PREFACE

The year 1993 ushered in significant changes to the administration of Illinois Uniform Crime Reporting. As we transitioned into Revised Illinois Uniform Crime Reporting, users and developers alike encountered difficulties adjusting to a new system. Though understandably frustrating at times, I was always encouraged by the effort of those committed to a useful, quality publication.

As the transition progressed, some agencies reported in the new RIUCR format and others had yet to make the change. This, coupled with other difficulties, has led us to make some fundamental changes in the standard structure and format of this year's Crime in Illinois.

First, we decided to print data only for those agencies who reported 12 complete months of 1992 and 1993 statistics. Of the 866 reporting agencies, 331—more than one-third—have incomplete data ranging from reporting errors to an entire year of missing submissions. Because missing data can result in misleading statistics, we found this was the most fair and accurate method available to us.

Second, we converted the RIUCR data back into the old format so the figures were compatible and the results were comparable to previous years. This allows us to provide the continuity necessary for a realistic approach to Illinois' 1993 crime statistics during the RIUCR transition.

To each of the agencies who worked so hard to convert to RIUCR, I commend and thank you. Your efforts were not fruitless, as this will likely be our final printing in the non-revised format. A multi-agency task force has begun work to refine RIUCR guidelines and procedures. Their mission is to rethink RIUCR from a user's standpoint and they welcome your input.

With appreciation to all who have contributed their time and efforts to make this publication possible, I present Crime In Illinois 1993 to the people of Illinois.

INTRODUCTION

INTRODUCTION

The Illinois Uniform Crime Reporting Program

The Illinois Uniform Crime Reporting (I-UCR) Program was developed in 1971 and implemented on January 1, 1972. The I-UCR Program has evolved into a system intended to meet the needs of all reporting agencies. It is an incident-based reporting system designed to accomplish the following major goals:

- To provide needed administrative statistics for law enforcement agencies.
- To provide the legislature with information necessary to formulate effective laws which address the crime problem.
- To provide Illinois citizens with the most complete information on the nature and extent of crime.
- To include comprehensive data for researchers and planners.
- To adhere to the national program's standards.

Reporting crime statistics is mandated by chapter 20 Illinois Compiled Statutes 2630/8, formerly chapter 38, paragraph 206-8 of the Illinois Revised Statutes:

2630/8. "Crime Statistics. The Department (of State Police) shall be a central repository and custodian of crime statistics for the State and it shall have all power incident thereto to carry out the purposes of this Act, including the power to demand and receive cooperation in the submission of crime statistics from all units of government."

Reporting agencies receive monthly and quarterly summaries of the reported criminal activity within their jurisdictions upon request. All offenses known to law enforcement agencies are reported monthly to the Crime Studies Section of the Bureau of Identification. Participating jurisdictions include villages, municipalities, counties, colleges, universities, park districts, railroads and hospitals throughout Illinois. Agencies may also submit service code and local ordinance data in order to provide law enforcement administrators with information for use in planning and research; determining and utilizing manpower; budgeting; and developing and evaluating crime prevention programs.

On January 1, 1992, the Revised Illinois Uniform Crime Reporting (RIUCR) Program, operating under the Federal Bureau of Investigation's new National Incident Based Reporting System (NIBRS) criteria, became operational on a voluntary basis. At the end of 1993, 810 agencies had reported crime data utilizing the RIUCR system. In order to put data into a format that would allow calculation of a county, MSA and state totals, a conversion program was used to convert the more complex offense codes of the revised system data back to the old offense codes. Due to limitations placed on the conversion process by the data elements themselves, data breakouts beyond category level were not possible for some of the traditional Crime in Illinois reports. Narrative in each report section will further explain limitations where they exist.

