QUESTIONNAIRE

We at BCS are interested in your reactions to this report. Please take a few minutes to mark this questionnaire. Give us your reactions to the report and your impressions of its usefulness to you and personnel in your department or office. Please send the completed questionnaire to the following address within two weeks of receipt of this publication:

Department of Justice
Bureau of Criminal Statistics
Statistical Analysis Center
P.O. Box 13427
Sacramento, California 95813

1. Do you make these reports available to persons in your department (office)?
☐ always ☐ usually ☐ seldom ☐ never
2. Is this report used by the people in your department who need the information contained in it?
☐ always ☐ usually ☐ seldom ☐ never
3. How is this report used (check as many as apply)?

☐ budget preparation	☐ press releases and public relations
☐ grant proposals	☐ trend analysis
☐ policy decisions	☐ not used
☐ day-to-day operations within department	☐ other (please specify)
☐ provide immediate answers to outside inquiries	
4. Does this report satisfy your needs for crime and arrest information?
☐ yes ☐ no
If no, please explain in question 11.
5. Do you read the narrative report?
☐ yes ☐ no
6. How clear do you find the narrative sections of this report?
☐ very clear ☐ generally clear ☐ somewhat clear ☐ unclear
7. How helpful are the narrative sections in assisting you to interpret the tables and graphs?
☐ very helpful ☐ helpful ☐ somewhat helpful ☐ not helpful

8. How clear are the tables?
☐ very clear ☐ generally clear ☐ somewhat clear ☐ unclear

9. How clear are the graphic presentations?
☐ very clear ☐ generally clear ☐ somewhat clear ☐ unclear

10. Do the tables in the report provide information in sufficient detail?
☐ yes ☐ no

11. Are the reports addressed to the right person in your department?
☐ yes ☐ no

If no, who should they be sent to? _____

12. What recommendations do you have for improving this report?

13. Please specify your position and department. (optional)

14. Would you like to receive a list of available BCS publications?

☐ yes ☐ no

If yes, please give your name and address.

FOREWORD

This report contains statistical information on crimes, arrests, police dispositions, jail population, and personnel engaged in law enforcement activities in California for 1974.

This information, which supplements *Crime and Delinquency in California, 1974* released in May 1975, is intended as a detailed reference source for police administrators, criminal justice planners, and researchers. Minor differences in data between the two publications are the result of adjustments to the data base.

INTRODUCTION

Crime rates and trend information are presented in publications by the Federal Bureau of Investigation (FBI) nationwide and the Bureau of Criminal Statistics (BCS) in California. Source data for California criminal statistics are provided through the participation of over 500 law enforcement agencies. Data are collected under the Uniform Crime Reporting (UCR) program according to standards established by the International Association of Chiefs of Police in cooperation with the FBI. Data collected by BCS are transmitted monthly to the FBI for inclusion in the national program.

Although there is a common data base for both *Crime in the United States and Crime and Delinquency in California*, there are some differences in the manner in which information is categorized and presented.

For example, in reporting accumulated data, national UCR figures differ from California by including all thefts in the crime index, while BCS reports only "theft over \$200" in the seven major offense total. This results in a California "seven major offense" total of 802,945 for 1974, and a UCR total of 1,427,007 crimes for California, a difference of 624,062 offenses. It should not be concluded that one reporting procedure is incorrect. California attempts to identify the more serious thefts, while the national UCR program deals with the total theft picture.

Crime rates are based on a count of the criminal acts which become known to the police and then reported to BCS. The annual data presented can only be as accurate as that reported by each participating law enforcement agency. The willingness of each agency to adhere to UCR definitions and properly report all offenses can affect the crime rates.

In 1973, BCS initiated training sessions for participating law enforcement agencies in an effort to upgrade and standardize UCR reporting. A pilot program to audit UCR reporting was also started. As a result, the quality of the UCR program in California has improved, though problems continue to be encountered. Changes in reporting procedures to conform to UCR definitions will have some effect on trends. Therefore, before concluding that individual crime classifications are on the increase, the total volume of crimes should be viewed along with significant fluctuations within a classification.

In this report, an effort has been made to utilize a format similar to that used in *Crime in the United States*. Hopefully, this will allow criminal justice planners and others to relate crime patterns in California to those on a national level and to crime patterns in other states which follow similar formats.

SEVEN MAJOR OFFENSES

Definition

BCS defines the seven major offenses as willful homicide, forcible rape, robbery, aggravated assault, burglary, theft over \$200, and motor vehicle theft. These offenses are further grouped into crimes against persons, (willful homicide, forcible rape, robbery, and aggravated assault) and crimes against property (burglary, theft over \$200, and motor vehicle theft). With the exception of willful homicide, attempts to commit each of these offenses are counted in their respective categories. An attempt to commit willful homicide is counted as an aggravated assault.

Data for the seven major offenses are collected in accordance with UCR program definitions. Because this is a national program designed for standardizing crime classification throughout the United States, there is some conflict between UCR offense definitions and the California Penal Code. The major differences are discussed under each individual offense.

Seven Major Offenses Reported

Table 1 lists the seven major offenses reported to BCS for the past six years. In 1974, these offenses totaled 802,945. Chart 1 shows these data as percentages of crimes against persons and crimes against property. Crimes against persons made up 15.9 percent of the total, with aggravated assault being the most frequently reported offense in this category. Crimes against property accounted for 84.1 percent of the seven major offenses. Burglary comprised the largest portion of the crimes against property category.

Trend

The period between 1969 and 1974 reflected a total volume increase of 32.8 percent, as shown in Table 1. Crimes against persons showed an increase of 42.9 percent, while crimes against property increased 31.1 percent over the same five-year period. The largest single-year increase in the seven major offenses occurred from 1970 to 1971, with 9.5 percent. There were slight increases from 1971 to 1972 and again in 1972 to 1973 with 1.3 and 2.2 percent respectively. These offenses rose sharply by 8.5 percent from 1973 to 1974, the second highest increase during the five-year period.

