E X P A N S I O N

The Louisville Division of Police, after thirty years of centralized operation, initiated a program of decentralization in order to establish closer community ties between the Louisville Division of Police and the public which it serves and to encourage greater community interest in police operations. To date, this effort of decentralization has met with public approval and the initial moves have been received by members of the Louisville Division of Police with enthusiasm.

The initial step in this program was the opening of the Model, or Experimental Police District with funding from a Federal Grant. On December 1, 1973, this District began operating at Central Park, located at Fourth and Magnolia Streets in a building formerly occupied by the Parks Department. This District introduced several new policing techniques including a concept of sector policing. Upon termination of the Federal Grant funding this operation, the District became and is today the Fifth Police District. Even though the District is no longer known as the Experimental Police District, the philosophies established have been continued. Included in this philosophy is the Community Involvement Program, in which the members of this District have attempted to establish meaningful communications with the public in hopes of increasing citizen interest and involvement in public safety. Eventually, due to the increased communications and cooperation between the police and the community it is anticipated that there will be a reduction in crime and an increase in creative institutional change. In addition to this, several of the policing techniques instituted earlier in the Experimental Police District such as the motor scooter patrol and the crime control cars have continued as a successful operation.

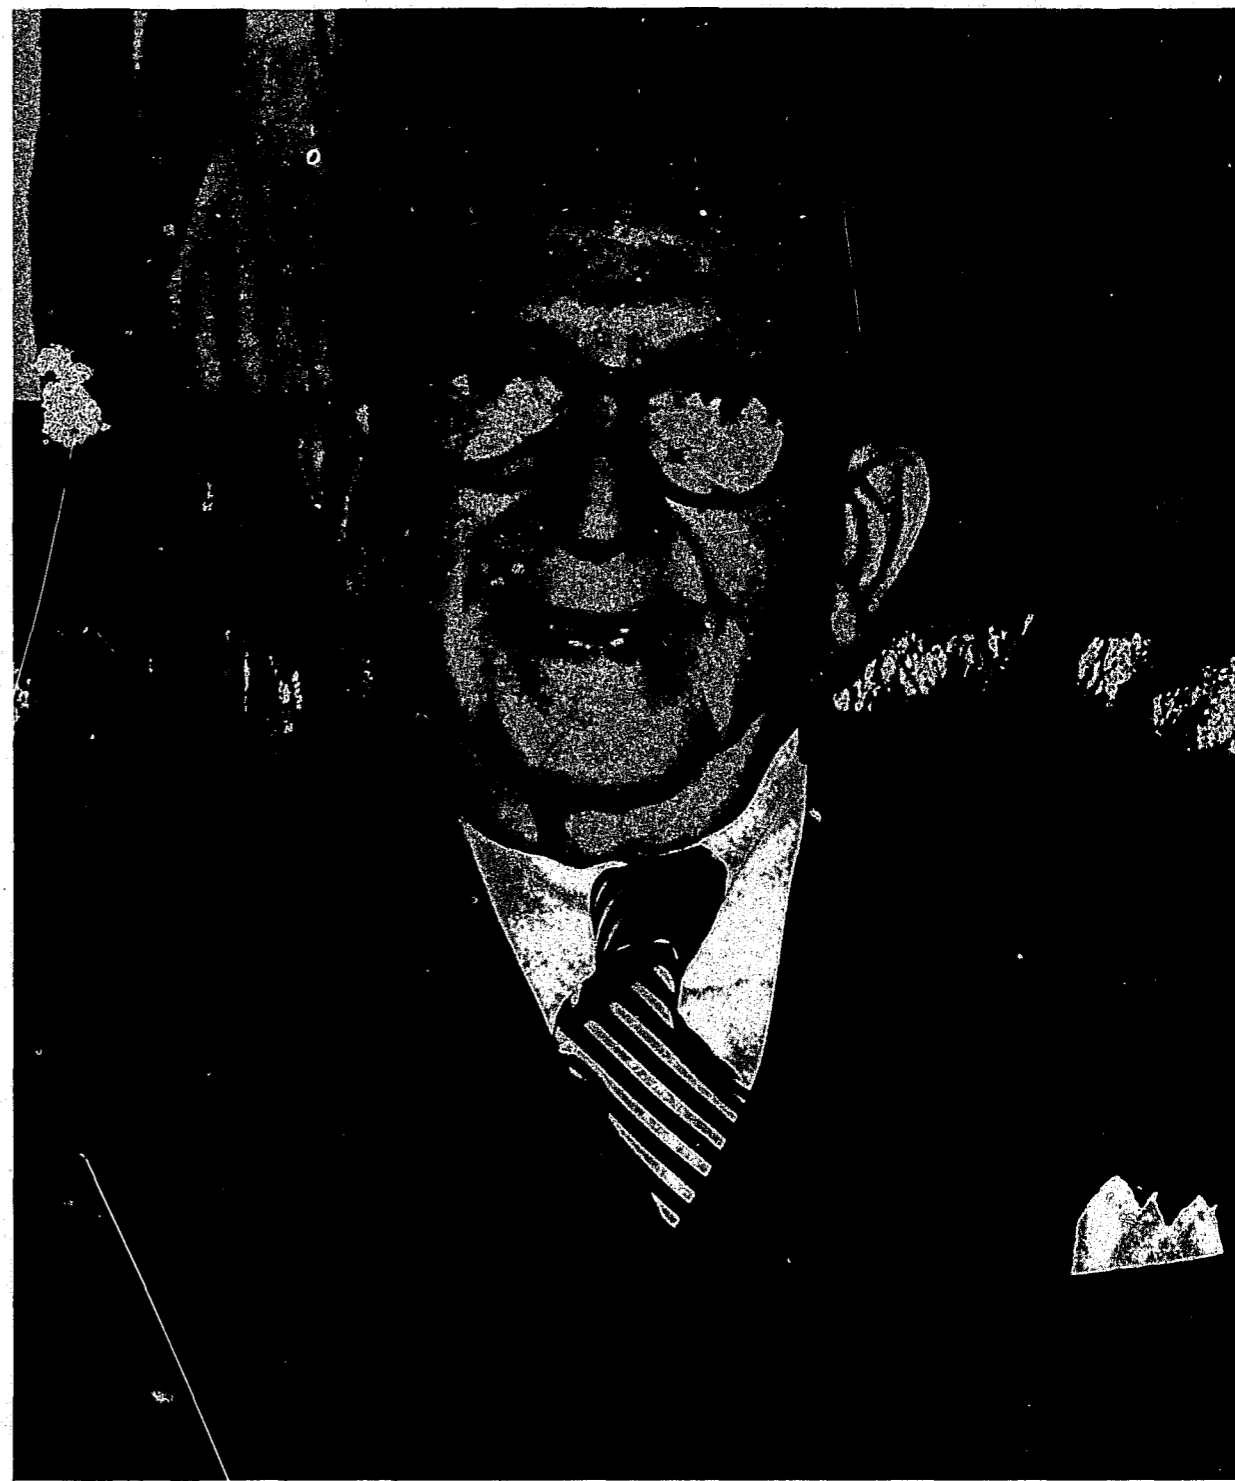

The second step toward decentralization was the opening of the First Police District sub-station. This District began operations from its new location at 2301 Douglas Boulevard on August 15, 1973. Since Operations began at this location, the building has also become a base of operation for the Evidence Technician Unit which had outgrown its space at the Fifth District. At the present time a move of the Training Bureau to the First District sub-station is anticipated. When this move is made, the training of all police recruits will be done at this facility.

Construction of a new sub-station to house the Fourth Police District has recently begun at 34th and Bohme Avenue. This new structure is to be a joint Police District/Fire Department sub-station, and at present is expected to be ready for occupancy in October or November, 1974. This building is to contain all necessary equipment to make it the most modern combination Police sub-station and Fire House in the United States today.

