Notes:

- 1. Data for this report is captured from the Department's database on the last day of each month. Some data is unavailable because all the information on inmates who were admitted on the last few days of the month has not yet been entered.
- 2. Mid-size counties include those having 400 to 1600 male inmates in prison.
- 3. Small counties include those having less than 400 inmates in prison.
- 4. Some inmates have more than one type of mandatory sentence. For this report, the types of mandatory sentences are prioritized in the order displayed, from Life with 25 Years to Drug Trafficking. Inmates with multiple mandatory sentences are included only in the highest category applicable. For example, an inmate with a Life with 25 Years mandatory and who is also an Habitual Offender are in the Life with 25 Years category.
- 5. This figure is computed by dividing the total days by the number of months the inmate has served in prison to date.
- 6. Mid-size counties include those having 20 to 70 female inmates in prison.
- 7. Small counties include those having less than 20 female inmates in prison.
