# Introduction

The National Criminal Justice Thesaurus contains listings of descriptors or terms used to index literature in the National Institute of Justice/NCJRS document database and to retrieve information about the literature for users of the service. Term selection is based on the vocabulary used in documents entering the National Criminal Justice Reference Service system, on the frequency of term usage in the literature, and on the language of the user community. The 5-digit number assigned to each term is used as a descriptor code when searching on that term.

## SUBSTANTIVE DESCRIPTORS AND RELATED ENTRIES

The order in which notations appear under a descriptor, when appropriate, is as follows:

SN	SCOPE NOTE
UF	USED FOR
BT	BROADER TERM
NT	NARROWER TERM
RT	RELATED TERM

A *SCOPE NOTE* (SN) may define or limit the specific use of a term in the NCJRS system. A typical *SCOPE NOTE* is included under the term "*Miranda rights*" which is found in the example under *RELATED TERM* below. It may be a true definition, may place a positive or negative limitation on usage, or may combine definition and some limitations.

Two types of terms are listed: descriptors and synonyms or near synonyms. Descriptors are authoritative terms that are acceptable for indexing and searching. A *USE* entry follows synonyms or near synonyms of descriptors. The entry directs the user to the preferred valid descriptor for communicating with the system. Synonymous entries appear solely to provide as many points of entry to the Thesaurus as possible. The importance of the *USE* entry extends beyond synonymy. The entry can represent the relationship to a descriptor of a near synonym with general conceptual similarity. A *USE* entry provides a valid descriptor term synonymous with or approximating the concept of the term referenced. For example:

**Remote terminals**  
**USE Terminals (computer)**

The *USED FOR* (UF) entry is the reverse of the *USE* entry. This entry shows the user that the descriptor includes the concept represented by the *USE* entry. For example:

01027 Terminals (computer)  
UF Remote terminals

A **NARROWER TERM (NT)** entry denotes a hierarchical relationship between the main descriptor and a descriptor that belongs in the same class, but is on a lower level; that is, the narrower term is more specific. For example:

01777    **Hallucinogens**  
00616    **NT LSD (acid)**  
05131    **NT PCP (phencyclidine hydrochloride)**  
01450    **NT Peyote**

A **BROADER (BT)** entry is also a hierarchical notation, and is the reciprocal of the NT notations. A BT entry indicates that the descriptor is in the same class, but that it is on a higher level in the hierarchy. For example:

01450    **Peyote**  
04632    **BT Controlled drugs**  
01777    **BT Hallucinogens**

The **RELATED TERM (RT)** entries perform two functions, only one of which is concerned with the scope of the main entry. A term listed as RT may clarify scope, that is, provide further definition of the main descriptor entry. The alternate function is to alert the user to other terms and thus provide additional points of reference. For example, to illustrate the two-sided RT relationship:

04183    **Arrest and apprehension**  
04985    **RT Arrest warrants**  
02462    **Citizen arrests**  
05069    **Crimes in progress**  
04816    **Lawful use of force**  
00624    **Manhunt**  
05208    **Miranda rights**  
05136    **Police pursuit driving**  
08578    **Probable cause**

05208    **Miranda rights**  
          **SN (Predetention rights of the accused as required**  
          **by the US Supreme Court ruling)**

04183    **RT Arrest and apprehension**  
04197    **Constitutional rights and civil lib/**  
02879    **Rights of the accused**

Every hierarchical and collateral entry has a reciprocal entry elsewhere in the Thesaurus.

**ARRAY TERMS** are very broad terms (e.g., *Equipment/*, *Facilities/* and *Programs/*;) which are considered to be too general to be of much value in indexing or retrieval. Such terms have been appended with a slash (/); and whenever possible a more specific term should be used in lieu of this term. The following

standard *SCOPE NOTE* is used in conjunction with all array terms; "Use of a more specific term is recommended; consult the term listed below." The listing of RT references following each array term refers the reader to all terms at the next lower level of specificity (but not the the still lower levels of specificity).

## HOW TO USE THE THESAURUS

### Alphabetization

Terms are alphabetized on a letter-by-letter basis. All spaces, hyphens, and other signs which may appear within the term are ignored, except the left parenthesis "(", which precedes "a." The example below demonstrates this exception.

UF Hypnosis (questioning under)  
Hypnosis of victim or witness  
Hypnosis in investigation

### Selecting the Most Specific Descriptor

To avoid retrieving irrelevant documents and to assure full retrieval of target information, you should always select the most specific thesaurus descriptor of the concept for which you are searching. Because documents are indexed to the narrowest applicable term within a hierarchy, a search on a broader term only will not retrieve the documents indexed to the narrower terms.