HARVEY I. SLOANE, M.D.  
MAYOR

MARTIN R. GLENN  
ACTING DIRECTOR OF SAFETY

COLONEL EDGAR PAUL

CHIEF OF POLICE

Born July 22, 1917 in Grayson County, Kentucky, Colonel Edgar Paul is married and has two children--one son and one daughter; and five grandchildren.

Colonel Paul was appointed to the Louisville Division of Police on October 4, 1941. He took a Military Leave and served in the U. S. Marines from July 30, 1945 until July 15, 1946, at which time he was re-appointed to the Louisville Division of Police.

His promotions are as follows:

Sergeant ..... November 30, 1954  
Lieutenant ..... July 31, 1962  
Lt. Colonel ..... September 21, 1970  
Chief of Police ..... October 10, 1971.

His various assignments have been in the Fourth District, Second District, Vice Squad, First District, Headquarters, Crime Prevention Bureau, Director of Safety's Office, and Chief's Office.

He graduated with the 18th class of Southern Police Institute in 1957; the Delinquency Control Institute of Florida State University in 1967; and the Police Management Seminar in 1970.

Currently, Colonel Paul is President of the Louisville Police Officers' Credit Union, and President of the Kentucky Wildlife Federation Foundation. He is Past President of the Louisville Police Officers' Association, the League of Kentucky Sportsmen, and the Commanding Officers' Club. He is also a member of the International Association of Chiefs of Police.

Hunting, fishing and taxidermy are some of his hobbies.

MAYOR'S AWARDS

In early January, 1973, a full time undercover investigation team was formed in the Narcotics Squad of the Louisville Division of Police. SERGEANT JOHN AUBREY was placed in charge of the unit. DETECTIVE WAYNE HARPER, POLICEWOMAN LINDA HILE, and RECRUIT CLAUDE DOWNS were assigned to the operation.

From the beginning, the operation was fraught with danger. Detective Harper had spent a year in Narcotics and had made numerous arrests. Thus, there was a good possibility that he might be identified by the people with whom he was required to work. Officer Hile was less known, but was still in danger. Recruit Downs was assigned the area's largest known supplier of heroin as his main objective and, during the entire assignment, Downs was never armed. To insure the safety of the operation, Detectives Hile and Harper were to operate out of one of their own homes. The only contact with Headquarters was by phone. Needed "Buy Money" and equipment was delivered to them.

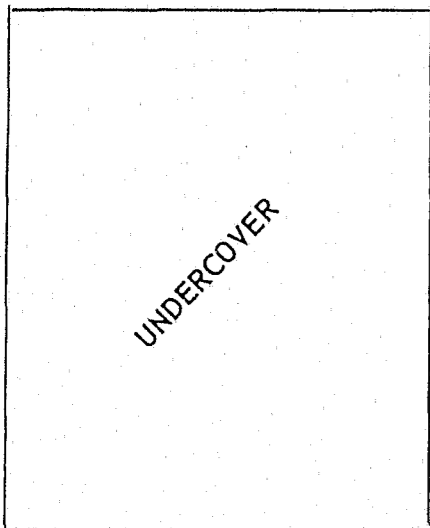

The subjects under surveillance were constantly being encountered, and it was virtually impossible for the officers to live a normal life, as there was a real possibility that their true identities could have become known. As both officers are married, this created an inconvenience and placed mental strain on their families.