Since the majority of the law enforcement agencies switched from the OLD I-UCR Program to the RIUCR Program during 1993, some agencies had to modify their Uniform Crime Reporting collection and practices. In addition, other start up difficulties were encountered by the agencies and ISP. Due to these start up concerns, some of the agencies' annual crime totals are not published due to missing data. Even though it appears that the overall state crime totals and rates have decreased, the reader should keep in mind that 331 agencies' crime data are not included in these totals. Therefore, the agencies' crime reporting changes and implementation/transition difficulties impacted the state, county and individual agency crime totals and rates.

In 1993 there were 1,068 law enforcement agencies in Illinois, of which 866 reported crime statistics directly to the Bureau of Identification. The remaining agencies reported their crime statistics through an intermediary agency (sheriff's office, police department, etc.). Agencies submit their data through the use of paper forms, magnetic tape, floppy disk, or via remote on-line terminal. A total of 535 out of 866 reporting agencies' crime data appear in this publication.

Chicago Police Department and Downstate Illinois Totals

The practices employed by the Chicago Police Department to report Illinois Uniform Crime data are not consistent with those used by all other reporting agencies. In order to avoid creating a misleading impression concerning statewide crime trends, statistics from the Chicago Police Department are presented separately in this publication.

The reader is advised to read carefully the footnotes in the various sections of this publication that pertain to specific Chicago Police Department reporting practices.

Sections pertaining to the Crime Index Offense data indicate separate totals for the Chicago Police Department and separate totals for Downstate Illinois which consists of sheriffs' offices, police departments (other than the Chicago Police Department), colleges, universities and Secretary of State's Office. State totals have been calculated only when the inclusion of the Chicago Police Department data would not create a misleading impression concerning the statewide total. Data from 535 agencies utilizing the Revised Illinois Uniform Crime Reporting (RIUCR) Program operating under the NIBRS criteria was processed through a conversion program to accomplish the totals presented in this publication.

Considerations for Interpretation

When comparing the crime statistics of one agency with another, many factors should be taken into consideration before conclusions are made. Some of the conditions affecting the type and volume of crime are:

- Change in the agency's UCR practices and RIUCR Program implementation/transition difficulties
- Population density and degree of urbanization with size of locality and its surrounding area.
- Variations in composition of the population, particularly youth concentration.
- Stability of population with respect to residents' mobility, commuting patterns and transient factors.
- Modes of transportation and highway system.
- Economic conditions, including median income, poverty level and job availability.
- Cultural factors and educational, recreational and religious characteristics.
- Family conditions with respect to divorce and family cohesiveness.
- Climate.
- Effective strength of law enforcement agencies.
- Administrative and investigative emphases of law enforcement.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional and probational).
- Citizens' attitudes toward crime.
- Crime reporting practices of citizenry.¹

I-UCR Reporting Agencies

Since 810 agencies utilized the Revised Illinois Uniform Crime Reporting (RIUCR) Program for reporting their 1993 I-UCR data, separate Reporting Agency by Method charts are provided in this section. The first chart is a summary of all the agencies, the second chart indicates the reporting methods for agencies using the OLD I-UCR Program, and the third chart indicates the reporting methods for agencies using the RIUCR Program.

The Crime Index

The Crime Index is the total number of index offenses occurring within a given jurisdiction during a specified period of time. It is used to indicate the amount and extent of serious crimes as defined by the International Association of Chiefs of Police Committee on Uniform Crime Reports. The Crime Index consists of violent crimes - murder and nonnegligent manslaughter; forcible rape; robbery; and aggravated assault, and of property crimes - burglary; theft; motor vehicle theft; and arson.

The index crimes used by the I-UCR Program translate into the national program's eight Crime Index offenses as:

Violent Crimes

Murder and nonnegligent manslaughter - The willful killing of a person or the death of a person caused by gross negligence of an individual other than the victim.

Forcible rape - The carnal knowledge of a female, forcibly and against her will - includes attempted rape. Illinois reports criminal sexual assault offenses rather than rape offenses under this category.

Robbery - The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence - includes attempted robbery.

Aggravated assault - The intentional causing of serious bodily harm or the intentional attempt or threat of serious bodily injury or death - includes aggravated battery, attempted murder and ritual mutilation.

