the mail. If you have found it necessary to copy and/or insert additional pages, please be sure that a complete, stapled survey is included for each product described. A large envelope may be used to return two or more surveys.

Your cooperation and attention to this survey are greatly appreciated. If you have any questions regarding this survey, please contact Cheryl Moore at SEARCH Group, Inc. (916) 392-2550.

Please submit a completed survey for each individual criminal justice-oriented product offered by your firm or agency. Where pages of the survey are common to two or more of the products you are describing, feel free to copy the completed pages and insert them in the appropriate product description. This will save you time and duplication of effort.

We ask that you do not list the individual modules that comprise an integral system separately as products unless each module can operate as a stand-alone package.

1. **Full Product Name** _____ **Acronym** *(if applicable)* _____

2. **Is this product comprised of stand-alone modules capable of functioning independently?**

   ☐ No ☐ Yes

   If yes, please list the modules *(use additional paper if necessary)*

   A. _____

   B. _____

   C. _____

3. **Which computers can be used to operate this product?** *(Please place a check mark in front of the manufacturer's name and include the model name or number for each computer system.)*

Mainframe computers			Minicomputers			Microcomputers	
✓ Manufacturer	Model	✓	Manufacturer	Model	✓	Manufacturer	Model
						Altos	
Amdahl							
						Apple II/III	
						Apple Macintosh	
AT&T			AT&T			AT&T	
						Compaq	
Control Data							
Data General			Data General				
			DEC			DEC	
Hewlett Packard			Hewlett Packard			Hewlett Packard	
Honeywell Bull			Honeywell Bull				
IBM			IBM			IBM	
						ITT	
						Leading Edge	
NCR			NCR			NCR	
			NEC			NEC	
			Prime				
UNISYS			UNISYS			UNISYS	
						Tandy	
			Texas Instruments			Texas Instruments	
			Wang			Wang	
						Zenith	

4. **If this product uses a computer system that is not listed in the above table, please provide the following information:**

	Manufacturer	Model
Mainframe	_____	_____
Minicomputer	_____	_____
Microcomputer	_____	_____

5. **Under which operating systems does this product operate?** *(please check all that apply)*

	Version		Version
☐ Macintosh	_____	☐ VAX/VMS	_____
☐ MSDOS/PCDOS	_____	☐ VM	_____
☐ MVS	_____	☐ VSE	_____
☐ RSTS	_____	☐ XENIX	_____
☐ UNIX	_____	☐ Other _____	_____

6. **Does this product function on a local area network?**
   - ☐ No
   - ☐ Yes

   If yes, please list the network(s)_____

7. **Is this product copyrighted?**
   - ☐ No
   - ☐ Yes

8. **Is this product in the public domain?**
   - ☐ No
   - ☐ Yes

9. **In what programming language(s) is this product written?**_____

10. **Is the software modifiable by the end user?**
    - ☐ No
    - ☐ Yes

11. **Please provide a short narrative of this software package, including pricing structure.**

_____

_____

12. Is the source code available to the end user?

- ☐ Yes, supplied with the product
- ☐ Yes, available to the end user, but not normally supplied with the product
- ☐ No, neither supplied nor available

13. What support services do you offer to users of this product? *(check all that apply)*

- ☐ User's Manual
- ☐ Technical/Reference Manual
- ☐ Demonstration Software
- ☐ Programming Svcs/Custom Mod.
- ☐ Computer Assisted Training
- ☐ Off-site Training
- ☐ On-site Training
- ☐ On-site Technical Support
- ☐ 24-hour Support
- ☐ Telephone-based Tech. Support
- ☐ Other *(please specify)* _____

14. What features does this product offer the end user? *Please list only functions which are a part of the application software, not additional capabilities which are a part of the operating system or language in which the system was developed.*