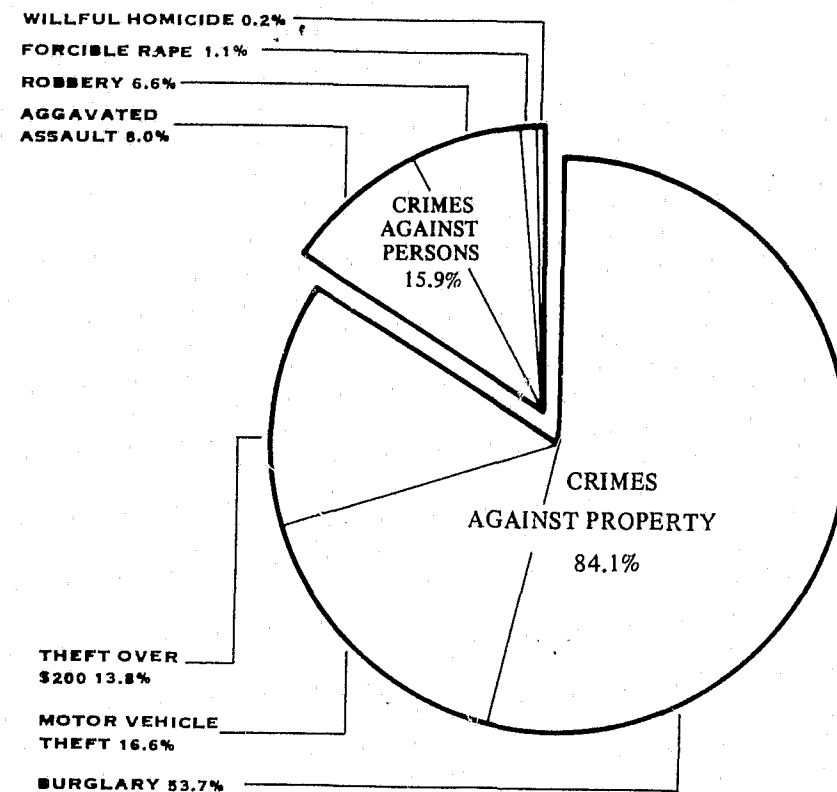

Rate Per 100,000 Population

The 1974 crime rate per 100,000 general population was 3835.8 (Table 1). This was a 7.5 percent increase over the 1973 rate and a 26.0 percent increase since 1969.

TABLE 1
CRIMES REPORTED, 1969-1974
The Number of Seven Major Offenses and Rate per 100,000 Population

Year	Total	Crimes against persons					Crimes against property			
		Total	Willful homicide	Forcible rape	Robbery	Aggravated assault	Total	Burglary	Theft over \$200	Motor vehicle theft

CHART 1
PERCENT BREAKDOWN OF SEVEN MAJOR OFFENSES REPORTED IN 1974

Clearances

According to UCR definition, a clearance occurs in one of two ways. If a person known to have committed an offense is subsequently arrested and turned over for prosecution or cited to juvenile hall, the offense is cleared by arrest. Exceptional clearances occur when the offender is positively known to the police, even though an arrest is not possible. Examples of exceptional clearances include the suicide of the offender, double murders, and deathbed confessions. The arrest of several persons may clear one offense and, conversely, the arrest of one individual may clear several offenses.

There is a certain amount of controversy concerning the usefulness of statewide clearance rates. It is generally recognized that the clearance of an offense, in large part, is subject to agency policies and procedures. For example, an agency may clear a number of burglaries solely on the basis of similarity in method of operation (MO) to those known to have been perpetrated by an apprehended offender. One agency may have an aggressive policy for clearing outstanding offenses committed by a particular offender, while other agencies will make little or no effort. Because of these and other factors which could cause great disparity in reported clearances, caution must be exercised in interpreting these data.

Value of Stolen Property

In the section describing each of the crimes against property, data on the value of stolen property are provided. To determine these values for stolen property according to UCR instructions, the fair present market value should be used with replacement costs by victims' evaluations acceptable in certain circumstances. However, participating agencies may employ various techniques in determining these values. For this reason, property value statistics represent at best gross estimates.

Nature of Seven Major Offenses

The nature of each of the seven major offenses is discussed in the following section. Table 2 shows that during 1974, California residents had, on the average, one chance in 36 or a 3.8 percent probability of being a victim of one of the seven major offenses. This could have been any crime ranging from motor vehicle theft to homicide. Property crimes were the most likely to occur with one chance in 31 or 3.2 percent probability, while there was a 0.6 percent chance of being a victim of a crime against persons. These estimates are based on a total population of 20,933,000 and do not take into consideration age, sex, race, or location. Table 2 further compares victim potential for each of the seven major offenses for the years 1969 and 1974.

Selected Counties

Program Table 20 lists the twenty-one counties in California which have a population over 200,000. The seven major offenses reported by these counties in 1974 comprised 93.4 percent, or 750,138 offenses. Los Angeles County reported 317,765 or 39.6 percent of the total seven major offenses. Orange County was second with 54,758 and Alameda County was third with 51,101 reported offenses.

TABLE 2
VICTIM POTENTIAL
FOR THE SEVEN MAJOR OFFENSES, 1974
(Data Shown in Percents)

Offense	Victim potential		Percent change
	1974	1969	
Crimes against persons	.61	.46	32.6
Crimes against property	3.23	2.66	21.4
Willful homicide	.009	.007	28.6
Forcible rape	.04	.04	0.0
Robbery	.25	.20	25.0
Aggravated assault	.31	.21	47.6
Burglary	2.06	1.66	24.1
Theft over \$200	.53	.32	65.6
Motor vehicle theft	.64	.68	-5.9

San Francisco County showed the largest rate per 100,000 population, 5453.6. The second greatest rate was Alameda County with 4658.7 and third was Fresno County with a rate of 4605.1. Kern County experienced the largest rate increase from 1973 to 1974 with 26.9 percent. San Francisco County registered the largest decrease in rate from 1973 to 1974 of 4.2 percent.

Willful Homicide

Definition

By UCR definition, willful homicide is the willful (non-negligent) killing of one human being by another. As a general rule, any death due to a fight, argument, quarrel, assault, or commission of a crime is counted as a willful homicide. Suicides, accidental deaths, assaults to murder, and attempted murders are not counted as willful homicides. Certain willful homicides are classified as justifiable or excusable. By UCR definition, justifiable homicide is limited to either the killing of a felon by a peace officer in the line of duty, or the killing of a felon by a private citizen.

There were 1,970 willful homicides reported during 1974. These homicides represented 1.5 percent of the total crimes against persons and 0.2 percent of the total seven major offenses as shown in Chart 1.

Trend

From 1969 through 1974, willful homicides increased 43.2 percent with the largest increase (20.5 percent) occurring from 1970 to 1971. A somewhat smaller increase, 5.8 percent, was exhibited from 1973 to 1974.

Rate Per 100,000 Population

As shown in Table 1, the homicide rate was 9.4 per 100,000 population in 1974 compared to 9.0 in 1973. This represented a 4.8 percent rate increase from 1973 to 1974.

Nature of Willful Homicide

In over one-half of the willful homicides reported in 1974, the victim was either a friend or relative of the offender and the homicide usually occurred in either the residence of the victim or the offender. Approximately 50 percent of the willful homicides involved firearms and the victim was at least partially under the influence of alcohol or drugs. Of the total homicides, approximately 25 percent were precipitated by the commission of a crime such as a robbery, rape, burglary, or kidnapping (data not shown).

Clearances

California law enforcement agencies cleared 1,484 homicides in 1974 for a clearance rate of 75.3 percent (Table 3).

