Executive Office
July 1979

Harley H. Mooney, Jr.
DC, USA (Ret)
Superintendent

The Honorable John D. Rockefeller IV
Governor of West Virginia
Capitol Building
Charleston, West Virginia 25305

Dear Governor Rockefeller:

In accordance with Chapter 15, Article 2, Section 24 of the Code of West Virginia, the Department of Public Safety respectfully submits its eighth annual report on crime in West Virginia. Information contained herein is based on statistics submitted to this Department on a daily, monthly and annual basis by law enforcement agencies within West Virginia for the year of 1979.

This report has been prepared so as to provide reliable and comprehensive data to the criminal justice community. The graphic and statistical representation of the various crime factors should be invaluable to law enforcement personnel in planning programs to combat criminal activity throughout West Virginia.

Again, as in the past years, this report is dedicated to the law enforcement officers and public officials who have participated in the West Virginia Uniform Crime Reporting Program and one who paid the supreme sacrifice. Without their diligence and interest, this report would not have been possible.

Sincerely yours,

H. F. MOONEY, JR.
SUPERINTENDENT

In Memoriam

This report is dedicated to the memory of Trooper Phillip S. Kesner who lost his life on the evening of November 7, 1979, in an attempt to prevent the escape of fifteen prisoners from the West Virginia State Penitentiary at Moundsville.

Message From The Staff

Early in 1979, under mandate from Congress to the FBI, UCR began collecting Arson data as an Index Offense. Agencies were requested to submit all known Arson data beginning with January 1, 1979 to the present. Although Arson is to be treated as a Part I Offense, due to complications in absorbing Arson into the present UCR computer system as Part I and due to the fact that no previous detailed Arson data existed to compare present data with, Arson is not included in the summary of Part I offenses in the 1979 Annual Report. A summary of Arson data for the year 1979, however, is included at the end of this report. We apologize for any inconvenience due to this arrangement and ask that you bear with us.

UCR

ACKNOWLEDGEMENT

This report was published through financial assistance provided by the Law Enforcement Assistance Administration, United States Department of Justice.

INTRODUCTION

The West Virginia Uniform Crime Reporting Program is the first of many steps to be taken in the establishment of an effective State-wide Criminal Justice Information System. This particular phase of the CJIS is oriented toward law enforcement and has brought about a statewide uniform method of collecting crime statistical data, producing a consolidated annual report concerning crime in West Virginia, and reporting state-wide crime statistics from a single agency to the Federal Bureau of Investigation.

National Uniform Crime Reporting Program

The counterpart of the state-wide UCR Program is the National UCR Program which is under the direction of the Federal Bureau of Investigation. This national program is the result of a need for nation-wide and uniform compilation of law enforcement statistics. Uniform Crime Reports were first collected in 1930 after being developed by a committee of the International Association of Chiefs of Police.

Today the IACP continues to serve in an advisory capacity to the FBI in its operation of the program.

Crime statistics voluntarily submitted by individual law enforcement agencies from all fifty states are presented annually in the FBI's Uniform Crime Reports Publication entitled "Crime in the United States."

In the last several years the FBI has been actively assisting individual states in the development of state-wide programs of law enforcement statistics compatible with the National UCR Program. In taking advantage of the invaluable assistance provided, West Virginia has developed its own state-wide program for collection of law enforcement statistics.

West Virginia Uniform Crime Reporting Program

The West Virginia Uniform Crime Reporting Program involves the uniform compilation, classification, and analysis of crime statistics reported by all law enforcement agencies of the state pursuant to guides and regulations prescribed by law.

The West Virginia Legislature in the Criminal Identification Bureau Act of 1971 established the Uniform Crime Reporting Statute.

The responsibility and authority for collection and dissemination of UCR data was given to the West Virginia Department of Public Safety (State Police). This program became operational January 1, 1972.

Criminal Identification Bureau Act of 1971 Chapter 15, Article 2, Section 24, Sub-Section 1

(i) All state, county and municipal law enforcement agencies shall submit to the bureau uniform crime reports setting forth their activities in connection with law enforcement. It shall be the duty of the bureau to adopt and promulgate rules and regulations prescribing the forms, general content, time and manner of submission of such Uniform Crime Reports. Willful or repeated failure by any state, county or municipal law enforcement official to submit the Uniform Crime reports as required in this article shall constitute neglect of duty in public office. The Bureau shall correlate the reports submitted to it and shall compile and submit to the governor and the legislature semi-annual reports based on such reports. A copy of such reports shall be furnished to all prosecuting attorneys and law enforcement agencies.

Purpose and Objectives

In keeping with the recommendation of the President's Commission on Law Enforcement and the Administration of Justice, the West Virginia UCR Program is planned for eventual growth into a complete and integrated offender based Criminal Justice Information System. Under this program, each offender arrested in West Virginia will be tracked through the entire criminal justice system from time of arrest through the courts to the correctional system where his exit (parole, expiration of sentence, etc.) will be recorded. In this manner, a complete "rap sheet" on individual offenders will be available for use by the police, courts and correctional agencies in West Virginia. In addition, statistical data derived from the CJIS Program will provide assistance in determining the overall efficiency of the criminal justice system in West Virginia and will make effective management studies possible.

The fundamental objectives of the West Virginia UCR Program are:

1. Inform the governor, legislature, other governmental officials, and the public as to the nature of the crime problem in West Virginia-its magnitude and its trends.
2. Provide law enforcement administrators with criminal statistics for administrative and operational use.
3. Determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.
4. Provide base data and statistics to measure the workload and effectiveness of West Virginia's Criminal Justice System.
5. Provide base data and statistics to measure the effects of prevention and deterrence programs.
6. Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.
7. Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.

