DEDICATION

This 1989 Crime in Kentucky Report is fittingly dedicated to

Officer Franklin W. Pysher
Jefferson County Police Department
Detective Shelby W. Nease
CSX Railroad Corporation
and
Officer Terry Sanders
Mayfield Police Department

WHO PAID THE SUPREME SACRIFICE OF THEIR LIVES ON BEHALF OF THE CITIZENS OF THE COMMONWEALTH.

Officer Franklin W. Pysher

Detective Shelby V. Nease

Officer Franklin W. Pysher began his police career in 1968 with the Shively Police Department. In his nearly seventeen years with the Jefferson County Police Department, he served in the Old Charlie District on Dixie Highway, in the Traffic Unit, as a Canine Unit Officer and most recently as a Patrolman in Baker District in South Central Jefferson County.

Shortly after noon on January 19, 1989, Officer Pysher was dispatched to the area of Smyrna Road and KY 841, to investigate a man with a gun walking along the road. When his backup unit arrived, Officer Pysher was found slumped over in his police vehicle shot twice in the head. Officer Pysher was 42 years of age.

Officer Pysher is survived by his wife, Pam, a son, Tim, a daughter, Tasha and a step-daughter, Angela Young.

Detective Shelby W. Nease, age 46, began his career in 1965 with the Kentucky State Police, serving as a Trooper until 1971 when he joined the CSX Railroad Corporation. Most recently he was assigned to the Hazard Office of CSX and investigated cases in a multi-county area surrounding the Hazard office. Detective Nease attended Pikeville Community College and Eastern Kentucky University and he was a member of the Hazard F.O.P.

On July 18, 1989, Detective Nease was investigating the theft of copper wire from CSX Right of Ways when he recognized the suspects in a vehicle in the Cranks Creek area of Harlan County. After a chase into a hollow, Detective Nease attempted to arrest the suspects but he was overpowered by the suspects and killed. Arrests have been made in the case.

Detective Nease is survived by his wife, Brenda and two (2) daughters ages 11 and 15.

Officer Terry Sanders began his law enforcement career in May of 1988 as a Deputy with the Graves County Sheriff's Department. He joined the Mayfield Police Department on November 1, 1988. Officer Sanders held an Associate Degree in Police Administration and was completing work on his B.A. Degree. Officer Sanders was a member of the Mayfield Graves County Jaycees and the Graves County Rescue Squad.

Officer Sanders was returning from an assignment in Daytona Beach where he had been investigating the disappearance of a Mayfield woman, when the airplane he was aboard crashed and burst into flames, killing him and his wife, Melissa, and four others. (Photo not available)

KENTUCKY'S CRIME REPORTING SYSTEM

KENTUCKY'S CRIME REPORTING SYSTEM

The Information Vacuum

Prior to July of 1987, Kentucky's Uniform Crime Reporting System was based on monthly counts of criminal offense and arrests submitted from state and local law enforcement agencies. While these aggregate counts were adequate for broad analysis of general crime trends, this summary method of reporting offense and arrest occurrences did not provide the necessary tools for the detailed analytical needs of Criminal Justice Professionals, The Law Enforcement Community and Kentucky Legislators.

The Initial Step

On July 1, 1987 Kentucky law enforcement agencies were required to submit "Incident" as opposed to "Summary" information within ten days of an occurrence. In essence, full detail crime specifics as opposed to mere counts of occurrences are provided to the Kentucky State Police for inclusion into a statewide database of crime statistics. Historically, this reporting requirements marked the genesis of Law Enforcement Agency submission of either the Uniform Offense Report Form or the Uniform Data Elements as contained on that statewide reporting form.

As a result of the Incident Reporting System initiative, non-automated Law Enforcement Agencies are now attaining computer capabilities through grant funds, while agencies with existing computer systems are moving toward Incident Base compatibility with funding assistance from the Justice Cabinet and the Kentucky State Police.

While not complete, Kentucky's Incident Based Reporting System has made significant strides toward full implementation since July 1, 1987.