Property Crimes

Burglary - The unlawful entry of a structure to commit a felony or theft - includes attempted burglary.

Theft - The unlawful taking or stealing of property or articles without the use of force, violence, or fraud - includes burglary from motor vehicle and attempts.

Motor vehicle theft - The unlawful taking or stealing of a motor vehicle - includes attempted motor vehicle theft.

Arson - The willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, public building or any building, motor vehicle, aircraft, or personal property of another.

The Crime Rate

The crime rate indicates the volume of crime occurring within a given population. It is defined as the total number of index crimes per 100,000 inhabitants and is calculated as follows:

$$\frac{\text{Crime Index} \times 100,000}{\text{jurisdictional population}} = \text{crime rate}$$

The jurisdictional population can be that of a city, town, village, county, state, or nation.

Crime Index Offense Classifications

| | ILLINOIS CLASSIFICATIONS | FBI-UCR CLASSIFICATIONS |
|-----------------|---|------------------------------------|
| VIOLENT CRIMES | First Degree Murder (IRS 38-9-1) (ILCS 720-5/9-1) Second Degree Murder (IRS 38-9-2) (ILCS 720-5/9-2) | Murder & Nonnegligent Manslaughter |
| | Criminal Sexual Assault (IRS 38-12-13 through 16) (ILCS 720-5/12-13, 14 & 16) | Forcible Rape |
| | Robbery (IRS 38-18-1 & 2) (ILCS 720-5/18-1 & 2) | Robbery |
| | Attempted Murder Aggravated Assault (IRS 38-12-2) (ILCS 720-5/12-2) Aggravated Battery (IRS 38-12-4, 4.1, 4.2, 4.3 & 4.6) (ILCS 720-5/12-4, 4.1, 4.2, 4.3 & 4.6) Ritual Mutilation (IRS 38-12-32) (ILCS 720-5/12-32) | Aggravated Assault |
| PROPERTY CRIMES | Burglary (IRS 38-12-11, 19-1 & 3) (ILCS 720-5/12-11, 19-1 & 3) | Burglary |
| | Theft (IRS 38-16-1 & 16A-3 & 16E-3 & 16-5) (ILCS 720-5/16-1 & 16A-3 & 16E-3 & 16-5) Burglary From Auto (IRS 38-12-11.1, 16-1, 19-1, 95.5-4-102-9-1 & 103) (ILCS 625-5/4-102 & 103, 720-5/12-11.1, 16-1 & 19-1) | Larceny/Theft |
| | Vehicle Theft (IRS 38-16-1 & 95.5-4-103) (ILCS 720-5/16-1 & 625-5/4-103) | Vehicle Theft |
| | Arson (IRS 38-20-1, 1.1 & 20-2) (ILCS 720-5/20-1, 1.1 & 20.2) | Arson |

NOTE: Due to space limitations on this document, the references of IRS for the Illinois Revised State Statutes and ILCS for Illinois Compiled Statutes were used. The following is an example of the proper way of citing an Illinois Compiled Statute citation for Chapter 755 (Estates), Act 5 (Probate Act of 1975), Section 1-1 (Section 1-1 of the Probate Act of 1975), and 5/1-1 is the section number in Chapter 755 of ILCS 5/1-1 755: 755 ILCS 5/1-1.

SECTION I

CRIME TRENDS

Violent Crimes Property Crimes

Due to a large number of agencies with missing or incomplete data, the statewide, county, and individual crime totals were misleading. Therefore, numerous agencies' crime data are not included in this year's publication in order to present a more accurate reflection of Illinois' crime trends. In order for an agency to appear in this year's publication, complete data for both years must have been reported.

Agencies missing one or more **complete** months of data are not included. Also not included are agencies who reported all 12 months of data, but one or more months was incomplete/low. These agencies were identified as incomplete/low data by showing a 50.0% decrease or more in the Crime Index Total; or the Illinois State Police had previous contact with the agency who indicated their data was incomplete.

