## INTRODUCTION

The purpose of this compendium is to provide the reader with an overview of LEAA funded projects during the past few years within Dade County, Florida. The information is presented concisely, with the most current address and phone number listed if additional data is sought. The format is looseleaf to provide for additions and deletions as necessary. The basic outline is by major functional category: Adult Corrections, Courts, Juvenile Delinquency, Police, and Systems-Wide. Within each of these areas, grants are listed in chronological order.

Following is a sample information page to aid you as you peruse the book.

## SAMPLE INFORMATION PAGE

Grant Title:

This will indicate the awarded title as well as any commonly used short title or acronym.

Grant Number and LEAA Funding:

FY: This is the fiscal year(s) for which funding was awarded.

Grant Number:

For future inquiries, refer to this number authorized by the State Planning Agency. Some grants for the FY 1976 will only reflect a Pending Number, or To Be Announced annotation.

LEAA Action/Discretionary Funds:

This indicates the LEAA source of funding - either Action (formula money based on crime and population statistics) or Discretionary (funds received from Atlanta and/or Washington based on competition). Match money in the earlier years was a combination of in-kind and cash contributions. Since 1974 only cash match has been required by LEAA guidelines. Therefore, since the local match has varied as widely as a high of 100% of the LEAA amount to the minimum required, this information was not deemed necessary for inclusion since the LEAA amounts were the most central to this report.

Project Information:

This section includes the project director who was in charge when the program was operational - and the most current address and phone number of the implementing agency in order that inquiries may be directed to the proper office.

Subgrantee:

The agency listed here is the contracting agency with the State. It is usually a local unit of government, and is responsible for: administering the conditions of the contract, formulating fiscal and programmatic reporting, having fiscal control and fund accounting procedures which assure proper disbursement of and accounting for, grant funds and required non-federal expenditures.

Implementing Agency:

The agency listed here has the responsibility for the day-to-day operation and supervision of the program.

Summary:

The abstract is intended to outline the purposes and achievements of the grant(s). For detailed information, please contact the implementing agency or the Criminal Justice Planning Unit.

ADULT CORRECTIONS

ADULT CORRECTIONS

GRANT TITLE: Project to Reduce the Recidivism of Chronic Drunkenness Offenders

GRANT NUMBER AND LEAA FUNDING:

FY: 1971  
Grant Number: 71-08-70  
LEAA Action Funds: \$7,440

PROJECT INFORMATION:

Dr. Harold C. Peters  
Miami Outpatient Clinic  
Bureau of Alcoholic Rehabilitation  
Post Office Box 1147  
Avon Park, Florida 33825

633-2515

SUBGRANTEE: State of Florida

IMPLEMENTING AGENCY: Bureau of Alcoholic Rehabilitation

SUMMARY: The program was centered at the Bureau of Alcoholic Rehabilitation outpatient clinic located in Miami. The project used all of the physical facilities of the clinic, as well as the professional and clerical staff as needed. A primary objective was to get the patient into a more healthful and productive environment than he occupied previous to his treatment. Various supportive therapy modalities were used to accomplish these goals. An alcoholism counselor and professionals from various disciplines provided the above treatment services.

ADULT CORRECTIONS

GRANT TITLE: Establishment of Two Vocational Training Schools for  
Female Inmates

GRANT NUMBER AND LEAA FUNDING:

FY: 1971  
Grant Number: 71-21-18  
LEAA Action Funds: \$22,300

PROJECT INFORMATION:

Dr. Janet McCardel  
Women's Detention Center  
1145 N. W. 11th Street  
Miami, Florida

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Corrections and Rehabilitation Department

SUMMARY: In an effort to convert the men's holding facility into a Women's Detention Center in 1972, new programs were designed to aid in the rehabilitation of incarcerated females. This grant established an industrial sewing school and cosmetology school.

ADULT CORRECTIONS

GRANT TITLE: Installation of Infirmary, Social Services Offices and Interview Rooms

GRANT NUMBER AND LEAA FUNDING:

FY: 1971  
Grant Number: 71-21-21  
LEAA Action Funds: \$11,875

PROJECT INFORMATION:

Dr. Janet Mc Cardel  
Women's Detention Center  
1145 N. W. 11th Street  
Miami, Florida

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Corrections and Rehabilitation Department

SUMMARY: The installation of an infirmary, social services office and interview rooms was necessary to improve the level of medical and social service extended to the incarcerated. The present jail facility was designed as a holding facility for men rather than rehabilitative center for females.

This project was needed so that at least a minimal physical examination would be conducted on women serving time in this facility. Further, special equipment and supplies were necessary for treatment of minor physical problems unique to females. One interesting feature was the inclusion of "barless" rooms for visits with the children of the inmates.

ADULT CORRECTIONS

GRANT TITLE: New Opportunity Home

GRANT NUMBER AND LEAA FUNDING:

FY: 1971  
Grant Number: 71-21-27  
LEAA Action Funds: \$80,000

PROJECT INFORMATION:

Mr. Donald Doyle  
Comprehensive Alcohol Program  
Reed Memorial Hospital  
7805 N. E. Miami Court  
Miami, Florida 33138

638-6470

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Department of Human Resources - Rehabilitative  
Services Division

SUMMARY: The New Opportunity Home was a half-way house with a client population of up to forty (40) persons. The purpose of this halfway house was to provide a suitable residence for indigent alcoholic clients, transitional clients awaiting alcohol treatment and a temporary residence for reformed alcoholics while they adjusted to their new situations. The New Opportunity home attempted to demonstrate that the reduction and ultimate elimination of public drunkenness recidivism is dependent upon the alcoholic making a successful transition back to his or her place in society.

ADULT CORRECTIONS

GRANT TITLE: Behavior and Attitude Modification in a Jail Setting

GRANT NUMBER AND LEAA FUNDING:

FY: 1971  
Grant Number: 71-DF-513  
LEAA Discretionary Funds: \$94,910

PROJECT INFORMATION:

Dr. Sanford Jacobson  
Forensic Unit  
Jackson Memorial Hospital  
Miami, Florida 33136

371-9611, ext. 6335

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Forensic Unit - Jackson Memorial Hospital

SUMMARY: The overall goals of this program were 1) to introduce a comprehensive program to change the attitudes and behavior of both inmates and officers in the Dade County Jail; and 2) to change the focus of the jail from disciplinary to rehabilitative. The specific objectives were: 1) to put into operation a simple workable classification system which will assist in referring the inmate to the particular rehabilitation program best suited to his needs; 2) to direct the operation of two correctional methods which relate to causative factors of the individual's criminal behavior; and 3) to train correctional officers in techniques of rehabilitation so that they might become more effective agents of change within the inmate group.