Cooperation: The Key To The Incident Based Reporting

Kentucky's Law Enforcement Agencies are slowly but surely beginning to meet the challenge of an Incident Based Reporting System through the submission of Uniform Offense Reports or computer compatible data elements.

District Court Clerks are, through the completion of the Uniform Citation with Court Disposition, providing the arrest information needed to complete the Incident Based Reporting System.

All components of the Criminal Justice Community, Law Enforcement, Corrections, and the Judiciary are moving toward compatibility through Legislative initiatives that mandate the foundation for a system of information that will, in the near future, provide detailed analytical capabilities.

Just The Beginning

The Criminal Justice Community of Kentucky has embarked upon a path that will provide complete and accurate information that soon will be available in a timely fashion.

Dedication on the part of Law Enforcement, Courts, the Executive Branch, and Kentucky's Legislators, to the task of implementing and maintaining an Incident Based Reporting System, will provide decision makers in Kentucky the ability to set the Criminal Justice direction for the 1990's and beyond.

The total number of Part I crimes reported by law enforcement agencies in Kentucky during 1989 and 1988 is shown in the chart above. It should be noted that these overall statistics reflect only offenses reported to or known by the police.

The reader is cautioned against drawing conclusions from a comparison of previous year and current year statistics for Part I crimes for the following reasons: 1) Part I offenses are not inclusive of all offenses reported to the police; 2) Increases or decreases in the number of crimes reported can be attributable to a variety of factors, including methods of reporting and tabulating on the part of the law enforcement agencies; 3) Differing levels of citizens' awareness and their responsibilities to report crime.

NOTE: Kentucky is presently undergoing changes in crime reporting procedures in order to meet federal, state, and local needs. Some adjustments are already in effect. While these adjustments improve the accuracy of crime reporting, comparisons of 1989 and previous years' data should be made with caution.

KENTUCKY "CRIME INDEX" 1989 = 3,149.02

The crime index, or rate, is used nationally and is derived from the following formula:
Population divided by 100,000 = X.
Number of offenses divided by X = crime index.
Kentucky's crime index for 1989 is based on current estimated population of 3.7 million.

> **A serious crime occurs in Kentucky every 4.39 minutes**

CRIME TRENDS

CRIME TRENDS: Annual fluctuations in the number of reported crimes can be attributed to a variety of factors other than real changes in actual crime. Such factors notwithstanding, the right-hand chart illustrates patterns of reported Part I crimes between 1980 and 1989. The relationship between property and violent crimes is also depicted in the right-hand chart.

The lower charts plot each violent and property offense, showing fluctuations between 1980 and 1989.

CLEARANCE RATES

Clearance rates are the percentage of cases cleared (through arrest or exceptional means) when compared with the total number of offenses reported to or known by the police. As shown in the chart, clearance rates for property crimes are traditionally low. With the exception of robbery, clearance rates for violent crimes are high. High clearance rates for murder, rape, and assault are attributable to the fact that the perpetrator is known, recognizable, or in some way usually associated with the victim. Low clearance rates for robbery as well as property crimes can be attributed to the difficulty of the victim in identifying the perpetrator.

The right-hand chart depicts the relative clearance rates of property versus violent Part I crimes.

The chart below depicts relative clearance rates for each of the seven Part I crimes.

MURDER

DEFINITION

Murder is the unlawful killing of a human being with malice aforethought. Traffic deaths due to negligence and justifiable homicides are not included.

NUMBER REPORTED	CLEARANCES	RATE
249	191	77%

Murder is the most serious of all Part I crimes. The clearance rate is the highest of all Part I crimes, at 77%. Although some murders are difficult to solve, the intensity of police investigations together with solvability factors account for the high clearance rate for murder.

As illustrated in the map below, the 51 murders reported in Jefferson County in 1989 far outnumber murders reported in other individual counties.

MURDER WEAPONS

The type weapons used in the 249 murders reported in Kentucky during 1989 are shown in the right-hand chart.

