(1): For six-month periods through 1981, includes only second degree murder and voluntary manslaughter. First degree murder data were not available and thus could not be tabulated. First degree murder (and death penalties) are included in the 1984 and subsequent data.

(2): A high percentage of rape cases formerly received "other" dispositions. Most of those involved incarceration, either as a mentally disordered sex offender or as a result of commitment to the Youth Authority. Probation was prohibited by Stats. 1979, ch. 944, Pen. Code, § 1203.065. Mentally disordered sex offender ("MDSO") commitments were prohibited for crimes committed after December 31, 1981 (Stats. 1981, ch. 928). Some MDSO commitments continue to come in on crimes committed before 1982.

(3): Amount over \$200 through 1982, \$400 thereafter or unspecified.

II. FELONY CONVICTIONS — SUMMARY OF DISPOSITIONS

Table A compares the current rate of prison commitments with the commitment rates over the past few years, and at the beginning of determinate sentencing.

There does not appear to have been any significant change in these rates recently.

The prison commitment rate does not fully reflect the use of

incarceration in California. Almost all defendants granted probation in superior court are required to serve a jail term as a condition of probation. Table B indicates the *total incarceration rate* (considering both prison and jail, but excluding other dispositions such as Youth Authority commitments) at 95 percent, almost equal to the high of 96 percent of all those convicted.

III. FELONY CONVICTIONS — BY APPELLATE DISTRICT

Table C shows the rates of prison commitments by appellate district, summarizing some of the statistics in Tables 2 through 5.

That comparison indicates that the differences noted in previous *Quarterlies* continue to exist in the prison commitment rates in different areas of the state. For example, superior courts in the Second Appellate District appear to have a consistently higher pris-

on commitment rate for burglary (2nd) than superior courts in the balance of the state; superior courts in the First Appellate District send a lower percentage of those guilty of possession of narcotics, and a somewhat lower percentage of all convicted felons, to prison than superior courts in the balance of the state.

Tables 2 through 5 give disposition information, in the same format as statewide Table 1, for the following regions:

²Excludes 1st degree burglaries and attempted burglaries, which amount to almost half of all property crimes.

IV. DETERMINATE SENTENCING STATISTICS

SENTENCE LENGTH

Statistics on the length of determinate prison sentences appear in Table 6. These are summarized for selected crimes, over time, in Table D.

Table D indicates that most high-volume crimes (e.g., theft, burglary, robbery) showed no significant change in average sentence length from quarter to quarter, over the past several years.

In the case of voluntary manslaughter, the average sentence in 1984 shows the impact of the increase, effective January 1 of that year, in authorized sentence (to 3, 6, or 11 years); but by 1986, the quarter-to-quarter variation appears to reflect only the random variation to be expected for a lower-volume crime.

Statutes effective in 1979 and 1980 significantly increased the possible sentence for rape. Those changes appear to have had their full effect by 1984, the beginning of the period covered by Table D. There continues to be considerable quarter-to-quarter variation in average sentence, as would be expected for a lower volume

crime (500-600 convictions per year) for which an individual sentence may be as low as 3 years, in a case without complications, to somewhere in the vicinity of 100 years, for a case with multiple rapes and other violent sex crimes, and such complicating factors as weapons use and prior convictions.

In the more complete tabulations of sentence length, Table 6, it should be noted that the "minimum" sentence listed under "Range of Sentence Imposed" is one-third of the middle authorized term for several of the crimes listed. This is caused by a reporting error: the courts sometimes report only the time added by a new consecutive sentence, instead of the new "aggregate term" computed per Penal Code section 1170.1(a). This reporting error does not mean that there is an error in the actual sentence imposed. In the maximum sentence column, "99.0" may represent a sentence greater than 99 years, as the computer is programmed to treat 99 years as the maximum allowable determinate term.

V. DEATH PENALTY

There were 5 reported death penalties among the 67 first degree murder convictions sentenced in the quarter ended June 30, 1991.

VI. IMPACT OF DRUG CASES ON TRIAL COURT VOLUME

The total volume of felony drug law convictions continued the decline that began in the last half of 1990, while convictions

for crimes against property continued to increase, and crimes of violence against persons continued to increase sharply.

SPECIAL TABLE

Total (1991 projected, 1990 actual)	28,280	25,994	51,400	48,389	59,364	62,454
Projected percent change	+ 9%	—	+ 6%	—	- 5%	—

As in prior quarters, a smaller percentage of drug cases actually went to trial than cases involving such crimes as assault with a deadly weapon and burglary (first degree). The trial rate of 2.2 percent of drug law convictions was almost the same as the rate for burglary (second degree). The highest-volume drug law

violation—possession of narcotics—had a trial rate of only 0.9 percent, lower than any other crime tabulated. Aside from their sheer volume, therefore, the drug cases do not impose an inordinate workload on the courts.

VII. DATA NOTES

Statistical tables in the *Quarterly* are derived from case reports received from superior courts. Despite the efforts of data processing and editing personnel, a few cases could not be tabulated because they had a code or section number that could not be interpreted as a felony offense or were so inconsistent internally that an error had to be assumed. No other reports are excluded. A very few reports lacked county identifiers or information on whether the conviction was by trial or plea; these cases are included in aggregate totals, but are necessarily excluded from breakdowns by appellate district or by type of conviction. Consequently

Tables 2 through 5 (by appellate district) will not add to Table 1 (state total), and the totals for particular crimes in Tables 7 and 8 (by manner of conviction) may not equal the Table 1 totals for the same crime.

In a few instances seemingly erroneous dispositions were reported. Most of these anomalies were cleared up by consulting the original document; it might, for example, show that the crime was an attempt, or was committed prior to a change in the law. Even when the anomaly cannot be explained, the crime is tabulated as it was reported by the court.
