REPORT OF PROBATION  
SUPERVISION WORKLOAD  
JULY, 1976 - JUNE, 1977

This report represents the total monthly "Report of Court Service Workload," (J.C. 25) submitted by the Probation Departments and Court Service Units in the Commonwealth in fiscal year 1977.

### INTAKE

During fiscal 1977 there were 94,037 intake cases referred to Court Service Units. These persons were interviewed and service case files initiated, thereby making these case files a part of the total Court Service Unit workload for the year. The above intake figures for fiscal 1977 represent a 8,938 or 10.5 percent increase in intake referrals over fiscal 1976. Intake cases accounted for 68.5 percent of the 137,294 total case referrals in fiscal 1977. Unofficial intake supervision or counseling accounted for 8,422 or 9.0 percent of the intake cases referred, a 2,076 case or 32.7 percent increase over fiscal 1976. There were 1,886 intake case files continued from fiscal 1976 resulting in a total workload of 95,923 for the 1977 reporting period. Of the total workload, 94,038 cases or 98.0 percent were completed during the period. At the close of the fiscal year, June 30, 1977, there were 1,885 files which remained open and carried forward to fiscal 1978. Of these cases carried over, 918 or 48.7 percent were under unofficial supervision as compared with 768 cases or 39.9 percent in fiscal 1976, an 8.8 percent increase in unofficial supervision.

When comparing the regions, the largest addition of intake cases was attributed to Tidewater (Region I), which added 27,340 new cases or 29.1 percent of the intake workload. Northern Virginia (Region III) followed behind Tidewater in overall intake workload added with 21,977 files opened or 23.4 percent.

It is interesting to note that in fiscal 1976 Northern Virginia was first in intake referrals and Tidewater was second. The regional pattern established for adding new intake cases was consistent with the pattern for completion of cases during the fiscal year. Tidewater was again the leader, accounting for 27,352 cases or 29.1 percent of all intake cases completed. Northern Virginia again was second by completing 21,952 cases or 23.3 percent of all completed intake cases.

### TRANSFER REPORTS

Transfer reports are ordered on individuals fifteen years of age or older who have been charged with certain felonies. This report is used to determine if an individual should be transferred to Circuit Court for trial as an adult.

For the reporting period there were 4,952 cases on which transfer reports were initiated. This represents 3.6 percent of all the cases added to the total case workload in fiscal 1977, a 621 case or 14.3 percent increase over fiscal 1976. Cases carried forward from fiscal 1976 totalled 263, resulting in a total transfer workload of 5,215 cases. There were 4,940 or 94.7 percent of the transfer reports completed during the fiscal year, which resulted in 275 reports being carried forward to fiscal 1978.

In examining the regional totals, Tidewater (Region I) was the leader in both additions (2,127) and completions (2,129) of transfer reports. Richmond (Region II) was second in additions and completions, accounting for 1,685 and 1,656 respectively. Regions I and II combined accounted for 77.0 percent of all new transfer reports and 76.6 percent of

all transfer reports completed for the fiscal year. It is significant to note that Tidewater and Richmond Regions were also first and second respectively in additions and completions of transfer reports in fiscal 1976.

### SOCIAL HISTORY REPORTS

When requested by the judge prior to court disposition a comprehensive study of the child's social history and environment is made. The Court Service Unit, according to the standard adopted by the State Board of Corrections, must complete a social history report on any child placed in a supervised capacity. As a result, the number of social history reports does not represent only children on official probation.

Social history reports added 13,136 cases or 9.6 percent to the Court Service Unit workload in fiscal 1977, a 607 case or 4.4 percent decrease from fiscal 1976. Continued cases from fiscal 1976 totalled 1,550 and when added to the new workload resulted in a total social history report workload of 14,686 cases. Of these studies, 13,193 cases or 89.8 percent were completed during the reporting period. The remaining 1,493 cases were carried forward to fiscal 1978, 57 cases or a 3.7 percent decrease from the 1,550 cases carried over in fiscal 1976.

