## FOREWORD

Crime in Hawaii is again the primary concern of the public, according to a recent survey conducted by the *Honolulu Advertiser's* Hawaii Poll. The March 18, 1980, edition of the *Advertiser* reports:

"Crime was cited most frequently by almost every segment of Hawaii's population: every age group from teenagers to senior citizens; every county except Kauai, where it was a close second; among both Hawaii natives and people from elsewhere; school dropouts and college grads; all ethnic groups; rich, middle income and poor."

*Crime in Hawaii, 1979: A Review of Uniform Crime Reports*, has been prepared to serve as a summary of statistics on crime in the State and Counties of Hawaii. This report is published to provide law makers, heads of State and County governments, law enforcement officials and other administrators with authentic and reliable statistics to assist them in making decisions in their respective fields.

Crime in Hawaii has increased significantly in the past year. All Crime Index offenses, with the exception of burglary, increased during the period 1978-1979 (see Table 1). While this publication serves as a tool for administrative and operational decisions, it also serves to inform the public as to the extent of criminal activity in Hawaii.

Prior reports were made possible through grants awarded to the Hawaii Judiciary by the Law Enforcement Assistance Administration (LEAA). The Statistical Analysis Center is currently funded by the State of Hawaii.

## INTRODUCTION

### Operational Criteria

The development of the State Uniform Crime Reports (UCR) Program is a relatively new approach to the collection of UCR data. An important aspect of the transference of this collection responsibility from the FBI to a State agency is to ensure consistency and comparability in the data collected by the State programs. Following are the conditions set by the FBI under which a State program is developed and by which it must operate:

(1) The State program must conform to the national Uniform Crime Reports standards, definitions, and information required. This, of course, does not prohibit the State from collecting other statistical data beyond the national collection.

(2) The State agency must have a proven, effective, mandatory, statewide program and have instituted acceptable quality control procedures.

(3) Coverage within the State by a State agency must at least be equal to that attained by Uniform Crime Reports.

(4) The State agency must have adequate field staff assigned to assist local units in record practices and crime reporting procedures.

(5) The State agency must furnish to the FBI all of the detailed data regularly collected by the FBI in the form of duplicate returns, computer printouts, and/or magnetic tape.

(6) The State must have the proven capability (tested over a period of time) to supply all statistical data required to the FBI in time to meet national Uniform Crime Reports publication deadlines.

(7) The FBI will continue its internal procedures of verifying and reviewing individual agency reports for both completeness and quality.

(8) The FBI will continue to have direct contact with individual reporting units within the State where necessary in connection with crime reporting matters, but will coordinate such contacts with the State agency.

(9) Upon request, the FBI will continue its training programs within the State with respect to police records and crime reporting procedures. For mutual benefit these will be coordinated with the State agency.

(10) Should circumstances develop whereby the State agency cannot provide the data required by the national program, the FBI will reinstitute a direct collection of Uniform Crime Reports from police units within the State.

### Background

UCRs are a long-standing source of information about law enforcement and crime.

The purpose of the Uniform Crime Reports component is:

to establish, at the state level, the responsibility to collect and report uniform crime data in accordance with standards developed jointly by the Federal Bureau of Investigation and the International Association of Chiefs of Police (IACP).

### Information Requirements

The Uniform Crime Reports Program has been traditionally oriented toward law enforcement statistics. The basic data elements required by the FBI, when supplemented by additional state oriented items, permit a variety of interesting statistical analyses.

Three categories of statistical reporting are utilized:

- Crime Trends - Reported Offenses
- Arrest Patterns
- Offense Characteristics

### **Recent Developments**

The Congress of the United States, in October, 1978, passed legislation mandating that arson be classified as a Part I, Crime Index Offense in the UCR Program. Arson data for 1979 are not available, but will be published in Crime in Hawaii, 1981.

The National UCR Program will modify its collection of data on the Age, Sex and Race of Persons Arrested effective January 1, 1980. All data concerning race will be condensed to reflect only White, Black, American Indian or Alaskan Native, and Asian or Pacific Islander. In addition, ethnic origin data i.e., Hispanic or not Hispanic, will be collected. New age breakdowns for persons arrested under the age of 18 will be instituted. The new categories will be used to show the number of persons arrested under ten years of age and those between the ages of 10 and 12.

