INTRODUCTION

"Under the Law Part II," is a series of four films produced under a grant from the Law Enforcement Assistance Administration. Recipient of the grant is the National Education Institute. These films, which feature a stop-action technique, are designed for use as an audio-visual aid to the teaching of law related subjects in the junior and senior high schools. They include a Leader's Discussion Guide which suggests questions to be posed at each freeze frame, in order to stimulate discussion and to promote learning.

One of the stipulations of the grant was that the films be tested and evaluated in the classroom, in five different geographic areas. The cities where testing and evaluation were conducted are: Birmingham, Alabama; Indianapolis, Indiana; Chicago, Illinois; Emmaus, Pennsylvania; and Los Angeles, California. Additionally, a small group of boys at Boystown, Nebraska were included in the testing and evaluation of the films.

METHODOLOGY

Junior and Senior high schools were selected in the five cities by the school districts themselves. The schools which participated in the testing are as follows:

<u>Birmingham, Alabama</u>		<u>Emmaus, Pennsylvania</u>	
Parker High School		Emmaus High School	
Woodlawn High School		Emmaus Junior High School	
Hill Elementary		Eyer Junior High School	
Gibson Elementary			
<u>Indianapolis, Indiana</u>		<u>Los Angeles, California</u>	
Ben Davis High School		Chatsworth High School	
Ben Davis Junior High School		Locke High School	
South Wayne Junior High School		Compers Junior High School	
Fulton Junior High School		Lincoln Junior High School	
		John Adams Junior High School	
<u>Chicago, Illinois</u>			
Washburn Trade Center			
Marshall Upper Grade Center			
Van Steuben High School			
Taft High School			

The specifics of the testing and evaluation required approximately two classes at each school. Each class consisted of about 20 to 25 students, and the procedure involved a pre-test, and a post-test. A structured paper and pencil pre-test was administered to the students in each classroom. At this time, the students were told that they would be seeing a film in class, within a few days. Two to four days later, the same class was shown one of the four films, and led in a discussion, by the teacher along the guidelines outlined in the Discussion Leader's Guides. They were then given a structured post-test.

A total of 1,064 Junior and Senior high school students were given the pre-test, and 1,043 students were given a post-test. All replies were analyzed by:

<u>Age</u>	<u>Sex</u>	<u>Race</u>	<u>Film Seen</u>
13 Years and Younger	Male	White and All Others	Bad Guys - Good Guys
14 to 15 Years	Female	Black	Vandals
16 to 17 Years			In The Matter Of David J
18 and Over			3 Days In The County Jail
<u>Grade</u>	<u>Family/Work Status</u>	<u>City</u>	
7th, 8th, 9th	No Dad in Home/Mother Works	Birmingham, Alabama	
10th, 11th, 12th	Dad and Mom in Home/Both Work	Indianapolis, Indiana	
Trade School	Dad and Mom in Home/Dad Only Works	Chicago, Illinois	
	All Other	Emmaus, Pennsylvania	
		Boystown, Nebraska

ABOUT THE FILMS

FILM SUMMARY OF "VANDALS"

A teenage boy and girl, feeling frustrated and ignored in their respective homes and not happy in school, decide one evening to vandalize property at a construction site. That same night, they vandalize their school, and are caught in the act by the police when starting a fire of books and papers. Later, they appear in Juvenile Court where they are ordered to undergo psychiatric examinations by the Juvenile Court Referee. The girl is placed on three months' probation working with blind children. Since the boy has a long record of vandalism and other offenses dating from the age of seven years, he is placed on six months' probation, the first three months working with a vandalism clean-up crew. In addition, the Court advises the school of its right to seek reimbursement for the damage from both parents. The film dramatizes the efforts and responsibilities of society in dealing with an outrage that may be due in part to a loss of community, family and neighborhood values.

FILM SUMMARY OF "IN THE MATTER OF DAVID J"

In order to raise money to pay for his motorcycle Dave agrees with his friend, Johnny, to take part in the robbery of a store. It is decided to "borrow" a pickup truck to be driven by Dave to be used in the getaway. Although Johnny has a gun, he states that it probably isn't loaded. During the robbery, the store owner attempts to overpower Johnny. Dave is waiting in the truck when he hears a shot. Johnny runs back to the truck without the money, but as they try to leave the scene they are confronted by a night watchman, who notes the license plate number. Both boys are later arrested. Dave is committed to a juvenile correctional facility and Johnny is found guilty in adult court and sentenced to State Prison.