ADULT CORRECTIONS

GRANT TITLE: Dade County Detention and Treatment System - North  
Sub-Facility

GRANT NUMBER AND LEAA FUNDING:

FY:	1971	1972
Grant Number:	71-00-03	72-21-03
LEAA Action Funds:	\$500,000	\$589,387

PROJECT INFORMATION:

Mr. Alf Barth  
County Architect  
140 West Flagler Street  
12th Floor  
Miami, Florida 33130

579-4400

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Public Works Department

SUMMARY: The project plan was for the construction and the operation of a satellite facility to be built in North Dade County as a part of the overall Dade County Detention and Treatment System. The facility is located at State Road 9 and N. W. 158th Street and is the first of five (5) such facilities to be a part of the total comprehensive system which will provide confinement services for all law enforcement agencies as well as to the courts.

The facility incorporates many modern features of correctional procedures such as "lexan" windows instead of bars, common meeting areas, interior landscaped areas, and single cells.

ADULT CORRECTIONS

GRANT TITLE: Offender Manpower Data Study

GRANT NUMBER AND LEAA FUNDING:

FY: 1973  
Grant Number: 73-21-04  
LEAA Planning Funds: \$35,000

PROJECT INFORMATION:

Mr. Harvey Lincoln  
Manpower Planning Council  
140 West Flagler Street  
14 Floor  
Miami, Florida 33130

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Manpower Area Planning Council

SUMMARY: This study was designed: to develop base-line information about offenders and programs serving them; to establish procedures by which the base-line information can be updated; to provide a qualitative assessment of the impact of programs dealing with offenders; and to possibly explore the validity of commonly held assumptions about offenders.

The primary focus of the study was on the employment of offenders, histories, problems, etc., and was conducted through data compilation from existing files, employment history interviews, interviews with businessmen, public officials and program managers, and review of psychodiagnostic tests. The final report is available from the Criminal Justice Planning Unit.

ADULT CORRECTIONS

GRANT TITLE: Dade County Alcohol Detoxification Project

GRANT NUMBERS AND LEAA FUNDING:

	FY: 1971	1972	1973
Grant Numbers:	71-21-11	72-21-07	73-21-08
LEAA Action Funds:	\$37,803	\$49,538	\$50,000

PROJECT INFORMATION:

Mr. James Quigley  
Reed Memorial Hospital  
7805 N.E. Miami Court  
Miami, Florida

538-6490

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Comprehensive Alcohol Program -  
Department of Human Resources - Rehabilitative  
Services Division

SUMMARY: The project detoxified 200 persons during the course of the grant at the North Dade Medical Center. The program accepted as patients prisoners from the jail and other persons who probably would suffer uncontrolled withdrawal in the streets. Professional counseling was provided to motivate patients into an on-going, long-term recovery program. All clients were obliged to attend Alcoholics Anonymous meetings regularly, and participate faithfully in A.A. activities.

ADULT CORRECTIONS

GRANT TITLE: Ex-Offender Services Project

GRANT NUMBER AND LEAA FUNDING:

FY: 1973  
Grant Number: 73-21-09  
LEAA Action Funds: \$70,000

PROJECT INFORMATION:

Mr. James Love  
4901 N. W. 7th Avenue  
Miami, Florida

633-8569

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: James E. Scott Community Association

SUMMARY: This project provided housing, counseling, job referral and transportation in order to help the ex-offender make the transition back into society. One hundred residential clients and 257 non-residential clients received the benefits of this program. This project is now funded through Dade County's Comprehensive Offender Program.

ADULT CORRECTIONS

GRANT TITLE: Spectrum House

GRANT NUMBERS AND LEAA FUNDING:

	FY: 1970	1971	1972	1973
Grant Numbers:	70-08-05	71-08-05	72-21-06	73-21-10
LEAA Action Funds:	\$40,000	\$50,000	\$57,538	\$65,196

PROJECT INFORMATION:

Reverend Frederick C. Harrison  
1 N.W. 67th Street  
Miami, Florida 33150

754-1683

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Spectrum Programs, Inc.

SUMMARY: The core program provided a 24-hour per day, 7-day per week therapeutic community-type treatment for drug abusers. The therapeutic community was a highly structured group living situation, operated by rehabilitated and trained ex-addicts supervised by Spectrum's central professional staff. Their experience and training qualified them for the operation of this and other rehabilitative programs for the addict, as well as for the drug abuser. Spectrum's philosophy was that the addicted person's real problem is not drugs, but a more basic inability to face reality as a responsible person, and strived through a wide variety of both individual and group therapeutic techniques, in a drug-free environment, to eliminate the desire and need for drugs.

(Note: Spectrum received LEAA Grant 71-21-24 which provided for the purchase of kitchen equipment)

ADULT CORRECTIONS

GRANT TITLE: Ozanam Residence Program

GRANT NUMBERS AND LEAA FUNDING:

FY: 1973  
Grant Numbers: 73-21-30  
LEAA Action Funds: \$70,000

PROJECT INFORMATION:

Mr. Robert Preziosi  
40 S.E. 6th Street  
Miami, Florida 33131

371-1867

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Catholic Service Bureau

SUMMARY: This program serves as a half-way house for adult male ex-offenders. It allows the client an opportunity to reintegrate into the community and a chance to become a self-supporting contributing community member. The four stages through which an individual passes are:

- |                           |   |          |
|---------------------------|---|----------|
| 1) Intake and Orientation | } | 120 days |
| 2) Treatment              |   |          |
| 3) Community Re-Entry     |   |          |
| 4) Graduation             |   |          |

Counseling is done on an individual and group basis. Every opportunity is made available for the client to secure employment. Housing, lunches and transportation are provided. This project is now funded through Dade County's Comprehensive Offender Program.