Development

Effective July 1, 1972, a federal grant was awarded to the Department of Public Safety by the Law Enforcement Assistance Administration on a 60/40 federal-state matching basis. The money provided was used to initiate a state-wide Uniform Crime Reporting Program.

For approximately two months thereafter the UCR Staff made studies of the federal program, as well as several state UCR Programs which were operational at that time. Pamphlets explaining the UCR Program and questionnaires concerning each law enforcement agency's participation were distributed. After determining the number of law enforcement agencies which would participate, forms, tally books, and the UCR Guide Manual were developed, printed and distributed to all contributing agencies.

During the development phase, numerous workshops were held in various parts of the state to present the UCR Program in detail to participating agencies.

Since that time, supplemental workshops have been held as needed. Also, the Department of Public Safety has incorporated into the curriculum of the State Police Training Academy a basic course as to the why and how of Uniform Crime Reporting.

A pilot program was maintained for two months prior to the implementation of the permanent collection and recording of data. This pilot program served mainly as a method by which to arrange data flow and solve other in-house operational difficulties.

Reporting Procedure

Under the West Virginia UCR Statute, participating West Virginia law enforcement agencies are required to submit specified Uniform Crime Reports. The necessary information for each of the required reports is gathered from each agency's record of complaints, investigations and arrests.

Crime data and information is submitted by state, county and municipal law enforcement agencies on a monthly basis.

On a monthly basis, municipal police, state police and county sheriff's departments report the number of offenses known to them in the following crime categories:

- (1) Criminal Homicide
- (2) Forcible Rape
- (3) Robbery
- (4) Felonious Assault
- (5) Breaking and Entering
- (6) Larceny
- (7) Motor Vehicle Theft
- (8) Arson

The count of offenses is taken from the record of complaints received by law enforcement agencies from victims, witnesses, other sources or discovered by them during their own operation. Complaints determined by subsequent investigation to be unfounded are eliminated from the count. The resulting number of "actual offenses known to law enforcement agencies" in these crime categories is reported without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy, or any other consideration. Reported offenses are recorded by the municipality and county in which they occur, rather than to the agency which may investigate, arrest, or otherwise in some manner dispose of the case. Municipal law enforcement agencies report those crimes which are committed within the cities, county sheriff's departments report those crimes which occur in the counties outside the city, and state police report all crimes known to them which occur in the county outside the city. Law enforcement agencies also

report' on a monthly basis, supplemental offense information such as the value of property stolen and recovered as well as circumstances surrounding homicides and other pertinent data. Additional monthly reports of persons arrested are submitted. These reports provide information concerning the age, sex and race of persons arrested by each individual law enforcement agency. Also, a police disposition of all juveniles arrested is collected.

Police employee data is also collected annually.

Verification Process

An obvious concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity and accuracy of data received. Program aides such as guides and instructions do not necessarily guarantee the accuracy and correctness of the reports submitted by the contributors. Additional controls therefore are necessary.

Each report received by the UCR Section is recorded, examined and verified for mathematical accuracy and possibly more important for reasonableness. The verification process includes numerous checks to ensure the validity of information. The elimination of duplication of reporting by individual contributors receives particular attention. Minor typographical errors are corrected by direct telephone contact with the contributor while all other errors are resolved by written correspondence, or by personal contact of a field representative or member of the UCR Staff.

Population Data

The computation of crime rates as they appear in this report by municipality, county and state are based on 1979 population estimates provided by the Federal Bureau of Investigation through the cooperation and assistance of the United States Bureau of Census.

Monthly and annual Uniform Crime Reports currently received from 368 municipal, county and state law enforcement agencies in West Virginia represent 100 percent of the estimated West Virginia population.

The West Virginia State Police maintain at least one detachment in each of the 55 counties throughout the state. In some counties, there are as many as four detachments. Each detachment is mainly responsible for law enforcement in the rural areas of the respective county. Therefore, there are two law enforcement agencies (state police and sheriff's department) in each county which serve the same area and essentially the same population.

Because of this fact, to attempt to compute a crime rate for each of the two agencies would have been highly unreasonable.

This problem was resolved by combining activity reported by both agencies into one category hereafter referred to in this report as "rural county." However, the number of offenses and percent of offenses cleared is listed separately for each agency.

CLASSIFICATION OF OFFENSES

Uniformity in reporting under the West Virginia System is based upon the proper classification of offenses by police.

The adoption of the Federal System of Uniform Crime Reporting included the utilization of the offense classifications of that system. Law enforcement in this state has made accurate application of those classifications in the reports submitted to the West Virginia Uniform Crime Reporting System.

In view of the need for compatibility with the federal system "offenses" under the program are not distinguished by designation of "high misdemeanors," "misdemeanors," or violations of municipal ordinances. The explanations of offense classifications may vary slightly with those employed at the federal level because the language used is that familiar to law enforcement in this state. However, the major categories of offense classification remain the same as those employed on the national level.

Part I Offenses

Offense data consists of information that has been extracted from reports of Part I crimes that have come to the attention of West Virginia law enforcement agencies. In general, Part I crimes are those serious crimes that are usually reported to law enforcement agencies. They consist of the following offenses:

Offense Classifications

(1) Homicide

- 1a. Murder and Non-Negligent Manslaughter—The unlawful killing of a human being with malice aforethought.