TABLE 3
WILLFUL HOMICIDE CRIMES REPORTED, 1969-1974
Year by Number and Clearance Rate

Year	Total	Number cleared	Clearance rate
1974	1,970	1,484	75.3
1973	1,862	1,401	75.2
1972	1,789	1,309	73.2
1971	1,633	1,297	79.4
1970	1,355	1,061	78.3
1969	1,376	1,037	75.4

Selected Counties

Willful homicides reported by the 21 largest counties listed in Program Table 20 comprised 93.6 percent of the state total, with 1,843 of the 1,970 reported in 1974.

Los Angeles County reported 890 or 45.2 percent of the total willful homicides reported in 1974. San Francisco County was second with 139 or 7.1 percent, and Alameda County was third with 129 or 6.5 percent.

The willful homicide rate per 100,000 population for the 21 counties showed San Francisco County with the highest rate, 20.5. The second greatest rate was Los Angeles County with 12.8, followed by Fresno County with a rate of 12.5 per 100,000 population.

Forcible Rape

Definition

UCR defines forcible rape as "the carnal knowledge of a female forcibly and against her will." One offense is counted for each person raped, or upon whom an assault to commit forcible rape has been made. Statutory rape and other sex offenses are not included. In general, offenses defined by California Penal Code, Section 261 (rape) are scored as a UCR forcible rape. Offenses charged under 288 P.C. (lewd and lascivious acts on a child) are not usually counted unless an actual rape has occurred.

Forcible Rapes Reported

There were 8,480 forcible rapes reported during 1974. This represented an increase of 1.6 percent over the 8,349 reported in 1973 (Table 1). Forcible rape represented 1.1 percent of the seven major offenses, and 6.7 percent of the number of crimes against persons reported in 1974.

Trend

As shown in Table 1, from 1969 through 1974 forcible rape increased 21.9 percent, with the greatest increase (11.7 percent) occurring from 1971 to 1972.

Rate Per 100,000 Population

The rate for forcible rapes was 40.5 per 100,000 population in 1974 and 40.3 in 1973. Forcible rapes exhibited the smallest rate increase of any of the seven major offenses from 1973 to 1974 with 0.6 percent. The greatest change in rate occurred from 1971 to 1972 with a 10.3 percent increase (Table 1).

Nature of Forcible Rape Offenses

According to the UCR definition for forcible rape cases, the element of force either actual or threatened must be present in order to have a forcible rape occur. Determining this element of force or threat of force, however, is frequently complicated by a prior relationship between victim and offender. In counting forcible rape, both assaults and attempts to rape are included. In 1974, 5,534 or 65.3 percent of all forcible rapes reported were actual rapes while the remaining 2,946 or 34.7 percent were assaults to rape (data not shown).

Clearances

Table 4 shows that a total of 3,873 forcible rape offenses were cleared by arrest giving a clearance rate of 45.7 percent.

TABLE 4
FORCEBLE RAPE CRIMES REPORTED, 1969-1974
Year by Number and Clearance Rate

Year	Total	Number cleared	Clearance rate
1974	8,480	3,873	45.7
1973	8,349	3,712	44.5
1972	8,131	3,426	42.1
1971	7,281	3,319	45.6
1970	6,992	3,120	44.6
1969	6,958	3,023	43.5

Selected Counties

The 21 counties listed in Program Table 20 comprised 94.3 percent of the state's total forcible rapes with 8,000 of the 8,480 reported in 1974.

In 1974, Los Angeles County had the largest number of reported forcible rapes, 3,794 or 44.7 percent. Orange County was second with 498 or 5.9 percent, and Alameda County was third with 489 or 5.8 percent.

The rate per 100,000 population for the 21 counties showed San Francisco County leading with a rate of 64.2. Los Angeles County was second with 54.5, and Alameda County third with 44.6. Sonoma County showed the greatest rate decrease from 1973 to 1974 (24.0 percent). The greatest rate increase (70.2) occurred in Tulare County.

Robbery

Definition

Robbery is defined by UCR as the taking or attempting to take anything of value from the care, custody, or control of a person(s) by force or threat of force or violence and/or by putting the victim in fear. The UCR definition is similar to California Penal Code, Section 211. Not included are Penal Code, Sections 518 (extortion) and 487.2 (purse snatching).

Robberies Reported

During 1974, a total of 52,742 robberies were reported, representing a 6.5 percent increase over 1973 (Table 1). Robbery accounted for 6.6 percent of the total seven major offenses and 41.4 percent of the crimes against persons category.

Trend

Table 1 shows that from 1969 to 1974 robberies increased 34.5 percent. The highest yearly percentage increase occurred from 1970 to 1971 when a 14.7 percent increase was recorded. The second largest rise was the 6.5 percent increase from 1973 to 1974.

Rate Per 100,000 Population

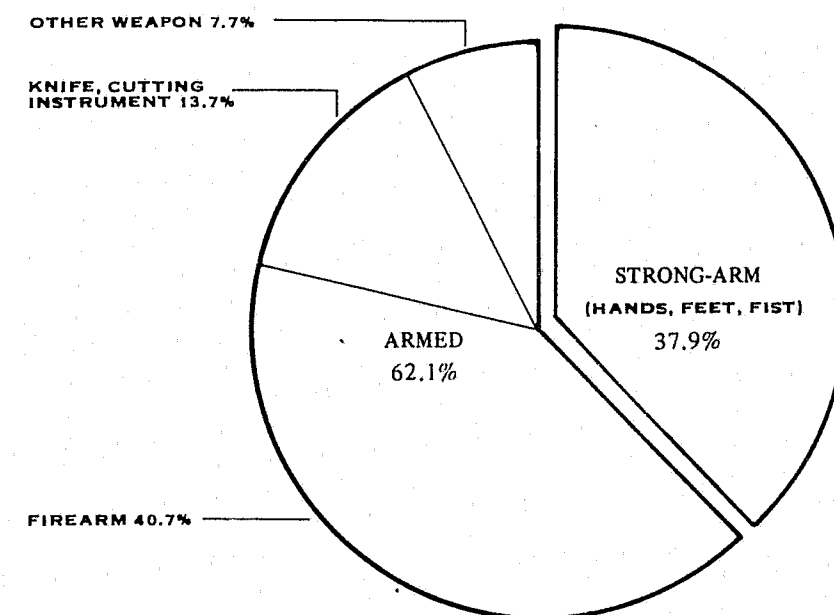

The rate per 100,000 population for robbery offenses in 1974 was 252.0. This represents a 5.5 percent increase over the 238.8 reported in 1973. The rate per 100,000 population has increased steadily from the 197.5 in 1969.

Nature of Robbery

For detailed analysis, robberies are divided into two major categories: armed, in which a weapon is involved and strong-arm, in which physical force is used to overcome the active resistance of a victim.

Armed robberies are further categorized by type of weapon used. In 1974, these categories ranked by order of frequency were: firearms, 21,492 (40.7 percent); knives or cutting instruments, 7,232 (13.7 percent); and other weapons, 4,035 (7.7 percent). These percentages are displayed graphically in Chart 2. Proportionally, armed robbery constituted the majority of all robberies with 62.1 percent. Strong-armed robberies accounted for 19,983 or 37.9 percent of the total.

