INTRODUCTION

Scope. Arkansas Documents, issued in compliance with Section 8 of Act 489 of 1979, (Ark. Stat. 6-307) is a quarterly bibliography of Arkansas State government publications. This bibliography records those publications provided by issuing agencies to the Documents Services section of the Arkansas State Library for inclusion in the official depository collection at the State Library and for distribution to other depository libraries located throughout the state.

Publications excluded from this bibliography are: bills, slip laws, and daily journals; advertising and promotional copy; announcements of job vacancies, publication releases, and meetings or conferences; correspondence or interoffice memos; updates, transmittals, amendments, and errata; and all documents with an imprint date before 1979.

Format. Bibliographic entries in Arkansas Documents are unit catalog cards produced through the OCLC on-line bibliographic data base with information supplied by Cataloging Services section of the Arkansas State Library. Entries are arranged by Arkansas documents classification number. The classification numbers are constructed so that publications are grouped by the State agency considered to be responsible for the publication. An explanation of a complete bibliographic entry is listed on the next page.

Unit cards for periodicals are entered only once in each volume. A separate alphabetical section of periodical titles lists the issues received each quarter.

Access. An Arkansas State document depository library system has been established for the use of the citizens in the state. Documents are distributed to these libraries participating in the depository system in order to make state documents accessible to the public. The general public may borrow publications through the local library by using interlibrary loan procedures to contact a depository library or the Arkansas State Library. The complete citation should be given when requesting a publication through interlibrary loan.
Distribution. Many publications recorded in Arkansas Documents are distributed to two types of depository libraries—select and full. Availability symbols, noted below, are included in each entry and indicate the distribution of that title to depositories.

Availability symbols.
A Publication distributed to all select and full depositories.
F Publication distributed to only full depositories.
N Publication is not available for distribution, a copy may be borrowed from Interlibrary Loan at the Arkansas State Library.
$ Publication is a sale item; order from the issuing agency.
D Publication mailed directly from the issuing agency.
X Publication may be obtained from Documents Services.
Number Publication received in insufficient quantity for full distribution.
See the section below.

Priority distribution. When an agency is unable to supply Documents Services with sufficient copies to enable the distribution of a title to all full depositories, a distribution of the copies received is made according to the following schedule:

SECTION 8. (a) The Arkansas State Library shall serve as the State's regional depository library for federal documents and shall become the official depository for State and local documents. The Arkansas State Library shall create and maintain a State and Local Government Publications Clearinghouse. All State agencies, including the General Assembly and its committees, constitutional officers, and any department, division, bureau, board, commission, or agency of the State of Arkansas, and all local governments, including cities of the first and second class and incorporated towns, and counties, and all boards, commissions or agencies thereof, shall furnish to the State Library, upon release, a specified number of copies of each of its State or local publications, to enable the State Publications Clearinghouse to meet the needs of the Depository Library System and to provide library loan services to those libraries without depository status. Such distribution will be required only if sufficient funds are appropriated for the printing of these materials by the agencies, boards, and commissions, and for the distribution thereof by the Arkansas State Library to depository libraries.

For the purposes of this Act, the expression "State publication" and/or "local publication" shall include any document issued or printed by any State agency or local government which may be released for such distribution, but does not include:

(i.) The bound volumes of the printed Acts of each of the sessions of the General Assembly of the State of Arkansas;

(ii.) The bound volumes of the Arkansas Supreme Court Reports;

(iii.) Printed copies of the Arkansas Statutes, 1947, annotated, or pocket part supplements thereto;

(iv.) Any other printed document which may be obtained from the office of the Secretary of State upon the payment of a charge of fee thereof;

(v.) Correspondence and intraoffice or interoffice or agency communication or document which are not of vital interest to the public;

(vi.) Publications of State or local agencies intended or designed to be of limited distribution to meet the requirements of educational, cultural, scientific, professional, or similar use of a limited or restricted purpose, and which are not designed for general distribution; and similarly, other publications or printed documents which are prepared to meet the limited distribution requirements of a governmental grant or use, which are not intended for general distribution, shall also be deemed exempt from the provisions of this Act unless funds have been provided for printing of a quantity of such publication sufficient for distribution, provided, that a depository copy of each such document noted in subsections (i.), (ii.), (iii.), and (vi.) shall be made available to the State Library.