General Rule—Any death due to a fight, argument, quarrel, assaults or commission of a crime.

- 1b. Manslaughter by Negligence—The unlawful killing of a human being, by another, without malice aforethought.

General Rule—The killing may result from the commission of an unlawful act or from a lawful act performed with gross negligence. Traffic deaths may be classified as such when due to gross negligence of someone rather than the victim.

(2) Forcible Rape

- 2a. Rape by Force—The carnal knowledge of a female forcibly against her will.

General Rule—Forcible rape of a female but excluding carnal abuse (Statutory Rape) or other sex offenses.

- 2b. Assault to Rape-Attempts—All assaults and attempts to rape.

- (3) Robbery—The felonious and forcible taking of the property of another, against his will, by violence or by putting him in fear. Includes all attempts.

- 3a. Gun—All robberies and attempted robberies involving the use of any type firearms (revolvers, automatic pistols, shotguns, zip guns, rifles, pellet guns, etc.)
- 3b. Knife or Cutting Instrument—All robberies and attempted robberies involving the use of cutting or stabbing objects (knife, razor, hatchet, axe, cleaver, scissors, glass, broken bottle, dagger, ice pick, etc.)
- 3c. Other Dangerous Weapons—All robberies or attempted robberies when any other object or thing is used as a weapon. (This includes clubs, bricks, jack handles, bottles, explosives, acid, etc.)
- 3d. Strong Arm—Hands, Fists, Feet, Etc.—All Robberies which includes muggings and similar offenses where no weapon is used, but strong arm tactics are employed to deprive the victim of his property. This is limited to hands, arms, fists, feet, etc. As in armed robbery, include all attempts.
- (4) Assaults—An assault is an attempt or offer, with unlawful force or violence, to do physical injury to another.

General Rule—All assaults will be classified in the following categories, excluding assaults with intent to rob or rape.

- 4a. Gun—All assaults and attempted assaults involving the use of any type of firearms. (Revolvers, automatic pistols, shotguns, zip guns, pellet guns, etc.)
- 4b. Knife or Cutting Instrument—All assaults and attempted assaults, involving the use of cutting or stabbing objects (knife, razor, hatchet, axe, cleaver, scissors, glass, broken bottle, dagger, ice pick, etc.).
- 4c. Other Dangerous Weapon—All assaults or attempted assaults when any other object or thing is used as a weapon. (Clubs, bricks, pick handles, bottles, acid, explosives, lye, poison, scalding water and cases of attempted drowning, burning, etc.).
- 4d. Hands, Fists, Feet, Etc.—Felonious—Assaults which are of a felonious nature when hands, fists, feet, etc., are used. To be classified as felonious assault, the attack must result in serious personal injury.
- 4e. Other Assaults—Not Felonious—All offenses of simple assault and assault and battery.
- (5) Breaking and Entering—Unlawful entry or attempted forcible entry of any structure to commit a felony or larceny.

General Rule—Any unlawful entry or attempted forcible entry of any dwelling house, attached structure, public building, shop, office, factory, storehouse, apartment, house trailer, warehouse, mill, barn, other building, houseboat, or railroad car.

NOTE: For Uniform Crime Reporting purposes, breaking and entering and larceny are classified only as breaking and entering, the larceny is excluded. Breaking and Entering of a motor vehicle is classified as larceny.

- 5a. Forcible Entry—All offenses where force of any kind is used to enter unlawfully a locked structure, with intent to steal or commit a felony. This includes entry by use of a master key, celluloid, or other device that leaves no outward mark but is used to open a lock. Concealment inside a building, followed by the breaking out of the structure is also included.

- 5b. Unlawful Entry-No Force—Any unlawful entry without any evidence of forcible entry.
- 5c. Attempted Forcible Entry—When determined that forcible entry has been attempted.
- (6) Larceny Theft (Except Auto Theft)—The unlawful taking of the property of another with intent to deprive him of ownership.

General Rule—All larcenies and thefts resulting from pocket-picking, purse snatching, shoplifting, larceny from auto, larcenies of auto parts and accessories, theft of bicycles, larcenies from buildings, and from coin operated machines. Any theft that is not a robbery or the result of breaking and entering is included. Embezzlement, larceny by bailee, fraud or bad check cases are excluded.

- (7) Motor Vehicle Theft—The larceny or attempted larceny of a motor vehicle.

General Rule—Thefts and attempted thefts of a motor vehicle. This includes all vehicles which can be registered as a motor vehicle in this state. Excludes where there is a lawful access to the vehicle, such as a family situation or unauthorized use by others with lawful access to the vehicle. (Chauffeur, employees, etc.).

- (9) Arson—Include all arrests for violation of State Laws and Municipal Ordinances relating to arson and attempted arson.

Include: Any willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

The hierarchy rule will not apply to the offense of Arson. Any other Crime Index Offense occurring in conjunction with an arson will be reported.

Part II Offenses

Part II Offenses are made up of all other crimes not classified as Part I crimes. Information on Part II offenses is only reported when an arrest has been made. Part II crimes for UCR purposes are as follows:

- (8) Other Assaults—This class is comprised of all assaults and attempted assaults which are simple or minor in nature. These "Other Assaults" are also scored on Return A under item 4e as an Offense Known to Police. However, for the purpose of this return, arrests for this offense are scored in this class.
- (10) Forgery and Counterfeiting—In this class all offenses dealing with the making, altering, uttering or possessing, with intent to defraud, anything false in the semblance of that which is true.

