The Honorable Wendell R. Anderson
Governor of the State of Minnesota
and Members of the Legislature
State Capitol Building
St. Paul, Minnesota 55155

Dear Governor Anderson:

As mandated in Minnesota State Statute 299C.18, the 1973 Minnesota Crime Information Report is herewith submitted for your review. The report is based on information gathered under the Minnesota Uniform Crime Reporting program which provides information about crime and its affect within the state. The information collected and contained in this report has been tabulated and verified for completeness and accuracy.

The information obtained in Minnesota's UCR program is a measurement of criminal activity for specific geographical jurisdictions and is not to be considered a comparison of individual law enforcement agency activity. This edition, along with future publications of Crime in Minnesota is meant to provide the public, public officials and law enforcement administrators with changes in the volume and rate of reported crimes for each successive year. It is believed that this printed information will offer an assessment of crime in Minnesota and provide realistic suggestions in confronting the crime problem within the state.

This publication is made possible only through the diligent and dedicated efforts of those law enforcement agencies and their personnel responsible in providing the necessary information.

Respectfully submitted,

DEPARTMENT OF PUBLIC SAFETY

SPECIAL ACKNOWLEDGEMENT: This report was published through the use of State revenue funds and financial assistance provided by the Law Enforcement Assistance Administration, U.S. Department of Justice.

PREFACE

In 1935, the Bureau of Criminal Apprehension was given the responsibility to collect crime activity information from the law enforcement agencies throughout the State of Minnesota. Biennially, reports were completed and forwarded to the concerned parties as required by State Statute. In 1972, the publications began to be printed annually.

Each year's report measures the amount of criminal activity within the State as collected and prepared from data submitted by individual law enforcement agencies. The criminal activity consists of measurements involving offenses, clearances and arrests. Limited information is also available on law enforcement personnel. Comparisons with previous year's statistics will be presented only where there is a significant number or trend change that might be of use to the evaluator. Individual comparisons on specific measurements will be left to the evaluator for use as required by the individual's needs.

The Bureau of Criminal Apprehension wishes to express its thanks to the cooperating law enforcement agencies whose assistance provide the success of this publication.

INTRODUCTION

BACKGROUND

The State of Minnesota, since 1936, has participated in the FBI's Uniform Crime Reporting program. The statistics that have been generated each year are not only of vital concern to national figures but are equally important to the State as a whole. In 1972 Minnesota began collecting crime-related data as part of a computerized statewide Criminal Justice Reporting System program. The benefits derived from such a program are indicated in a modernistic approach to the collection of Uniform Crime Reports.

The responsibility and authority for collecting and disseminating the UCR information was mandated to the Bureau of Criminal Apprehension through applicable State Statutes. They are as follows:

MINNESOTA STATE STATUTES CHAPTER 299C

299C.05 DIVISION OF CRIMINAL STATISTICS. There is hereby established within the bureau a division of criminal statistics, and the superintendent, within the limits of membership herein prescribed, shall appoint a qualified statistician and one assistant to be in charge thereof. It shall be the duty of this division to collect, and preserve as a record of the bureau, information concerning the number and nature of offenses known to have been committed in the state, of the legal steps taken in connection therewith from the inception of the complaint to the final discharge of the defendant and such other information as may be useful in the study of crime and the administration of justice. The information so collected and preserved shall include such data as may be requested by the United States Department of Justice, at Washington, under its national system of crime reporting.

299C.06 DIVISION POWERS AND DUTIES; LOCAL OFFICERS TO COOPERATE. It shall be the duty of all sheriff's, chiefs of police, city marshals, constables, prison wardens, superintendents of insane hospitals, reformatories and correctional schools, probation and parole officers, school attendance officers, coroners, county attorneys, court clerks, the liquor control commissioner, the commissioner of highways, and the state fire marshal to furnish to the division statistics and information regarding the number of crimes reported and discovered, arrests made, complaints, informations, and indictments filed and the disposition made of same, pleas, convictions, acquittals, probations granted or denied, receipts, transfers, and discharges to and from prisons, reformatories, correctional schools, and other institutions, paroles granted and revoked, commutation of sentences and pardons granted and rescinded, and all other data useful in determining the cause and amount of crime in this state and to form a basis for the study of crime, police methods, court procedure, and penal problems. Such statistics and information shall be furnished upon the request of the division and upon such forms as may be prescribed and furnished by it. The division shall have the power to inspect and prescribe the form and substance of the records kept by those officials from which the information is so furnished.

299C.12 RECORDS KEPT BY PEACE OFFICERS; REPORTS. Every peace officer shall keep or cause to be kept a permanent written record, in such form as the superintendent may prescribe, of all felonies reported to or discovered by him within his jurisdiction and of all warrants of arrest for felonies and search warrants issued to him in relation to the commission of felonies, and shall make or cause to be made to the sheriff of the county and the bureau, reports of all such crimes, upon such forms as the superintendent may prescribe, including a statement of the facts and a description of the offender, so far as known, the offender's method of operation, the action taken by the officer, and such other information as the superintendent may require.