CHART 2
PERCENT BREAKDOWN OF ROBBERY CRIMES REPORTED IN 1974
By Type of Weapon Used

Robbery data are also collected according to premise or location of occurrence. Table 5 shows that highway robbery (those occurring on highways, streets or alleys) continues to occur with the greatest frequency, comprising 45.8 percent of the total. Commercial robberies are next with 31.7 percent. These include robberies of commercial houses, gas stations, chainstores, and banks. Residential and miscellaneous robberies make up the remainder with 9.6 percent and 12.9 percent respectively.

Clearances

California law enforcement agencies were successful in clearing by arrest or exceptional means 15,581 robbery cases in 1974 for a clearance rate of 29.5 percent.

TABLE 6
ROBBERY CRIMES REPORTED, 1969-1974
Year by Loss Value and Clearance Rate

Year	Total	Loss value	Number cleared	Clearance rate
1974	52,742	14,741,493	15,581	29.5
1973	49,524	11,808,507	14,453	29.1
1972	48,834	11,504,880	13,992	28.6

1970	41,397	9,019,111	11,792	28.4
1969	39,051	8,063,837	11,077	28.3

Selected Counties

Robberies reported by the 21 counties listed in Program Table 20 comprised 97.3 percent of the state total with 51,330 offenses in 1974.

Of the statewide total, Los Angeles County reported 26,203 or 49.7 percent. San Francisco County reported 4,450 or 8.4 percent and Alameda County, 4,264 or 8.1 percent.

San Francisco County had the highest rate per 100,000 population with 655.2. Next was Alameda County with 388.7 and Los Angeles County with 376.4. The greatest rate increase from 1973 to 1974 was Ventura County with 45.1 percent, while the greatest decrease during this same period was seen in Marin County with 11.8 percent.

Aggravated Assault

Definition

Aggravated assault is defined under UCR as an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts to assault are included since it is not necessary that any injury result when the offender uses a firearm, knife, club, or some other weapon which could result in the death or serious injury of the victim if the assault were completed. Attempts to commit murder are counted as aggravated assaults. The term aggravated assault in general conforms to what would be regarded as felonious assault in California.

Aggravated Assaults Reported

During 1974, a total of 64,277 aggravated assaults were reported to California law enforcement agencies. This is an increase of 7,506 or 13.2 percent over 1973 (Table 1). Aggravated assault made up 8.0 percent of the total number of seven major offenses reported during 1974 and 50.4 percent of the total crimes against persons. Simple assault data are collected but are not included in the seven major offenses. There were an additional 75,605 non-aggravated or simple assaults, representing 54.0 percent of the total 139,882 assaults reported in 1974 (Table 7).

TABLE 7
ASSAULT CRIMES REPORTED, 1969-1974
Year by Weapon Used and Percent of Total

Year	Total	Aggravated assaults					Non-aggravated assaults

Trend

At the close of 1974, the volume of aggravated assaults increased 13.2 percent over 1973. The five-year increase for aggravated assaults was 54.3 percent.

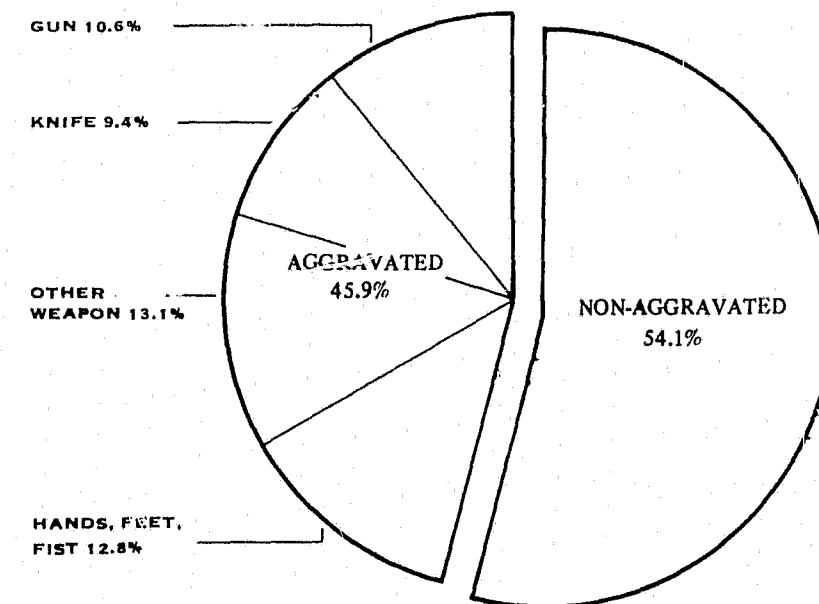

Rate Per 100,000 Population

The rate per 100,000 population for aggravated assaults in California was 307.1 in 1974 (Table 1). This represented a 12.2 percent increase over the rate of 273.7 in 1973.

Nature of Aggravated Assaults

During 1974, 46.0 percent of all assaults were aggravated. Of these aggravated assaults, 23.1 percent were committed with a firearm. A knife or other cutting instrument was used in 20.6 percent of the aggravated assaults and 28.3 percent were committed with a club or other dangerous weapon. The remainder were committed with hands, fists, or feet of the offender (Chart 3).

CHART 3
PERCENT BREAKDOWN OF ASSAULT CRIMES REPORTED IN 1974
Grouped as Aggravated and Non-Aggravated

Clearances

California law enforcement agencies were successful in clearing by arrest or exceptional means a total of 37,946 aggravated assault cases, for a clearance rate of 59.0 percent (Table 8).

TABLE 8
AGGRAVATED ASSAULT CRIMES REPORTED, 1969-1974
Year by Number and Clearance Rate

Year	Total	Number cleared	Clearance rate
1974	64,277	37,946	59.0
1973	56,771	33,558	59.1
1972	51,926	30,711	59.1
1971	48,098	29,965	62.3
1970	44,603	28,108	63.0
1969	41,645	29,036	69.7

Selected Counties

The 21 largest counties listed in Program Table 20 comprised 92.2 percent of the state total for aggravated assaults with 59,265 of the 64,277 reported in 1974.

Los Angeles County agencies reported 31,108 or 48.4 percent of the aggravated assaults. Alameda County was second with 3,492 or 5.4 percent, and Orange County was third with 2,913 or 4.5 percent.

Los Angeles County had the highest aggravated assault rate per 100,000 population with 446.9. San Francisco County was second with 398.3, while Riverside County was third with 341.2. Sacramento County reported the greatest rate increase in 1974 with a 40.3 percent rise over 1973. Two counties reported decreases from 1973 to 1974; Sonoma and Riverside with 21.7 and 10.8 percent respectively.

Burglary

Definition

Burglary, as defined by UCR, is "the unlawful entry or attempted forcible entry of any structure to commit a felony or theft."

