The Colorado Law Enforcement Training Academy was established by the Colorado Legislature in 1965, and has matured into an effective training facility. It began as a part-time training program in temporary quarters and progressed into a full time, much in demand, comprehensive law enforcement training academy, one of the first of its kind in the United States. The curriculum has been well developed and expanded into programs which produce effective, skilled law enforcement officers. The citizens of Colorado can well be proud of the Academy, the progress it has achieved, and its future potential.

THE COLORADO LAW ENFORCEMENT TRAINING ACADEMY

LEGISLATIVE REPORT FOR FISCAL YEAR 1969-1970

The Colorado Law Enforcement Training Academy is a Division of the Department of Local Affairs, headed by Mr. J. D. Arehart. It functions under the direction of State Patrol Chief G. R. Carrel, Superintendent, who, in turn, is assisted by a nine member Advisory Board, appointed by the Governor.

The new Academy facility, located at Camp George West, Golden, Colorado, was completed in time to commence training on January 5, 1969, and has remained in full operation, improving and growing to meet the needs and demands of modern law enforcement.

During the reporting period, 13 courses were offered in 25 classes. The seven Basic Recruit Courses held remained as the foundation around which the year's schedule was designed. In addition to this and the courses offered in previous years, several new courses were added to the curriculum: "Civil Disturbance and Advanced Firearms Training", "Arson and Explosives Investigation", "Burglary and Robbery Investigation", "Homicide Investigation", and "Investigative Photography".

One hundred fifteen instructors drawn from the Federal Bureau of Investigation, the Colorado State Patrol, County Sheriffs' Offices, Municipal Police Departments, the Attorney General's Office, Universities, the legal profession and the news media, spent a total of 2,266 hours in the classroom.

Announcements and applications for each course were mailed to 244 law enforcement agencies throughout the state. During the reporting period, 598 police officers, deputy sheriffs, firemen and radio dispatchers, representing 103 departments, were enrolled and graduated with a much better understanding of their role in law enforcement and with their proficiency and capabilities for performing their duties enhanced.

Although this indicates a fulfillment of one of the Academy's primary functions, a true picture is not given unless reference is made to the 425 State Patrolmen trained in an annual in-service program, two recruit programs (involving 65 recruits) and the special Gas Chromatograph school involving 406 State Patrolmen. The Chromatograph School was designed to determine alcohol content in the breath of drinking drivers. In addition, 34 radio technicians received one week in-service and advanced training. Upon completion of the regular academy training, an especially designed curriculum covering 4 weeks was held for the Game, Fish and Parks Division. Because of the Legislative intent that the facilities would be "multi-use", the Colorado National Guard uses classrooms, the newly completed pistol range, and are fed in the dining room during their scheduled training programs. Many other departments have also used the new range. In fact, it

is used almost daily by departments such as the Federal Bureau of Investigation, Denver Police, Postal Inspectors, and other local law enforcement departments. The Colorado Law Enforcement Training Academy has truly been a multi-use and much used facility during the past year and every indication is for an ever increasing demand.

Tuition for the courses offered at the Academy was \$65.00 for the 162 hour Basic Recruit Course, \$45.00 for the 81 hour Advanced Training Course, \$25.00 for the 40 hour special courses, and \$15.00 for the 21 hour Investigative Photography course. That portion of academy costs recovered by tuition amounted to \$22,550.00.

The Colorado State Penitentiary was reimbursed \$9,066.50 for 18,133 meals. Too much cannot be said of the help the Penitentiary gives the Academy; they furnish trustees as janitors, cooks, and grounds keepers, and without their assistance costs of operating the Academy would no doubt soar.

Again, as in the past, the Advisory Board's work in planning curriculums, up-dating previous curriculums, determining equitable enrollment of students from the lists of applicants, and supporting the Academy throughout the state contributed greatly to this year's success. An original board member, Chief Earl Towning of the Greeley Police Department, retired from active police work this year and resigned this seat on the board. His many years of experience and support will be sorely missed.

In view of the current trend of increased incidents of crime and unrest, the role of the law enforcement officer in the communities in the state of Colorado grows in importance, and the requirement for well trained, knowledgeable law enforcement officers also increases. It is, therefore, the goal of those involved in the operation of the Academy to assure the fulfillment of these obligations to the people of Colorado.

Attn: Colonel G.R. Carrel

Dear Colonel Carrel:

In receipt of your letter dated 21 July 70 requesting information as to our Officers' acceptance of the training received through the Colorado Law Enforcement Training Academy.

Each Officer upon his return from the Academy was very enthusiastic about the training he received and goes into the field here at home with a more positive outlook of law enforcement.

I would like to see more supervision and administrative courses along with a course or two for new investigators up from the ranks of the patrol.

Thanking you for your concern of problems of mutal interest.

Sincerely,

Colorado Law Enforcement Training Academy

Dear Colonel Carrell,

I wish to congratulate you and the members of the C.L.E.T.A. Advisory Board, Captain Walter R. Whitelaw and his staff for a job well done during the 69-70 fiscal year. The Colorado Law Enforcement Training Academy is now a valued asset to the State of Colorado. I have been very well pleased by the performance of our C.L.E.T.A. graduates. I am particularly impressed by the advanced course and the specialized one week schools. We find that our experienced patrolmen are more effective after attending these training courses.

