CRIME IN KANSAS, 1991 contains statistical information based upon reports from over 350 local and state law enforcement agencies during calendar year 1991. The assistance of these agencies in providing this data is greatly appreciated. The various tables and graphic presentations in this report serve as a valuable planning tool for the criminal justice community, as well as providing information to Government agencies and citizens' groups interested in addressing crime problems in Kansas.

Featured in this annual publication is extensive data from the state's Incident Based Reporting System. This system has been developed to better characterize the dimensions of crime in Kansas and to provide more in-depth information to state and local policy makers. This information is also used by the Federal Bureau of Investigation in its Uniform Crime Report, CRIME IN THE UNITED STATES.

Cooperation at all levels of law enforcement and support from the public is essential if society is to meet future criminal justice challenges. The Kansas Bureau of Investigation will continue its leadership role in addressing these important issues. It is with pleasure that this publication of CRIME IN KANSAS is presented.

# IN MEMORIAM

CRIME IN KANSAS, 1991,  
IS DEDICATED TO

**Patrol Officer Christopher C. Willems**  
Sedgwick County Sheriff's Office

Officer Willems, an 8 year veteran deputy with the Sedgwick County Sheriff's Office, was fatally wounded shortly after 11 p.m. on May 12, 1991. The 30 year old deputy stopped a van containing three males in South Wichita. He was attempting to arrest one of the passengers, an alleged parole violator, when a fight ensued between the two. During the fight the van's driver, who was the parolee's brother, exited and allegedly shot the deputy in the leg and head. The 42 year old suspect was apprehended the next morning and charged with first-degree murder. The suspect was found guilty and sentenced to a hard 40 years. The second suspect was also arrested and found guilty of Battery of a Law Enforcement Officer along with additional charges. He was sentenced to three to ten years.

**Motorcycle Officer Donald B. Gamblin Jr.**  
Shawnee Police Department

On July 13, 1991, Officer Gamblin, 39, a 6 year veteran with the Shawnee Police Department, was fatally injured while making a routine traffic violation stop. From the reports, it appears Officer Gamblin was approaching a vehicle he had stopped on I-435 in Shawnee when he and his motorcycle were struck by another vehicle. The motorcycle was pushed into the rear of the traffic stop vehicle, which was pushed 200 feet. Officer Gamblin was found 250 feet from the point of impact. He was killed instantly. The suspect was arrested at the scene and charged with vehicular manslaughter, aggravated battery and possession of cocaine. He pled guilty and was sentenced to five to twenty-five years.

The loss of these officers was a tragic event for their agencies, communities and the state of Kansas. Our most sincere condolences to these officer's families and friends.

## INTRODUCTION

The Kansas Bureau of Investigation is the Central Repository of criminal justice related data for the state. K.S.A. 21-2501(a) and K.S.A. 21-2504 require the submission of reports from all local police and sheriff departments to the KBI. Recently, state agencies with law enforcement responsibilities have begun to report information as well. There were nearly 350 state and local reporting entities during calendar 1991 upon which this publication is based.

The State has participated in the national Uniform Crime Reporting (UCR) program, maintained by the Federal Bureau of Investigation, since 1969. Prior to the development of a state-level program in the late 1970's, most reporting by local agencies was done directly to the FBI. The establishment of the state program ensured better coordination between the state and the national program, a higher level of data quality, and more complete reporting.

The UCR program collects offense data on murder, rape, robbery, aggravated assault/battery, burglary, theft and motor vehicle theft. The offenses are referred to as Part I crimes - so designated by the National Sheriff's Association and the International Association of Chiefs of Police in the 1930's due to their severity, frequency of occurrence and likelihood of being reported. These crimes are the basis for the Crime Index - the barometer by which crime trends have been measured for over 50 years. Arson was added to this list in the 1980's but is not included in calculations of the Crime Index. Part I crimes are divided into two categories: violent crime, which includes murder, rape, robbery and aggravated assault/battery; and, property crime, including burglary, theft and motor vehicle theft. Additionally, arrest statistics are collected on these crimes as well as other so-called Part II crimes. Data on law enforcement personnel, including assaults, are also collected as part of the program. Program principles include using the "hierarchy rule" (counting only the most serious crime in a multiple offense situation), counting only arrests made for crimes committed in an agency's jurisdiction and being a monthly summary reporting system.

In order to better address requests for crime statistics and to provide a more complete view of the complexion of crime in Kansas, a pilot program on Incident Based Reporting was begun in 1984 with participation by ten local law enforcement agencies. This program detailed crime reporting based upon incidents of reported crime wherein numerous points of information could be gathered and studied. Prior to implementation of this program, summary reports were prepared by the local agencies, forwarded to the KBI, tallied by the state and sent to the FBI. In 1991, all but two law enforcement agencies reported on the Incident Based Reporting System and this publication reflects presentations on this expanded data base.

The goals of the Incident Based Reporting System are: 1) the standardization of reporting methods and data elements; 2) the collection and reporting of data based on Kansas law, rather than national standards; 3) the maintenance of a state-level stolen property file; 4) to maintain a broad data-base allowing for the analysis of crimes, victims, suspects, etc.; and, 5) better feedback to local agencies.

Long range goals include the ability to: 1) link arrests with offenses; and, 2) track offenders through the justice system.

Nationally, the Uniform Crime Reporting program has started implementation of the National Incident Based Reporting System (NIBRS). After an exhaustive period of study, in July, 1988, data collection and submission guidelines for NIBRS were release to state Uniform Crime Reporting programs. Since that time the, Kansas Bureau of Investigation, along with numerous state and local law enforcement agencies, have been actively developing a new Kansas Incident Based Reporting System (KIBRS), with a projected implementation date of January, 1993. The new KIBRS will incorporate the two previously identified long range goals along with numerous elements needed to identify specific types of crimes relevant to the 1990's. Coupled with a renewed interest in the issue of data quality, the future is bright for crime reporting programs both nationally and within the state of Kansas.

