INTRODUCTION

The North Dakota Uniform Crime Report (UCR) Program was established in response to the need for timely, accurate, and reliable reporting of the number and nature of crimes. The data obtained through the UCR Program serve as a set of uniformly defined criminal statistics for inter-agency, interstate, or national comparisons.

Crime in North Dakota, 1991 is the result of a comprehensive analysis of the Uniform Crime Reports. It is intended to serve as a summary of statistics on crime in the counties and state of North Dakota and to provide legislators, government administrators (state, county, and city), law enforcement officials, the judiciary, and the general public with the most complete, reliable information available on reported criminal activity in North Dakota.

North Dakota law enforcement agencies may report UCR data in two ways.

Summary Reporting is a tally system of reporting the number of crime index offenses and arrests for each month. The summary system has been in place for many years.

Incident Based Reporting uses a standard incident form to collect data on each incident reported to the agency. This system collects more detailed information than is collected using summary reporting. Some examples of data collected are: type of incident; where and when the incident took place; victim characteristics; suspect/arrestee characteristics; and property involved in the incident.

In order to continue the statistical time series begun with summary reporting, computer programs were written to extract summary data from the incident data reported. Crime in North Dakota, 1991 is a report on summary data. In the future, reports utilizing the more-detailed incident data will be published.

Crime in North Dakota will be published in two Volumes for 1991. Volume I will include various analyses of index crimes reported, property loss to crime, and the number of law enforcement employees. Volume II will provide analysis of clearances and arrests. When analysis of arrest data was undertaken, several problems with that data were discovered. Given the amount of time it may take to correct these problems, the arrest data will be published separately.

Data collection, report preparation and publication of this report is supported by a grant from the Bureau of Justice Statistics, U.S. Department of Justice.

NORTH DAKOTA CRIME SUMMARY, 1991

In 1991, 17,021 crime index offenses were reported by local law enforcement agencies. Strangely, but coincidentally, the same number of crime index offenses were reported in 1990. Crime index offenses include: murder/non-negligent manslaughter; forcible rape; robbery; aggravated assault; burglary; larceny/theft; and motor vehicle theft.

The Census Bureau estimate of North Dakota's population in 1991 was 635,000. The index crime rate per 100,000 population for 1991 was 2680.5. Population in 1990 was estimated to be 638,800. While the same number of index offenses were reported in 1990 and 1991, the decrease in state population results in an increase in the index crime rate of 0.6 percent.

The total number of reported violent index crimes (murder, rape, robbery, and aggravated assault) was 401. This represents an increase of 9.9 percent from the total of 365 reported in 1990. In 1989, 414 violent index crimes were reported.

Violent crime accounted for 2 percent of total index crimes reported in 1991.

Collectively, property crimes (burglary, larceny/theft, motor vehicle theft) decreased 0.2 percent from 16,656 offenses in 1990 to 16,620 reported in 1991. Ninety-eight percent of index crimes reported in North Dakota were property crimes.

The 13,543 larceny/thefts reported in 1991 accounted for nearly 80 percent of total index crimes.

Over 8.4 million dollars worth of property was reported lost to crime in 1991 with 32 percent of that amount reported as recovered by law enforcement officials.

(This page intentionally left blank.)

NORTH DAKOTA UCR PROGRAM

The North Dakota Uniform Crime Reporting (UCR) Program involves the collection, compilation, and analysis of crime and arrest statistics reported by the various local law enforcement agencies throughout the state. Forty-nine sheriff's offices and 37 police departments reported to the UCR program in 1991.

Law enforcement agencies may report UCR data in two ways:

INCIDENT BASED REPORTING: Law enforcement agencies use a standard incident form to collect data on each incident reported to their agency. This form collects much more detailed information than is collected using summary reporting. Data collected includes: type of incident; where and when the incident took place; victim characteristics; suspect/arrestee characteristic; property involved in the incident; etc. Seventy-two agencies reported incident data for all or part of 1991. (Several agencies reported summary data for part of the year then switched to incident-based reporting.)

In order to continue the statistical time-series begun with summary reporting, computer programs were written to extract summary data from the incident data reported. Crime in North Dakota, 1991 is a report on summary data. In the future, reports utilizing the more-detailed incident data will be published.

