Planning & Research Coordinator
GEORGE U. BROTZ

The Honorable
County Board of Supervisors
Court House
Milwaukee, Wisconsin

Ladies and Gentlemen:

It is a privilege to submit to your honorable body
the annual report for 1978 listing the progress and
activities of this office.

Your excellent support and cooperation to our proposals
and requests during the year, accounted for a most efficient,
effective and economical service program to the citizens
of the County.

Our sincerest thanks and appreciation are extended to
the Board and to all county agencies allied with this
office for their assistance in fulfilling our goals and
objectives during this busy year.

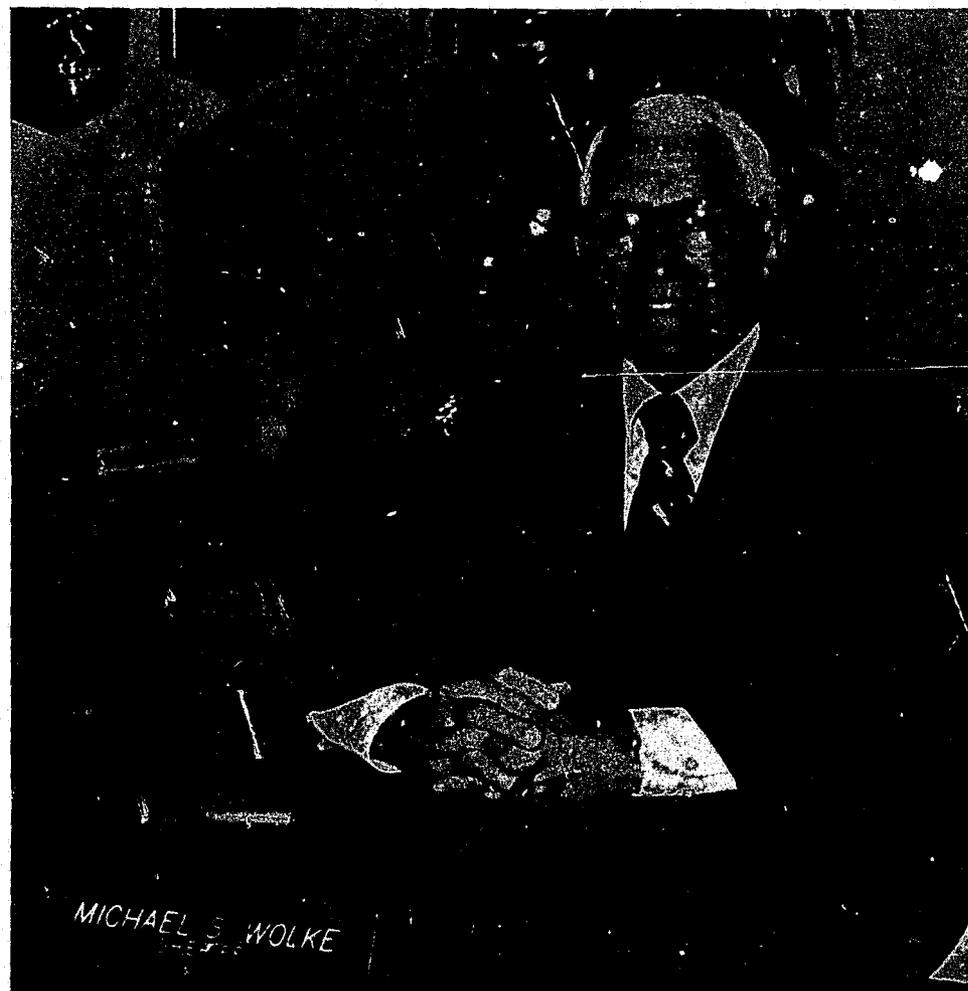

Respectfully submitted,

Michael S. Wolke
MICHAEL S. WOLKE, SHERIFF
MILWAUKEE COUNTY, WISCONSIN

ADMINISTRATION

The affirmative action goals of the Department were further enhanced during the year by the creation of an Affirmative Action Committee consisting of a cross section of bureau personnel and in command of a Lieutenant. In addition, eight employees attended specialized affirmative action training programs.

County Board action during the year brought about completion of the Department reorganization as recommended by the Department of Administration. The action taken was to approve a Deputy Sheriff Captain to be in charge of the Security Bureau, additional Sergeants to supervise shifts in the Communications Bureau.

