EXECUTIVE SUMMARY

The Florida Department of Corrections (DC) serves as the regulatory authority for the operation of county and municipal detention facilities [CH 951.23, FS] and collects pertinent statistical data on the inmate population incarcerated in such facilities [CH 951.23(2) FS]. Although the legal authority to collect the data began on October 1, 1985, all 67 counties did not begin reporting until January 1986. The enabling legislation requires certain data as a minimum to be collected and analyzed. The Florida Department of Corrections has expanded the collection effort which is the result of compromises between user requests, programming changes at DC, and ease of collection and training of staff at the reporting detention facilities.

The data presented in this report are for the three year period from January 1, 1991 to December 31, 1993. The data collected are from the 67 county jail systems operating 105 facilities throughout the period --ending December 31, 1993. The information reveals that the overall inmate population in county jails increased from 1991-92, and slightly declined from 1992-1993.

- * The county jail average daily inmate population was 33,288 beginning 1991, and 33,649 at the end of 1993, a 5.1% increase.
- * Authorized DC rated capacity increased by 5,790 beds or 16.9% during the period from January 1991 (34,312) to the end of 1993 (40,102).
- * Eighteen jails (26.9%) are cited in federal lawsuits, 12 jails (17.9) are named in state action that have not been dismissed as of December 1993.

The purpose of this annual report is to present a summary of three years of jail data reported to the Florida Department of Corrections by the 67 Florida counties. The data presented in this report are annual averages for the inmate classifications that are collected on a monthly basis by the Florida Department of Corrections. The annual average daily population (ADP) figures include totals for each county as well as individual facilities within those counties.

This report is separated into two parts. The first section features annual percentages for the year 1993, and descriptive jail information for each of the three years (1991-1992-1993) in which DC collected data on Florida's county jails. The second part examines trends in county jail inmate populations on a statewide basis. The following is a short description of the type of information that will be provided in this report:

- * A jail data summary review for the year 1993 (to include average daily populations, incarceration rate, and capacity percentages, and jail bed construction).
- * Average daily populations of inmate categories for 1991, 1992, and 1993.
- * County incarceration rates per 1,000 population.
- * Authorized DC rated capacity in comparison to the average daily populations reported for 1991, 1992, and 1993.
- * 3 year trend study, and pending litigation.

The Inspector General's Office of the Florida Department of Corrections is currently responsible for publishing on a monthly basis, The County

JAIL DATA SUMMARY 1993

The inmate categories reported are unchanged from those in 1992. The data contained within this section are annual averages for 1993. The data for selected categories are presented in Table 1 and can be summarized as follows:

- * The average annual ADP for 1993 was 34,530. Of that number, 87.0% (30,045) were adult males, 10.2% (3,536) adult females, and 2.7% (930) were male juveniles. The 19 female juveniles were 0.1% of the total.
- * Pretrial detainees were 57.4% (19,837) of the annual average ADP.
- * Of the 30,045 adult males 57.0% (14,440 felons - 2,696 misdemeanor) were pretrial inmates.
- * There were 53.4% (1,888) of the adult female population held in pretrial status (1,447 felons - 441 misdemeanor).
- * The juvenile population is dominated by the 795 males in the awaiting trial/sentencing (742 felons - 53 misdemeanors). That 795 is 85.5% of the male juveniles and 83.8% of the total juvenile population (830 male - 19 female).

The incarceration rate per 1,000 population ranges from a low of 0.8 in Union County to 6.2 in Hamilton County. See Table 2 and figure 1. The incarceration rate computation includes all inmate categories. Some of the counties reflect higher incarceration rates due to housing of federal inmates. The average rated capacity versus average ADP is shown in Table 3 and Figure 2, and can be summarized as follows:

- * Statewide capacity was 39,870 and ADP was 34,530 or 13.4 under the statewide rated capacity.
- * The over/under capacity range was 106.5% over in Dade County Jail Women's facility, and 73.3% under capacity in the Collier County Stockade.
- * One hundred and five facilities were operated by the 67 counties throughout 1993. Several counties operated multiple facilities: Alachua (2); Bay (2); Broward (3); Collier (2); Dade (7); Duval (3); Escambia (3); Hillsborough (3); Lee (2); Manatee (3); Monroe (3); Orange (8); Palm Beach (4); Pasco (2); Pinellas (4); Polk (2); and Volusia (2).

