DRUG EXPERIENCE, ATTITUDES, AND RELATED BEHAVIOR
AMONG ADOLESCENTS AND ADULTS

Part 2A Adult Interview Data

Part 2B Youth Interview Data

Part 2C Experience Data,
Adults and Youth

A Nationwide Study for the
National Commission on Marihuana and Drug Abuse

Response Analysis Corporation
Princeton, New Jersey

January 1973

INTRODUCTION

This is the second volume of detailed tabulations for the multi-drug study. This volume contains some of the source data upon which the main report is based.

As orientation to the reader, these are the elements that comprise the total report:

- Part 1 -- A presentation of the main findings and conclusions, with a minimum of methodology.
- Part 2 -- Detailed tabulations. Computer printouts with explanatory text bound into three documents.
 - Part 2A. Adult interview data
 - Part 2B. Youth interview data
 - Part 2C. Experience data, adults and youth (Self-administered questionnaires)
- Part 3 -- Methods and procedures. All aspects of research design and interviewing experience, plus a set of the supporting documents (e.g., training manual for interviewers).
- Part 4 -- A magnetic data tape record for use in further analysis. Actually, there are two reels of tape, one for adult responses, one for youth.

Organization of tables in this volume.

1. Each data page includes question number and text. The text is sometimes in abbreviated form. The complete text for each question is in the questionnaires bound into Part 1 of the report.
2. Answer alternatives are in the left-hand column. Cross-tabulation categories are across the top.

3. There is one data page for each question. It includes data for all youth (first column). For most questions the data page shows the crosstabulations for:

Sex

Age

Experience with marihuana

Current use of alcoholic beverages

Nonmedical use of psychotropic drugs

Region of the country

Community type

Classifications which are not self-evident are described in the next section.

4. The "unweighted base" row of figures (the last line in most tables) shows the actual number of respondents in each category. These figures would be used as part of the estimates of statistical significance of percentage differences between cells.
5. The "All youth" row at the top of the table shows the weighted frequencies. Weighted frequencies are the result of adjustments that take into account sample design features and population characteristics.
6. Each data cell includes a percent figure carried out to one decimal place, and also a weighted frequency. The weighted frequencies are the sources of percentages. Any repercentaging which the reader may wish to do from these tables should utilize the weighted frequencies.
7. Each column of data reads down. That is, the percentage base for the column is the weighted frequency which is at the top of the column.

Explanation of Analysis Variables

1. Region of the country

States grouped as Northeast (Census classifications of New England and Middle Atlantic)

Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania

States grouped as North Central (Census classifications of East North Central and West North Central)

Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, Kansas

States grouped as South (Census classifications of South Atlantic, East South Atlantic, and West South Central)

Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, Texas

States grouped as West (Census classifications of Mountain and Pacific)

Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada, Washington, Oregon, California

2. Community type

Large metro area includes the top 25 Standard Metropolitan Statistical Areas (SMSA):

New York	Newark
Los Angeles	Minneapolis-St. Paul
Chicago	Dallas
Philadelphia	Anaheim-Garden Grove-
Detroit	Santa Ana
San Francisco	Seattle
Washington	Milwaukee
Boston	Cincinnati
Pittsburgh	Atlanta
St. Louis	Paterson-Clifton-
Baltimore	Passaic
Cleveland	Buffalo
Houston	San Diego
	Miami

3. Experience with marihuana

"Yes" group includes persons who report having tried marihuana or who use marihuana on a regular basis.

Source:

Q. B5 self-administered: "If you did have the chance to try marihuana at that time, did you try it?"

or

Q. B6 self-administered: "If you did not try marihuana at that time, when was the first time that you tried marihuana? About how old were you?"

and/or

Q. B7 self-administered: "On the average, about how often do you use marihuana at the present time?"

4. Alcohol

"Yes" group includes people who have consumed an alcoholic beverage in the past seven days.

Source:

- Q. A4 self-administered: "During the past seven days, did you drink any beer?"
and/or
- Q. A7 self-administered: "During the past seven days, did you drink any wine?"
and/or
- Q. A10 self-administered: "During the past seven days, did you drink any hard liquor like cocktails or highballs, or on the rocks, or straight shots?"

5. Nonmedical use

"Yes" group includes those who say "yes" to one or more of the statements on Q. 19 or Q. 26 or Q. 33 -- a total of 15 statements.

- Q. 19 -- refers to ethical sedatives
Q. 26 -- refers to ethical tranquilizers
Q. 33 -- refers to ethical stimulants
- a. "Have you ever taken these pills to help you get along with your family or other people?"
- b. "Have you ever taken any of these pills to help you get ready for some big event, or to help you accomplish something?"
- c. "Did you ever take one of these kinds of pills just to see what it was like and how it would work?"
- d. "Have you ever taken any of these pills before going out so that you could enjoy yourself more with other people?"
- e. "Did you ever take these kinds of pills just to enjoy the feeling they give you?"