In a prior segment of the Department restructure, the addition of a night command Lieutenant, now distributes more effective command responsibilities on the night shifts, providing one Lieutenant in charge at headquarters and one available several nights per week for field inspections. In addition, realignment enabled the placing of a Captain to administer the departmental Cadet program which utilizes CETA personnel, and provides guidance to the supervision of the Neighborhood Security entity and Museum Guards.

Special efforts were again effected in the parks at the requests of several municipal Police Chiefs, and upon recommendation of County Board members, a special task force was instituted to

control crime related activities in the park system.

Captains meetings were held every Tuesday and Friday in the Inspector's Office. Commanders of all service sections met every Thursday with the Deputy Inspector. Administrative staff meetings, which includes all above officers and representatives of the Deputy Sheriff's Association were held on the first Thursday of every month.

The Deputy Sheriff's Association, while negotiating their present contract resorted to informational picketing of the courthouse, Safety Building, and County Supervisors' homes. Generally, public sentiment was on their side as they exhibited

a high degree of professionalism in their actions.

The Training Academy, in addition to their formal training of recruits, conducted in-service programs in:

- Command Post Procedures
- Latent Fingerprints
- Handling Hostage & Negotiations
- Hazardous Materials, Spills & Accidents
- Smoke Masks
- Police Baton
- SWAT - Scuba
- Tornado Spotting
- Pistol Shoots
- Mental Health Act
- Dignitary Protection
- Drunken Driving
- Children's Code

* Change in Accounting Procedures

COUNTY JAIL

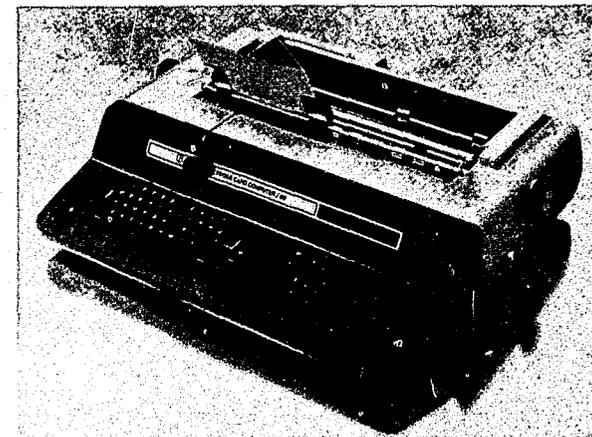

During 1978, remodeling designed to bring the jail into compliance with national standards continued. Much of the work was completed by the year's end and the new areas are scheduled for full operation by early 1979.

All day room construction in the 5-East section of the job has been completed and stainless steel tables ordered for these rooms have been delivered. The area will be opened for use early in 1979 as a women's section with the capability of being used jointly with male inmates. Moving the operation to the south end of the fifth floor will result in security improvements in the operation of the entire

area while providing more privileges to its inmates.

During 1978, the jail experimented with improving visiting privileges for all inmates. Completion of a non-contact visiting area at the West gate resulted in expansion of visiting hours in the jail from four hours to fourteen hours. For the first time in its history, the Jail now has visiting on two weekday evenings.

Unexpected strikes by skilled tradesmen and problems with delivery of materials delayed completion of the single cell complex being constructed on the third floor west. It is now

estimated that the area will be ready for use in March of 1979, and it will help to reduce overcrowding in the main Jail.

The roof top exercise area which was projected for use in Fall of 1978, has been delayed by the failure of the window units provided by the contractor. The windows have been redesigned and the new occupancy date has been moved up to Spring of 1979.

Completion of maximum security cells on the ground floor of the jail was delayed by strikes and supplier problems, and this badly needed area

will open for use in March of 1979.

As part of reconstruction, a new kitchen was started in 1978. Primary heating and ventilation work has extended into 1979, and the kitchen will not be operational during the period covered by the report. Added to this project by funding and construction approval, a new elevator will connect the new basement kitchen directly with all floors of the main Jail. The new elevator has been designed to handle all food and supplies, thus freeing the existing elevator for use in conveying inmates and other personnel with a corresponding increase in efficiency of the operation of the Jail.