299C.17 REPORTS TO BUREAU BY CLERKS OF COURT. The superintendent shall have power to require the clerk of court of any county to file with the department, at such time as the superintendent may designate, a report upon such form as the superintendent may prescribe, furnishing such information as he may require with regard to the prosecution and disposition of criminal cases. A copy of the report shall be kept on file in the office of the clerk of court.

GOALS AND OBJECTIVES

The primary goal of the UCR program in Minnesota is to provide statistical information on the volume and affect of crime. To better equip concerned individuals and agencies to solve the State crime problem, a more encompassing approach involving all aspects of criminal activity was needed. With this in mind, and examining the recommendations of the President's Commission on Law Enforcement and the Administration of Justice, the UCR program became one aspect of the computerized State Criminal Justice Reporting System. This system involves the complete tracking of an offender from the time of arrest, through the courts and the correctional element. From this combined data, a complete criminal history is available for use by the police, courts and corrections in providing assistance in the final goal of increasing the efficiency of their operations.

The major objectives of Minnesota's UCR Program include:

1. Statistics on crime in Minnesota to be used by the Governor, Legislature, Governor's Crime Commission and other concerned individuals within the State.
2. Statistics on crime for administrative and operational use by law enforcement administrators.
3. Statistics on specific criminal offenses to be used in the FBI's national crime reports.
4. Statistics involving the age, sex and race of offenders to determine the proper focus for crime prevention and enforcement.
5. Statistics on crime for researchers to assist in the formation of the causes of crime within a biological, sociological and/or psychological framework.
6. Statistics on crime to measure the workload and effectiveness of the 'current' State Criminal Justice System.
7. Statistics on crime for personnel employed by the criminal justice system, to help assist them in improving the efficiency and performance of criminal justice agencies.
8. Statistics on crime to help implement a true coordinational effort of assistance between all criminal justice agencies.

REPORTING PROCEDURES

Through Minnesota's crime reporting statute, participating Minnesota law enforcement agencies are required to submit information as determined by the Bureau of Criminal Apprehension. The required information is tallied from the individual agency's internal record of complaints, investigations, miscellaneous reports and arrests. To help achieve a uniformity of reporting throughout the State, a copy of the Minnesota Law Enforcement Records Manual along with the FBI's Uniform Crime Reporting Handbook is offered to each agency. In conjunction with the manuals, numerous training sessions in record and report writing and filing are offered by field representatives of the Bureau's Criminal Justice Information Section. Individual contact with agencies experiencing difficulty in any phase of the Criminal Justice Reporting System is also offered by the field representatives. Verification for authenticity of reports that are submitted are handled by the clerical staff at the Bureau or by a special "edit" program written into the computerized Criminal Justice Reporting System. Inconsistencies of report information and minor errors are corrected by telephone or terminal contact. Major errors in UCR reporting methods are handled exclusively by field representatives.

The Bureau, along with the FBI, has established their specific program to measure criminal data activity for both state and federal purposes. The result is a tabulation of the number and type of offenses committed, cases cleared or solved, and the persons arrested. A criminal act may involve several crimes, several persons, and several victims; but all that is necessary for such an act to be reported and recorded by the state and federal programs is one violation. If a given criminal act involves more than one offense, only the

most serious offense is counted. "Clearance by arrest" indicates that at least one person was arrested. It does not preclude the fact others may have also been involved in the offense. Any additional arrests are purely supplemental and are used for each department's record purposes only and not reported under the program.

Another part of criminal data collection involves juvenile offenses and arrests. When reviewing such data it should be remembered that many times juvenile offenses are handled informally within the different agencies and therefore go unreported. In cases where an offense involves both adults and juveniles, and subsequent arrests are made of both, the crime reporting program will indicate this offense to be cleared by the arrest of the adult. Juvenile arrests are used for clearance purposes only in those instances where juveniles alone are involved.

Clearing an offense by the arrest of a person(s) is but one means of indicating such activity. Another involves the clearing of a reported offense by use of the term "exceptionally cleared". An exceptional clearance exists when some element beyond law enforcement action prevents formal charges against the offender. Such a situation might arise if:

1. The offender commits suicide.
2. A double murder occurs (2 persons kill each other).
3. The offender dies after making a confession (dying declaration).
4. The offender is killed by a law enforcement officer.
5. The offender confesses to committing the crime while already in custody for another crime or serving a sentence.
6. The offender is prosecuted in another city for a different crime by federal, state or local authorities, or for the same offense, and the other jurisdiction refuses to release the offender.
7. Another jurisdiction refuses to extradite the offender.

8. The victim of a crime refuses to cooperate in the prosecution.
9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses.