Sergeant Aubrey did an outstanding administrative job in overall supervision and coordination of the various agencies involved. So well was the operation planned, that at the time of the subjects' arrest, all necessary information had been obtained so that upon presentation to the Grand Jury, all subjects were indicted.

MAYOR'S AWARDS

On Saturday, January 20, 1973, POLICEWOMAN "MARTY" GREEN was called on to volunteer for an action which clearly involved extreme danger to life and limb. Without hesitation, Officer Green agreed to accept the assignment.

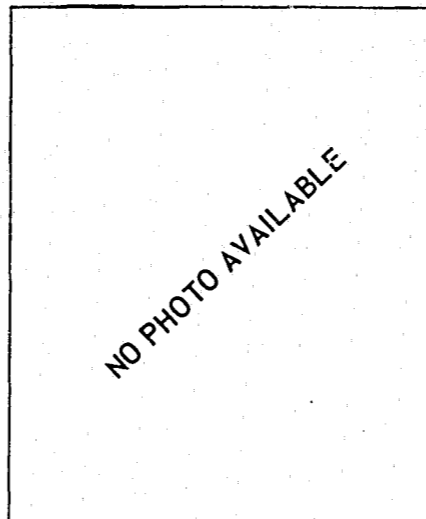

An attempted aircraft hijacking occurred late January 19th at Standiford Field. The hijacker, armed with a shotgun, had taken a male hostage and barricaded himself in an Ozark Airlines DC-9 jetliner. This action followed the random shotgun blasting of the terminal area. For several hours, members of the Federal Bureau of Investigation and the Louisville Division of Police had been on the scene attempting actions to free the hostage and capture the hijacking subject.

The hijacker agreed that he would talk to a woman. Officer Green was called in and accepted the assignment. On five (5) separate occasions, she walked into the glaring landing lights of the aircraft, exposing herself to the possible blasts from the shotgun wielding hijacker. On the first four (4) trips, Officer Green set up the hijacker and herself for the final action. On the fifth trip, she offered herself in exchange for the hostage, provided the shotgun was relinquished. As the shotgun was being passed down, she established physical contact with the hijacker and dragged him from the aircraft and down the steps to the concrete apron. Tumbling down the stairs, she maintained contact with the subject and, once on the ground level, pinioned him to the ramp until awaiting officers of local and federal agencies could dash to her aid. In the scuffle, she received lacerations and abrasions to her face, hands, and body.

On February 4, 1973, Officers ROBERT E. HOWELL and JERRY W. GIBSON, assigned to Beat 403, answered a call to 1505 Catalpa. A fire was discovered and the Fire Department was summoned. The officers were advised that an invalid resided on the second floor. Proceeding upstairs, they succeeded in locating a Mrs. McKune, and transported her to safety. Moments later, the entire upstairs was engulfed in flames.

MAYOR'S AWARDS

James Stephenson

On July 15, 1973, DETECTIVES JAMES STEPHENSON and BOBBY BRANHAM, assigned to the Criminal Investigation Section, Narcotics Squad, were on special assignment. Early in the morning near 338 East Oak Street, they were in an unmarked car parked in a parking lot west of Preston Street and south of Oak Street.

While attempting to effect an arrest, they observed three (3) white males break into their vehicle and steal a police radio and revolver holster. They gave chase and arrested one (1) man. Joined by other detectives, three (3) other men were arrested. Detective Branham attempted to identify himself as a police officer, but one of the recently arrested men pointed a gun at his stomach and fired point blank. The man then ran straight at Detective Stephenson and at close range fired one (1) shot at his head. Detective Stephenson observed that his partner had been wounded and elected to aid his partner rather than chase the white male running south. Detective Branham was placed in a vehicle and transported to the hospital. Even in the heat of the affray, Officers Branham and Stephenson remained calm and gave an exacting description of the escaped felon, which resulted in the apprehension of the perpetrator within minutes.

\* \* \*

On September 23, 1973, at 0320 hours while on routine patrol, OFFICERS ANTHONY FIGURIED and FREDERICK MARLING entered the 600 block of East Liberty and observed smoke emanating from the second floor of a dwelling located at 626 East Liberty. They raised an occupant who informed them that her four (4) children and an adult were sleeping on the second floor.

The officers went to the second floor and found it engulfed in dense smoke. They located four (4) children and an adult. Officer Marling carried two (2) of the children and Officer Figuried carried the adult down the stairs to safety. Both officers returned to the second floor and carried the remaining children to safety.

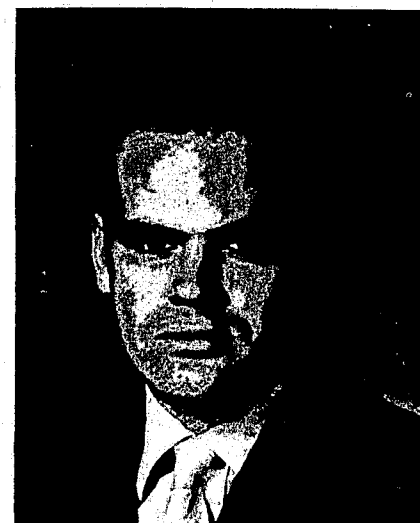

Bobby Branham

Anthony Figuried

MAYOR'S AWARDS

Frederick Marling

The Fire Department arrived and extinguished a burning mattress on the second floor. The alert, swift action on the part of the officers resulted in the savings of lives and property damage.