Approval and funding was again provided by the County Board for the installation of a fire detection and alarm system in the Jail. No starting date for installation has been set. During 1978, the Jail had several serious fires with one death and several injuries.

In April of 1978, a new dental office was opened and treatment was provided for over three hundred inmates who previously would have been taken, under guard, to the dental clinic at the County General Hospital.

Major construction has resulted in disruption of operations. Many changes in performance were caused by court decisions which the Jail anticipated prior to final judgment.

PROCESS & COURTS

Newly created positions of Bureau Captain and Field Sergeant were filled to maintain closer supervision in the field as well as administratively. Process districts will be reduced by

three, inasmuch as the District Attorney's Office activated a procedure to serve subpoenas by the mailing process. Plans are now being formulated to computerize the records of

all process received.

Court restructuring was put into effect and jurisdiction of the courts were reclassified. All courts are

Presently Circuit Courts, which hear both criminal and civil matters, placing a greater demand on deputies assigned to the bailiff's pool. During 1978, there were twenty-three

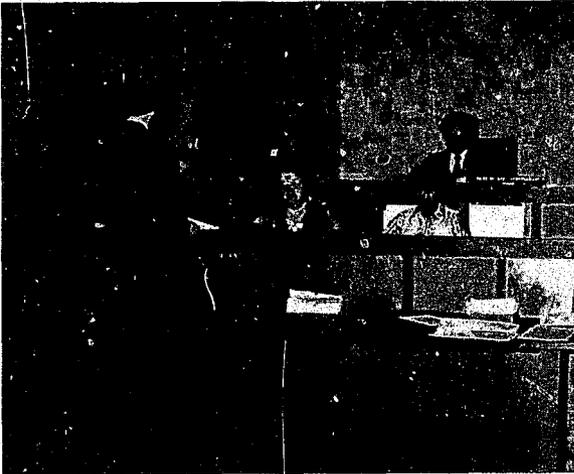

(23) out-of-town Judges that required bailiff services on criminal matters, as opposed to six (6) Judges in 1977.

The Process and Courts Bureau provi-

ded personnel to assist municipalities in curbing disorders and vandalism in the County Park System. This function expended 478.0 man-hours.

POLICE SERVICES

During the past year, the Sheriff assisted constituent agencies within Milwaukee County in maintaining peace and order within the Milwaukee County Park System.

Responding to requests from the District Attorney and municipal police chiefs for assistance in several sensitive, complex investigations of long duration, plus investigations generated by Corporation Counsel and County Institution personnel resulted in an increased workload on an overtime basis. Subsequently, manpower deployed by the normal daily service of criminal writs was diverted to those investigations, increasing the backlog in that service function.

FUGITIVE IV-D SECTION

This unit was made possible through an amendment of the Social Security

	<u>1976</u>	<u>1977</u>	<u>1978</u>

SPECIAL ASSIGNMENTS

Deputies Assigned to Courthouse	1	1	1
Service Calls and Assignments	6,537	5,366	6,160
Mail Deliveries (Supvrs, Attnys, etc.)	74	118	255
Past Due Traffic Notices	2,301	1,818	1,640

Act which provides for federal funds in seeking out fugitive fathers. Wisconsin State Law, Chapter 82, and Wisconsin Statutes, Chapter 46.25 became effective October 1, 1975, and provides the means of implementing federal legislation. Under this program, one Deputy Sheriff Sergeant and twelve Deputy Sheriff II's have the responsibility of locating fugitive fathers and enforcing orders for support. This unit coordinates all activities through the Child Support Enforcement Coordinator with other county departments and the Commission on Family Resources.

WELFARE FRAUD INVESTIGATIVE UNIT

This section consists of four teams of two Deputies each and one Deputy Sheriff Sergeant who conduct welfare fraud investigations at the Department of Social Services. One Clerk-Stenographer II and one Typist II handle the clerical duties. Sworn personnel are engaged in the investigation of complaints relating to persons obtaining welfare funds fraudulently. In 1978, this unit was responsible for uncovering \$590,894 in activity related to 409 substantiated cases. Restitution received by Department of Social Services at their business office shows \$81,302. A report validated by the Milwaukee County Data Processing Division, indicates voluntary restitution and court ordered restitution in the amount of \$244,036.