60.2% of the victims were killed with a firearm. A knife or other cutting instrument was used in 10.4% of the murders. In 30 of the murders (unknown category), the law enforcement agency did not specify the weapon used, or it was not known at the time the offense report was submitted.

MURDER VICTIMS
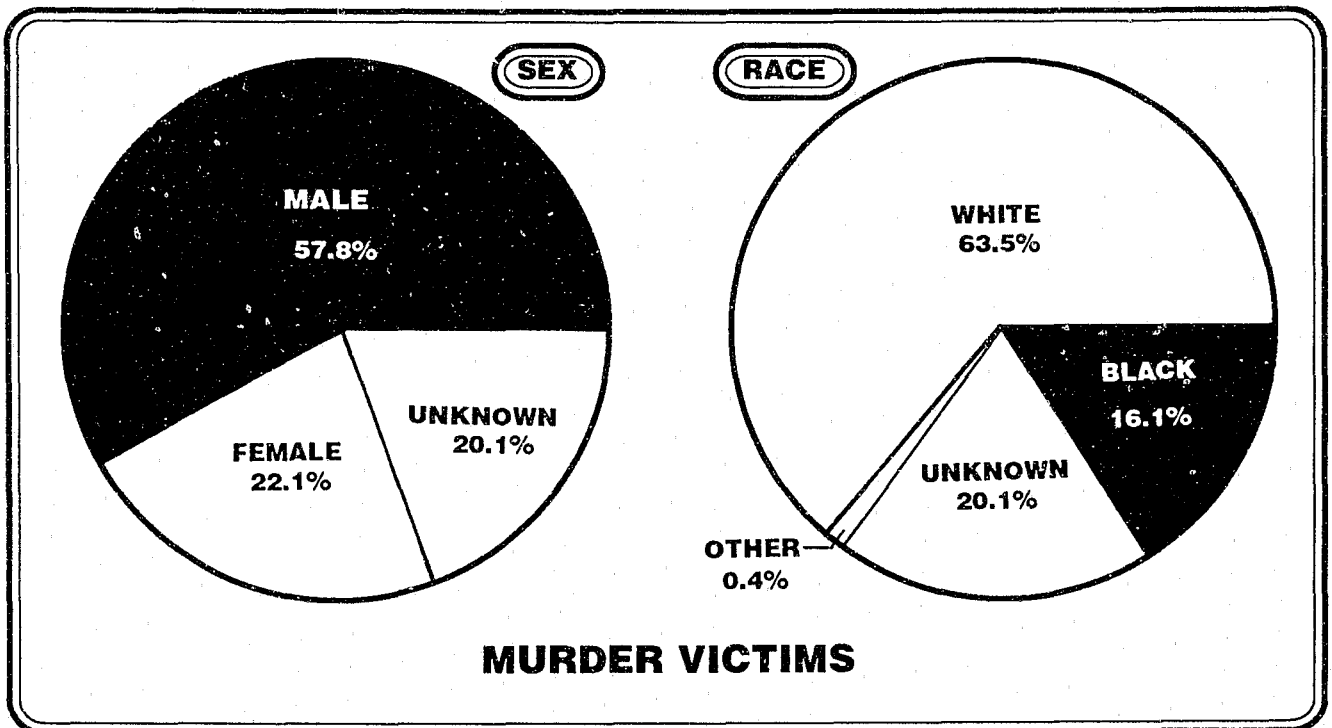

RAPE

DEFINITION

Rape is defined as the carnal knowledge of a person forcibly or otherwise against the person's will. Only forcible rapes are included, together with assaults for the purpose of rape and attempted forcible rapes. Excluded are rapes where the victim is under the age of consent and no force is used.

NUMBER REPORTED	CLEARANCES	RATE
829	493	59%

The 59% clearance rate for rape is high when compared with property crimes and some other offenses. One explanation for the number of rapes cleared is the fact that the victim and the offender are frequently acquainted or even related.