Include: Altering or forging public or other records. Making, altering, forging, or counterfeiting bills, notes, drafts, tickets, checks, credit cards, etc.

Counterfeiting coins, plates, bank notes, checks, etc.

Possessing or uttering forged or counterfeit instruments.

Signing the name of another or fictitious person with intent to defraud.

All attempts to commit any of the above.

- (11) Fraud—Fraudulent conversion and obtaining money or property by false pretense. Includes bad checks, confidence games, etc., except forgeries and counterfeiting.
- (12) Embezzlement—Misappropriation or misapplication of money or property entrusted to one's care, custody or control.
- (13) Stolen Property: Buying, Receiving, Possessing—Include in this class all offenses of buying, receiving, and possession of stolen property, as well as all attempts to commit any of these offenses.
- (14) Vandalism—Include in this class all willful or malicious destruction, injury, disfigurement or defacement of any public or private property, real or personal, without consent of the owner or person having custody or control, by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by law or ordinance. This offense covers a wide range of malicious behavior directed at property.
- (15) Weapons: Carrying, Possessing, Etc.
- This class deals with violations of weapons laws such as:
- Manufacture, sale or possession of deadly weapons.
- Carrying deadly weapons.
- Furnishing deadly weapons to minors.
- Aliens possessing deadly weapons. All attempts to commit the above.
- (16) Prostitution and Commercialized Vice—Include in this class the sex offenses of a commercialized nature, such as:
- Prostitution
- Keeping bawdy house, disorderly house, or house of ill repute.
- Pandering, procuring, transporting or detaining women for immoral purposes, etc.
- All attempts to commit any of the above.
- (17) Sex Offenses—Except forcible rape, prostitution and commercialized vice. Include offenses against chastity, common decency, morals, and the like.
- Adultery and fornication
- Buggery
- Incest
- Indecent Exposure

Sodomy

Statutory Rape-(No Force)

All attempts to commit any of the above.

- (18) Narcotic Drug Laws—Narcotic drug law arrests are requested on the basis of the of the narcotics used. Include all arrests for violations of State and Local Ordinances, specifically those relating to the unlawful possession, sale, use, growing, manufacturing and making of narcotic drugs. Make the following subdivisions of narcotic drug law arrests.

Opium or cocaine and their derivatives
Morphine, heroin, codeine

Marijuana

Synthetic narcotics, manufactured narcotics which can cause true drug addiction.

Demerol, methadones

Dangerous non-narcotic drugs
Barbiturates, benzedrine

- (19) Gambling—All charges which related to promoting, permitting or engaging in gambling. To provide a more refined collection of gambling arrests, the following breakdown should be furnished:

Bookmaking (Horse and sport books)

Numbers and lottery

All other

- (20) Offenses Against the Family and Children—Included here are all charges of non- support and neglect or abuse of family and children.

Desertion, abandonment, or non-support

Neglect or abuse of child

Non-payment of alimony

- (21) Driving Under the Influence—This class is limited to the driving or operating of any vehicle while drunk or under the influence of liquor or narcotic drugs.

- (22) Liquor Laws—With the exception of "Drunkenness" (Class 23) and "Driving Under the Influence" (Class 21), liquor law violations, State or Local, are placed in this class. Do not include Federal violations. Include: Manufacturing, sale, transporting, furnishing, possession, etc.

Maintaining unlawful drinking places

Bootlegging

Operating still

Furnishing liquor to a minor

Using vehicle for illegal transportation of liquor

- (23) Drunkenness—Included in this class are all offenses of drunkenness or intoxication, with the exception of "Driving Under the Influence" (Class 21).

Drunk and disorderly

Public intoxication

- (24) Disorderly Conduct—In this class, all disorderly persons arrested except those counted in classes 1 through 23 and class 25 are included.

- (25) Vagrancy—Place in this class arrests for disorderly persons when the person is arrested for failure to give good account of himself.

- (26) All Other Offenses—Include in this class every other State or Local offense not included in classes 1 through 25.

Abduction and compelling to marry

Abortion (Death resulting from abortion is homicide)

Bastardy and concealing death of a bastard

Bigamy and polygamy

Blackmail and extortion

Bribery

Contempt of Court

Discrimination, unfair competition

Kidnapping

Offenses contributing to juvenile delinquency except as provided for in classes 1 through 29, such as employment of children in immoral vocations or practices, admitting minors to improper places, etc.

Perjury and subornation of perjury

Possession, repair, manufacture, etc., of burglar's tools

Possession or sale of obscene literature

Unlawful use, possession, etc., of explosives, etc.

- (27) Suspicion—Not Reported in West Virginia.

- (28) Curfew and Loitering Laws (Juveniles)—Count all arrests made for violations of local curfew or loitering ordinances.

- (29) Runaway (Juvenile)—Count arrests made by other jurisdictions of runaways from your jurisdiction. Do not include protective custody actions with respect to runaways you take for other jurisdictions. Count only your own local cases.

PROFILE STATE OF WEST VIRGINIA

On June 20, 1863, under the administration of President Abraham Lincoln, West Virginia became the 35th state in the Union. This was the only state to be born out of the Civil War. From the beginning of the Civil War, the people in Western Virginia fought against seceding from the Union. On June 20, 1861, a new government of Virginia known as the "Restored Government" was formed by the Wheeling Convention. This government pledged its support to the Federal Government in Washington. At a meeting in Wheeling, May 13, 1862, the "Restored Government" passed an act giving formal consent to the forming of a new state. On May 29, 1862, a bill was presented to the Congress of the United States requesting that a new state be formed and admitted to the Union. The bill providing that West Virginia become a new state was passed by the Congress and signed into law by President Abraham Lincoln on December 31, 1862.