BOMB SQUAD

The explosive ordnance technicians responded to forty-eight searches and investigations related to threats received

by Department Heads in county owned buildings or on county owned lands. These technicians also disposed of several types of dangerous explosive materials with no premature detonations taking place.

For the year 1978, forty-four (44) Milwaukee County Deputy Sheriffs were assaulted by persons or prisoners being taken into custody on writs of temporary detention, warrants and/or persons suspected of crimes.

TRAFFIC BUREAU

The opening of the Airport Spur linking General Mitchell Field to Interstate I-94 added 1.4 miles to the Milwaukee County Freeway system during the year. This further extended the efforts of the Traffic Bureau which has experienced an increase of 10% in additional miles of highways since 1969 from 62.5 to 68.3 in 1978 without any addition in authorized patrol strength.

Countering state and national trends, the Milwaukee County freeway fatality rate dropped to 0.4 deaths per 100 million vehicle miles travelled. Seven (7) deaths occurred in six (6) fatal accidents. Traffic volume rose 6%.

Enforcement efforts by the Traffic Bureau deputies involved: a 98% increase in drunken driving arrests - from 214 in 1977 to 424 in 1978, and an increase of 14% in the number of speeders arrested.

AIRPORT SECURITY BUREAU

This force was established in 1973 to comply with the security requirements as established by the Federal Aviation Administration section of the U. S. Department of Transportation as set forth in Part 107 of the Federal Aviation Regulations. The Security Bureau at Mitchell Field is staffed and equipped to respond to the full scope of law enforcement needs of the Airport, including those of the air carriers and other tenants.

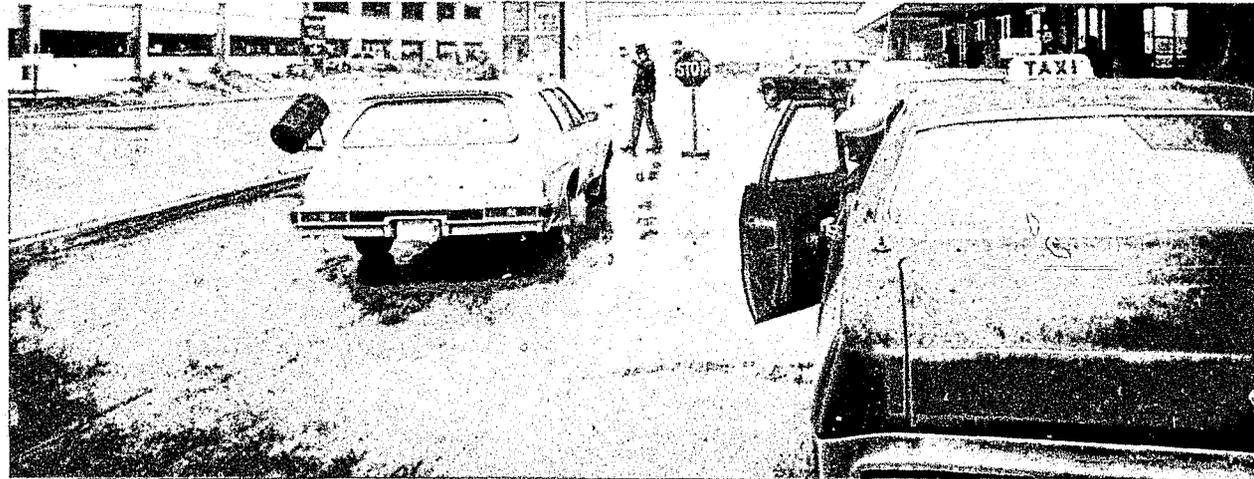

The potential for crimes against civil aviation remains, but the current U. S. Civil Aviation Security program has demonstrated the capability of meeting and containing the present threat.

