STATE OF NEW YORK
DIVISION OF CRIMINAL JUSTICE SERVICES
EXECUTIVE PARK TOWER
STUYVESANT PLAZA
ALBANY, NEW YORK 12203

FOREWORD

The New York State Division of Criminal Justice Services was assigned the responsibility for the collection of data concerning crimes and arrests in New York State, effective January 1975, pursuant to Sections 837, 837-a, and 837-b of the Executive Law.

In assuming that responsibility, the Division was also committed to providing relevant data to the National Uniform Crime Reporting program administered by the Federal Bureau of Investigation and to disseminating this information to the New York State criminal justice community.

This publication is the eighteenth annual report prepared in discharge of that responsibility. The Division appreciates the cooperation and support of the nearly 600 police departments, sheriffs' offices and specialized police agencies that provide offense and arrest data for the report. We also wish to express our gratitude to District Attorney and Special Prosecutor offices throughout the State for their continued cooperation and assistance in providing data on the processing of felons. The Division is also indebted to the Superintendent of the Division of State Police, the Chairman of the Board of Parole, the Chairman of the Commission of Correction, the Commissioner of the Department of Correctional Services, the State Administrator of the Courts, the Director of the Division for Youth, and the Director of Probation and Correctional Alternatives for the data provided by their respective agencies.

The contributions of all involved in the preparation of this report permit the Division to provide a comprehensive picture of the nature of crime and justice in New York State. Without the concerted and dedicated efforts of the people who serve in the many local and State agencies which comprise our criminal justice system, the publication of this report would not be possible. It is these efforts which are documented in this *Crime and Justice Annual Report*.

Richard H. Girgenti
Director of Criminal Justice
and Commissioner, DCJS

STATUTORY AUTHORITY

The collection, analysis and dissemination of criminal justice data in New York State is authorized by sections 837, 837-a and 837-b of the Executive Law, to wit:

"§ 837. Functions, powers and duties of

The division shall have the following functions, powers and duties:

...4. In cooperation with the state administrator of the unified court system as well as any other public or private agency,

...(c) collect and analyze statistical and other information and data with respect to the number of crimes reported or known to police or peace officers, the number of persons arrested for the commission of offenses, the offense for which the person was arrested, the county within which the arrest was made and the accusatory instrument filed, the disposition of the accusatory instrument including, but not limited to, as the case may be, dismissal, acquittal, the offense to which the defendant pled guilty, the offense the defendant was convicted of after trial and the sentence."

"§ 837-a. Additional functions, powers and duties of the division

In addition to the functions, powers and duties otherwise provided by this article, the division shall:

1. Collect and analyze statistical and other information and data with respect to the number of persons charged with the commission of a felony by indictment or the filing of a superior court information, the felony with which the person was charged therein, the county within which the indictment or superior court information was filed, the disposition thereof including, but not limited to, as the case may be, dismissal, acquittal, the offense to which the defendant pleaded guilty, the offense the defendant was convicted of after trial, and the sentence."

"§837-b. Duties of courts and peace officers

1. It is hereby the duty of the state administrator of the unified court system; and of every sheriff, county or city commissioner of correction and head of every police department, state, county, or local, and also railroad, steamship, park, aqueduct and tunnel police and town constables, of every district attorney of every probation agency; and of head of every other officer, person or agency, dealing with crimes or criminals or with delinquency or delinquents, to transmit to the commissioner not later than the fifteenth day of each calendar month or as such times as provided in the rules and regulations adopted by the commissioner, such information as may be necessary to enable him to comply with subdivision four of section eight hundred thirty-seven. Such reports shall be made upon forms which shall be supplied by the commissioner.

2. Such officers and agencies shall install and maintain records needed for reporting data required by the commissioner and shall give him or his accredited agents access to records for the purpose of inspection.

3. For every neglect to comply with the requirements of this section, the commissioner may apply to the supreme court for an order directed to such persons responsible requiring compliance. Upon such application the court may issue such order as may be just, and a failure to comply with the order of the court shall be a contempt of court and punishable as such."

DATA SOURCES

Uniform Crime Reporting system - Crimes Reported

Uniform Crime Reports (UCR) submitted monthly by all police agencies in the State to the Division of Criminal Justice Services (DCJS) are the basis for much of the material presented in this report. These reports include information on Index (Part I) offenses, Part II offenses, location and time of the offense, value of property stolen, arrests for Index and Part II offenses, juvenile arrests, law enforcement officers killed or assaulted, and law enforcement personnel and expenditures.

The UCR program is one of the major sources of official statistics on the amount of crime in society. However, for many reasons, not all offenses come to the attention of the police. Victims may feel too embarrassed to report a crime or that the loss sustained was too small to report or believe that there is nothing the police can do. Victimization studies have confirmed that many offenses are never reported to the police.

To combat crime effectively, it must be known when and where crime is occurring. The county, as a crime location, is not sufficiently definitive. Therefore, DCJS instituted direct reporting to the state program from every police chief and sheriff in New York State in accordance with State law.

In 1992, all 568 law enforcement agencies participated in the UCR program and agencies with multi-county jurisdictions reported separately within their jurisdiction.

KNOWN DATA PROBLEMS

The Schenectady City Police Department incorrectly reported aggravated assaults prior to 1992, making the increase shown between 1991 and 1992 artificial; the Rochester City Police Department incorrectly reported aggravated assaults for both 1991 and 1992, making the Monroe County decrease artificial; and the Glens Falls City Police Department has incorrectly reported aggravated assaults since 1989. These problems are also evident in the violent crime totals for the three counties, and the State totals. Also, reporting in 1991 was incomplete from agencies within the following counties and comparisons with the 1992 data should be made with this in mind: Allegany, Cattaraugus, Chenango, Delaware, Dutchess, Genesee, Rockland, Seneca, Suffolk, Sullivan, Ulster, Wayne and Westchester.

Comparison of crime rates between agencies and counties should generally be made with caution. Crime rates published here are based solely on offenses reported and the size of the resident population (determined by the 1990 census data and updates provided by the United States Department of Commerce - Bureau of Census and the United States Department of Justice - Federal Bureau of Investigation). Additional factors which may influence crime rates are density of population, geographic location, social attitudes, economic conditions, number of law enforcement officers, seasonal and transient population, and rural or urban environments.

Police agencies also submit supplementary reports on homicide and arson offenses. These reports allow for the presentation of more detailed information regarding these offenses.

Uniform Crime Reporting system - Arrests

In addition to monthly summaries of crimes reported, each police agency also reports to DCJS the number of adult (16 years and over) and juvenile (under 16 years) arrests. (The FBI/UCR Program considers persons under 18 as juveniles; however this report classifies juveniles in accordance with New York State law.) Arrest offenses are tabulated according to the universal definitions of offenses

DATA SOURCES (con't)

provided by the Federal Bureau of Investigation (Part I and Part II) instead of New York State statutory classifications.

Offenses are usually considered "cleared" when one or more arrests is made. However, there are exceptional circumstances when an offense may be cleared without an arrest. Exceptional clearances result when the police know who and where the offender is and have enough evidence to support an arrest, but are prevented from doing so because of some reason outside of their control. Tables showing clearance rates are also not transactional (i.e., clearances shown may be for offenses reported in earlier years).

Computerized Criminal History/Offender-Based Transaction Statistics - Adult arrests and dispositions

In addition to UCR arrest data contained in this report, county and regional data are presented for adult arrests and dispositions from the Computerized Criminal History/Offender-Based Transaction Statistics system (CCH/OBTS). These figures are based on the arrest fingerprint cards submitted to DCJS in compliance with Section 160.20 of the Criminal Procedure Law. The unit of count is an "arrest event." If there are multiple offenses charged at arrest, only the most serious offense is counted for statistical purposes. These offenses are classified according to the statutory classifications under New York State law. Disposition data pertain to the final outcome of cases during the specified year and may be for arrests that occurred in the same or previous years.

Indictment Statistical System - Felony indictments and dispositions

Felony indictment* and disposition information is reported to DCJS by District Attorneys and Special Prosecutors throughout the State pursuant to Section 837-a of the Executive Law (via the 1020 form). The unit of count is the defendant-indictment; when several defendants are named in one proceeding or indictment, each defendant is counted separately, and when one defendant is named in multiple proceedings or indictments, each indictment is counted separately. Disposition data pertain to cases handled during the specified year by the superior courts, and may be for indictments that occurred in the same or previous years. The use of offender-based statistics and the tracking of each defendant from the time of indictment until final disposition makes possible the measuring of elapsed time between various stages in processing, and these median (mid-point) processing times in days are displayed by region.

Other Contributing Agencies

Information from other criminal justice agencies is included in this report to present a broader overview of the entire criminal justice process. Agencies that have submitted data included in this report are the Office of Court Administration, Division of Probation and Correctional Alternatives, Department of Correctional Services, Commission of Correction, Division for Youth, and the Division of Parole. Data from these agencies may conflict with data presented from DCJS systems due to differences such as the unit of count, reporting delays, and compilation dates.

NEW YORK STATE COUNTIES

SECRET 0107E

UNCLASSIFIED

NEW YORK RELATIVE TO THE NATION

The Index crime rate for the United States in 1992 declined four percent to 5,660.2 per 100,000 population. Driven by an annual decrease in Index crime larger than any of the top ten states (except Texas), New York State dropped from 11th place in 1991 to 15th in 1992. The District of Columbia had the highest Index rate in the country, at more than twice the national level. Among large states, Florida, Texas and California all had higher rates of Index offending than New York. However, New York's Index rate exceeded that of the other northeastern states (the six New England states, New Jersey, and Pennsylvania).

New York ranked 4th among all jurisdictions in violent offending (dropping from third in 1991), with a rate 46 percent higher than the national rate. However, New York was one of only three states in the top ten to experience a decline in violent crime in 1992. New York ranked 23rd in property crime with a rate three percent below that for the United States as a whole.

Index Offenses

For over 50 years, criminal offenses reported to the police have been used as an index to assess the level of criminal activity within the country. The Index offenses were selected because of their seriousness or frequency of occurrence and include the *violent* crimes of murder, forcible rape, robbery and aggravated assault; and the *property* crimes of burglary, larceny, and motor vehicle theft.

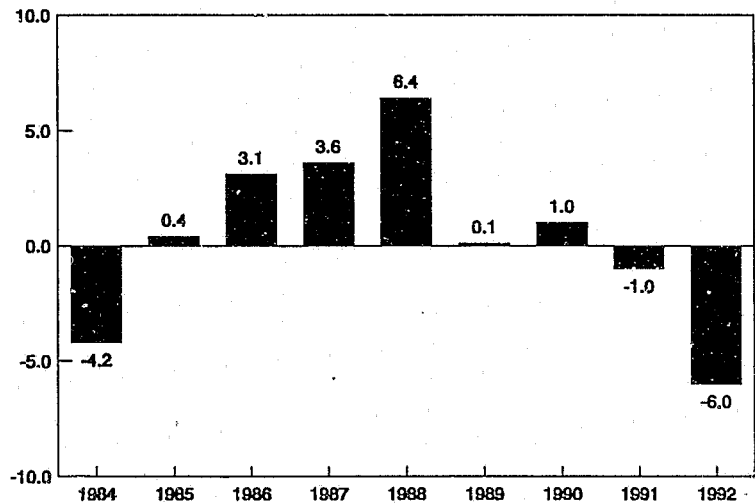

HIGHLIGHTS

In 1992, the number of Index offenses reported statewide dropped for the second consecutive year, and fell to the lowest level since 1987. This decline mirrors that experienced in the early 1980s which saw annual decreases in Index crimes. This decline also reverses the trend of year-to-year increases in crimes reported that prevailed between 1985 through 1990.

Compared with 1991, the number of Index crimes in 1992 declined at a much greater rate in New York City (-7.8%) than in the Upstate counties (-3.3%). However, New York City continued to account for approximately six out of every ten Index crimes reported statewide.

The rate of Index crimes per 100,000 population in 1992 was the lowest since 1986. The rate for New York City was more than twice that for the Upstate counties.

Violent Crimes

Violent crimes consist of the offenses of murder, forcible rape, robbery and aggravated assault. In 1992, violent crimes comprised approximately 19 percent of all Index offenses reported.