FILM SUMMARY OF "BAD GUYS - GOOD GUYS"

Two male students led by an older third student threaten a classmate with a knife, but are interrupted by a teacher who is then threatened. Later, the three students hijack a bus and rob the passengers, during which time one of the passengers has a heart attack. The sister of one of the three students is on the bus and she observes the entire incident. Her brother visits her at the cleaning establishment where she works to return the money stolen from her during the bus robbery.

Later, the three return to school and violently assault their classmate. They beat and kick him severely and steal his jacket. This beating is witnessed by the sister and a teacher. The police are called to the scene and the sister is interviewed.

The three students are brought before the Juvenile Court and allegations of assault and robbery are filed. Although the teacher has waited to testify, she leaves the Court after being threatened by the juvenile ringleader. The Juvenile Court places the three students on probation.

The sister is subsequently attacked at work by the older student who attempts to rape her; the police are called and she is taken to the police station, examined and questioned in connection with the attempt to rape. Because of the older student's prior record, the Juvenile Court determines that he be certified as an adult. An investigator from the Prosecutor's Office gathers pre-trial information and witnesses. The investigation brings out the criminal acts involved in the bus robbery. The two younger students remain under the jurisdiction of the Juvenile Court and the eldest one is found guilty of criminal conduct in the adult criminal court.

FILM SUMMARY OF "3 DAYS IN THE COUNTY JAIL"

A young man in his early twenties is arrested for hit and run with injuries, and drunk driving. He is taken to the County Jail, booked, searched, deloused and examined. He is allowed to make a phone call and although he does call his father, the conversation doesn't seem to go well. In jail, he meets up with an "old timer" who appears to make overtures of friendship. Later, he is released on bail, but is found guilty and sentenced to State Prison. Since he has no prior record, the Judge suspends his sentence on condition he spend one year in the County Jail. The film dramatizes the life and culture of the County Jail. It illustrates the methods and programs made to prepare inmates for a useful life on the outside, not withstanding the inducements and pressures coming from hardened offenders on the inside.

EVALUATION OF FILMS

The idea of using a film format as a means of presenting education material to junior and senior high school students is basically very sound. It is a medium that school kids like and enjoy, and one that holds their interest. The following statistics apply to the total sample of over 1,000 students unless stated otherwise. When asked specifically about seeing films on law related subjects, 70.7% say it makes class more interesting for them. The strength of this feeling increases with age. The older students feel even more strongly that films make class more interesting. Among the 16 - 17 year olds, 72.8% feel this way, and 79.0 of those 18 and over feel this way. (See chart #1) Films are especially liked by the Indianapolis students. (See chart #2)

After they had seen the film, 70.6% felt that as a result of seeing the film and participating in the discussions, they had learned something about law and law enforcement that they did not know before. Blacks particularly felt that they had learned (81.7%). Females also had a high positive reaction to this question (77.5%).

The stop-action technique was received positively by 69.8%, and here again, the girls were somewhat more favorably disposed toward it than the boys (72.6%).

When asked if they would like to see more films of this type, the response was overwhelmingly positive; 92.9% said "yes." When analyzed demographically, we see an even more favorable response among females, (97.5%) and there is also some increase with church attendance (94.2%) among those who attend regularly, 93.1% among those who attend once in awhile, and 89.1% among those who never attend. (See chart #3)

Questions asked before they saw the films related to points of law, and in some instances to basic attitudes that would be covered in the film they would see two or three days later. When the identical questions were asked after the film was seen, it was apparent that learning had taken place, and attitude had been influenced in a positive manner. In some instances, the results were rather dramatic. (See table I)

ATTITUDES TOWARD POLICEMEN

In very general terms, the attitude toward policemen tends to be more favorable than unfavorable, but only slightly so. (See charts numbered 4, 5, and 6)

Interestingly enough, when asked whether they would go to the police for help, and whether they felt the police were there to help them or out to get them, the response was very positive. The majority would go to the police for help (71.0%). This attitude varies considerably by "church attendance" (74.4% among those attending regularly, 70.7% among those attending occasionally and 57.2% among those never attending) and is not quite so strong among the Blacks (67.3). It's particularly strong in Indianapolis (79.8%).

Sixty-two percent feel that the police are there to help them rather than "out to get them" (11.8%), particularly in Birmingham (70.6%), and among those 13 years old and younger (73.1%). This attitude is also stronger among those who attend church regularly (66.9%) than it is among those who attend occasionally (56.7%) and among those who never attend (52.9%).