ADULT CORRECTIONS

GRANT TITLE: Project Transition

GRANT NUMBER AND LEAA FUNDING:

FY: 1973  
Grant Number: 73-21-31  
LEAA Action Funds: \$15,000

PROJECT INFORMATION:

Ms. Virginia Essex  
1150 S. W. 22nd Street  
Miami, Florida 33129

854-3475

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Transition, Inc.

SUMMARY: This project recruited and trained volunteers to be matched with an incarcerated inmate on a one-to-one basis. Upon release, the individual would be able to cope with, and blend into, the mainstream of society. Overall, what was created was a feeling of friendship and understanding. Among the specific services provided were: finding temporary housing, securing meaningful employment and providing counseling services. This project is now funded through Dade County's Comprehensive Offender Program.

ADULT CORRECTIONS

GRANT TITLE: Pre-Sentence Investigation (PSI)

GRANT NUMBERS AND LEAA FUNDING:

FY: 1973  
Grant Numbers: 73-21-32  
LEAA Action Funds: \$20,000

PROJECT INFORMATION:

Dr. Michael Gruber  
140 West Flagler Street  
15th Floor  
Miami, Florida 33130

579-5621

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Program Analysis Division

SUMMARY: This project was a study of pre-sentence investigation procedures presently in use in the Dade County criminal justice system. The system was described, and individual cases of approximately 500 offenders were studied in some detail. Such parameters as length and thoroughness of investigation, type of material brought to the attention of sentencing judges, variations in type of sentencing and their apparent cause, and interaction of different criminal justice and corrections agencies in the pre-sentencing process were studied. Suggestions were offered for improving pre-sentencing investigations and bringing more sophisticated treatment-oriented information to the adult sentencing process. The final report is available from the Criminal Justice Planning Unit.

ADULT CORRECTIONS

GRANT TITLE: Programmed Vocations for Adult Probationers

GRANT NUMBER AND LEAA FUNDING:

FY: 1973  
Grant Number: 73-21-37  
LEAA Action Funds: \$14,728

PROJECT INFORMATION:

Mr. Ervie L. Wright  
6950 N. W. 41st Street  
Miami, Florida

592-5630

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Corrections and Rehabilitation Dept.

SUMMARY: The purpose of this project was to offer a sentencing alternative to the court that would be between total freedom and incarceration. The program's counselors provided the youthful probationer (18-24) with the training necessary to obtain a marketable skill. These young men were assisted in obtaining employment through a working relationship with local industrial firms. Classes in the following areas were taught: auto mechanics, typewriter repair, T.V. repair, landscaping, typing, cosmetology and industrial sewing.

ADULT CORRECTIONS

GRANT TITLE: Women In Crime

GRANT NUMBERS AND LEAA FUNDING:

FY: 1973  
Project Numbers: 73-21-39  
LEAA Action Funds: \$34,860

PROJECT INFORMATION:

Dr. Michael Gruber  
Human Resources Department  
140 West Flagler Street  
15th Floor  
Miami, Florida 33130

579-5416

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Program Analysis Division

SUMMARY: This grant supported a 12-month-long study of the involvement of women in crimes committed in Dade County. The study investigated the position of women as both perpetrators and victims, and concentrated its attention on crimes related to the particular social and class positions held by women in society, namely: rape, prostitution, and domestic assault and homicide. The study attempted to evaluate the operation of the Dade County criminal justice system regarding the use of data in assigning resources in the case of crime involving women. Special attention was given the role of the corrections system in handling female offenders. Reports being prepared include the commission of violent crimes by women inmates of the Women's Detention Center, prostitution, rape, and domestic violence.

ADULT CORRECTIONS

GRANT TITLE: Facilitating Overall Continuity of Unified Services for  
Alcoholics (FOCUS)

GRANT NUMBER AND LEAA FUNDING:

FY: 1973  
Grant Number: 73-21-41  
LEAA Action Funds: \$68,813

PROJECT INFORMATION:

Mr. James Quigley  
Reed Memorial Hospital  
7805 N. E. Miami Court  
Miami, Florida

638-6490

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Department of Human Resources - Rehabilitative  
Services Division

SUMMARY: This program's thrust was three-fold: it provided 120 psychological evaluations of alcoholics; it referred 161 clients to the "Uhuru" program - an outreach effort to aid the Black alcoholic; and employed a social worker to improve outreach services to alcoholics on Miami Beach.

ADULT CORRECTIONS

GRANT TITLE: Maintenance and Management of the Advanced Chronic  
Alcoholic

GRANT NUMBERS AND LEAA FUNDING:

FY: 1973  
Grant Numbers: 73-21-42  
LEAA Action Funds: \$60,000

PROJECT INFORMATION:

Mr. James Quigley  
Reed Memorial Hospital  
7805 N.E. Miami Court  
Miami, Florida 33138

638-6490

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Department of Human Resources - Rehabilitative  
Services Division

SUMMARY: A rural residential facility in South Dade County was provided for urban indigent alcoholics, over the age of 50, who had no employable skills or motivation to change their patterns of life. The voluntary clients were housed in dormitory fashion, provided with basic necessities, and were required to perform light labor in exchange for credits, under a token economy system. In this way, the anti-social behavior patterns and alcoholism were controlled.

ADULT CORRECTIONS

GRANT TITLE: Planning for Construction of the Women's Detention Center

GRANT NUMBERS AND LEAA FUNDING:

FY: 1973  
Grant Numbers: 73-21-45  
LEAA Action Funds: \$140,277

PROJECT INFORMATION:

Dr. Janet McCardel  
1145 N.W. 11th Street  
Miami, Florida

547-7742

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Corrections and Rehabilitation  
Department

SUMMARY: This was a one-year planning project with the purpose of designing a building and grounds conducive to the rehabilitation and treatment of the female offender. Besides the security factor, the plans provide for spaciousness and light, educational facilities, central air conditioning, medical facilities, and cottage-type housing. The building will be located near N.W. 7th Avenue and N.W. 14th Street.

ADULT CORRECTIONS

GRANT TITLE: Acquisition of a Work Release Home

GRANT NUMBER AND LEAA FUNDING:

FY: 1973  
Grant Number: 73-21-47  
LEAA Action Funds: \$97,880

PROJECT INFORMATION:

Dr. Janet McCardel  
1145 N. W. 11th Street  
Miami, Florida

547-7742

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Corrections and Rehabilitation  
Department

SUMMARY: The overall goal of this project was to obtain a home which will allow for a minimum of supervision and a maximum of self-government for women inmates, during the transition from incarceration to freedom. The concept provides for employment and education, the sharing of household duties, recreation therapy, group and individual therapy and child care seminars. The building known as Harbor House, is located at 7521 N. E. 3rd Avenue.

