INTRODUCTION

The 1975-76 Fiscal Year Statistical Summary is issued by the Los Angeles County Sheriff's Department as a means of evaluating the effectiveness of current procedures and as a reference for future development of the Department.

The following is a clarification of the terms utilized in the Summary:

Crime Rates

Crime Rates in this Summary are based on a population of 10,000 rather than 100,000 as in the State of California and Federal Bureau of Investigation reports. This makes the rates more significant in view of the population distribution in the various Station and Contract City areas. The Crime Rate is calculated as follows:

$$\frac{\text{Number of Crimes in Area "Y"}}{\text{Population in Area "Y"}} \times 10,000 = \text{Crime Rate}$$

Population

Population figures were obtained from the Los Angeles County Department of Regional Planning Quarterly Bulletin number 129, July 1, 1975.

Area

The area figures are based on figures provided by the Los Angeles County Engineering Department for January 1, 1976.

Comparisons

Factors contributing to crime are numerous and vary from place to place. Readers are cautioned against drawing conclusions from direct comparisons of crime figures between individual communities. In Los Angeles County, a jurisdiction in excess of seven million population, several factors affect the rate of crime. These factors include:

- Climate
- Multiple levels of economic status
- Population, both resident and transient
- Composition of the population in regard to age and sex
- Number of public educational, recreational, and religious facilities
- Public attitude toward law enforcement
- Number of police employees per unit of population
- Policies of the prosecuting officials and courts

In evaluating percent changes, consideration must be given to the dates during which the changes took place as well as to the actual number of crimes upon which the percentage is based.

Seven Major Offenses

The Seven Major Offenses are used by law enforcement agencies in the United States to reveal the extent and trend of criminal activity. Any significant change from the anticipated pattern of the figures alerts Law Enforcement Administrators to possible problem areas. The Seven Major Offenses are Wilful Homicide, Forcible Rape, Robbery, Aggravated Assault, Burglary, Grand Theft, and Grand Theft Auto.

The Sheriff's Department records the reports of the Seven Major Offenses and maintains statistical files with regard to violations, locations of occurrences, arrests by age and sex of the offenders, and by disposition of cases. Only the most serious classification is tabulated from reports with multiple classifications. If a suspect is charged with Burglary and Malicious Mischief, only the Burglary (the more serious crime) is included in the statistics. However, if several persons together commit one crime, each person is counted in "Adults Arrested"; only one crime is counted in "Cases Handled". Thus, statistics maintained by each of the Stations or Bureaus may differ from those recorded in this Summary. Similarly a single case handled may have multiple assignments with the result that cases assigned will total more than cases handled.

Percentage Comparisons

Whenever the availability of data permits, percentage changes are indicated. These percentages reflect increases or decreases in the total number of cases. It must be noted that these changes do not adequately reflect changes in manpower expended. It is in fact possible for a decrease in cases to represent an increase in man-hours expended due to a greater number of hours required for each case.

DETECTIVE DIVISION
HOMICIDE BUREAU

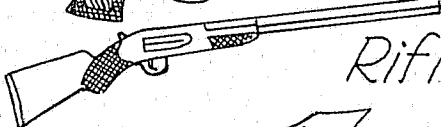

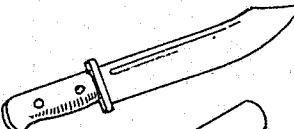

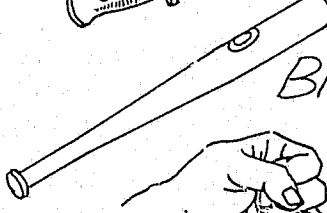

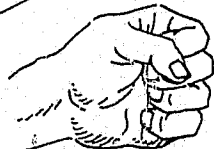

The Homicide Bureau is a specialized bureau employing unique investigative and evidence-handling expertise in such cases as homicides; accidental, narcotic overdose, suicide and other sudden and unexplained deaths; kidnapping where ransom, extortion or victim injuries exist; missing and unidentified adults, including missing juveniles where there is a suspicion of foul play; and gunshot injuries involving departmental personnel.

The Homicide Bureau also provides investigative expertise to independent cities, when requested, in homicides, other death investigations and in officer involved shooting incidents.