- ☐ Menu-driven user interface
- ☐ "Pop-up" windows
- ☐ Icon-driven user interface
- ☐ Supports mouse or light pen
- ☐ Supports "scroll" fields
- ☐ Log-in security features
- ☐ Application-level security features
- ☐ Data encryption security features
- ☐ Graphic output
- ☐ Color video output
- ☐ Ad hoc reports
- ☐ "Hot key" movement between system functions
- ☐ Ad hoc query language or SQL
- ☐ Query-by-example
- ☐ Exact-match searches
- ☐ "Wildcard" searches
- ☐ Sound alike searches
- ☐ Import/export data from/to other *systems*
- ☐ Context-sensitive help
- ☐ Import/export data from/to other *programs*
- ☐ On-line help
- ☐ Multiuser *file*-level data locking
- ☐ Multiuser record-level data locking
- ☐ Multiuser *field*-level data locking
- ☐ Other *(please specify)* _____

15. Does this product perform general administrative functions?

☐ No ☐ Yes

If yes, please indicate which functions are served *(check all that apply)*:

- ☐ Accounting
- ☐ Budgeting
- ☐ Payroll
- ☐ Personnel
- ☐ Planning
- ☐ Research/Statistics
- ☐ Resource Allocation
- ☐ Training
- ☐ Other *(please specify)*

16. **Which criminal justice discipline does this product *primarily* serve?** *(select only one)*

- ☐ Corrections
- ☐ Courts
- ☐ Law Enforcement
- ☐ Probation and Parole
- ☐ Prosecution
- ☐ Other (please specify) _____

17. **Please advance to the specific criminal justice discipline identified in question 16 and check all the functions the product performs.**

■ One function of the Clearinghouse is to refer agencies interested in a product to other agencies that are using it in an operational setting. To facilitate this referral process, please list up to three agencies using this software.

1. Agency Name _____

   Contact Name _____

   Address _____

   Telephone _____

2. Agency Name _____

   Contact Name _____

   Address _____

   Telephone _____

3. Agency Name _____

   Contact Name _____

   Address _____

   Telephone _____

■ Please complete the following section to describe your firm or agency. The contact person will be listed in the 1989 edition of the *Directory of Automated Criminal Justice Information Systems*. This should be the person who will be available to respond to inquiries from SEARCH staff and justice agencies.

Developer/Agency Name _____

Address _____

City _____

State _____ ZIP _____ Telephone _____

Contact Person _____ Title _____

■ In the event that a question arises during the processing of this survey, please provide the name, title, agency and telephone number of the person who completed this survey.

Name _____ Title _____

Agency _____ Telephone _____

Drugs & Crime Data Center & Clearinghouse
1600 Research Boulevard
Rockville, MD 20850

Bureau of Justice Statistics reports

(revised February 1990)

Call toll-free 800-732-3277 (local 301-251-5500) to order BJS reports, to be added to one of the BJS mailing lists, or to speak to a reference specialist in statistics at the Justice Statistics Clearinghouse, National Criminal Justice Reference Service, Box 6000, Rockville, MD 20850.

BJS maintains the following mailing lists:

- Law enforcement reports (new)
- Drugs and crime data (new)
- Justice spending & employment
- White-collar crime
- National Crime Survey (annual)
- Corrections (annual)
- Juvenile corrections (annual)
- Courts (annual)
- Privacy and security of criminal history information and information policy
- Federal statistics (annual)
- BJS bulletins and special reports (approximately twice a month)
- Sourcebook of Criminal Justice Statistics (annual)

Single copies of reports are free; use NCJ number to order. Postage and handling are charged for bulk orders of single reports. For single copies of multiple titles, up to 10 titles are free; 11-40 titles $10; more than 40, $20; libraries call for special rates.

Public-use tapes of BJS data sets and other criminal justice data are available from the National Archive of Criminal Justice Data (formerly CJAIN), P.O. Box 1248, Ann Arbor, MI 48106 (toll-free 1-800-999-0960).