ADULT CORRECTIONS

GRANT TITLE: Training in Correctional Treatment Techniques

GRANT NUMBERS AND LEAA FUNDING:

FY: 1973  
Grant Numbers: 73-ED-99-0011  
LEAA Discretionary Funds: \$168,810

PROJECT INFORMATION:

Dr. Herbert Quay  
Department of Applied Social Services  
University of Miami  
P. O. Box 248974  
Miami, Florida

284-5208

SUBGRANTEE: University of Miami

IMPLEMENTING AGENCY: University of Miami

SUMMARY: The University of Miami conducted a training program in facilitative counseling, transactional analysis, and positive reinforcement for 90 correctional personnel. The program was designed to provide the knowledge and the skill for the student to return to his agency and plan, implement and maintain a treatment program using the three treatment modalities. Thirty received training in each of the particular modalities.

ADULT CORRECTIONS

GRANT TITLE: Corrections Planner/Systems Analyst

GRANT NUMBERS AND LEAA FUNDING:

FY: 1974  
Project Numbers: 74-AS-15-0033  
LEAA Action Funds: \$18,000

PROJECT INFORMATION:

Mr. Norman Kassoff  
Corrections and Rehabilitation Department  
1351 N.W. 12th Street  
8th Floor  
Miami, Florida 33125  
  
547-7385

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Corrections and Rehabilitation Department

SUMMARY: The Planner/Systems Analyst Project is designed to create a position in the Corrections and Rehabilitation Department, in an effort to coordinate the activities of this agency with other criminal justice agencies and with Central Data Processing. The Planner/Systems Analyst position will carry out the two main objectives of the project:

- a) To analyze, plan and improve intra-office systems within the Corrections and Rehabilitation Department; and
- b) To participate in inter-agency coordinating efforts to improve the local criminal justice system by interacting effectively with other local agencies.

Specifically, the program will concentrate its efforts on planning, information systems and inter-agency cooperation.

ADULT CORRECTIONS

GRANT TITLE: Residential Treatment for the Alcoholic/Faith House

GRANT NUMBERS AND LEAA FUNDING:

FY: 1974  
Grant Numbers: 74-AS-15-0040  
LEAA Action Funds: \$48,765

PROJECT INFORMATION:

Mr. James Ward  
Reed Hospital  
7805 N.E. Miami Court  
Miami, Florida  
  
638-6480

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Department of Human Resources - Rehabilitative  
Services Division

SUMMARY: This grant has established a residential treatment facility predominately for Black alcoholics who are employable but require supervision when not at work and a place to live where continuing treatment is available. It provides a halfway house located in the Black community which serves as the needed stepping-stone from which the individual may be gradually integrated back into his preferred community, and into the mainstream of society. The house is available to approximately 215 persons who enter the residential treatment system through normal channels and express a preference for treatment at a facility located in the Black community.

ADULT CORRECTIONS

GRANT TITLE: Riverside House Residential Facility for Probationers and Parolees

GRANT NUMBER AND LEAA FUNDING:

FY: 1974  
Grant Number: 74-AS-15-0044  
LEAA Action Funds: \$58,632

PROJECT INFORMATION:

Mr. James Wiegrefe  
Riverside Methodist Church  
985 N. W. First Street  
Miami, Florida 33125

545-8675

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Corrections and Rehabilitation  
Department

SUMMARY: The Riverside House was established to provide a community setting for selected offenders of the Dade County area. The offender residents are adult males at least 18 years of age. Maximum daily occupancy is twenty-six (26) individuals; the length of residence is determined by individual needs and statutory requirements. Residents are offered an opportunity to enroll in college courses at local state institutions or in a skills learning laboratory specializing in basic education. The main goal is to reduce the recidivism rate of these offenders. This will be accomplished through employment counseling and training, psychological counseling, and testing.

ADULT CORRECTIONS

GRANT TITLE: Offender Vocational Education Resource (OVER)

GRANT NUMBER AND LEAA FUNDING:

FY: 1974

IMPLEMENTING AGENCY: Rehabilitative Services Division  
Department of Human Resources

SUMMARY: This project provides an allowance for 21 ex-offenders in order to allow them to enter into a fifteen week vocational/educational training course. Eligibility is limited to ex-felony offenders who have completed their sentence or who are currently on probation. Upon completion of their training, the majority are placed in skilled jobs at higher salaries.

The trainee population will be initially identified by the CORP and TASC Programs (see pages 28 and 29). They will be enrolled in manpower training classes and the stipends they receive will be based on their attendance record.

SUMMARY: The Comprehensive Offender Rehabilitation Program is the administrative arm of the Dade County Division of Rehabilitative Services for community treatment and assistance to ex-offenders. The spectrum of activities administered by CORP includes the procurement of services for ex-offenders by entering into contractual agreements with community-based agencies. CORP periodically monitors and evaluates these agencies to assure the funding sources that the best efforts are being made to treat and assist the ex-offender. Such agency services include room and board, job placement, vocational and educational training, emergency supplies, and volunteer sponsorship.

SUMMARY: This proposal complements grant number 75-AS-15-D402, "Renovation of the Dade County Pre-Trial Detention Facility". Both are concerned with improving and modernizing the facilities at the Dade County Jail. In order to reduce overcrowding and tension, to increase the safety of both inmates and correctional personnel, and to improve sanitary conditions. These two grants propose to utilize the most recent developments and concepts in correctional facility architecture and design. One interesting facet of this proposal is that many of the construction workers hired will come from the ranks of the unemployed.

IMPLEMENTING AGENCY: Office of the Court Administrator

SUMMARY: The primary objective of the Pre-trial Intervention Project was to demonstrate that a coordinated system of pre-trial manpower services can be developed effectively within the criminal justice system to offer selected youthful offenders, arrested but not yet tried, an alternative to criminal prosecution.