Please note the following while reviewing this section:

The Downstate Offense Total is the sum of data reported by sheriffs' offices, police departments (other than the Chicago Police Department), colleges, universities and the Secretary of State's Office. The non-published agencies' crime data is not included in these charts.

The Chicago Police Department Total is the data reported only by the Chicago Police Department.

The State Offense Total is the sum of the Chicago Police Department and Downstate Illinois. State Offense Totals have been calculated only when the inclusion of the Chicago Police Department data would not create a misleading impression concerning the statewide total.

Each category of offense information reflects data for offenses that occurred between January 1, 1993, and December 31, 1993. Because of agency adjustments and late submissions, 1991 and 1992 figures reflected in this publication are not comparable with those figures published in Crime in Illinois 1992.

While reviewing the 1993 Crime Index Offense totals in this section, the reader should keep in mind that the majority of the agencies switched to the RIUCR program during 1993. Due to start up difficulties, some of the agencies' annual crime offense totals affected the state crime totals and therefore, are not included in this report.

The 1992 crime rates for this section were calculated using the 1990 actual decennial census. The 1993 crime rate for this section was calculated using the 1992 estimated population statistics. The population census statistics indicated in this section are the most recent complete population census statistics available for each year. Section III, Crime Index/Crime Rate Data, contains a more detailed explanation.

SECTION II

Offense and Clearance Data

Due to a large number of agencies with missing or incomplete data, the statewide, county, and individual crime totals were misleading. Therefore, numerous agencies' crime data are not included in this year's publication in order to present a more accurate reflection of Illinois' crime trends. In order for an agency to appear in this year's publication, complete data for both years must have been reported.

Agencies missing one or more **complete** months of data are not included. Also not included are agencies who reported all 12 months of data, but one or more months was incomplete/low. These agencies were identified as incomplete/low data by showing a 50.0% decrease or more in the Crime Index Total; or the Illinois State Police had previous contact with the agency who indicated their data was incomplete.

Since Illinois Uniform Crime Reporting practices employed by the Chicago Police Department are not consistent with those used by all other reporting agencies, this section does not contain any state totals. Two separate Offense and Clearance Trend reports are presented. The first report is for Downstate Illinois and contains data reported by sheriffs' offices, police departments (other than the Chicago Police Department), colleges, universities and the Secretary of State's Office. The non-published agencies' crime data is not included in this report. Data from 535 agencies utilizing the Revised Illinois Uniform Crime Reporting (RIUCR) Program operating under the NIBRS criteria was processed through a conversion program to accomplish the totals presented in the Downstate Offense and Clearance Trend report. While reviewing the 1993 Downstate Illinois Offense and Clearance Trend report, the reader should keep in mind that the majority of the agencies switched to the RIUCR Program during 1993. Due to start up difficulties, some of the agencies' annual crime offense totals affected the Downstate Illinois crime totals appearing in this section and therefore, are not included in this report. The second report is for the Chicago Police Department. Each report includes the following:

Offenses Known to the Police - the number of offenses scored.

Offenses Actually Occurred - offenses police pursued through investigation to solution; the total offenses known to police minus unfounded offenses and offenses referred to responsible jurisdiction - used to compile the Crime Index.

Total Offenses Cleared - Cleared by Arrest-Adult, Cleared by Arrest-Juvenile, Failed to File Complaint or Prosecute-Adult, Failed to File Complaint or Prosecute-Juvenile, Other Exceptional Clearances-Adult, and Other Exceptional Clearances-Juvenile-administratively closed cases are not considered clearances.

Crime Conversion Process

Presently, 810 agencies report data using the incident-based Revised Illinois Uniform Crime Reporting (RIUCR) Program. A total of 535 agencies' data is included in this publication. Under this system, all crimes committed during an incident are reported. Fifty-six agencies continue to report under the old Illinois Uniform Crime Reporting (I-UCR) system which reported only the most serious crime involved in an incident (one per person). In order to arrive at one set of crime statistics, a program was used to convert RIUCR (NIBRS data) back to the original eight index crime categories (I-UCR). This conversion program eliminated all offenses within an incident other than the most serious crime.