The State of Hawaii UCR Program will continue to report the racial categories utilized since 1976 in all reports, in addition to the new Federal standards.

### **Arrest Patterns**

Statistical reports derived from arrest information are presented with other UCR exhibits because they are primarily of interest to law enforcement agencies.

### **Offense Characteristics**

UCR provides a vehicle for collecting information which describes criminal events in detail. Law enforcement and planning agencies have the predominant need for these data because of their relationship to crime prevention. Such data can be used to analyze crimes of violence according to weapon used, day of the week, victim relationship, victim age, offender age, and the police officer as a victim. Monetary losses resulting from crime against property can also be portrayed.

The monthly data collection forms encompass reported offenses, supplemental information about actual offenses and characteristics of arrested persons.

### **Hawaii UCR Program**

In an effort to provide as complete a picture of crime in the State of Hawaii, the Hawaii Criminal Justice Statistical Analysis Center (SAC) presently has the responsibility of serving as the clearinghouse for Uniform Crime Reporting (UCR) data.

Uniform Crime Reports on personal and property crimes in Hawaii are compiled and analyzed by the SAC.

As crime and fear of crime are recognized by citizens of the State as a problem of highest concern, timely and accurate information is necessary to assist administrators and other public officials in assessing the problem.

SAC is able to provide information related to crime at the State and County levels with sufficient timeliness to alert all criminal justice agencies and the public long before national crime data are released.

Significant changes have been made to the UCRs for the State of Hawaii. Prior to SAC's involvement in the UCR Program, the four counties independently submitted reported offense and arrest statistics to the FBI on an optional basis.

UCRs maintained at SAC differ from data collected at the National level in that the unique racial breakdown for Hawaii is recognized and compiled. The FBI uses only six racial categories: White, Negro, Indian, Chinese, Japanese, and All Other. The Hawaii program has broken out the "All Other" category to include: Filipino, Samoan, Korean, Hawaiian/Part Hawaiian, and Others. Previously, the "All Other" category comprised almost 50 percent of all arrests.

Another significant change to the UCR Program has been initiated. Approximately 66 percent of all murder victims in Hawaii were classified in the "All Other" category. Effective January 1, 1978, SAC requested that all Police Departments break out racial characteristics of murder victims to conform with the arrest categories.

These changes, along with the functions of clearinghouse and data resource center have added much to the analyses of crime for Hawaii-specific problems.

It is with these purposes in mind that we submit to you the Fifth Annual "Crime in Hawaii: A Review of Uniform Crime Reports."

## **TYPES OF CRIME STATISTICS**

Seven offenses were chosen in the UCR Program because of their seriousness and frequency of occurrence as indicators of crime in the United States - these are known as Index Crimes.

It must be kept in mind that all offenses reported herein are known offenses to the police. There has been no consideration taken of any unreported crimes. Because not all crimes come to the attention of the police, the International Association of Chiefs of Police (IACP) limited the reporting of offenses known to the following crime classifications because these are assumed to be the crimes which are most likely to be reported and which occur with sufficient frequency to provide an adequate basis for comparison. They are also serious crimes by nature and/or volume. The chosen offenses are:

1. Criminal Homicide
2. Forcible Rape
3. Robbery
4. Aggravated Assault
5. Burglary
6. Larceny-Theft
7. Motor Vehicle Theft

Essential to maintenance of uniform and consistent data is the establishment of a standard definition of the offenses to be used in the program. Each of the Part I Offenses has been defined specifically in UCR. The Crime Index Offenses are all of the Part I Offenses with the exception of 1b, manslaughter by negligence. Part II Offenses are all other offenses not listed as Part I.

## HAWAII CRIME SUMMARY

### Index Crimes

The seven most serious crimes (Index Crimes) reported in 1979 totaled 66,245 as compared with 63,934 Index Crimes reported in 1978. The reported Index Crime rates were 7,129.9 and 7,241.5 per 100,000 population for 1978 and 1979, respectively.