The boundary lines of West Virginia, totalling 1,170 miles, which, for the most part, follow the course of rivers or the line of mountain ranges, encloses a total area of only 24,282.45 square miles. One hundred fifty (150) of these miles is water surface. West Virginia extends its panhandle over a surprisingly wide range of longitude and latitude. The eastern most tip has the same longitude as Rochester, New York and most westerly as Port Huron, Michigan; the Northwest panhandle pushes into a latitude well north of Pittsburgh, Pennsylvania; while in the opposite direction the state dips further south than Richmond, Virginia. West Virginia is bordered by the states of Pennsylvania, Maryland, Ohio, Kentucky, and Virginia.

The natural topography of West Virginia is as irregular as its outline.

The range in elevation is from 240 feet near Harpers Ferry to 4,860 feet on Spruce Knob giving it a mean altitude of 1,500 feet, the highest of any state East of the Mississippi River.

Most of the State lies in the Allegheny Plateau and Allegheny Highlands Region. This corrugated contour, which rightfully earned West Virginia its nickname, "Mountain State", could easily be described as "Land of Ten Thousand Valleys."

West Virginia, composed of 55 counties ranging in area of 88.58 square miles to 1,046.34 square miles, is located between the large population centers of the East and Midwest. Four out of five of the principal United States metropolitan market areas-New York, Chicago, Philadelphia, and Detroit-are within a 500 mile radius of the state's geographical center, which is near Sutton in Braxton County. Within this 500 mile circle, much more than half of the nation's people reside and more than half of the nation's income is earned.

In 1979, estimated population is 1,878,000. Huntington with 72,543 persons is the most populated city in the State, while Charleston with 67,858 is the State Capitol. With a density of 74.3 square miles, West Virginia is primarily a rural state.

Waterborn commerce in West Virginia has increased steadily over the years. Three hundred and fifty-five miles of navigable water in the State have been made possible by the continuous work of the United State Corps of Engineers in the development of river transportation facilities and flood control.

Hilly terrain and ample rainfall help to produce one of West Virginia's high quality resources-timber. Seventy-four percent of the land area is in forestial areas. West Virginia hardwoods are much sought after by furniture manufacturers across the continent and over seas. Approximately 95 percent of all timber cut is being shipped out of state.

Natural gas liquids and petroleum are the second most important mineral resources in the State. The high grade Pennsylvania grade crude oil is highly desirable by industry because of its superiority as a lubricant. The chemical industry in West Virginia is the largest and expanding more rapidly in the Ohio and Kanawha River Valleys. Other natural resources found in abundance in West Virginia are limestone, sand and gravel, salt and metals.

The Bureau of Vocational, Technical and Adult Education, cooperating with Federal, State and local educational and other agencies, plans and promotes vocational education programs directed to serve the total citizenry of the state in preparing for employment and productive citizenry. These programs are provided in regular or comprehensive secondary schools, specialized schools, county or area vocational centers, multi-county vocational centers, adult centers, post-secondary institutions, and colleges and universities.

West Virginia is a state with an exceptional outdoor recreation base. Its varied topography, climate, and resources give it the potential of being a year-round recreation land serving the people of the Eastern United States. Rivers and streams are very important in the State's recreational picture. Some of the finest fishing streams in the East are found in West Virginia and many of them have retained their natural setting and attract visitors in evergrowing numbers. State and national forests have been designated in West Virginia to preserve our "wild'n wonderful" woodlands. Two federal forests-the Monongalia National Forest and the George Washington National Forest-are located in Eastern West Virginia. The nine state forests offer some 79,000 acres of picturesque rugged wilderness, inspiring views, and remote seclusion. Along with these forests, West Virginia also offers 35 state parks for recreation.

The facts set forth in this brief profile are presented in hope that they will help the reader get a better understanding of West Virginia's crime picture in our Eighth Annual Crime Report.

CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of West Virginia and project a state-wide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime-influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role to its suppression and detection. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime In A Free Society" (1967-Page 92):

"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with reference particularly to age, sex and race.

Economic status of the population.

Relative stability of population, including commuters, seasonal, and other transient types.

Climate, including seasonal weather conditions.

Educational, recreational, and religious characteristics.

Standards governing appointments to the police force.

Policies of the prosecuting officials and the courts.

Attitude of the public toward law enforcement problems.

The Administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

CRIME INDEX

The tabulations presented in the tables, graphs, and charts in this publication indicate the volume and distribution of crime in West Virginia on the basis of a Crime Index. The crime figures are broken down by municipal, county and state totals.

The Uniform Crime Reporting Program utilizes seven crime classifications to establish an index to measure the trend and distribution of crime in the United States. These crimes-Murder, Forcible Rape, Robbery, Felonious Assault, Burglary, Larceny, and Motor Vehicle Theft-are counted by law enforcement agencies as the crimes become known to them. These crimes were selected for use in the Crime Index because, as a group, they represent the most common local crime problem. They are all serious crimes, either by their very nature or due to the volume in which they occur. Offenses of Murder, Forcible Rape, Robbery, and Felonious Assault are categorized as Violent Crimes. Offenses of Burglary, Larceny, and Motor Vehicle Theft are classed as Crimes Against Property.