HIGHLIGHTS

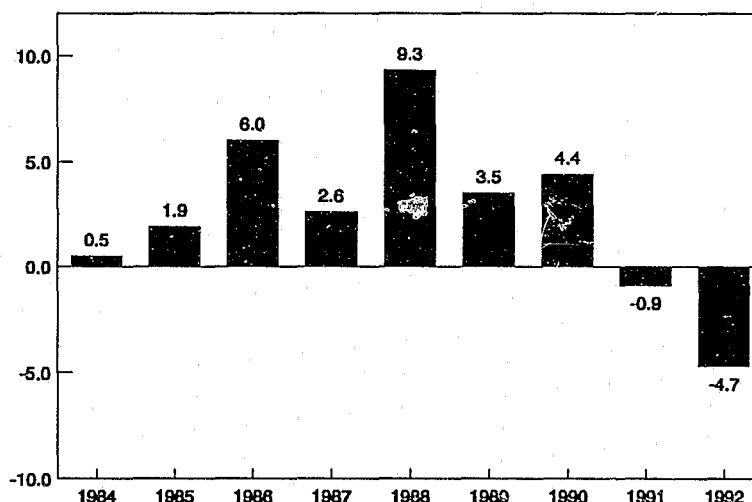

The number of violent crimes reported in New York State fell in 1992 for the second consecutive year since reaching an all time high in 1990.

The decline in the State total reflects only what occurred in New York City (which accounted for almost eight of every ten violent crimes statewide). The Upstate counties reported a record number of violent crimes in 1992, marking the fifth consecutive year of increases.

Also, the level of violence appears to be escalating as evidenced by the increasing use of firearms in the commission of violent crimes. In 1992, almost 30 percent of violent crimes involved the use of a firearm, up from 23 percent in 1988.

The violent crime rate of 1,104.7 per 100,000 population in 1992 was the lowest since 1988. Among counties, Bronx County had the highest violent crime rate in the State at 2,567.1, while Hamilton County had the lowest rate at 37.6.

Murder

Murder is defined as the willful killing of one human being by another. Excluded from this category are deaths caused by negligence, suicide, or accident; justifiable homicides; and attempts to murder, which are classified as assaults.

HIGHLIGHTS

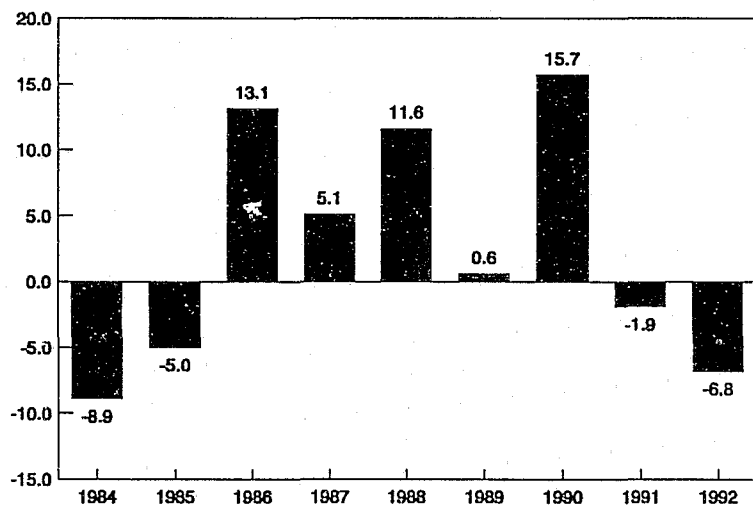

The number of homicide victims in 1992 declined for the second consecutive year following five years of annual growth and a record level in 1990.

Approximately eight out of every 10 murders in the State occurred in New York City. Both New York City and the Upstate area experienced a decline in murders in 1992 compared with 1991 (-7.4% and -4.0% respectively).

Most homicide incidents involved one victim slain by one offender. In 1992, the 2,394 homicide victims were slain in 2,263 incidents which involved a total of 1,525 known offenders.

Among offenders whose characteristics were known, 55 percent were under 25 years old, 56 percent were black, and 95 percent were male. Among victims whose characteristics were known, 55 percent were under 30 years old, 50 percent were black, and 83 percent were male.

MURDER (con't)

NEW YORK STATE

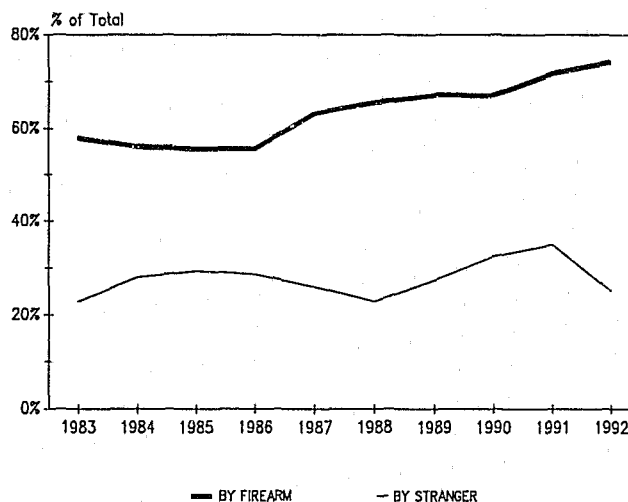

The relationship between the victim and offender was not known in three-quarters of the homicides that occurred in 1992. Among those cases where the relationship was reported, 74 percent involved a person known to the victim: 33 percent involved a relative or romantic interest, and 41 percent involved a friend or other acquaintance. However, this varied by the gender and age of the victim. Females were most likely to be killed by a family member or in a romantic dispute (65%) while males were most likely to be killed in situations outside the family setting, usually involving a stranger or casual acquaintance (81%). Victims under 20 years of age were more likely to be killed by a family member/romantic interest (41%) than those 20 years and older (30%). There were no significant differences in the victim/offender relationship across racial groups.

Homicides that occurred during the commission of another felony accounted for 41 percent of all murders, while altercations and other circumstances accounted for 59 percent. Among cases where the type of weapon used was reported, 73 percent involved firearms (primarily handguns). This proportion has increased in each of the last seven years.

CHARACTERISTICS OF VICTIMS AND OFFENDERS

% OF MURDERS BY FIREARMS AND STRANGERS

Figures for the following tables and the above graphs were derived from the Supplementary Homicide Reporting (SHR) system which details homicides reported by law enforcement agencies for 1992. These SHR totals are slightly higher than those reported in the UCR (previous page) because the UCR system provides for the deletion of cases from the current year when cases originally reported in prior years have been later determined to be false or unfounded.

The number of incidents and the number of victims are the basic units of count, with the offender, weapon and other data as subordinate data fields attached to the victim(s) in a given incident. Prior to 1989, a homicide victim with an undetermined number of offenders was counted as one offender and added to the "unknown" offender tally. Beginning with the 1989 report, no assumption is made about the number of offenders in a case with an undetermined number of offenders. As a result, the "unknown" value is not reported in the offender tables, since it is truly unknown.

Forcible Rape

Forcible rape is defined as the carnal knowledge of a person against their will. Attempts to commit rape by force or threat of force are also included; however statutory rape (without force) and other sex offenses are excluded.

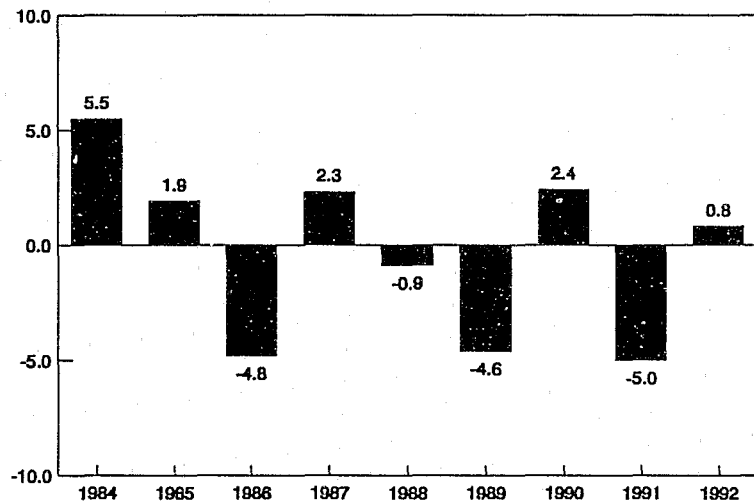

HIGHLIGHTS

The number of forcible rapes reported statewide in 1992 rose slightly above 1991 levels, making rape the only Index crime category that increased in 1992. There has been no clear trend in reported rapes during the last 10 years.

Contrary to all other violent crimes, rapes were almost equally reported from New York City (55%) and Upstate (45%). However, this may be due to regional differences in the likelihood to report the offense.

The vast majority of rapes (88%) were completed as opposed to attempted offenses, and most (66%) did not involve a weapon.

Robbery

Robbery is defined as the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

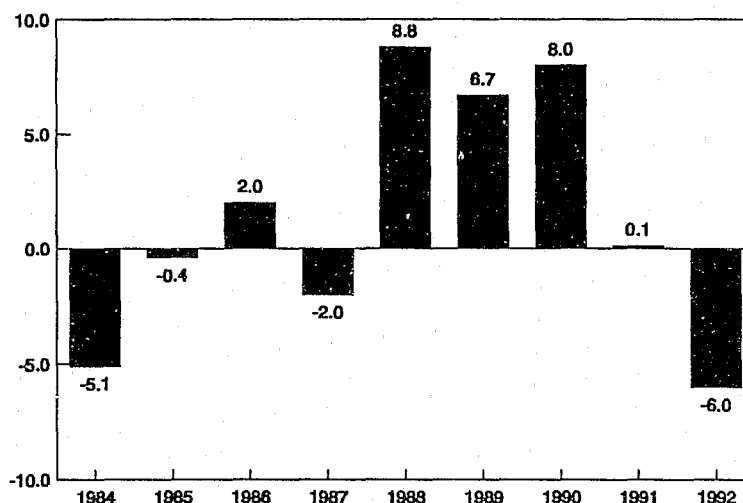

HIGHLIGHTS

Robbery reports increased each year between 1988 and 1991, then experienced the largest annual decline in the last 10 years in 1992. The number of robbery reports in 1992 was also 12.2 percent below the peak level of 120,378 robberies reported in 1981.

Robberies accounted for just over half of all violent crimes in 1992, and was largely a New York City phenomenon. Eighty-six percent of the robberies statewide occurred in New York City. While robberies declined 7.4 percent in the City, they rose 4.2 percent Upstate during 1992.

Almost two-thirds of all robberies occurred on a street, highway or alley, and 37 percent were committed with a firearm.

Aggravated Assault

Aggravated Assault is defined as the unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm, and also includes attempts to commit murder.

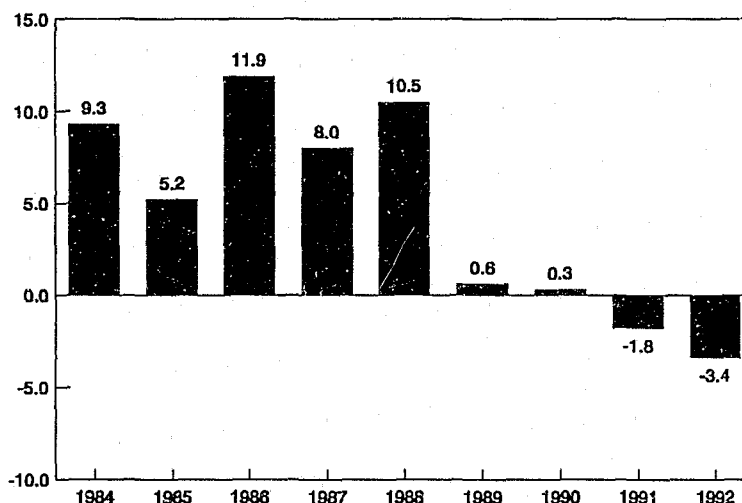

HIGHLIGHTS

Aggravated assaults recorded a cumulative growth of 54.8 percent during the year-to-year increases between 1983 and 1990. The 1992 level was the lowest reported since 1987.

While aggravated assaults dropped 4.9 percent in New York City during 1992, they rose 1.1 percent Upstate. Aggravated assaults were also a larger proportion of the Upstate region's violent crime (57.9%) than in New York City (39.8%).

Aggravated assaults occurred most frequently on the street (45.7%) or in a residence (31.1%), and slightly less than 20 percent were committed with firearms.

Property Crimes

Property crimes consist of the offenses of burglary, larceny, and motor vehicle theft. In 1992, property crimes comprised 81 percent of the total Index offenses reported.