### Search Examples

Suppose you wish to find documents about "*juvenile delinquents*" in the NCJRS database. The Thesaurus can help pinpoint the appropriate term or terms for your search. You might begin by checking the rather general term *Delinquents*, in which case you would find the following entry:

**Delinquents (juvenile)**  
**USE Juvenile delinquents**

This citation indicates that the term *Juvenile delinquents* is the preferred descriptor for indexing and retrieval. Turning to the preferred term, you will find the following list of cross-references.

01637 Juvenile delinquents  
UF Delinquents (juvenile)  
03990 BT Juveniles  
02409 NT Emotionally disturbed delinquents  
05119 Female juvenile delinquents  
09416 Handicapped delinquents  
05425 Male juvenile delinquents  
09322 Mentally retarded delinquents

09323		Middle class juvenile delinquents
05261	RT	Alternative schools
01308		Auto theft
03822		Confrontation tactics
05049		Crime in schools
04698		Drug related crimes
05095		Juvenile court waiver
09505		Juvenile offenders
08442		Juveniles in adult facilities
04103		Juvenile status offenders
05245		Parent education
05241		School delinquency programs
08311		Ungovernable juveniles
03001		Youthful offenders

Skipping over the term designated *UF* (i.e., nonpreferred synonym of *Juvenile delinquents*) and the *BT* (indicating that *Juvenile delinquents* is part of the more comprehensive hierarchy of *Juveniles*), you will come to the *NT* references. *Emotionally disturbed delinquents*, *Female juvenile delinquents* and *Handicapped delinquents*, etc., are all valid search terms which you may prefer to use if they are more accurate expressions of the concept for which you are searching. As mentioned above, a search on the term *Juvenile delinquents* alone will not retrieve documents indexed under *Emotionally disturbed delinquents* or under the other *NTs*. If any of the narrow terms are relevant to your search, they should definitely be included in your search strategy. You should also note the *RT* references, which provide new directions for your search by adding related terms.

### Focusing Your Search

If the first term you locate is followed by a slash, it is an *ARRAY TERM*. Though *ARRAY TERMS* can be used for searching, they are often too broad to be useful for indexing or retrieval. The following entry is typical of *ARRAY TERMS*.

01391		Property crimes/ (Use of a more specific term is recommended, consult the terms listed below)
08679	RT	Agricultural crimes
04914		Antitrust offenses
02495		Arson
10067		Archeological preservation laws
00110		Burglary
02443		Counterfeiting
04384		Crime costs
04941		Crimes against businesses
01405		Dealing in stolen goods
01726		Extortion
03629		Forgery

01768	Hijacking
00469	Hit and run
04651	Industrial espionage
03850	Loan sharking
04600	Offenses/
02586	Piracy
05362	Property crime statistics
04255	Property identification
03640	Theft offenses
04757	Vandalism
01355	White collar crimes
08600	Zoo crimes

Scan the RT terms listed under the array term and select those related to your interest as new points from which to search. Do not make a final choice until you have determined whether there are still narrower terms that would be better choices. In this particular example, if you selected the RT *Crime costs* as a new starting point, you would find that *Crime costs* has two narrower terms, *Business crime costs* and *Stolen vehicle costs*, either of which may be a more specific expression of the concept you are trying to locate.

### Searching on Cross-Cultural Terms

To facilitate access to the numerous international documents in the database, the Thesaurus contains a number of cross-cultural terms. These include expressions peculiar to a foreign country which have no direct equivalent in the US system or for which such an equivalent cannot be readily identified. For the most part, these idioms are entered as nonpreferred synonyms of their nearest American equivalent. For instance, the French concept "*Sursis avec mise a l'epreuve*" would have the following reference to the preferred American term:

**Sursis avec mise a l'epreuve**  
**USE Probation**

In addition, numerous international organizations are included in the organizational file of the Thesaurus.

### Combining Several Descriptors

To attain an even greater level of specificity, the technique of combining or "coordinating" more than descriptor in a search is useful. Though the Thesaurus contains no specific term to express the concept of "*police attitudes toward abuse of authority*," the combination of the existing descriptors *Abuse of authority* and *Police attitudes* will yield only those documents which hold relevant information on both descriptors. In coordinating, descriptors from all three files of the Thesaurus (substantive, geographic, and organizational) may be combined. For instance the geographic code or descriptor for *France* may be combined with *Preventive detention* to obtain information on preventive detention in France.

## STATISTICS

This edition of the National Criminal Justice Thesaurus exhibits the following statistics:

### Descriptors

#### Substantive File

Postable descriptors	3,749
Nonpostable descriptors	1,667