National Crime Survey

Criminal victimization in the U.S.:
1987 (final report), NCJ-115524, 6/89
1986 (final report), NCJ-111456, 9/88

BJS special reports:
Hispanic victims, NCJ-120507, 1/90
The redesigned National Crime Survey: Selected new data, NCJ-114746, 1/89
Motor vehicle theft, NCJ-109978, 3/88
Elderly victims, NCJ-107676, 11/87
Violent crime trends, NCJ-107217, 11/87
Robbery victims, NCJ-104638, 4/87
Violent crime by strangers and nonstrangers, NCJ-103702, 1/87
Preventing domestic violence against women, NCJ-102037, 8/86
Crime prevention measures, NCJ-100438, 3/86
The use of weapons in committing crimes, NCJ-99643, 1/86
Reporting crimes to the police, NCJ-99432, 12/85
Locating city, suburban, and rural crime, NCJ-99535, 12/85
The risk of violent crime, NCJ-97119, 5/85
The economic cost of crime to victims, NCJ-93450, 4/84
Family violence, NCJ-93449, 4/84

BJS bulletins:
Criminal victimization 1988, NCJ-119845, 10/89
Households touched by crime, 1988, NCJ-117434, 6/89
Criminal victimization 1987, NCJ-113587, 10/88
The crime of rape, NCJ-96777, 3/85
Household burglary, NCJ-96021, 1/85
Measuring crime, NCJ-75710, 2/81

BJS technical reports:
New directions for the NCS, NCJ-115571, 3/89
Series crimes: Report of a field test, NCJ-104615, 4/87
Lifetime likelihood of victimization, NCJ-104274, 3/87
Response to screening questions in the NCS, NCJ-97624, 7/85
Redesign of the National Crime Survey, NCJ-111457, 3/89
The seasonality of crime victimization, NCJ-111033, 6/88
Crime and older Americans information package, NCJ-104569, $10, 5/87
Teenage victims, NCJ-103138, 12/86
Victimization and fear of crime: World perspectives, NCJ-93872, 1/85, $9.15
The National Crime Survey: Working papers, vol. I: Current and historical perspectives, NCJ-75374, 8/82
vol. II: Methodological studies, NCJ-90307, 12/84, $9.50

Corrections

BJS bulletins and special reports:
Prison rule violators, NCJ-120344, 12/89
Capital punishment 1988, NCJ-118313, 7/89
Prisoners in 1988, NCJ-116315, 4/89
Recidivism of prisoners released in 1983, NCJ-116261, 4/89
Drug use and crime: State prison inmate survey, 1986, NCJ-111940, 7/88
Time served in prison and on parole 1984, NCJ-108544, 12/87
Profile of State prison inmates, 1986, NCJ-109926, 1/88
Imprisonment in four countries, NCJ-103967, 2/87
Population density in State prisons, NCJ-103204, 12/86
State and Federal prisoners, 1925-85, 102494, 11/86
Prison admissions and releases, 1983, NCJ-100582, 3/86
The prevalence of imprisonment, NCJ-93657, 7/85
Examining recidivism, NCJ-96501, 2/85

Correctional populations in the U.S.: 1987, NCJ-118762, 12/89
1986, NCJ-111611, 2/89
1985, NCJ-103957, 8/87
Historical statistics on prisoners in State and Federal institutions, yearend 1925-86, NCJ-111098, 6/88
1984 census of State adult correctional facilities, NCJ-105585, 7/87
Historical corrections statistics in the U.S., 1850-1984, NCJ-102529, 4/87

Census of jails and survey of jail inmates.
BJS bulletins and special reports:
Census of local jails, 1988 (BJS bulletin), NCJ-121101, 2/90
Jail inmates, 1987, NCJ-114319, 12/63
Drunk driving, NCJ-109945, 2/88
Jail inmates, 1986, NCJ-107123, 10/87
The 1983 jail census, NCJ-95536, 11/84