SUMMARY REPORTING: Law enforcement agencies use a tally system to report the number of crime index offenses and arrests for each month. Fourteen law enforcement agencies reported summary data for the full year of 1991.

The federal counterpart of the North Dakota UCR program is the National UCR program under the direction of the FBI. The UCR Program has been used nationally and in North Dakota for many years to measure the extent, distribution, and fluctuation of crime through the crime index. The crime index is not an absolute measure, but rather an indication of the amount and type of crime occurring in any given jurisdiction. The index is composed of seven crimes recognized as the most serious crimes in our society and the most frequently reported to law enforcement. The seven crimes are subclassified as follows:

VIOLENT CRIME: Murder/Non-Negligent Manslaughter
 Rape
 Robbery
 Aggravated Assault

PROPERTY CRIME: Burglary
 Larceny/Theft
 Motor Vehicle Theft

Federally, a Modified Crime Index is also calculated. This includes arson as the fourth property crime and the eighth index offense. Data on arson is not included in this report.

Prior to an offense becoming recorded in the UCR program, it must first be brought to the attention of local law enforcement officials and then must be reported by these local agencies to the UCR program. Therefore, the UCR program can only reflect crime indirectly in its reports as the statistics gathered in the program are based on reported offenses only. No one can state precisely how much crime goes unreported each year. Reporting of crimes depends on several factors, including actual perception of an act as being a crime, the probability of loss of status for reporting (as in cases of rape), and the perceived probability of action on the part of the law enforcement agency contacted.

Several types of data are gathered, including:

Offense Data - Volume I

- The number of known crime index offenses
- Type and value of stolen property
- Additional information on homicides and arsons
- Law enforcement officers killed or assaulted

Arrest and Clearance Data - Volume II

- Numbers and types of index offenses cleared
- Numbers and types of index offenses cleared involving juveniles
- Number of persons arrested by offense
- Characteristics of persons arrested (age, sex, race)

To allow for comparison among several geographic and/or jurisdictional areas with differing populations, or to allow comparison across time of an area undergoing population fluctuations, the UCR program provides for the calculations of crime rates to remove any potential biases created by population differences. Since a rate relates the incidence of activity to population, it is possible to measure annual fluctuations in criminal activity by comparing rates of crime reported in any given year with those reported in other years. Federally, UCR crime index rates are calculated based on the number of reported offenses per 100,000 population.

Crime Index Offenses

1979	652,000	17,931	2750.2	14.8
1980	652,700	19,324	2960.6	7.7
1981	652,200	19,681	3017.6	1.9
1982	670,000	17,601	2627.0	-12.9
1983	680,000	18,007	2648.1	0.8
1984	686,000	17,479	2548.0	-3.8
1985	686,000	18,159	2647.1	3.9
1986	679,000	17,458	2571.1	-2.9
1987	672,000	18,884	2810.1	9.3
1988	663,000	18,077	2726.5	-3.0
1989	660,000	16,704	2530.9	-7.2
1990	638,800	17,021	2664.5	5.3
1991	635,000	17,021	2680.5	0.6

* Population figures are Census Bureau Estimates.

** Rate is calculated as the number of crimes reported per 100,000 population.

*** Prior to 1973, the larceny/theft category of index crimes included only those offenses of \$50.00 and over. In 1973, this category was expanded to include all larceny theft without regard to dollar value. These figures have been adjusted to include an estimate of larceny/theft offenses under \$50.00.

TABLE III
Percent Change In Index Crime Rate
From Base Year 1971
North Dakota, 1971-1991

Year	Crime Rate per 100,000	Percent Change From Base Year(1971)
1971	1984.1	-
1972	1991.0	0.4 %
1973	2104.7	6.1
1974	2170.3	9.4
1975	2326.2	17.2
1976	2505.7	26.3
1977	2496.9	25.9
1978	2395.5	20.7

1987	2810.1	41.6
1988	2726.5	37.4
1989	2530.9	27.6
1990	2664.5	34.3
1991	2680.5	35.1

VIOLENT CRIME

Violent crime includes the offenses of murder/non-negligent manslaughter, forcible rape, robbery, and aggravated assault. See Appendix A for UCR definitions of these and other index offenses. In 1991, 401 violent crimes were reported in North Dakota. This is a 9.9 percent increase over the 1990 total of 365 offenses. Violent crime totaled 2.4 percent of reported index crimes in North Dakota. Nationally, the FBI reported that violent crimes were approximately 13 percent of total index offenses. See Appendix F for information regarding violent crime rates reported in Crime in the United States, 1991.