SECTION III

Crime Index/Crime Rate Data

Due to a large number of agencies with missing or incomplete data, the statewide, county, and individual crime totals were misleading. Therefore, numerous agencies' crime data are not included in this year's publication in order to present a more accurate reflection of Illinois' crime trends. In order for an agency to appear in this year's publication, complete data for both years must have been reported.

Agencies missing one or more **complete** months of data are not included. Also not included are agencies who reported all 12 months of data, but one or more months was incomplete/low. These agencies were identified as incomplete/low data by showing a 50.0% decrease or more in the Crime Index Total; or the Illinois State Police had previous contact with the agency who indicated their data was incomplete.

Caution should be exercised when reviewing and using these data. The many social factors related to crime and a community's residential population, used to calculate the crime rate, must be considered when making statistical comparisons. A community may have a small residential population but a large moving population because of a substantial number of manufacturers, motels, etc., within its jurisdiction. The large moving population attracts criminal behavior that occurs within the small jurisdiction and must be reported by the law enforcement agency. The crime rate calculation does not compensate for a moving population. The statistics can make it appear that crimes are committed by community residents when this is not necessarily true.

While reviewing the 1993 Crime Index/Crime Rate totals, the reader should keep in mind that the majority of the agencies switched to the RIUCR Program during 1993. Due to start up difficulties, some of the agencies' annual crime offense totals affected the state, county and individual crime totals and therefore, are not included in this section.

This section utilizes the most recent complete census population statistics available from the U.S. Bureau of Census. The 1992 crime rate for this section was calculated using the actual 1990 census population statistics which were obtained from the U.S. Bureau of Census, 1990 Census of Population and Housing. The 1993 crime rate for this section was calculated using the 1992 estimated population statistics which were obtained from the U.S. Bureau of Census, Illinois Sub-County Population Estimates, released 1994.

During the Illinois Uniform Crime Reporting years 1992 and 1993, there were 66 cities with I-UCR participating police departments which were located in more than one county (see appendix for list of cities and counties). In order to calculate the county crime rate, crime index total and each of the eight crime index offense totals, each of the 66 cities' crime rate, crime index total and each of the eight crime index offense totals has been proportioned based on the percentage of population residing in each county. The following is an example for calculating the crime index total:

Naperville with a total population of 91,928 has 78,561 or 85.5 percent of its population in DuPage County and 13,367 or 14.5 percent of its population in Will County. The total crime index for Naperville in 1993 was 2,547.

The crime index has been computed as follows for DuPage and Will Counties:

| | County | Population | Total Crime Index |
|------------|--------|---------------|--|
| Naperville | DuPage | 78,561 | $91,928 - 85.46 \times 2,547 =$ |
| | Will | <u>13,367</u> | $91,928 - 14.54 \times 2,547 =$ <u>370</u> |
| Naperville | Total | 91,928 | 2,547 |

The crime index that was calculated for DuPage County, based upon the percentage of Naperville's population residing in DuPage County, has been added to the total crime index for DuPage County. The crime index that was calculated for Will County, based upon the percentage of Naperville's population residing in Will County, has been added to the total crime index for Will County.

It should be noted that each county total reflects crime data reported by police departments, sheriffs' offices, colleges and universities (other than the non-published agencies) that are located within each county. Since the Secretary of State's Office has districts that have multi-county jurisdiction, the Secretary of State's Office totals are not reflected in the county total but are reflected in the state total.

Data from 535 agencies utilizing the Revised Illinois Uniform Crime Reporting (RIUCR) Program operating under the NIBRS criteria was processed through a conversion program to accomplish the totals presented in the Crime Index/Crime Rate Comparison report.

