# NEW JERSEY BUREAU OF PAROLE

## REPORT OF PAROLEE EARNINGS

### 1990

*The earnings of parolees for the calendar year 1990 are compiled, classified and capsulated from data submitted by the thirteen district parole offices in the Bureau of Parole. (See attached tables)*

*There were 22,157 parolees under supervision in New Jersey in 1990 (an increase of 5,265 from 1986, which was the last year that data was compiled) and they earned, as qualified herewith \$61,360,280. In comparison to 1986, this was an increase of \$231,664. (The Bureau was also responsible solely for the collection of revenue from 6,394 additional cases, an increase of 4,931 from 1986, whose earnings are not reported herein.)*

*Thirty-nine percent (39%) of those under supervision during the year were classified as employed (worked all or part of the period under supervision, which period of supervision could be from one week to the full year) forty-one percent (41%) were unemployed throughout the period of supervision, although employable. The other twenty percent (20%) were classified as unemployable by reason of being missing or in custody for the entire period of supervision during the year, or attending school, being engaged in homemaking, or being incapacitated.*

*The rates for District Offices follow:*

DISTRICT OFFICE	UNEMPLOYABLE		PERCENT UNEMPLOYED		EMPLOYED

OVERALL AVERAGE	\$4,369	\$5,717	\$7,212	\$7,102

*Two of the factors which may have had an effect on the overall lower employment rate, total earnings, and average earnings for 1990 compared to prior years were the nature of the overall economy and the shorter periods of parole supervision.*

Thirty-two percent of the 22,157 parolees supervised were under supervision for a period of 10 months to the full year in 1990; 14% from 7 months to 9 months; 23% from 4 months to 6 months; and 31% from 1 day to 3 months. This, as opposed to the 1986 figures when 44% of the parolees were supervised for a period of 10 months to a full year; 13% from 7 months to 9 months; 18% from 4 months to 6 months; and 25% from one day to 3 months. Comparisons for years prior to 1986 for figures by District Offices and commitment types cannot be made as the number of districts and their jurisdictions differed over the years. The classification grouping of parolees also changed over the years. Caution should be used in drawing inferences from the foregoing data and accordingly the average earnings of employed parolees is presented below for comparative purposes only.

*Employed Parolees (Supervised 1 Day to 12 Months):*
