FIRE PREVENTION BUREAU  
P. O. Box 1143  
1234 TEXAS AVE.

TO: George W. D'Artois, Commissioner of Public Safety

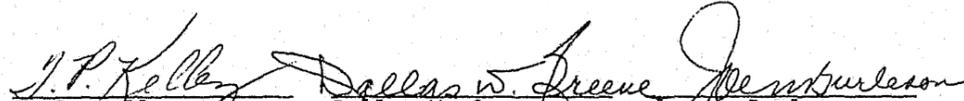

FROM: T. P. Kelley, Chief of Police  
Dallas W. Greene, Chief of Fire  
Joe M. Burleson, Traffic Engineer

SUBJECT: Police Department, Fire Department and  
Traffic Engineering Annual Report

We are pleased to report in statistical form some accomplish-  
ments of the Police Department, Fire Department, and Traffic  
Engineering Department, which we trust are self-explanatory.

Indeed, statistics are informative but there are other factors  
which reflect our accomplishments. The morale of the employees  
and the public whom we serve are the ultimate measures of our  
performance. In this regard, we would like to bring to your  
attention the following factors. First, the excellent attitude  
and genuine interest of our employees in their work. Second,  
our relationship with the public is at a very positive level.  
We are very grateful for their support and look forward to  
continued good community relations in the coming year.

Sincerely,

  
T. P. Kelley      Dallas W. Greene      Joe M. Burleson  
Chief of Police      Chief of Fire      Traffic Engineer

Number of .38 Caliber Bullets Casted		940,000
Number of Hit & Runs Investigated		878

SAFETY EDUCATION AND  
SELECTIVE ENFORCEMENT DIVISION

The Selective Enforcement Division is composed of one Lieutenant, one Sergeant and four Patrolmen.

The Division is responsible for working all high traffic areas within the City. It attempts to reduce traffic accidents and traffic violations by selecting sites which have high traffic accident history and concentrating its efforts in these areas.

The Division also operates under a Federal grant on Interstate 20. This is done on an overtime basis and has been responsible for reducing the number of fatalities from 11 in 1973 to two in 1974.

The Selective Enforcement Division operated a total of 4,412 hours in overtime, using off duty personnel.

This Division keeps a copy of all traffic accident reports in the City and the total number is 9,848 accidents with 2,570 injuries and 14 fatalities.

These figures reflect a reduction in all categories. For example, there was a reduction of ten fatalities over 1973, 223 fewer injuries and 278 fewer traffic accidents over 1973.

It is felt that the reduction was caused in part by the use of four Radar Units, the Selective Enforcement technique and 7,523 traffic violations written at chosen locations by the Division.

The Selective Enforcement Division is in the process of expanding its force of two motorcycles to 12 units. A 12 week training school was held to train the 15 officers for the new Motorcycle Division.

This Division assists the local radio stations in the local traffic watch programs. Traffic watch programs are conducted each week-day morning and afternoon from 7:30 A.M. to 8:30 A.M. and 4:45 P.M. to 5:45 P.M. Information provided to the public through this program includes radar locations, construction sites, auto accidents and any other information that would allow a smooth flow of traffic.

The three-wheel section of the Division of Selective Enforcement and Safety Education is composed of one Captain, two Lieutenants, three Sergeants, 18 Officers and one Meter Maid. One of the officers is attending the nine month Traffic Institute at Northwestern University, Evanston, Illinois.

In addition to the regular criminal enforcement duties, the 3-wheelers patrolled 35 school zones daily. This past year the 3-wheelers made 1,430 escorts for oversized vehicles through the City, provided 432 funeral escorts, assisted with bicycle inspection at local schools, escorted the City paint truck and directed traffic for the traffic signal repair crew when needed. They also wrote 70,938 parking violation tickets for illegal parking.

The three wheelers logged 291,660 miles during 1974.

The Education Division had a very successful year with programs covering all aspects of safety - home, playground, pedestrians, school and vacation. We also have programs dealing with alcohol and drug abuse.

We had good attendance with open houses during Crime Prevention Week, touring all ages through City Hall.

During the 1974 Bicycle Inspection Week in April, we inspected approximately 2,300 bikes.

One hundred thousand plus people enjoyed the Police Display at the 1974 Louisiana State Fair.

In 1974 our officers had 351 programs in Caddo Parish Schools, 136 programs in Churches, 117 programs in Civic Clubs, for a total attendance of 182,729.

It is our belief that an enlightened and well informed citizen is a tremendous aid in the field of Police Community Relations.

This past year has been a very busy one for the School Patrol Division. We now have 97 full time crossing guards and 12 part time guards. During the year each zone was surveyed and signs were replaced. All crosswalks were repainted. We added one new zone and discontinued three others. Our work load has been very heavy this year, mainly because of extreme wet weather. During wet weather, we have much more traffic to contend with around the schools. Also we have an increase of traffic each year which adds to our problem.