There are separate Crime Index/Crime Rate Comparison reports for the following:

Police Departments
Sheriffs' Offices
Colleges and Universities
Secretary of State
Counties
Illinois State Police
Railroads
Park Districts
Airports
Other Agencies

The Crime Index/Crime Rate Comparison State Total is an aggregate total of the sheriffs' offices, police departments, colleges, universities and the Secretary of State's Office (other than the non-published agencies).

Positive values in this section are not preceded by a "+" as in other sections within this publication.

The following definitions pertain to the footnotes appearing in this section's Crime Index/Crime Rate Comparison report:

The following flags appear on the left margin of the report by the agency name:

- # This indicates the agency reported data, one or all of the year's incidents/cases, using the Revised Illinois Uniform Crime Reporting (RIUCR) Program criteria. The RIUCR offense code data was converted to the CLD I-UCR Program offense code data.
- * This indicates the agency's jurisdiction as being located in more than one county.

The following flags appear on the left side of the year column:

- 2 **No Index Crimes:** This agency's data, as posted to the UCR database, only indicates non-index offense data for each month of the year.
- 4 **Reported Thru Other Agency:** This agency reported their UCR data through another agency for the year.

Because of agency adjustments and late submissions, the 1992 figures reflected in this section are not comparable with those figures published in Crime in Illinois 1992.

Crime Index/Crime Rate Comparison - 1993/1992
State Total

SECTION IV

METROPOLITAN STATISTICAL AREAS

MSA boundaries are as defined on October 12, 1984

Metropolitan Statistical Areas

Due to a large number of agencies with missing or incomplete data, the statewide, county, and individual crime totals were misleading. Therefore, numerous agencies' crime data are not included in this year's publication in order to present a more accurate reflection of Illinois' crime trends. In order for an agency to appear in this year's publication, complete data for both years must have been reported.

Agencies missing one or more complete months of data are not included. Also not included are agencies who reported all 12 months of data, but one or more months was incomplete/low. These agencies were identified as incomplete/low data by showing a 50.0% decrease or more in the Crime Index Total; or the Illinois State Police had previous contact with the agency who indicated their data was incomplete.

By 1980 standards, an area qualifies for recognition as an MSA in one of two ways: (1) if it includes a city of at least 50,000 population, or (2) if it includes an urbanized area of at least 50,000 population with a total metropolitan population of at least 100,000. In addition to the county containing the main city or urbanized area, an MSA may include additional counties having strong economic and social ties to the central county.* Two of the MSAs overlap with Iowa and Missouri. Areas outside of Illinois that are included in an MSA are not represented in the statistics presented here. In some cases, the percentages may not equal 100 due to rounding.

MSA Summary

The MSA summary includes MSA Large Municipalities, MSA Small Municipalities and Rural Areas Inside MSAs. The inhabitants of the large and small municipalities and rural areas that comprise the state's MSAs account for 85.7 percent of the state population. The total MSA index crimes account for 93.8 percent of the Illinois Crime Index.

| 1993 | 7,785,423 | 6,387.4 | 497,283 | 1,102 | 4,890 | 40,603 | 49,467 | 84,713 | 258,617 | 55,052 | 2,839 |
| % Change | +1.8 | -7.3 | -5.6 | -0.9 | -6.8 | -7.8 | -3.5 | -9.6 | -2.7 | -11.9 | -10.8 |

MSA Large Municipalities Summary

These municipalities are cities or "twin municipalities" within an MSA that have more than 50,000 people and exhibit characteristics of a major metropolitan center.

The inhabitants of the large municipalities represent 46.1 percent of the state's population and 53.8 percent of the MSAs' population. The large municipalities account for 70.5 percent of the Illinois index crimes and 75.1 percent of the total MSA index crimes.