The main goal achieved was: identification of 600 youthful first offenders, between the ages of 16 and 25, who qualified for project participation and the subsequent withholding of prosecution of their charges by the Office of the State Attorney while the defendants entered in a 90 to 180 day rehabilitative program.

During the intervention period, the participants received: psychological and aptitudinal evaluation and testing and counseling; employment and vocational training through placement in existing job-training programs and referral to placement agencies; educational services including preparation for the high school equivalency diploma examination, remedial reading, and job test preparation.

SUMMARY: The grant has a two-fold purpose. The first facet of this project, which involves the Crime Commission, will include volunteer aides to assist the State Attorney and Public Defender, the Parole and Probation Commission, and the Court Services Bureau of the Public Safety Department. Furthermore, these volunteers will assist individual citizens appearing in Court. Secondly, this project will enable the Public Safety Department, to utilize a computerized method of calling police officers and civilian prosecution witnesses to testify in cases on the day on which they are needed. This will avoid unnecessary court appearances which in the past have resulted in expenditures of over-time pay for officers, and have produced disillusioned witnesses.

IMPLEMENTING AGENCY: Office of the State Attorney

SUMMARY: This project has hired seven para-professionals to assist in the screening of complaints received by the State Attorney's Office. The para-professionals interview complainants, complete necessary forms, respond to telephone inquiries, prepare case files for further processing, provide follow-up for complaints referred to other agencies, and assume other screening functions. These people are retired lawyers, graduates of junior or senior college criminology programs, non-degreed experienced criminal justice system personnel and evening law students. The use of para-professionals eliminates the need for trial assistants being pressed into temporary service to take complaints. This improves the quality of the complaint-taking process and permits the trial assistants to devote full-time for preparation of their cases for trial.

SUMMARY: This project was designed to aid in the prevention of juvenile delinquency through the utilization of several techniques. Switchboard of Miami, Inc. provided hotline and related services on a twenty-four hours per day, seven days per week basis. Specific services provided were: crisis intervention, drug education, drug identification, drug rescue and first aid, talking down service for persons on "bad trips", rap service, legal aid, medical aid, jobs and housing for drug involved individuals, suicide intervention, sex and venereal disease information, and referrals to rehabilitation agencies. The staffing of this service was accomplished with the persons most aware of these problems - young people. This impelled them to deal with their own problems through dealing with the problems of others, and had them interact in constructive ways with the rest of society. Switchboard interacted with other agencies in the community and helped coordinate the efforts in the battle against juvenile delinquency.

IMPLEMENTING AGENCY: Catholic Service Bureau

SUMMARY: The Miami Bridge is a 24 hour, 7 day a week, crisis intervention center for runaways, vagrants, predelinquents, delinquents, and their families. This program provides short-term housing, physical care, and counseling for youth 10-17 years of age. Though the Bridge deals mainly with runaways and vagrants, it attempts to aid young people with whatever problems they may be experiencing. The Bridge serves over 300 youths during a twelve month period. The main goals are: to alleviate the immediate problems of runaway youth during the runaway episode; to reunite runaway youth with their families, if this is determined to be in the youth's best interests, and encouraging the resolution of intra-family problems; to help runaway youth decide upon a future course of action; and to encourage the de-criminalization of pre-delinquent youth and their diversion from the juvenile justice system.

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Department of Youth Services

SUMMARY: Alpha House is a residential treatment program for juveniles who manifest adjustment problems which, if not treated, could lead to seriously delinquent behavior. The treatment goals for these children are to enhance personal and familial stability, thereby reducing deviant behavior and diverting the child and the family from further involvement in the juvenile justice system. These children are usually referred to the project by the Dade County Juvenile Court, State Division of Youth Services, State Division of Family Services, and Dade County Department of Youth Services.

Included in the program are: twenty periods per week of remedial special education (Group Home boys attend regular public schools), one hour per week of individual psychotherapy, three hours per week of group psychotherapy and moral development dialogues, one hour per week of therapy with both the child and his family, and pre and post treatment evaluation.

SUMMARY: This project, funded in part by the National Council of Jewish Women, provides a housing alternative for ten children in each home who are released from institutions, or who are on probation. Specifically, this program deals with youth who have a non-stable home, no home at all, or parents unwilling to provide adequate care. After proper sites have been selected, and applicant parents have been trained, further services offered are:

- a) Providing regular supervision and counseling by youth counselors;
- b) Trying to get the child involved in school, church and community activities, and in interaction with peers within the group home; and
- c) Reducing the disfunctional behavior of the wards through realistic appraisal of the results of their activities and the development of socially acceptable behavior patterns so that they are able to avoid further contact with the law and correctional institutions.

SUMMARY: Most police administrators recognize that traditional testing procedures have not been notably successful in assuring the hiring of superior police officers. In fact, many recent court decisions have ruled present procedures culturally biased and inherently discriminatory. The goal of this project was to design, refine, and validate modern selection techniques which relate police employment standards to future job performance. To achieve this end, a concurrent validation of existing and experimental procedures was conducted. During the project, an occupational analysis identified key behavioral requirements for police officer success. This analysis was based upon a review of job descriptions, interviews with supervisors, and actual observation of on-the-job police performance. Two experimental methods tested were the weighted biographical data collection application and the Myers-Briggs Personality Indicator. Emphasis was given to the problems encountered by minority applicants.

IMPLEMENTING AGENCY: City of Miami Police Department

SUMMARY: This program was designed to develop, facilitate, and maintain lines of communication between police officers and the residents of selected target areas, particularly youthful residents. This dialogue was established in order to be conducive to the solution of action problems. The methodology of the program consisted of employing off-duty police officers who work their normal tour of duty within the selected areas. The officers chosen for this function received special training to insure expertise in the various facets of the program. The officers engaged in dialogue, attended community activities, and acted as resource personnel to advise residents of private or governmental services that are available to assist them in resolving problems.

1145 N. W. 11th Street  
Miami, Florida 33136

579-6571

SUBGRANTEE: City of Miami

IMPLEMENTING AGENCY: City of Miami Police Department

SUMMARY: This project was designed to create an investigative unit, dedicated to make a concerted effort toward individuals (fences) that make it possible for the burglar to dispose of the fruits of the crime. Team members included an attorney for legal advice and direction, an auditor to inspect the books of a business that was suspected of criminal activity, a systems analyst to coordinate line activities with computer operations and disseminate appropriate statistical data, and a stenographer to provide necessary clerical support. The City of Miami Police Department furnished eight investigators and a supervisor to concentrate on the identification of persons dealing in stolen property. Business, civic, and private groups were apprised of organized fencing activities and their impact on the community. Informants were developed along with other information sources in order to ferret out criminal activities. The primary aims of the project were to swiftly and accurately identify the persons responsible for the disposal of stolen property, and to successfully present cases in court.

