PART IV

CRIMINAL INVESTIGATION

COMMAND

37. The Criminal Investigation Department had a number of changes in its command. Nevertheless, the general output of work was satisfactory.

CRIMES

38. The number of crimes reported to the Police during 1976 were 1,674 in comparison with 1,722 in 1975. This shows a decrease of 48 or 2.78 per cent.

Although the Department achieved some degree of success in the detection of crimes, breakings and larcenies were very pronounced in the city and outskirts. It was later discovered that a new team of breakers had evolved and embarked upon certain business places in the City of St. John's. This made the task of detection somewhat difficult, because even though at some scenes of crime, fingerprint impressions were found, these could not be traced as the culprits prints were not on file.

Most of the breakings involved the theft of radios and stereo equipments. Information revealed that these were clandestinely shipped overseas in exchange for drugs (Cannabis). Another new feature which showed a remarkable increase and was of some interest to the Criminal Investigation Department was the frequent theft of motor vehicles. In most cases, these were found either stripped, wrecked or burnt.

LEGAL DEPARTMENT

39. The Legal Department, headed by the Director of Public Prosecutions Mr. Cecil Kennard was responsible for the vetting, advising and presentation of all indictable cases, and in some summary matters where legal argument had to be pursued.

CRIME PREVENTION

40. The Police continued to educate the general public along the lines of what crime preventative measures are to be taken thereby making it difficult if not impossible for Criminals to penetrate.

CRIMINAL RECORD OFFICE

41. The Criminal Record Office maintained records of all known Criminals in Antigua and some of the neighbouring islands. It is also responsible for the custody of court exhibits, lost and found property, records of summonses, warrants, summary case files and recorded statistics of all crimes and offences in the State.

During the period under review, the Criminal Record Office issued a total of 1,328 Police Certificate of Character for which the amount of \$1,328.00 was collected. These certificates were issued on request by persons seeking employment or travelling abroad.

FINGERPRINT AND PHOTOGRAPHY

42. This Branch of the Force continued to play a very important role in the detection of crimes. The Staff of three (3) comprising of one (1) Inspector and two (2) Corporals was responsible for the examination of scenes of crime and serious Traffic Accidents. During the year a total of 232 scenes were visited; latent impressions were found at 187 scenes, 47 of which positive identification were made. There were 306 new sets of prints taken bringing the nominal index up to 7754. An album of known criminals has also been kept up - to - date.

SCIENTIFIC AID

43. The only means of Scientific Aid in the detection of crimes was the Fingerprint System. The Government Chemist, assisted in the analysis of Cannabis Sativa and other Dangerous Drugs.

DANGEROUS DRUGS

44. There were fifty six (56) cases of Drug Abuse detected by the Police. Among these was a very important case of the importation and possession of forty five (45) pounds of cocaine by five (5) Columbians. The other cases were Cannabis Sativa and were disposed of in the following manner:

|           |           |
|-----------|-----------|
| Convicted | 40        |
| Acquitted | 1         |
| Withdrawn | 5         |
| Pending   | <u>10</u> |
| TOTAL     | <u>56</u> |

Among these were four cases of importation and four for cultivating. Four (4) of the convicted persons were non - Antiguan. Apart from fines being imposed, there were terms of imprisonment ranging from one month to nine months. The amount of \$119,250.00 was paid as fines.

IMPORTANT CASES

45. During the year 1976 - there were three (3) noteworthy trials in the State; two (2) of which were trials in the Supreme Court, while the other was a Summary Trial. Those at the Supreme Court were - a murder, a robbery with violence. Both were convicted. The convicted murderer Patrick Davis appealed and his case was sent back for a re-trial in the January Assizes 1977. The summary case was that of the importation and possession of cocaine. The four (4) defendants (All Columbians) were convicted and a fine of \$20,000.00 E.C. was paid.

