Minnesota Department of Public Safety, Office of Drug Policy and Violence Prevention administers the state antidrug program and the narcotic task forces.

Minnesota Planning is charged with developing a long-range plan for the state, stimulating public participation in Minnesota's future and coordinating public policy with state agencies, the Legislature and other units of government.

The Criminal Justice Center at Minnesota Planning provides criminal and juvenile justice information, conducts research and maintains databases for policy development.

Acknowledgments: This report was prepared for the Minnesota Office of Drug Policy and Violence Prevention by the Criminal Justice Center. The statistical analysis, research, design and writing of this report was done by Ray Lewis. The funding for this report was provided by grants from the Office of Drug Policy and Violence Prevention, Minnesota Department of Public Safety; and the Bureau of Justice Assistance, U.S. Department of Justice. The data used in this analysis was obtained from 1994 task force annual reports, 1994 task force quarterly reports and 1994 task force arrest reports.

Upon request, *1994 Minnesota Narcotic Task Force Data Book* will be made available in an alternate format, such as Braille, large print or audio (tape).

For TDD, contact Minnesota relay at (612) 297-5353 or (800) 627-3529.

The Narcotic Task Force Program

In 1987, a year after Congress passed the Anti-Drug Abuse Act funding antidrug efforts by the states, the Narcotics Enforcement Coordinating Committee was created in Minnesota to develop a plan for distributing these funds, along with state and local money, for narcotic control programs.

The committee issued its first grants to narcotic task forces across the state in 1988 as part of the Multijurisdictional Narcotic Task Force Program. The following year, the Minnesota Legislature created the Office of Drug Policy to distribute antidrug funds and evaluate state programs. The office took over administering the state's antidrug program in 1990 and became grant administrator for the narcotic task forces in 1991.

Narcotic Task Force Defined

A narcotic task force is: two or more county sheriff's offices; one or more county sheriff's offices and one or more municipal or other local law enforcement agencies; or three or more municipal or other local law enforcement agencies.

Agencies participating in a narcotic task force each assign one officer to the task force and sign a joint-powers agreement that enables task force officers to work in the jurisdictions of the member agencies. This multijurisdictional scope is critical, because drug dealers rarely operate in a single community or location. The joint-powers agreement also fosters communication and cooperation between agencies.

Reporting Process

The information in the *1994 Narcotic Task Force Data Book* comes from 1994 task force annual and quarterly data reports, which are compiled by the 28 narcotic task force coordinators. This information is used to help shape Minnesota's antidrug strategy and to examine the effectiveness of national antidrug enforcement efforts.

The following pages of statistics present a conservative account of task force activities. Arrests for offenses involving multiple drugs or multiple drug activities, such as that of an individual possessing marijuana and distributing cocaine, are coded as a single arrest for the most serious offense. Financial data from the annual budgets has been rounded to the nearest dollar.

Task Force Activities From 1990 to 1994

1994 Minnesota Narcotic Task Force Efforts

Task Forces

Seventy-nine of Minnesota's 87 counties are represented in this report. Twenty-eight task forces funded by the Bureau of Justice Assistance covered over 98 percent of Minnesota's population.

Arrests

Narcotic task forces made a total of 2,636 arrests in 1994. More than 57 percent of all offenders arrested were charged with possession. Eight hundred fifty-one offenders were arrested for possession of marijuana, 230 for possession of cocaine, 180 for possession of amphetamines or methamphetamine and 71 for possession of crack.

About one-third of all offenders were arrested for distribution. Of those who were charged with distribution, 346 were for marijuana, 251 for cocaine, 127 for amphetamines or methamphetamine and 82 for crack.

Overall, 50 percent of all arrests were for marijuana, 19 percent for cocaine, 12 percent for amphetamines or methamphetamine, 6 percent for crack, and 13 percent for other drugs.

Four times as many males as females were arrested. Individuals younger than 18 years of age accounted for 8 percent of arrestees; 36 percent were between 18 and 25 years old, and 55 percent were 26 and older. White males older than 26 account for 34 percent of all arrests, while over half of females arrested are white and older than 26. Whites made up 75 percent of all arrests, African Americans were 14 percent, Native Americans 2 percent, and 1 percent were of other race or race was unknown. Hispanic ethnics, who can be of any race, accounted for 7 percent of arrests.