HIGHLIGHTS

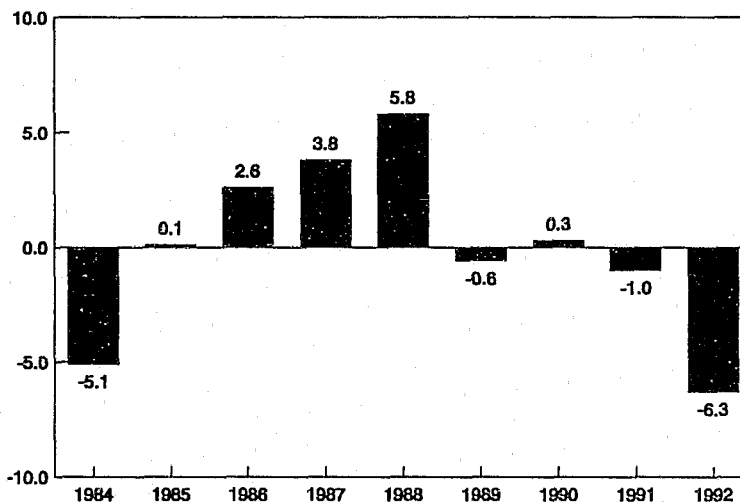

Property crimes declined in 1992 for the third time in the past four years. Property crimes in 1992 were 16.2 percent below the peak level of 1,024,436 in 1980.

Both New York City and the Upstate counties experienced a decline in property crimes in 1992 (-8.3% and -3.8% respectively), and each region accounted for an almost equal share of the property crimes statewide.

The property crime rate of 4,737.7 per 100,000 population in 1992 was the lowest since 1985. Among counties, New York County had the highest property crime rate in the State at 10,029.7, while Lewis County had the lowest rate at 1,015.4.

The grand total value of all property stolen during the commission of Index crimes in 1992 was 1.5 billion dollars, a decrease from the 1991 total of 1.7 billion. Stolen vehicles accounted for 47 percent of the total value of property stolen in 1992.

Burglary

Burglary is defined as the unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as Burglary.

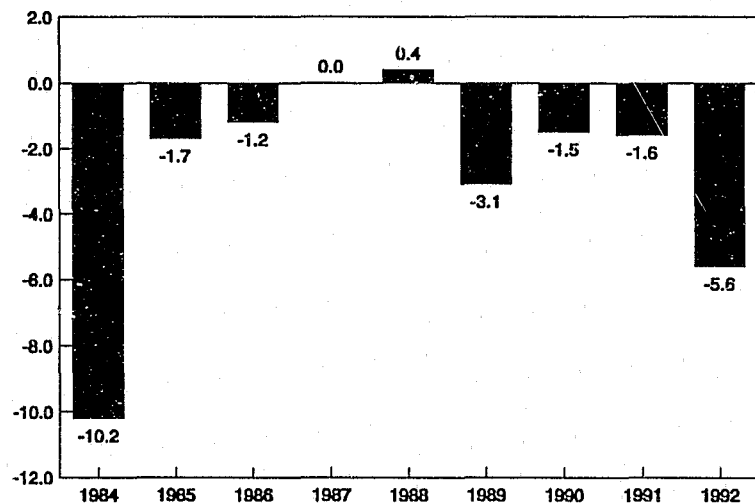

HIGHLIGHTS

Burglary reports reached their highest level in 1980 at 358,976 and have since declined every year except 1987 and 1988. The 1992 level is the lowest ever recorded by the Uniform Crime Reporting system.

Both New York City and the Upstate counties experienced a decline in burglaries during 1992, although the rate of decline in New York City (-7.6%) was more than twice that Upstate (-3.3%).

Almost seven out of every ten burglaries occurred in a residence. Most residences were burglarized between six a.m. and six p.m., while non-residential structures were most often burglarized after six p.m. Forcible means of entry were used in 65 percent of all burglaries in 1992.

Larceny

Larceny is defined as the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, purse snatching, bicycle thefts, etc., in which no use of force, violence, or fraud occurs. This offense category does not include offenses such as embezzlement, forgery, or bad checks.

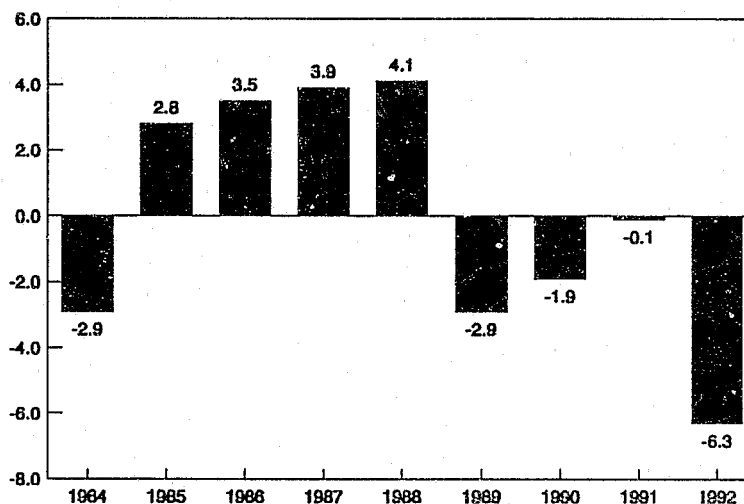

HIGHLIGHTS

Reports of larceny rose each year in the mid-1980s until peaking in 1988. The last four years have shown consecutive annual decreases, with the largest decline occurring in 1992.

Larceny is the most frequently reported Index crime, accounting for 47 percent of offenses reported in 1992. Larceny is also the only Index crime in which the Upstate counties account for a larger proportion of the State's total (52%) than New York City.

The largest category of larceny involved theft of motor vehicle parts or items left in a motor vehicle (35.6%). Most items lost were valued at either under 50 dollars or over 200 dollars.

Motor Vehicle Theft

Motor Vehicle Theft is defined as the theft or attempted theft of a motor vehicle, including automobiles, trucks, buses, motorcycles, and snowmobiles.

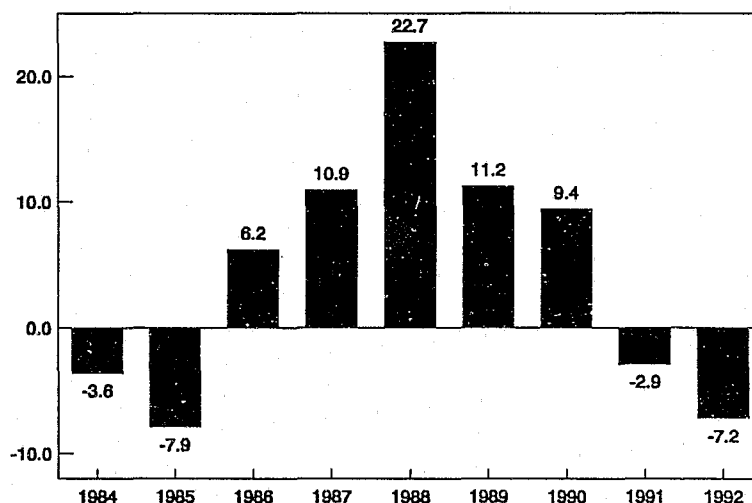

HIGHLIGHTS

After unprecedented levels of growth between 1986 and 1990, motor vehicle thefts declined for the second consecutive year in 1992.

New York City accounted for three-quarters of all motor vehicle thefts in the State and recorded a 9.3 percent decline in 1992. The number of motor vehicle thefts Upstate was virtually unchanged in 1992.

Automobiles were the most frequent type of motor vehicles stolen (95%), and 77 percent had been parked on the street when stolen.

Arson

Arson is defined as a willful or malicious burning, or attempted burning of a dwelling house, public building, motor vehicle, aircraft, or personal property of another. Only fires determined through investigation to have been willfully or maliciously set are classified as arsons.

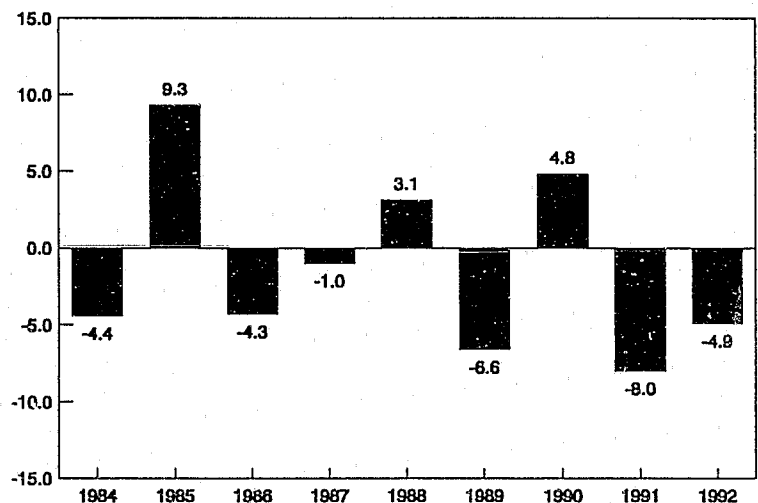

HIGHLIGHTS

The number of arsons reported to the police in 1992 fell for the second consecutive year, and dropped below 10,000 for the first time in the last 10 years.

Both New York City and the Upstate counties reported declines in arsons in 1992 (-4.5% and -5.3% respectively).

Most arsons involved residential structures (43%), and the estimated value of property damaged was almost 100 million dollars (for Upstate only).

Note: These data were derived from a supplementary arson data collection program that began in 1979 under the UCR system. They differ from arson counts shown elsewhere in this report because all arsons are reported to this program, regardless of whether they occurred in conjunction with a more serious offense. Thus, these tables show more arsons than the UCR Part II offense presentations elsewhere which count arsons only if they are the most serious offense in an incident.

A "cleared" arson incident is defined as an offense for which a perpetrator has been taken into custody or is otherwise known by police to have committed the crime, but for reasons outside police control cannot be taken into custody.

Estimated values of property damaged are included in order to provide an estimate of the absolute minimum dollar value. Because many police departments have little or no access to dollar amounts for arson, the monetary values for many arson cases are not reported. New York City does not report any estimated values.

Domestic Violence

The NYS Office for the Prevention of Domestic Violence studies "the traumatic effects of domestic violence and how our social and legal systems can better deal with such violence and its causes." Domestic violence data presented here represent offenses which have come to the attention of law enforcement officers, regardless of whether a formal complaint was filed or an arrest made.

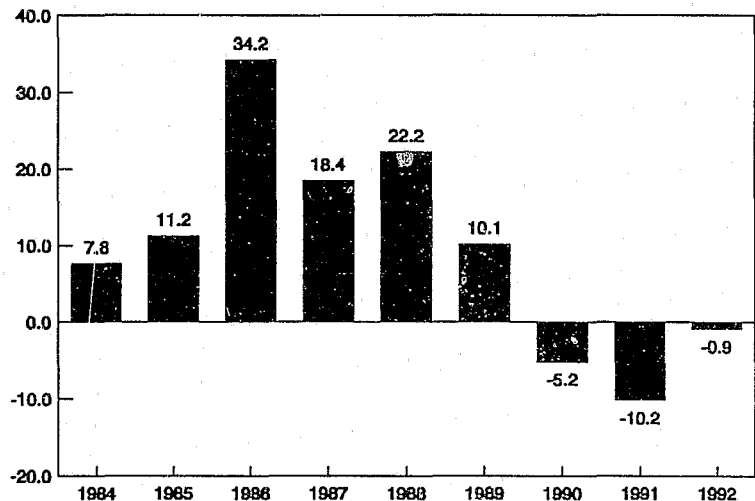

HIGHLIGHTS

Domestic violence offenses declined in 1992 for the third consecutive year after six years of large annual increases.

New York City accounted for 58.6 percent of these offenses statewide, and reported a decline of 2.0 percent in 1992, while the Upstate counties increased slightly (0.7%).

Most domestic violence situations involved a husband against a wife and non-sexual or assaultive offenses (e.g., harassment, weapons, etc.)