The count of offenses is taken from the record of complaints received by law enforcement agencies from victims, witnesses, other sources or discovered by them during their own operation. Complaints determined by subsequent investigation to be unfounded are eliminated from the count. Frequently, as much time is necessary for verification of an unfounded reported offense as is used in the solution of an actual reported offense. The resulting number of "offenses actually known to law enforcement agencies" for each crime offense category is reported without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy, or any other consideration. Reported offenses are recorded by the municipality and county in which they occur, rather than to the agency which may investigate, arrest, or otherwise in some manner dispose of the case. Municipal law enforcement agencies report those crimes which are committed within the cities, county sheriff's departments report those crimes which occur in the counties outside the city. Law enforcement agencies also report on a monthly basis, supplemental offense information such as the value of property stolen and recovered as well as circumstances surrounding homicides. Additional reports of persons arrested are submitted. These reports provide information concerning the age, sex and race of persons arrested by each individual law enforcement agency. Reports of persons arrested are separated as to adults and juveniles.

Crime data and information submitted by municipal and county law enforcement agencies is collected on a daily and semi-daily basis under the new Minnesota Criminal Justice Reporting System program. On an annual basis, employee data for police and sheriff's departments is collected and disseminated.

"Crime rate" is a term often used in evaluating criminal statistics. The crime rate represents or equates the number of index crimes per 100,000 in population. Basically, it refers to the comparison of the number of offenses with the number of potential offenses and the number of persons exposed to the risk of the offense. It does not include other variables which might affect the amount of crime within a given area.

CRIME FACTORS

When the current method of crime reporting is considered, several limitations in its accuracy may be immediately recognizable. Law enforcement agencies are not totally to blame because of their capability to only report that which is known to them. In many instances, the very citizens who are themselves "victims" of a crime fail to inform the law enforcement agency of their occurrence. There is a general tendency among the public to not report minor crimes that are "in their eyes" of little consequence. The public may also feel that the law enforcement agency is of little help to them. They may also feel the threat of blackmail or retaliation for participating in a sex, gambling or narcotic offense. The public may also feel the threat of embarrassment for being involved in a crime regarded against the norms of society. Given these factors, much crime is never included in the total state evaluation of the crime problem.

Another element of concern is the actual number of law enforcement agencies reporting crime information. Lack of crime information by delinquent agencies can potentially reduce the accuracy of the crime picture as developed from reported information.

Extraneous conditions beyond the realm of law enforcement also affect the measurement and analysis of crime. These conditions or

CRIME FACTORS include, but are not necessarily limited to:

- A. Legislative changes as to what constitutes a criminal offense.
- B. Density and size of the community population and the metropolitan area of which it is part.
- C. Composition of the population with reference particularly to age, sex, and race.
- D. Economic status and mores of the population.

- E. Relative stability of population including commuters, seasonal and other transient types.
- F. Climate, including seasonal weather conditions.
- G. Education, recreational, and religious characteristics.
- H. Effective strength of the police force.
- I. Standards governing appointments of the police force.
- J. Policies of each of the law enforcement agencies.
- K. Policies of the prosecuting officials and the courts.
- L. Attitude of the public toward law enforcement problems.
- M. The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Information provided in MINNESOTA CRIME INFORMATION 1973 is as accurate as currently available in the State. Crime and arrest statistics should be interpreted with caution when comparing different law enforcement jurisdictions. Reported crimes relate to events while arrests relate to persons. For any one criminal act there may be multiple crimes, multiple offenders, and multiple victims.

Given the above considerations, the total crime picture is indeed influenced by many variables. Opponents of the Uniform Crime Reporting System are often vocal in pointing out the inadequacy of this system. Proponents respond by indicating that at the present time there is no other suitable method of collecting criminal statistics. If a better system is developed, tested and offered as a replacement, law enforcement will not hesitate to implement it.

"Age of Majority"

On May 24, 1972, the Governor signed a bill commonly referred to as the "Age of Majority" (Chapter 725), which took effect June 1, 1973. With this bill, 18, 19 and 20 year-olds were granted broad

powers, duties, rights and obligations, redefining terms minor and adult, minority and majority, and legal or full age, and revising certain penalties accordingly. This law includes such rights as drinking and voting. Insofar as the increased population due to this additional age group is concerned, it would possibly cause a decline in minority age offenses and perhaps create an effect on the number of "driving under the influence" offenses and violations of the State Liquor Laws. Thus, these figures should be evaluated with this new law in mind.

A DESCRIPTION OF UNIFORM CRIME REPORTING OFFENSES
AND THEIR CLASSIFICATION

The Bureau of Criminal Apprehension, using the reporting techniques recommended by the FBI, records criminal data submitted by the many law enforcement agencies in the State. The criminal data collected contains information regarding Part I offenses and Part II offenses called to the attention of Minnesota law enforcement agencies.

Part I offenses reflect information on seven "serious" crime classifications and is generally referred to as the "Crime Index" measurement. Part II offenses are represented by twenty-six "less serious" crime classifications.

