## **Introduction**

The Nebraska Commission on Law Enforcement and Criminal Justice (Crime Commission) is a code level agency under the Governor. It acts as an umbrella agency for various criminal justice related programs as well as meeting various statutory duties. The Commission has nineteen appointed members and the staff cover a broad range of activities. The Nebraska Jail Standards Board is a similarly composed body with responsibilities for developing and implementing minimum standards for the state's secure facilities. The Board is staffed by the Crime Commission's Jail Standards Division.

In addition to operational and physical criteria there are reporting requirements included in the jail standards. The collection and maintenance of complete records provides planning and historical data as well as satisfying a facility's daily and operational needs. The earlier implementation of a standardized admission and release form provided for consistent data across the state. This data is reported to the Jail Standards Division and maintained by the Crime Commission's Statistical Analysis Center (SAC). The database provides a valuable look at jail use and activity within Nebraska. At the time the forms were put in place the facilities in Lancaster and Douglas Counties (including the Omaha City Jail) had in-house automated information systems and were exempted from reporting. It is hoped that they will be able to contribute detailed data in the near future to complete the picture in the state. Since those two counties account for about half of the state's jail admissions the reader is cautioned that the detailed data that follows does not necessarily mirror activity in those communities.

Currently two separate forms are used, one for adults and one for juveniles. Copies of the Nebraska Admission and Release Record and the Nebraska Juvenile Admission and Release Record appear on the following pages. The charge related and demographic data collected on both is consistent but there is additional data pertinent to juvenile issues and juvenile detention that is also collected. Several agencies submit data electronically, by diskette or tape, and others are converting to be able to as computer capabilities expand. Manuals for the completion of the forms, as well as for electronic reporting, are provided to agencies as are the forms themselves.

In addition to planning, research and for use in determining whether or not a facility satisfies jail standards and can meet program needs the data is used for monitoring compliance with certain federal and state juvenile detention initiatives by the Crime Commission's Juvenile Justice Division. The database also includes data reported from the state's secure juvenile facilities but information on those facilities is not included in this report.

Further information or information on individual facilities is available from the Jail Standards Division and the Statistical Analysis Center.

## Active Jails in Nebraska

Detention needs, like most social issues, adapt over time to meet a communities needs. In the last few years there have been new facilities built as well as some older ones being closed or modified. Not all jurisdictions operate a jail. Many work cooperatively with another facility in the area to provide all or some of their needs. This may address limiting costs for one or more agencies or to satisfy the varying detention needs, such as required separation by age or sex.

Jail standards classify a facility by the type and length of the holds. Staffing and program requirements vary with the duration of the holds. The current classifications for jails are