### **OBJECTIVES OF CRIME IN KANSAS ,1991:**

- o -To provide justice system administrators with crime statistics for administrative and operational use;
- o - To inform the Executive, Legislative and Judicial branches of government, and the public, as to the nature of the crime problem in Kansas — its magnitude and its trend;
- o - To provide information to those charged with the responsibility of formulating public safety policy;
- o - To determine who commits crimes by age, sex, race, and other attributes in order to find the proper focus for prevention and intervention programs;
- o - To provide Kansas citizens with the most complete information on the nature and extent of crime;
- o - To include comprehensive data for researchers and planners;
- o - To provide base data and statistics to assist in the assessment of social and other causes for the development of theories of criminal behavior, to assist in the assessment of the efficiency, effectiveness and performance of criminal justice agencies, and to measure the effects of prevention and deterrence programs; and,
- o - To provide the FBI with complete data to be included in the national crime report.

### **CRIME FACTORS:**

It is important to remember that crime is a social problem and, therefore, a concern of the entire population of Kansas. The most important and vital influences on the occurrence of crime include:

- o - Density and size of the community population and its surrounding area;
- o - Composition of the population with reference particularly to age, sex, race, and ethnic origin;
- o - Economic status and mores of the population;
- o - Stability of the population with respect to transient factors;
- o - Climate, which includes seasonal weather conditions;
- o - Cultural conditions; i.e., educational, recreational and religious characteristics;

- o - Effective strength of the law enforcement agencies;
- o - Standards governing appointments to law enforcement agencies;
- o - Policies and/or attitudes of criminal justice system, practitioners including prosecution, courts, corrections and social services agencies;
- o - Relationship and attitudes of the public toward law enforcement problems;
- o - Administrative and investigative efficiency of law enforcement, including the degree of adherence of crime reporting and crime description standards; and,
- o - Organization and cooperation of adjoining and overlapping police jurisdictions.

## **DATA COMPARISONS / LIMITATIONS:**

This program was developed for Kansas law enforcement agencies by the Kansas Bureau of Investigation to furnish information for use primarily by contributing agencies. The tendency with a publication of this nature is to attempt to make comparisons of data between jurisdictions, whether between agencies, counties, or regions. Caution is urged in attempting to make comparisons between agencies; the reasons for this will become apparent as the reader reviews the publication. Data presented herein are carefully planned to present the truest and most accurate picture possible of crime in Kansas.

It is not always appropriate to compare single agencies because of the great variety of factors which affect the extent and fluctuation of crime and which are not taken into consideration in either raw data or crime rates. For example, one occurrence of theft is weighed equally with one occurrence of murder, even though the two crimes are obviously at opposite spectrums on a scale of seriousness. For the purpose of this publication, all crimes are weighted equally in computing crime rates.

The Incident Based Reporting program in Kansas is the best information presently available for reflecting crime as reported to law enforcement. It does not claim to represent all crime occurring in Kansas because it is dependent upon the willingness of the victim to report the crime to law enforcement and the willingness of law enforcement to report the crime to the Kansas Bureau of Investigation.

This publication of Crime In Kansas, 1991 is the result of the efforts of 330 local and state law enforcement agencies submitting required information to the state program maintained by the Kansas Bureau of Investigation. The effort by the numerous individuals responsible for this process is greatly appreciated.

## CRIME INDEX OVERVIEW

Crime Index Offenses (murder, rape, robbery, aggravated assault/battery, burglary, theft, and motor vehicle theft) totaled 136,433 in 1991, an increase of 5.4% over 1990. The ten year trend of Crime index Offenses shows a increase of 14.5% in crimes reported in 1991 as compared to 1982 figures.

Crime Index Offenses are divided into two sub-categories: 1) Violent Crime; and, 2) Property Crime. The category of Violent Crime has demonstrated an 52.7% increase in 1991 as compared to 1982. Aggravated assault/battery continues to be the most frequently reported violent crime and constitutes nearly sixty-two percent of all violent crime reported to law enforcement. Theft is the most often reported Property Crime; 57.2% of reported property crime and slightly over fifty-two percent of the entire Crime Index are thefts.

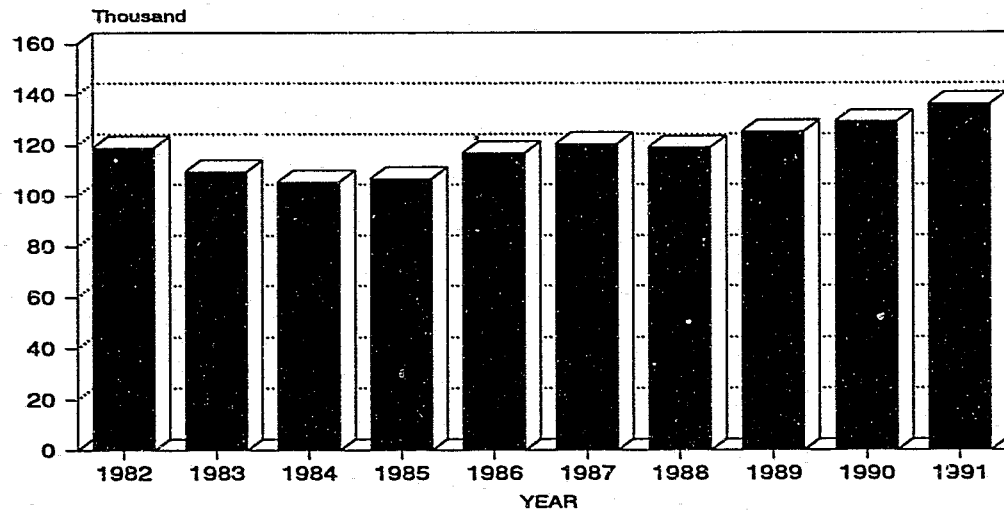

The Crime Clock illustrates that, on an average, one Crime Index Offense occurred every three minutes, 51 seconds in 1991, while the individual categories of Violent Crime and Property Crime show an occurrence rate of 42 minutes, 36 seconds and 4 minutes, 14 seconds, respectively. The table depicting Crime Index by month of occurrence, for three consecutive years, ranks August as the month with the most Crime Index offenses reported.

There are thirty-three cities in Kansas with populations over 10,000. Those cities account for nearly eighty percent of all Crime Index Offenses that occurred in 1991. However, given the wide diversity in Kansas population and frequent requests for information about smaller but, equally important areas, Crime In Kansas, 1991 includes tables for cities with populations between 5,000 and 10,000.