Figure II below illustrates the yearly totals of violent crimes reported in North Dakota for the period of 1970 through 1991. See Appendix E for totals and rates of violent crime.

FIGURE II
Violent Crime Totals
1970-1991

MURDER/NON-NEGLIGENT MANSLAUGHTER

The UCR program defines Murder/Non-negligent Manslaughter as the "willful killing of one human being by another." Attempts to murder, assaults to murder, suicides, accidental deaths, justifiable homicides, and deaths caused by gross negligence are **not** included in this category.

Eleven murder/non-negligent manslaughters were known to the North Dakota UCR program in 1991. This results in a murder/non-negligent manslaughter rate of 1.7 per 100,000 population. In 1990, 8 deaths due to this offense were reported. The national murder rate for 1991 was estimated at 9.8 per 100,000 inhabitants.

Figure III below presents the yearly homicide death totals for the period 1970-1991. Homicide deaths average 9 per year during this period. See Appendix E for yearly totals and rates of homicide.

FIGURE III
Homicide Totals
1970-1991

TABLE IV
Summary of Homicides
North Dakota, 1991

Date and Location of Incident	Victim(s)		Assailant(s)		Weapon Used	Relationship of Victim to Assailant	Circumstances
	AGE	SEX	AGE	SEX			
03/27/91 Jamestown	48	F	39	M	Strangulation	Acquaintance	Victim had been strangled.
03/31/91 Powers Lake Burke County	6 6	F F	17	M	Arson	Acquaintance	Victims were twins that died in an arson fire.
04/07/91 Fargo	32	M	23 22	M M	Rock	Acquaintances	Victim was found bound and gagged and had been hit on the head with a rock.
06/21/91 Grand Forks	60	F	39	M	Strangulation	Girlfriend	Victim was found in her bedroom and had been strangled.
08/31/91 Rural Lankin Walsh County	58	F	60	M	.22 Cal Rifle	Wife	Murder-suicide.
09/12/91 Jamestown	69	M	UNKNOWN		Autopsy report not released.	UNKNOWN	Man was found wrapped in a sheet in trunk of car.
09/14/91 Dunseith Rolette County	24	M	25	M	.22 Cal. Rifle	Acquaintance	Domestic dispute.
09/21/91 Rural Fairmount Richland County	8 40	F F	49	M	12-guage Shotgun	Daughter Wife	Double Murder-Suicide
10/21/91 Cannon Ball Standing Rock Res.	26	M	UNKNOWN		Knife	UNKNOWN	Victim was stabbed.

Table IV summarizes the circumstances of the 1991 incidents. Nine of the 11 murder/non-negligent manslaughters have been cleared by the identification of the assailant by law enforcement. All of the known assailants were relatives or acquaintances of their victims.

Seven of the 11 victims were female. Three of the victims were juvenile. Four victims were slain with firearms, one victim died as the result of a stabbing, two were strangled, two died in an arson fire, and one victim died as the result of a blow to the head with a rock. Autopsy results have not been released in one case because of an on-going investigation.

FORCIBLE RAPE

The UCR program defines Forcible Rape as "carnal knowledge of a female forcibly and against her will." Assaults to rape, attempts to commit rape by force or threat of force are included. Carnal abuse, statutory offenses (no force -- victim under age of consent), and other sex offenses are **not** included.

There were 120 forcible rapes reported in North Dakota in 1991. This is an increase of approximately 22 percent from the 1990 total of 98 offenses. Of the forcible rape offenses, 110 were rapes by force and 10 were reported as assaults or attempts to rape. Figure IV is a graph of yearly totals for reported rapes during the period 1970 through 1991. See Appendix E for yearly totals and rates of forcible rape.

