KANSAS QUARTERLY CRIME STATISTICS

Crime in Kansas showed a decrease of 2.1% during the period January through September, 1992, compared to the same period of 1991, according to quarterly crime statistics released today by the Kansas Bureau of Investigation.

Robert Davenport, KBI Director, said third quarter 1992 crime figures increased 10.9% over the previous three month period (April through June). The Crime Index figures are based upon the Part I crimes of murder, rape, robbery, aggravated assault / battery, burglary, theft and motor vehicle theft.

Violent crime (murder, rape, robbery, aggravated assault / battery) increased 5.1% over 1991 and increased 5.2% over the previous quarter. Property crime (burglary, theft, and motor vehicle theft) decreased 2.8% over 1991 and increased 11.5% when compared to the previous quarter.

On January 1, 1992, the Kansas Bureau of Investigation began collecting information on incidents of domestic violence reported to state and local law enforcement agencies. Included in this release are graphs depicting these trends by statute violation and number of incidents reported monthly since January, 1992.

The table below compares those specific crimes reported to the KBI by approximately 350 law enforcement agencies for January through September, 1992 and 1991, July through September, 1992, and April through June, 1992. Other tables reflect Crime by County, Cities With Population over 5,000, Part I Crimes reported by State University Police Departments, Value of Property Stolen and Recovered for Part I Crimes, Law Enforcement Officers Assaulted, and Juvenile and Adult Arrests by County for the same periods. Also included is a list of statutory violations, as reported in the Incident Based Reporting System, which may include multiple violations in a single incident.

* The above represents all contributing law enforcement agencies within each county. Where large percentage increases or decreases are shown, contributing factors should be taken into consideration, primarily new reporting agencies or no reports received from an agency within the county. Further, these figures include Part One Crimes only, therefore do not represent all criminal offenses reported to an agency.