# CRIME CLOCK 1991

The crime clock should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

## VIOLENT CRIME

In 1991, a violent crime of murder, rape, robbery, or aggravated assault/battery occurred on an average of every forty-two minutes in Kansas. Statistics for 1991 indicate that 4.9 persons per thousand population experienced some type of violent crime.

Violent crime accounted for nine percent of the total crime index offenses in 1991. This crime category totaled 12,338 in 1991 as compared to 11,129 in 1990, an increase of 10.9%.

Information on simple assault/battery has been included, for the readers edification, even though it is considered a Part II offense under UCR guidelines. Figures for 1991 indicate that an average of thirteen persons per thousand population were victims of simple assault.

## MURDER AND NON - NEGLIGENT MANSLAUGHTER

Kansas Statutes define murder and non-negligent manslaughter as follows:

*"Murder in the first degree is the killing of a human being committed maliciously, willfully, deliberately and with premeditation or committed in the perpetration or attempt to perpetrate any felony," (K.S.A.21-3401).*

*"Murder in the second degree is the malicious killing of a human being, committed without deliberation or premeditation and not in the perpetration or attempt to perpetrate a felony," (K.S.A.21-3402).*

*"Voluntary manslaughter is the unlawful killing of a human being, without malice, which is done intentionally upon a sudden quarrel or in the heat of passion,"(K.S.A.21-3403).*

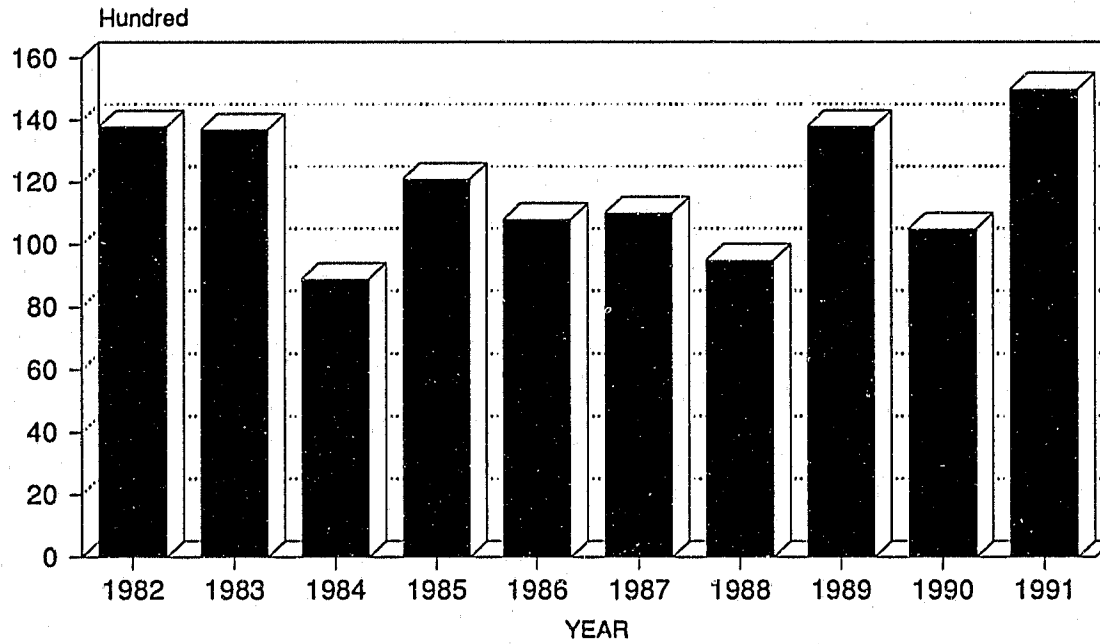

The national program defines murder as "the willful (non-negligent) killing of one human being by another,"(Uniform Crime Reporting Handbook,1984, page 6).

In 1991, Kansas reported 150 homicides, an increase of 41.9% as compared to the 105 homicides reported in 1990. There were also 3 homicides that were ruled justifiable. Five negligent manslaughters were reported.

Kansas had seven victims murdered in multiple homicide situations in 1991. In one case there were three victims and the two remaining cases had two victims in each incident. One death was the result of injuries inflicted by a vicious dog, resulting in the owner being charged with voluntary manslaughter.

A firearm of some type was used in 58.7% of the homicides reported in 1991. The majority of these crimes(40.0%) were committed by offenders known to the victims. Characteristics show the victim was most often a male between the ages of 22 and 40. The perpetrator was most likely a male between the ages of 18 and 40. The largest number of homicides were reported in August.

## RAPE

K.S.A. 21-3502 defines rape as:

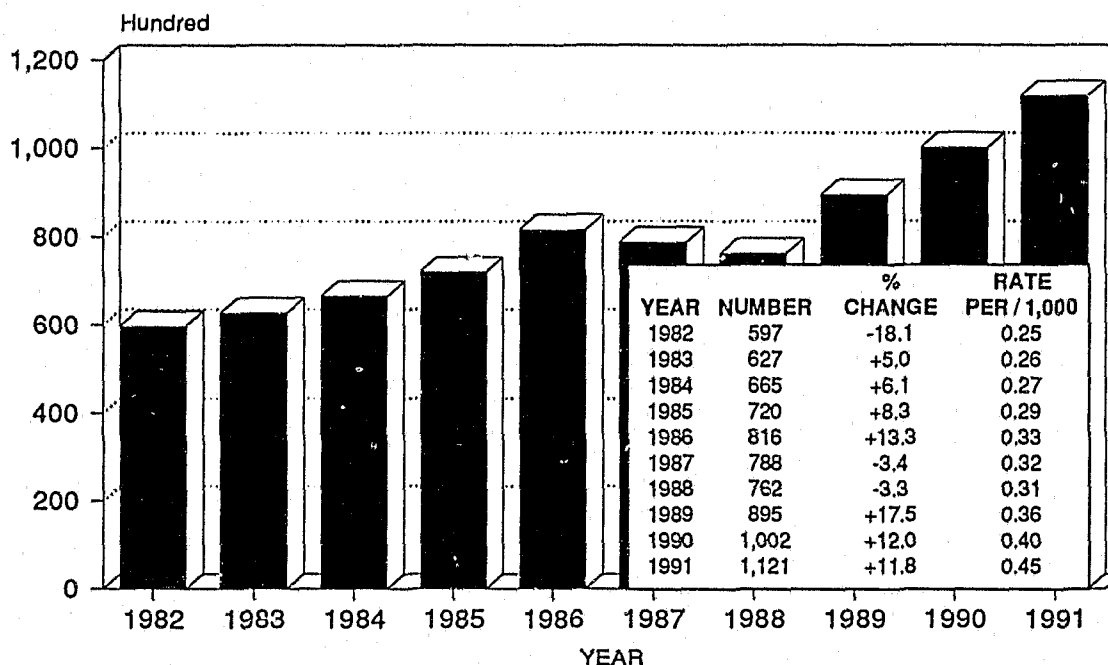

"...sexual intercourse with a person who does not consent to the sexual intercourse..."