VEHICLE THEFT DETAIL

Vehicle Theft Detail investigates cases involving the identification of vehicles with altered or missing vehicle identification numbers (VIN)

Periodic inspections are conducted of garages, dismantlers, wrecking yards, motorcycle shops and rebuilt salvage vehicles, for violations of law.

The Detail investigates counterfeit registrations and titles, vehicle theft rings, cases involving multiple jurisdictions, and conspiracies.

Responsibilities are facilitated by various limited access files containing information identifying vehicles and suspects. Liaison is maintained with state and national vehicle theft investigative agencies and associations. This Detail applies its specialized technical knowledge to the investigation of organized commercial vehicle thefts, stolen or abandoned heavy duty commercial vehicles, construction equipment, motor homes and campers.

* The number of case assignments for Fiscal Year 1974-75 was disproportionately high when compared with recent years. However, the mean for the last five years shows this year's figures consistent with the overall trend. When case assignments are down, this logically brings about a similar decrease in other categories, i.e., dispositions and value of recovered property.

Personnel factors also had a tempering effect on cases initiated by the Vehicle Theft Detail, i.e., loss of experienced investigators (50% turnover in last fiscal year) - a. One investigator I.O.D. for five months; b. A vacancy created and left unfilled; c. Seven man-weeks expended in sending new men to Auto Theft Investigators' School; d. Restriction of overtime available.

MAJOR CRIMES BUREAU

STRATEGIC SUPPORT DETAIL

The Strategic Support Detail investigates cases such as illegal manufacture, sale, or possession of automatic weapons and explosives and also series or pattern crimes involving these items or terrorist groups. They provide Sheriff's Department personnel and other policing jurisdictions information and investigative assistance in these areas.

FORGERY AND FRAUD DETAIL

The Forgery-Fraud Detail is made up of three Units each of which is assigned separate responsibilities.

The Forgery Credit Card Unit investigates all worthless document cases which include forged checks, Warrants and other bank instruments, misuse of credit cards and forged prescriptions. Within this Unit, a three man team designated "Organized Forgery Team" concentrates on the cases wherein organized criminal activity is suspected.

The Fraud Unit investigates consumer bunco and business frauds and felony embezzlements by employees from employers. This includes investigations into real estate, insurance corporations, trade secrets, computers, stock swindles, commodities and every conceivable area of financial transactions.

The Central Check Index is responsible for collection, coordination and distribution of forged, account closed and non sufficient fund checks. Information received from all Sheriff's Stations and thirty-six other Los Angeles County police agencies is correlated, indexed and available for use by investigators.

ROBBERY DETAIL

The Robbery Detail focuses its investigative efforts on those robberies identified as fitting a pattern and series and on cases requiring specialized investigative techniques such as robberies of banks, finance or savings and loan companies, armored car or transports and on robberies involving hijackings. The Detail also gathers and provides information to station detectives and other policing agencies from their files on robbery suspects and methods of operation. Information is gathered from local, state and national files and from liaison contacts with various robbery investigation associations.

Case assignments to Robbery Detail have shown a slight decrease during this reporting period in spite of an overall increase in the number of robberies through the same period.

Frequently, the complexity of cases assigned to Robbery Detail consume many man-hours of investigation and extensive field operation in order to identify, apprehend and convict the criminal within the present judicial requirements. The number of assigned cases cannot reflect the Detail's productivity.

Valid criteria of productivity is indicated by 59% increase of Detail arrests and 34% increase of cases filed. These represent cases that are successfully closed through the investigative efforts of the Detail investigators.

Additionally, the Robbery Detail conducts virtually all line-ups within Los Angeles County. The workload connected with line-ups has increased 19% during this reporting period, substantially reducing available investigative man-hours.

MAJOR CRIMES BUREAU

BURGLARY DETAIL

The Burglary Detail investigates major known criminals and fur, jewel and skilled safe burglaries. They develop information, investigate and provide assistance to station detectives on crimes identified as fitting a series and pattern; often these crimes involve several station areas or policing jurisdictions. The Detail conducts surveillances of the activities of major known criminals and develops information and suspect and modus operandi files which also assist station detectives. They also develop additional crime information through liaison with various local, state and national burglary investigation agencies and associations.

