DOCUMENT RETRIEVAL INDEX (DRI)

INTRODUCTION

The Law Enforcement Assistance Administration publishes this Document Retrieval Index (DRI) as a service to the nation's law enforcement and criminal justice community.

- The documents listed have been SELECTED from the National Criminal Justice Reference Service (NCJRS) data base and represent ONLY those with a known SOURCE OF AVAILABILITY.

The DRI is organized in two main sections, supported by two appendices, and contains order forms for obtaining documents available from NCJRS. All parts are arranged alphabetically.

SECTION 1 - TITLE LIST

This section lists available documents by title and each entry includes bibliographic information, author, document date, number of pages, an annotation, and the sales or availability source. The following illustrates the entry format:

TITLE			
NCJ - NUMBER			
AUTHOR(S)	DATE	PAGES	
ANNOTATION			
AVAILABILITY/SALES SOURCE			

SECTION 2 - SUBJECT LIST

This section presents a listing of document titles by subjects which describe content of the documents. An index of the subjects, by page number within Section 2, precedes the subject listing.

APPENDIX A - SOURCE ADDRESSES

- Sales or availability sources are displayed with each entry in Section 1 in condensed or abbreviated form. The alphabetically arranged source address list in Appendix A clarifies these entries and provides full addresses for document ordering purposes.

APPENDIX B - ABBREVIATIONS

- Abbreviations and acronyms used in the DRI are described in this appendix. The alphabetic listings in both appendices are used in conjunction with several NCJRS services and therefore may contain items unrelated to specific entries in this DRI.

INDEX USE

The subject list in Section 2 may be used as a manual search tool to identify document titles related to specific subject interests. When this method is used and titles of interest are found, reference to the alphabetic listing of titles in Section 1 will provide further information about such documents. The annotations briefly describe the contents of each document. The bibliographic information furnishes document age by date, document size by number of pages, and identifies authors. The word "From" is followed by the sales or availability source and the NCJ number used to order documents available from NCJRS is furnished.

DOCUMENT ORDERING

ALL DOCUMENTS LISTED IN THIS INDEX ARE GENERALLY AVAILABLE FROM THE SOURCES IDENTIFIED WITH EACH DOCUMENT IN SECTION 1.

The AVAILABILITY/SALES SOURCE entry appears as "FROM GPO", or "FROM NTIS", or "FROM UNIV MICROFILMS, ANN ARBOR, MI", or "FROM NCJRS", etc.

Documents listed, "FROM NCJRS" may be ordered by entering the appropriate NCJ Number on the Order Form in the back of the DRI and mailing the order to NCJRS.

Documents listed as available from ALL other sources should be ordered directly from those sources. Appendix A provides the full mailing addresses for this purpose. Orders sent to sources other than NCJRS should identify the desired documents by title. NCJ Number should not be used on these orders.

There are no charges for documents available from NCJRS. A limited number of other sources also furnish documents without charge.

Documents ordered from the Government Printing Office (GPO), the National Technical Information Service (NTIS), University Microfilms, all publishers, and others will bear a charge. Document costs are not included in this index because of constant price changes and fluctuations.

LOAN DOCUMENTS

Selected documents carry a sales/availability source of "FROM NCJRS DOCUMENT LOAN PROGRAM". Registered NCJRS users may borrow these documents by contacting their Company, Organization, or Public Library and requesting interlibrary loan service.

**THE DOCUMENTS INCLUDED IN THIS DRI