Burglaries Reported

Although thefts from locked vehicles, telephone booths, or by shoplifting may be charged as burglary under California Penal Code, Section 459, they are not counted as burglaries by UCR definition. Thefts from a dwelling appurtenance such as a porch, however, are counted as UCR burglaries.

Burglary continues to be the most frequently reported offense, with 431,863 reported for the seven major offenses in 1974 as shown in Table 1. This offense accounted for 53.7 percent of the seven major offenses and 63.9 percent of the crimes against property. Burglaries increased by 24,488 or 6.0 percent from 1973 to 1974.

Trend

From 1969 to 1974, burglary incidents increased by 34.2 percent from 321,749 to 431,863. The 1974 rise of 6.0 percent in burglaries indicates an end to the leveling-off that was observed in 1972 and 1973 when burglaries increased only 1.9 and 2.2 percent respectively.

Rate Per 100,000 Population

The crime rate per 100,000 population for burglaries in 1974 was 2063.1. This represented a 5.0 percent rate increase from 1973 to 1974.

Nature of Burglaries

In 1974, forcible entry burglaries comprised 65.9 percent of the total, while 28.5 percent were unlawful entry (no force). The remaining 5.5 percent were attempted forcible entry burglaries. (See Table 9 and Chart 4.)

Table 10 shows that locations for two-thirds of the burglary offenses were residences and one-third were businesses or other structures. Residential burglaries were more frequent in daylight hours with 62.1 percent of those for which the time was known. Non-residential or commercial burglaries were more predominant during nighttime with 71.7 percent.

Residential burglaries increased 5.1 percent from 1973 to 1974 and 46.2 percent since 1969, while non-residential burglaries increased 7.8 percent and 16.0 percent respectively.

The reported dollar loss for all burglaries was \$172,409,404. The average loss per residential burglary was approximately \$420, while other types were about \$365 per incident (Table 11).

Clearances

In 1974, law enforcement agencies were successful in clearing by arrest or exceptional means 79,611 burglaries for a clearance rate of 18.4 percent.

TABLE 11
BURGLARY CRIMES REPORTED, 1969-1974
Year by Loss Value and Clearance Rate

Year	Total	Loss value	Number cleared	Clearance rate
1974	431,863	172,409,404	79,611	18.4
1973	407,375	140,265,109	76,088	18.7

1970	348,575	107,175,898	59,092	17.0
1969	321,749	89,646,820	53,507	16.6

Selected Counties

Burglaries reported by the 21 counties listed in Program Table 20 comprised 92.9 percent of the state total with 401,415 of the 431,863 reported in 1974.

Of total burglaries, Los Angeles County reported 156,521, or 36.2 percent; Orange County, 34,030 or 7.9 percent; and Alameda County, 28,984 or 6.7 percent.

The burglary rate per 100,000 population for the 21 counties showed Alameda County with the highest rate, 2642.4. Riverside County had the second highest rate, 2633.4, followed by Fresno County with a rate of 2529.2 per 100,000 population. Kern County reported the greatest rate increase in 1974 with a 29.3 percent rise over 1973. San Francisco County reported the greatest decrease, 7.7 percent over 1973.

Theft

Definition

For UCR purposes, theft is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. This includes any theft regardless of value, which is not part of a robbery, burglary, or motor vehicle theft. In counting the seven major offenses, BCS limits thefts to only those over \$200.

For both BCS and UCR purposes, theft does not include such offenses as embezzlement, fraudulent conversion of intrusted property, obtaining money by false pretenses, larceny by check, larceny by bailee, or check fraud.

Thefts Reported

Theft over \$200 represented 13.8 percent of the total seven major offenses in 1974, with 110,444 reported (Chart 1). However, by UCR definition which includes all thefts, 734,506 were reported during 1974 (Table 12).

TABLE 12

^aIncludes both felony and misdemeanor thefts.

Note: Percentages may not total 100.0 due to rounding.

Total UCR thefts during 1974 represented 51.5 percent of all index crimes reported for that year and are the most frequent crimes against property as grouped and reported within the UCR program. When compared with the offenses of burglary and motor vehicle theft, total thefts accounted for 56.5 percent of the total crimes against property.

Trend

Theft over \$200 increased 15.6 percent from 1969 to 1970. The rate of increase from 1970 to 1971 and from 1971 to 1972 fell to 4.6 percent and 0.4 percent respectively, suggesting that the rate was stabilizing. However, from 1972 to 1973 and from 1973 to 1974 theft over \$200 increased 12.8 percent and 29.9 percent respectively. During the five-year period, they increased 77.6 percent (Table 1).

Statewide UCR thefts followed the same general rate of increases and decreases as theft over \$200 from 1969 through 1974. As shown in Table 12, total thefts increased steadily from 629,329 in 1969 to 710,898 in 1971 and then decreased to 643,163 in 1973. By the end of 1974, total theft increased again to 734,506 or 14.2 percent.

Rate Per 100,000 Population

The 1974 rate per 100,000 population for theft over \$200 was 527.6. This rate reflected a 28.7 percent increase over the 410.1 per 100,000 population experienced in 1973 (Table 1).

Nature of Theft

UCR theft is divided by value into three general categories: (a) under \$50, (b) \$50-\$200, and (c) over \$200 (this third grouping is counted as one of the seven major offense groups by BCS definition). In 1974, theft under \$50 represented the most frequently reported offense with 52.7 percent. Next was theft of \$50 to \$200 with 32.2 percent and finally, theft over \$200 at 15.1 percent (data not shown). The rising cost of living has obviously impacted the theft over \$200 category by inflating retail items previously valued at less than \$200. In 1969, theft over \$200 represented 9.9 percent of total thefts reported, while from 1970 through 1972 it represented 10.5 percent, 10.6 percent, and 11.4 percent of the total. In 1973 and 1974, theft over \$200 represented a larger portion of the theft group with 13.2 percent and 15.0 percent.

Clearances

During 1974, there were 128,787 thefts cleared by arrest or exceptional means for a clearance rate of 17.5 percent as shown in Table 13. This represents a slight increase over the 15.8 percent clearance rate reported in 1973.

TABLE 13
THEFT OVER \$200 CRIMES REPORTED, 1969-1974
Year by Number and Clearance Rate

Year	Total	Number cleared ^a	Clearance rate
1974	110,444	-	-
1973	85,053	7,616	9.0
1972	75,418	-	-
1971	75,128	-	-
1970	71,838	-	-
1969	62,170	10,507	16.9

^aClearance data collected for total theft only in 1970-1972 and 1974.

Selected Counties

Theft over \$200 reported by the 21 counties listed in Program Table 20 comprised 90.9 percent of the state total with 100,378 of the 110,444 reported in 1974.

In total volume, Los Angeles County agencies reported 36,734 or 33.3 percent of the total. Orange County was second with 7,823 or 7.1 percent, and San Francisco County was third with 6,598 or 6.0 percent.