The Burglary Detail, during this reporting period, has shifted its emphasis from investigating offenses to investigating known criminals. This, in part, explains the over-all downward percentage in case assignments.

It should be noted that assistance to other Details and Agencies has increased 25%. These increases reflect more time-consuming investigations which have resulted in a commensurate decrease in case assignments.

ARSON/EXPLOSIVES DETAIL

This Detail applies their special skills and knowledge to the investigation of disastrous fires and fires involving personal injury, more than \$100 damage or fires where arson or use of incendiary device is involved. In addition, trained technicians respond to reports of suspicious packages where explosives are suspected. The Detail also has a responsibility for removal and prevention of public hazard from explosives. This mission is accomplished through investigation and approval of permits to buy, sell, use, store or transport explosives and by safely storing or disposing of found, abandoned or surrendered explosives.

* Three bomb technicians and arson experts retired during fiscal 75-76. This necessitated extensive training of replacement items.

** The large increase in the number of arrests is attributable to juvenile offender arrests being reported and counted in fiscal 75-76. Juveniles represent responsibility for approximately 50% of all arson "set fires". In past years juvenile arrests were not included in either monthly or annual statistics giving an unrealistic picture of cases solved and cleared by apprehension of the perpetrator of the crime. This case/arrest clearance record is approximately 10 times above the national average.

SPECIAL UNITS DETAIL

The Detail consists of a series of specialized units providing investigative or information services to Sheriff's station detectives and to other policing jurisdictions. Jail Investigations Unit investigates crimes occurring in the Civic Center jail facilities. Juvenile and Motorcycle Gang Units develop information on gang activities and also investigate gang-related crimes. Pawnshop Unit inspects and develops information on pawnshops, second-hand stores, auctions and swapmeets. Identi-Kit interviews witnesses to identify suspects through the use of composites or photographs. The Sex Crimes Unit assists in investigation of sex offenses particularly those involving a series and pattern or multiple jurisdictions; they maintain files of sex offenses and methods of operation.

During fiscal year 1975-76, employee representative organizations made three hundred and three (303) contacts with the Employee Relations Sections of the Employee Relations Bureau. These communications were separate from the negotiating table and involved employee complaints and inquiries about this Department's policy and procedures.

Negotiating sessions have been regularly attended by section personnel as management representatives for twelve (12) of the twenty-four (24) bargaining units that affect the majority of Sheriff's Department employees. Continuous liaison was maintained with the County Department of Personnel for the remaining twelve (12) bargaining units.

Administration of each of the Memoranda of Understanding is coordinated by this section.

Fifty-five (55) formal grievances were processed during the fiscal year 1975-76.

A pilot grievance procedure for sworn personnel was evaluated this year in an effort to devise methods to improve the process.

Employee Relations Section staff participate, both as guest speakers and as students, at various employer-employee relations related training programs.

A two day symposium was organized and coordinated by this section and the Department of Personnel to provide each management employee of the Sheriff's Department an insight into current and projected employee relation trends and practices within the public sector.

A training session was also conducted by members of this section to update the fifty-four (54) Employee Relations Liaison Officers (EMLO) with the new and changed provisions of the numerous Memoranda of Understanding, and to provide information on the current trends in public employer-employee relations.

SPECIAL SERVICES DIVISION
CONTRACT LAW ENFORCEMENT BUREAU
FUNCTIONS

The Contract Law Enforcement Bureau is staffed by a Captain, a Lieutenant, two Sergeants, and a Deputy. The primary function of the Bureau is providing coordinative liaison between the Department's two Patrol Division headquarters, the Sheriff's Stations servicing Contract Cities, the Board of Supervisors, the Chief Administrative Office, and the Auditor-Controller's office. The Bureau also assists departmental managers with requests for formulation of contractual service feasibility studies.

This Bureau is responsible for:

- Periodic review and inspection of service levels provided to Contract Cities
- Problem-solving with regard to County/City Contract Law Enforcement service, which may include:
 - Tailoring programs for specific city needs
 - Conducting surveys and studies at the request of the Contract Cities
 - Assisting Station Commanders in respect to personal appearances at City Government meetings
 - Maintaining current records of contractual service personnel staffing, field unit deployment, and related cost factors
 - Acting as liaison between the Office of the County/City Coordinator (CAO) and the Contract Cities
 - Acting as Departmental coordinating unit with the Audit Division, Department of Auditor-Controller, in the determination of annual contract service unit charges.