Airline passenger screening procedures continue to effectively prevent weapons and dangerous articles from being carried aboard aircraft. Reactions by the public to passenger screening

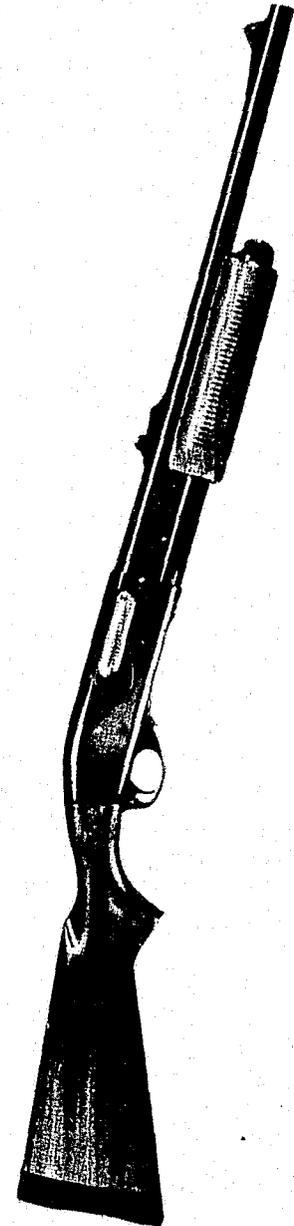

procedures, indicates that they desire and expect these methods in the interest of aviation security.

The introduction of four new air carriers to Mitchell Field, the opening

of the Airport Spur from I-94 into the terminal area, and the partial opening of the new parking structure, have added to the responsibilities of the Sheriff's Airport Security Bureau.

COMMUNICATIONS

The Communications' Bureaus activities for 1978, in addition to providing normal, on-going communications services to the Department, placed emphasis on planning and development for the future. Administrative personnel began planning for the transition, in early 1979, to a staff of civilian operators supervised by Sergeants. Concurrently, development of a formal recruit and in-service training program for communications operators was begun, for initiation in 1979.

The Communication's Bureau staff spent a portion of the year with data processing personnel, revamping and refining the Justis/Time

system interface computer program to provide faster and more convenient data transmission/retrieval service to all interface users in 1979.

Emergency tests and warnings disseminated	402	430	428

The Communications Bureau published a training guide, for department wide utilization, on the proper use of the Sheriff's Communication system.

TRAINING AND SPECIAL SERVICES

The Training Academy's staff of one Lieutenant, one Sergeant, and one Clerk-Steno has the challenging task of not only training all new deputies hired, but in keeping the entire department apprised of: all new laws amended laws, recent court rulings, and all other pertinent occurrences in the criminal justice system. The ever increasing demands that society places on law enforcement personnel require that they be well informed and properly trained. The Training Academy has the task to prepare our deputies for the demands of our citizens.

In 1978, the Training Academy held two recruit training classes in which 45 law enforcement officers were certified by the Law Enforcement Standards Board to perform as a sworn law enforcement officer. The Academy also conducted two qualification shoots where all department sworn personnel qualified in firing their service revolver. All deputies also received training in the proper defensive use of the baton as the department plans to issue batons to all uniformed personnel.

Two seminars on terrorism and hostage situations were presented, one to all department supervisory personnel and one to various county department heads, administrators, Judges, and elected officials. The Academy staff gave 39 presentations to 976 people who toured the Safety Building and gave 23