The rate per 100,000 population for theft over \$200 for the 21 counties showed San Francisco County to be leading with a rate of 971.4. The second highest rate was Fresno County with 749.7 followed by Sacramento County with 684.8. The greatest increase in rate occurred in Alameda County which reported an 80.8 percent rise from 1973 to 1974. (This rise probably was due to a change in policy for valuation of stolen property.)

Motor Vehicle Theft

Definition

Motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. Offenses under California Vehicle Code 10851 and Penal Code, Sections 487.3 and 499b are generally counted as UCR motor vehicle thefts.

Motor Vehicle Thefts Reported

A total of 133,169 motor vehicle thefts were reported by California law enforcement agencies during 1974. This represented an increase of 1,946 or 1.5 percent over 1973 (Table 1). Motor vehicle thefts made up 16.6 percent of the seven major offenses reported in 1974 and 19.7 percent of the crimes against property.

Trend

The number of motor vehicle thefts reported over the last six years has fluctuated considerably. From 1969 to 1971 the thefts increased each year by 4.7 and 4.6 percent respectively. In 1972, a decrease of 3.2 percent in motor vehicle thefts was reported and again in 1973 a 5.8 percent decrease was reported. The trend reversed in 1974 with a 1.5 percent increase. Over the five-year period since 1969, motor vehicle thefts have increased 1.3 percent.

Rate Per 100,000 Population

The rate of motor vehicle thefts in California during 1974 was 636.2 per 100,000 population compared to 632.7 in 1973.

Nature of Motor Vehicle Thefts

For purposes of analyzing motor vehicle thefts, data are collected by type of vehicle stolen. These are categorized as autos, trucks and buses, and other vehicles. Of the total motor vehicle thefts in 1974, 80.6 percent were autos, 7.8 percent trucks and buses, and 11.6 percent other vehicles. The average value of vehicles stolen in 1974 was \$833 (data not shown).

Clearances

A total of 22,431 motor vehicle thefts were cleared by arrest or exceptional means during 1974, for a clearance rate of 16.8 percent (Table 14).

TABLE 14
MOTOR VEHICLE CRIMES REPORTED, 1969-1974
Year by Loss Value and Clearance Rate

Year	Total	Loss value	Number cleared	Clearance rate
1974	133,169	110,936,858	22,431	16.8
1973	131,223	97,132,349	20,544	15.7
1972	139,373	90,519,253	18,637	13.4
1971	143,911	91,655,412	19,738	13.7
1970	137,629	87,332,816	18,245	13.3
1969	130,694	89,646,820	19,682	15.1

Selected Counties

As shown in Program Table 20, motor vehicle thefts reported by the 21 counties comprised 96.0 percent of the state total with 127,907 of the 133,169 reported in 1974.

Los Angeles County reported 62,515 or 46.9 percent of the state total; San Francisco, 8,487 or 6.4 percent; and San Diego County, 7,923 or 5.9 percent.

The motor vehicle theft rate per 100,000 population showed San Francisco County leading with a rate of 1249.6. The second highest rate was Los Angeles County with 898.0 followed by Fresno County with 804.0. Tulare County reported the greatest increase in rate with a 41.0 percent rise from 1973 to 1974. Sonoma County reported the greatest decrease in rate with an 18.8 percent decline from 1973 to 1974.

ARRESTS

Definition

An arrest is counted, for statistical purposes, whenever someone is either arrested or issued a citation for a bookable offense. Although an individual may be arrested for several offenses at one time, only the most serious charge is counted. Unlike crimes reported, arrest charges are determined only by California Penal Code definitions.

Data Collection

Arrests are reported to BCS by two methods. One is a summary system, with arrests grouped together into broad offense categories showing sex and police dispositions. The second method reports each individual arrest, which includes the name (for identification purposes only), race, date of birth, sex, date arrested, level of the arrest, charge, status (cite or book), and police disposition. BCS plans to have all California police agencies reporting arrests on an individual basis by 1976.

The individual arrest system, called the Monthly Arrest and Citation Register, was first started in 1971. The program has been expanded from a total of 98,000 arrests reported individually in 1971 to over 950,000 reported in 1974.

Volume

Arrests totaled 1,488,103 in 1974. Program Tables 22, 24, and 26 show these arrests divided into three categories: adult felony, adult misdemeanor, and juvenile.

The adult felony category, Program Table 22, totaled 267,904 or 18.0 percent of all arrests. The adult misdemeanor category, Program Table 24, comprised 812,067 or 54.6 percent of the total arrests.

Juvenile arrests, Program Table 26, are collected according to felony level, misdemeanor level, and delinquent tendencies. Total juvenile arrests (408,131) made up 27.4 percent of all arrests. Of the total juvenile arrests, 33.0 percent were felony level, 40.6 percent were misdemeanor level, and 26.4 percent were delinquent tendencies.

The remaining data in this section are referred to in Program Tables 22, 24, and 26. There were 2,441 persons arrested in 1974 for homicide. Adults accounted for 85.0 percent of the total with 2,075 arrests. There were almost five times as many adult males arrested for homicide as females

(1,726 to 349). Juveniles accounted for the remaining 15.0 percent of the arrests with a male to female ratio of 12 to 1.

A total of 3,463 persons were arrested for forcible rape offenses. Adults made up 78.1 percent of the arrests with a total of 2,705. Juveniles made up the remaining 21.9 percent with 758 arrests.

There were 22,493 persons arrested for robbery in 1974 of which 7,605 or 33.8 percent were juveniles. Arrests for robbery in 1974 exceeded those in 1973 by 8.4 percent. In 1973, the percentage of juveniles arrested for robbery was nearly the same as in 1974 with 34.0 percent.

In 1974, there were 38,611 persons arrested for aggravated assault. Adults accounted for 78.5 percent with 30,310 arrests. The arrest ratio for adult male to female arrests was about 7 to 1 (26,258 males and 4,052 females). Juveniles approximated the adult ratio with 6 to 1 (7,182 males and 1,119 females).

Arrests for burglary in 1974 totaled 85,039 of which 38,962 were adults (45.8 percent) and 46,077 were juveniles (54.2 percent). Burglary is one of three offenses where more juveniles were arrested than adults.

During 1974, there were 134,913 persons arrested for theft. This includes all persons arrested for thefts as defined by California Penal Code. The 1974 arrest total for theft represented a 51.2 percent increase over 1973. Juveniles accounted for 53.3 percent of the arrests for theft in 1974, while adults represented the remaining 46.5 percent.

Of the total 30,015 persons arrested for motor vehicle thefts, 14,719 or 49.0 percent were adults, 13,684 were males and 1,035 were females. Juveniles accounted for 15,296 or 51.0 percent of the arrests; 14,107 were males and 1,189 were females.

Trend

Program Table 21 shows total arrests in California from 1969 to 1974. The 1974 arrest total represented an increase of 7.6 percent from 1973 to 1974 and a 14.5 percent increase since 1969.

The 1974 adult felony arrest total of 267,904 represented an 11.9 percent increase from 1973 to 1974 and a 34.9 percent increase since 1969.