The Bureau is a source of information and a knowledge bank for departmental managers in matters regarding:

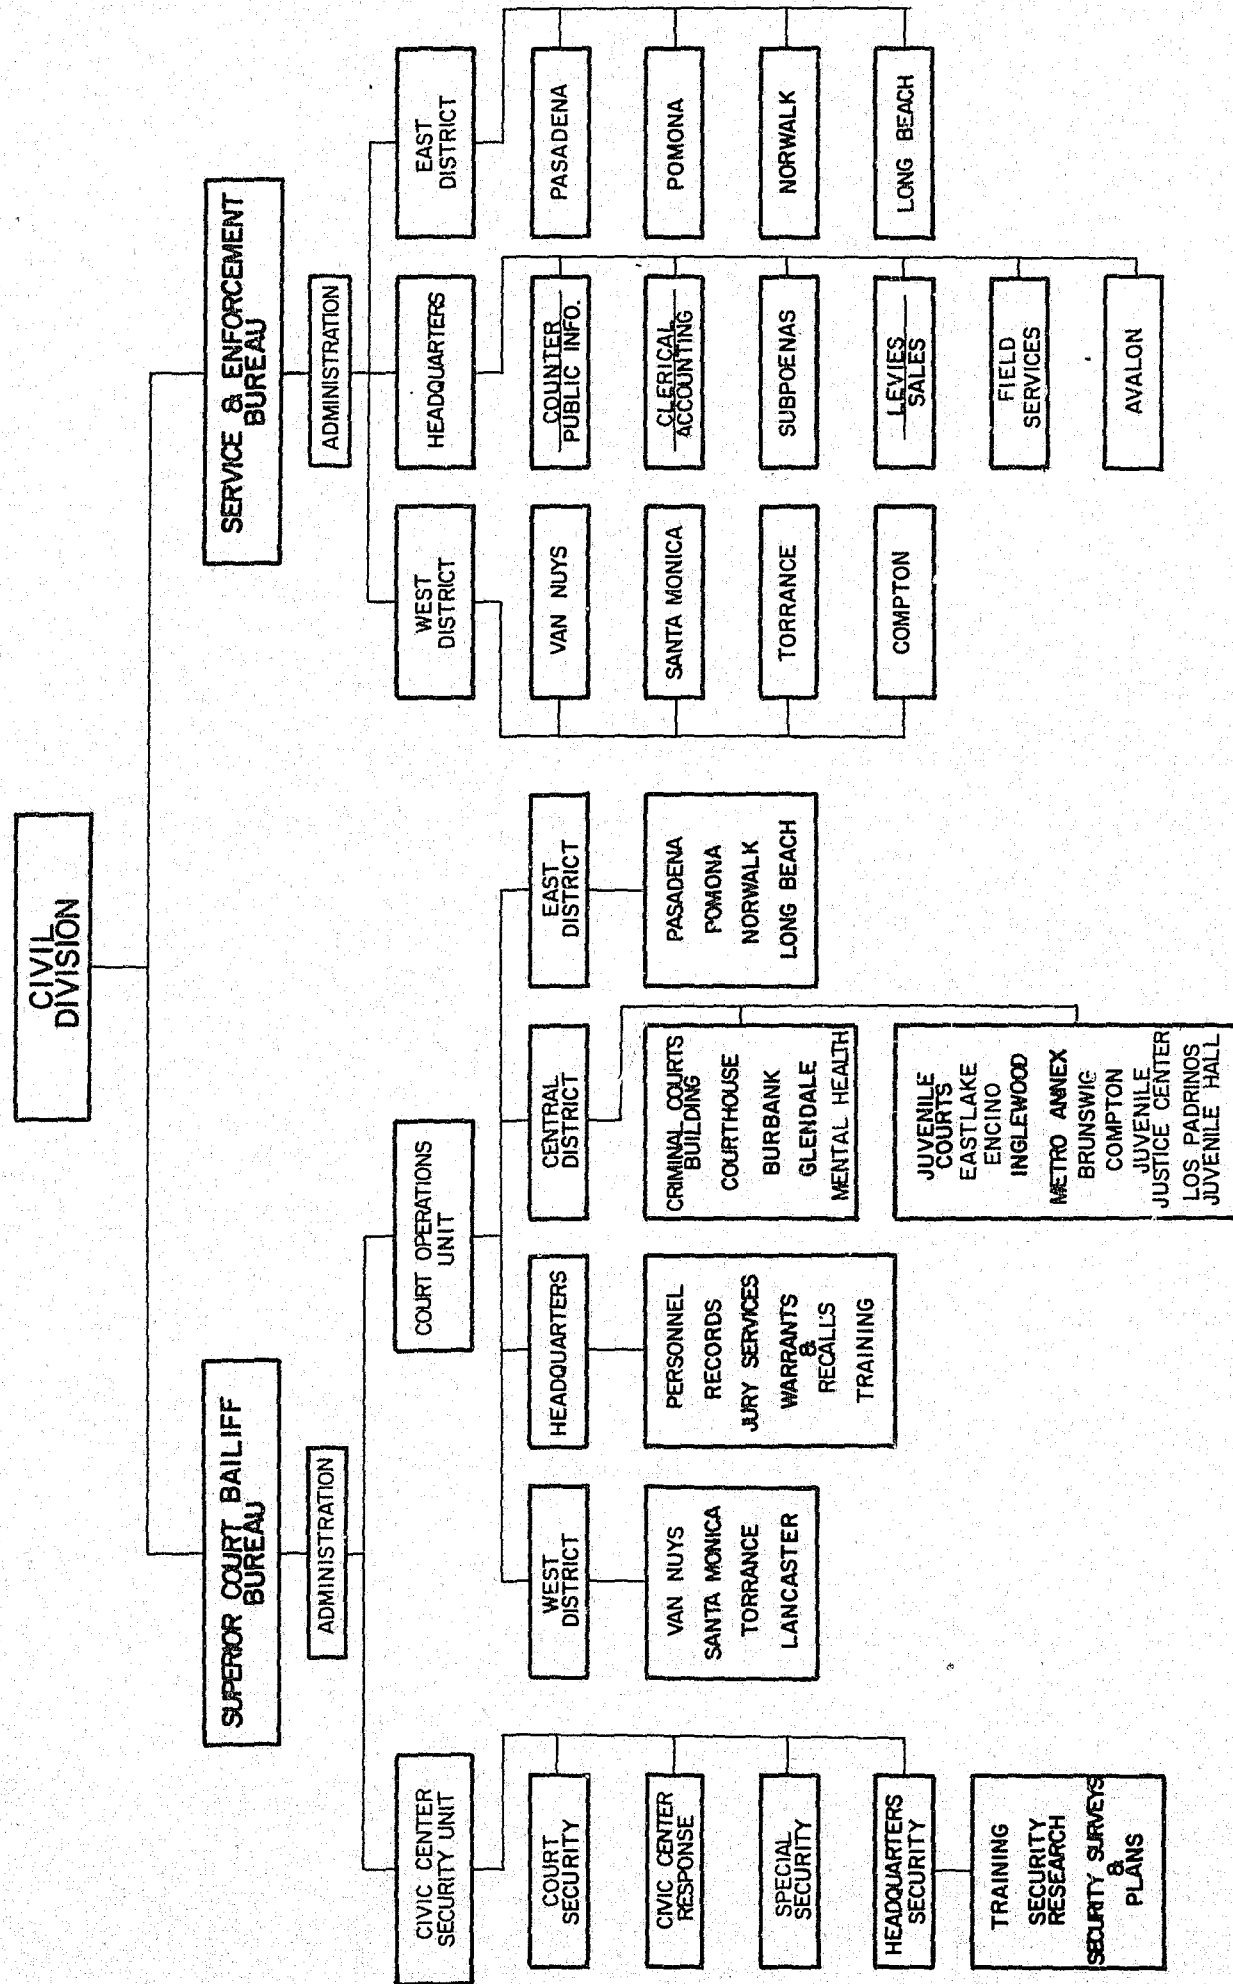

- contractual obligations
- statistical studies relative to contracting
- the status within the County system of special program requests
- current cost adjustments relative to contract pricing
- the impact or effect of legislation and court decisions on contract pricing methodology