ADULT AND JUVENILE ARRESTS*

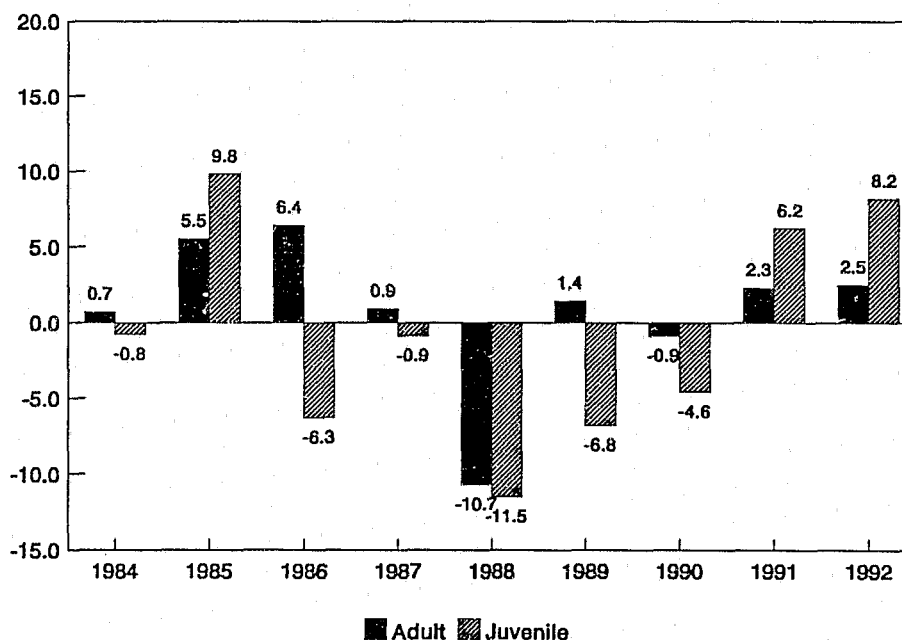

HIGHLIGHTS

Arrests reported through the Uniform Crime Reporting system during 1992 totaled 1,156,956, an increase of 2.8 percent from the 1,125,292 reported during 1991. These arrest figures include both adults and juveniles, and both fingerprintable and non-fingerprintable offenses, as well as summonses for violations of local ordinances. In 1992, arrests for Index offenses accounted for 16.5 percent of the New York State arrest total, and experienced a 7.4 percent decline from 1991.

Over 90 percent of arrests involved adults (16 years and older) for a 1992 total of 1,085,440. This was a 2.5 percent increase from 1991, and marked the second consecutive year of growth. Over the last 10 years, adult arrests increased each year except for 1988 and 1990.

Juvenile arrests (under 16 years old) totaled 71,516 in 1992, an increase of 8.2 percent above the 66,084 reported in 1991. During the 1980s, juvenile arrests declined for most of the decade and were well below levels reported during the late 1970s (1976 had the highest number at 113,714).

NEW YORK STATE
ANNUAL PERCENT CHANGES IN UCR ARRESTS

*Reported to the Uniform Crime Reporting system.

ADULT ARRESTS AND DISPOSITIONS*

HIGHLIGHTS

The number of adults arrested for felony and misdemeanor offenses in New York State rose substantially during the 1980s, driven by increased enforcement of anti-drug laws. Most of the increase occurred in the mid to late 1980s, with adult arrests peaking in 1989 at 525,847. Arrests for drug offenses rose almost 80 percent between 1985 and 1989, when they accounted for almost one-quarter of all arrests. Since 1989, arrests have fallen each year through 1992, but were still above those levels reported in 1986.

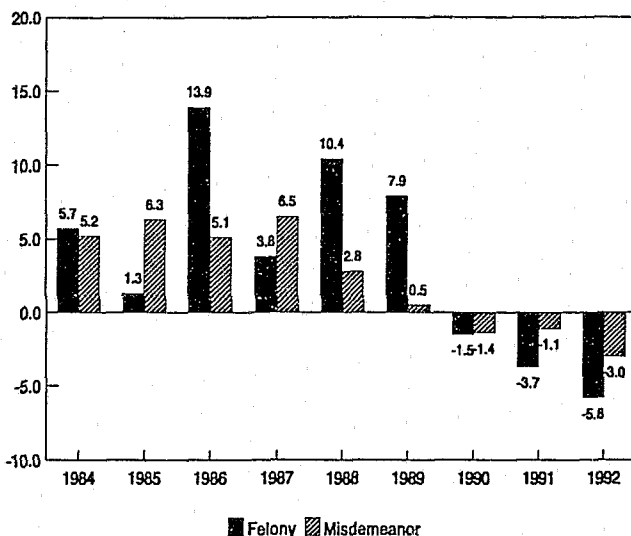

Approximately four out of every 10 arrests were at the felony level in 1992, and this proportion has been relatively consistent for the last 10 years. Among arrests for drug offenses, however, the proportion that were at the felony level has been rising, from 40 percent in 1983 to 59 percent in 1992.

New York City accounted for 51 percent of the arrests statewide in 1992, and had a considerably higher proportion of arrests at the felony level (51% of the City total) than the counties outside of New York City (26%). New York County reported the highest number of arrests in 1992, while Hamilton County reported the lowest.

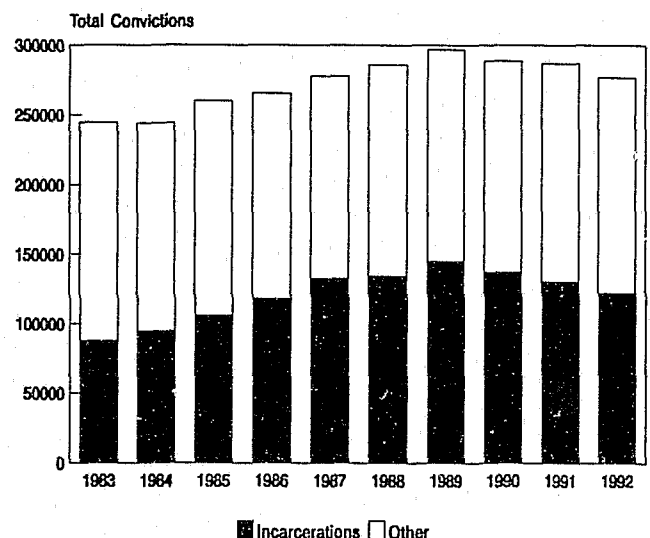

Statewide, almost two-thirds of all arrests ultimately resulted in a conviction to some charge. This rate has not fluctuated much in the last 10 years, but due to the rising number of arrests, the number of convictions grew by 13 percent. A larger proportion of convictions in 1992 were at the felony level (20%) than in 1983 (14%), resulting in more incarcerative sentences to prison and jail.

New York City had a lower conviction rate in 1992, than in the Suburban New York City and Upstate regions, especially for cases involving felony arrests. However, a much larger proportion of convictions resulted in incarcerative sentences in New York City, than in counties outside of the City.

FELONY INDICTMENTS AND DISPOSITIONS

HIGHLIGHTS

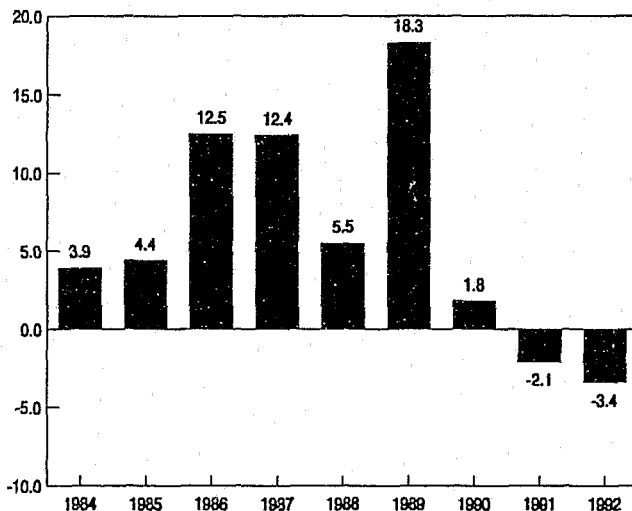

Felony indictments (including Superior Court Informations) totaled 75,944 in 1992, a decrease of 2.7 percent from 1991 and the second consecutive year of decline. Peaking in 1990, felony indictments experienced a cumulative growth of 74 percent since 1983. This pattern is directly attributable to changes in felony drug indictment activity. In 1983, there were three times as many indictments for violent felonies as for drugs, but in 1992 drug offenses accounted for 40 percent of the total indictments, and outnumbered violent felonies by 5,000 indictments.

New York City accounted for two-thirds of the indictments statewide, but a much higher proportion of the State's drug cases (79%) than non-drug cases (58%). While indictments declined in 1992 in both New York City and Suburban New York City, the Upstate counties reported a slight increase compared with 1991. Kings County reported the highest number of indictments in 1992, while Hamilton County reported the lowest.

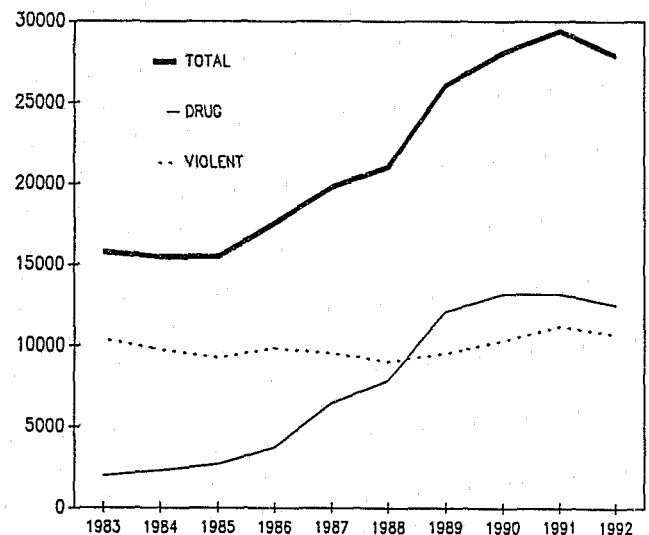

Statewide, approximately 90 percent of felony indictments resulted in a conviction to some charge in 1992. This rate has been steady for the last 10 years, but because of the increase in indictments, the number of convictions grew by 64 percent. There were 3,945 felony trials in 1992, and 69 percent of the trials resulted in guilty verdicts. Almost all (93%) of the convictions from indictments were at the felony level in 1992, and 43 percent resulted in a sentence to State prison. In 1992, 45 percent of the prison sentences imposed were for drug convictions, compared with only 12 percent in 1983. Half of the sentences to prison in 1992 had maximum lengths imposed of five years or less.

In 1992, the median number of days between indictment and disposition was 84 days, down from 92 days in 1991. Processing times were significantly longer in New York City (103 days) than in Suburban New York City (27 days) and Upstate (71 days).

LAW ENFORCEMENT PERSONNEL AND EXPENDITURES

EMPLOYEES

A total of 81,889 persons were employed by law enforcement agencies in New York State in 1992¹, an increase of 2.2 percent from the 80,009 reported in 1991. This figure includes both sworn and civilian personnel and those working full or part-time.

The largest department was the New York City Police Department with 37,992 employees. The next largest departments in order of size, were the New York State Police with 4,719, the New York City Transit Authority with 4,696, the Nassau County Police with 3,821, and the Suffolk County Police with 3,228 employees. Statewide, the number of sworn personnel increased 2.4 percent between 1991 and 1992. Sworn personnel accounted for 77.5 percent of all the employees, and 96 percent were employed full time. Females accounted for 10.4 percent of the sworn personnel, and their number rose 7.6 percent over the number employed in 1991.

EXPENDITURES

The State's law enforcement agencies estimates of operating expenditures for 1992 amounted to \$4,109,938,713, an increase of 7.3 percent over 1991 operating expenditures. The 1992 expenditures were distributed across law enforcement jurisdictions as follows:

NEW YORK STATE 1992 LAW ENFORCEMENT EXPENDITURES

AGENCY	EXPENDITURES	PERCENT
Sheriffs ²	\$ 149,603,870	3.6
New York City P.D.	1,751,895,000	42.6
State Police	232,646,400	5.7
Municipalities	1,420,623,343	34.6
Authorities & Special Agencies	555,710,100	13.5
Total	\$4,109,938,713	100.0

¹ Law enforcement agencies submit agency staffing estimates on an annual basis; these staffing estimates reflect all law enforcement employees - excluding employees assigned to jail duties - on the agencies' payrolls as of October 31, 1992.

² Does not include jail operating expenditures for 1992.

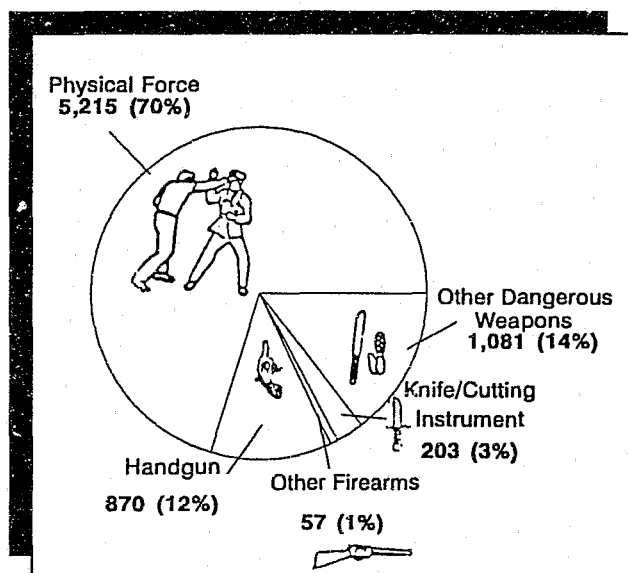

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED 1992

During 1992, four law enforcement officers were feloniously slain in the line of duty in New York State. Two other officers accidentally lost their lives while performing law enforcement duties.