JAIL CONSTRUCTION

NEW FACILITIES OPENED OR REOPENED:

<u>County</u>	<u>Opened</u>	<u>Reopened</u>	<u>Capacity</u>
Leon (New)	September	--	707
Hillsborough/Wk.Rel.		April	54
Orange/Whitcomb		June	182

Note: Dixie, Madison, and Suwannee Counties were close to completion of construction of new jail facilities at the end of 1993.

COUNTIES WITH BED ADDITIONS TO EXISTING FACILITIES:

<u>County</u>	<u>Added</u>	<u>No. of Beds</u>	<u>New Capacity</u>
Polk/Annex	March	104	800
St. Johns	March	107	425
Okaloosa	March	34	380
Gilchrist	April	14	48
Palm Beach/Stockade	May	204	922
Highlands	July	16	199
Palm Beach/Stockade	October	26	948
Bay/Main	November	72	276

FACILITIES THAT CLOSED OR DECREASED CAP:

<u>County</u>	<u>Closed</u>	<u>Decreased Beds</u>	<u>No. of Beds</u>	<u>New Cap</u>
Okaloosa	--	January	38	354
Orange/Whitcomb	February	--	182	---
Duval/Montgomery	--	June	169	645
Okaloosa	--	July	32	348
Franklin	August	--	64	---
Duval/Montgomery		September	34	611
Leon (Old Jail)	September	--	534	---
Jefferson	December	--	18	---

The number of beds brought on line during 1993 was 1,368. Of these 1,368, the actual net total number of bed additions was 1,195.

DESCRIPTIVE DATA

JAIL DATA SUMMARY 1991 - 1993

During the three year period covered by this report the annual average daily population of adult males decreased by 1.1% (30,377 to 30,045), while the adult female population decreased 1.3% (3,584 to 3,536). The juvenile male population increased 18.5% (785 to 930), and the juvenile female population reflected an decrease of 5.0 percent (20 to 19) in the three year period. See Table 4.

Adult Male Felons

Of the four adult male felony categories tracked, those awaiting sentencing days or less showed the highest rate of increase (4.0%) during the 91-93 time frame. A 6.6% decrease was reported for the felony awaiting trial category which comprises about 73% of the total adult male felony population. During the three year period under observation the ratio of pretrial detainees changed little (73.6% of the total felony population in 1991 to 72.5% by 1993). The pretrial category of male felons dominates the current jail population in absolute numbers. In 1991 male adult felons represented 60.4% of the total jail population while in 1993 the ratio was 57.6% .

Adult Male Misdemeanants

The total adult male misdemeanor category increased by 9.2% (5,353 to 5,846) over the past three years. The awaiting sentencing misdemeanor category represented the single largest increase at 24.0 percent. Of the the male misdemeanor population in 1991, 51.2% were sentenced. By 1993, that ratio increased to 52.8% .

The awaiting trial misdemeanor category in 1991 was 47.9%, and that population dropped at the rate of 46.1% in 1993. The ratio of adult male misdemeanants to the total adult male population was 15.4% in 1991 and 16.9 in 1993.

Adult Male - "Other" Category

Probation violators represented the largest number of the adult male population in the "Other" category. However, this category decreased by 15.4% during the 1991 - 1993 period. The parole violator population increased by 137 or 391.4% during the three year period, while the state inmate numbers increased by 39.9 percent (from 431 to 601). The "Other" category represented 4,027 or 13.3 of the 1991 adult male population. By 1993 that number had increased to 4,302 (14.3%) of the daily average.

The adult male average daily population figures for the 1991-1993 period can be summarized as follows:

- * In 1991, 69.1% (20,997) were adult male felons. 17.6% (5,363) were misdemeanants, and 13.3% (4,027) were included in the "Other" category.
- * In 1993, 66.2% (19,897) were adult male felons, 19.5% (5,846) were adult male misdemeanants and 14.3% (4,302) comprised the "Other" category.
- * The adult felony male awaiting trial category in 1991 represented 50.9% of the total adult male population. In 1993 that ratio had decreased to 48.1 percent.

Adult Female Felons

Of the four adult female felony categories those awaiting trial reflected the highest rate of increase (1.0%) during 1991-93.