The national UCR program does not include male sexual assaults under the rape definition; those are considered "other sex offenses" and fall within the Part II crimes category. However, under Kansas Statutes, male sexual assault is considered rape in some incidents and counted as such. Kansas reported eighteen male victims of rape in 1991.

The number of rapes reported to law enforcement increased 11.8% in 1991, over the number reported in 1990. This is the third straight year that reported rapes have increased. Most rapes (48.5%) occurred in a residence and in 533 (47.5%) cases no weapon was involved. The highest number of rapes occurred in the months of July, August and September. Rapes most frequently happened between the hours of 10:00 P.M. and 4:00 A.M.

The victim was most often a white female between 15 and 19 years of age, who most likely knew her assailant, while the offender was most commonly a white male, age 20 and 24.

## ROBBERY

Under the national UCR program and Kansas law, robbery is:

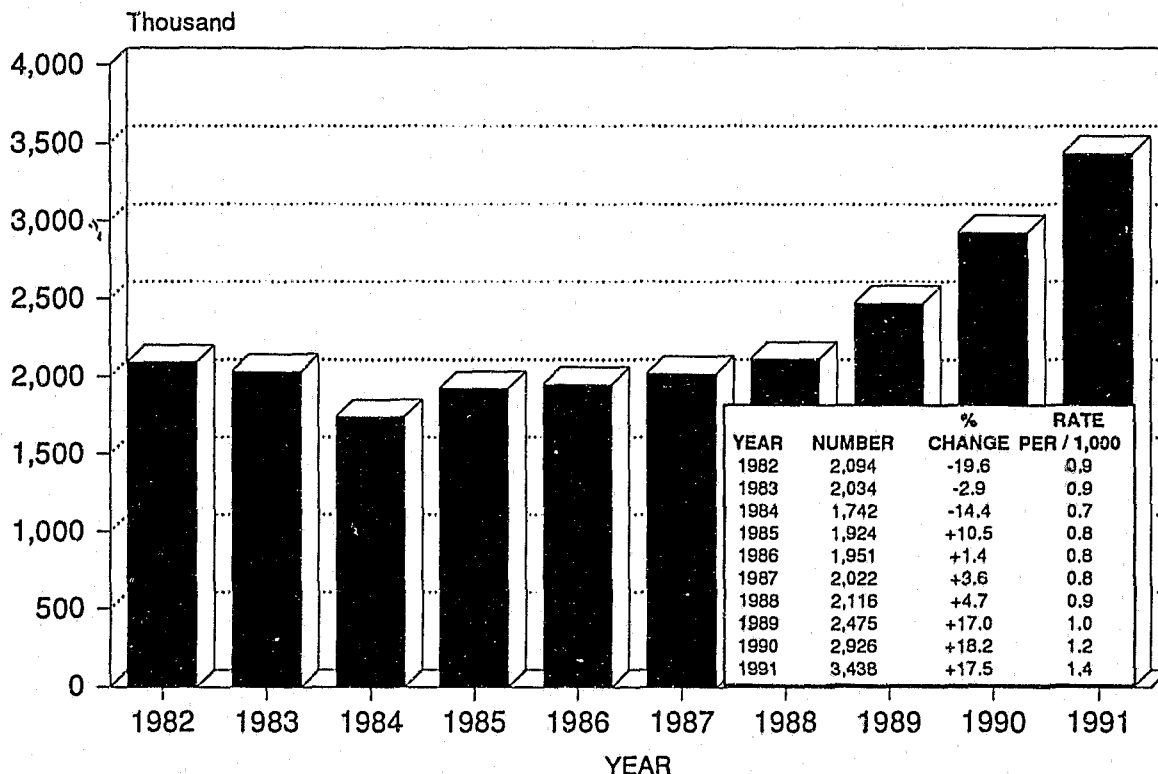

"... the taking of property from the person or presence of another by threat of bodily harm to his person or the person of another or by force".

Robberies reported increased 17.5% in 1991 compared to 1990, this increase mirrors the continuing trend of yearly increases that have occurred since 1985. When comparing 1985 figures to 1991, the state has experienced nearly a seventy-nine percent increase in reported robberies.

The majority of robberies occurred in cities with populations of 10,000 or greater and the largest number (1,443) occurred in business establishments where \$562,269 of property was reported stolen.

The highest number of robberies (349) were reported in December. Robberies most frequently occurred on Saturday night between the hours of 8:00 P.M. and 12:00 A.M. The majority of robberies were committed with a firearm.

## AGGRAVATED ASSAULT / BATTERY

Aggravated assault is defined in Kansas under K.S.A. 21-3410 as:

*"(a) Unlawfully assaulting or striking at another with a deadly weapon; or  
(b) Committing assault by threatening or menacing another while disguised in any manner designed to conceal identity; or  
(c) Willfully and intentionally assaulting another with intent to commit any felony."*

Aggravated battery is defined in Kansas under K.S.A. 21-3414 as:

*"(a) Inflicts great bodily harm upon him; or  
(b) Causes any disfigurement or dismemberment to or of his person; or  
(c) Is done with a deadly weapon, or in any manner whereby great bodily harm, disfigurement, or death can be inflicted."*