**FIGURE IV
Rape Totals
1970-1991**

Since the UCR definition states that victims of rape must be female, the rate of occurrence for reported rapes is calculated based only on the female population. The Census Bureau's 1991 population estimate for North Dakota is 635,000. The number of females is approximately half of that figure. The resulting rate

is 37.8 reported rapes per 100,000 females in 1991, compared with 30.7 per 100,000 females in 1990. Nationally, the FBI's UCR statistics estimate a forcible rape rate of 83 per 100,000 females.

In North Dakota, forcible rape accounted for about 30 percent of violent index crimes and 0.7 percent of total index crimes reported. Murder/non-negligent manslaughter and robbery are the only offenses which have smaller percentages, accounting for 0.1 percent and 0.3 percent of total index offenses, respectively.

See Appendix B for the number of rapes and rate reported by each UCR reporting jurisdiction.

ROBBERY

Robbery is defined by the UCR program as "the taking or attempting to take anything of value from the care, custody or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear."

Forty-seven robberies were reported in North Dakota in 1991, an increase of 30.6 percent from the 36 reported in 1990. Figure V presents reported robberies totals each year for 1970-1991.

**FIGURE V
Robbery Totals
1970-1991**

The 1991 robbery rate was approximately 7.4 per 100,000 population as compared with 5.6 per 100,000 population in 1990. The national robbery rate was estimated at 273 per 100,000 inhabitants.

The UCR program categorizes robberies both by type of weapon used and type of victim (individual, commercial, household, etc.). Table V provides a breakdown by type of weapon used. About 30 percent of the reported robberies involved the use of personal weapons (hands, fists, feet, etc.). Firearms were used in 17 percent of the incidents.

Nationally, firearms were used in 40 percent of robberies and another 40 percent involved strong-arm tactics. Knives and other dangerous weapons were used in 11 and 9 percent, respectively.

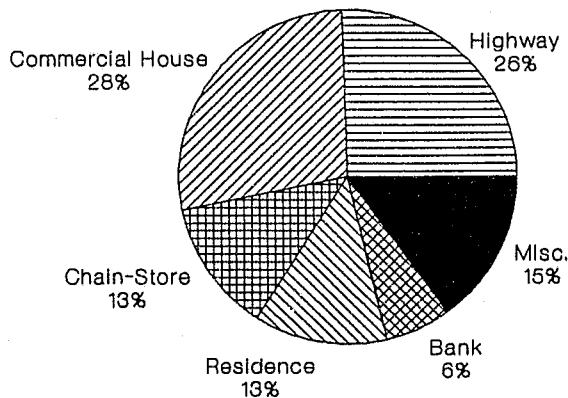

TABLE V
Robbery by Type of Weapon Used
North Dakota, 1991

Type of Weapon	Number of Reported Incidents	Percent of Total Reported Robbery Offenses
Firearm	8	17.0 %
Knife or Cutting Instrument	7	14.9
Hands, Fists, Feet, etc.	14	29.8
Other Weapons	18	38.3
TOTAL	47	100.0

Figure VI presents a breakdown of reported robberies by type of victim in North Dakota in 1991.

The value of property reported stolen in robberies in North Dakota was \$22,989, compared with \$12,893 in 1990. See the section on Property Loss Due to Crime for more information.

FIGURE VI
Type of Robbery

AGGRAVATED ASSAULT

The UCR program defines Aggravated Assault as "an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed."

In 1991, 223 aggravated assaults were reported in North Dakota. The same number of offenses were reported in 1990. The resulting aggravated assault rate for 1991 was 35.1 per 100,000 population. The FBI estimated a national aggravated assault rate of 433 per 100,000 population.

Nationally, 31 percent of aggravated assaults involved the use of blunt objects or other dangerous weapons. Twenty-seven percent involved personal weapons, 24 percent involved firearms and 18 percent involved the use of a knife.

Figure VII illustrates the breakdown of aggravated assaults by type of weapon used.

Approximately 52 percent of all reported aggravated assaults in North Dakota in 1991 involved the use of personal weapons (hands, fists, feet, etc.). Firearms were used in approximately 4 percent of the total aggravated assaults.

FIGURE VII
Type of Aggravated Assault

Figure VIII illustrates the yearly totals of aggravated assaults for the period 1970 - 1991. See Appendix E for yearly totals and rates for aggravated assaults.