The recruit courses, frankly, are of limited value to us. We conduct our own 10 week recruit academy and feel we can deal in depth with local problems. I realize the limitations that must be placed on your Basic Recruit Course by the wide representation of Law Enforcement Agencies throughout the state. Your recruit training should, however, be very valuable to the smaller agency.

Sincerely

Dear Colonel Carrel:

We have been extremely pleased with the results of the training our people have received from the Academy, and we will continue to use its resources as often as we are permitted within our budgetary limitations. As you have stated, the real proof of the worth of any training effort is in the net result.

However, in answer to your question of curriculum, we feel that with the current emphasis on, and the demands for, training in Community Relations, Human Relations, and Sensitivity training, that perhaps more consideration should be devoted to these areas. I feel, as I am sure most police officers feel, a certain inadequacy in these areas. I am at a loss to recommend what action to take when an otherwise good officer or supervisor shows a lack of real honest concern for proper propriety in these matters. Most persons, when questioned, will express proper and accepted answers, but in reality will revert to actions and attitudes not in keeping with their publicly expressed views. This is a paradox common to most people in public life. However, we must try our utmost to overcome this obvious shortcoming of people employed as policemen.

Best wishes for another successful year of training for Colorado law enforcement officers.

This is in regard to your letter of July 24,1970, on your fiscal year 1969-1970. During this period I sent two Officers from our Dept. to C.L.E.T.A. and I will say that both of these Officers came back to us entirely more efficient and Capable of doing thier duties. Thanks to the Instructors and everybody else that is connected with C.L.E.T.A.

And I surely hope that the State of Colorado will be blessed with this Academy from this day on.

Dear Sir:

Congratulations on your first complete year in the new facilities at Camp George West. They are very good facilities and I have had nothing but good comment from the men that have attended.

The men I have sent to the Academy have come back to the department with many new ideas, and many of them have been implemented by this department.

At this point, I haven't any new ideas as to your curriculum, as it has been very satisfactory.

Wishing you sucess in the coming year.

Dear Colonel Carrel:

The effectiveness of the training, courses, and subjects offered by the academy have been most successful. The performance, knowledge and attitude of all our personnel who have attended classes at the academy have been greatly improved.

We, of the Englewood Police Department, support the "Colorado Law Enforcement Training Academy to the fullest extent. We have been quite pleased with the curriculum as developed by the Curriculum Study Committee and Advisory Board.

The level of law enforcement throughout Colorado has, and will continue to improve and become more professional due to this fine outstanding academy.

Very truly yours.

Gentlemen:

This department has benefited greatly through the efforts of the staff at the academy. As you know, all of our permanent personnel either have completed, or will complete the Basic Recruit program before their probation is over. In addition to this, we currently send men to all of the special classes, and advanced classes that time and budget will allow.

I feel that the general courses offered are pretty much in line with the needs of the various departments. I would like to see some emphasis placed on such things as investigation, traffic law, court procedures, juvenile code, etc. In a small department we do not have special division to handle such cases as murder, vice, narcotics, burglary. Each officer must be able to handle any case on his shift. Therefore the more rounded the training, the better officer will result.

I have found that if the man applies himself at C.L.E.T.A., he will need only review of the subjects covered, plus some street time, to be able to handle his shift well.

Since the revolution in police methods, it seems to have become necessary for the officer to constantly strive to keep abreast of changing procedures, methods, and laws. I would like to see some form of college credits accepted for this training, so that the full time police officer can progress in his formal education. I would recommend that this department take full advantage of every available C.L.E.T.A. class. The new classes for dispatchers, the supervisory classes, and the photography classes all will be valuable to us.

Respectfully submitted,

Dear Sirs:

I received your letter today wanting comments on the school. I think it is the best thing that ever happened to law enforcement in Colorado. I've sent one man to basic. I came down for the advanced course, and I am planning to send the man back for the advanced course next year. The accomodations are excellent, and the food is as good as a person could expect in a situation like this; there was all a person would want.

In the advanced course there were a couple of instructors that I felt that could have done more. I know by what the recruits learn in basic and also what I learned in the advanced course, it has probably helped more than you folks realize especially these small towns that can't have training officers I feel that it is very important.

Keep up the good work, and if at any time I can be of assistance to you, feel free to call on me.

Very truly yours,

Every officer on my department has attended at least one session of the training academy and again I say that the establishment and operation of the academy was the greatest step forward taken by this state in Law Enforcement.

I am well satisfied with the curriculum offered at the academy. The board iscomposed of outstanding officers who represent different size departments, therefore there is something in the curriculum for everyone.

If possible I would like to send my officers to short sessions: more of a 'refresher' course.

Congratulations on running such a fine academy.

Dear Colonel Carrel:

Not only as a Sheriff, but also being a member of the Supervisory Board on the Governor's Council on Crime Control, I am more than one-hundred percent in support of the Colorado Law Enforcement Training Academy.

The officers who have attended the school have benefited a great deal. It not only helps them, but also aids our department when these officers receive this training.

My only suggestion would be that there might be more information or classes on narcotics since this is a problem that every locality is now facing.

I feel that this school has been advantageous to all of us and know that it will be more helpful to each department as it develops. You have done a wonderful job.

If I can ever be of help to you please feel free to call.