Crime Index/Crime Rate Comparison - 1993/1992

Large Municipalities in MSAs

| | Population | Crime Rate per 100,000 | Total Crime Index | Murder | Criminal Sexual Assault | Robbery | Aggrvt. Assault & Battery | Burglary | Theft | Motor Vehicle Theft | Arson |
|----------|------------|------------------------|-------------------|--------|-------------------------|---------|---------------------------|----------|---------|---------------------|-------|

| 1993 | 4,189,693 | 8,917.8 | 373,629 | 965 | 3,855 | 38,366 | 44,855 | 63,974 | 173,458 | 45,980 | 2,176 |
| % Change | +0.5 | -4.0 | -3.5 | -5.7 | -7.6 | -7.7 | -3.9 | -6.4 | +0.8 | -9.7 | -7.3 |

MSA Small Municipalities Summary

Small municipalities are suburban areas within an MSA with a population of 50,000 or less.

The inhabitants of small municipalities represent 30.1 percent of the state's population and 35.1 percent of the MSAs' population. Small municipalities account for 19.8 percent of the Illinois index crimes and 21.1 percent of the total MSA index crimes.

Crime Index/Crime Rate Comparison - 1993/1992

Small Municipalities in MSAs

| | Population | Crime Rate per 100,000 | Total Crime Index | Murder | Criminal Sexual Assault | Robbery | Aggrvt. Assault & Battery | Burglary | Theft | Motor Vehicle Theft | Arson |
|----------|------------|------------------------|-------------------|--------|-------------------------|---------|---------------------------|----------|--------|---------------------|-------|
| 1992 | 2,630,498 | 4,510.5 | 118,648 | 68 | 807 | 2,230 | 3,708 | 19,208 | 81,822 | 10,153 | 652 |
| 1993 | 2,731,571 | 3,848.9 | 105,135 | 103 | 745 | 2,057 | 3,749 | 15,742 | 74,324 | 7,856 | 559 |
| % Change | +3.8 | -14.7 | -11.4 | +51.5 | -7.7 | -7.8 | +1.1 | -18.0 | -9.2 | -22.6 | -14.3 |

Rural Areas Inside MSAs (Sheriffs' Offices)

The rural areas in this section are comprised of the unincorporated population of the counties that are in MSAs. For I-UCR purposes, these rural areas are comprised of the sheriff's jurisdiction within an MSA.

The inhabitants of the rural areas within an MSA represent 9.5 percent of the state's population and 11.1 percent of the MSAs' population. They account for 3.5 percent of the Illinois index crimes and 3.7 percent of the total MSA index crimes.

Crime Index/Crime Rate Comparison - 1993/1992

Rural Areas Inside MSAs

| | Population | Crime Rate per 100,000 | Total Crime Index | Murder | Criminal Sexual Assault | Robbery | Aggrav. Assault & Battery | Burglary | Theft | Motor Vehicle Theft | Arson |
|----------|------------|------------------------|-------------------|--------|-------------------------|---------|---------------------------|----------|--------|---------------------|-------|
| 1992 | 846,979 | 2,470.5 | 20,925 | 21 | 266 | 221 | 891 | 6,141 | 11,768 | 1,434 | 183 |
| 1993 | 864,159 | 2,143.0 | 18,519 | 34 | 290 | 180 | 863 | 4,997 | 10,835 | 1,216 | 104 |
| % Change | +2.0 | -13.3 | -11.5 | +61.9 | +9.0 | -18.6 | -3.1 | -18.6 | -7.9 | -15.2 | -43.2 |

Rural Areas Outside MSAs (Sheriffs' Offices)

The rural areas in this section are comprised of the unincorporated population of the counties outside the MSAs. For I-UCR purposes, these rural areas are comprised of the sheriff's jurisdiction outside the MSA.

The inhabitants of the rural areas outside MSAs represent 7.2 percent of the state's population. They account for 1.6 percent of the Illinois index crimes.