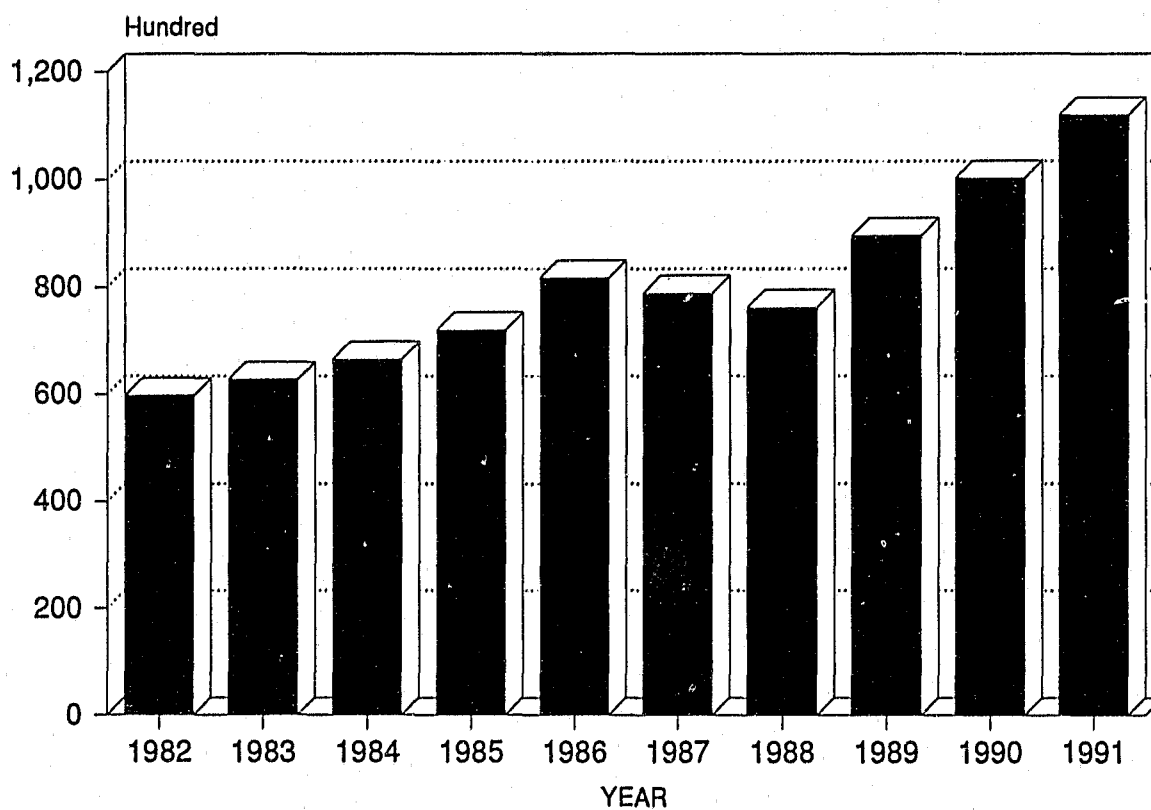

Aggravated assault is defined in the Uniform Crime Report as:

*"An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm,"  
(Uniform Crime Reporting Handbook, 1984, page 16).*

Aggravated assault/battery continued to be the most frequently reported violent crime representing 61.9% of this category. Aggravated assault/battery increased 7.6% in 1991, as compared to 1990. This is the largest number reported since 1982.

Nearly one-third (32.5%) of aggravated assault/battery violations occurred in the summer months of June, July and August. The offenses most frequently occurred on Saturday night between 10:00 P.M. and 2:00 A.M. Most of these offenses involved the use of a weapon (6,205) instead of physical force and in 30.1% of the reported offenses the victim was acquainted with the offender.

## SIMPLE ASSAULT / BATTERY

Assault is defined in Kansas under K.S.A. 21-3408 as:

*"An assault is an intentional threat or attempt to do bodily harm to another coupled with apparent ability and resulting in immediate apprehension of bodily harm. No bodily contact is necessary."*

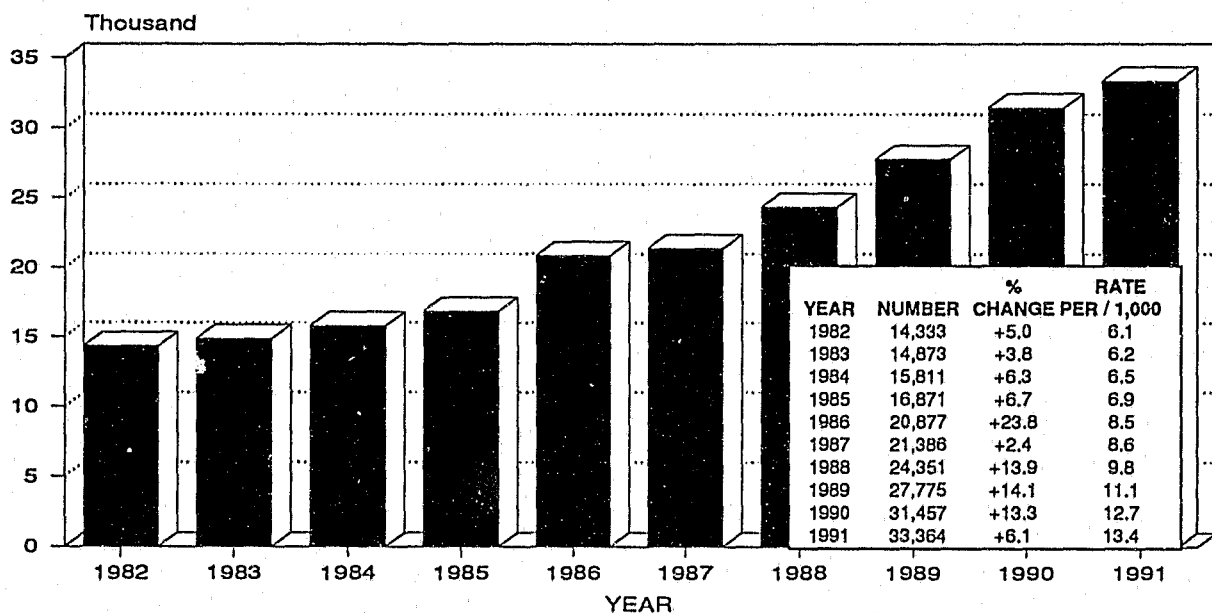

Battery is defined in Kansas under K.S.A. 21-3412 as:

*"Battery is the unlawful, intentional touching or application of force to the person of another, when done in a rude, insolent or angry manner."*

Simple assault / battery (the threat of violence that could result in personal injury) is a Part II crime. In 1991, this totalled 33,364 reflecting a 6.1% increase from 1990. The trend shows a continuing pattern of simple assault / battery increasing in the last decade, with the smallest increase occurring in 1991.

