FIFE SYMINGTON GOVERNOR F. J. "RICK" AYARS DIRECTOR

Foreword

The Arizona Department of Public Safety is pleased to participate in and serve as the coordinating agency for the Arizona Uniform Crime Reporting program.

The purpose of the Arizona Uniform Crime Report 1990 is to provide data regarding the nature and extent of crime throughout the state. This report does not draw conclusions as to the causes of crime. However, it does provide the vital information necessary to assist law enforcement agencies, government, and the public in their approach to crime in our state.

This report is the culmination of a joint effort by our state's law enforcement agencies to collect and organize crime data. The information contained in this report should provide a valuable overview of the crime problem.

Sincere appreciation is expressed to all Arizona law enforcement agencies without whose cooperation this publication would not be possible.

F. J. "RICK" AYARS, COLONEL

Rickleyan

Director

HISTORY OF UNIFORM CRIME REPORTING

The Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) was established in 1927 to initiate a national program for collecting crime information. This Committee's responsibility to provide management information to law enforcement agencies was eventually turned over to the Federal Bureau of Investigation (FBI) in 1930, when the FBI received a Congressional mandate to collect and disseminate national crime information. The IACP has continued to serve the Uniform Crime Reporting Program (UCR) in an advisory capacity and has joined in this responsibility by the Committee on Crime Records of the National Sheriff's Association (NSA) in 1966.

The Arizona Uniform Crime Reporting (AUCR) Section first began receiving voluntary crime information from Arizona law enforcement agencies in January 1975. Prior to this date these agencies submitted their crime data directly to the FBI.

OBJECTIVES OF ARIZONA UCR

Due to increased attention being focused on the problem of crime in our communities in recent years, many segments of our population need more complete information for a variety of reasons.

Law enforcement professionals, managers and administrators who must focus on crime in their own jurisdictions, also need to know what is occurring in surrounding jurisdictions in order to deploy personnel and equipment most efficiently. Researchers and planners need to know what is actually happening to predict trends and recommend changes.

The goal of the Arizona Uniform Crime Report is to identify the nature and extent of criminal activity in this state and present the information needed by each of these groups. This information will not in itself prevent crime, but it may encourage all segments of society, by understanding the problem, to work together with law enforcement agencies to reduce crime through more effective enforcement.

The objectives of the *Arizona Uniform Crime Report* are: (1) To identify the nature and extent of crime in our state; (2) To provide the management information needed by the law enforcement community to augment their ability to attack the crime problem; (3) To provide our citizens

with the most complete information available; (4) To provide legislators with the information necessary to formulate laws which address the crime problems, and (5) To provide sufficient detailed data for researchers and planners.

CONSIDERATIONS FOR INTERPRETATION

Statistics are tools used to summarize information so that patterns or trends become clearer. All statistics must be interpreted with an understanding of just what it is that they can say. Too often information of the type in this report is used incorrectly to draw conclusions that the statistics simply do not support. We ask that great care be taken in analysis and interpretation.

The following factors have a major influence on the statistics presented in this report:

- 1. Crime figures are police statistics as distinguished from the findings of a court, coroner, jury or decision of a prosecutor.
- 2. Density and size of community population.
- 3. Variations in composition of the population, particularly age structure.
- 4. Stability of population with respect to transient factors.
- 5. Economic conditions, including job availability.
- 6. Climate.
- 7. Effective strength of law enforcement agencies; some police jurisdictions overlap.
- 8. Attitudes of citizenry toward crime.
- 9. Crime reporting practices of citizenry.
- Crime rates are based on census-fixed residential populations of police jurisdictions.
- 11. Crimes committed on Indian reservations are not reported to the AUCR program, although their population is included in the state's population figures.
- 12. There were six reporting agencies that were unable to provide complete data in 1990-one each in Coconino, Graham, La Paz, Pima, Pinal, and Yavapai Counties.

To obtain accurate information from many different agencies, the national UCR program had to precisely define the methods for collecting such information as the number of offenses, arrests, clearances and value of stolen or recovered property.

Classification of Offenses

UCR divides offenses into two major classifications which are designated Part I and Part II offenses. This distinction is important to keep in mind because different information is collected for each.