JUVENILES

46. The Criminal Investigation Department was faced with a problem when a number of Juveniles engaged in a series of break-ins and thefts around the city of St. John's. There were twenty four (24) cases of breaking in which Juveniles were involved. Most of the Juveniles are inmates of the Boys Training School, while the others were either in need of care and protection or left their homes to become delinquents.

COLLATOR SYSTEM

47. The Collator System which was introduced just one year ago has proven to be of vital importance to the Criminal Investigation Department. Five hundred and twenty seven (527) persons were processed and information relating to their criminal activities are recorded for future assistance in the detection of crimes.

SMUGGLING

48. The trade of smuggling of alcoholic beverages and tobacco has not been very prevalent. There were no seizures for the year 1976. The frequent patrols being carried out by the Police Launch could well be a contributory factor.

SUDDEN DEATHS

49. A total of forty nine (49) cases of Sudden Deaths were reported to the Police. There were no suspicious circumstances surrounding these deaths.

GAZETTE

50. A monthly Gazette was prepared by the Criminal Investigation Department and distributed to various Forces in the Associated States.

COURT PROCESS

(a) Warrants

A total of 1,556 warrants in default were received during the year and were disposed of in the following manner.

|                   |             |
|-------------------|-------------|
| Executed          | 1595        |
| Returned to Court | 22          |
| Unexecuted        | <u>39</u>   |
| Total             | <u>1656</u> |

Fines amounting to \$11,022.20  
 Cost amounting to 3,401.00  
 Compensation collected on warrants executed \$38,172.05

(b) Summonses

During the year 1976, 3,297 summonses were received by the Police and 611 of these were returned to Court for a variety of reasons.

PART V

TRAFFIC

52. The establishment on the Traffic Department was increased during the earlier part of the year by eleven (11) females. This increase has helped considerably to cope with the daily duties but by the end of the year, four (4) males and four (4) females were transferred to other departments of the Force.

### TRAFFIC PROBLEMS

53. Parking is the major problem in the City of St. John's. Motorists insist on parking at the places not provided for this purpose, thus causing much inconvenience to other road users. With a view of alleviating this situation extensive foot patrols were carried out and many motorists were prosecuted for parking offences.

### CONTRAVENTIONS

54. Over the past year the number of contraventions has increased due to vigilant foot and mobile patrols in the City and Country Areas. Regular night patrols were carried on the major highways on foot. These patrols were designed to be a deterrent to motorists travelling at extensive speed.

### ROAD SAFETY MEASURES

55. School children and members of the public throughout the State were educated on 'Road Safety' through:

- a. The new media
- b. By means of lectures given by members of the Traffic Department.

Foot patrols around the schools have been increased and these have proven to be of much assistance to the road users on foot and have also reduced considerably the accident rate involving children.

### TRAINING

56. No overseas training was given to any member of this Department during the past year, though regular instruction classes were held by Senior members of the Traffic Department.

### MOTOR CYCLES

57. Most of the mobile patrols were carried out by these vehicles. Regrettably, a number of these vehicles were out of use due to defective parts which were not available in the State and when ordered, took long periods to arrive. The presence of these vehicles on the roads deter motorists from contravening the Road Traffic Regulations.

### SIGN POSTING

58. Over the past year, numerous warning signs have been erected in various areas throughout the State by the Department. It has become noticeable that motorists through carelessness have damaged traffic signs, and left them uprooted without informing the appropriate authority with a view of having these signs replaced. Another bad feature is that members of the public maliciously interfere with or deface Traffic Signs. This malpractice poses danger to other road users. This Department is doing all in its power to trace the offenders.

CONCLUSION:

128. 1976 was a year of very hard work for the Police Force. It was the year of a General Election and the various events leading up to and even the Post Election period made it necessary for the Administration to mobilize and properly deploy all its resources.

In that year too, there was a slight increase in the Establishment of Force. A few new vehicles were acquired and this enabled us to increase our mobile patrols, thus curtailing the movement of certain criminals. We were also able to continue a good Police/Public relationship and our image was not blurred.

Crimes generally, and Road Traffic Offences were fairly well controlled, and there were no serious industrial unrest.