Census of local jails, 1983: Data for individual jails, vols. I-IV, Northeast, Midwest, South, West, NCJ-112795-9; vol. V, Selected findings, methodology, summary tables, NCJ-112795, 11/88
Our crowded jails: A national plight, NCJ-111846, 8/88

Parole and probation

BJS bulletins:
Probation and parole: 1988, NCJ-119970, 11/89
1987, NCJ-113948, 11/88
1986, NCJ-106012, 12/87
Setting prison terms, NCJ-76218, 8/83

BJS special reports
Time served in prison and on parole, 1984, NCJ-108544, 1/88
Recidivism of young parolees, NCJ-104916, 5/87

Children in custody

Census of public and private juvenile detention, correctional, and shelter facilities, 1975-85, NCJ-114065, 6/89
Survey of youth in custody, 1987 (special report), NCJ-113365, 9/88
Public juvenile facilities, 1985 (bulletin), NCJ-102457, 10/86

Law enforcement management

BJS bulletins and special reports:
Police departments in large cities, 1987, NCJ-119220, 8/89
Profile of State and local law enforcement agencies, NCJ-113949, 3/89

Expenditure and employment

BJS bulletins:
Justice expenditure and employment: 1985, NCJ-104460, 3/87
1983, NCJ-101776, 7/86

Anti-drug abuse formula grants: Justice variable pass-through data, 1988 (BJS technical report), NCJ-120070, 2/90
Justice expenditure and employment: 1985 (full report), NCJ-106356, 8/89
Extracts, 1982 and 1983, NCJ-106628, 8/88
Extracts, 1980 and 1981, NCJ-96007, 6/85

Courts

BJS bulletins:
Felony sentences in State courts, NCJ-115210, 2/89
Criminal defense for the poor, 1986, NCJ-112919, 9/88
State felony courts and felony laws, NCJ-106273, 8/87
The growth of appeals: 1973-83 trends, NCJ-96381, 2/85
Case filings in State courts 1983, NCJ-95111, 10/84

BJS special reports:
Felony case-processing time, NCJ-101985, 8/86
Felony sentencing in 18 local jurisdictions, NCJ-97681, 6/85
The prevalence of guilty pleas, NCJ-96018, 12/84
Sentencing practices in 13 States, NCJ-95399, 10/84

Profile of felons convicted in State courts, 1988, NCJ-120021, 1/90
Sentencing outcomes in 28 felony courts, NCJ-105743, 8/87
National criminal defense systems study, NCJ-94702, 10/86
The prosecution of felony arrests: 1986, NCJ-113248, 6/89
1982, NCJ-106990, 5/88
Felony laws of the 50 States and the District of Columbia, 1986, NCJ-105066, 2/88
State court model statistical dictionary, Supplement, NCJ-98326, 9/85
1st edition, NCJ-62320, 9/80

Privacy and security

Compendium of State privacy and security legislation:
1987 overview, NCJ-111097, 9/88
1987 full report (1,497 pages, microfiche $2, hard copy $145), NCJ-113021, 9/88

Criminal justice information policy:
BJS/SEARCH conference proceedings: Juvenile and adult records: One system, one record?, NCJ-114947, 1/90
Open vs. confidential records, NCJ-113560, 1/88
Data quality policies and procedures, NCJ-101849, 12/86
Strategies for improving data quality, NCJ-115339, 8/89
Public access to criminal history record information, NCJ-111458, 11/88
Juvenile records and recordkeeping systems, NCJ-112815, 11/88
Automated fingerprint identification systems: Technology and policy issues, NCJ-104342, 4/87
Criminal justice "hot" files, NCJ-101850, 12/86
Crime control and criminal records (BJS special report), NCJ-99176, 10/85
State criminal records repositories (BJS technical report), NCJ-99017, 10/85
Data quality of criminal history records, NCJ-98079, 10/85

Drugs & crime data:

Drugs and crime facts, 1989, NCJ-121022, 1/90
Drugs & crime data center & clearinghouse brochure, BC-000125, 11/89
Rolodex card, 800-666-3332, BC-100, 8/88