\* \* \*

On August 24, 1973, at approximately 1300 hours, three (3) males entered the Winn-Dixie Store at Frankfort Avenue and Ewing. The shotgun-wielding trio held employees and customers at bay while collecting the cash. Two (2) employees were pistol-whipped prior to the departure of the subjects. Minutes later, the escaping gunmen were stopped by a patrol unit at Spring and Payne. The wanted subjects escaped on foot--one being shot in the leg and shortly thereafter captured. The two (2) remaining subjects escaped into a nearby wooded area.

OFFICERS JAMES MALLORY and GARY MARKSBURY, cruising separately, responded to the call for assistance, and each entered the wooded area separately. They joined forces and continued their search through the dense underbrush. They made an extensive search of the area, climbing a cliff of some seventy-five feet and crawling through areas which were too confining to walk. Their area of search was so dense that a hovering helicopter could not locate the officers even though they relayed their position by radio. For some forty-five minutes or more, the soaked and mud-caked officers continued their endeavor to locate the wanted pair. Both officers were still of the opinion that the wanted subjects were armed and dangerous. Time and again the officers followed trails, paths and likely looking areas. Finally their perseverance paid off. Officer Marksbury apprehended one subject and, moments later, Officer Mallory spotted the other.

INSPECTIONAL SERVICES BUREAU

One of the most vital, most sensitive, but least understood operations of the Louisville Police Department is the Bureau of Inspectional Services.

Created in November, 1968, this Bureau has been described as being many things that it actually is not. There are many who think of it only in terms of just one (1) of its two (2) major responsibilities. In order to correct these misconceptions, the purposes, functions and objectives of this Bureau must be clearly delineated.

First, it must be understood that INSPECTION is not a process limited to top police executives, or to the few men assigned to this Bureau, but is the responsibility of every police officer in the organization, from the upper echelon to the patrolman in the field. Full cooperation in Inspectional responsibilities by all personnel of every rank is a necessity if an efficient and effective department is to be a reality.

There is one calculated administrative hazard in the creation of an Inspectional Bureau. Other members of the Department, especially those in supervisory positions, may feel that the establishment of such a unit relieves them of some responsibilities. Actually, the overall purpose of the Bureau is to stimulate inspection at every level and in every functional unit of the organization and to take action when and where a defect in the process is discovered.

To more efficiently arrive at a total department inspectional program, the Bureau has been organized into two (2) divisions, or two (2) main purposes; namely Staff Inspection and Internal affairs.

STAFF INSPECTION

Responsible for inspecting the appearance, conduct and duty performance of department personnel and the physical condition of equipment and facilities; the manner in which supervisory personnel discharge their supervisory and command responsibilities; the degree of compliance by personnel with departmental rules, regulations, orders and procedures; making such other types of field inspections as will enable the division to determine the uniformity and efficiency of the department's field operations; and for conducting the Annual Inspection.

The Annual Inspection, conducted by the Staff Inspectional Division, shall coordinate intensive inspections of personnel, equipment, procedures, physical facilities and records of each organizational district, section, or unit at least once each year. Thorough reports, essentially narrative in nature, on the results of the inspections shall be prepared by the Commander of the Staff Inspection Division and forwarded through channels to the Chief of Police, with a copy to the District or Bureau Commander.

INSPECTIONAL SERVICES BUREAU

INTERNAL AFFAIRS DIVISION

The Internal Affairs Division is probably the most advanced in organization and unquestionably the least understood Division of the Bureau. It performs, however, a most important function and it is particularly important that all members of the department be familiar with its policy, purposes and procedures.

Protection is synonymous with police work. The protection provided by the Internal Affairs Division of the Bureau of Inspectional Services extends, although first to the public itself, also over the entire police department and, by this token, to each individual member of the organization.

The public's fundamental right to an honest, hard-working, conscientious, orderly and effective police department is maintained by this unit. Of no other government agency does the public require such spotless integrity, as it does from the Police Department.

The Department must maintain these standards to protect itself from destruction within. The history of American Law Enforcement has demonstrated many times that when the public confidence in a police department is destroyed, it has been destroyed from within. The Internal Affairs Division's first duty is to maintain the reputation of the department and its members.

Every policeman carries the reputation of the department and that of his brother officers. A careless act, an irresponsible decision or a substandard duty performance results in lowered esteem for every policeman. Each man's job becomes more difficult. The department's image suffers; and the public suffers from lack of proper protection and the pains of a bad investment.

The Internal Affairs Division investigates all complaints involving the human element. Department policy requires that every complaint, no matter of what importance or justification, be investigated, because only by ascertaining the facts can correction, protection or vindication properly be given the officers and employees of the Division of Police.

Formal complaints averaged 7.33 per month, averaging 17.26 hours per case. Non-complaint cases averaged 1.16 per month, with an average of 7.35 hours spent per case.

\* \* \*

CRIME PREVENTION BUREAU

It is the function of the Crime Prevention Bureau to assist the business and residential community of the city to advise them of the latest techniques in crime prevention in both home and business security, and to make available to them specifically prepared publications and lectures on proper defense against all crimes. In addition, statistical information regarding crime patterns, false alarm responses and identification systems are coordinated within the police department.

