INDUSTRIAL SECURITY

a select bibliography, compiled by
A.H. CHAMBERS, A.L.A.

17273

a hertis publication
December 1973

A bibliography of books and periodical articles concerning Industrial Security mainly for the years 1961-1973.

The bibliography was originally prepared for the Industrial Security courses held at the College of Technology, Letchworth, and has been expanded for this publication.

Most of the literature cited is in print and should be easily available.

The entries have been arranged in subject groupings and the references within each section have been arranged alphabetically by author or title.

Where further references are cited in the text, this has been noted by the abbreviation 'bib', which follows the collation.