Computer crime

BJS special reports:
Electronic fund transfer fraud, NCJ-96666, 3/85
Electronic fund transfer and crime, NCJ-92650, 2/84

Electronic fund transfer systems fraud, NCJ-100461, 4/86
Electronic fund transfer systems and crime, NCJ-83736, 9/82
Expert witness manual, NCJ-77927, 9/81, $11.50

Federal justice statistics

Compendium of Federal justice statistics 1984, NCJ-112816, 9/89
The Federal civil justice system (BJS bulletin), NCJ-104769, 7/87
Employer perceptions of workplace crime, NCJ-101851, 7/87, $6

Federal offenses and offenders

BJS special reports:
Federal criminal cases, 1980-87, NCJ-118311, 7/89
Drug law violators, 1980-86, NCJ-111763, 6/88
Pretrial release and detention: The Bail Reform Act of 1984, NCJ-109929, 2/88
White-collar crime, NCJ-106876, 9/87
Pretrial release and misconduct, NCJ-96132, 1/85

BJS bulletins:
Bank robbery, NCJ-94463, 8/84
Federal drug law violators, NCJ-92692, 2/84

General

BJS bulletins and special reports:
Criminal cases in five states, 1983-86, NCJ-118798, 9/89
International crime rates, NCJ-110776, 5/88

Criminal justice microcomputer guide and software catalog, NCJ-112178, 8/88
Proceedings of the third workshop on law and justice statistics, NCJ-112230, 7/88
Publications of BJS, 1971-84, 10/86:
Topical bibliography, TB030012, $17.50
Microfiche library, PR030012, $203.00
National survey of crime severity, NCJ-96017, 10/85
Criminal victimization of District of Columbia residents and Capitol Hill employees, 1982-83, NCJ-97982;

See order form on last page

Please put me on the mailing list for—

- ☐ **Law enforcement reports**—national data on State and local police and sheriffs' departments: operations, equipment, personnel, salaries, spending, policies, programs
- ☐ **Federal statistics**—data describing Federal case processing, from investigation through prosecution, adjudication, and corrections
- ☐ **Drugs and crime data**—sentencing and time served by drug offenders, drug use at time of crime by jail inmates and State prisoners, and other quality data on drugs, crime, and law enforcement
- ☐ **Justice expenditure and employment reports**—annual spending and staffing by Federal/State/local governments and by function (police, courts, etc.)
- ☐ **White-collar crime**—data on the processing of Federal white-collar crime cases
- ☐ **Privacy and security of criminal history information and information policy**—new legislation; maintaining and releasing intelligence and investigative records; data quality issues
- ☐ **Juvenile corrections reports**—juveniles in custody in public and private detention and correctional facilities
- ☐ **BJS bulletins and special reports**—timely reports of the most current justice data
- ☐ **Prosecution and adjudication in State courts**—case processing from prosecution through court disposition, State felony laws, felony sentencing, criminal defense
- ☐ **Corrections reports**—results of sample surveys and censuses of jails, prisons, parole, probation, and other corrections data
- ☐ **National Crime Survey reports**—the only regular national survey of crime victims
- ☐ **Sourcebook of Criminal Justice Statistics** (annual)—broad-based data from 150+ sources (400+ tables, 100+ figures, subject index, annotated bibliography, addresses of sources)
- ☐ Send me a form to sign up for **NCJ Reports** (free 6 times a year), which abstracts both private and government criminal justice publications and lists upcoming conferences and training sessions in the field.

To be added to any BJS **mailing list**, please copy or cut out this page, fill in, fold, stamp, and mail to the Justice Statistics Clearinghouse/NCJRS.

You will receive an annual renewal card. If you do not return it, we must drop you from the mailing list.

To order copies of **recent BJS reports**, check here ☐ and circle items you want to receive on other side of this sheet.