IMPORTANCE OF PLANNING LIFE TO AVOID CRIMINAL RECORD

Most (79.4%) feel that it is very important to plan one's life to avoid a criminal record, 15.6% feel it could be important, 2.5% say it's not important at all, and 2.1% don't know. Among those who are 18 and over, 82.7% feel this is very important, and "church attendance" makes a significant difference - 84.6% of those who attend regularly, 74.8% of those who attend occasionally and 65.2% of those who never attend say it is very important to plan your life to avoid a criminal record.

WHAT TO DO IF YOU HAVE KNOWLEDGE OF A CRIME

In response to the question: "If you see or know about a crime, what is the best thing to do?" 46.2% said "Report it to the police." Only 34% of the Blacks would report it to the police. Again, church attendance exerts a positive effect on attitude. Among those who attend regularly, 49.8% would report it to the police. Forty-three percent among those who attend occasionally and 38.4% among those who never attend feel this way. Thirty-one percent who think about what the crime was, and who committed it before deciding whether or not to report it.

CAUSES OF CRIME

When asked, "In your own words, what do you think causes a person to commit a crime?", the reasons mentioned most often were:

Poverty/Desperation/Need - 27.2%	Has Problems can't be Solved - 8.8%
Desire for Money - 22.0%	Prestige/Prove Something - 6.3%
Environment/Home Background - 16.8%	To go Along with the Crowd - 5.4%
Mental or Psychological Problems - 15.5%	Idle time/Nothing else to do - 4.5%
Revenge against Society or a Person/To get Even - 14.0%	Use of Drugs - 4.0%
For the fun of it/To get Attention - 12.5%	Other - 15.7%
Can get Away with it - 10.2%	

ATTITUDES TOWARD JUVENILE OFFENDERS AND JUVENILE SYSTEM

About 36% don't know enough about the juvenile justice system or juvenile offenders to rate them, but the general attitude is negative regarding the effectiveness of the system.

Only 18.6% feel that the juvenile courts are handling juvenile offenders properly today; 22.1% think they are too strict, 20.6% think they are not strict enough, and 36.7% don't know.

Only 21% feel that kids on probation get the right amount of guidance and supervision; 32.9% say they don't get enough, 9.8% say they get too much, and 36.6% don't know enough to give an opinion.

For the most part, the students don't feel that a kid who has been in trouble with the police is treated like a hero by the other kids. A little over half (50.5%) say no, but 19.5% say yes, and 29.4% don't know.

The younger kids feel more strongly that a kid who has been in trouble is treated like a hero (22.3%, among those 13 or less, 20.6% among 14 - 15 year olds, 19.3%, among 16 - 17 year olds, and 15.0% among 18 and over), and more among the boys (23.9%) than among the girls (14.5%).

Church attendance also has a slight positive effect on this attitude. Among those who attend regularly 16.1% feel that he is treated like a hero, 21.9% among those who attend occasionally feel this way, and 21.7% among those who never attend. Among the Blacks, there is less of a tendency to feel that he is treated like a hero (14.6%).

Most of our respondents (83.9%) feel that if it is a first offense, and it is a minor offense, a kid should be released to his parents rather than sent to some place like juvenile hall (8.1%).

As the respondent gets older, the tendency to feel that on a first offense he should be released to his parents increases (74.6% among those 13 years and less, 81.4% among the 14 - 15 year olds, 88.9% among the 16 - 17 year olds, and 90.7% among those 18 and over). This feeling decreases with church attendance (80.7% among those who attend regularly, 88.5% among those who attend occasionally, and 89.9% among those who never attend).

Most (74.6%) feel that a teenager who is found guilty of an act that results in damages to people or property should be made to earn the money to pay for damages. Eleven percent feel that the parents should pay for damages.

Among the Blacks, fewer feel the teenager should be responsible (65%).

While quite a few (42.1%) feel that teenagers should be willing to accept the complete responsibility for their own acts, a significant number (38.9%) feel that allowances should be made for certain reasons; like coming from a broken home, being an only child, being a middle child, having bad companions, ignorance of the law, etc.

USE OF DRUGS, ALCOHOL, WEAPONS

The use of cigarettes, marijuana, and alcohol is viewed as being very common among teenagers. The number that say the use of hard drugs and possession of a weapon is very common among teenagers is alarming.

	Percent Saying It's Very Common Among Teenagers Today
Use of Cigarettes -	80.3%
Use of Marijuana -	72.3
Use of Alcohol -	68.8
Use of Hard Drugs -	27.2
Possession of a Weapon -	20.0

More of those among the younger students, among the girls, and among the Blacks perceive the use of hard drugs to be very common. Among those 13 years old or younger, 47.4% say that the use of hard drugs is very common among teenagers today; among the girls 31.4% feel this way; and among the Blacks, 35.7%.