California law enforcement agencies reported 812,067 adult misdemeanor arrests in 1974, a 3.9 percent increase from 1973 to 1974 and a 14.8 percent increase since 1969. There were 408,131 juvenile arrests reported in 1974. This is a 12.6 percent increase over 1973, but only a 3.6 percent increase since 1969.

Rate Per 100,000 Population

The 1974 rate for adult felony arrests was 1279.8 per 100,000 population; the adult misdemeanor arrest rate was 3879.4; and the juvenile arrest rate was 1949.7 (Program Table 21).

Nature of Arrests

Program Table 22 lists adult felony arrests by selected offense groupings. The most frequent felony arrest for adults was for marijuana violations, which accounted for 66,641 or 24.9 percent of total felony arrests. Arrests for other drug law violations less marijuana accounted for 39,130 or 14.6 percent. There were 38,962 arrests for burglary accounting for 14.5 percent of the total felony arrests.

Adult misdemeanor arrests are displayed in Program Table 24. The greatest single category in 1974 was drunk driving with 268,244 of the total 812,067 misdemeanor arrests, or 33.0 percent. The second largest adult misdemeanor arrest offense was drunkenness, accounting for 206,658 or 25.4 percent of the total.

Juvenile arrests in 1974, Program Table 26, totaled 408,131. Felony level arrests totaled 33.0 percent of total juvenile arrests while misdemeanor and delinquent tendencies accounted for 40.6 and 26.4 percent, respectively.

Arrests for burglary were the most frequent of the juvenile felony arrests with 46,077 or 34.3 percent of the total. The next most common felony crime for which juveniles were arrested was marijuana, which accounted for 32,956 or 24.5 percent.

Petty theft accounted for 38.4 percent of the total juvenile misdemeanor arrests. The second highest of the identifiable offense groups (excluding all other) was malicious mischief which accounted for 10.7 percent of the juvenile misdemeanor total.

There were 107,898 juveniles arrested for delinquent tendencies in 1974. The most frequent arrest in this category was for runaway, accounting for 41.8 percent of the delinquent tendency arrests.

Characteristics of Persons Arrested

Tables 15 and 16 represent arrests reported in 1974 on the Monthly Arrest and Citation Register by age, sex, and race.

^aIncludes only thefts of \$200 or more.^bIncludes federal offenses, parole and probation violations, bench warrants, and outside felony warrants.^cIncludes failure to appear (traffic), probation violations, bench warrants, and outside misdemeanor warrants.

Arrests by Race

Table 15 shows arrests divided into four racial categories. Whites accounted for more than one-half of the total arrests, 50.7 percent of the felony, 57.8 percent of the misdemeanor, and 71.1 percent of the delinquent tendency arrests.

Whites were arrested with the greatest frequency in six of the ten felony categories. More Negroes were arrested for homicide, robbery, and rape; and more Mexican-Americans were arrested for the "other" felony category. It should be pointed out that Mexican nationals arrested for immigration violations were included.

Arrests by Age

Table 16 represents persons arrested during 1974 by age. Since ages 15 through 24 are the most crime prone years, each year is displayed separately. All other ages are grouped.

Persons aged 17 were the most frequently arrested and accounted for 5.4 percent of all arrests. This group was followed closely by the 16-year-old group with 5.3 percent. Combined, these two age groups accounted for 10.7 percent of all persons arrested in 1974.

Felony Arrests

Persons aged 17 were arrested most often for five of the ten felony offense categories accounting for 8.3 percent of the total. They were the most frequently arrested for the crimes of rape with 6.9 percent, robbery with 10.1 percent, aggravated assault with 6.4 percent, felony theft with 7.8 percent, and drug law violations with 9.4 percent (Table 16).

Those most frequently arrested for homicide were persons aged 19 with 6.8 percent of the total. They were followed by 18- and 20-year-olds with 6.6 and 6.5 percent respectively. Combined, 18 through 20-year-olds accounted for 19.9 percent of all persons arrested for willful homicide.

Burglary is an offense dominated by juveniles. Persons 16 years of age accounted for 10.9 percent of the arrests, and persons 15 and 17 years of age accounted for 10.3 and 9.5 percent respectively. These three age groups represented 30.7 percent of the total burglary arrests. The 16-year-old age group was also prominent in the motor vehicle theft category with 13.1 percent of the arrests. Again, the 15 and 17-year-old groups were next with 12.6 and 11.9 percent respectively.

Misdemeanor Arrests

Of total arrests for misdemeanor offenses, shown in Table 16, 21-year-olds were arrested most frequently (4.2 percent). Combining the five most frequently arrested individual age groups, persons 18 through 22 accounted for 20.3 percent of the total misdemeanor arrests. Arrests for drunk and drunk driving showed 21-year-olds to be arrested most frequently with 2.6 and 3.6 percent respectively. The 20 through 24-year-old group accounted for 17.0 percent of the drunk driving arrests.

Petty theft appears to be dominated by juveniles who accounted for 52.4 percent of the arrests in that category. Persons aged 13 through 17 represented 42.2 percent of all petty theft arrests.

Arrests for misdemeanor drug law violations were represented by the 17-year-olds in 8.6 percent of the arrests. Juveniles accounted for 25.7 percent of all drug law violation arrests.

The delinquent tendency category includes juveniles detained for curfew, runaway, and incorrigible. Of the single year categories, 16-year-olds were most frequently arrested, representing 24.0 percent of the total.

Selected Counties

Geographically the greatest volume of adult felony arrests occurred in Los Angeles County with 112,876 or 42.1 percent, next was Orange County with 20,581 or 7.7 percent, and San Diego County was third with 19,908 or 7.4 percent (Program Table 23). The adult felony arrest rate per 100,000 population was highest in Los Angeles County with 1621.5. The second highest rate was San Francisco County with 1584.8 and third was Alameda County with a rate of 1359.1.

The adult misdemeanor arrest data in Program Table 25 show Los Angeles County to have the greatest volume of arrests with 320,267 or 39.4 percent of the total. The highest rate per 100,000 population in this category was San Joaquin County with 6219.2.

Program Table 27 shows geographic data for juvenile arrests. Los Angeles County had 28.1 percent or 114,606 of the total juvenile arrests. Kern County had the highest rate per 100,000 population with 3897.1.

PRISONERS IN COUNTY AND CITY JAILS AND CAMPS

Each year on the fourth Thursday of September, the Bureau takes a count of prisoners in county and city jails and camps throughout the state. Since juvenile halls are usually maintained by county probation departments, the count does not include juvenile hall detention. Such data are maintained by BCS and are included in the annual reports produced by the probation component.

Volume

On September 26, 1974, there were 25,507 prisoners being held in county and city institutions, 20,955 in jails and 4,552 in camps (Table 17).

A total of 290 juveniles were also being held in county and city jails and camps. These were juveniles, who for one reason or another, were thought to be unsuited for juvenile hall. In the jails and camps, however, they are required by statute to be segregated from adult prisoners.