Since the beginning of operations on June 1, 1973, the following programs have been started.

PUBLIC LECTURES

For home and business security to home civic groups and business employees..... 19,785 persons

POLICE TRAINING

Lectures on crime prevention techniques to recruit classes here and at Eastern Kentucky University ..... 30 hours

PRINTED PUBLICATIONS

A. Home Burglary .....	4,000

TECHNICAL SERVICES BUREAU  
VIDEOFILE RECORD SYSTEM

The Videofile Record System is an automated record keeping system designed to store images of records so that the original copies may be moved to the archives for storage.

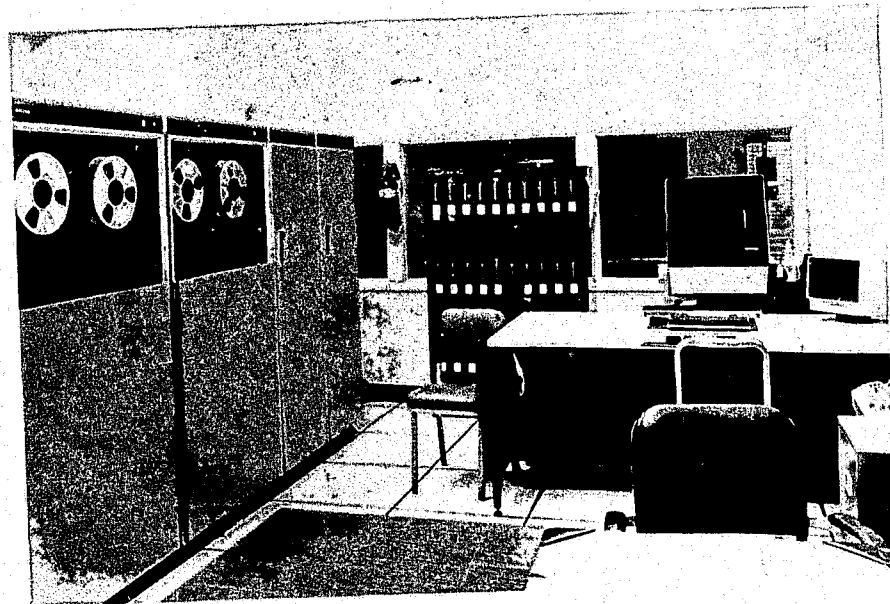

The Videofile Record System purchased by the Louisville and Jefferson County Police Departments was manufactured by the Ampex Corporation of Sunnyvale, California, and consists of a 64K Digital Computer; two (2) Video Tape Sections, which are used for filing and recalling; and one (1) file section where a picture is taken of a record and then filed to a division buffer. The equipment was delivered March 17, 1973.

During the following months, cables, lines, displays and printers were installed in both the Louisville Police Department and the Jefferson County Police Department. We have received five (5) displays--three (3) of which are located within the Record Bureau of the Louisville Police Department. The remaining two (2) are in the Jefferson County Police Department. We also received two (2) area printers--one (1) located in each department.

An Acceptance Test was conducted by representatives of the Police Departments and the Ampex Corporation on August 5, 1973. These tests were conducted to insure that each program application performed to our bid specifications.

A 30-day reliability period was set up on August 6, 1973 to insure that the equipment would function under normal operating conditions without falling below a 90% uptime calculation according to bid specifications.

On September 5, 1973 final reliability figures were evaluated to be 96.4% uptime, which means the equipment operated slightly under 342 hours out of 352 hours allocated to this reliability period.

PARTIAL VIEW OF VIDEOFILE RECORD ROOM

TECHNICAL SERVICES BUREAU  
VIDEOFILE RECORD SYSTEM

Following reliability, a 15-day final acceptance period was established, whereby the system would be operated 24-hours per day and 7-days per week. The system passed this acceptance with a few minor changes in the software.

Finally, on September 24, 1973, the Ampex Corporation was given a \$485,000 check as first and final payment for the system. The money was made available under a Federal Grant for Consolidation of the Louisville and Jefferson County Police Departments.

As of December 31, 1973, all 1973 City and County accidents, as well as all 1972 City Accidents and offenses have been filed to the system. The 1972 County offenses, and the 1971 accidents and offenses of both departments will be filed to the system in the near future. As soon as the Data Processing Center, located in the City Hall Annex, has an indexing and sequential numbering section ready for use by the Videofile Input Operators, we will begin filing criminal histories to the system. By filing the criminal histories, we will be able to eliminate the Third Floor Record Section and bring the existing personnel back to the main Record Bureau to once again have a centralized Record Bureau for the citizens of Louisville and Jefferson County.

Our Department has found that the use of this new equipment enables us to better serve the public, as well as our officers, due to the ability to fulfill their requests for accident/offense reports in a much more efficient and rapid manner.

Both departments are hopeful that more federal money will be available for further expansion of the Videofile System.

DEMONSTRATION OF PROPER REPLACEMENT OF TAPE ON TAPE DRIVE

TECHNICAL SERVICES BUREAU  
COMMUNICATIONS SECTION

The Louisville Division of Police operates a multi-channel radio system, utilizing four (4) channels in the UHF range. The four (4) channels are broken down into two (2) channels for patrol units; one (1) channel for Traffic and Criminal Investigation Section; and the fourth channel for service.

