COUNTY DETENTION FACILITIES 1994 ANNUAL REPORT

Inmate Profile Summary

This County Detention Facilities Summary provides an annual profile of Florida's detention facility inmate populations. Monthly Average Daily Population (ADP) figures include male, female, adult and juvenile inmates.

Table 1 illustrates county jail populations over a five year period (1990 - 1994). The 1994 population figures are arranged into felony, misdemeanor and "other" subcategories in Table 1A. "Other" includes the number of parole violators, state inmates, undocumented aliens, holdings for other jurisdictions and individuals detained under the Baker (mental health) and Myers (alcoholism) Acts. Within both felony and misdemeanor subcategories, the number of inmates sentenced, held for trial or sentencing, and those detained or sentenced for violation of probation are listed. Table 2 features the average 1994 populations at county jails and average incarceration rates by county. Table 3 lists the capacity of each county detention facility in Florida, including its capacity changes during the year, along with each facility's average rated capacity for 1994. Table 3A lists average 1994 populations in 1994 by facility, including number and percent over or under the Department of Corrections' rated capacity. Table 4 provides at a glance the difference between the average DC rated capacity for 1994 and the average daily population by facility. Table 5 shows a five year recap of DC rated capacity and average daily populations from 1990 to 1994.

The charts that follow illustrate five year trends in county jail facilities.

**COUNTY DETENTION FACILITIES
PROFILE SUMMARY
1994**

Average Daily Population

On the average, there were 37,485 inmates in Florida's county detention facilities during 1994. This figure represents an 8.6% increase in the inmate population from that reported for 1993. The statewide average daily population (ADP) totals for 1994 include 32,586 adult males (86.9%), 3,901 adult females (10.4%), 967 juvenile males (2.6%) and 32 juvenile females (.1%). The overall distribution of male and female inmates has remained constant in county detention facilities over the past year. The following provides an analysis of the inmate population for 1994

1994 JAIL POPULATION RECAP

* 73.3% of the total inmate population were incarcerated for felony offenses, while 20.4% were detained for misdemeanor crimes. All others confined amounted to 6.3% of the total population.

* Juveniles accounted for only 999 or 2.7% of the overall inmate population, with the majority (967) being male. Most juveniles (96.1%) were charged with felonies.

* The majority (89.5% or 33,551) of those incarcerated in county detention facilities in 1994 were male.

* On average, 57.4% of offenders in county detention facilities in 1994 were pretrial.

Incarceration Rates

In 1994, the statewide county detention incarceration rate was 2.7 per 1,000 county residents based on the population estimates for April 1994. Incarceration rates ranged from an average low of 0.9 in Union County, to a high of 7.8 in Wakulla County. Wakulla County's high incarceration rate is the direct result of holding a large portion of their inmate population for the U. S. Marshal's Service. Other counties may also be experiencing high incarceration rates due to the contracting of bed space for state and federal inmates.

Overcrowding: Capacity vs. Population

In 1994, 16 of 106 facilities reporting had average daily inmate populations which exceeded their Department of Corrections (DC) rated capacity. The percent over capacity ranged from a low of 1.3% to a high of 106.9%. The remaining 90 facilities were at or below capacity.

Pretrial Population Levels: See chart below for 1994 average pretrial percentages.