Part I offenses include:

Violent Crimes

- 1. Criminal Homicide
- 2. Forcible Rape
- 3. Robbery
- 4. Aggravated Assault

Property Crimes

- 5. Burglary
- 6. Larceny-Theft
- 7. Motor Vehicle Theft
- 8. Arson

Part II offenses include:

- 9. Other Assaults-simple
- Forgery and Counterfeiting
- 11. Fraud
- 12. Embezzlement
- 13. Stolen Property; Buying, Receiving, Possessing, Etc.
- 14. Vandalism
- 15. Weapons; Carrying, Possessing, Etc.
- 16. Prostitution
- 17. Sex Offenses (Except forcible rape and prostitution)
- 18. Narcotic Drug Laws
- 19. Gambling
- 20. Offenses Against Family and Children
- 21. Driving Under the Influence
- 22. Liquor Laws
- 23. Drunkenness (not reported in Arizona)
- 24. Disorderly Conduct
- 25. Vagrancy
- 26. All Other Offenses (except traffic)
- 27. Suspicion (not reported in Arizona
- 28. Curfew and Loitering Law Violations (Juveniles)
- 29. Runaways (Juveniles)

Note: Only arrests are counted for Part II offenses.

All offenses are classified on the basis of law enforcement officer investigation in accordance with UCR offense definitions (which will not necessarily be identical to Criminal Code definitions). Because UCR identifies a police problem, offense classifications are not based on the findings of a court, coroner, jury or decision of a prosecutor.

Counting of Offenses

The number of offenses is collected only for Part I crimes and simple assault. The method of counting offenses varies with the type of crime committed, and it is important to remember that the number of offenders does not determine the number of offenses.

For murder and nonnegligent manslaughter, negligent manslaughter, rape aggravated assault and simple assault, one offense is counted for each victim, regardless of the number of offenders involved.

For robbery and larceny-theft, one offense is counted for each distinct operation which is separate in time and place. The number of victims in any one operation does not determine the number of offenses.

For burglary, one offense is counted for each structure which is illegally entered. However, when the structure is an apartment house, business or office building in which units are leased for a period of time, one offense is counted for each unit burglarized.

For motor vehicle theft, one offense is counted for each vehicle stolen.

Note: Attempts to commit any one of the above are also counted as offenses, except that attempts to kill and assaults to kill are counted as aggravated assaults.

For multiple offenses that occur in one crime incident, only the most serious offense is counted. In cases when an arson occurs in conjunction with other Part I crimes, both are reported. Part I offenses are ranked according to seriousness and appear in order from most serious to least serious under "Classifications of Offenses".

Clearances

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved.

Offenses may also be cleared by exceptional means when the offender: commits suicide; makes a dying declaration; confesses while in custody or serving time for another crime; is prosecuted in another jurisdiction for the same offense; is a juvenile who is handled by notifying the parents; when the victim refuses to prosecute or another jurisdiction refuses to extradite the offender.

Clearances are counted as "adult" and "juvenile". A "juvenile" clearance is counted only when juveniles are exclusively involved in the clearance of an offense. If the arrest of both adults and juveniles results in a clearance, it is counted as an "adult" clearance.

Property Stolen and Recovered

The figures for value of property stolen and recovered report the value at each point in time. Although property can increase in value over time, it is more likely that stolen property will be recovered in a damaged condition. Therefore, recovery value does not necessarily represent a "clearance rate" for stolen property, and one cannot use it to determine law enforcement effectiveness in recovering stolen goods. Because stolen and recovered property figures indicate thefts and recoveries in the current year, it is important to note that recovered property may have been stolen in a previous year. In addition, the type and value of stolen or recovered property is reported only for Part I offenses and does not include such Part II offenses as fraud, forgery or embezzlement.

Arrests

Arrest information is collected for all Part I and Part II offenses according to the age, sex and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because arrest totals count all offenders arrested for each offense, and clearance totals count only the offenses for which an arrest(s) or exceptional clearances have occurred.

Reporting Variations and Procedures

Arizona now receives Uniform Crime Reports from 91 law enforcement agencies. One must be aware that unintentional variations from UCR guidelines may occur that would affect the validity of the data presented in this report. Offense totals vary from the actual number of offenses that occur because UCR statistics are based on crimes that are reported to law enforcement agencies and many crimes are not reported.

Each contributing law enforcement agency is responsible for compiling its own monthly reports. An FBI UCR handbook is supplied to all contributors outlining reporting procedures in detail and is also complete with examples and illustrations.

POPULATION GROUPING

The crime statistics reported by an individual agency indicates what is happening in one particular area. AUCR groups jurisdiction on the basis of population size and reports crime rates among these groups. The cities, towns and counties within the state have been divided into seven groups according to population size. The seventh group (ungrouped) is provided for identification of volume and type of crime to account for total offenses. This population grouping factor has some influence on the volume and type of crime presented in this report. For use in interpreting this report, the UCR grouping is listed below:

Group No.