Adjacent to Channels No. 3 and No. 4 is our N.C.I.C., Law Information Network of Kentucky and local Computer Inquiry Terminals, which give immediate access to computer files on the national, state and local levels.

Our computer operation consists of I.B.M. 3277 Video Computer Terminals which give us the capability of inquiries, entering and clearing records in the Louisville and Jefferson County Computer Center and message switching with other agencies on the local system which includes the Jefferson County Police Department, the Shively Police Department, and the New Albany, Indiana Police Department.

These units are interfaced with the Law Information Network of Kentucky (LINK), and the National Crime Information Center (NCIC) in Washington, D.C., which gives us the capability to inquire, enter, clear, and locate records on the Kentucky Computer System, and the National Computer System. The interfaced system also gives us the capability to message switch throughout Kentucky and the United States via the LINK systems and the National Law Enforcement Teletype System.

These units are also interfaced with the Automated Law Enforcement Communications System, giving us direct access to the computer systems of Indiana, Illinois, Ohio, Michigan, Missouri, Iowa and Wisconsin for registration data on vehicles, operator's licenses and message switching directly to these agencies.

TECHNICAL SERVICES BUREAU  
RECORDS SECTION

WARRANTS

The Louisville Police Department is still processing Bench Warrants for traffic offenses where the subjects live in the county. This program was instituted in 1971 to allow the individuals an opportunity to pay the fines and court costs involved rather than be subjected to an arrest.

Many individuals were not aware that there was an outstanding warrant for their arrest prior to receiving the letter. In some cases, they failed to receive their subpoena. As a result of the letters, we have found several instances where the warrant was incorrectly issued. By having these errors called to our attention by the recipients of these letters, we have prevented a considerable number of arrests for the wrong person, as well as saving unjust court costs, fines, attorney fees, etc.

Through this courtesy extended the public by the Records Section of the Technical Services Bureau, we have collected a total of \$13,026.50 for 716 warrants for the Louisville Police Court during 1973.

The dynamic letters along with our extending the public the utmost courtesy have helped build a good public relationship with the citizens of Louisville and Jefferson County.

TECHNICAL SERVICES BUREAU  
LOUISVILLE/JEFFERSON COUNTY POLICE PHOTO LAB

Color Negative Analyzer

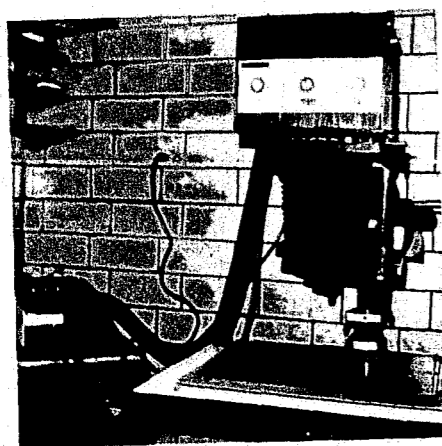

Kodak 8S-K Printer

During the year 1973 the Photo Lab of the Louisville Division of Police stopped functioning as a black and white processing unit and became a unit consolidated with the Photo Section of the Jefferson County Police Department. This unit is now known as the Louisville/Jefferson County Police Photo Lab.

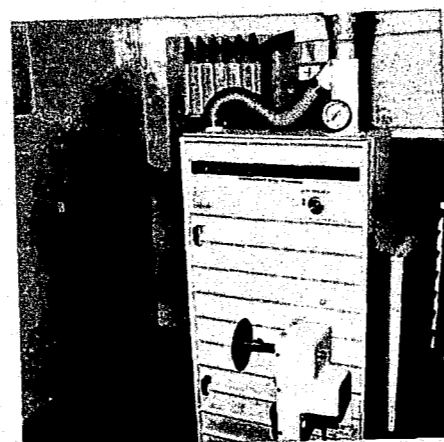

We are now photographing all persons arrested, as well as all crime scenes in color. Prior to January 1, 1973, all photos by this Department were in black and white.

All this was made possible by a grant from the L.E.A.A. for \$185,000, which permitted us to buy the best equipment made--equipment that would be impossible for a law enforcement agency to afford. From information received from Eastman Kodak representatives, ours is the only Department in the nation so equipped. Examples are a 145 Versamat for film processing; a 30" Kreonite Paper Processor which gives us capabilities of printing color photos up to 30" x 40"; and a color Vidio Negative Analyzer.

Our printing ratio with the county is 3 to 1, with the overall production having increased from a total of 70,863 mug shots to 181,654 mug shots. The capabilities of the equipment are twice this.

TRAFFIC BUREAU

EXPRESSWAY PATROL UNIT

During Mid-August of 1973, the Louisville Police Traffic Bureau instituted a new service for local expressway drivers. With the cooperation of the Louisville Automobile Club, specially uniformed traffic officers began manning the "X-Way Zebra"--or the Louisville Police Expressway Patrol Unit.

A Police station wagon, equipped with tow chains, tools, additional fuel, air tanks, jacks, fire extinguishers, battery boosters, spotlights, floodlights, and an AAA two-way radio which provides direct contact with AAA's wreckers and service truck fleet, was assigned to patrol the Louisville Interstate System, with emphasis on the morning and afternoon peak traffic hours.

As of this writing, they have logged almost 50,000 expressway miles and assisted over 1,700 drivers, including 150 flat tires, 300 dead batteries, and 250 drivers out of gas.

PUBLIC INFORMATION OFFICE

The Public Information Office was established in November, 1971. Its mission is twofold. The first is that of an external nature, and the second is internal.