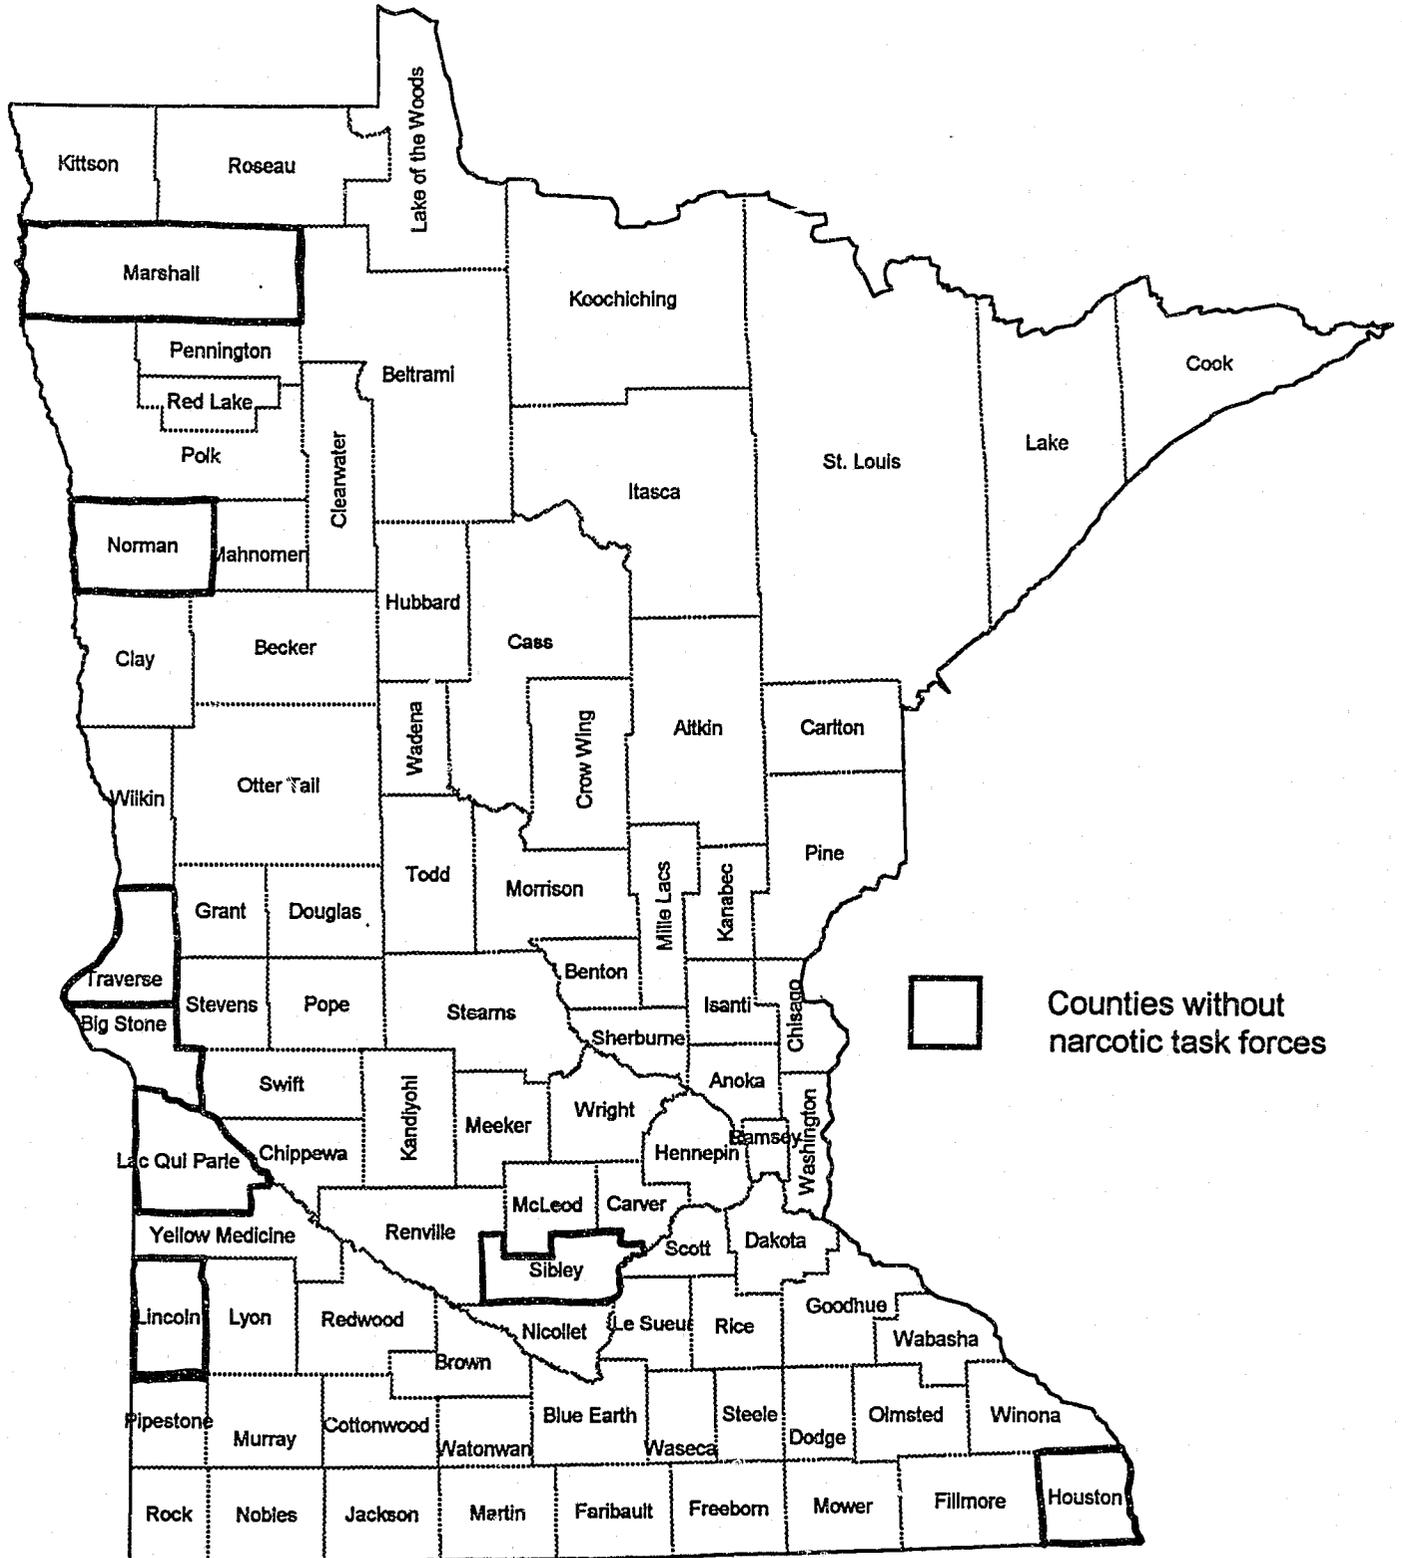

Seizures

In 1994, task forces seized more than 47 kilograms of cocaine, more than 8 kilograms of crack, nearly 3,000 pounds of marijuana and more than 213,000 marijuana plants. They also seized 3,100 doses of LSD and, nearly 9 kilograms of amphetamines and methamphetamine.