Most simple assault / battery is committed by an acquaintance (25.9%) or by a family member (25.3%) of the victim; most victims, 5,347, are between the ages of 20 and 25. The majority of simple assault / battery offenses occurred on a weekend (51.2%) and happened between the hours of 8:00 P.M. and 2:00 A.M.

## PROPERTY CRIME

Part I property crime, which includes burglary, theft, and motor vehicle theft, increased 4.9% in 1991 and totaled 124,093 reported offenses. The combined total of these three offenses represent slightly over ninety-one percent of the total Crime Index in 1991. The highest number of property crimes occurred in the summer months of July (11,998) and August (12,145). The table depicts the summer months as the time of year that property crimes are most likely to happen or be reported.

Also included is data on arson, which is an additional offense reported to the Uniform Crime Reporting Program, and is currently being collected and reported by the Kansas State Fire Marshal's Office.

Data on criminal damage to property, which is considered a Part II offense under UCR guidelines, is also presented. Criminal Damage statistics are ascertained from those agencies reporting on the Incident Base Reporting System.

## BURGLARY

Burglary in Kansas is defined under K.S.A. 21-3715:

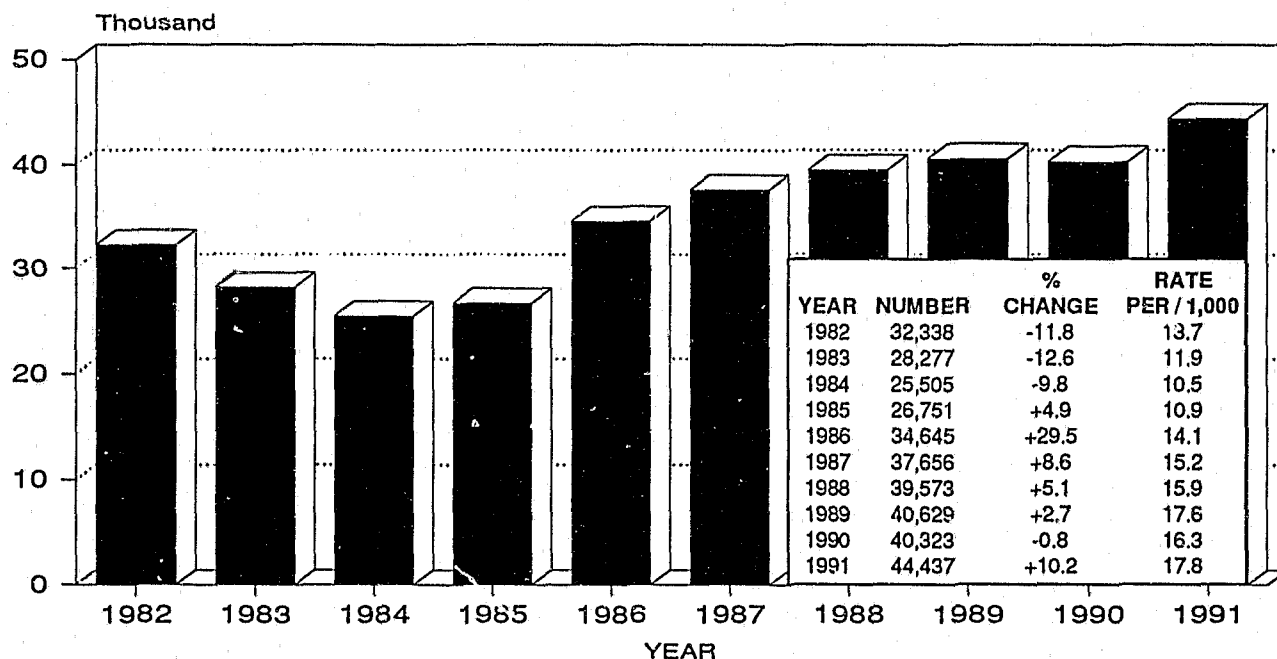

*"...knowingly and without authority entering or remaining within any building, mobile home, tent or other structure, or any motor vehicle, aircraft, water craft, railroad car or other means of conveyance of persons or property, with intent to commit a felony or theft therein."*

The national UCR program does not recognize a vehicle as a structure, therefore, for UCR reporting purposes, breaking into a vehicle has traditionally been counted as theft. However, under Kansas state statute these offenses are classified as burglaries.

In 1990, Kansas experienced a slight decline (0.8%) in the number of reported burglaries which was the first decline in burglary rates in five years. However, 1991 saw a sharp increase (10.2%) in the number of reported burglaries when compared to 1990.

Nearly forty-five percent of residence burglaries occurred during the day, while most non-residence burglaries (56.2%) happened at night. Of the \$35,048,910 worth of property reported as stolen for this offense, 51.7% was taken in residential burglaries and 48.3% from non-residential burglaries.

## THEFT

Kansas Statute K.S.A. 21-3701 defines theft as:

*"...any of the following acts done with intent to deprive the owner permanently of the possession, use, or benefit of the owner's property:*