Age influences perception of the use of marijuana. As age increases, so does the number of respondents saying that the use of marijuana is very common among teenagers today; 64.2% among those 13 years and younger, 67.4% among 14 to 15 year olds, 77.7% among 16 to 17 year olds, and 80.8% among those 18 years and older. More among the girls feel this way (74.2%), and more of those who come from a home where mother and father both live at home and only father works (74.0%).

Church attendance also influences perception of the use of marijuana; 70.4% of those who attend regularly say that the use of marijuana is very common among teenagers today. Among those who attend occasionally 74.4% feel this way, and 76.6% among those who never attend.

As age increases, the number of those who feel that the use of alcohol among teenagers is very common also increases. Among those 13 years old and younger 55.3% feel that the use of alcohol is very common, 64.4% among the 14 to 15 year olds, 75.2% among the 16 to 17 year olds, and 80.3% among those 18 years and older feel this way. More among the girls feel this way (70.1%) than among the boys (67.9%). Among the Blacks, only 53.7% feel that the use of alcohol is very common among teenagers today, while among the whites and others, 75.7% feel this way.

As church attendance increases, there are fewer who feel the use of alcohol is very common; 75% of those who never attend, 66.0% of those who attend occasionally, and 68.8% of those who attend regularly feel this way.

Age also influences the way respondents feel about the use of cigarettes. The number of those who feel the use of cigarettes is very common among teenagers today increases with age; 76.3% among those 13 years and younger, 80.1% among those 14 to 15 years, 92.7% among those 16 to 17 years, and 81.2% of those 18 and over feel this way. More among the girls (82.5%) than among the boys (78.8%) feel this way, and more among the whites and others (85.4%) than among the Blacks (69.3%) feel this way.

The feeling that the possession of a weapon is very common among teenagers today is also influenced by age. The older the respondent, the less likely he is to feel this way. Thirty-seven percent among those 13 years and younger, 22.4% among those 14 to 15 years, 12.6% among those 16 to 17 years and 10.8% among those 18 years and older feel that the possession of a weapon is very common.

Among the Blacks, 32% feel this way, while only 14.7% of those among the Whites and others feel this way.

CONCLUSIONS

There is much statistical evidence to support the validity of using these films as an audio-visual aid to the teaching of law related subjects, particularly where points of law are concerned. The medium is well received by students and teachers, and most students enjoy learning in this manner.

It should be mentioned that in virtually all of the testing situations, the teachers were exposed to materials they had never seen, or used before. In a more normal classroom situation, it is assumed that the teachers will not only be familiar with the films and the Leaders' Discussion Guides, but that the materials themselves will be more in context with the class curriculum. These factors will make for an even more positive learning experience.

The appendix to the Summary and Highlights includes Table I which indicates comparison results for identical questions that were asked of respondents on both the pre-film and post-film questionnaires, as well as Charts 1 through 6.

Copies of the questionnaires used in the testing project follow the appendix. The percentages shown for each question represent the total response.

A copy of this report has been furnished to each school that participated in the testing.

In a few days, you will see a film and have class discussion on certain points of law.

We would like to test the film that you will see, and we need your help to do this. We need to know what you think and how you feel about certain things, so that these films and future films can be made as good as possible.

As you answer these questions, please remember that there are no right or wrong answers and we do not want you to sign your name.

These questions are set up for computer tabulation. All you have to do is circle the number that you want as your answer. For example, if your answer to question #1B, is that you think seeing a film about law related subjects makes class more interesting, you should circle 13-1. If you think it makes class less interesting, you should circle -2, and if you think it makes no difference, you should circle -3. If your answer to question #2A, is that you feel the policemen in your city are honest, circle 16-1. If you feel they are sometimes honest, circle -2; if you feel they are sometimes not honest, circle -3; and if you feel they are dishonest circle -4. Please be sure to answer every part of all the questions in this manner.

1. When learning about the law in class, do the following things make the class more interesting for you, less interesting, or doesn't it make any difference?

	MAKES CLASS MORE INTERESTING	MAKES CLASS LESS INTERESTING	MAKES NO DIFFERENCE	<i>No answer</i>
A. HEARING GUEST SPEAKERS SPEAK ABOUT LAW RELATED SUBJECTS...	12-1 <u>65.2</u>	-2 <u>12.2</u>	-3 <u>19.5</u>	<u>3.1</u>