The seven crimes represented in the Part I offenses include murder, rape, aggravated assault, robbery, burglary, larceny (\$50 and over in value) and auto theft. These crimes were chosen because of their uniformity of definition, total volume, and likelihood of being reported. The crimes of murder, rape, aggravated assault and robbery are also known as "violent crimes". The remaining crimes of burglary, larceny (Over \$50 in value) and auto theft are labeled as "property crimes". The law enforcement agency may become aware of these crimes in several ways: Reports of its own officers, citizens complaints, notification from the prosecuting attorney, and from information supplied by court officials.

Part I Offenses (serious crime)

(1) Criminal Homicide - The killing of another person

(a) Murder - any unlawful killing of a human being in which the element of malice aforethought was present in the murder.

Manslaughter - any unlawful killing of a human being without the element of malice aforethought is counted as manslaughter.

(b) Death by Negligence - any death that occurs because of the negligence of some person other than the victim and

that is not in the commission of an unlawful act. These are deaths which police investigation establishes as primarily caused by gross negligence.

(2) Forcible Rape*

- (a) Rape by Force - the carnal knowledge of a female forcibly against her will, but excluding statutory rape and other sex offenses.
- (b) Assault to Rape-Attempts - all assaults and attempts to rape.

*NOTE - Excludes Statutory Rape.

(3) Robbery - A robbery is defined as the felonious and forcible taking of property of another against his will by violence or by putting him in fear. This includes all attempts.

- (a) Armed Robbery-Any Weapon - When any object is so employed as to constitute force or the threat of force, it will be considered a weapon. This would include firearms, knives, clubs, brass knuckles, black jacks, broken bottles, acid, explosives, etc. Cases involving possible pretended weapons or cases involving weapons not seen by the victim but which the robber claims to have with him should be counted in this category.
- (b) Strong Arm-No Weapon - This includes muggings and similar offenses where no weapon is used but strong-arm tactics are employed to deprive the victim of his property. This definition is limited to hands, arms, fists, feet, etc. Include all attempts.

(4) Assault - An assault is an attempt or offer with unlawful force or violence to do physical injury to another. As a general rule all assaults will be classified and scored in this category. Exclude assaults with intent to rob or rape. Excludes simple assault, assault and battery, fighting, etc. These will be scored in the appropriate category.

- (a) Gun - Includes all assaults or attempted assaults involving the use of any type of firearm. This includes revolvers, automatic pistols, shotguns, zip guns, pellet guns, etc.
- (b) Knife or cutting instrument - Includes all assaults or attempted assaults involving the use of cutting or stabbing objects such as knives or razors, hatchets, axes, cleavers, scissors, glass, broken bottles, daggers, ice picks, etc.
- (c) Other Dangerous Weapons - Includes all assaults or

attempted assaults when an object other than a gun, knife or cutting instrument is used. This includes clubs, bricks, jack handles, bottles, explosives, acid, lye, poisons, scalding water and cases of attempted drownings and burnings etc.

- (d) Hands, fists, feet, etc.-Felony - Includes all assaults with hands, fists, feet etc. which could result in a felony conviction. In order to be classified as a felony, victim must suffer great bodily harm.

(5) Breaking and Entering - Includes any unlawful entry or attempted forcible entry of any structure to commit a felony or larceny. As a general rule, score as one offense any unlawful entry or attempted forcible entry of any dwelling, attached structure, public building, shop, factory, storehouse, apartment, house, trailer, warehouse, mill, farm, ship, railroad car, etc. For UCR purposes breaking and entering with larceny is classified and scored only as breaking and entering. This does not include breaking and entering of motor vehicles. These are scored in the larceny category.

- (a) Forcible Entry - Includes all offenses where force of any kind is used to unlawfully enter a locked structure such as any of those listed above with intent to steal or commit a felony. This includes entry by use of a master key, celluloid or other device that leaves no outward mark but is used to open a lock. Concealment inside a building followed by breaking out of the structure should also be scored here.

- (b) Unlawful Entry - No Force - Includes any unlawful entry when you fail to discover any evidence of forcible entry.

- (c) Attempted Forcible Entry - Include in this category only when your investigation determines that a forcible entry has been attempted.

(6) Larceny-Theft, (Except Auto Theft) - This category includes the unlawful taking of the property of another with intent to deprive him of ownership. This involves all larcenies and thefts resulting from pocket-picking, purse snatching, shoplifting, larceny from auto, larceny of auto parts and accessories, bicycle theft, larceny from buildings, and larceny from any coin operated machines. Any theft that is not a robbery or any theft that does not result from a breaking and entering shall be scored here. Excludes embezzlements, unlawful conversions, larceny by bailee, frauds or bad checks. Enter all attempted larcenies. Note: When the true or known value of stolen property is not available, estimates based on accepted police methods of property evaluation should be used for the purposes of uniform crime reporting. Larceny offenses have three breakdowns:

- (a) Over \$50 in value
 - (b) \$5 - \$50 in value
 - (c) Under \$5 in value
- (7) Auto Theft - This category includes larceny or attempted larceny of automobiles. Includes all thefts and attempted thefts of motor vehicles. This includes all vehicles which can be registered as a motor vehicle in this state. Excludes incidents in which the alleged offender had lawful access to the vehicle as in a family situation or the unauthorized use by others having lawful access to the vehicle such as chauffeur, employee, etc.

