INTRODUCTION

The 1977-78 Fiscal Year Statistical Summary is issued by the Los Angeles County Sheriff's Department as a means of evaluating the effectiveness of current procedures and as a reference for future development of the Department.

The following is a clarification of the terms utilized in the Summary:

Crime Rates

Crime Rates in this Summary are based on a population of 10,000 rather than 100,000 as in the State of California and Federal Bureau of Investigation reports. This makes the rates more significant in view of the population distribution in the various Station and Contract City areas. The Crime Rate is calculated as follows:

$$\frac{\text{Number of Crimes in Area "Y"}}{\text{Population in Area "Y"}} \times 10,000 = \text{Crime Rate}$$

Population

Population figures were obtained from the Los Angeles County Department of Regional Planning Quarterly Bulletin number 137, July 1, 1977.

Area

The area figures are based on figures provided by the Los Angeles County Engineering Department for January 1, 1978.

Comparisons

Factors contributing to crime are numerous and vary from place to place. Readers are cautioned against drawing conclusions from direct comparisons of crime figures between individual communities. In Los Angeles County, a jurisdiction in excess of seven million population, several factors affect the rate of crime. These factors include:

- Climate
- Multiple levels of economic status
- Population, both resident and transient
- Composition of the population in regard to age and sex
- Number of public educational, recreational, and religious facilities
- Public attitude toward law enforcement
- Number of police employees per unit of population
- Policies of the prosecuting officials and courts

In evaluating percent changes, consideration must be given to the dates during which the changes took place as well as to the actual number of crimes upon which the percentage is based.

Part I Offenses

The Part I Offenses are used by law enforcement agencies in the United States to reveal the extent and trend of criminal activity. Any significant change from the anticipated pattern of the figures alerts Law Enforcement Administrators to possible problem areas. The Part I Offenses are Criminal Homicide, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny Theft, and Grand Theft Auto.

The Sheriff's Department records the reports of the Part I Offenses and maintains statistical files with regard to violations, locations of occurrences, arrests by age and sex of the offenders, and by disposition of cases. Only the most serious classification is tabulated from reports with multiple classifications. If a suspect is charged with Burglary and Malicious Mischief, only the Burglary (the more serious crime) is included in the statistics. However, if several persons together commit one crime, each person is counted in "Adults Arrested"; only one crime is counted in "Cases Handled". Thus, statistics maintained by each of the Stations or Bureaus may differ from those recorded in this Summary. Similarly a single case handled may have multiple assignments with the result that cases assigned will total more than cases handled.

Percentage Comparisons

Whenever the availability of data permits, percentage changes are indicated. These percentages reflect increases or decreases in the total number of cases. It must be noted that these changes do not adequately reflect changes in manpower expended. It is in fact possible for a decrease in cases to represent an increase in man-hours expended due to a greater number of hours required for each case.

Note: The 1976-77 arrest figures used for comparison in this 1977-78 Fiscal Year Summary do not agree with those listed in the 1976-77 Fiscal Year Summary. Adjustments were made in the computer program to capture arrests previously unrecorded.

COMMERCIAL CRIMES BUREAU

FORGERY DETAIL

The Forgery Detail is made up of two Units, each of which is assigned separate responsibilities.

The Forgery Investigation Unit is assigned worthless document cases which include forged checks, warrants, and other bank instruments, misuse of credit cards, and forged prescriptions. Within this Unit, a group designated "Organized Forgery Team" concentrates on the cases wherein organized criminal activity is suspected.

The Central Check Index is responsible for receiving, coordination and distribution of forged, account closed, non-sufficient fund checks, credit card cases, and forged prescriptions. Information received from all Sheriff's Stations and thirty-six other Los Angeles County police agencies is correlated, indexed and available for use by investigators.

COMMERCIAL CRIMES BUREAU

FRAUD DETAIL

The Fraud Detail is charged with the responsibility to investigate illegal acts or a series of illegal acts committed by non-physical means and by concealment or guile committed to obtain money or property, to avoid the payment or loss of money or property, or to obtain business or personal advantage. These acts include frauds, embezzlements, buncoes, unfair business practices, thefts by use of computers, and thefts of trade secrets.

The following statistics, except for the first table labeled "workload", are new. The system for generating them was implemented in January 1977, and so, there is not a prior year's figure with which to compare. The first table is presented so that some comparison can be done.

CAREER SERVICES SECTION

The basic objective of the Career Services Section is to provide for the optimum utilization of law enforcement through personal technical development.

To achieve this goal, the Section has developed and presently operates Career Counseling, the Communication Line, Civilian Programs, Law Enforcement Intern Program, and the publishing of outside job opportunities. In the near future, the Section will implement the newly developed Centralized Job Application Filing System. This System is an expansion of our current transfer system, designed to benefit both the Department and employee in an improved efficiency of transfer requests. The Patrol Experience Program (PEP) was developed by the Career Services Section and managed by the Section until May, 1978. The program is currently managed by Headquarters Custody. The Recruitment Unit's functions and duties have been absorbed by Career Services Section.

RESERVE FORCES

The information contained in this report gives an account of the various activities performed by the Sheriff's Reserve Forces during the 1977-78 fiscal year as it compares to the 1976-77 fiscal year.

The total number of hours worked by all Reserves reflects a slight decrease for this reporting period. The overall complement of the Reserves also decreased slightly; however, there was slight change in the average number of hours worked per year per Deputy.

Through the efforts of the Reserves, the monetary savings to the county taxpayer is as follows: 1976-77* -- \$4,647,409.20; 1977-78 -- \$4,869,350.50 (5% increase over 1976-77; permanent employee benefits, +25%, bring savings to approximately \$6,086,690.)

*Based upon hourly rate of a Deputy III, Step 3, with an Intermediate POST Certification.