The external mission of the Public Information Office is to plan, develop, administer and promote programs to insure the flow of factual police information to the community and news media.

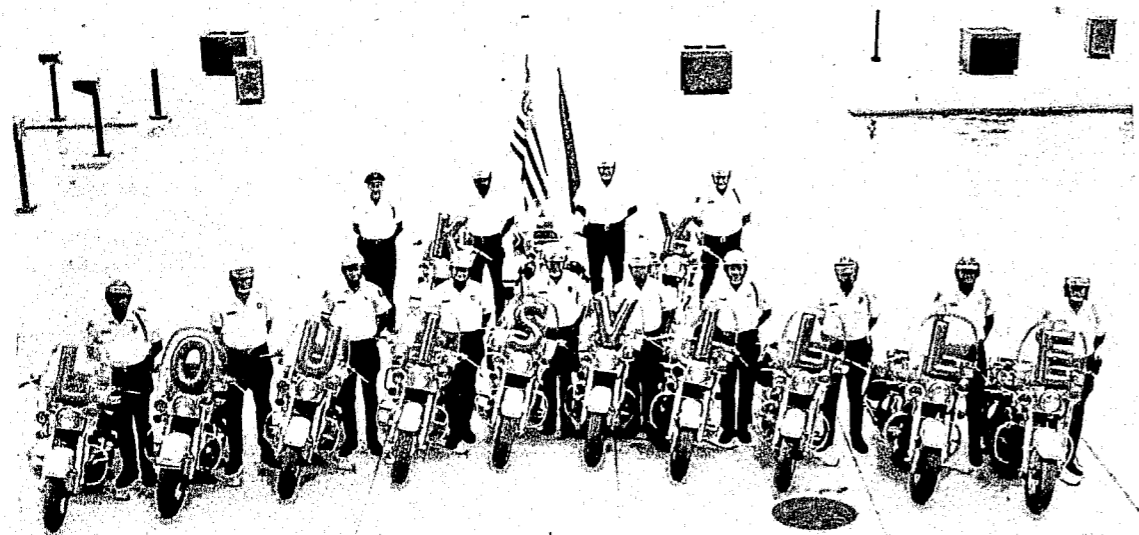

The internal mission includes the dissemination of information to police personnel relating to the operations, functions, goals and services of the Police Department--this information coming directly from the office of the Chief of Police, and connected with the issuance of general orders and special orders on the policies and procedures of the department.

Functions of the Public Information Office include, but shall not be limited to the following:

- Establishing close liaison with persons employed by news-gathering agencies whose activities may involve contact with the Police Department.
- Making the personal services of the Public Information Officer available to representatives of the press, radio and television news-gathering agencies.
- Considering possible solutions to problems involving the press and this department.
- Assisting news-gathering agencies in the performance of their function.
- Making necessary arrangements for press conferences with the Chief of Police and other key police officials and for their appearances on television and radio.
- Assuring the prompt and free flow of information to and from the Chief and other officials of the Department and responding to requests for information and assistance in acting on public information matters affecting the Department.
- Publishing the department newsletter entitled "Information Bulletin."

## MOTORCYCLE DRILL TEAM

In 1962 a group of Louisville Motorcycle Officers presented Chief William Bindner with a request to form a precision motorcycle drill team. Membership and practice time would be on a non-paid volunteer basis. The Chief agreed.

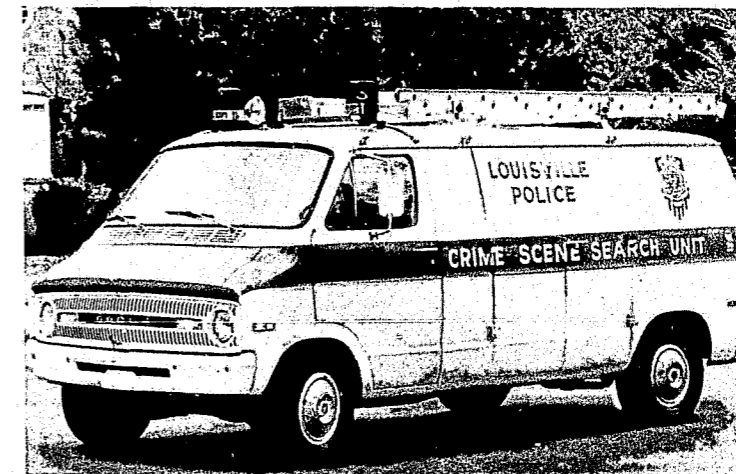

After many hours of planning, walk through and riding practice drills, a precision riding team was ready for their first performance--the 1963 Derby Festival Pegasus Parade. Ten (10) police motorcycles with two foot (2') high lighted letters spelling our City's name along with another cycle bearing the American and City of Louisville flags escorted that parade on its Broadway route with sirens wailing and lights flashing. Moving through four (4) separate drill maneuvers, they started a tradition that has continued up to today. The Louisville Police Motorcycle Drill Team has lead every major parade in Louisville since 1963.

The letters "K" and "Y" have been added; eight (8) separate drills are now in their routine; and they have a unique dress uniform for performances, that have included parades in New York, Indianapolis and Frankfort.

Officer Ray Senn, who was in the original drill team line-up 11 years ago, is now the Drill Master and is assisted by Officer Donald Williams. Officers Bob Baldwin, Jerry Jackson, Dave Shepherd, Gary Hagan, Jim Mallory, Rick Caswell, Bob Howell, Al Sallee, John Frazier, Ralph Dunn, Gary Marksbury, and George Bell complete the list of drill team members. The Unit is headed by Lt. Jack Bynum.