During the fiscal year of 1974, the Hit and Run Division was involved in the working of 754 Hit and Run Accidents. This comes out to 62.8 accidents per month or 2.85 accidents per day in a 22 day working period per month. During this period one negligent homicide was investigated where one person was struck down on the City streets. This investigation resulted in the arrest of one white female who was convicted of this act.

The complaint office, within the Hit and Run Division, worked 1,008 complaints which comes out to 84 complaints per month or 3.7 complaints per day in a 22 day working period per month. This Division is headed by one Captain and one patrolman working under him.

The Walking Beat is part of the Traffic Division. It consists of one Sergeant and six Patrolmen. Beside their primary duties of regular law enforcement, they apprehend shoplifters and deal with public relations. Before the walking beat started, a large amount of goods were being stolen out of the stores. Since they have been on duty, it has been cut down to 75%. The Officers walk certain beats which crisscross each other. They have been credited with making a number of arrests involving major crimes.

## DIVISIONS OF THE SHREVEPORT FIRE DEPARTMENT

DEPUTY CHIEF - H. W. LEACH

**FIRE FIGHTING DIVISION:** Asst. Fire Chiefs Fred Plants, J. R. Fouts, and J. C. Carpenter

The primary duties of the **FIRE FIGHTING DIVISION** are saving life and property from damage by fire. Once a fire has started, they endeavor to extinguish it with a minimum amount of damage or loss. All the men of this department receive first aid courses and are frequently called on to assist in drownings and heart attack cases. There is also a skin diving group within this division to assist in emergencies in water. In addition to the daily routine duties for these men, they must constantly train and study to keep ahead in a profession that changes almost daily.

**FIRE PREVENTION DIVISION:** Chief W. K. Matlock

The basic duties of the **FIRE PREVENTION DIVISION** are inspection, education and investigation. This division inspects, on a regular basis, all places of public assembly, mercantile and business buildings in regard to fire and life safety. They also conduct a comprehensive educational program on fire and fire prevention for schools, hospitals, civic clubs and similar organizations. The ordinances of the City and the laws of the State pertaining to fire prevention and arson are enforced by this division.

**TRAINING DIVISION:** Chief Bobby R. Tigert

The **TRAINING DIVISION** is responsible for planning and conducting training programs for all employees of the Fire Department. They carry on a regular program of mental and physical training, tests and exercises to educate and standardize procedures of the Fire Department.

**APPARATUS AND MAINTENANCE DIVISION:** Chief C. O. Simmons

The **APPARATUS AND MAINTENANCE DIVISION** is in charge of all apparatus and maintenance. Due to the complexity of the equipment, all repairs and maintenance are done by specially trained men of this division. This division supervises and maintains a preventative maintenance program, repair of fire apparatus, automotive equipment, fire fighting equipment and minor building repairs. They also conduct acceptance and performance tests on all fire equipment.

**FIRE DISPATCHING DIVISION:** Chief Fred Bentley

The **FIRE DISPATCHING DIVISION** is the communication section of the Fire Department. When a fire or emergency is called in this division receives the alarm. They in turn dispatch proper fire fighting equipment and men to handle the situation. All Fire Department communications, including radio, public address and private telephone system are handled in this division. They must also keep a constant vigil on all fire fighting apparatus as to location. In the event of a serious shortage of coverage in a section of the city, this division moves other companies into that section to insure proper coverage.

SCHOOLS, SEMINARS AND CONFERENCES  
ATTENDED BY BUREAU PERSONNEL

Two instructed at Louisiana Tech for Safety Engineering Students.  
Four attended Louisiana Arson and Fire Prevention Meeting at Lafayette, La.  
Three attended Hazardous Materials Seminar at Sacramento, California.  
One instructed at Mississippi State Fire Fighters School.  
Two instructed eight hours at Law Enforcement Class at LSU in Baton Rouge, La.  
One conducted Fire Safety Seminar for Nabors Trailer at Mansfield, Louisiana.  
One attended Seminar 6 presented by the Philadelphia Fire Department in Philadelphia, Pa.  
One attended Southern Building Code Congress Fire Prevention Code Revision Committee Meeting in Birmingham, Alabama.  
All Bureau personnel attended Fire Extinguisher Class conducted by Safety First Company.  
Three attended LSU Fire Seminar, Alexandria, Louisiana.  
Two instructed at LSU Fire Seminar, Alexandria, Louisiana.  
One attended Southern Building Code Conference, Birmingham, Alabama.  
One attended Fall Conference of NFPA, Seattle, Washington.  
Three attended Bomb Seminar in Dallas, Texas.

SCHOOLS, SEMINARS AND CONFERENCES

ATTENDED BY TRAINING PERSONNEL

Attended Briefing and Demonstrations held by Public Technology, Inc., presenting the latest results of its cooperative research and development program for the Fire Services, in Miami, Florida.  
Attended Conference on International Fire Service Training Manuals at L.S.U. Baton Rouge.  
Attended International Fire Service Training Association Conference in Stillwater, Oklahoma.  
Attended High Rise Seminar sponsored by National Fire Protection Association in Dallas, Texas.  
Attended Fire Department Instructors Conference at Memphis, Tennessee.