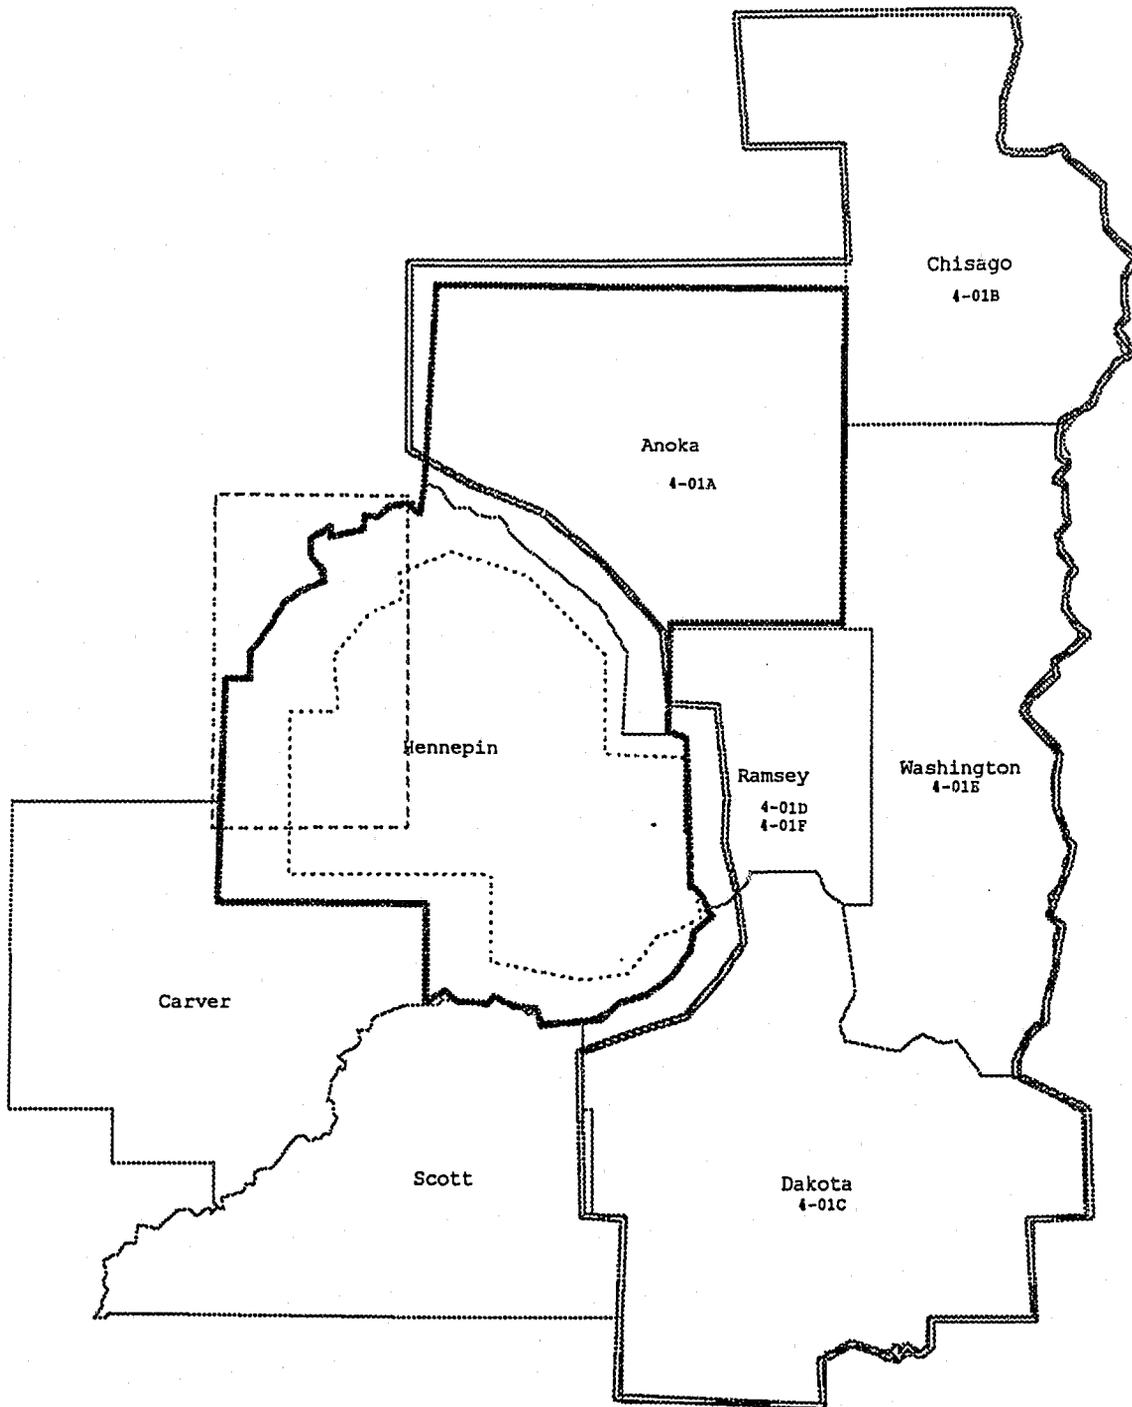

Goals

Task forces continue to concentrate on arrests. Arrests in 1994 were up 12 percent from 1993 and 64 percent from 1990. Task force commanders list arrests of midlevel dealers as top priority. Other priorities include street sales, manufacturing and importation.
