INTRODUCTION

Crimes motivated by hate and bias tend to erode the basic fabric of society. Bias incidents having a racial, religious, ethnic or sexual component manifest themselves in a wide spectrum of criminal activities. These bias incidents jeopardize the active and open pursuit of freedom and opportunity. They attack the racial, religious, ethnic heritage and sexual orientation of our citizens. Closely linked to such heritage are individual values, beliefs and identities.

Realizing that no agency within the state was collecting complete data on bias incidents, a broad-based Ad Hoc committee was created to develop a comprehensive statewide reporting system. As a result of the committee's recommendations, Attorney General Executive Directive No. 1987-3 was issued mandating all New Jersey law enforcement agencies to begin reporting bias incidents to the Division of State Police, Uniform Crime Reporting Unit on a monthly basis, effective January 1, 1988.

The directive was instituted to capture vital data in an effort to identify the problem. This information will permit proper evaluation of progress in preventing bias crime and assist with necessary planning for the future.

This is the fifth annual publication concerning bias crimes, which contains comparisons to the previous year's statistics. The published statistics and graphs are the result of data submitted by the police community of New Jersey.

Hopefully, the information contained in this publication will be of value to various segments of society and serve its intended purpose.
