(1): For six-month periods through 1981, includes only second degree murder and voluntary manslaughter. First degree murder data were not available and thus could not be tabulated. First degree murder (and death penalties) are included in the 1984 and subsequent data.

(2): A high percentage of rape cases formerly received "other" dispositions. Most of those involved incarceration, either as a mentally disordered sex offender or as a result of commitment to the Youth Authority. Probation was prohibited by Stats. 1979, ch. 944, Pen. Code, § 1203.065. Mentally disordered sex offender ("MDSO") commitments were prohibited for crimes committed after December 31, 1981 (Stats. 1981, ch. 928). Some MDSO commitments continue to come in on crimes committed before 1982.

(3): Amount over \$200 through 1982, \$400 thereafter or unspecified.

II. FELONY CONVICTIONS — SUMMARY OF DISPOSITIONS

Table A compares the current rate of prison commitments with the commitment rates over the past few years, and at the beginning of determinate sentencing.

There does not appear to have been any significant change in these rates recently.

The prison commitment rate does not fully reflect the use of

incarceration in California. Almost all defendants granted probation in superior court are required to serve a jail term as a condition of probation. Table B indicates the *total incarceration rate* (considering both prison and jail, but excluding other dispositions such as Youth Authority commitments) at 95-96 percent of all those convicted, the historic high.

III. FELONY CONVICTIONS — BY APPELLATE DISTRICT

Table C shows the rates of prison commitments by appellate district, summarizing some of the statistics in Tables 2 through 5.

ous *Quarterlies* continue to exist in the prison commitment rates in different areas of the state.

That comparison indicates that the differences noted in previ-

Tables 2 through 5 give disposition information, in the same format as statewide Table 1, for the following regions:

²Excludes 1st degree burglaries and attempted burglaries, which amount to almost half of all property crimes.

IV. DETERMINATE SENTENCING STATISTICS

SENTENCE LENGTH

Statistics on the length of determinate prison sentences appear in Table 6. These are summarized for selected crimes, over time, in Table D.

Table D indicates that most high-volume crimes (e.g., theft, burglary, robbery) showed no significant change in average sentence length from quarter to quarter, over the past several years.

In the case of voluntary manslaughter, the average sentence in 1984 shows the impact of the increase, effective January 1 of that year, in authorized sentence (to 3, 6, or 11 years). From 1986

to 1990, the quarter-to-quarter variation appears to reflect only the random variation to be expected for a lower-volume crime. However, each of the 1991 quarters shows an average sentence greater than was typical in 1986-1990, and there now appears to be a long-term increase in sentences for voluntary manslaughter to an average of 9.5 years.

The statistics on robbery sentences also suggest a long-term increase to about six years.

V. DEATH PENALTY

There were 8 reported death penalties among the 112 first degree murder convictions sentenced in the quarter ended March 31, 1992.

VI. DATA NOTES

Statistical tables in the *Quarterly* are derived from case reports received from superior courts. Despite the efforts of data processing and editing personnel, a few cases could not be tabulated because they had a code or section number that could not be interpreted as a felony offense or were so inconsistent internally that an error had to be assumed. No other reports are excluded. A very few reports lacked county identifiers or information on whether the conviction was by trial or plea; these cases are included in aggregate totals, but are necessarily excluded from breakdowns by appellate district or by type of conviction. Consequently

Tables 2 through 5 (by appellate district) will not add to Table 1 (state total), and the totals for particular crimes in Tables 7 and 8 (by manner of conviction) may not equal the Table 1 totals for the same crime.

In a few instances seemingly erroneous dispositions were reported. Most of these anomalies were cleared up by consulting the original document; it might, for example, show that the crime was an attempt, or was committed prior to a change in the law. Even when the anomaly cannot be explained, the crime is tabulated as it was reported by the court.