FIGURE VIII
Aggravated Assault Totals
1970-1991

PROPERTY CRIME

Property crime includes the offenses of burglary, larceny/theft, and motor vehicle theft. In 1991 the total number of property crimes reported was 16,620. This is a decrease of 0.2 percent from the 1990 total of 16,656 offenses. Property crime accounts for approximately 98 percent of the index offenses reported in North Dakota.

By offense category, burglary decreased approximately 2 percent, larceny/theft increased less than one-half of 1 percent, and motor vehicle theft decreased nearly 3 percent.

Figure IX presents property crime totals in North Dakota for the period from 1970 through 1991. See Appendix E for yearly totals and rates for property crime.

FIGURE IX
Property Crime Totals
1970-1991

BURGLARY

The UCR program defines burglary as the "unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as burglary." Burglaries are classified into three categories: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

Figure X illustrates the proportion of total burglaries reported for each of the three categories.

FIGURE X
Type of Burglary

In 1991, 2,305 burglaries were reported to the UCR program. This is a 2.2 percent decrease from the total of 2,357 reported in 1990.

The average dollar value per offense decreased approximately 28 percent from \$935 in 1990 to \$670 in 1991. Financial losses to North Dakota citizens due to burglaries are substantial.

The UCR program also classifies burglaries by the time and place of occurrence. Table VI below presents this breakdown. Approximately 51 percent were burglaries of non-residences. Fifty-five percent of the burglaries occurred at night.

TABLE VI

Burglary
by Location and Time of Occurrence
North Dakota, 1991

	Residence	Non-residence	Total
Night	526	735	1,261
Day	390	327	717
Unknown	220	107	327
Total	1,136	1,169	2,305

The rate of burglaries based on population is 363.0 per 100,000 inhabitants for 1991, as compared with 369.0 per 100,000 in 1990. Nationally, the estimated rate was 1252 per 100,000 population.

Figure XI illustrates burglary totals each year for the period of 1970 through 1991. See Appendix B for more information on the number of reported burglaries and rate of occurrence for each reporting jurisdiction.

FIGURE XI
Burglary Totals
1970-1991

LARCENY/THEFT

The UCR program defines larceny/theft as the "unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., in which no use of force, violence or fraud occurs. In the Uniform Crime Reporting Program, this crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is also excluded from this category inasmuch as it is a separate crime index offense." A total of 13,543 larceny/thefts were reported in

North Dakota in 1991. This is a 0.3 percent increase from the 1990 total of 13,505. The larceny/theft rate per 100,000 population was 2132.8 compared to 2114.1 in 1990. The average dollar value per offense decreased from \$479 in 1990 to \$348 in 1991. Larceny/thefts accounted for 79.6 percent of the total index offenses reported and amounted to approximately 56 percent of the total value of stolen property. Nationally, the FBI estimated larceny/theft rate for 1991 was 3229 per 100,000 population.

A percentage distribution of reported larceny/thefts is presented in Table VII. The largest single category of reported larceny/thefts was thefts from motor vehicles with nearly 18 percent. Approximately 26 percent of all larceny/thefts reported in North Dakota fall into the "All other" category.

TABLE VII
Larceny/Theft by Type of Property
North Dakota, 1991

Type of Larceny	Number of Incidents	Percent of Total Larcenies
From Motor Vehicle	2,403	17.7 %
From Building	2,158	15.9
Shoplifting	1,976	14.6
Motor Vehicle Access.	1,898	14.0
Bicycle	1,415	10.5
From Coin-Op. Mach.	130	1.0
Purse-Snatching	34	0.3
Pocket-Picking	17	0.1
All Other	<u>3,512</u>	<u>25.9</u>
TOTAL	13,543	100.0

The UCR program classifies larceny/theft offenses by the dollar values involved. See Table VIII.

Table VIII
Monetary Value of Larceny/Theft
North Dakota, 1991

Value	Number of Incidents	Percent of Total Larcenies
Under \$50	4,650	34.3 %
\$50 to \$200	4,084	30.2
Over \$200	4,809	35.5
Total	13,543	100.0

The total reported larceny/thefts in North Dakota each year from 1970 through 1991 is illustrated in Figure XII.