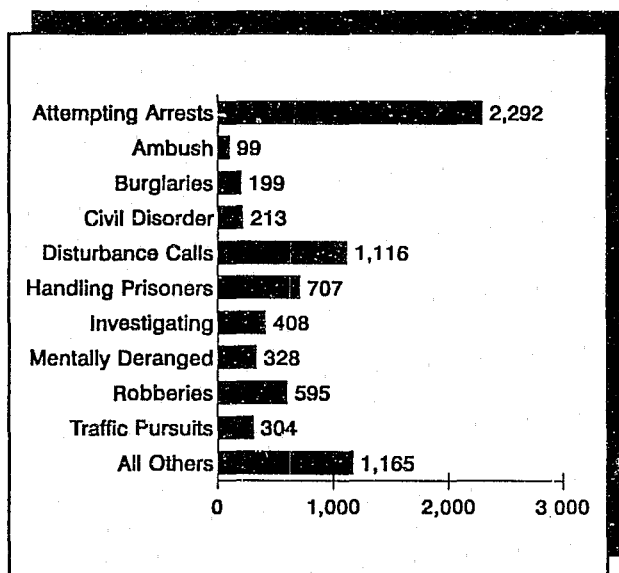

There were 7,426 officers assaulted while performing law enforcement functions, a decrease of 9.6 percent from the 8,216 officers assaulted in 1991, and the fewest number assaulted since 1987. The majority of assaults on law enforcement officers during 1992:

- » resulted in personal injury to the officer (89.8% of assaults)
- » involved physical force as the most common method of assault (70.2%)
- » occurred when officers were attempting arrests or responding to disturbance calls (45.9%)
- » were experienced by officers assigned to two-man vehicles (50.1%)
- » occurred between 4:00 p.m. and 2:00 a.m. (56.0%)

ASSIGNMENT

TIME

IN MEMORIAM

The Division of Criminal Justice Services joins the criminal justice community of New York State in extending its sincere sympathy to the families of the following law enforcement officers who gave their lives while protecting and serving the citizens of their community during 1992.

Police Officer Joseph Alcamo New York City Police Department
Killed in a traffic accident while responding to a call for assistance.

Police Officer William Gunn New York City Police Department
Died from a gunshot wound received in 1989 while making an arrest.

Police Officer Paul Heidelberger New York City Housing Police Department
Killed with a handgun during a dispute.

Deputy Sheriff Erik Renninger Dutchess County Sheriff's Department
Killed in a traffic accident while on duty.

Police Officer Hilario Serrano New York City Police Department
Killed with a handgun during an attempted robbery.

Police Officer Henry Stewart Suffolk County Police Department
Killed by a car while investigating a disturbance.

FELONY INSURANCE FRAUD OFFENSES

MANDATE

Because of the increasing concern with insurance fraud, the State Legislature enacted Chapter 480 of the 1992 Laws of New York requiring the Division of Criminal Justice Services (DCJS) to collect and analyze statistical information on the number of felony insurance fraud offenses violating Sections 176.15, 176.20, 176.25, and 176.30 of the New York State Penal Law relative to insurance fraud. The Computerized Criminal History/Offender-Based Transaction Statistics System (CCH/OBTS) uses data collected from police, prosecutors, courts, and correction agencies to track individual offenders through the criminal justice system. With CCH/OBTS, both arrests and dispositions are recorded where the specific insurance fraud offense is the most serious charge in an arrest or disposition event. Also, data on indictments and sentences for these felonies provided by District Attorneys to the Indictment Statistical System (ISS) are displayed.

PENAL LAW INSURANCE FRAUD OFFENSE DEFINITIONS

§176.05 Insurance fraud; defined:

A fraudulent insurance act is committed by any person who, knowingly and with intent to defraud presents, causes to be presented, or prepares with knowledge of belief that it will be presented to or by an insurer or purported insurer, or any agency thereof, any written statement as part of, or in support of, an application for the issuance of, or the rating of an insurance policy for commercial insurance, or a claim for payment or other benefit pursuant to an insurance policy for commercial or personal insurance which he knows to: (i) contain materially false information concerning any fact material thereto; or (ii) conceal, for the purpose of misleading, information concerning any fact material thereto.

§176.15 Insurance fraud in the fourth degree:

A person is guilty of insurance fraud in the fourth degree when he commits a fraudulent insurance act and thereby wrongfully takes, obtains or withholds, or attempts to wrongfully take, obtain or withhold property with a *value in excess of one thousand dollars*. Insurance fraud in the fourth degree is a class E felony.

§176.20 Insurance fraud in the third degree:

A person is guilty of insurance fraud in the third degree when he commits a fraudulent insurance act and thereby wrongfully takes, obtains or withholds, or attempts to wrongfully take, obtain or withhold property with a *value in excess of three thousand dollars*. Insurance fraud in the third degree is a class D felony.

§176.25 Insurance fraud in the second degree:

A person is guilty of insurance fraud in the second degree when he commits a fraudulent insurance act and thereby wrongfully takes, obtains or withholds, or attempts to wrongfully take, obtain or withhold property with a *value in excess of fifty thousand dollars*. Insurance fraud in the second degree is a class C felony.

§176.30 Insurance fraud in the first degree:

A person is guilty of insurance fraud in the first degree when he commits a fraudulent insurance act and thereby wrongfully takes, obtains or withholds, or attempts to wrongfully take, obtain, or withhold property with a *value in excess of one million dollars*. Insurance fraud in the first degree is a class B felony.

1992 DATA HIGHLIGHTS

- » There were 142 *arrests* for felony insurance fraud offenses statewide in 1992. This represents a decline of almost 30 percent from the 202 arrests reported during 1991.
- » The overwhelming majority (74%) of arrests for felony insurance fraud were at the Class D felony level (third degree) involving frauds with a value in excess of three thousand dollars.
- » Despite the decline in arrests, there was a 29 percent increase in the number of felony *indictments* for insurance fraud in 1992 (from 48 to 62).
- » Three-quarters of the arrests disposed resulted in a conviction to some charge. The conviction rate was highest for the third degree offense, and lowest for the most serious level first degree insurance fraud offense.
- » There were 22 *convictions* for felony insurance fraud (resulting from indictments for any charge) in 1992, a slight increase from the 19 reported in 1991. Only 23 percent of those convictions resulted in an incarcerative sentence of prison, jail, or jail plus probation. Probation was the most common sentence imposed.

NEW YORK STATE
FELONY INSURANCE FRAUD OFFENSES
1992

	1st Degree	2nd Degree	3rd Degree	4th Degree	TOTAL

Cond. Discharge	0	0	2	0	2
Other	0	0	1	0	1

Notes: Data are not transactional; i.e., indictments which occurred in 1992 are not necessarily from arrests which occurred in 1992. The conviction rate represents the number of dispositions of arrests that resulted in a conviction to any charge. The convictions shown for insurance fraud could have resulted from arrests or indictments on other charges.

VIOLENT FELONY OFFENSES

MANDATE

On September 1, 1978, substantial revisions to the New York State Penal, Criminal Procedure and Executive Laws became effective and altered the treatment of violent offenders. The newly created Penal Law Section 70.02 designated specific Class B through Class E felonies as violent felony offenses (VFOs) subject to minimum mandatory indeterminate state prison sentences. Additional offenses were later designated violent felonies through subsequent amendments to the Penal Law and VFOs currently include specific charges within nine different Penal Law articles. DCJS is required to report on the criminal justice processing of violent felony offenses.

* An attempt to commit these offenses is not a violent felony.

** Not designated as a violent felony by legislation (Penal Law §70.02) but included for analytic purposes. Attempts at these offenses (Class B felonies) are specified as VFOs.

DATA HIGHLIGHTS

- » In 1992, there were 67,169 *arrests* for violent felony offenses statewide, accounting for approximately 35 percent of all felony arrests. VFO arrests peaked in 1989 and have declined in each of the last three years. Almost three quarters of all VFO arrests occurred in New York City, and approximately two thirds were for either assault or robbery offenses.
- » Slightly more than one-third of all violent felony arrests retain their felony status post-arrest and reach the upper courts for prosecution. This rate has risen moderately during the past four years. Resulting violent felony *indictments* peaked in 1991 and declined 2.7 percent in 1992.
- » The number of violent felony *convictions* rose 23.9 percent between 1989 and 1991, when VFO convictions reached a record level. Approximately eight out of every ten VFO conviction results in some form of state or local incarceration, while the remaining non-incarcerative sentences were imposed when mitigating circumstances allowed for alternative sentences.

OFFICE OF COURT ADMINISTRATION

CASELOAD ACTIVITY REPORT

Courts report data to the Office of Court Administration pursuant to the Rules of the Chief Administrator of the Courts (22 NYCRR 115). All data presented here are from the Caseload Activity Reporting System of the Unified Court System.

There were 3,743,232 new cases filed in the trial courts of the Unified Court System in 1992 (excluding locally-funded Town and Village Courts). Of these, 3,425,624 filings reached court calendars. Excluding parking tickets, there were 2,831,175 filings as follows: 37 percent (1,042,534) were filed in criminal courts, 38 percent (1,081,264) in civil courts, 21 percent (586,770) in the Family Court, and four percent (120,608) in the Surrogates' Courts.

Dispositions in the trial courts during 1992 totaled 3,413,590. Excluding parking tickets, there were 2,819,142 dispositions, as follows: criminal courts 36 percent, civil courts 39 percent, Family Courts 21 percent, Surrogates' Courts four percent.

Table 1 shows a breakdown of filings and dispositions in the trial courts by type of court.

- ^f *Surrogates' Court dispositions include orders signed, and decrees signed.*

Criminal Cases

Criminal cases are processed in the trial courts as follows: Felony indictments and superior court informations are processed in the Criminal Term of the Supreme Courts in New York City and in the County Courts outside New York City. In several counties outside New York City, a portion of the felony caseload is processed in the Supreme Court as well. The District Courts of Nassau and Suffolk and the City, Town, and Village Courts outside New York City have original jurisdiction over felonies and complete jurisdiction over misdemeanors, violations, and infractions.

Criminal Term of Supreme and County Courts Filings: Statewide, 76,814 felony cases* were filed in the Supreme and County Courts during 1992. Sixty-six percent (50,783) of the 1992 filings occurred in New York City. Table 2 shows 1992 filings by judicial district. Table 3 focuses on individual counties, showing the seventeen counties with 400 or more felony case filings in the Supreme and County Courts. These twenty counties accounted for 90 percent of all felony filings in these courts.

* "Cases" are a count of "defendant-indictments," i.e., each defendant on each indictment counts as a case.

Dispositions: Statewide, 78,824 cases reached disposition (guilty plea, trial verdict, dismissal, or miscellaneous other) in 1992. Sixty-five percent (51,471) of the 1992 dispositions occurred in New York City. Table 2 shows 1992 dispositions by judicial district. Table 3 shows the nineteen counties with more than 400 dispositions in 1992; these counties accounted for 91 percent of all felony case dispositions. Eleven counties which commenced over 40 trials accounted for 89 percent of felony trials commenced statewide in 1992. Of the total 5,123 felony trials commenced, 4,506 (88%) were jury trials. Among 1992 felony dispositions, there were 66,412 guilty pleas (84%), 6,742 dismissals (8%), 4,354 trial verdicts (6%), and 1,316 other dispositions (2%).

Criminal Courts of Limited Jurisdiction

Criminal Court of the City of New York: There were 267,331 arrest cases filed in the Criminal Court of the City of New York in 1992. Arraigned cases totaled 261,123. There were 261,731 dispositions. Of the dispositions, 45 percent were by guilty plea, 31 percent by dismissal, 19 percent by referral to grand jury or by transfer to Supreme Court for waiver of indictment, 0.3 percent by verdict, and 5 percent miscellaneous other.