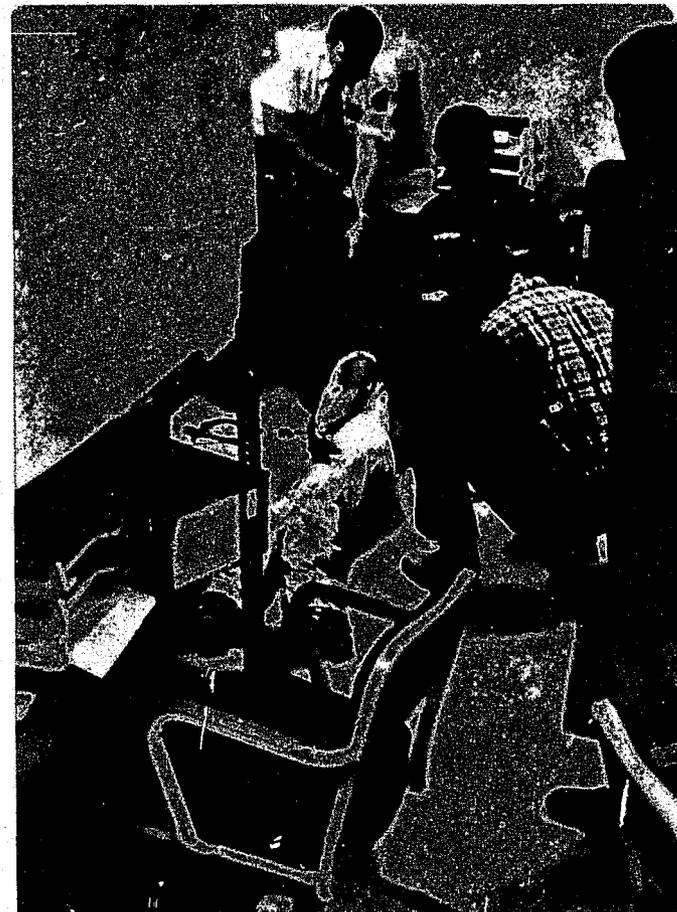

presentations to 1,080 people at various locations in Milwaukee County.

A new program involving in-service training was developed and implemented using the Academy's video tape equipment. Short 15 to 20 minute training tapes are produced in the Academy and shown to the deputies at their roll calls. These roll call sessions are on current law changes or other pertinent criminal justice material, and can be presented on normal duty time with no overtime expenditure. Seven training tapes were produced and viewed by department personnel in 1978. This new technique for in-service training will be expanded in 1979 as initial results have been excellent.

Our Department sent one man to the FBI Academy for the three-month command course, four men attended other out-of-state courses, and 49 officers attended seminars and schools within Wisconsin.

TRAINING

	<u>1976</u>	<u>1977</u>	<u>1978</u>
Deptm'l personnel attending recruit classes	27	6	19
Other dept personnel attending classes	54	35	26

Deptm'l personnel attending specialized courses	126	152	131
LESB and LEAA training reimbursement	\$28,993	\$28,018	\$47,855

LOOKING AHEAD

SECURITY BUREAU

The creation of a Security Bureau should facilitate the growing need to weld all the security needs of Milwaukee County under one person responsible to County Government.

DRUG UNIT

A county-wide Drug Unit will enable the Sheriff to coordinate drug related activities with Municipalities.

NEW OFFICES

Planning for new Sheriff's Department offices will continue in attempts to create a central headquarters designed to continue all functions with greater efficiency.