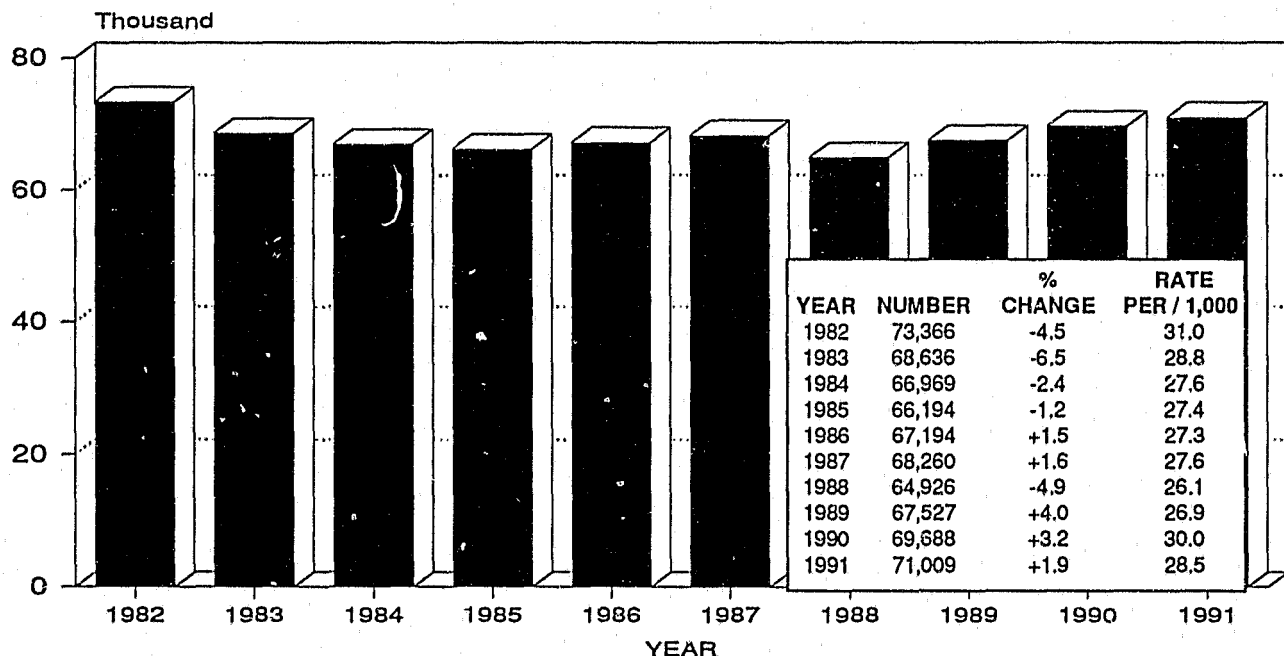

- (a) Obtaining or exerting unauthorized control over property; or*
- (b) Obtaining by deception, control over property; or*
- (c) Obtaining by threat, control over property; or*
- (d) Obtaining control over stolen property knowing the property to have been stolen by another."*

An increase of 1.9% in theft occurred from 1990. Theft was the most frequently reported Part I crime and accounts for 52.1% of the total crime index.

Theft of auto accessories accounted for 17.1% of total thefts reported and amounted to \$2,528,884. The highest number of thefts occurred in August and most frequently happened on Friday (16.2%) between 6:00 P.M. and 8:00 P.M.

Several Kansas statutes meet the definition of theft under UCR guidelines and are counted as such. A list of these statutes and the number of offenses reported for each is included.

## MOTOR VEHICLE THEFT

The national UCR Program separates stolen motor vehicles from the general theft category to allow for more accurate accounting of vehicles stolen. Motor vehicle theft increased 4.2% in 1991, as compared to 1990. Stolen vehicles accounted for 34.2% (\$31,587,292) of total property reported stolen.

It should be noted that a discrepancy in monetary value of stolen vehicles exists in some tables. When a vehicle is taken in the commission of a more serious crime (rape, burglary, etc.) a motor vehicle theft is not tallied, but the vehicle will be counted as property taken during the offense.

## **CRIMINAL DAMAGE**

Criminal Damage to property is defined in K.S.A. 21-3720 as:

"...by means other than fire or explosive:

(a) Willfully injuring, damaging, mutilating, defacing, destroying, or substantially impairing the use of any property in which another has an interest without the consent of such other person; or

(b) Injuring, damaging, mutilating, defacing, destroying, or substantially impairing the use of any property with intent to injure or defraud an insurer or lienholder."

The figures provided in this section are based on statistics from the Incident Base Reporting System and do not include those agencies that are UCR participants only.

There were 35,041 incidents reported in 1991 listing Criminal Damage as the primary offense, which is an increase of 12.8% from 1990.

Criminal Damage loss totaled \$6,540,728 in 1991. The table shows vehicles are the primary target of Criminal Damage (39.6%) and constitute slightly over thirty-nine percent of the total monetary loss.

Criminal Damage most frequently occurred on Friday or Saturday (38.1%) between the hours of 10:00 P.M. and 12 P.M.

## ARSON

Arson is defined in K.S.A. 21-3718 as:

*"...knowingly, by means of fire or explosive:*

*(a) Damaging any building or property in which another person has any interest without the consent of such person;*

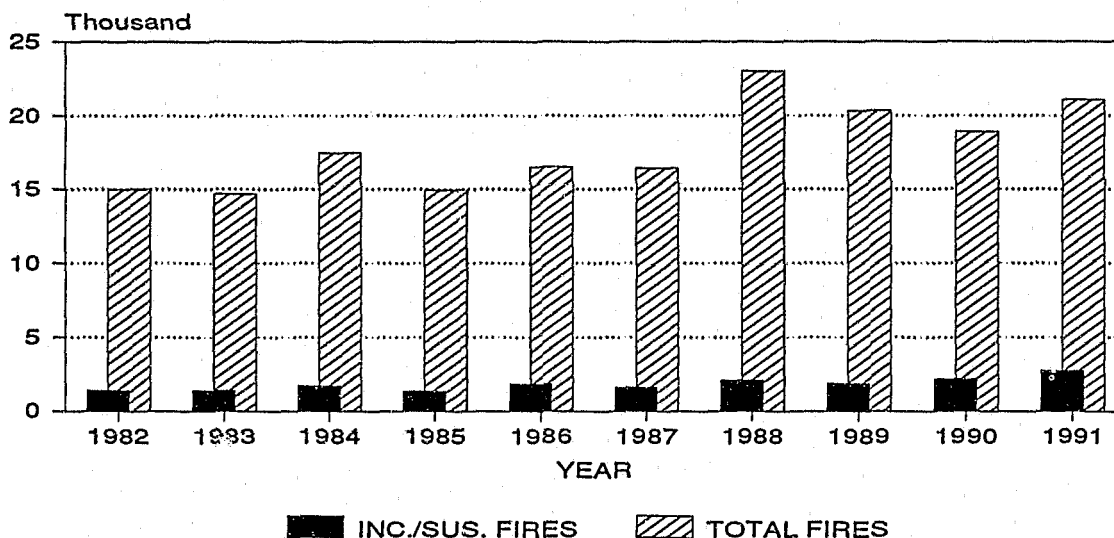

*or*

*(b) Damaging any building or property with intent to injure or defraud an insurer or lienholder."*

Arson statistics for 1991 are based on information provided by the State Fire Marshal's Office as reported under the Kansas Fire Incident Reporting System (KFIRS).