Part II Offenses (less serious crime)

- (8) Misdemeanor assault - This classification consists of all assaults and attempted assaults which are simple or minor in nature.
- (9) Arson - Includes all arrests for violation of State Law and municipal ordinances relating to arson and attempted arson. This generally includes any willful or malicious burning of a dwelling, church, college, jail, meeting house, public building, ship or other vessel, motor vehicle, aircraft, contents of building, personal property of another, goods or chattels, crops, trees, fences, gates, grain vegetable products, lumber, woods, marshes, meadows, etc. A death resulting from arson will be classified as murder and personal injuries resulting would be classified as assaults.
- (10) Forgery and Counterfeiting - In this class place all offenses dealing with the making, altering, uttering or possessing with intent to defraud anything false in a semblance of that which is true. Include altering or forging public or other records, making, altering forging or counterfeiting coins, plates, banknotes, checks, etc. Possessing or uttering forged or counterfeited instruments, signing the name of another or a fictitious person with intent to defraud and all attempts to commit any of the above acts.

- (15) Weapons - This classification includes violation of, weapon laws such as manufacture, sale or possession of deadly weapons or silencers, carrying deadly weapons, furnishing deadly weapons to minors, aliens possessing deadly weapons, and all attempts to commit any of the above offenses.
- (16) Prostitution and Commercialized Vice - Include in this class the sex offenses of a commercialized nature such as prostitution, keeping a bawdy house, disorderly house or house of ill repute, pandering, procuring, transporting or detaining women for immoral purposes, etc., and all attempts to commit any of the above.

LAW ENFORCEMENT AGENCIES CONTRIBUTING

LAW ENFORCEMENT AGENCIES CONTRIBUTING

To assure an accurate interpretation of the data presented in this report, the exact number of law enforcement agencies submitting information must be indicated. Specifically, reports are collected for urban places (cities and towns) and rural areas according to the definitions of Uniform Crime Reporting. The police departments report information for cities of 2,500 inhabitants and over, while the sheriff's departments collect information for the rural areas. (Also included are those cities of under 2,500 population).

The Bureau requests that information from all reporting agencies be submitted regularly. Minnesota's continual high rate of agency participation indicates an ever increasing amount of information being returned for analysis. Since 1936, the average percent of sheriff's departments forwarding information has been 95.2 percent. The 97.2 percent contribution figure for 1973 is further evidence of the high degree of cooperation reflected by those agencies submitting information.

MINNESOTA CRIME INDEX OFFENSE INFORMATION

1972-1973 STATEWIDE OVERVIEW

STATEWIDE OVERVIEW

Crime Index (serious crimes). The seven major criminal offenses are referred to as the crime index and they are used to evaluate the changes and trends in amounts of crime over designated periods of time. A new factor in crime reporting in 1973 will cause some changes in the totals of the crime index for 1973. The offense of larceny in 1973 will include all cases of larceny, both over \$50 as in the past, and under \$50, which is new this year. For comparison purposes with the 1972 figures these changes will not be included, however, they will be noted in separate totals for comparing with the 1974 figures.

- The crime index in Minnesota totaled 90,615 actual offenses during 1973 which was 3.2% higher than the 87,791 actual offenses occurring in 1972. The crime index total with the change in larceny reporting is 137,617.
- The crime rate represented 2,328.2 per 100,000 in population for 1973, while in 1972, the crime rate was registered at 2,310.5 per 100,000 population. The crime rate utilizing the new factor is 3,538.4 per 100,000.
- Of the total crime index offenses reported in 1973, 14.6% were cleared by arrest or exceptionally cleared. In 1972, 14% of the total offenses were cleared by arrest or exceptionally cleared. The clearance rate with the new factor included is 20.4%.
- Burglary was the largest category of serious crime reported for Minnesota in 1973 with a total of 39,581 offenses reported. Burglary was also the largest category of serious crime reported for the state in 1972 with 36,063 total offenses reported. When the new factor is included the total larcenies is 78,026, thus becoming the largest category of serious crime for comparison with 1974 figures.

Violent Crimes - Violent crime in Minnesota accounted for 7.6 percent of all crime index offenses reported in 1973. There were 6,913 murders, forcible rapes, robberies, and aggravated assaults for that year. Compared with the 6,805 total offenses reported for

1972, the 1973 figure represents a 1.6 percent increase in violent crime for the state. The number of violent crimes per 100,000 population for 1973 was 177.7 while in 1972 there were 179.1 per 100,000 population.*

Compared with the 80,986 offenses reported in 1972, the 1973 figure represents a 3.4 percent increase in property crime for the state. With the addition of the new larceny figures, the property crime percentage of the index crime becomes 94.9 percent. The total of property crimes becomes 130,727.