FIGURE XII
Larceny/Theft Totals
1970-1991

MOTOR VEHICLE THEFT

Motor vehicle theft is defined by the UCR program as "the theft or attempted theft of a motor vehicle, this offense category includes the stealing of automobiles, trucks, buses, motorcycles, motorscooters, snowmobiles, etc. The definition excludes the taking of a motor vehicle for temporary use by those persons having lawful access."

A total of 772 motor vehicle thefts were reported in 1991. This is a decrease of 2.8 percent from the 1990 total of 794. The resulting motor vehicle theft rate for North Dakota is 121.6 per 100,000 population. A national motor vehicle theft rate estimate of 659 per 100,000 population was reported in Crime in the United States, 1991.

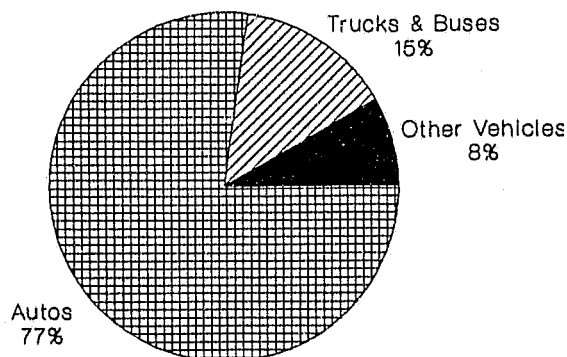

Figure XIII illustrates the total motor vehicle thefts each year from 1970 through 1991.

FIGURE XIII
Motor Vehicle Theft Totals
1970-1991

The UCR program classifies motor vehicle thefts by type of vehicle. Figure XIV illustrates the percentage distribution for each category. The "Other Vehicles" category in the diagram includes all other motor vehicles as limited by the UCR program definition. Examples include motorcycles, snowmobiles, trail bikes, etc. Thefts of farm equipment, airplanes, and construction equipment are not included in the motor vehicle theft category, but are reported as larceny/thefts.

FIGURE XIV
Type of Vehicle Stolen

PROPERTY LOSS TO CRIME

Table IX presents the annual statewide dollar value of reported property losses, value of property recovered, and percent recovered for the period of 1977 through 1991.

TABLE IX
Property Loss to Crime
North Dakota, 1977-1991

Year	Value Stolen	Value Recovered	Percent Recovered
1977	\$4,647,442	\$2,181,163	47 %
1978	5,969,383	2,790,073	47
1979	7,053,153	3,568,907	51
1980	8,773,753	3,992,838	46
1981	8,865,139	4,109,378	46
1982	8,725,532	4,305,097	49
1983	8,782,823	3,957,757	45
1984	7,740,904	3,448,505	45
1985	8,116,022	3,686,750	45
1986	7,452,333	3,303,453	44
1987	8,577,693	3,165,137	37
1988	9,225,631	3,391,176	37
1989	8,251,241	3,302,306	40
1990	11,115,640	3,440,667	31
1991	8,443,034	2,698,099	32

Table X provides a breakdown of value of property reported stolen by type of property. Thirty-two percent of the total dollar value of property stolen was recovered in 1991. Locally stolen motor vehicles accounted for over 29 percent of the total dollar value of property reported stolen. Seventy-eight percent of the value of locally stolen motor vehicles was recovered in 1991.

Table XI on the next page presents the value of property stolen in terms of type of index offense involved. Average dollar value per offense is also included in this table. The average dollar value per robbery was \$489 and the average burglary involved of \$670 worth of property. Larceny/thefts involved property worth \$348 on the average. Motor vehicle thefts averaged \$2,800 per offense in 1991.

INDEX CRIME BY CONTRIBUTOR

Total reported index offenses are presented from several different perspectives in the following sections to provide comparisons as to where crime occurred in North Dakota in 1991.

INDEX OFFENSES BY INDIVIDUAL JURISDICTIONS

In 1991, 49 of the 53 county sheriff's departments reported directly to the UCR program. Thirty-seven city police departments submitted data.

Table XII lists county population, the number of index offenses reported by the county sheriff's office and county index crime rate per 100,000 population for 1991. Total offenses reported varied from 299 reported by the Cass County Sheriff's Office to one index offense reported by Slope County Sheriff's Office.

Large cities often have a significant influence on the crime rate in the surrounding county. A county's crime rate is calculated using the county population (not including the population of any cities which are also UCR reporting jurisdictions) and the total number of index offenses reported by the county sheriff (not including index offenses reported by city police departments).