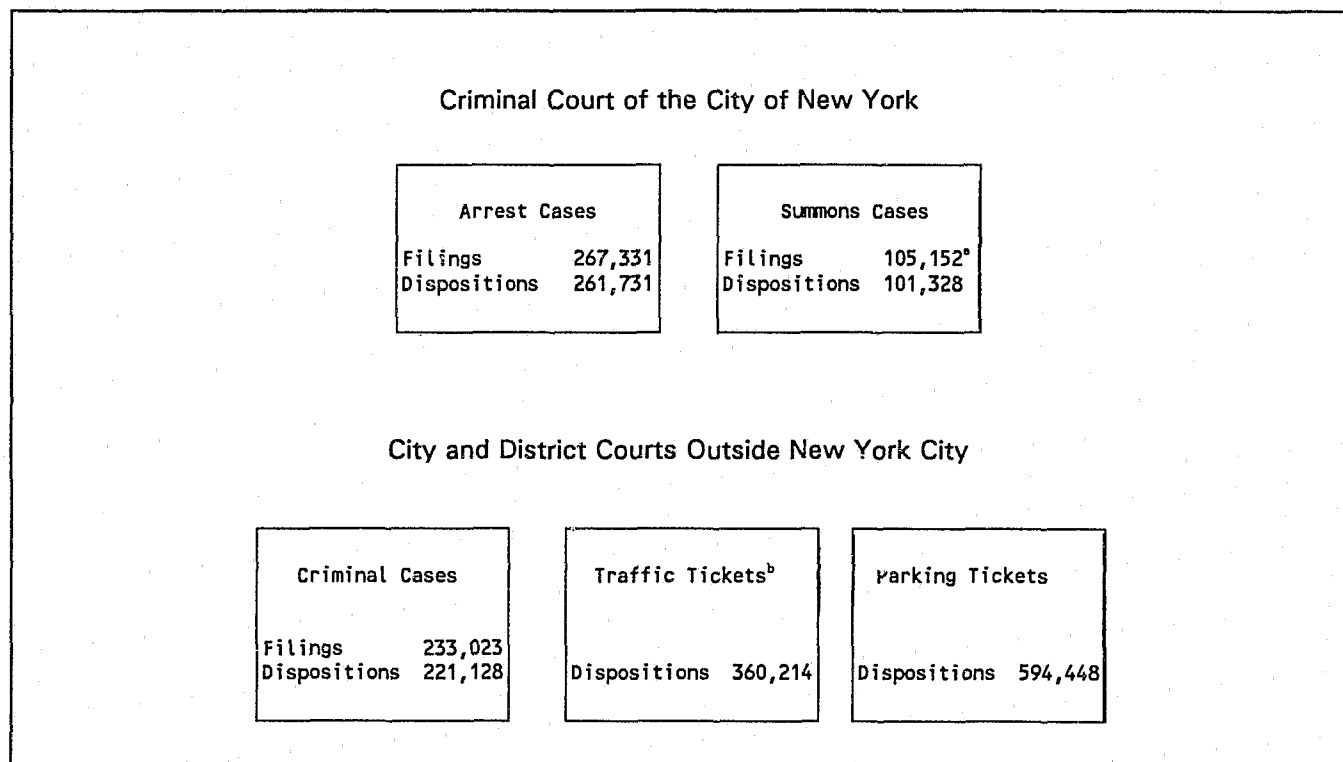

There were 105,152 summons cases added to the calendar. In addition, 85,264 summons cases were filed but not added to the calendar (defendant did not appear). There were 101,328 calendared dispositions.

City and District Courts Outside New York City: Criminal case intake in the City Courts and the Nassau and Suffolk District Courts totaled 233,023 in 1992. There were 221,128 dispositions. Of the dispositions, 51 percent were by guilty plea, 37 percent by dismissal, 8 percent by referral to grand jury or by transfer to superior court for waiver of indictment, 1 percent by trial verdict, and 3 percent miscellaneous other.

There were 360,214 non-criminal (violations and infractions) Uniform Traffic Tickets disposed in these courts. These consisted primarily of fines paid (by personal appearance and mail). In addition, 81,530 traffic tickets were filed and not answered. In jurisdictions without a parking violations bureau, the City and District Courts process parking tickets. Dispositions totaled 594,448 in 1992.

Figure 1 shows criminal caseload activity in the criminal courts of limited jurisdiction.

DIVISION OF PROBATION AND CORRECTIONAL ALTERNATIVES**PROBATION DEPARTMENTS DATA SUMMARY****Intake Services**

Cases opened for intake services decreased nine percent from 147,513 in 1991 to 134,016 in 1992.

Investigations

Probation departments conducted 112,137 regular investigations (pre-sentence, pre-plea, JD, and PINS) and 75,882 other investigations in 1992, as compared to 116,606 and 82,879 respectively, in 1991. This 188,019 total is a six percent decrease from the 199,485 investigations conducted in 1991.

Pre-disposition Services

There were 18,535 cases received for supervision prior to court disposition in 1992. This is a 21 percent decrease from the 23,408 cases received in 1991.

Probation Supervision

The total number of family and criminal cases sentenced to probation increased slightly from 54,138 in 1991 to 57,679 in 1992. The number of family and criminal cases under probation supervision at the end of the year decreased from 164,942 in 1991 to 159,715 in 1992, a decrease of three percent.

The number of criminal cases sentenced to probation in New York City increased by 2 percent from 19,134 in 1991 to 19,527 in 1992. During 1992, there were a total of 50,694 criminal cases sentenced to probation in New York State. This is a seven percent increase from 1991 when 47,440 cases were sentenced to probation.

Felony cases sentenced to probation increased between 1988 and 1992. Misdemeanor cases declined between 1988 and 1991 and then increased between 1991 and 1992. New York City experienced a slight decline in felony cases sentenced to probation between 1991 and 1992 while in Upstate Counties there was an increase.

The number of criminal court cases supervised on December 31 in New York City rose from 70,656 in 1991 to 72,940 in 1992, an increase of three percent. Statewide the number of criminal court cases supervised at the end of the year declined from 157,653 in 1991 to 152,165 in 1992, a decrease of four percent.

Since 1988, the total number of felony cases supervised at the end of the year have outnumbered misdemeanors. However, outside New York City, there has continued to be a larger number of misdemeanor cases supervised than felony cases.

Of the 41,019 criminal cases closed in 1992, 13,552 (33%) were by early discharge and another 11,312 (28%) were closed by maximum expiration. In New York City, these categories reflected 48 percent of all case closings. Outside New York City, these categories reflected 68 percent of all case closings.

DEPARTMENT OF CORRECTIONAL SERVICES

CHART 1
DEPARTMENT OF CORRECTIONAL SERVICES
POPULATION ON DECEMBER 31: 1972 - 1992

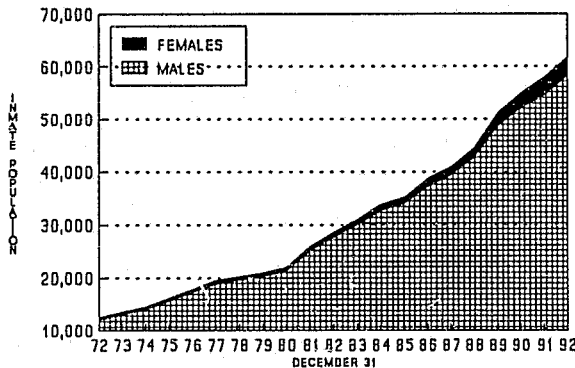

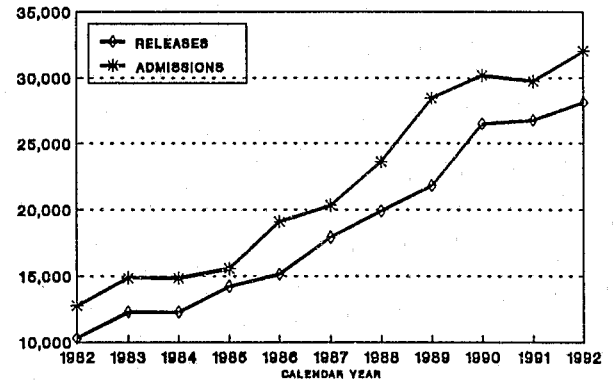

CHART 2
DEPARTMENT OF CORRECTIONAL SERVICES
ADMISSIONS AND RELEASES: 1982 - 1992

Under Custody Population (Table 1 and Chart 1)

The number of inmates in New York State prisons rose to an all-time high of 61,736 by the close of calendar year 1992. This represents a rise of 6.7 percent or 3,874 inmates from the previous year and 408.4 percent from a low of 12,144 inmates on December 31, 1972. Prior to 1972, the prison population had declined following a series of executive, legislative and judicial actions which diverted a number of offenders to other agencies. In the early 1970's, a rising volume of crime led to enactment of more stringent legislation which was accompanied by an increase in admissions to state prisons. In 1973, admissions exceeded prison releases for the first time since 1963 and the prison population increased. This increase has continued annually through 1992.

The number of women in prison has risen at a higher rate than the rate of increase for men. At the close of 1992, the female population at 3,499 was 3.9 percent higher than at the close of 1991 and 781.1 percent higher than the 1973 low of 397. By the close of 1992, males increased to 58,237, up 6.9 percent (3,743) over the level of 1991 and 383.4 percent over the 1972 low of 12,047.

Admissions To Department Custody (Table 1 and Chart 2)

Admissions to DOCS facilities reached another high in 1992 led by a record 25,155 court commitments. Admissions have shown a general rise over the twenty one year period 1972 - 1992, with a volume of 32,027 in 1992. Court commitments account for close to four out of five admissions and trends in this category largely shape the flow of offenders into state prisons. Beginning in 1971, felony commitments rose rapidly, offsetting declines in commitments for lesser offenses which have been diverted to other agencies. Contributing to this trend have been a rise in crime, felony arrests, indictments and court dispositions and an increasing tendency of the courts to commit convicted felons to prison. Several stringent laws enacted in 1973 and in subsequent years have added to this increase in commitments. These include the second felony offender law which imposes mandatory state prison terms for such offenders; a drug law which imposes harsher penalties on drug felons; the imposition of mandatory terms of imprisonment on all Class B and certain Class C and Class D felonies. The trend toward a higher level of court commitments has continued through 1992 reflecting the additional impact of the violent felony legislation that became effective in 1978 as well as the growing pool of felony offenders who must be sent to prison in the event of any new felony conviction.

Reason For Commitment (Table 2 and Chart 3)

CHART 3
DEPARTMENT OF CORRECTIONAL SERVICES
1992 COMMITMENTS BY TYPE OF OFFENSE

Of the 25,152 commitments to DOCS in 1992, 56.9 percent or 14,324 were sentenced as second felony offenders. A mandatory state prison term is required for persons convicted of a second felony offense. The single largest crime group was made up of drug felons accounting for 44.6 percent or 11,225 of all commitments. Over half (66.2%) of the drug felons were sentenced as second felony offenders.

One out of three (8,650 or 34.4%) of the 1992 commitments had been convicted of crimes designated in the penal law as Violent Felony Offenses (VFO). Robbery led the VFO group followed by dangerous weapons, burglary, homicide, assault and violent sex crimes. The VFO group had the smallest (42.6%) portion sentenced as second felony offenders.

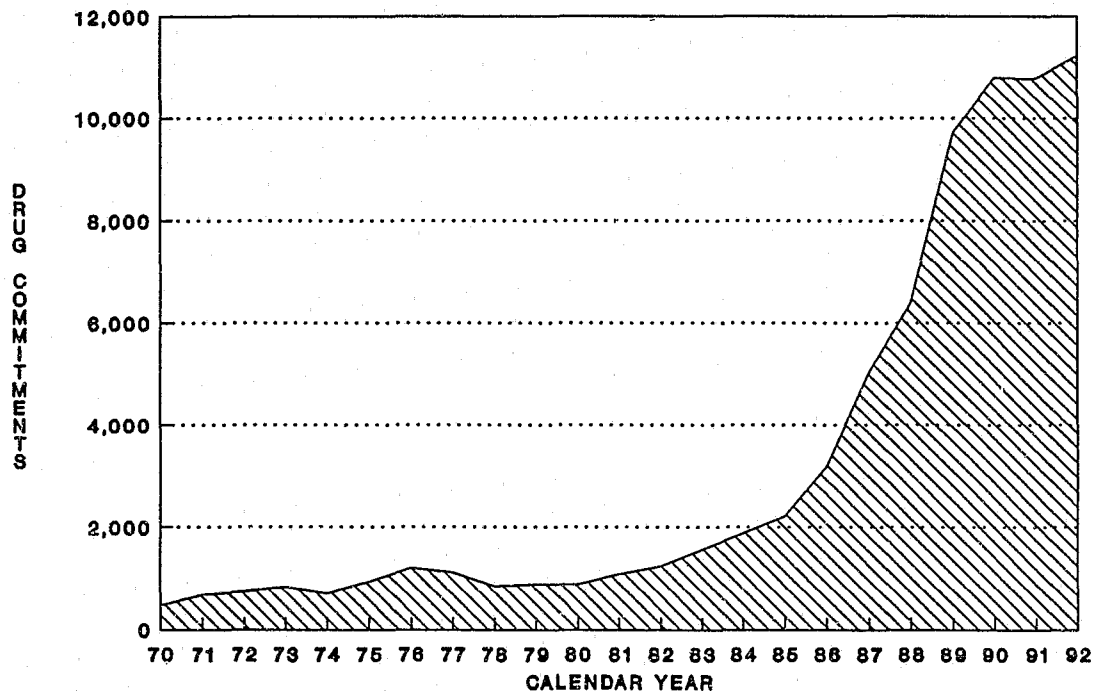

Property and other crimes accounted for 13.8 percent or 3,480 of the 1992 commitments. Burglary 3rd was the largest crime category in the group followed by larceny, stolen property, driving while intoxicated and forgery. This group had the highest portion sentenced as second felony offenders, 68.9 percent.