- Burglary - There were 39,581 burglaries in Minnesota in 1973 compared to 36,063 offenses in 1972, an increase of 9.8 percent.

CRIMES OF VIOLENCE

CRIMINAL HOMICIDE - MURDER

Criminal homicide involves those offenses of murder and non-negligent homicide that are classified as willful felonious deaths as distinguished from deaths caused by negligence. Attempts and assaults to kill are scored as assaults and not as murder. Justifiable or excusable homicides, suicides, and accidental deaths are excluded from this category.

SUMMARY ANALYSIS

- In 1973 there were 97 homicides reported for the state, with 74 of these offenses cleared by arrest. This represents a 76 percent clearance rate for that year. Of the 74 offenses that were cleared, 7 were cleared by the arrests of a juvenile.
- The crime rate for homicide in 1973 was 2.5 per 100,000 population. Nine offenses were unfounded, or classified as justifiable or excusable.
- Homicide offenses represented ONE percent of the total violent crimes with one averaged every 3.8 days.
- In 33 of the homicide cases involving gunshot deaths in 1973, (61.1 percent) the victim was an acquaintance (friend or relative) of the offender.

FORCIBLE RAPES - INCLUDING ATTEMPTS

Forcible rape is the carnal knowledge of a female using force and committed against her will. Uniform Crime reporting needs require rape to be divided into two categories: (1) Rape by force, and (2) attempted rape. Statutory rape and other sex offenses are excluded from this category.

SUMMARY ANALYSIS

- Of the 577 reported actual rapes that occurred in Minnesota in 1973, 450 were by force while 127 were recorded as attempted rapes.
- Of the total rapes occurring in 1973, 323 or 56% were cleared by arrest. Of this total 36 were cleared with the arrest of a juvenile.
- For the 674 rapes reported in 1973, 97 were listed as unfounded. This reflects a decrease from 16.5% of the total in 1972 to 14% in 1973.
- The crime rate for rape in 1973 amounted to 15 per 100,000 population.
- Rape offenses reported in 1973 represented 8 percent of the total violent crimes with 1.6 averaged per day.

CLEARED AND UNFOUNDED - FIGURE 3

ROBBERY - INCLUDING ARMED AND STRONG ARMED

Robbery involves the felonious and forcible taking of the property, of another, against his will, by violence or by placing the person in state of fear. The crime of robbery necessitates that a victim be present in order for it to be so classified. Robbery is further divided into two distinct categories, (1) Armed Robbery - any weapon. Any object which is so employed as to constitute force or threat of force is considered a weapon; and (2) Strong Arm - no weapon. Includes muggings, and similar offenses where no weapon is used and strong arm tactics are employed to deprive the victim of his property (limited to hands, feet, arms, fists, etc.). As a general rule, robbery differs from larceny in that it is aggravated by the threat and element of force. An attempt to commit a robbery, either armed or strong arm is counted as if the actual offense did occur.

SUMMARY ANALYSIS

- Of the 3,454 actual robbery offenses that occurred in Minnesota in 1973, 1,934 were reported as armed robbery and 1,520 offenses were listed as strong-armed.
- For the total number of robberies occurring in 1973, 993 or 29 percent were cleared by arrest. Of the 993 offenses that were cleared, 279 were cleared by the arrest of a juvenile.
- Of the 3,631 total robberies reported in 1973, 177 offenses were unfounded.
- The crime rate for robberies in 1973 amounted to 89 per 100,000 population.
- In 1973, robbery offenses represented 50 percent of the total violent crimes with 9.5 offenses averaged each day.

Assault with intent to commit a murder is also listed as aggravated assault.

All assaults where no weapon is used, which result in minor injuries are classified as non-aggravated assaults and are not counted in the crime index total.

SUMMARY ANALYSIS

- For the total 2,785 actual assaults occurring in Minnesota in 1973, 1,941 or 70 percent were cleared by arrest. Of the 1,941 assaults cleared by arrest, 242 were cleared with the arrest of a juvenile.

MINNESOTA ARREST INFORMATION

GENERAL ARREST INFORMATION

GENERAL ARREST INFORMATION

Arrest information for Minnesota in 1973 is presented with a state total concerning age, sex, and race factors. Data has also been tabulated for the specific kinds of narcotic arrests and the individuals involved. Reference has also been made to the Age of Majority Statute which took effect during 1973.

The total number of arrests involving criminal offenses in the state for 1973 was +85,468 with 70,213 males and 15,255 females arrested. Compared with +79,598 arrest total (65,252 males - 14,346 females) for 1972, the 1973 figures represent a 7.6 percent increase in males arrested and a 6.3 percent increase in females arrested.

There are several significant factors to consider when arrest data is evaluated. One arrest situation is counted for each time an individual is arrested whether it be several times a year for one type of offense or for different offenses.

Another factor to consider is that an arrest can be reported for an offense that occurred during a previous reporting period and thus can reflect an arrest picture not totally consistent with the total actual offenses for that period. In some extreme cases arrests may out number offenses, which in large measure is a result of this factor.