The trend graph depicts yearly total fires as reported to KFIRS as well as the number of incendiary/suspicious fires that occurred in 1991. The data show an overall increase of 11.7% in total reported fires as compared to 1990. The data further show an increase of 27.4% in the number of incendiary / suspicious fires reported in 1991 as compared to 1990.

## STOLEN PROPERTY

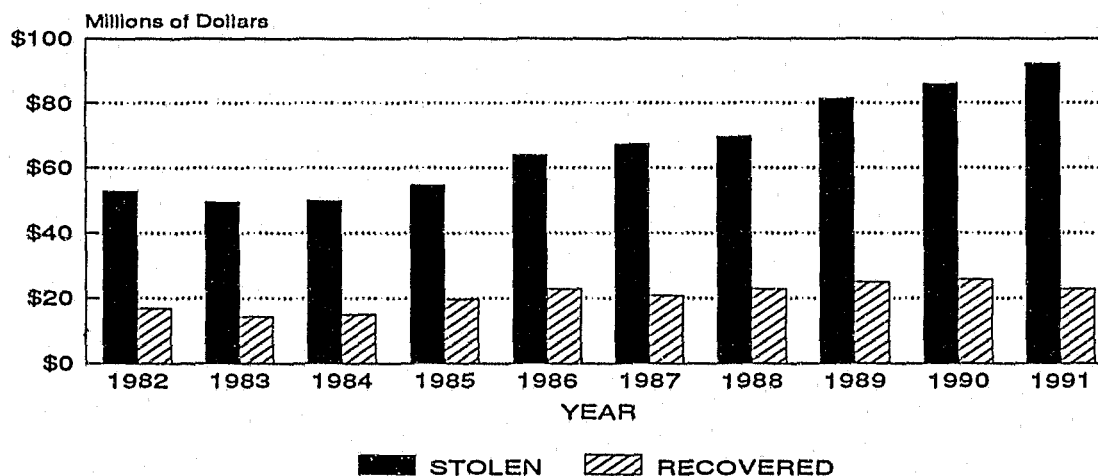

In 1991, property reported stolen equalled \$92,318,375 which is a 7.3% increase from 1990. Agencies recovered \$22,847,960 of property that had been reported stolen either in, or prior to, 1991 (a decrease of 11.3% from 1990).

Motor vehicles accounted for 34.2% of property reported stolen and 82.3% of property recovered.

Nearly seventy-four percent of stolen property was in cities with a population of over 10,000; recovered property totaled \$16,306,908 in these same cities.

A list of property reported stolen through the Incident Base Reporting System is included; this information is used to create the Kansas Stolen Property File. The file is used as a resource for law enforcement agencies to search for recovered property that may have been reported stolen by Kansas agencies. Unlike the National Crime Information Center (NCIC), the Kansas System is unique in that only a property description is required for a search of the file.

## ARRESTS

The total arrests for 1991 increased 8.2% when compared to 1990. However, this is a continuation of an eight year trend which has seen overall arrests increase 73.8% from 1984 to 1991. The largest increase in 1991 arrests was in Part II adult arrests with 86,220 reported in 1990 and 94,301 (an increase of 9.4%) in 1991.

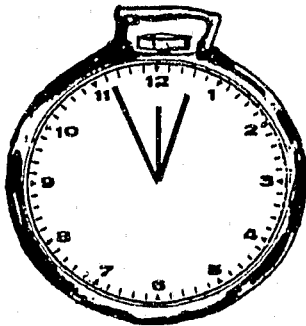

Juveniles seventeen years of age were the most often arrested accounting for twenty-two percent of all juvenile arrests. While the most frequently arrested adults were 24-29 amounting to 20.9% of total adult arrests.

The greatest number of juveniles arrested (6,303) were for the Part I crime of theft. While the largest number of adult arrests (21,461) were for the Class II offense of DUI.

## ARREST CLOCK 1991

ONE  
ARREST  
EVERY 3 MIN., 54 SEC.

ONE  
CRIME INDEX ARREST  
EVERY 19 MIN., 43 SEC.

ONE  
VIOLENT CRIME ARREST  
EVERY 2 HRS., 7 MIN.

ONE  
PROPERTY CRIME ARREST

The arrest clock should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of arrests. This mode of display should not be taken to imply a timed regularity in the arrests of subjects; rather, it represents the annual ratio of arrests to fixed time intervals.

## LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

In the last five years, four Kansas Law Enforcement Officers have been killed in the line of duty. Two of these officers were killed in 1991. A Sedgwick County Sheriff's Office Deputy was killed while attempting to make an arrest on May 12, 1991. Shawnee Police Department lost an officer from injuries suffered in an accident that occurred during a routine traffic stop on July 13, 1991. Of the four officers killed in the last four years, two were members of the Sedgwick County Sheriff's office, one was from the Shawnee Police Department and the remaining officer was with the Kansas City Police Department.

Assaults on law enforcement officers decreased .7% from 1,076 in 1990 to 1,068 in 1991. Of these assaults, eighty-five percent were without serious injury; 933 of these offenses, or 87.4% were committed by personal weapons (hands, fists, feet, etc). The highest incident of assault occurred while responding to some type of disturbance with this category accounting for 41.4% of assaults. Approximately 74.2 % of all assaults on law enforcement officers occurred between the hours of 6:00 P.M. and 4:00 A.M. Slightly over eighty-one percent, or 870, of all assaults were cleared.

## **LAW ENFORCEMENT EMPLOYEES**

The number of full-time sworn and civilian law enforcement employees for 1991 increased 40.8% when compared to 1990. However, a large part of this increase is due to the inclusion of the Department of Correction's prison officers and support personnel for the first time. There were 7,517 sworn employees and 3,011 civilian employees for a total number of 10,528. State level law enforcement agencies employ of 36.7% of the total number of law enforcement employees.

Slightly over sixty percent of the civilian employees were female, while 89.6 % of the sworn employees were male. Approximately fourteen percent of the employees had been in law enforcement and worked at the same agency over fifteen years. Forty-two percent of all law enforcement employees have attended college and 1,127 have four year college degree's.

Also included in this section is a summary of employees by local, county and state agency.