It is believed to point out that there is no way of determining the total number of crimes which are committed. Many criminal acts occur which are not reported to official sources. Estimates as to the level of unreported crime can be developed through costly victim interview surveys, but this, of course, does not remedy the reluctance of victims and/or other members of society to report all crimes to law enforcement agencies.

In light of this situation, the best source for obtaining a count of crime is the next logical universe; namely, crimes which come to police attention. The crimes used in the Crime Index are those considered to be most consistently reported to police and the computations of crime trends and crime rates are prepared using this universe-Offenses Known to Police. During 1979, 42,532 Crime Index Offenses were known to police.

The crime counts set forth in this publication are actual offenses established by police investigation. When police receive a complaint of crime and the follow-up investigation discloses no crime occurred, it is "unfounded".

Calculation of Rates and Percentages

This report provides police executives with a yardstick with which to measure local problems, but to utilize the administrative tool, the local data must be converted into terms of rates and percentages. Simple formulas for this purpose are presented below for the benefit of those who might feel the need for them.

Crime Rates

Perhaps the most used of all crime statistics is the Crime Rate, which generally refers to the number of offenses per 100,000 inhabitants. It can be calculated for any city

regardless of the size and may be arrived at under either of two procedures. One formula would be to divide the number of crimes by the population and to multiply the answer by 100,000.

EXAMPLE:

	Crime Rate
$\frac{1,980 \text{ Robberies}}{500,000 \text{ Population}} = .003960 \times 100,000 =$	369.0 per 100,000 persons

Another procedure generally considered somewhat more simple, particularly if crime rates for a number of different offense classifications are to be calculated, is the so-called reciprocal method. As in the above example, it may be assumed that a city has a population of 500,000 and 1,980 Robberies occurred during the year. Divide 100,000 by the number of inhabitants of the city (500,000). The quotient may be considered the reciprocal and multiplied by the number of crimes in each class to obtain the rate per 100,000. The reciprocal in this instance would be .200000, and an illustration of the calculation of the crime rate is as follows:

EXAMPLE:

	Reciprocal	Number of Robberies	Crime Rate
$\frac{100,000}{500,000 \text{ Population}} =$	.200000	$\times 1,980 =$	369.0 per 100,000 persons

The reciprocal once determined can be used to calculate all rates until a new population figure is available.

All Crime Rates which were calculated for the total number of offenses committed in the state were based on the number of offenses per 100,000 persons.

However, due to the fact that no city within the state has a population over 100,000, calculations for each individual contributing agency were based on the number of offenses per 1,000 persons.

Clearance Rates

For Uniform Crime Reporting purposes, a Crime Index Offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one crime.

Crime solutions are also recorded in exceptional circumstances when some element beyond law enforcement control precludes formal charges against the offender. An offense may be exceptionally cleared when it falls into one of the following categories:

1. The offender commits suicide.
2. A double murder occurs (two persons kill each other).
3. The offender dies after making a confession (dying declaration).
4. The offender is killed by a law enforcement officer.
5. The offender confesses to committing the crime while already in custody for another crime or serving a sentence.
6. The offender is prosecuted in another city for a different crime by federal, state or local authorities, or for the same offense, and the other jurisdiction refuses to release the offender.
7. Another jurisdiction refuses to extradite the offender.
8. The victim of a crime refuses to cooperate in the prosecution.
9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses such as petit larceny.

For the year of 1979, 23.9 percent of all Index Crimes were cleared as compared to 22.8 percent cleared during 1978. The percentage of Violent Crimes cleared was 67.2 percent in 1979 and 64.4 percent in 1978 while the clearance rate for Property Crimes was 20.6 percent in 1979 and 19.5 percent in 1978.

CRIME IN WEST VIRGINIA
ANNUAL REPORT SYNOPSIS
1979

POPULATION:	
TOTAL	1,878,000

THIS SYNOPSIS OF CRIME IN WEST VIRGINIA FOR 1979 PRESENTS SIGNIFICANT INFORMATION FOR THE YEAR TO PROVIDE READY REFERENCE TO PERSONS NOT PARTICULARLY INTERESTED IN OR IN NEED OF DETAILED STATISTICS OR COMPARISONS.

CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of West Virginia and project a state-wide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime-influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role to its suppression and detection. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime In A Free Society" (1967-Page 92):

"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with reference particularly to age, sex and race.

Economic status of the population.

Relative stability of population, including commuters, seasonal, and other transient types.

Climate, including seasonal weather conditions.

Educational, recreational, and religious characteristics.

Standards governing appointments to the police force.

Policies of the prosecuting officials and the courts.

Attitude of the public toward law enforcement problems.

WEST VIRGINIA OFFENSE DATA

CRIME INDEX OFFENSES 1979

The crimes in this group are all serious, either by their very nature or because of the frequency with which they occur, and present a common enforcement problem to all police.

A total of 42,532 Crime Index Offenses were reported for 1979.

July recorded the highest number of Crime Index Offenses with 4,015.

There were 2,264.8 Crime Index Offenses per 100,000 population in West Virginia.

The total dollar value of property stolen during commission of Crime Index Offenses was \$26,086,597, of which \$11,365,059 was recovered.

A total of 10,184 Crime Index Offenses were cleared by arrest or exceptional clearance, a clearance rate of 23.9 percent. Adults were involved in 7,769 of the clearances.

There were 9,930 persons arrested for Crime Index Offenses; 8,156 of those arrested were males, 2,939 were under 18, and 8,864 were white.

Crime Index Offenses can be further categorized as a Violent Crime (Murder, Forcible Rape, Robbery, and Felonious Assault) or Non-Violent (or Property) Crime (Breaking and Entering, Larceny-Theft, and Motor Vehicle Theft).