### Largest Category of Index Crimes

Consistent with the trend across the nation, larceny-theft remained the largest category of the Index Crimes. A total of 40,534 were reported in 1979 or an increase of 3.9 percent over the previous year and constituted 61 percent of all Index Crimes.

### Personal Crimes

Crimes against persons, or violent crimes totaled 2,647 in 1979, a 9.4 percent increase over the previous year of the four categories of crimes in this group. All four Index Crimes increased over the previous year. Murders were up 10 percent from 60 in 1978 to 66 in 1979; Rape offenses increased by 28 percent (231 to 296); Robberies were up by 8.5 percent (1,556 to 1,688) and Aggravated Assaults by 4.4 percent from 572 in 1978 to 597 in 1979.

### Property Crimes

Crimes involving property and committed without the use of force totaled 63,598, or an increase of 3.4 percent over 1978. Of this total, larceny-theft accounted for 63.7 percent of all property crimes with burglary and motor vehicle theft accounting for 26.0 and 10.3 percent, respectively.

Residential burglaries accounted for 66.7 percent of all burglaries

reported with more than half or 56.3 percent committed during the day.

### Value of Property Stolen

The total value of property reported stolen in Hawaii during 1979 was \$39,372,500. The police departments were successful in recovering 32.1 percent of the loss or \$12,638,500 as compared with a 27.3 percent recovery rate in 1978. Property loss was reported as a result of 66 murders, 1,688 robberies, 16,522 burglaries (breaking and entering), 6,542 motor vehicle thefts and 40,534 larceny-theft.

### Arrests Reported for Index Crimes

A total of 10,115 arrests were made for Index Crimes in 1979, accounting for 31.5 percent of all arrests.

### Total Arrests Reported

A total of 32,081 arrests for all non-traffic offenses were reported in 1979. Juvenile arrests accounted for 29.6 percent of all persons arrested for the year.

### Narcotic Drug Arrests

A total of 1,812 arrests for drug violations were reported in 1979 as compared with 2,481 in 1978. Of this number 16 percent were persons under 18 years of age.

### Gambling Arrests

A reported 1,294 arrests were made on charges of gambling in 1979. A total of 120 arrests or 9.3 percent were juveniles under 18 years of age. This compares with 9.9 percent for the same period in 1978.

## Murder and Nonnegligent Manslaughter

### Definition

Murder is defined in the Uniform Crime Reporting Program as the willful killing of another. The classification of this offense, as in all of the other Crime Index offenses, is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body.

Deaths caused by negligence, suicide, accident, or justifiable homicide are not included in the count for this offense classification. Attempts to murder or assaults to murder are scored as aggravated assaults and not as murder.

## Aggravated Assault

### Definition

Aggravated assault is the unlawful attack by one person upon another for the purpose of inflicting severe bodily injury usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime is successfully completed.

## Burglary

### Definition

The Uniform Crime Reporting Program defines burglary as the unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify the crime as a burglary. The offense of burglary in this Program is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

## Larceny-Theft

### Definition

Larceny-theft is the unlawful taking or stealing of property or articles without the use of force, violence, or fraud. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc. In the Uniform Crime Reporting Program this crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft, of course, is excluded from this category for crime reporting purposes inasmuch as it is a separate Crime Index Offense.

## ARREST STATISTICS

### **Persons Arrested**

The number of persons arrested for all violations except traffic in the reporting jurisdictions is compiled from monthly returns submitted by the contributing agencies. The age, sex and race of these persons is recorded and data are collected for juveniles as well as adults for the purpose of computing arrest trends and volume.

The Age, Sex, and Race of Persons Arrested form is used to collect data on the number of persons arrested and not the number of persons charged. The same person may be arrested several times during a month for similar or several different violations within a jurisdiction; each separate arrest is counted. It is also possible that a person is arrested on several charges at one time; however, in this instance only one arrest is scored.