Los Angeles County accounted for 40.2 percent of all prisoners in 1974. Another 26.1 percent were being held in Alameda, Orange, Sacramento, San Diego, and San Francisco counties combined.

Trend

In 1974, the total count of prisoners was 13.4 percent higher than 1973, reversing a decreasing trend shown from 1970 to 1973.

As shown in Table 18 the percent of prisoners not yet sentenced by courts increased from 35.4 percent in 1969 to 48.2 percent in 1974 in areas of the state outside Los Angeles County. In Los Angeles County, the percent of prisoners not yet sentenced has fluctuated from year to year but does not appear to be growing.

The number of prisoners in Los Angeles County had declined steadily from 1969 through 1973. In 1974, however, the number increased 19.5 percent over 1973.

Highway Patrol	25	0	0	0	0	0	0	25	0
Sonoma	112	0	0	4	15	50	29	15	179

^aCities policed under contract are shown with the letter "C."

Includes remaining UCR data reported but not counted as a seven major offense, i.e., negligent manslaughter, non-aggravated assault and larceny-theft under \$200.00.

Data are reported by the Los Angeles Police Department.

^bBurglary offenses are under reported by 477 due to late adjustments.

The police department reports for both city and county.

Data received for only four months.

Note: Dash indicates data are unavailable.

These were used to compute all rates shown in this report.

GLOSSARY

ADULT: a person 18 years of age or older.

ARREST: "taking a person into custody, in a case and in the manner authorized by law. An arrest may be made by a peace officer or by a private person." (P.C. 834)

CIVIL COMMITMENT: type of court sentence in which criminal proceedings are suspended while a defendant undergoes treatment at the California Rehabilitation Center for Narcotic Addicts, with the Department of Mental Hygiene for mentally disordered sex offenders, or for persons declared insane who are undergoing psychiatric treatment.

CLEARANCE: an offense is cleared or "solved" for crime reporting purposes when at least one person is arrested, charged with the commission of the offense and turned over to the court for prosecution or cited to juvenile authorities. In certain situations a clearance may be counted by "exceptional" means when the police definitely know the identity of the offender, have enough information to support an arrest, and know the location of the offender but for some reason cannot take the offender into custody.

CRIME INDEX: an aggregate count of offenses reported to the national UCR program used as a measurement for the type and amount of crime being committed. The offenses counted include murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, theft, and motor vehicle theft. The UCR Crime Index differs from the Seven Major Offense Total used in California by inclusion of total theft rather than only thefts with a \$200 and over loss value.

CRIME RATE: method used to determine increases or decreases in the amount of crime based on the growth in population. The rate is based on the number of crimes per 100,000 general population.

CRIME: "an act committed or omitted in violation of a law forbidding or commanding it . . ." (P.C. 15)

DELINQUENT ACT: violation of laws by a juvenile under provisions of the Welfare and Institutions Code, Section 602.

DELINQUENT TENDENCIES: unreasonable or incorrigible behavior as described under Welfare and Institutions Code, Section 601. These are acts that if committed by an adult would not be considered a crime. Examples include runaway, truancy, incorrigible behavior, etc.

DISPOSITION: an action taken as the result of an arrest. As used in this publication, disposition refers to the police level only, not court dispositions. The police disposition includes the action taken by a prosecutor and accounts for a defendant's entry into lower or superior court, or the juvenile justice system. Examples of a police disposition are: released by law enforcement, referred to another jurisdiction, misdemeanor or felony complaint filed or referred to the probation department.

FELONY: "a crime which is punishable with death or by imprisonment in the state prison." (P.C. 17)

JAIL: a county or city facility for incarceration of sentenced or unsentenced persons.

JUVENILE: a person 17 years old or under.

MISDEMEANOR: a crime which is punishable by imprisonment in a county jail, a fine, or both. Under certain conditions defined by 17 P.C., a felony crime can be treated as a misdemeanor.

MONTHLY ARREST AND CITATION REGISTER: a reporting system used to collect information on all adult and juvenile arrests. The Arrest Register reports detailed data which identifies individual age, sex, and race characteristics and creates a link to subsequent court activity.

PRISON: a state facility where adults are confined following conviction of a felony offense.

SUMMARY SYSTEM: a method of collecting data based on gross counts in certain crime or arrest categories. All crimes and clearances are reported in a summary system. All arrests not reported on the Monthly Arrest and Citation Register are reported by summary means.

UNIFORM CRIME REPORTS (UCR): a program which provides a nationwide view of crime based on the voluntary submission of police statistics by law enforcement agencies throughout the country. The Bureau of Criminal Statistics administers the program for all California agencies.

CRIME LEVEL

SEVEN MAJOR OFFENSES:^a offenses most likely to be reported to the police by the public. These offenses are: willful homicide, forcible rape, robbery, aggravated assault, burglary, theft over \$200, and motor vehicle theft.

Crimes Against Persons

Willful homicide - the willful (non-negligent) killing of one human being by another. (Includes murder and non-negligent manslaughter.)

Forcible rape - carnal knowledge of a female forcibly and against her will. (Includes attempts to commit forcible rape.)

Robbery - the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force of violence and/or putting the victim in fear.

Aggravated assault - an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

Crimes Against Property

Burglary - the unlawful entry of a structure to commit a felony or theft. (Includes attempted forcible entry.)

Theft Over \$200 - the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another with a value of \$200 or more. (Except embezzlement, fraud, forgery, worthless checks.)

Motor Vehicle Theft - the theft or attempted theft of a motor vehicle.

ARREST LEVEL

(Penal Code Sections unless indicated otherwise)

Homicide -	187, 192 (except vehicular manslaughter)
Manslaughter, Vehicle -	192.3a
Forcible Rape -	261(1), 261(2), 261(3), 261(4), 261(5), 220/261, 664/261
Robbery -	211, 200/211, 664/211
Assault -	69, 71, 148.1, 148.4(2), 149, 664/187, 203, 216, 217, 218, 219.2, 221, 222, 241, 243, 244, 245a, 245b, 246, 247, 273a, 347, 375.4, 401, 405a, 588a, 4500, 4501, 4501.5, 12303, 12304, 12308, 12309, 12310, 12352 HS, 12354 HS, 23110b VC
Burglary -	459, 664/459, 464
Theft -	72, 115, 134, 182.4, 424, 474, 481, 484b, 485, 487, 487.1, 487.2, 487.3, 664/487, 495, 496, 496a, 502.7e, 503, 504a, 506, 508, 530, 532, 538, 543, 556 IC, 666, 667, 1733 IC, 3020a IC, 10855 VC, 11022 BP, 11483(2) WI, 25541 CC, 17410 WI
Motor Vehicle Theft -	487.3, 664/487.3, 499d, 10851 VC, 664/10851 VC

^aDefinitions of specific offenses are taken from the Uniform Crime Reporting Handbook, published by the FBI.

Forgery, Checks, Credit Cards -