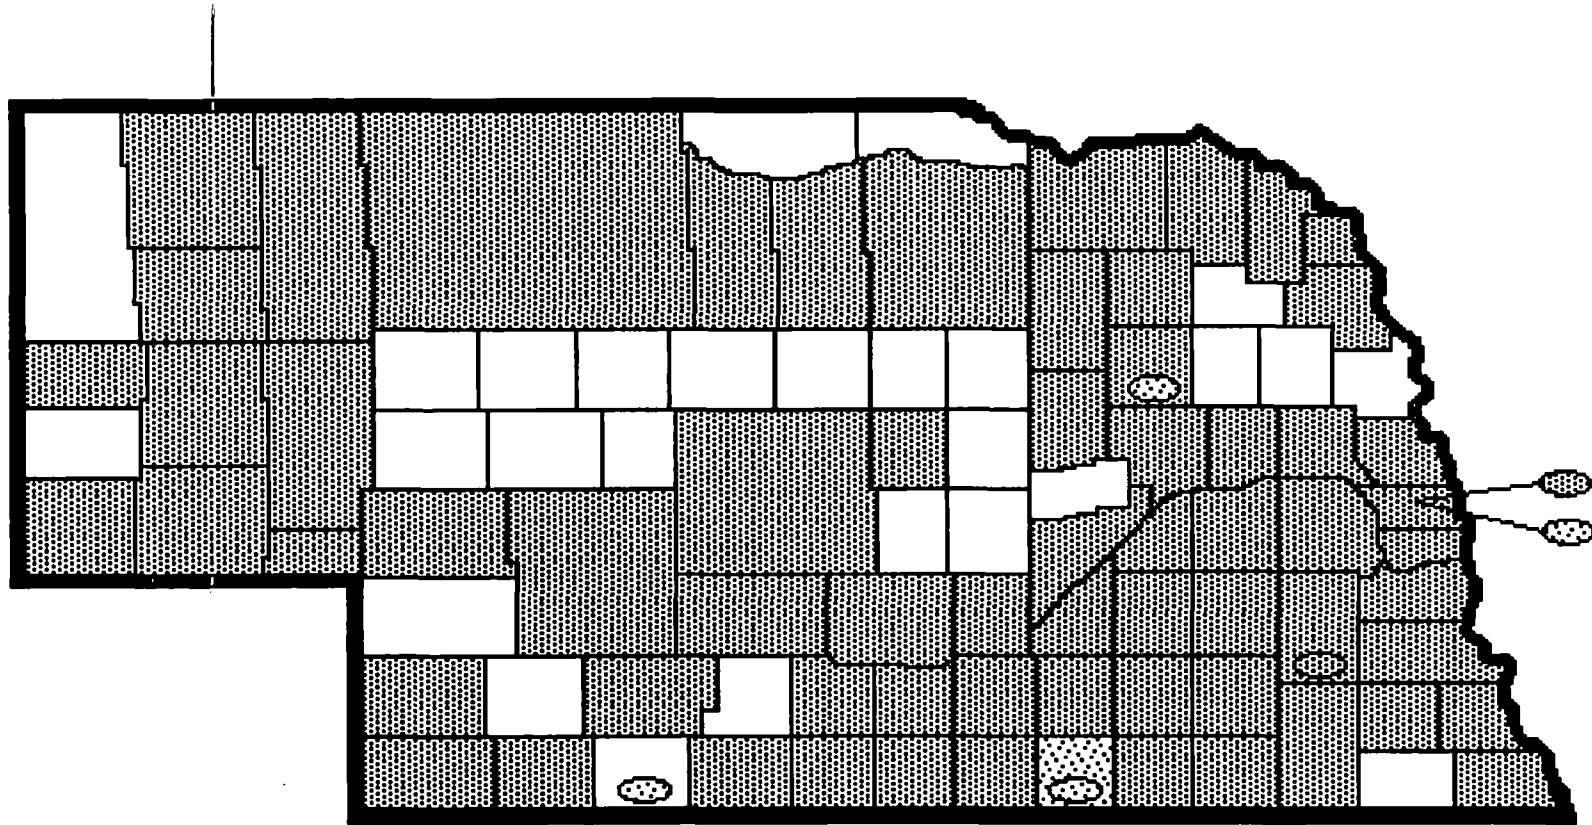

- Type I.....detentions up to 24 hours
- Type II.....detentions up to 96 hours
- Type III.....detention length not specified.

There are currently three Type I jails, two Type II and 66 Type III jails in Nebraska, for a total of 71 jails or lockups. County jails are typically Type III while city facilities and smaller county jails usually operate as Type I or II. Although county jails are usually run by the Sheriff there are a few counties that have separate departments of corrections.

### 1994 Jail Holds by Charge Type

Charge Type	Number	Percent
Civil	188	0.6
Felony	5621	17.7

The severity of the offense a person is charged with reflects the charges and offense at the time of admission. These could change following an arrest or court appearance. The severity of the offense is important not only to show activity in the community but also in the handling of a prisoner and the planning and procedures of a facility.

About three fourths of the admissions were for misdemeanor, or lesser, charges. This is consistent with other factors such as relatively short stays, no warrants accompanying the admission and the large number of pre-trial admissions.

**1994 Jail Holds  
by Selected Charge Classes**

<b>Charge Class</b>	<b>Number</b>	<b>Percent</b>
Drug	987	3.1
DWI	7470	23.5

<b>TOTAL</b>	<b>31803</b>	<b>100.0</b>

Jail admissions for DWI offenses have always been a large proportion of the total bookings. They still account for almost one out of every four admissions.