SUMMARY: The essential rationale for the construction and establishment of a Criminal Justice Institute, was to provide a centralized educational/training facility for all levels of instruction consistent with the needs of the various elements within the criminal justice system.

The controlling design intent emphasizes campus/institute interaction and thereby encourages mutual student trainee and community involvement. By centralizing training and educational programs within the Institute, and placing the Institute on a community college campus, it is believed that the following objectives will have been achieved: comprehensive short and long term programming; uniformity of the training curriculum and better utilization of the tax dollar through non-duplication of facilities; and an instructional program which will be responsive to the needs of all segments of the criminal justice system and which will foster mutual understandings of the relationships among the various disciplines.

SUMMARY: The major objective of this project was to provide video tape and video instructional services, techniques and facilities to all the criminal justice agencies throughout Dade County.

The smaller municipalities of Dade County were unable to maintain a full-time training staff or program because of budgetary limitations. It is because of this fact, that the video tape training program was established.

Through the efforts of the traveling training officer and with the use of video tape and instruction, many police have received formalized training.

SUMMARY: Three 120 hour training sessions were scheduled with 25 individuals per session attending a participatory style course conducted by professional management trainers. The project was 16 weeks in length, broken down into three weeks of preparation, nine weeks of instruction and four weeks of evaluation and reporting.

The course content was formed into nine blocks, the first eight of which were a combination of 25% lecture and 75% participation. The goals of this portion would be to combine theory and application in a non-traditional approach. The remaining block was a one-week performance orientated training approach. The goal of this block was to identify and isolate current operational/administrative problems particular to the Miami Police Department. Participants in the workshop proposed practical solutions to specified problems, and developed the skills, ability and attitude to cope with problems encountered in their daily managerial roles.

SUMMARY: The principal objective of this project was to provide capabilities for rapid local identification of dangerous drugs and other physical evidence. The addition of these services provided a higher certainty of apprehension and more specificity in the identification of the criminal; materially assisted in speeding up the criminal justice process; and insured the use of positively identifying physical evidence.

Scientists with educational and/or experience background were attracted and trained into specific job assignments of the various counties (Dade, Broward, Monroe). An extensive training program in most of the styles of physical evidence was conducted. Physical facilities in the three counties were prepared to receive laboratory instruments, equipment and personnel.

SUMMARY: Dade County contains twenty-seven separate police jurisdictions within its boundaries ranging in size from the Dade County Public Safety Department to the two and three-person force of the smaller municipalities. Through projects funded by LEAA, a system of microwave transmitters and repeaters was installed to make radio communications viable and dependable in all parts of Dade County. This system has facilitated the use of hand radios in all police jurisdictions. Hand radios have been shown to improve the effectiveness and safety with which police officers discharge their duties. The Dade County Public Safety Department and the police departments of the large municipalities were already equipped with hand radios. This project enabled the smaller municipalities to acquire hand radios. The County provides maintenance, and all radios throughout the various jurisdictions are interchangeable.

SUBGRANTEE: City of Coral Gables

IMPLEMENTING AGENCY: City of Coral Gables Police Department

SUMMARY: This project was designed to accomplish the following primary goals: the reduction of juvenile delinquency through the application of improved policing techniques; the prevention of youth-community and youth-police conflicts at the junior high school, high school and college levels; the development of increased dialogue between the Coral Gables Police Department and the youth of the community, with participation by other concerned law enforcement and youth services agencies; and the prevention of youth-committed crimes through the development of increased involvement on the part of appropriate community service agencies.

Specific subgoals of the project were the improvement of methods to deal with youth drug abuse, juvenile street crimes, inter-race relations, youth dependency, and problems created by student unrest. The project resulted in the development of better communication between youth and law enforcement agencies and in the increased ability of the police to deal with youth problems, crime prevention, and the prevention of civil disorders.

SUMMARY: The hiring of minority group personnel has, in numerous instances, created problems where there had not been previous minority hirings. The objectives of this grant were: to determine what, if any, problems these personnel have encountered that are unique to minority officers both inside these agencies with other personnel as well as the general public; to determine what impact if any, their training provides to overcome these problems; and to develop, if needed, training programs to meet specific needs and their value.

To meet these objectives minority personnel from Florida and Georgia were selected, together with other members of their peer group, for analysis of their views, the views of their respective agencies, and clientele that they serve.

SUBGRANTEE: City of Coral Gables

IMPLEMENTING AGENCY: City of Coral Gables Police Department

SUMMARY: The City of Coral Gables Police Department expanded the Youth Resource Unit to include School Resource Officers in the elementary schools, as well as developing a youth oriented special "Educational Resource Team". This afforded the elementary school student, as well as the dysfunctional youth, the opportunity of being counselled by specially trained police officers. The Youth Resource Officers were able to identify and counsel dysfunctional youth, thereby preventing entry into the formal juvenile justice system.

The skills of these specially trained officers were utilized on a one-to-one basis, as well as in small group counselling sessions, to accomplish the following goals: identification of approximately fifty (50) dysfunctional juveniles; increased counselling by the assignment of dysfunctional juveniles to Youth Resource Officers; prevention of the number of dysfunctional juveniles entering the formal juvenile justice system by 25%; and fifty (50) dysfunctional juveniles were provided with counselling, job placement, recreational activities, and field trips.

IMPLEMENTING AGENCY: Public Safety Department

SUMMARY: This project was based on the premise that physical planning would reduce criminal opportunity. The objectives included the training of twelve members of the Public Safety Department as security/crime prevention experts so that they could implement programs in Dade County in the following areas:

- a. street lighting
- b. architectural consultation
- c. public information
- d. on-site security evaluations
- e. operation identification

The expected results of this project were a lowered crime rate, specifically burglaries, and an increased public awareness of security precautions.