- 1. Over 250,000 population. There are four (4) cities and counties that fall within this group.
- 2. 100,001 to 250,000 population. There are four (4) cities and counties that fall within this group.
- 3. 50,001 to 100,000 population. There are four (4) cities and counties that fall within this group.
- 4. 25,001 to 50,000 population. There are nine (9) cities and counties that fall within this group.
- 5. 10,001 to 25,000 population. There are fourteen (14) cities, towns, or counties that fall within this group.
- 6. 10,000 or less population. There are forty-nine (49) cities, towns, or counties that fall within this group.
- 7. Ungrouped. There are seven (7) reporting agencies. These are Educational Institutions and the Department of Public Safety, that by definition do not have measurable population. For purposes of this report, they are combined for the crimes by population distribution.

The following is a listing by population group of law enforcement agencies submitting crime data to the Uniform Crime Reporting Section.

AGENCY	POPULATION GROUP NO.	AGENCY	POPULATION GROUP NO.

Note: Estimated population figures for these groups are furnished by the Population Statistics Unit, Arizona Department of Economic Security. The total population for the State of Arizona in 1990 was 3,714,300.

ARIZONA CRIME CLOCK 1990

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Offenses. This mode of desplay should not be taken to imply a regularity in the commission of the Offenses: rather, it represents the annual ratio of crime to affixed time intervals.

ARIZONA CRIME CYCLE

The following represents the approximate number of Crime Index Offenses that were reported to Arizona law enforcement agencies every 24 hours during 1990.

STATE CRIME SUMMARY

CRIME INDEX OFFENSES

- There were 288,221 Crime Index Offenses reported in 1990.
- August recorded the highest incidence of offenses with 25,292 reported while November recorded the lowest incidence of offenses with 22,603 reported.
- The value of property stolen amounted to \$298,109,439 in 1990.
- The value of property recovered amounted to \$124,122,616 for a recovery rate of 41.6 percent.
- The crime rate for 1990 for Arizona was 7,760.4 crimes per 100,000 population.

CRIME INDEX ARREST/CLEARANCES

- During 1990, a total of 61,480 persons were arrested for Index offenses.
- Adult Index arrests were 41,082 and juvenile arrests were 20,398.
- Males accounted for 76.3 percent of the Index arrests and females accounted for 23.7 percent.
- A total of 60,673 clearances, representing 21.1 percent, of Index Offenses were reported in 1990. Juveniles
 represented 23.1 percent of this total.

VIOLENT CRIME

OFFENSES

- A total of 23,628 violent crimes were reported in 1990.
- Violent crimes accounted for 8.2 percent of the total Crime Index.
- The highest number of violent crimes was reported in July with 2,409 offenses while the lowest number was reported in February with 1,628 offenses.
- Aggravated assault accounted for the largest incidence of violent crimes with 15,994 offenses while homicide accounted for the smallest with 278 offenses.
- The value of property stolen was \$ 4,999,135.

ARRESTS/CLEARANCES

- There were 9,736 arrests for violent crimes in 1990.
- Adult arrests were 7,808 and juvenile arrests were 1,928.
- Males accounted for 87.4 percent and females accounted for 12.6 percent.
- A total of 11,965 clearances, representing 50.6 percent, of violent crimes were reported in 1990. Juveniles represented 12.8 percent of this total.

PROPERTY CRIME

OFFENSES

- A total of 264,593 property crimes were reported in 1990.
- Property crimes accounted for 91.8 percent of the total Crime Index.
- The highest number of property crimes was reported in January with 23,178 offenses while the lowest number was reported in November with 20,748 offenses.
- Larceny-theft accounted for the largest incidence of property crimes with 170,986 offenses while arson accounted for the smallest with 1,583 offenses.
- The value of property stolen was \$ 293,110,304.

ARRESTS/CLEARANCES

- There were 51,744 arrests for property crimes in 1990.
- Adult arrests were 33,274 and juvenile arrests were 18,470.
- Males accounted for 74.3 percent and females accounted for 25.7 percent.
- A total of 48,708 clearances, representing 18.4 percent, of property crimes were reported in 1990. Juveniles represented 25.6 percent of this total.