As stated previously, an arrest situation constitutes a form of detention for uniform crime reporting purposes. Because police arrest activities often vary, especially with relation to juveniles, the reporting agencies are instructed to count one arrest each time a person is taken into custody for committing a specific crime. The FBI's instructions state that,

"A juvenile is counted as a person arrested when he commits an offense and the circumstances are such that if the offender were an adult an arrest would be made." (x)

MINNESOTA CRIME OFFENSE/ARREST INFORMATION

1 OF 3

URBAN-RURAL COMPARISON BY OFFENSES,
SEX, AND PERCENT OF TOTAL ARRESTS IN 1973.
TABLE 10

COMPARISON OF URBAN-RURAL CRIME OFFENSES/ARRESTS FOR 1972-1973

Urban-rural crime comparison by offense offers information to agencies in evaluating the difference in crime occurring by geographical locations. The information that is available must be interpreted with caution as it gives a general indication of urban-rural crime only and does not represent data that can be applied to any one specific agency. Variations in crime are caused by a multitude of crime factors, which have been listed previously in this report. The information that is presented in this section lists the numbers of specific criminal offenses that have been reported to the appropriate urban or rural law enforcement authority.

Of additional value is the ratio of urban to rural crime offenses for the 1973 period. The ratio is nothing more than the amount of one particular criminal offense for the urban area as compared with the amount of one particular offense for the rural area. A ratio of 8:1 aggravated assaults indicate that for every eight offenses of aggravated assault in an urban area, the rural area experienced one aggravated assault.

COMPARISON OF CRIME OFFENSES/ARRESTS BY REGIONS

COMPARISON OF CRIME BY REGIONS - 1973

The regional breakdown of crimes and arrests within Minnesota often provides a more exacting measurement of the volume of crime based on specific areas. For specific information, the regional distinctions evaluated in this report are based on the seven State Planning Regions of the Governor's Crime Commission. This breakdown also includes the offense of Larceny under \$50.

Region G, which is the most densely populated geographical section for the entire state, recorded the highest number of reported Part I offenses (98,559) and Part II offenses (55,407) of all regions. 71.6% of the state's Part I offenses occurred in this region, while 62.9% of the Part II offenses were registered from this area. Close to ninety percent of the state's violent crimes were recorded from this section and approximately seventy percent of all property crime was represented by this region. The largest portion of arrests for Part I and Part II offenses were also registered from Region "G". There were 15,371 arrests for Part I violations compared to 34,325 arrests for Part II offenses.

The least populated region of the state, Region I, recorded the smallest amount of Part I offenses with 2,469. Counting larceny under \$50, Region E registered the second lowest amount of Part I offenses with 2,905. Each of these regions experienced approximately two percent of the total Part I offenses for the state. Region A with 2,997 offenses, recorded the lowest number of Part II offenses followed by Region C with 3,247 offenses. These two regions each accounted for three percent of the total Part II offenses of Minnesota. The least amount of violent crime and property crime reported for the state was submitted by Region A, with 51 and 2,418 offenses respectively, including larceny under \$50.

The region registering the highest clearance rate for Part I offenses in 1973 was Region E with 23 percent. The region with the highest Part II clearance rate was Region A with 74 percent.

ADDITIONAL STATE CRIME OFFENSE/ARREST INFORMATION

The necessity for reference to additional information has arisen as a result of the Minnesota State Patrol reporting criminal offense and arrest information. This information is being submitted for the first time in 1973 in accordance with the statewide Uniform Crime Reporting Program. This information, in future publications of Minnesota Crime Information, will be included in statewide totals. Thus a comparison capability must be provided this year for inclusion in next year's publication.

Information tabulated concerning the criminal offenses reported by the patrol reflects changes in the categories of Negligent Manslaughter, Aggravated Assault, other Assaults, Stolen Property, Weapons, Narcotics, Driving Under the Influence, Liquor Laws, Disorderly, All other. (See Table 15). State Patrol arrest information depicts increases in the total number of individuals arrested within the state. The areas most affected by the addition of this arrest information includes Driving Under the Influence, Negligent Manslaughter, Narcotics, and Auto Theft.

SHIFT AND PATROL DATA

LAW ENFORCEMENT CODE OF ETHICS

As a Law Enforcement Officer, my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.