There were 1,380 commitments sentenced for lesser felonies involving violence or coercion. Robbery 3rd led this group followed by sex offenses, homicide and assault. Well over half (58.5%) were sentenced as second felony offenders.

A small group of inmates (283) were sentenced as persistent felony offenders with a maximum term of life. Offenders convicted of three or more VFOs receive a mandatory persistent felony sentence while this type of sentence is optional for other combinations of felonies. The largest portion (248) of the persistent felons were VFOs. Drugs at 17 was the next largest category followed by property crimes at 14 and other coercive at 4.

Drug Felony Commitments (Tables 3 and 4 and Chart 4)

CHART 4
DEPARTMENT OF CORRECTIONAL SERVICES
DRUG COMMITMENTS: 1970 - 1992

Drug commitments to DOCS have risen over the 1970 - 1992 period from an annual figure of 470 to 11,225. Over the 14 year period from 1970 to 1983, drug felons accounted for an average of 12.2 percent of all DOCS commitments annually, ranging from a low of 10.5 percent to a high of 15.0 percent. Since then the proportion of drug felons to total commitments has increased markedly and in 1992 accounted for 44.6 percent of all commitments to DOCS. Class A felonies accounted for 759 or 6.8 percent of all drug commitments in 1992 (84 for Class A-I and 675 for Class A-II). There were 2,252 or 20.1 percent Class B drug felons committed; 2,729 Class C (24.3%); 3,830 Class D (34.1%); and 1,655 Class E (14.7%). Crimes of drug sale accounted for 68.8 percent of drug commitments while possession accounted for 31.2 percent.

Two thirds (66.3%) of all drug commitments received predicate felony sentences. Only 5.3 percent or 59 of the Class A drug felons were sentenced as second or persistent felony offenders. Among the Class B group, 32.6 percent or 735 were sentenced as predicate felons as were 56.4 percent or 1,538 of the Class C group. Class D felons had the second highest portion sentenced as predicate felony offenders at 92.0 percent or 3,524 while Class E felons at 96.1 percent or 1,590 had the highest portion of predicate felony offenders.

Releases From Department Custody (Table 1 and Chart 2)

Releases from Department custody in 1992 totaled 28,153. Paroles at the discretion of the Board of Parole accounted for 72.3 percent (20,343) of all releases. Conditional releases to parole supervision (which are mandatory) made up 11.8 percent (3,313) of the releases. Unauthorized absences from temporary release made up an additional 9.3 percent; transfers to other agencies 2.5 percent; expirations of sentence 2.5 percent; deaths 1.1 percent; and other releases 0.6 percent. Total releases trailed admissions by 3,874 accounting for the 6.7 percent rise in the population under custody at the close of 1992.

Time Served By First Releases (Table 5 and Chart 5)

CHART 5
DEPARTMENT OF CORRECTIONAL SERVICES
1992 FIRST RELEASES BY OFFENSE

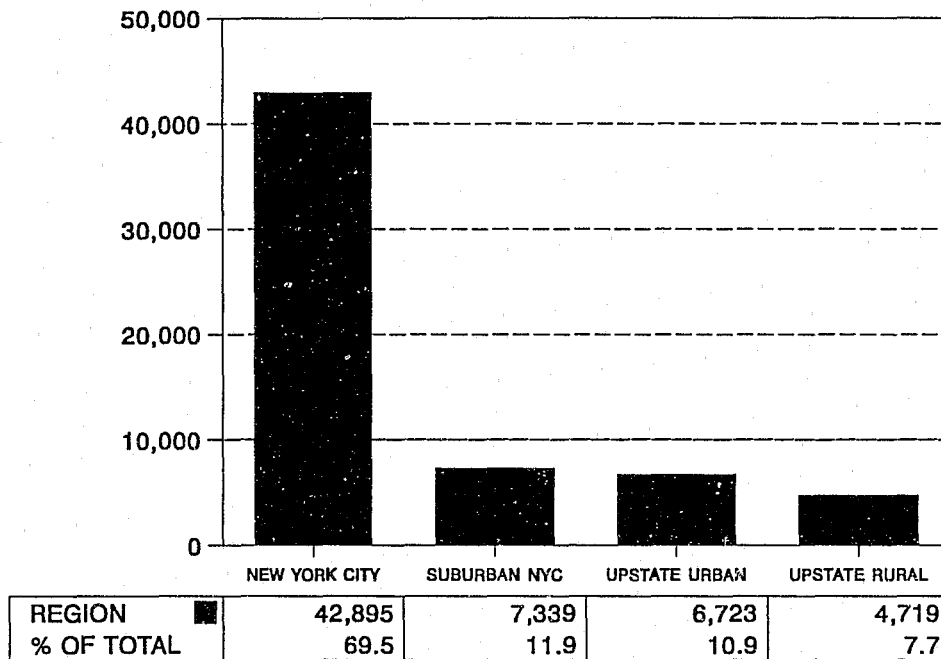

There were 19,241 inmates released to parole supervision for the first time on their current sentence in 1992. The median time served by these offenders in Department custody was 18.3 months. Violent felony offenders had the highest time served at 26.2 months. Other coercive felons served a median time of 17.7 months; followed by drug felons at 16.7 months; property/other felons at 14.6 months and Youthful Offenders at 8.2 months. As expected, persons convicted of murder served the longest period of time, 186.3 months followed by manslaughter 1st at 71.0 months.

COMMISSION OF CORRECTION

1992 CORRECTIONAL POPULATION REVIEW

The Commission of Correction oversees all correctional facilities in New York State including state prisons, county jails, city, town and village lockups and precincts. Its goals are: to regulate and oversee the operation and management of State and local correctional facilities; to develop policies, plans and programs that will improve the administration of these facilities; and to promote a safe and secure correctional environment for both staff and inmates. In light of these goals, the Commission investigates incidents and correctional management issues; establishes and enforces minimum standards; provides training for county correction officers and managers; offers technical assistance on health services including AIDS related issues; and, approves plans and specifications for new jail construction or renovations. The Commission also serves as a central repository for information on the correctional system in New York State.

Three Commissioners head the agency: A Chairperson and two members who chair the Citizens' Policy and Complaint Review Council and the Medical Review Board, respectively. The Citizens' Council monitors grievances in county facilities and provides an avenue for citizen participation in development of Commission policies and programs. The Medical Review Board monitors medical and mental health services in correctional facilities and investigates circumstances surrounding inmate deaths.

The correctional system in New York State is comprised of three major correctional jurisdictions including the Department of Correctional Services, the New York City Department of Correction, and county jails/penitentiaries. The Department of Correctional Services (DOCS) operates all state correctional facilities. DOCS houses only those inmates who are sentenced to more than one year. The New York City Department of Correction (NYCDOC) operates all county correctional facilities within the City of New York; and thirdly, county jails and penitentiaries are operated by individual county sheriffs/correction departments. These county departments house pre-trial individuals as well as those who are sentenced to one year or less.

In addition, the Commission of Correction monitors and serves as a central repository of data for the New York City Police Department (operating New York City Precinct Lockups) and all other City, Town and Village Police Department Lockups outside the City of New York.

Inmate Populations

The Commission began collecting inmate population data by conducting semi-annual telephone surveys to county jails and penitentiaries in 1981. Currently, county facilities report daily inmate populations via the on-line Jails Daily Population Reporting System.

Inmate population counts for both the New York City Department of Correction and the State Department of Correctional Services are obtained from Daily Population Reports produced by both departments.

Table 1 and Figure 1 present the inmate populations across the three major correctional jurisdictions from 1981-1992.

FIGURE 1
STATE AND COUNTY INMATE POPULATION
NOVEMBER 1981 - NOVEMBER 1992

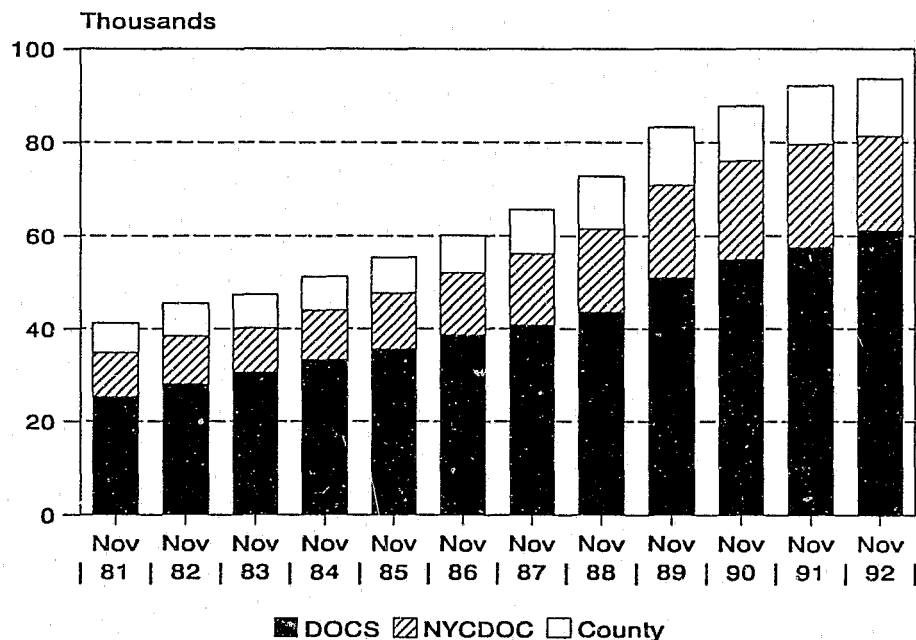

Table 2 illustrates the percent of occupancy of county inmates to jail capacity for upstate facilities as well as the City of New York. The average daily count for the month of December, 1992 includes the physical body count only. It is common for "upstate" jails to board their inmates out to other counties due to overcrowding. This decreases their body count in order to maintain facility compliance for maximum occupancy. Conversely, many counties board-in inmates from surrounding counties when they have bed space available. This increases their body count to include all inmates housed. The following table reports the actual body count for all jails across New York State for the last month of 1992. The design capacity represents the amount of permanent jail space within each facility. The total capacity includes all permanent and temporary jail space available within each facility. Examples of approved temporary capacity would include a day room that has been converted to house inmates until permanent jail space is obtained.

The average daily CENSUS for county correctional facilities for the last five years are displayed in Table 3. The average census reflects the number of county inmates for whom the sheriff/commissioner are responsible. The census is computed by adding to the physical body count all those inmates who are boarded out to another county, housed out to a mental hygiene facility, etc. Inmates who are boarded in would not be included in the census. Rather, these inmates are reflected in the county of origin or census county.

Total Inmate Admissions for County Jails/Penitentiaries and the New York City Department of Correction

County jail and penitentiary admission data are derived from the Statewide Compilation of Data from Sheriffs' Annual Reports for the last five years. The Commission of Correction compiles annual data from individual Sheriff and Penitentiary reports submitted by all county correctional facilities. Annual reports submitted by the New York City Department of Correction since 1983 are

the source of all City admission data. The annual report for 1992 has not yet been completed by the New York City Department of Correction.

Tables 4 and 5 represent total admissions reported by county correctional facilities between 1988 and 1992. Total admissions include both sentenced and unsentenced admissions.

Total Admissions to City, Town and Village Lockups

The total number of admissions reported by police department lockups across New York State between 1988 and 1992 are reflected in Table 6. The Commission compiles annual data from individual record of detention reports received from police department lockups.

Beginning in 1985, the Commission requested a one day population figure from police departments. This one day population represents the number of admissions during the 24 hour period of 12/31. Table 7 reports these December 31 population figures for the last five years.