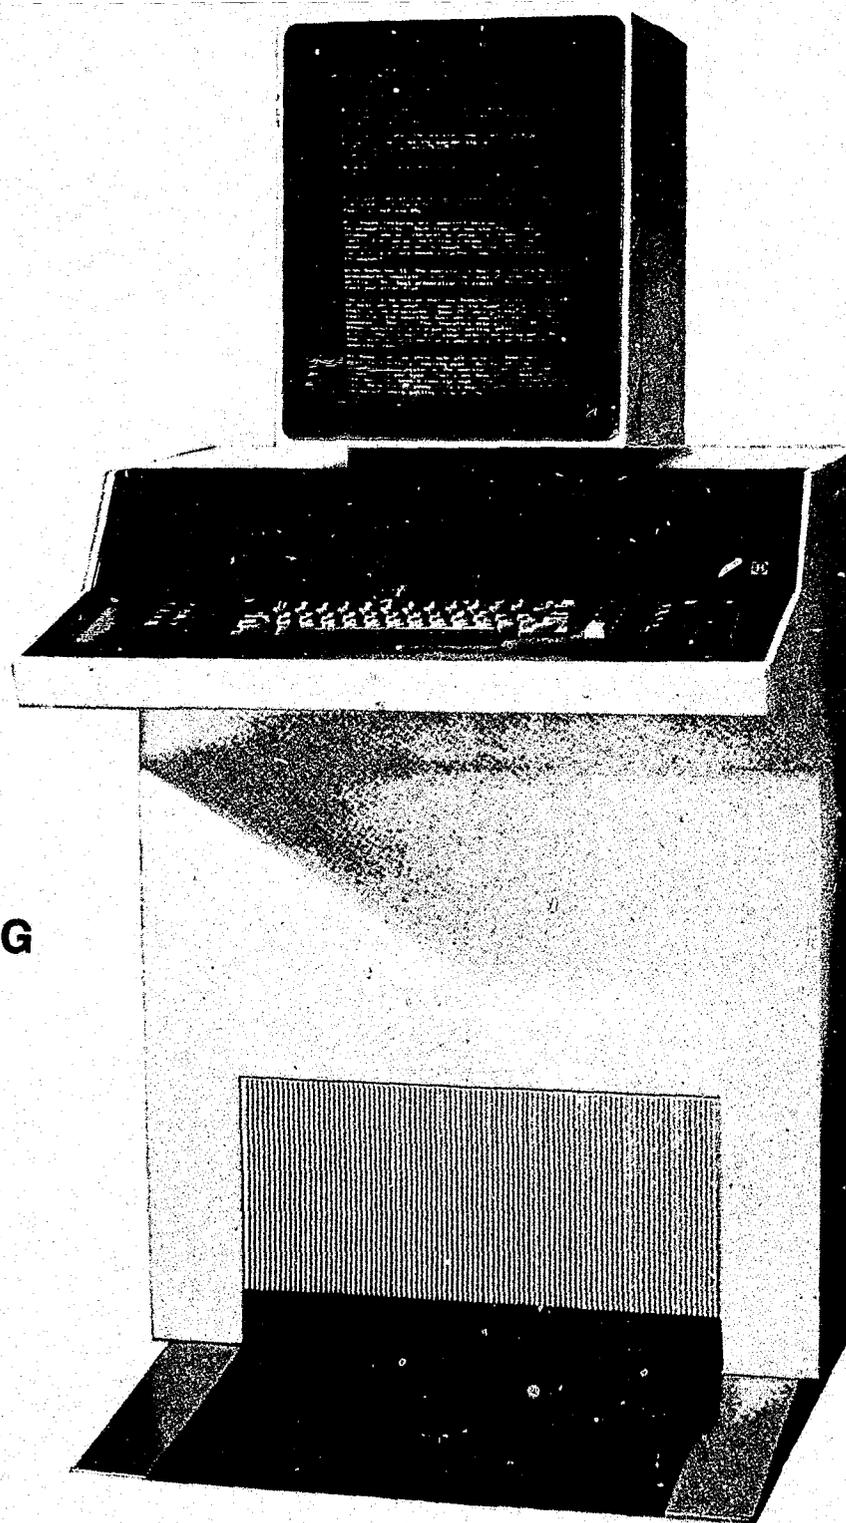

TRAINING FACILITY

The requirement for a new training facility must be carefully looked into so as to continue to comply with standards of training for law enforcement officers.

COMPUTERIZATION

The automation of civil process and Traffic Bureau records would provide a more sophisticated and structured information management and processing system.

WORD PROCESSING

A Code of Ethics for Sheriffs and Deputy Sheriffs

(Adopted June 29th by the Wisconsin Sheriffs & Deputy Sheriffs Association)

AS A LAW ENFORCEMENT OFFICER, by virtue of the authority conferred upon me by the state of Wisconsin and the local governments by which I am employed, I accept it as my responsibility and fundamental duty to devote my abilities, energies, and efforts to the preservation of law and order; to the safeguarding of lives and property; the protection of the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence.

IN THE FACE OF DANGER, scorn or ridicule, I will remain courageous and calm. I will respect the constitutional rights of all individuals, regardless of color, race, or creed. I will practice self restraint and understanding in dealing with human frailties, and I will never lose sight of the fact that, as an officer of the law, I am not the master of the people — but the servant of the law abiding.

IN THOUGHT AND DEED, both in my personal and official life, I will strive to set a good example to all by obeying the laws of the land and the regulations of my Department. Confidential information divulged to me in my official capacity will be kept ever secret, unless revelation is necessary in the proper performance of my duties.

EVER MINDFUL of the fact that it is better to prevent the commission of an act of crime than to apprehend the wrongdoer after the act has been committed, I will constantly strive to communicate to the general public ways and means in which crime may be prevented.

WITHOUT FEAR OR FAVOR, malice or ill will, I will enforce the law courteously, impartially and effectively. Without compromise, I will pursue the perpetrators of criminal acts relentlessly, never employing unnecessary force in making apprehensions and bringing law violators to justice.

IREGARD THE BADGE OF MY CHOSEN PROFESSION as a symbol of public faith, and I accept it as a public trust.

I DEDICATE MYSELF to be true to that trust, and I will keep the faith by upholding the ideals set forth in this code of ethics, unanimously adopted by the Wisconsin Sheriffs & Deputy Sheriffs Association, in Conference, at Land O' Lakes, June 29, 1966.