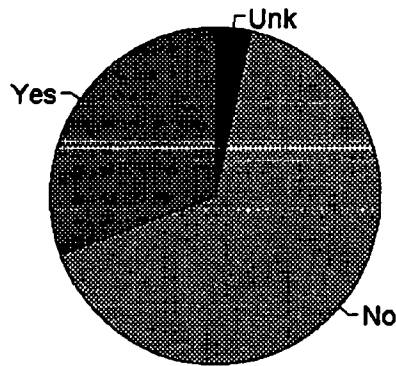

The following gives the top specific charges or charge groupings for 1994. These offenses accounted for 50% of the bookings. A variety of other charges appeared in 1994 but few of the known charges were listed with any significant frequency other than these.

<b>Top Charge Groupings</b>		
<b>Charge/Grouping</b>	<b>Number</b>	<b>Percent</b>
DWI	7470	23.5
Failure to Appear	1959	6.2
Assaults	1829	5.8

<b>Warrant</b>	<b>Number</b>	<b>Percent</b>
Unknown	1101	3.5
No Warrant	20943	65.9
Warrant	9759	30.7
<b>TOTAL</b>	<b>31803</b>	<b>100.0</b>

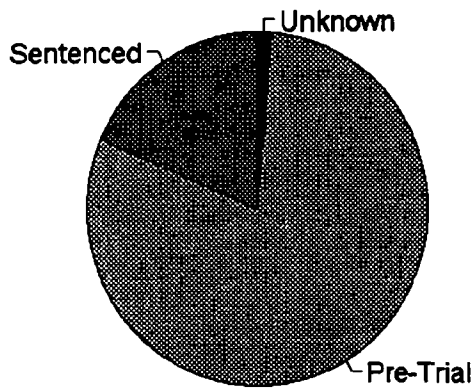

Two thirds of the people admitted did not have warrants.

**1994 Jail Holds  
by Custody Status**

<b>Custody Status</b>	<b>Number</b>	<b>Percent</b>
Unknown	425	1.3
Pre-Trial	25485	80.1
Sentenced	5893	18.5
<b>TOTAL</b>	<b>31803</b>	<b>100.0</b>

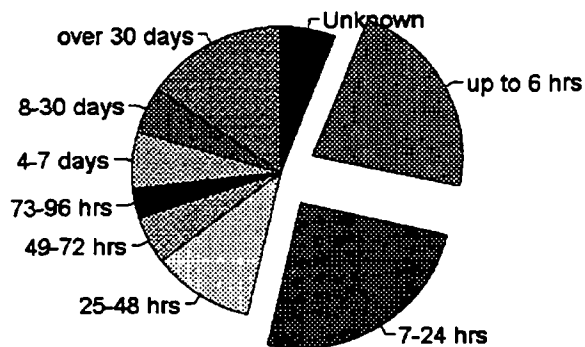

Over three fourths of those held were in a pre-trial status, awaiting trial or possibly booked and held while charges were filed. As with the other data this reflects their status at the time of admission. Throughout a stay, and trial, a prisoner's status might change to serving a sentence. Additionally, someone may be held initially as pre-trial, released and then readmitted as a sentenced prisoner after a trial.

### 1994 Jail Holds by Length of Hold

Length of Hold	Number	Percent
unknown	1912	6.0
Up to 6 hours	7115	22.4
7-24 hours	8009	25.2
25-48 hours	3536	11.1
49-72 hours	1693	5.3
73-96 hours	1024	3.2
4-7 days	2025	6.4
8-30 days	1618	5.1
over 30 days	4871	15.3
<b>TOTAL</b>	<b>31803</b>	<b>100.0</b>

About half of the people admitted were held for less than a day. This is again consistent with the nature of the offenses and custody status at and with historical data. When looking at average stays and daily populations it must be noted that a small number of long stays, say sentenced prisoners, can significantly affect the hold data.

**1994 Jail Holds

To Responsible Person	154	0.5
<b>TOTAL</b>	<b>31803</b>	<b>100.0</b>

Almost half (48.5%) of the releases were a result of bond being posted; again consistent with the pre-trial status and lower severity of charges. The other releases were mostly for the sentence being completed (over one fourth; fine paid, etc) or releases back to various other authorities.