Violent Crimes involve the element of personal confrontation between the perpetrator and the victim and are considered more serious than Property (or Non-Violent) Crimes.

A total of 3,085 Violent Crimes were reported for 1979.

October recorded the highest number of Violent Crimes with 304.

There were 164.3 Violent Crimes per 100,000 population in West Virginia.

A total of 2,072 Violent Crime Offenses were cleared by arrest or exceptional clearance, a clearance rate of 67.2 percent. Adults were involved in 1,843 of the clearances.

There were 1,635 persons arrested for Violent Crime Offenses; 1,491 of those arrested were males, 190 were under 18, and 1,385 were white.

A total of 39,447 Non-Violent (or Property) Crimes were reported for 1979.

July recorded the highest number of Non-Violent Crimes with 3,725.

There were 2,100.5 Non-Violent Crimes per 100,000 population in West Virginia.

A total of 8,112 Non-Violent Crime Offenses were cleared by arrest or exceptional clearance, a clearance rate of 20.6 percent. Adults were involved in 5,926 of the clearances.

There were 8,295 persons arrested for Non-Violent Crime Offenses; 6,665 of those arrested were males, 2,749 were under 18, and 7,479 were white.

CRIMINAL HOMICIDE - MURDER

Murder is defined as the unlawful killing of a human being with malice aforethought. Any death due to a fight, argument, quarrel, assault, or commission of a crime is included. This index offense is scored by police on the basis of their investigation without regard as to the findings of a court or jury or the decision of a prosecutor. Attempts to kill and assault to kill are scored as felonious assaults and not as murder. Suicide, accidental deaths, justifiable homicides and traffic deaths caused by the negligence of someone other than the victim are not included.

MURDER SUMMARY

1979

A total of 120 Murder offenses were reported for 1979.

Murders comprised 3.9 percent of the total for the Violent Crime category and less than one half of one percent of the total Crime Index Offenses.

December recorded the highest number of Murders, with 17 offenses, while October, July and January each had 13.

There were 6.4 Murder victims per 100,000 population in West Virginia.

Males accounted for 62.4 percent of the Murder victims; 76.6 percent of the victims were white.

The largest number of victims, 26, falls in the 1-4 age group.

Firearms were used in 94 of the Murders reported, with handguns being used in 64 of those.

A total of 105 Murders were cleared by arrest or exceptional clearance, a clearance rate of 87.5 percent. Adults were involved in 100 of the clearances.

There were 114 persons arrested for Murder offenses; 102 of those arrested were males, 7 were under 18, and 93 were white.

FORCIBLE RAPE

Forcible Rape is the carnal knowledge of a female forcibly and against her will. For the purpose of Uniform Crime Reporting, rape is divided into two categories: (1) Rape by Force; and (2) Attempted Rape. Carnal abuse without force (statutory rape) and other sex offenses are not included.

Forcible Rape differs from other violent crimes in that the victim in many cases, is hesitant in reporting the offense to police. The rigors of court procedures, embarrassment and fear of any accompanying stigma have a deterrent effect on the victim's willingness to make the crime known to police. The presence of a prior relationship between victim and perpetrator makes the determination of the act of force difficult to establish, and the usual clandestine nature of the offense presents a problem in verification.

FORCIBLE RAPE SUMMARY

1979

A total of 289 Forcible Rape Offenses were reported for 1979.

Forcible Rapes comprised 9.4 percent of the total for the Violent Crime Category and less than one percent of the total Crime Index Offenses.

October and November recorded the highest number of Forcible Rapes with 33.

A total of 195 Forcible Rapes were cleared by arrest or exceptional clearance, a clearance rate of 67.5 percent. Adults were involved in 175 of the clearances.

There were 176 persons arrested for Forcible Rape offenses; all of those arrested were males, 17 were under 18, and 153 were white.

ROBBERY

Robbery is defined as the felonious and forcible taking of the property of another against their will by violence or by putting them in fear. The element of personal confrontation is always present in this crime. Under the Uniform Crime Reporting Program, all assaults or attempts to rob are included. Robberies are reported in four general categories - gun; knife or cutting instrument; hands, fists, feet, etc.; and other dangerous weapons. As a general rule, robbery differs from larceny in that it is aggravated by the element of force or the threat of force.

Robbery, as a crime of violence, has a serious impact on the victim. In many instances, serious injury results. Oftentimes, along with physical injury or without, the victim suffers mental disturbance. Such damage is immeasurable. This is emphasized when the attempt to rob results in the death of the victim. Of course, in this case, the robbery would not be scored since the more serious offense, murder, would be reported and the robbery would serve as the motive. The placing of a dollar value, however, on the damage resulting from this type of offense is an attempt to measure that which is immeasurable.

ROBBERY SUMMARY

1979

A total of 809 Robbery Offenses were reported for 1979.

Robberies comprised 26.2 percent of the total for the Violent Crime category and 1.9 percent of the total Crime Index Offenses.

January recorded the highest number of Robberies with 93 offenses.

The total dollar value for Robbery offenses was \$383,997, an average of \$475 for each offense.

A total of 310 Robberies were cleared by arrest or exceptional clearance, a clearance rate of 38.3 percent. Adults were involved in 249 of the clearances.

There were 443 persons arrested for Robbery offenses; 401 of those arrested were males, 97 were under 18, and 360 were white.