In comparing region totals, Tidewater (Region I) was the leader, as in fiscal 1976, in both studies added and completed. Tidewater added 3,697 or 28.1 percent and completed 3,748 studies or 28.4 percent of the total social history workload. Richmond (Region II), as in fiscal 1976, was second adding 3,008 studies or 22.9 percent and completing 3,018 or 22.9 percent of all social history studies handled during fiscal 1977.

### CASES ON PROBATION/SUPERVISION

The cases placed on probation/supervision by the courts contributed the second largest portion of cases added to the overall workload, 19,248 or 14.0 percent. The above represents a 796 case or 4.0 percent decrease in added workload from fiscal 1976. Individuals placed on official probation accounted for 15,594 or 81.0 percent of all probation/supervision cases added in fiscal 1977, a 3.7 percentage decrease from the 84.7 percent in fiscal 1976. The unofficial cases were handled by field counselors and required the consent of the child's parents whenever a juvenile complaint was involved. All unofficial juvenile and adult cases amounted to 3,654 or 19.0 percent of the total probation/supervision cases added. There were 11,337 probation/supervision cases brought forward from fiscal 1976. Of these, 10,377 cases or 91.5 percent were official and 960 cases or 8.5 percent were unofficial. With the inclusion of these cases, the total workload was 30,585 cases for the reporting period. Of the total probation/supervision workload, 19,206 cases (15,599 official and 3,607 unofficial) were completed, resulting in a 62.8 percent completion rate for all probation/supervision cases handled in fiscal 1977. The 11,379 cases which were not completed accounted for 37.2 percent of the total probation/supervision cases served during 1977.

In comparing regional totals, Richmond (Region II), as in fiscal 1976, accounted for the largest number of cases added and completed in fiscal 1977, adding 8,271 cases or 43.0 percent of the total probation/supervision workload and completing 7,823 cases or 25.6 percent of the total probation/supervision workload (including cases continued from fiscal 1976). As in fiscal 1976, it is significant to

note that 5,971 or 72.2 percent of all cases added by Region II were adult probation/supervision, while 5,569 cases or 46.5 percent of all probation/supervision cases completed (including cases continued from fiscal 1976) were adult. The locality contributing the largest number of cases added and completed for Region II was the City of Richmond, adding 5,779 cases, of which 4,950 were official adult cases. They completed during the same period 5,822 cases, of which 4,950 were official cases on adults. The second largest accumulated total for any other region was Tidewater (Region I) adding 5,024 cases or 26.1 percent of the probation/supervision workload and completing 5,265 cases or 17.2 percent of the probation cases served.

#### CASES IN STATE RECEIVING SERVICE

Reports submitted by the Court Service Units indicate that during fiscal 1977 there were 1,767 children committed to the direct care of the Department of Corrections, Division of Youth Services. This represents a 10.1 percent increase in commitments over fiscal 1976 when 1,605 children were committed. Commitments of juveniles to state care added only 1.3 percent to the total overall workload in fiscal 1977. The added commitments, as well as the 1,141 children already in state care at the beginning of the reporting period, brought the total cases in state receiving service to 2,908. Of the 2,908 cases in care during fiscal 1977, 1,719 children were released from state care leaving 1,189 children being held in direct state care at the end of fiscal 1977, a 4.1 percent increase over fiscal 1976.

There were 2,708 families of children under direct care added to family counseling by the Court Service Units during the reporting period, a 68.6 percent increase in family counseling over fiscal 1976. Family cases continued from fiscal 1976 numbered 769 and when added with the new family cases brought the total family case workload to 3,477. There were

2,684 family cases completed in fiscal 1977, resulting in 793 cases being carried over to fiscal 1978.