The 207 rapes reported in Jefferson County is almost double that of the next highest county, which is Fayette, with 106 reported rapes. Many counties were affected by rape, as shown in the map below.

RAPE

Rape was committed every 10.6 hours
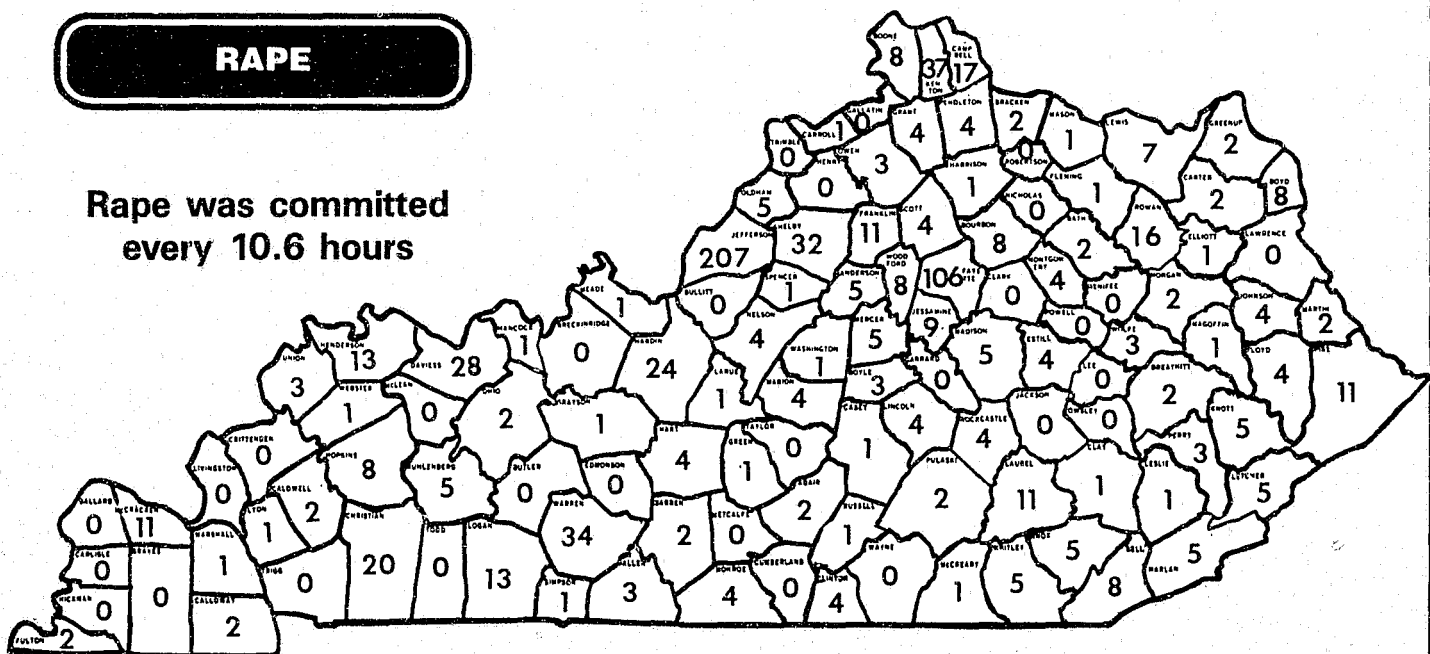

ROBBERY

DEFINITION

Robbery is the felonious taking of the property of another by force or the threat of force or violence and/or by putting the victim in fear. All attempts to rob are included. Robberies are reported in two general categories: armed (any weapon or threatening object is used) and strong-arm (to include muggings and similar offenses where no weapon is used but strong-arm tactics are employed).