Total Admissions to New York City Police Department Precincts

The New York City Police Department (NYCPD) compiles admission data for the New York City Police Department precincts. Tables 8 and 9 illustrate total admission and population data received from the New York City Police Department for the past five years.

TABLE 8
ADMISSIONS TO NEW YORK CITY POLICE DEPT.
PRECINCT LOCKUPS

YEAR	MALE	FEMALE	TOTAL
1988	242,114	24,724	266,838
1989	295,508	27,473	322,981
1990	197,829	25,729	223,558
1991	72,429	10,834	83,263
1992	56,345	3,866	60,211

Note: In addition to the NYCPD admissions, there were also admissions to NYC Transit Police (38,865), Port Authority (7,329), and Housing Authority (20,562) for a total of 126,967 admissions for New York City.

TABLE 9

1990	122	1	123
1991	32	14	46
1992	88	15	103

Note: In addition, there were also detainees for NYC Transit Police (27), Housing Authority (35), and Port Authority (12) for a total of 177 detainees for New York City.

Inmate Deaths

The Commission of Correction is mandated to investigate the causes and circumstances surrounding inmates who die while incarcerated. The following three tables focus on inmate deaths reported across New York State. Table 10 reports the number of inmate deaths across all correctional jurisdictions during 1992. The number of suicides and AIDS deaths reported since 1988 are reflected in Tables 11 and 12 respectively.

NOTE: There have been no AIDS deaths reported from any upstate police department lockup.

DIVISION FOR YOUTH

During 1992, 2,323 youth were admitted to the custody of the Division for Youth. Out of this total, 1,545 youth were admitted to Division-operated facilities, 715 to voluntary agencies, 12 to foster care and 40 to the Community Care program.

Among the 2,323 custody admissions, youth were placed in Division for Youth facilities according to the following service settings: 12 percent in Secure; 28 percent in Limited Secure; 26 percent in Non-Secure; and less than 1 percent in community based. Voluntary agencies received 31 percent of the total custody admissions.

Juvenile Delinquent adjudications accounted for 77 percent of all admissions and Juvenile Offender convictions accounted for an additional 11 percent. Persons In Need of Supervision made up 10 percent of 1992 custody admissions.

Males comprised 87 percent of custody admissions. African-Americans accounted for 62 percent of admissions and whites comprised 34 percent. Twenty-two percent of custody admissions were Latinos representing all racial groups.

The following table provides a further breakdown of the 1992 custody admissions to the Division for Youth.

DIVISION OF PAROLE

THE BOARD OF PAROLE: 1990-1992

During the 1990-91 and 1991-92 fiscal years, the Parole Board conducted over 56,000 interviews and/or hearings in State correctional facilities to determine the release readiness of eligible inmates for parole supervision and the re-release of parole violators, as well as other types of administrative hearings.

The number of release interviews conducted by the Parole Board decreased from 28,093 in 1990-1991 to 27,985 in 1991-1992, a decrease of less than 1 percent.

The Parole Board granted release to 36,779 inmates during the last two fiscal years with a decrease of 3 percent in 1991-1992. Release decisions were granted to 25,616 initial applicants during the two year period (inmates who became eligible for parole release after serving their minimum sentence from April 1, 1990 through March 31, 1992). Reappearance interviews resulted in 5,445 release decisions for inmates who were previously eligible for parole release, but were denied release and became eligible again. Re-release interviews for violators and other release interviews resulted in 5,718 inmates released to the community. The decisions rendered at the various release interviews are summarized in Table 1 below.

**TABLE 1
COMPARISON OF OUTCOMES FOR RELEASE INTERVIEWS***

OUTCOME	TYPE OF INTERVIEW						TOTAL	
	INITIAL		REAPPEARANCE		VIOLATOR RE-RELEASE/OTHER			
	FY 90-91	FY 91-92	FY 90-91	FY 91-92	FY 90-91	FY 91-92	FY 90-91	FY 91-92
Released	12,438 64%	13,178 63%	2,763 59%	2,682 58%	3,453 89%	2,265 88%	18,654 66%	18,125 65%
Postponed	1,244 6%	1,601 8%	358 8%	404 9%	282 7%	197 8%	1,884 7%	2,202 8%
Denied	5,814 30%	6,053 29%	1,571 33%	1,511 33%	170 4%	94 4%	7,555 27%	7,658 27%
Total	19,496	20,832	4,692	4,597	3,905	2,556	28,093	27,985

* This table excludes release interviews conducted with Shock Incarceration inmates and interviews related to release to the Immigration and Naturalization Service for deportation proceedings.

The community protection efforts of the Parole Board are reflected in a comparison of some of the characteristics of inmates granted and denied release at initial interviews. The comparison reveals that inmates who were denied release were more likely to have committed crimes involving the use of a weapon or the occurrence of an injury. Further, those who were denied release had more extensive prior records than inmates granted release. The effectiveness of the Parole Board's screening is demonstrated in greater detail in the table to follow:

TABLE 2
PROFILE OF INITIAL APPLICANTS RELEASED OR DENIED BY THE PAROLE BOARD

	FY 1990-91*		FY 1991-92*	
	Released N = 12,438	Denied N = 5,814	Released N = 13,178	Denied N = 6,053

PAROLE OPERATIONS

Institutional Parole

The Parole Officer assigned to an institution plays a critical role in the inmate's transition from institutional to community life. These Parole Officers serve in a bridging capacity between the inmate and the community, the inmate and the field parole officer, and the inmate and the Parole Board.

The role of the Parole Officer with an institutional assignment includes an assessment of the needs of each inmate and encouragement of their participation in programming, during incarceration, which meets these needs. These Parole Officers conduct inmate group counseling sessions and Parole orientation classes for inmates. Additionally, they interview inmates, in advance of their Board release interviews, to gather information which is presented to the Board in summary reports together with recommendations for the granting or denial of parole release and possible conditions of release.

After a parolee has been granted release, the Parole Officer continues to participate in Parole Board release planning through the Community Preparation Program. The Parole Officer provides the link between the institution and the community both through pre-release interviews conducted with inmates and through ongoing communication with the Field Area Office to which the parolee is to be released. These services are provided to both inmates who are released by decision of the Parole Board and to those conditionally released.

Finally, institutionally assigned Parole Officers participate on correctional temporary release committees, which grant temporary work release and furloughs to inmates. The Institutional staff is involved in committees within the state's correctional facilities that give support and advice to drug and alcohol programs.

Community Supervision of Parolees

Community supervision is at the heart of the Division's community protection mission. The Parole Officer with a field assignment is located in the community supervising offenders released from state correctional facilities. Community protection requires that Parole Officers adhere to strict supervision standards. Additionally, it is essential to ensure that parolees comply with the terms and conditions of release. When the conditions of release are violated, the Parole Officer must take appropriate action.

Presence in the community allows the Parole Officer to become familiar with the services and resources within their neighborhood. Through their familiarity with the surrounding community, the officer can expedite the reintegration of the offender by linking offenders with particular needs to relevant services.

Beginning in FY 85-86, the Division implemented Differential Supervision, which was a unique approach to community supervision caseload management. The concept targets resources on parolees with the highest levels of need for surveillance and social services in an attempt to meet the agency's goals of community protection and parolee reintegration. Allocation of these resources is based on a model of risk management under which newly released parolees are placed on Intensive caseloads which require extensive contact standards and reduced caseload size. After fifteen months, parolees are moved to Regular caseloads when their potential threat to the community and level of service needs have been reduced.

There were 55,324 individuals under community parole supervision during fiscal year 1991-92, as reflected in Table 3. This represented an increase of 9 percent over the previous year's figure of 50,921. Parole Board releases from state correctional facilities decreased from 20,026 during fiscal year 1990-91 to 19,552 during fiscal year 1991-92. Statistics reflecting median time-served of those released by the Parole Board have remained very consistent over the years.

TABLE 3
PAROLEE MOVEMENT AND CENSUS FOR YEARS 1990-1991 AND 1991-1992

MOVEMENT/CENSUS	FY 1990-91	FY 1991-92
April 1 Active Parolees	26,761	31,552
Inmates Released By Board ^a	20,026	19,552
Inmates Released By CR	3,205	3,389
Cooperative Parolee Agreement from Other States	696	732
Juvenile Offenders Released	100	99
Total Inmates Released to Parole Supervision ^b	24,027	23,772
Total Caseload Removals (Discharges and Returns) ^c	17,574	19,235
Dynamic Population for Year ^d	50,921	55,324
March 31 Active Parolees	31,552	35,273
Delinquent Parolees ^e	10,370	10,948
Total End of Year Caseload (March 31)	41,922	46,221

- a These individuals were actually released from state prison during the given fiscal year. The total number of releases should not be confused with the number of inmates granted release by the Parole Board during the same year. Release interviews are done two months in advance, so that the number of actual releases is usually less than the number of inmates granted release by the end of a year. Moreover, inmates granted release in March, which is the close of the fiscal year, would be counted as releases in the new fiscal year.*
- b This includes cases released to supervision both within and out-of-state.*
- c Removals include parolees discharged from parole supervision by expiration of maximum sentence, death, Board action, court order and prison returns.*
- d Dynamic population is the cumulative number of parolees under supervision during all or any part of the year.*
- e Delinquents are those parolees carried by parole officers who are either in the stages of the violation process or are absconders. Not all delinquents in the violation process will have their parole revoked.*

Shock Incarceration

In response to prison overcrowding, in 1987 New York State created the Shock Incarceration Program. Carefully selected inmates who participate in this six-month regimented program of physical exercise, education, substance abuse treatment and counseling do not have to serve their entire minimum sentence but may be released from prison after successful completion of the six-month program. During fiscal year 1991-92, 1,848 Shock graduates were released from prison.

After release, the Shock program is continued by the Division of Parole: Shock parolees are supervised on reduced caseloads at a ratio of two parole officers for every thirty-eight parolees for the first six months in the community before moving to standard Intensive caseloads. The goal of the Shock Supervision program is to reinforce the Shock experience by continuing to provide intensive supervision and a variety of programming opportunities.

Outcome of Parole Supervision

The primary goals of the Division of Parole are to assist offenders released from correctional institutions to adjust to community life, and to provide community protection by preventing these individuals from re-engaging in criminal behaviors.

Parole Officers carry out these goals by supervising parolees in the community, coordinating the delivery of available social services, and helping to motivate and guide the parolees towards a more positive life-style. However, one must realize that not all persons will abide by their conditions of release. The Division must, therefore, fulfill the goal of community protection by returning a violator to prison.

A violation of parole occurs when an individual under supervision violates the conditions of parole in an important respect. These conditions are agreed to in writing by an inmate upon release from prison to community parole supervision. They stipulate, for example, that if the releasee absconds from supervision or re-engages in criminal activity, his/her parole is subject to revocation. The individual may consequently be returned to prison following a series of due process hearings.

In the 1991-92 period, 14 percent of all parolees under supervision during the year were returned to prison by the courts for committing new crimes or by the Parole Board for violating the rules of parole (e.g., absconding, or illegal use of drugs). Table 4 provides a more detailed analysis of the parole success rate.

TABLE 4
OUTCOME OF PAROLE SUPERVISION

OUTCOME MEASURES	FY 1990-91 ^a	FY 1991-92 ^b
Rate of Parolees Returned to Prison with New Court Conviction During Year	6% (N = 3,145)	7% (N = 3,989)
Rate of Parolees Returned to Prison for Violating Conditions of Parole During Year	9% (N = 4,424)	7% (N = 3,859)
Total Rate of Prison>Returns During Year	15% (N = 7,569)	14% (N = 7,848)

^a Rates computed on basis of dynamic population of 50,921 parolees during April 1, 1990 through March 31, 1991.

^b Rates computed on basis of dynamic population of 55,324 parolees during April 1, 1991 through March 31, 1992.

In view of the data in Table 4, the parole success rate can be discussed in several different ways. In terms of total number of parolees not returned to prison, the success rate was 85 percent in 1990-91 and 86 percent in 1991-92. This result is an indication of the Division's overall performance in deterring parolee crime and re-incarceration. A prison return based on a rule violation decreases the chances of a parolee being a threat to community safety. Given this, the success rate was 94 percent for fiscal year 1990-91 and 93 percent for fiscal year 1991-92. Using the most rigorous definition of success, those parolees in an active reporting status, the success rate for 1990-91 was 70 percent; in 1991-92 it was 60 percent. This measure excludes parolees in either an incarcerative or absconder status. It is important to note that not all of these incarcerated or absconder parolees will have their parole revoked or even enter the violation process.