Table XIII on the next page ranks the cities by crime rate per 100,000 population for 1991. Appendix B, "Index Offenses by Jurisdiction," provides more detail on what type of crimes are most frequently reported by each jurisdiction. Appendix C, "Percent Contributions Reported by Jurisdiction," lists the percentages of total statewide index crime per reporting jurisdiction.

32	Cooperstown	1,247	3	240.6
33	Thompson	924	2	216.5
34	Wishek	1,164	2	171.8
35	Elgin	760	1	131.6
36	Linton	1,401	1	71.4
37	Oakes	1,764	0	0.0

Geographic size and population size seem to impact reported crime most significantly when a relatively large population is grouped into a relatively small geographical area, as in the cases of the East Central and Northeast Central Judicial Districts. Figure XVI shows the relative proportion of the total statewide index crime reported by law enforcement agencies in each of the judicial districts.

FIGURE XV
Index Crime Rate by Judicial District

District	Population	Index Total	Rate/100,000	Rank
Northwest	97,764	2,569	2,627.8	4
Northeast	87,641	1,294	1,476.5	7
Northeast Central	77,926	3,224	4,137.3	1
East Central	113,410	3,803	3,353.3	3
Southeast	81,332	1,471	1,808.6	5
South Central	136,002	3,996	3,938.2	2
Southwest	40,925	663	1,620.0	6

FIGURE XVI
Index Offenses by Judicial District

INDEX CRIME BY JUDICIAL DISTRICT

This section presents index crime rates calculated for each judicial district to provide for ready comparison with data on court caseloads published annually by the state court administrator. Figure XV is a map of the judicial district boundaries. The crime rate for each district for 1991 is shown beneath the map and a ranking is given by crime rate.

RURAL-URBAN

The "urban" areas of the state were originally defined in 1980 as those communities with populations of 2,500 or greater and which reported directly to the UCR program. This was an arbitrary determination and definition, but it does allow us to talk about rural crime without addressing the state as a whole. The 16 cities listed below were included in our definition of "urban" areas. Some of these cities no longer have populations of at least 2,500 and the cities of Beulah and Hazen have grown to more than 2,500 population. However, to maintain continuity, we will continue using the same list of cities to determine the "urban" population. All other portions of the state are designated as "rural" for purposes of this section.

City	Population
Bismarck	48,962
Carrington	2,253
Devils Lake	7,735
Dickinson	16,001
Fargo	73,717
Grand Forks	49,130
Grafton	4,811
Harvey	2,249
Jamestown	15,478
Mandan	15,086
Minot	34,338
Rugby	2,891
Valley City	7,120
Wahpeton	8,698
West Fargo	12,213
Williston	13,052
TOTAL	313,734

While more than 50 percent of the state's population is "rural", the rural areas have contributed less than 25 percent of the total index crimes reported annually. See Table XIV for more information.

TABLE XIV

Rural-Urban Index Crime Distribution
North Dakota, 1982-1991

	Population	Index Offenses	Rate/100,000	% of Total	%change In Rate
1982	Rural 370,531 (55%)	4,019	1084.7	23%

	Urban 313,734 (49%)	13,702	4387.4	81%	-.3%

APPENDICES

(This page intentionally left blank.)

OFFENSES IN UNIFORM CRIME REPORTING

Offenses in Uniform Crime Reporting are divided into two groupings designated as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Arrest data are reported for Part I and Part II offenses. The Crime Index is composed of offenses 1-7 with the exception as noted in item 1 below.

NOTE: The classifications of these offenses for UCR reporting purposes are based on law enforcement investigation as opposed to determination by a court, medical examiner, jury, or other judicial hearing.

PART I OFFENSES

1. CRIMINAL HOMICIDE

a. Murder and non-negligent manslaughter:

The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty; and (2) the killing of a felon by a private citizen.

b. Manslaughter by negligence:

The killing of another person through gross negligence. Excludes traffic fatalities. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

2. FORCIBLE RAPE

The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory

offenses (no force used -- victim under age of consent) are excluded.

3. ROBBERY

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or putting the victim in fear.

4. AGGRAVATED ASSAULT

An unlawful act by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.