NUMBER REPORTED	CLEARANCES	RATE
2,706	844	31%

Robbery is considered to be a serious crime because the element of fear and personal confrontation with a weapon or strong-arm tactic is always present. The 31% clearance rate for robbery is slightly higher than for other crimes motivated by the theft of property, but low in comparison to murder, assault, and rape which the element of personal confrontation is also present. This is attributable to the fact that the perpetrator usually conceals his personal identity from the victim. A county by county breakdown of robbery can be seen in the map below.
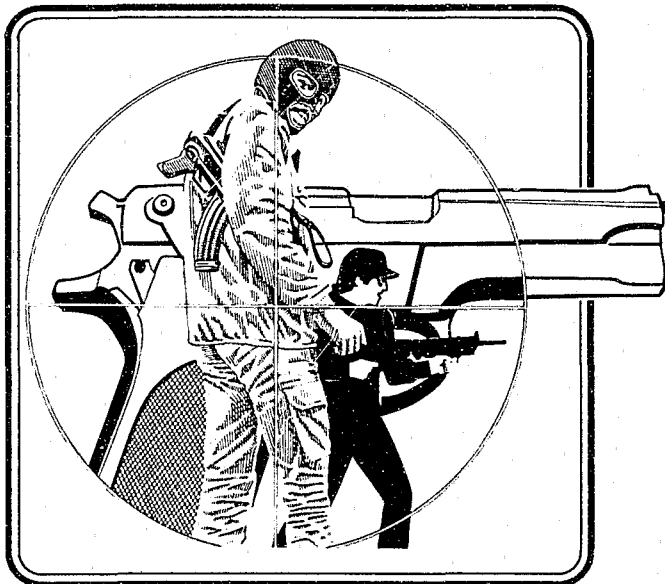

