**COUNTY DETENTION FACILITIES:
INMATE PROFILE SUMMARY
OCTOBER - 1990**

ABSTRACT

The County Detention Facilities Summary provides a monthly profile of Florida's detention facilities inmate population. Average daily population figures for October 1990, are collapsed into male and female categories for both adult and juvenile inmates. These population figures are also categorized into felony, misdemeanor and "other" subcategories in order to facilitate interpretation. Within both felony and misdemeanor subcategories the number of inmates held for trial or sentencing and those detained or sentenced for violation of probation are presented for October, 1990. The "other" subcategory documents the number of parole violators, state inmates, undocumented aliens, holdings for other jurisdictions and individuals detained under the Baker (mental health) and Myers (alcoholism) Acts. In addition, the average daily population figures, the incarceration rates for each county, the number of overcrowded county detention facilities and the pretrial inmate levels for each facility are included in this report. County detention facilities with amended capacities since September, 1990 are denoted in Table 3.

COUNTY DETENTION FACILITIES:
PROFILE DATA SUMMARY
OCTOBER - 1990

Average Daily Population

On the average, there were 34,634 inmates in Florida's county detention facilities during the month of October, 1990. This figure represents a 0.5 percent increase in the inmate population from that reported for September, 1990. The statewide average daily population (ADP) totals for October, 1990 include 30,094 adult males (86.9%), 3,706 adult females (10.7%), and 834 juvenile offenders (2.4%). The overall distribution of male and female inmates has remained fairly constant in county detention facilities for the past four years. The following provides an analysis of the inmate population for October, 1990:

- * 75.1% of the total inmate population were incarcerated for felony offenses, while 20.0% were detained for misdemeanor crimes. All others confined included 4.9% .
- * Offenders held for trial represented 60.4% of the inmate population and 24.8 percent were sentenced on either felony or misdemeanor crimes.
- * Inmates detained for violation of probation represented 7.8% of the inmate population
- * The remaining 7.0% were various groups as listed in Table 1.

Incarceration Rates

In October of 1990, the statewide county detention incarceration rate was 2.6 per 1,000 county residents based

on the population estimate for 1990-91. Incarceration rates range from a low of 0.7 in Charlotte County to a high of 8.7 per 1,000 population in Hamilton County. Hamilton County's extremely high incarceration rate is the direct result of holding a large proportion of their inmate population for the U.S. Marshals Service. Several other counties may also be experiencing high incarceration rates due to the contracting of bed space.

Overcrowding: Capacity Versus Population

In October, 1990, 32.83 percent (22) of the counties in the State of Florida had average daily inmate populations which exceeded their Department of Corrections (DC) rated capacity. Out of Florida's 67 counties, seventeen (25.37%) had average daily inmate populations that were between 1 and 25 percent over their DC rated capacity, 5.97 percent (4) had inmate daily averages that were between 26 and 50 percent over capacity, 1.49 percent (1) of Florida's 67 counties had an average daily inmate population which exceeded the rated capacity by 50 percent or more. Forty five (67.17%) of Florida's counties were at or below capacity.

Pretrial Population Levels

During the month of October, 1990, 20,918 of the inmates housed in county detention facilities were classified as awaiting trial. Of these 20,918 offenders, 85.6% were awaiting trial for felony offenses while 14.4% were detained for misdemeanor violations.
