UNITED STATES COURTS

WASHINGTON, D.C. 20544

MESSAGE FROM THE DIRECTOR

In 1990, filings, terminations and pending cases in the U.S. courts of appeals continued a 6 year increase. Filings were up 3 percent to 787 filings per three-judge panel. Terminations also increased 3 percent to 741 per panel. With filings slightly outnumbering terminations in 1990, the pending caseload per panel rose 8 percent to 623 cases per panel. Despite the increase in filings, the median time from filing to disposition in the courts of appeals decreased to 10.1 months in 1990.

Criminal appeals have been the major factor in the increase in filings, rising 19 percent to 183 filings per panel. The emphasis on drug related cases in the district courts and the Sentencing Guidelines combined to have a dramatic influence on criminal appeals in recent years. As a result of these two factors, criminal appeals have risen 91 percent since 1985. Civil appeals excluding prisoner petitions, declined 2 percent in 1990 to 363 filings per panel. This decrease in civil appeals reflects the 2 year decline in civil cases at the district court level.

In the district courts, total filings decreased 5 percent to 437 per judgeship and total weighted filings decreased 4 percent to 448 per judgeship, the fewest since 1982. Terminations followed the same trend, falling 7 percent to 423 terminations per judgeship. The pending caseload increased 3 percent to 474 cases per judgeship.

The decrease in civil filings, primarily due to the increase in the jurisdictional amount for diversity cases from \$10,000 to \$50,000, was the principal cause for the decline in both total filings and total weighted filings. Civil filings decreased 7 percent to 379 per judgeship, the lowest total since 1981. Criminal felony filings, however, increased 9 percent in 1990 to 58 cases per judgeship, reflecting the continuing increase in drug cases.

The profile pages in the report provide a more detailed summary of the workload of the courts of appeals and district courts on both a national (see pg. 29 and pg. 167) and local court basis. Refer to the following three pages that explain the data contained in the profile pages. We welcome any comments you may have on the content and format of this report.

ACTIONS PER PANEL

The workload statistics for the courts of appeals are presented as "actions per panel" as compared to the "actions per judgeship" profile used for the district courts. This type of profile provides a more accurate indication of the workload of an individual judge since appeals cases are generally handled by a panel of three judges rather than a single judge.

CIRCUIT'S NUMERICAL STANDINGS

All twelve circuit courts of appeals have been arranged in a ranked order with respect to the statistical indices of workload or performance found on the profile. This shows where an individual court of appeals workload condition stands in relationship to all other circuit courts of appeals.

MEDIAN TIMES (MONTHS)

From Filing to Disposition	Criminal Felony	For all criminal felony defendants and all civil cases except land condemnation, prisoner petitions, recovery of overpayments, enforcement of judgments, and deportation reviews terminated during the year whether by trial or other disposition. For all criminal felony defendants time is computed from the filing date to either the sentencing date or the dismissal/acquittal date including excludable delays reported under the Speedy Trial Act. When the District had less than 10 terminations the median case was not computed.
	Civil**	
From Issue to Trial (Civil Only)		For civil cases, except land condemnation, going to a trial during profile years, this figure shows the time interval in months for the middle (median) case. Time is computed from the date the answer or response is filed to the date trial begins.

WHAT THE DISTRICT'S NUMERICAL STANDINGS MEAN

These show where an individual district court stands in relation to other district courts in the circuit and in the country. All "workload" statistics are ranked in descending order (highest value receives rank of 1) and all other statistics are ranked in ascending order (lowest value is ranked first). In some categories fewer than 94 courts are ranked because the information was not available for all districts.

WEIGHTED FILINGS

The weighted filings figures were based on weights developed from the 1979 Time Study conducted by the Federal Judicial Center. A detailed discussion of that project can be found in the 1979 Federal District Court Time Study, published by the FJC in October 1980. Also, a historical statement about weighted caseload studies completed in the U.S. district courts appears in the 1980 Annual Report of the Director, pages 290 through 296.

CIVIL MEDIAN TIME

Civil median times shown for all six years on the profile pages exclude not only land condemnation, prisoner petitions, and deportation reviews, but also all recovery of overpayments and enforcement of judgments cases. The large number of these recovery/enforcement cases (primarily student loan and VA overpayments) are quickly processed by the courts and would shorten the median times in most courts by approximately one month. Excluding these cases gives a more accurate picture of the time it takes for a case to be processed in the Federal courts.

TRIALABLE FELONY DEFENDANTS IN PENDING CRIMINAL CASES

Triable defendants include defendants in all pending felony cases who were available for plea or trial on June 30, as well as those who were in certain periods of excludable delay under the Speedy Trial Act. Excluded from this figure are defendants who were fugitives on June 30, awaiting sentence after conviction, committed for observation and study, awaiting trial on state or other Federal charges, mentally incompetent to stand trial, or defendants for whom an authorization of dismissal had been requested by the U.S. Attorney to the Department of Justice.