In comparing regional totals, Tidewater (Region I) was again, as in fiscal 1976, the leader in both children committed and released from state care as well as families added to counseling and released from counseling. There were 732 children committed to direct state care and 631 children released from direct state care in Tidewater during fiscal 1977. Family counseling added 1,632 new cases to Tidewater during the reporting period and 1,659 cases were completed.

#### CASES ON AFTERCARE SUPERVISION

Juveniles who were placed on aftercare supervision after being released from the direct care of the state were a very small percentage of cases added and completed in fiscal 1977. There was a caseload increase of 1,446 juveniles which, combined with 924 cases continued, brought the total case workload to 2,370 aftercare juveniles being supervised, a 79 case or 3.4 percent increase over fiscal 1976. Of these persons, 1,544 or 65.1 percent completed their supervision during the period, which is a 5.3 percent increase over the 59.8 percent completion rate in fiscal 1976. Due to the increased rate of completion in fiscal 1977, only 826 cases were carried forward for aftercare supervision in fiscal 1978, a 98 case or 10.6 percent decrease in workload.

In the regional analysis, Tidewater (Region I), as in fiscal 1976, accounted for the greatest number of additions and completions during the reporting period, adding 427 cases to aftercare supervision and completing 428. Northern Virginia (Region III) was second, adding 357 cases and completing 368. The Tidewater and Northern Virginia Regions combined accounted for 54.2 percent of all new additions to aftercare and 51.6 percent of all cases released from aftercare supervision during fiscal 1977.

APPENDIX I  
PROBATION SUPERVISION WORKLOAD  
DEFINITIONS

1. *Intake* -- Concerns all cases referred to the Court Service Units for any service in which the subject is seen and a service case file is opened. Examples of cases falling under the Intake process would be the referral of individuals regarding acts of delinquency, incorrigibility, and adult domestic relations problems.
2. *Unofficial Intake Supervision* -- Those cases which are resolved unofficially at Intake with a decision to provide unofficial supervision or counseling (with agreement by child's parents) on a short-term basis by the Intake worker. Note: Unofficial Intake Supervision cases are a subtotal of all Intake cases serviced.
3. *Transfer Reports* -- Refers to report ordered on an individual 15 years of age or older who is charged with a felony. The purpose of the report is to assist the Court in determining if an individual will be transferred to Circuit Court for trial as an adult.
4. *Social History Reports* -- A comprehensive report concerning the complete social history of a child who is before the Court or receiving unofficial services. A Social History Report is always required on any child placed on probation.
5. *Official Probation Supervision* -- Refers to a case that has been through the complete judicial process and probation supervision was ordered by the Judge.
6. *Unofficial Probation Supervision* -- Refers to any case which is referred from the Intake Process to a Field Counselor for supervision with consent of the child's parents.
7. *Cases in State Care* -- Cases in which a child has been committed to the direct care of the Department of Corrections, Division of Youth Services, and is being counseled while in state care.
8. *Family Cases in State Care* -- Refers to cases in which personal contact and counseling is being given to families of children committed to direct care in a state institution.
9. *Aftercare Supervision* -- Refers to cases in which a child is receiving supervision following release from the direct care of a state institution. The child may be released from direct care but still may reside in a Community Youth Home while on Aftercare Supervision.
10. *Adult Cases* -- Adults who are before the Court and receiving services by the Court Service Unit for problems of domestic relations and non-support.
11. *Active Cases* -- The JC-25 Form is used to compute active workloads and it is not intended that the form be used for total case counts. Active cases are those cases where the counselor has rendered or is rendering an active service, other than maintaining some type of record on paper which does not require contact with the individual or collateral contacts involving the individual. For example, cases referred to other court service units or agencies for service unless there is still meaningful involvement with case on the part of the referring unit is not counted. The term "meaningful involvement" refers to personal or other significant contacts with the client or collaterals involved on a planned or regular basis.

APPENDIX II  
DIVISION OF YOUTH SERVICES  
DIRECT CARE FACILITIES  
JUNE 30, 1977

I. Learning Centers

Bon Air