ROBBERY

Robbery was committed every 3.2 hours
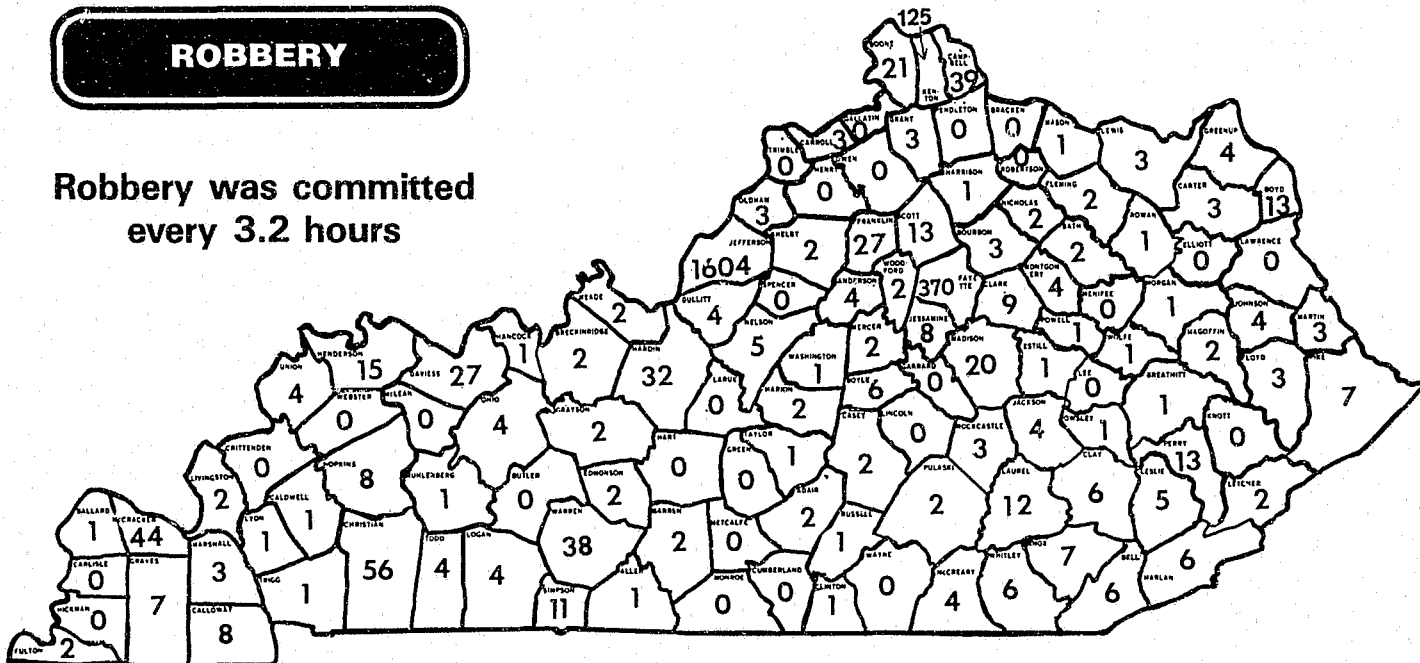

ROBBERY — PLACE OF OCCURRENCE

CLASSIFICATION	NUMBER OF OFFENSES	PERCENT OF DISTRIBUTION	TOTAL VALUE	AVERAGE VALUE

TOTAL	2,706	100	$ 1,762,537	$ 651

Robbery classifications denote the type robbery reported. Highway robberies occur on any roadway, whether it be a highway, country road, or city street. Commercial house robberies are those perpetrated in hotels, motels, restaurants, and like businesses. Chain store robberies include convenience type stores, groceries, and like businesses. Residences include homes and apartments and other dwellings.

WEAPONS USED IN ROBBERY

Weapons used in the commission of a robbery can be a gun, knife, club, stick, or any force (such as hands) presumed to threaten the victim with injury or death. The percentages of various weapons used in 1989 robberies are shown in the chart.

AGGRAVATED ASSAULT

DEFINITION

Assault is the unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could, and probably would, result in serious personal injury. Therefore, all assault attempts where serious injury would have been likely to occur are included. Excluded from the Part I crime of aggravated assault are all assaults which do not include the use of a dangerous weapon and in which there was no serious or aggravated injury. These simple assaults are counted as Part II crimes.

NUMBER REPORTED	CLEARANCES	RATE
8,609	5,121	59%

The 59% clearance rate is high because the victim is frequently related to or acquainted with the assailant. The map below shows the number of assaults per county.

BURGLARY

DEFINITION

Burglary is the unlawful entering or remaining in a building with the intent to commit a crime, including entries where force of any kind is used to gain entrance, entries where no force was used (an unlocked door or by concealment), and attempts to enter forcibly (even though entry was not actually gained.)

NUMBER REPORTED	CLEARANCES	RATE

LARCENY

DEFINITION

Larceny, or larceny-theft, is the unlawful taking of property or articles of value without the use of force, violence, or fraudulent conversion. Included are such offenses as pocket picking, purse snatching (where little or no force is used), shoplifting, thefts from autos, thefts of auto parts and accessories, bicycle thefts, and thefts from buildings when the perpetrator entered legitimately. Con games, forgeries and bad checks, embezzlement, and obtaining money under false pretenses are not included under the category of larceny.

NUMBER REPORTED	CLEARANCES	RATE
67,984	13,933	20%

Larceny is the most frequently committed Part I crime. Other than the stolen property itself, there are normally few clues on which to base an investigation. Consequently, the clearance rate for larceny is low-20% in 1989.

Most of Kentucky's counties reported substantial instances of larceny as illustrated in the map below.

STATE ARREST TOTAL	249,161

Total arrests figures for 1989 show an increase of 25,523 arrests over 1988. This 11% increase is primarily due to improved reporting processes on the part of both law enforcement agencies and the court system. The many agencies with "ICAP" computer hardware are now entering arrest data directly from the agency copy of the Uniform Citation. These agencies are also entering disposition data from the court copy of the citation form. The State Police Records Section continues to enter both agency and court arrest data directly and, as well, enters arrest data and disposition from the court copy of the citation for all felonies and misdemeanors for all local police departments which do not have their own computer. It must be noted that arrest data for these non-computerized agencies are derived solely from the court copy, with the exception of DUI arrests which these agencies report directly to the KSP Records Section.

In summary, because of the new process for capturing arrest data, the increases shown (1989 vs. previous years) should be interpreted in light of the new process.