(b) The State Library shall make rules and regulations as may be necessary to carry out the purposes of the State Publications Clearinghouse.

(c) The Arkansas State Library may enter into depository agreements with any city, county, district, regional, town, school, college, or university library in this State. The State Library shall establish standards for eligibility as a depository library under this Section. Such standards may include and take into account:
(i.) the type of library;

(ii.) its ability to preserve such publications and to make them available for public use;

and

(iii.) its geographical location, in order to assure that the publications are conveniently accessible to residents in all areas of the State.

(d) Each State and local agency printing or duplicating publications of the type which are to be made available to the State Publications Clearinghouse shall, if sufficient funds are available therefor, print or duplicate fifty (50) additional copies or such lesser number as may be requested by the State Library, for deposit with the State Publications Clearinghouse of the State Library for distribution to established depository libraries or interstate library exchange. Provided, however, that if a State agency or a local governmental agency does not have sufficient funds or resources available to furnish said fifty copies to the State Publications Clearinghouse of the State Library, they shall notify the State Library and deliver to the State Publications Clearinghouse three (3) copies of each publication to be maintained in the State Library, to be indexed and made available on loan to participating libraries through the interlibrary loan services of the State Library.

(e) The State Publications Clearinghouse of the State Library shall publish, at least quarterly and more frequently if funds are available, and upon request, distribute to all State agencies and contracting depository libraries a list of State publications.

(f) Nothing in this Act shall be construed to repeal, amend, modify, or affect the status of the General Library of the University of Arkansas at Fayetteville as a depository of State, city, and county documents under the provisions of Act 170 of 1947, nor shall this Act repeal, amend, modify, or affect the powers of the General Library of the University of Arkansas at Fayetteville, or the library of each of the State supported institutions of higher learning to be a selective or partial depository of State, city, and county documents under the provisions of Act 163 of 1971. Provided, however, that the State Library is hereby authorized to enter into contracts or agreements with the General Library of the University of Arkansas at Fayetteville and the library of each of the State supported institutions of higher learning in this State to provide through the State Publications Clearinghouse any of the clearinghouse, exchange, depository or selective or partial depository duties or functions of any of said libraries, or to provide depository library services in behalf of any of said libraries that may be mutually agreed to by the State Library and the General Library of the University of Arkansas at Fayetteville or one of the several institutions of higher learning of this State.

All powers, functions, and duties to be performed by the Secretary of State under the provisions of Act 163 of 1971 are hereby transferred to, and shall hereafter be performed by, the Arkansas State Library.
SECTION 1(a) The only biennial reports which shall be printed and distributed shall be the Biennial Reports of the State Treasurer and the Department of Finance and Administration. These reports shall be distributed to the Constitutional Officers of the State, and upon request to members of the General Assembly. Copies shall be available for distribution to the general public upon written request.

(b) In addition to the financial statements and tables required to be published in said report, the Department of Finance and Administration shall be required to summarize briefly all of the financial affairs of each State supported institution or department and to publish the same in its biennial report to the Constitutional Officers of the State.

SECTION 2. Whenever the laws of this State require any State agency, department, board or commission to prepare and publish an annual or biennial report, such report shall be prepared in the least expensive manner possible, and fifty (50) copies thereof shall be filed with the Arkansas State Library, and twenty (20) copies thereof shall be filed with the Library of the University of Arkansas at Fayetteville, as required by law, for distribution purposes. The publication and filing of such reports to be available for distribution, in the manner provided above, shall constitute sufficient distribution thereof, in lieu of other distribution requirements which may be prescribed by law, provided:

(A) A record or list of reports available within the Arkansas State Library shall be distributed every three (3) months to the appropriate parties, including members of the General Assembly; or public officials, who may be designated by law to receive copies thereof, and the furnishing of such lists or record shall meet the formalities of any statutory requirements specifying officials to whom copies of said reports shall be furnished.

(B) Copies of such reports shall be made available to the maximum extent practicable upon request therefor, but the Arkansas State Library may establish [provide], by rules and regulations, for recovery of the costs of reproduction of reports.