During this same time period, those sentenced to 365 days or more decreased by 14.5%, those sentenced to 364 days or less decreased by

by 5.1%, and females awaiting sentencing decreased by 9.5 percent. Similar to the adult males, adult female felons who are awaiting trial represent the largest segment of the adult female felon average daily population. In 1991 the ratio of adult female felons awaiting trial was 66.6% (1,432) and in 1993 the ratio was 68.6% (1,447). The total adult female felony average daily population decreased from 2,149 to 2,110 (1.8%) during the three year period.

Adult Female Misdemeanants

The total adult female misdemeanor category increased by 2.6% (873 to 896) over the past three years. Sentenced misdemeanants increased by 14.1%, awaiting trial decreased by 7.3%, and awaiting sentencing reflected an increase of 42.9%. The ratio of female misdemeanants to the entire adult female jail population was 24.3% in 1991 and 25.3% in 1993.

Adult Female - "Other" Category

When comparing similar categories with the male inmate ADP, probation violators also represented the largest group of adult females in the "Other" category. But from 1991 to 1993, there was a decrease of 11.9% (328 to 289) in this category. The parole violator numbers jumped to an increase of 366.7% (3 to 14), while the state inmate category decreased by 6.1%. The "Other" category of adult females increased 6.0 for 1991-93. The following summary of the adult female jail population during the period 1991 to 1993 is made:

- * The total number of adult female felons decreased by 1.8% (2,149 to 2,110).
- * Distribution of the ADP in 1991 was 60.0% (2,149) felons, 24.3% (873) misdemeanants and 15.7% (562) "Others".
- * In 1993 the distribution of the female ADP was 59.7% (2,110) felons, 25.3% (896) misdemeanants and 15.0% (530) "Other".
- * The felony awaiting trial category dominates the adult female ADP categories standing at 39.9% (1,432) in 1991 and rising to 40.9% (1,447) of the total of the female categories tracked in 1993.

JUVENILES

The juvenile population in Florida's county jails is dominantly male. Of the 805 total ADP in 1991, 97.5% (785) were males and in 1993 the ratio was 98.0% (930) of the total of 949 juveniles. Unlike the adult population categories, juvenile "pretrial" and "awaiting sentencing" are combined. But very much like the adult population most are unsentenced and were 84.7% (665 males and 17 females) of the ADP in 1991 and 85.8% (796 males and 18 females) in 1993.

COUNTY ADP AND INCARCERATION RATES

From 1991 to 1993, ADP's increased in 34 counties. The following counties had jail populations that dropped during this time period: Alachua, Bradford, Brevard, Broward, Calhoun, Citrus, Dade, Escambia, Franklin, Gadsden, Glades, Hamilton, Holmes, Jefferson, Lee, Madison, Manatee, Marion, Martin, Nassau, Okaloosa Orange, Palm Beach, Pasco, Pinellas, Putnam, St. Lucie, Santa Rosa, Seminole, Sumter, Suwannee, Union, and Walton. See Table 5. The range was a 43.7% decrease in Union County to 313.6% increase in Wakulla County. Incarceration rate changes for 1991-93 varied from a 56.5% decrease in Collier County to a 93.3% increase in Jackson County. See Table 6. It should be noted that the high increase in inmate population and incarceration rate in some of the counties, is the result of holding a large proportion of the inmate population for the U. S. Marshal and contracting of bedspace.

LEGAL STATUS OF COUNTY JAILS

County jails in Florida are subject to civil action in the various federal district courts and state circuit courts. Table 7 depicts the status of those counties that have a record of court action ending 1993, most of which are under court order, settlement, or consent decrees. The suits contain no record of dismissal and, therefore, are active cases or cases being held in abeyance. No new lawsuits were filed during 1993, while one suit was dismissed (Leon County).

An analysis reveals that of the 67 counties, 18 (26.9%) are under federal action (active or inactive), 12 (17.9%) are under state action and 5 (7.5%) have both federal and state action pending. Federal actions are inmate initiated class action suits arising generally out of conditions of confinement. State action is initiated by DC most often from citations of overcrowding, fire safety violations, staffing problems, and totality of conditions. The corrective action required is significant renovation of existing facilities, temporary additions, and/or construction of new jails.

TRENDS

TRENDS SUMMARY

The county jail inmate data collected demonstrates the jail population fluctuated up and declined during the 3 year period 1991-93, while the capacity rate continued to increase.