Race of Persons arrested is broken out by both the national reporting format and the State of Hawaii format. Nationally utilized categories include only Caucasian, Negro, Indian, Chinese, Japanese and All Other. For the State of Hawaii, the "All Other" category is further broken down to include Filipino, Hawaiian/Part Hawaiian, Korean, Samoan and Other.

The following tables present data on persons arrested by age, sex and race for the State of Hawaii, 1979. County breakdowns for the same categories are available as a supplement to this Annual Report.

# UNIFORM CRIME REPORTING DEFINITIONS

## Part II Offenses

### 1. Other Assaults

All assaults other than aggravated are included in this category.

### 2. Arson

Included are all arrests relating to arson or attempted arson. If personal injury results from the arson, the situation would be classified as aggravated assault. In the event a death results from arson, the incident would be classified as a murder.

The United States Congress, in October, 1978, passed legislation mandating that arson be classified as a Part I, Crime Index Offense in the UCR Program. Arson as a Part I offense will be reflected in the 1981 Crime in Hawaii publication.

### 3. Forgery and Counterfeiting

Included in this classification are all offenses dealing with or attempting to deal with the making, altering, or possessing, with intent to defraud, anything false in the semblance of that which is true.

### 4. Fraud

Fraudulent conversion and obtaining money or property by false pretenses; includes bad checks, confidence games, etc., except forgeries and counterfeiting.

### 5. Embezzlement

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

### 6. Stolen Property: Buying, Receiving, Possessing

Included in this category are all offenses of buying, receiving, and possessing stolen property, as well as all attempts to commit any of these offenses.

### 7. Vandalism

Vandalism consists of the willful or malicious destruction, injury, disfigurement, or defacement of any pub-

lic or private property, real or personal, without consent of the owner or person having custody or control, by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law.

This offense covers a wide range of malicious behaviour directed at property such as: cutting auto tires, drawing obscene pictures on public restroom walls, smashing windows, destroying school records, tipping over gravestones, defacing library books, etc.

All arrests including attempts are scored as vandalism.

### 8. Weapons: Carrying, Possessing, Etc.

This class deals with weapon offenses, regulatory in nature, such as: manufacture, sale, or possession of deadly weapons; carrying deadly weapons, concealed or openly; using, manufacturing, etc., silencers; furnishing deadly weapons to minors; aliens possessing deadly weapons.

All attempts to commit any of the above.

### 9. Prostitution and Commercialized Vice

Include in this class the sex offenses of a commercialized nature, such as: prostitution; keeping bawdy house, disorderly house, or house of ill fame; pandering, procuring, transporting, or detaining women for immoral purposes, etc.

All attempts to commit any of the above.

### 10. Sex Offenses

(Except forcible rape and prostitution and commercialized vice)

Included are offenses against chastity, common decency, morals, etc.; adultery and fornication; buggery; incest; indecent exposure; indecent liberties; intercourse with an insane, epileptic, or venereally diseased person; seduction; sodomy or crime against nature; statutory rape (no force).

All attempts to commit any of the above.

### **11. Narcotic Drug Laws**

Narcotic drug law arrests are made on the basis of the narcotics used. The following are subdivisions of narcotic drugs law arrests:

Included are all arrests for violations of State and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

(1) opium or cocaine and their derivatives (morphine, heroin, codeine)

(26) violation of quarantine

All offenses not otherwise classified.

All attempts to commit any of the above.

### **20. Suspicion**

While "suspicion" is not an offense, it is the ground for many arrests in those jurisdictions where the law permits.

After examination by the police, the prisoner is either formally charged or released. Those formally charged are entered in one of the Part I or II Offense Classes. This class is limited to "suspicion" arrests where persons arrested are released by the police.

### **21. Curfew and Loitering Laws - (Juveniles)**

All arrests made for violation of local curfew or loitering ordinances.

### **22. Runaway - (Juveniles)**

For purposes of the Uniform Crime Reporting Program, reported in this category are apprehensions for protective custody, as defined by your local statute. Arrests made by other jurisdictions of runaways from your jurisdiction are also counted. Not included are protective custody actions with respect to runaways taken for other jurisdictions.