ASSISTANCE RECEIVED BY TRAINING DIVISION

Two Emergency Medical Technician Courses taught by staff at Confederate Memorial Medical Center attended by 25 firefighters.  
Chief Shelton of Barksdale assisted in Crash Truck Training.  
Glen Peabody (U. S. Army Special Forces) conducted Rope Repelling Classes.  
Personnel of Safety First Inc. conducted classes on Fire Extinguishers.

PUBLIC EDUCATION

Supervised Companies in performance of Sparky Field Day.  
Cardio-Pulmonary Resuscitation classes taught to various emergency groups in Shreveport and over the state.  
Supervised First Aid Stations in Fair Grounds during State Fair.

ON JOB TRAINING

Veterans' Administration on job training completed by 4 Fire Fighters.  
Benefits now being received by 3 Fire Fighters.

TRAFFIC ENGINEERING REPORT FOR 1974

A major change of the one way street pattern was made in the central business district, thus changing the traffic flow pattern in this area. The following changes were made: East-West one way streets in the central business district were reversed, Cotton Street was made two way and Marshall was made one way southbound from Caddo to Crockett. These changes involved relocation of numerous traffic control devices such as signs, signals and pavement markings. Traffic signals were temporarily installed until the new mast arms are received and installed.

Two major projects using reflectorized buttons were completed as well as several minor improvements. Reflectorized buttons were installed on the completed portion of the Linwood Avenue project from Claiborne to Hollywood and from West 63rd to West 69th Streets. These buttons were also used on the newly completed South Lakeshore Drive improvement west of Willow Point. Reflectorized buttons have also been installed on the completed portions of the Allen Avenue project.

Due to repeated vandalism of parking meters in the central business district, 112 "Safe Guard" security type parking meters were installed. Many of these were installed around the new Federal Building in the 500 block of Fannin Street.

This year we increased the use of changed signal phasing in our fixed time controls in order to handle both increased and changed traffic volumes. Changed signal phasing will become common place when the Computerized Traffic Control System becomes operational this year. Progress on the Computerized Signal System continued and some portions were completed. By mid 1975 two-thirds of the project should be operational.

Work continued on installation of symbol signs replacing the old type signs. Installation of stop or yield signs at "T" intersections for assignment of right of way continued. Replacement of old or damaged street marker signs with new type also continued. Our street striping truck was replaced with a new smaller unit which is more versatile and easier to handle in traffic.

TRAFFIC ENGINEER'S REPORT FOR THE YEAR 1974

ENGINEER'S SECTION

Ordinances Completed  
Complaints Investigated  
Meetings  
Letters  
Speeches

PAINT SECTION

34	Center Lines	487,496'

MAJOR PROJECTS

1. East-West one way streets in CBD were reversed, Cotton Street was made 2 way and Marshall was made one way south-bound from Caddo to Crockett.
2. Installed lead lag arrows at following locations, Ratcliff and Line and Fairfield and Pierremont.
3. Signal phasing changed at following locations:
  - a. Hollywood and Jewella (West).
  - b. Fairfield and Pierremont.
  - c. Line and Ratcliff.
  - d. Spring and Texas (E/B arrow).
4. Flasher installed at St. Vincent and Mid Continent Steel.
5. Flasher installed at Ockley and Fairfield.
6. Railroad signal (flashers) installed at Levy Street.
7. New School sign/signal at Murphy on Hearne Avenue.
8. Reflectorized buttons installed on Linwood project from Claiborne to Hollywood and from West 63rd to West 69th Street.
9. Reflectorized buttons installed on South Lakeshore Drive project for one mile, west of Willow Point.
10. 112 new security type (Safe Guard) parking meters in CBD.
11. Work continued on Computerized Signal System for the City:
  - a. 8 RMU's installed.
  - b. 78 CMU's installed.
  - c. 152 Detector Loops installed.
  - d. 50 Speed Advisory Signs installed.
12. Mast Arm bases for new mast arms in CBD work completed.

PARKING METER REPAIR

Meters Serviced in Shop	752

Poles Installed	2,318
Decals Made	19,704
Signs Cleaned	1,518
Sign Blanks Made	5,682
Signs Completed	5,592

CADDO-BOSSIER CIVIL DEFENSE

AUXILIARY POLICE ACTIVITIES

Auxiliary Police are a group of men organized by The Caddo Bossier Civil Defense to be prepared for manmade or natural disasters. Auxiliary Police work with the Shreveport Police Department to train for emergencies and have full police power when on duty.

Auxiliary Police are required to undergo a training period prior to being allowed to participate in active police duties with the Police Department. The Auxiliary Police are composed of a group of men on a voluntary basis without remuneration. Mr. W. C. Eberhard is Manager Gas Sales, Contract Administration, of United Gas Pipe Line Co., and is the Director of the Caddo-Bossier Civil Defense. Mr. E. Jack Davis is Residential Marketing Representative of Southwestern Electric Power Company and is Chief of the Auxiliary Police.