I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession...law enforcement.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Information concerning law enforcement personnel assaulted and/or killed during 1973 was tabulated from reports received from 255 agencies. There was a total of 456 assaults recorded in Minnesota for that year. Of that total; 340 involved hands, fists, and feet, 54 were attributed to firearms, 37 involved some other dangerous weapon while 25 were committed by a knife or a cutting instrument; 306 of the assaults involved no personal injury to the law enforcement officer while 150 registered some form of personal injury. The type of activity most responsible for the assault situations was responding to "Disturbance Calls" with 143 incidents. Of the total assault situations, 368 were cleared by the law enforcement agencies. The most frequent time of assaults was indicated as between 10pm - 12pm with 120 confrontations. The type of assignment most frequently registered with assaults during the year was a one man vehicle, alone. (139 incidents)

There were 3 deaths of law enforcement officers in Minnesota during 1973. Two were the results of negligent manslaughter and a felonious act. The time of their deaths and the circumstances describing the assault and killing are described below:

OCTOBER

The Minnesota Highway Patrol advised that a trooper, white male 46 years of age, was shot and killed after making a traffic stop. The trooper stopped a vehicle that had reportedly been driven in a dangerous manner. The trooper approached the vehicle driven by the wife of the subject. The subject, a white male 48 years of age, was a passenger in the vehicle. Both occupants had been drinking and an argument over their driving condition ensued. The trooper took the female's drivers license to the patrol car to have its validity checked over the radio. The subject left the vehicle carrying a .22 caliber rifle and fired a gunshot into the patrol car windshield striking the trooper in the head. The trooper exited the patrol car and fell face down on the highway. The subject fired two additional gunshots into the trooper. He then put the rifle to his head and committed suicide.

NOVEMBER

Two Carver County Deputy Sheriffs (age 31 and 22) were killed while enroute to investigate an automobile accident, when their squad car was involved in a collision with a train at the intersection of Hwys. 212 and 17 in Shakopee.

JUDICIAL CRIMINAL INFORMATION

JUDICIAL CRIMINAL INFORMATION

Beginning in 1933, the clerks of courts within the State of Minnesota began collecting judicial criminal statistics in cooperation with the Federal Bureau of Census. In 1936, a state statute authorized the collection of this information through a central agency, namely, the Bureau of Criminal Apprehension. Since the program's inception, the clerks of courts have been extremely cooperative in providing the necessary information to the Bureau. This information contains details on various judicial proceedings and judicial sentencings that occur within each court which involve charges that originated as felony or gross misdemeanors.

Table 20 will indicate Judicial Proceeding Activity summary information reflecting statewide totals of the Proceeding Types, Pleas, Attorney Types, Acquittals and Convictions recorded from the reports submitted by the court clerks. Caution must be used in the interpretation of these figures as one individual is normally processed through more than one proceeding. Each time a report is received concerning an individual for each proceeding administered, a separate entry is tabulated. Therefore the 11,740 Proceeding Types reflect the number of proceedings in which a report was received and does not indicate the total number of individuals which were processed. Tables 21 & 22 will further clarify the Judicial Proceeding Activity by groupings of specific types of offenses. This information will only show the total number of proceedings for which a report was received and not reflect the count of individual's processed.

Unlike the foregoing proceeding information, the Judicial Sentencing Activity will reflect the number of individuals sentenced for particular offenses during 1973. The information represented was tabulated from those reports received from the court clerks which indicated 3,206 sentencing processes that actually took place. Table 23 indicates summary information reflecting

statewide totals involving Disposition of Offenses, Record of Convictions and Sentences Suspended or Stayed. More detailed information involving sentencing according to groupings of specific types of offenses will be shown in Table 24.

ADULT - For Minnesota Uniform Crime Report purposes, a person aged 18 or above.

ARREST RATE - The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. Arrest rates are computed in the same manner as crime rates.

CLEARED BY ARREST - For crime reporting purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, or (2) charged with the commission of the offense.

COUNTY - Subdivisions of a state, each with its own government, including sheriff's department.

CRIME FACTORS - Conditions which affect the amount and type of crime that occurs in a geographical area. (See Page 10 for list of Crime Factors.)

CRIME INDEX - The sum total of seven major offenses used to measure the extent, fluctuation and distribution of crime in a given geographical area. Crime classifications used in the index are: Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny (\$50 and Over) and Auto Theft. Each of these offenses is referred to as an "Index Offense."

CRIME RATE - The number of index offenses reported for each unit of population, generally per 100,000 persons. Crime rates are computed for communities with varying populations by dividing the number of Index Crimes by the population and multiplying the answer by 100,000. (Example: 500 Index Offenses divided by 10,000 population x 100,000 = 5,000 Crime Rate.)

EXCEPTIONAL CLEARANCE - A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against an offender. (See pages 7 & 8 for a listing of examples of exceptional clearances.)

JUVENILE - For Minnesota Uniform Crime Report purposes, a person under the age of 18.

MUNICIPALITY - City or town that has its own government, including police department.

PART I OFFENSES - The first of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and occur most frequently. The monthly tabulation of Part I offenses provides a count of "offenses known." (See Pages 13 - 16 for a listing of these offenses.)

PART II OFFENSES - The second of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature. Monthly tabulations of Part II offenses are included in Minnesota's crime information report. (See pages 16 - 18 for a list of these offenses.)

PROPERTY CRIME - Consists of the Index Offenses of Burglary, Larceny (\$50 and Over) and Auto Theft.

VIOLENT CRIME - Consists of the Index Offenses of Murder, Forcible Rape, Robbery and Aggravated Assault.