Crime Index/Crime Rate Comparison - 1993/1992

Rural Areas Outside MSAs

| | Population | Crime Rate per 100,000 | Total Crime Index | Murder | Criminal Sexual Assault | Robbery | Aggrav. Assault & Battery | Burglary | Theft | Motor Vehicle Theft | Arson |
|----------|------------|------------------------|-------------------|--------|-------------------------|---------|---------------------------|----------|-------|---------------------|-------|
| 1992 | 664,190 | 1,416.5 | 9,408 | 18 | 125 | 52 | 303 | 3,356 | 5,122 | 358 | 74 |
| 1993 | 655,446 | 1,263.7 | 8,283 | 7 | 124 | 26 | 289 | 2,912 | 4,542 | 307 | 76 |

Other Cities Summary

Other cities are urban places outside the MSAs. For I-UCR purposes, these are cities and towns outside the MSAs and surrounded by rural areas that are not under the jurisdiction of the county sheriffs' offices.

The inhabitants of other cities account for 7.1 percent of the state's population. Other cities account for 4.7 percent of the Illinois index crimes.

Crime Index/Crime Rate Comparison - 1993/1992

SECTION V

Law Enforcement Officers Killed

During 1993, one Illinois law enforcement officer was killed by a felonious act and three by accident. A brief narrative on the circumstances surrounding each death is presented below:

AUGUST

Chicago Police Department - On August 7, 1993, a police officer was shot while investigating a gang disturbance. Several shots were fired, and the officer was shot in the upper back. He died later in emergency surgery.

OCTOBER

Dewitt County Sheriff's Office - On October 10, 1993, while responding to a call for backup assistance the deputy's squad car struck a deer. The deputy was a 5-year veteran of the department.

Rock Island Police Department - October 20, 1993, a reserve officer participating in a training exercise was fatally wounded with a handgun.

Rock Island Police Department - October 24, 1993, a reserve officer participating in a training exercise was wounded with a handgun. During the drive to the hospital he was involved in a fatal vehicle accident.

Law Enforcement Employment Information

The employment rate for law enforcement personnel is calculated as follows:

$$\frac{\text{number of employees} \times 1,000}{\text{jurisdictional population}} = \text{employment rate}$$

EXAMPLE:

A department with 60 employees in a population of 51,000 has an employment rate of 1.2 per 1,000 inhabitants:

$$\frac{60 \times 1,000}{51,000} = 1.2 \text{ per 1,000 inhabitants}$$

Law enforcement employment rates should not be correlated with index crimes, non-index offenses or service related activities performed by law enforcement officers. Service related activities account for over 80 percent of the officer's workload which usually remain unpublished. Each community should consider all the factors related to the causes of crime and determine the role of the law enforcement department relative to crime and to required services.

The 35,009 part- and full-time sworn officers in 1993 account for 74.4 percent of the entire state of Illinois law enforcement community's work force. The 1993 employment rate for sworn employees of the entire state of Illinois law enforcement work force is 3.0 per 1,000 inhabitants. The 9,422 civilian employees comprise 20.0 percent of the entire state of Illinois law enforcement community's work force, with an employment rate of .8 per 1,000 inhabitants. The 2,628 auxiliary officers in 1993 account for 5.6 percent of the entire state of Illinois law enforcement community's work force, with an employment rate of .2 per 1,000 inhabitants.

The 26,715 part- and full-time sworn officers in 1993 account for 78.6 percent of the police department work force. The 1993 employment rate for sworn employees of police departments is 2.8 per 1,000 inhabitants. The 5,522 civilian employees comprise 16.3 percent of the police department work force, with an employment rate of .6 per 1,000 inhabitants. The 1,738 auxiliary officers in 1993 comprise 5.1 percent of the police department work force, with an employment rate of .2 per 1,000 inhabitants.

The 3,720 part- and full-time sworn officers in 1993 account for 56.8 percent of the sheriffs' offices work force. The 1993 employment rate for sworn employees of sheriffs' offices is 1.7 per 1,000 inhabitants. The 1,962 civilian employees comprise 30.0 percent of the sheriffs' offices work force, with an employment rate of .9 per 1,000 inhabitants. The 869 auxiliary officers in 1993 comprise 13.3 percent of the sheriffs' offices work force, with an employment rate of .4 per 1,000 inhabitants.