## EVIDENCE TECHNICIAN UNIT

CRIME SCENE SEARCH VAN

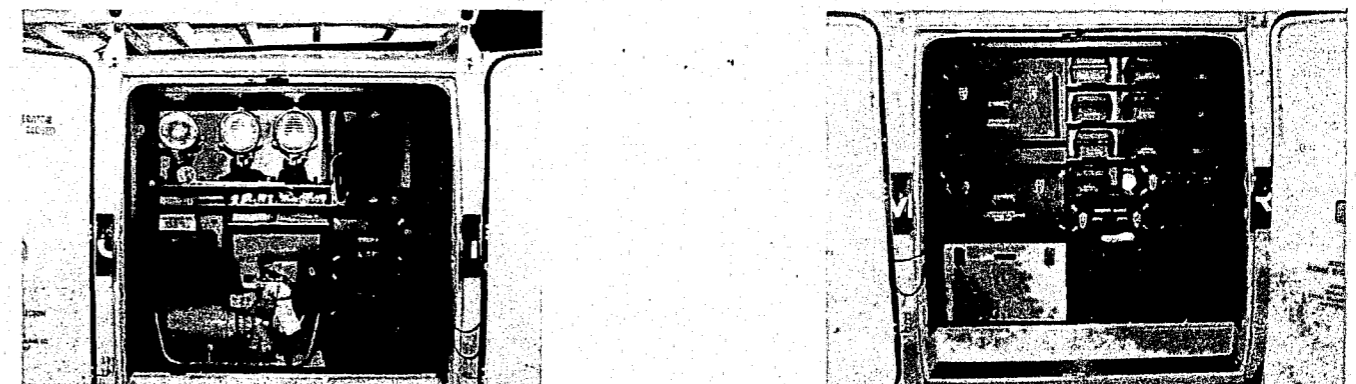

Due to its expansion, the Evidence Technician Unit (E.T.U., or Mobile Crime Scene Search Unit) has moved into new offices located at the First Police District Headquarters, 2301 Douglas Boulevard. This Unit is supervised by a Sergeant and consists of eight (8) Police Officers and a Clerk Typist.

The Unit has two (2) Crime Scene Search Vans fully equipped with all the latest equipment for collection and preservation of evidence.

The main function of the Evidence Technician Unit is to collect, process and preserve evidence at crime scenes throughout Louisville and Jefferson County. The technicians do not investigate crimes--they merely assist in the investigations.

In order to remain informed of the latest techniques, six (6) men attended a two-week refresher course at the Kentucky Crime Laboratory, and one (1) man attended the University of Indiana located at Bloomington, Indiana, for advanced training in evidence collection. In the near future, courses will be offered at Eastern Kentucky University in the collection, preservation and processing of evidence.

During the year, the Unit was on the scene of 604 offenses to assist investigating officers. 201 arrests were made as a result of their assistance during these investigations. In addition, the Unit has assisted other police departments on 109 occasions, and has made 571 miscellaneous runs. 63 trips were made to the Kentucky State Crime Laboratory with evidence.

BOMB SQUAD

Electric Blasting Cap

Fire Fuse Type Cap

The Louisville Police Bomb Squad consists of a Commander and fifteen members. All members have other regular duty assignments within the department and all duties connected with the Bomb Squad are on a voluntary basis and in addition to their regular assignments. Members receive specialty pay for serving as Bomb Technicians.

During the year, operating policies and procedures were revised, a carryall and other equipment was obtained, and a new and greater emphasis was placed on training. Six members attended the three-week Hazardous Devices Technician Course at Redstone Arsenal in addition to the training received through F.B.I. and I.A.C.P. Seminars as well as in-service training conducted by the squad.

There were three criminal bombings and three unsuccessful attempts during the year. Three arrests were made in connection with these incidents. There were 17 incidents where members responded to calls on actual explosives and disposed of same. Nine of these explosives were military and eight were commercial.

In addition to the investigations involving explosives, Bomb Squad members also conducted activity and background investigations on eight applicants for explosives permits.

The Louisville Police Department received and responded to a total of 119 false bomb calls during the year 1973.

Vehicle used for transporting necessary equipment to reported bomb sites

FIREARMS ACTIVITIES

Firearms instructors conducted In-service Firearms Training for both Louisville and Jefferson County Police Officers. Instructions were given to the following:

Louisville Police Officers .....	241
Jefferson County Officers .....	124
TOTAL OFFICERS .....	365

Recruit Firearms Training (with all weapons) was given to the following:

City and County Recruits .....	101
University of Louisville Security Officer .....	1
Agents from outside agencies .....	2
TOTAL .....	104
GRAND TOTAL .....	469

Two (2) sessions (32 Hours) of Tactical Firearms Training were given for the Tactical Unit and Special Weapons Team--a total of 35 officers. Training in the use of Chemical Agents was furnished for 365 City and County Recruits. Our firing range was made available to the F.B.I., Secret Service, and Military Groups.

Also during the year, riot guns with locking devices were installed in marked patrol cars. In-service refresher training was given to all officers before weapons were issued.

The Police Pistol Team was active throughout the year and won several important matches. Pistol Team members are also on the Firearms Instructor's Staff and serve as instructors in Recruit and In-Service Training.

Recruit Class of October, 1973, in Firearms Training