SUMMARY: This project represented a request for LEAA funding for the purpose of upgrading the current state of the Miami Police Department's radio communications and providing for an expanding role for communications in police work.

Specifically the grant provided for the purchase of portable radios to provide an adequate supply for most emergency situations, while their increased flexibility reduced dead time inherent in mobile radios. Radio scrambling equipment was also purchased to thwart interception of radio transmissions on surveillance operations. In addition, technical personnel were provided to enhance service facilities, and to reduce down time and work loads.

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Public Safety Department

SUMMARY: It was the specific intent and objective of this program to modify the Dade County Admatch and DIME File and to develop aggregate software to implement an on-line geographic location system. Such a system in an on-line environment would allow operational analysis of police or crime activity on a shift basis and would, through the geocoding process, eliminate the need for the officer in the field to ascertain the grid location. Geocoding is a process of locating and identifying an address with respect to a selected level of geography on a grid. A given address, reported either from the field or encoded by a dispatcher, can be entered through the existing teleprocessing network, matched with the grid number, intersection location, and crime type, displayed for encoding to hard copy, and then saved from subsequent statistical aggregation.

IMPLEMENTING AGENCY: Public Safety Department

SUMMARY: The Property Accounting and Location System Project (PALS) was designed as an on-line computer system to provide property and evidence control information to insure 100% accountability of all items which the Public Safety Department has in its custody. (Items may be retained from one (1) day to fifteen (15) years.) The project provides a continuous chain of custody of evidentiary items necessary for court presentation, allows auditing of all items in custody, insures integrity, and provides proper final disposition of every item. Ability to check these items against stolen reports, and assistance to the State Attorney's Office and the courts is also provided. In addition, the accountability of this material involves the initial receiving, distribution, court issuance, return to owner, destruction of contraband, and auction.

IMPLEMENTING AGENCY: City of Miami Police Department

SUMMARY: The City of Miami Police Department has established a total concept in police organization and strategy for increasing the effectiveness of a police agency in dealing with a specific crime, the violent robbery. The original grant has, with significant, measurable results, surmounted the two obstacles prevalent in the traditional police approach to specific crime control: (1) by adopting an offensive, instead of defensive strategy to combat a specific crime; and (2) by overcoming the lack of accountability that results from dividing the role of handling a specific crime between the uniform officer and the follow-up investigator.

SUMMARY: This grant was designed as the second phase of a project to provide a psychiatric consultant to the Miami Police Department. This second phase had three goals: (1) to establish an operational Field Training Officer Program; (2) to design a suitable psychological screening instrument for use in the selection of recruit trainees, and/or for evaluation of new officers prior to completion of their probationary period; and (3) to establish a liaison between the Miami Police Department and the Psychiatric Institute at Jackson Memorial Hospital. Furthermore, the Psychiatric Consultant was to provide more direct input into the proposed operational training programs, and to assist in the design of a research project aimed at testing follow-up evaluation and validity by statistical parameters.

SUMMARY: The Miami Police Department has initiated an innovative approach by a municipal agency toward combatting organized crime through creation and deployment of the Organized Crime Fighting Team. It is not a single approach, but one that encompasses a variety of methods to control or reduce organized crime activities.

The Team is composed of an Accountant-Investigator, familiar with the principles and practices of accounting, for inquiry into the financial transactions necessary in many organized crime operations; and four Crime Analysts who coordinate and evaluate available information and maintain liaison with other law enforcement agencies.

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Public Safety Department

SUMMARY: Students completing this program of two weeks of classroom and one week of practical field training should be fully competent to cope with all of the basic phases of crime scene technology, which covers those skills needed to collect, identify, and preserve physical evidence for the court without loss, alteration or exclusion. Explosives technology, which will also be taught, will apply those skills developed in the first week to explosives and explosion incidents using protective measures and equipment to insure them safety as they learn the identification of bomb and explosive components.

Offered as a four credit college course in conjunction with the Miami-Dade Community College, students are provided with expert instruction in all major aspects of crime scene and explosive investigation in addition to being personally exposed to actual explosive scenes and live explosives.

LEAA Action Funds: \$76,883

PROJECT INFORMATION:

Mr. Al Kimbrough  
777 Sharazad Boulevard  
Opa Locka, Florida 33054

688-4611

SUBGRANTEE: City of Opa Locka

IMPLEMENTING AGENCY: Opa Locka Police Department

SUMMARY: The Neighborhood Anti-Crime Program has established an administrative mechanism designed to promote a meaningful dialogue between the two elements of a bi-racial city in an attempt to improve the police image and spur cooperation toward the achievement of common goals. The program includes a neighborhood support system to deal with juvenile delinquency, a crime prevention and public awareness program, agency referral service and the normal law enforcement service. Data collection is used to help identify problems to assist in the determination and placement of the services to be rendered. The officers employed have been trained in dealing with riot situations should they occur. The program's conceptual design entails fusing the role of the traditional foot patrolman with that of the social worker. This to be accomplished through the use of team policing, intensive training and improved community relations in an effort to prevent crime, juvenile delinquency, domestic and social disturbances and mistrust of Opa Locka policement.

547-7382

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Public Safety Department

SUMMARY: This project is to develop a program that will be utilizing manpower previously organized and trained under the Satellite Crime Laboratory Grant.

Specifically, it is the intent of this program to concentrate on the following areas of criminalistics:

Comparative Micrography  
Firearms Examination  
Document Examination  
Blood and Seminal Stain Examination  
Drug Identification  
Trace Evidence Examination  
Voice Identification

This program will also provide bulletins and hold seminars for the benefit of all municipal agencies concerning the utilization and the value of physical evidence in the criminal justice system. Since the laboratory supports all municipal agencies, this program coordinates case information data submitted by the various municipal agencies, particularly in reference to forgery, gun crime, comparative micrography and biological stain examinations.

IMPLEMENTING AGENCY: City of Miami Police Department

SUMMARY: This project is developing a "sensing mechanism" that is capable of assessing needs for police service and providing input process which can be utilized by the City of Miami Police Department's long-range problem solving and planning system, the Strategic Planning Executive Council (SPEC). This information can then be used in making operational decisions which lead to the implementation of programs for meeting community needs.

The project will also foster the design of an "evaluative sensing mechanism" which will provide the Department with community feedback on police programs. By developing and utilizing obtrusive and unobtrusive research techniques, the project will poll the public knowledge and acceptance of police sponsored programs.