The longitudinal data identified in this section provides basic information on inmate population and capacity trends. The data cited are annual averages. The following discussion is based on Table 8 and Figures 3 through 10.

The overall facility daily average of all inmates decreased by 0.7% during the period 1991 - 1993. The capacity of all facilities increased by 9.5%. The population was 1,646 inmates (4.5%) under capacity in 1991. The inmate population was 9.7% (3,785), under capacity in 1992, and continued to drop to 13.4% (5,340) below capacity in 1993.

In 1991, 11 of 67 counties operated 27 of 107 facilities with inmate populations beyond their DC rated capacity. In 1991, 6 counties operated 19 of 108 facilities beyond capacity, and in 1993, 13 of 105 facilities were above their rated capacity in 7 of the 67 counties.

The population trends for total ADP, adult male, adult female and juveniles for the 1991 - 1993 reporting period as shown in Figures 3-6, graphically demonstrate a steady pace, with a slight reduction in the adult male and female populations in 1993, and a rise in the juvenile population numbers. There is a seasonal drop from November to December of each year in the inmate ADP which recovers in January and moves back to a "normal" rate of increase.

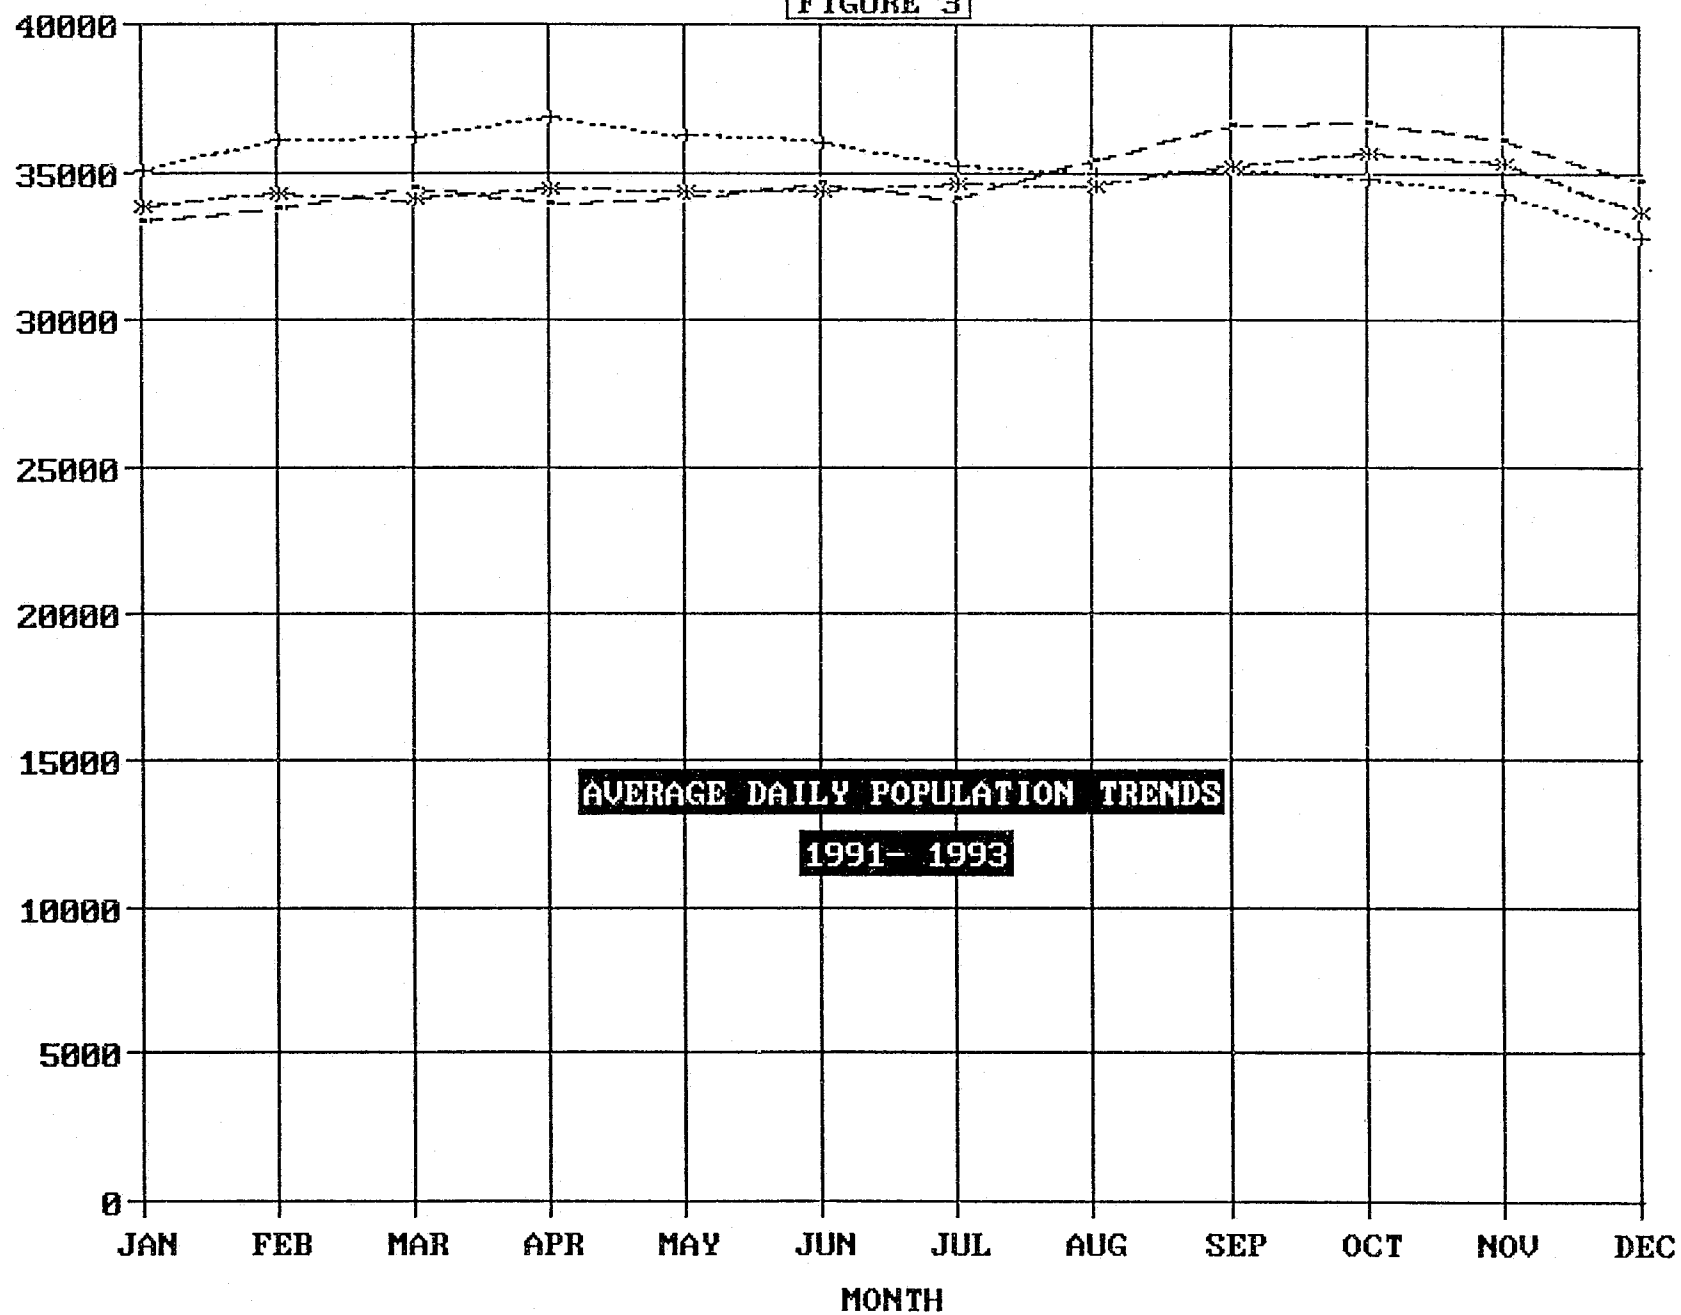

The annual average ADP increased by 1.6% from 1991-1992, while the capacity rate elevated at a higher ratio of 7.4% . For 1992-1993 the ADP dropped 2.3%, and the capacity increased by 1.9% . Refer to Figures 3 - 10 for illustrations of these trends in Florida.