TOTAL ARRESTS

- There were 248,351 persons arrested in 1990.
- Adult arrests were 195,255 and juvenile arrests were 53,096.
- Males accounted for 80.6 percent and females accounted for 19.4 percent.
- Part I offenses accounted for 61,480 arrests.
- Part II offenses accounted for 186,871 arrests.

TOTAL INDEX CRIMES BY MONTH

	Percent Change	+.93	-3.64	-4.54

^{*} For the purposes of this comparison chart only, statistics from eight agencies have been excluded. These agencies were unable to provide complete reports for a full twelve months in 1989 and/or 1990. These eight agencies are located in the following counties: Coconino, Graham, La Paz, Maricopa, Pima, Pinal and Yavapai.

(Figures for 1989 may have been updated and therefore may vary from previously published statistics.)

VALUE OF PROPERTY LOSS BY INDEX CRIME OFFENSE STATE-TOTALS

The table below reflects the amount of property stolen by offense category. Motor vehicle theft accounted for the highest property loss, \$158,022,330, or 53 percent of the total. The next highest category was burglary with \$76,524,344, or 26 percent of the total.

OFFENSE	Number of Offenses	Dist.	Value of Property Stolen	Dist.	Average Value
Murder	278	0.10%	\$10,610	0.01%	\$38.16
Rape	1,480	0.55%	45,372	0.02%	30.66
Robbery	5,876	2.17%	4,943,153	1.66%	841.24
Burglary	60,534	22.37%	76,524,344	25.67%	1,264.15
Larceny-Theft	170,986	63.18%	58,563,630	19.64%	342.50
Motor Vehicle Theft*	31,490	11.63%	158,022,330	53.00%	5,018.17
TOTALS	270,644	100%	\$298,109,439	100%	\$1,101.48

^{*}Motor vehicles that were stolen in conjunction with a more "serious" index offense such as robbery or burglary are not included in this count. This count represents only those instances in which motor vehicle theft was the only or most "serious" offense committed. The total value shown here reflects the value of all property stolen during the commission of the offense (i.e., not just the value of each vehicle).

TYPE AND VALUE OF PROPERTY STOLEN AND RECOVERED - STATE TOTALS

The table below reflects the amount of property stolen and recovered by property type. Locally stolen motor vehicles accounted for the property loss in a single category with \$160,500,874. Locally stolen motor vehicles were also the most easily recovered property with a recovery rate of 72 percent or \$116,146,613.

TYPE OF PROPERTY	Value Stolen	Dist.	Value Recovered	Percent Recovered

MURDER AND NONNEGLIGENT MANSLAUGHTER

DEFINITION

The willful (nonnegligent) killing of one person by another. Attempted murders and assaults to murder are classified as aggravated assaults. Suicides, traffic fatalities, accidental deaths, negligent manslaughters, and justifiable homicides are not counted under this classification.

SUMMARY

- There were 278 murders reported during 1990.
- Murders accounted for 0.1 percent of the total Index offenses and 1.2 percent of the total violent crimes.
- June recorded the highest number, with 32, while March recorded the lowest with 18.
- Saturday reported the highest incidence of murders, with 53, while Monday was the lowest with 31.
- The time period of 6:01 PM 2:00 AM recorded the highest number of murders, with 113, while 02:01 AM-10:00 AM was the lowest with 68.
- Firearms were used in 66.2 percent of the murders.
- In murders where the relationship between the victim and offender was known, 20.9 percent were acquaintances.

ARRESTS/CLEARANCES

- A total of 206 persons were arrested in 1990.
- Adults accounted for 187 arrests and juveniles accounted for 19 arrests.
- Males accounted for 89.8 percent and females accounted for 10.2 percent.
- There were a total of 207 clearances for murder reported in 1990. Juveniles represented 5.8 percent of this total.

RAPE

DEFINITION

The carnal knowledge of a female through the use of force or threat of force. Assaults or attempts to commit forcible rape are also included; however, statutory rape (without force) and other sex offenses are not counted in this category.

SUMMARY

- There were 1,480 rapes reported during 1990.
- Rapes accounted for 0.5 percent of the total Index offenses and 6.2 percent of violent crimes.
- August recorded the highest number, with 159, while February recorded the lowest with 96.
- Of the total rapes, forcible accounted for 1,169 and attempts accounted for 311.

ARRESTS/CLEARANCES

- A total of 374 persons were arrested in 1990.
- Adults accounted for 306 arrests and juveniles accounted for 68 arrests.
- There were a total of 636 clearances for rape reported in 1990. Juveniles represented 7.1 percent of this total.