POLICE

GRANT TITLE: Crime and Resource Allocation Mapping Systems (CRAMS)

P.O. Box 520614  
Miami, Florida 33152

579-6571

SUBGRANTEE: City of Miami

IMPLEMENTING AGENCY: City of Miami Police Department

SUMMARY: The CRAMS Project will be designed as an on-line application to assist the Department in one of the most difficult but productive tools of a law enforcement agency manpower allocation by determining the frequency and density of criminal events through the use of display terminals and computer generated printouts. Crime reductions should result from utilization of the CRAMS project. Activities directly associated, i.e., dispatch information, officer activity, and directed field activity will dictate the type of data that will be collected and assessed.

Individuals will have instant access to statistical data which can be utilized to achieve maximum efficiency in the deployment of available manpower at any given time.

By mapping the criminal events on computer generated facsimiles of reporting sectors, zones and areas, personnel can see at a glance activities as they are entered into the statistical data base reflecting changes of patterns warranting action or deployment of the policeman on the street.

579-6580

SUBGRANTEE: City of Miami

IMPLEMENTING AGENCY: City of Miami Police Department

SUMMARY: This grant provides a program structured to attract persons who meet all existing character and educational prerequisites for police recruitment but who may not meet the minimum age requirements. The purpose of this approach is to prepare these individuals for entry into full-time police work.

Specifically, this project provides a program that will permit the utilization of a previously untapped reservoir of manpower. Recruitment will be aimed at students currently enrolled in college, and at the Black and Spanish segments of the population. Criteria for selecting the Public Service Aide include personality and psychological testing in addition to existing guidelines set forth by the Florida Police Standards Board. The Aide will be educated to serve as a closely supervised police-apprentice performing those non-enforcement service tasks which currently consume a major portion of the full-time officer's tour of duty.

Concurrently, the Aides will be enrolled in college courses leading to an Associate Degree in law enforcement or a related field. All applicants attaining educational and training objectives, will be recruited into full-time law enforcement at age 21.

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Public Safety Department

SUMMARY: The Dade County Public Safety Department is currently operating six radio channels authorized by the Federal Communications Commission. The system is presently experiencing a critical overload problem due to the number of transmissions. In order to meet the increased communications demands, the Public Safety Department has, under the Regional Criminal Justice Communications guidelines, applied for additional radio frequencies. The redistribution of available radio frequencies by the Region will ultimately provide for twelve duplex radio channels for use by the Public Safety Department. This Frequency Reallocation Project is to provide for the full implementation of nine duplex radio channels. The new frequencies are not compatible with portions of the present channel allocation. This incompatibility requires the purchase of a significant number of new radio crystals, manpower for implementation scheduling, and man-hours for the change out process.

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Manager's Office

SUMMARY: The objective of this project was to identify the applicability of existing computer software to the needs and resources of the criminal justice system's computer centers in the Greater Miami area. An experienced systems analyst collected copies of programs and systems descriptions in use and under development in other jurisdictions throughout the United States. Consulting with computer managers in the community, he assessed the applicability of the new material to the criminal justice systems' computer hardware as well as to the applications contemplated by the changes in the criminal justice systems proposed by the planning agencies now developing proposals for the future. A series of recommendations was produced to guide the future coordination of computer systems developed for all criminal justice agencies in the community toward an integrated computer system. The project also tested small programs now under development to assure that they conform to the long range proposals resulting from this study.

GRANT TITLE: Master Plan for Criminal Justice Information System

GRANT NUMBERS AND LEAA FUNDING:

FY: 1973  
Grant Numbers: 73-21-03  
LEAA Planning Funds: \$65,000

PROJECT INFORMATION:

Mr. Boyd Arp  
County Manager's Office  
73 West Flagler Street  
9th Floor  
Miami, Florida 33130

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: County Manager's Office

SUMMARY: The Governor's Council on Criminal Justice completed a Master Plan for Criminal Justice Information Systems for the State of Florida. This plan required each county to develop its own Master Plan which could tie into that of the State, as well as a systems' capability to fit each county's needs. This grant supported preparation of the local plan, which encompassed all criminal justice components - police, courts, and corrections. Development of the plan proceeded in three phases: (1) organization of the study including recommendations from representatives of all "user" agencies; (2) analysis and design of system requirements; and (3) software and hardware evaluations including recommendations and priorities. This report is available at the Criminal Justice Planning Unit.

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: National Conference of Christians and Jews

SUMMARY: NCCJ planned a series of seminars, to be followed by a National Institute for a two-fold purpose: 1) to promote interprofessional approaches to the solution of improved administration of the criminal justice system; and 2) to enhance cooperation and communication between the police and the total community. Each seminar involved approximately 75 persons who were carefully selected to participate on the basis of their community contacts and leadership potential. The concept of multiplier-influence was utilized in the process of participant identification. The workshop method was employed in these community seminars to insure maximum participation by all those in attendance. Key resource persons were recruited for each separate seminar to provide expert input on the subject under discussion, but the emphasis was on the sharing of insights and ideas among the participants themselves.

At the conclusion of the series of Seminars, additional training workshops have been scheduled as needed to assist community organizations and the criminal justice system in (a) the formulation of action plans, and (b) the techniques of improving citizen involvement in the process of controlling crime and building effective police community relations.

SUBGRANTEE: Metropolitan Dade County

IMPLEMENTING AGENCY: Dade County Aid to Victims of Crimes Division

SUMMARY: This grant will continue to provide direct and referral services to people harmed by crimes of violence in an effort to reduce the physical and emotional damage resulting from crime.

The Advocates program operates 24 hours a day, seven days a week. The goals toward which this program is geared are: to assist 25 victims per month per Advocate by determining in each victimization the physical and emotional needs resulting from the crime and by providing the direct and referral services appropriate to meet those needs; to compile a complete, up-to-date and usable directory of the character eligibility criteria, and reliability of the services available in Dade County to victims of violent crime; to analyze the basic data collected on victim needs and the services provided to meet them and to transmit that information to the appropriate parties. The staff will analyze the base data collected on each victimization in order to identify the factors common to them and develop tentative "vulnerability profiles" which can be used by the counselors to reduce recurrent victimizations.