5. BURGLARY

Breaking or entering. The unlawful entry of a structure to commit a felony or theft. Attempted forcible entry is included.

6. LARCENY/THEFT

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.

7. MOTOR VEHICLE THEFT

The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.

8. Arson

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle, personal property of another, etc.

PART II OFFENSES

9. OTHER ASSAULTS (SIMPLE)

Assaults or attempted assaults where no weapon was used or which did not result in serious or aggravated injury to the victim.

10. FORGERY AND COUNTERFEITING

Making, altering, uttering, or possessing, with intent to defraud, anything false which is made to appear true. Attempts are included.

11. FRAUD

Fraudulent conversion and obtaining money or property by false pretenses. Included are larceny by bailee and bad checks except forgeries and counterfeiting.

12. EMBEZZLEMENT

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

13. STOLEN PROPERTY-- BUYING, RECEIVING, POSSESSING

Buying, receiving, or possessing stolen property, including attempts.

14. VANDALISM

Willful or malicious destruction, injury, disfigurement, or defacement of any public or private property, real or personal without consent of the owner or person having custody or control.

15. WEAPONS -- CARRYING, POSSESSING, ETC.

All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers. Attempts are included.

16. PROSTITUTION AND COMMERCIALIZED VICE

Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring, or transporting women for immoral purposes. Attempts are included.

17. SEX OFFENSES (except forcible rape, prostitution, and commercialized vice)

Statutory rape and offenses against chastity, common decency, morals and the like. Attempts are included.

18. DRUG ABUSE VIOLATIONS

State and local offenses relating to narcotic drugs, such as unlawful possession, sale, use, growing and manufacturing of narcotic drugs.

19. GAMBLING

Promoting, permitting, or engaging in illegal gambling.

20. OFFENSES AGAINST FAMILY AND CHILDREN

Non-support, neglect, desertion, or abuse of family and children.

21. DRIVING UNDER THE INFLUENCE

Driving or operating any vehicle or common carrier while drunk or under the influence of liquor or narcotics.

22. LIQUOR LAWS

State or local liquor law violations, except "drunkenness" (offense 23) and "driving under the influence" (offense 21).

23. DRUNKENNESS

Drunkenness or intoxication. Excluded is "driving under the influence" (offense 21).

24. DISORDERLY CONDUCT

Breach of peace.

25. VAGRANCY

Vagabondage, begging, loitering, etc.

26. ALL OTHER OFFENSES

All violations of state or local laws, except offenses 1-25 and traffic offenses.

27. SUSPICION

No specific offense; suspect released without formal charges being placed.

28. CURFEW AND LOITERING LAWS

Offenses relating to violation of local curfew or loitering ordinances where such laws exist.

29. RUNAWAYS

Limited to juveniles taken into protective custody under provisions of local statutes.

**NUMBER AND RATE OF INDEX CRIMES
BY REPORTING JURISDICTION
NORTH DAKOTA, 1991**

The rate per 100,000 population is shown in parentheses immediately below the actual number of incidents reported for each offense type. A county-wide total is also shown for each of those counties which have more than one reporting jurisdiction within its geographic boundaries.

County	Reporting Jurisdiction	Index Crime	Murder/ Non-neg Mans.	Rape	Robbery	Aggravated Assault	Burglary	Larceny/ Theft	Motor Vehicle Theft

1989	660,000	734	111.2
1990	638,800	794	124.3
1991	635,000	772	121.6

* Population figures are Census Bureau Estimates.

** Rate is calculated as the number of crimes reported per 100,000 population.

(This page intentionally left blank.)

Ranking of States by Crime Rates Reported in Crime in the United States, 1991

Rates reported in Crime in the U.S., 1991, will vary from those reported in other sections of this report because the FBI estimates data for those agencies not reporting to the UCR program.

Overall Crime Rate			Violent Crime Rate		
Rank	State	Rate/100,000	Rank	State	Rate/100,000
1.	Florida	8547.2	1.	Florida	1184.3
2.	Texas	7819.1	2.	New York	1163.9
3.	Arizona	7405.6	3.	California	1089.9
4.	California	6772.6	4.	Illinois	1039.2
5.	New Mexico	6679.3	5.	South Carolina	972.5