ROBBERY

DEFINITION

The taking or attempting to take anything of value from the care, custody, or control of a person by force or threat of force and/or by putting the victim in fear.

SUMMARY

- There were 5,876 robberies reported during 1990.
- Robberies accounted for 2.0 percent of the total Index offenses and 24.9 percent of the violent crimes.
- October recorded the highest number, with 608, while February recorded the lowest with 415.
- Robberies occurring on highways (streets, alleys, and sidewalks) recorded the highest number, with 3,065, or 52.2 percent of all robberies.
- Gas or service station robberies had the lowest number, with 94, or 1.6 percent of all robberies.
- Robberies occurring on highways (streets, alleys and sidewalks) had the highest total dollar loss, with \$2,395,653.
- Bank robberies had the highest dollar loss per robbery, with \$3,030.
- Firearms represented the most common weapon used in 2,450 robberies, or 41.7 percent.

ARRESTS/CLEARANCES

- A total of 1,665 persons were arrested in 1990.
- Adults accounted for 1,228 arrests and juveniles accounted for 437 arrests.
- Males accounted for 91.5 percent and females accounted for 8.5 percent.
- There were a total of 1,749 clearances for robbery reported in 1990. Juveniles represented 13.4 percent of this total.

AGGRAVATED ASSAULT

DEFINITION

The unlawful attack by one person upon another for the purpose of inflicting severe bodily injury usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm.

SUMMARY

- There were 15,994 aggravated assaults reported during 1990.
- Aggravated assaults accounted for 5.6 percent of the total Index offenses and 67.7 percent of the violent crimes.
- July recorded the highest number, with 1,708, while January recorded the lowest with 1,059.
- Firearms represented the most common weapon used in 5,308 aggravated assaults, or 33.2 percent.
- There were 40,145 simple assaults reported in 1990. Simple assault is primarily differentiated from aggravated assault by the seriousness of the injury and the weapon used. Simple assault is not a Crime Index offense but is reported here for the purpose of showing the total assault violence.

ARRESTS/CLEARANCES

- A total of 7,491 persons were arrested in 1990.
- Adults accounted for 6,087 arrests and juveniles accounted for 1,404 arrests.
- Males accounted for 85.8 percent and females accounted for 14.2 percent.
- There were a total of 9,373 clearances for aggravated assault reported in 1990. Juveniles represented 13.2 percent of this total.

BURGLARY

DEFINITION

The unlawful entry of a "structure" to commit a felony or theft. The use of force to gain entry is not required to classify the crime as burglary. A structure is considered to include the following, but not limited to: dwelling houses, apartments, public buildings, offices, barns, cabins, etc. Burglary is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

SUMMARY

- There were 60,534 burglaries reported during 1990.
- Burglaries accounted for 21.0 percent of the total Index offenses and 22.9 percent of the property crimes.
- January recorded the highest number, with 5,566, while June recorded the lowest with 4,621.
- Forcible entry was used in 39,292, or 64.9 percent of the total burglaries.
- Residential burglaries accounted for 43,707, or 72.2 percent of the total burglaries.
- In burglaries where the time of occurrence was known, 20,494, or 33.9 percent occurred between the hours of 6 AM - 6 PM.
- Residential burglaries accounted for the highest property loss, \$53,401,268.

ARRESTS/CLEARANCES

- A total of 8,108 persons were arrested in 1990.
- Adults accounted for 4,452 arrests and juveniles accounted for 3,656 arrests.
- Males accounted for 90.1 percent and females accounted for 9.9 percent.
- There were a total of 6,853 clearances for burglary reported in 1990. Juveniles represented 23.7 percent of this total.

LARCENY-THEFT

DEFINITION

The unlawful taking or stealing of property or articles without the use of force, violence, or fraud. This crime category does not include embezzlement, fraud, and worthless checks.

SUMMARY

- There were 170,986 larceny-thefts reported during 1990.
- Larceny-thefts accounted for 59.3 percent of the total Index offenses and 64.6 percent of the property crimes.
- March recorded the highest number, with 15,178, while November was the lowest with 13,049.
- Larceny-thefts in the under \$50 category reported the highest number of incidents, with 77,155, or 45.1 percent.
- Shoplifting accounted for 40,391 larceny-thefts or 23.6 percent.

ARRESTS/CLEARANCES

- A total of 40,560 persons were arrested in 1990.
- Adults accounted for 27,565 arrests and juveniles accounted for 12,995 arrests.
- Males accounted for 70.0 percent and females accounted for 30.0 percent.
- There were a total of 37,564 clearances for larceny-theft reported in 1990. Juveniles represented 24.6 percent of this total.

MOTOR VEHICLE THEFT

DEFINITION

The unlawful taking or stealing of a motor vehicle including attempts and joyriding. This definition excludes taking for temporary use by those persons having lawful access to the vehicle.

SUMMARY

- There were 31,490 motor vehicle thefts reported during 1990.
- Motor vehicle thefts accounted for 10.9 percent of the total Index offenses and 11.9 percent of the property crimes.
- August recorded the highest number, with 3,034, while February recorded the lowest with 2,234.
- Autos represented the highest single category of motor vehicle theft, with 20,747, or 65.9 percent.
- Recovered motor vehicles that were locally stolen amounted to 24,908 or a 79.1 percent recovery rate.
- The total dollar loss amounted to \$160,500,874. Of that amount, \$116,146,613 was recovered. The recovered amount reflects the value of the vehicle when recovered and may be lower than the value when stolen because of missing parts or damage.

ARRESTS/CLEARANCES

- A total of 2,653 persons were arrested in 1990.
- Adults accounted for 1,123 arrests and juveniles accounted for 1,530 arrests.
- Males accounted for 88.8 percent and females accounted for 11.2 percent.
- There were a total of 3,925 clearances for motor vehicle theft reported in 1990. Juveniles represented 36.1 percent of this total.

ARSON

DEFINITION

Arson is defined by the national Uniform Crime Reporting Program to include any willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Fires of suspicious or unknown origins are excluded.

SUMMARY

- There were 1,583 arsons reported during 1990.
- Arsons accounted for 0.6 percent of the total Index offenses and 0.6 percent of the property crimes.
- October recorded the highest number, with 166, while September recorded the lowest with 87.
- Structural arson accounted for 856 offenses or 54.1 percent.
- Motor vehicle arson accounted for the highest single known category, with 356, while industrial/manufacturing arson was the lowest with 5.

ARRESTS/CLEARANCES

- A total of 423 persons were arrested in 1990.
- Adults accounted for 134 arrests and juveniles accounted for 289 arrests.
- Males accounted for 92.4 percent and females accounted for 7.6 percent.
- There were a total of 366 clearances for arson reported in 1990. Juveniles represented 52.2 percent of this total.

ARREST SUMMARY

- There were a total of 248,351 arrests reported in 1990.
- Arrests for Part I offenses amounted to 61,480, or 24.8 percent.
- Arrests for Part II offenses amounted to 186,871, or 75.2 percent.
- Adult arrests were 195,255 or 78.6 percent, and juvenile arrests were 53,096, or 21.4 percent.
- Males accounted for 200,220 arrests, or 80.6 percent, and females accounted for 48,131 arrests, or 19.4 percent.
- Arrests for adults between the ages of 25-29 recorded the highest number with 39,377, or 15.9 percent of the total adult arrests.
- Arrests for juveniles age 12 and under were 6,288, or 11.8 percent of the total juvenile arrests.
- Larceny-theft recorded the highest number of arrests with 40,560, or 16.3 percent of the total.

POLICE OFFICER ASSAULTS

DEFINITION

All assaults on sworn officers resulting in serious injury or in which a weapon was used that could have caused serious injury or death. Also included are assaults not causing injury which involved more than mere verbal abuse or minor resistance to arrest.

SUMMARY

- There were a total of 1,697 police officers assaulted statewide in 1990.
- Personal weapons, such as hands, fists, and feet, were used in 1,493 assaults, or 88.0 percent.
- The time period of 10:01 PM to 12:00 AM recorded the highest incidence of assaults with 365, or 21.5
 percent.
- The highest number of assaults, 675, or 39.8 percent, occurred when officers were responding to disturbance calls.
- Personal injuries were sustained in 231 assaults, or 13.6 percent.

CLEARANCES

• There were a total of 1,629 clearances for assaults on police officers. This represents a clearance rate of 96.0 percent.

FULL-TIME LAW ENFORCEMENT EMPLOYEES

DEFINITION

The following chart reflects full-time law enforcement personnel employed as of October 31, 1990. These figures include full-time sworn personnel with full arrest powers, however they do not include persons performing guard or protection duties, such as school crossing guards, nor reserve officers. Civilian employees include clerks, dispatchers, secretaries, etc. who are employed full-time and are paid from law enforcement funds or budget.