FELONIOUS ASSAULT

Felonious Assault, as defined under the West Virginia Uniform Crime Reporting Program, is an attempt or offer with unlawful force or violence, to do serious physical injury to another. Attempts are included since it is not necessary that any injury result when a gun, knife, or other weapon is used which would result in serious physical injury if the crime were successfully completed.

The use or attempted use of a dangerous weapon in an assault or the serious injury inflicted by hands, fists, or feet separates this offense from those assaults categorized as "simple" and not felonious in nature.

The victim of an actual assault of this type may suffer serious injury or permanent disability and all assaults to kill and attempts to kill are recorded in this area. As with murder, the use of weapons to inflict these serious injuries make this offense a subject for analysis.

FELONIOUS ASSAULT SUMMARY

1979

A total of 1867 Felonious Assault Offenses were reported for 1979.

Felonious Assaults comprised 60.5 percent of the total for the Violent Crime category and 4.4 percent of the total Crime Index Offenses.

September recorded the highest number of Felonious Assaults with 213 offenses.

There were 99.4 Felonious Assaults per 100,000 population in West Virginia.

A total of 1,462 Felonious Assaults were cleared by arrest or exceptional clearance, a clearance rate of 78.3 percent. Adults were involved in 1,319 of the clearances.

There were 902 persons arrested for Felonious Assault offenses; 812 of those arrested were males, 69 were under 18, and 779 were white.

BREAKING AND ENTERING

Under this Program, Breaking and Entering is defined as an unlawful entry or attempted forcible entry of any structure to commit a felony or larceny.

Data collection for this offense is further categorized as to forcible entries, unlawful entries where no force is used, and attempted entries.

As with other nonviolent crimes, the motive of personal gain coupled with the element of opportunity, results in the commission of this offense by both the amateur and the professional perpetrator. Only the absence of confrontation and the use of force separate this crime from Robbery of the violent crime group. However, detection during commission many times results in a confrontation of the victim by the perpetrator demonstrating why this offense is considered the most serious of the nonviolent crime group.

The volume of this offense presents the police with a serious enforcement problem made more difficult in many areas by the lack of sufficient personnel to act as a deterrent and to provide successful solutions of these crimes.

BREAKING AND ENTERING SUMMARY

1979

A total of 11,611 Breaking and Entering offenses were reported for 1979.

Breaking and Entering comprised 29.4 percent of the total for the Non-Violent Crime category and 27.3 percent of the total Crime Index Offenses.

December recorded the highest number of Breaking and Enterings with 1,109 offenses.

There were 618.3 Breaking and Enterings per 100,000 population in West Virginia.

Breaking and Enterings of residences accounted for 6,526 of the total offenses; 6,781 of the total offenses were at night.

The total dollar value for Breaking and Entering offenses was \$6,336,818, an average of \$546 for each offense.

A total of 2,391 Breaking and Enterings were cleared by arrest or exceptional clearance, a clearance rate of 20.6 percent. Adults were involved in 1,656 of the clearances.

There were 2,637 persons arrested for Breaking and Entering offenses; 2,482 of those arrested were males, 1,056 were under 18, and 2,437 were white.

LARCENY-THEFT

Larceny-Theft is the unlawful taking or stealing of articles of value without the use of force, violence, or fraud. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from autos, and the theft of auto parts and accessories. Motor Vehicle Theft is excluded from this category for crime reporting purposes, inasmuch as it is a separate Crime Index Offense.

Larceny offenses cleared by police arrest are dramatically affected by the nature of the crime. As with other Non-Violent Crimes, opportunity and stealth, working in favor of the perpetrator and against police detection, reduce solutions for this offense.

As with other offenses against property, Larceny is primarily a crime of opportunity. Types of Larcenies will differ in volume depending upon the opportunity for theft offered in a given area.

When average value is applied to the reported crimes in this category, the dollar loss to victims was \$246. It is true that a portion of goods stolen was recovered and returned to the victims, but the relatively low percentage of crimes cleared by arrest, and the lack of specific identification characteristics on such property indicates these recoveries will not materially reduce the overall loss. In addition, many offenses in this category, particularly where the value of goods stolen is small, never come to police attention.

LARCENY-THEFT SUMMARY

1979

A total of 24,117 Larceny-Theft offenses were reported for 1979.

Larceny-Theft comprised 61.1 percent of the total for the Non-Violent Crime category and 56.7 percent of the total Crime Index Offenses.

July recorded the highest number of Larceny-Thefts with 2,309 offenses.

There were 1,284.2 Larceny-Thefts per 100,000 population in West Virginia.

Larceny-Thefts from automobiles accounted for 5,644 of the total offenses.

The total dollar value for Larceny-Theft offenses was \$5,930,382, an average of \$246 for each offense; of the total offenses, 9,555 were \$50 to \$200 in value.

A total of 4,866 Larceny-Thefts were cleared by arrest or exceptional clearance, a clearance rate of 20.2 percent. Adults were involved in 3,663 of the clearances.

There were 4,939 persons arrested for Larceny-Theft offenses; 3,516 of those arrested were males, 1,368 were under 18, and 4,373 were white.

MOTOR VEHICLE THEFT

In Uniform Crime Reporting, Motor Vehicle Theft includes all thefts of a motor vehicle. This includes all vehicles which can be registered as a motor vehicle in this State. This definition excludes taking a motor vehicle for temporary use, such as family situation or unauthorized use by others having lawful access to the vehicle, such as chauffeurs, etc.

The crime of Motor Vehicle Theft has been labeled primarily as a crime of opportunity. The youthful offender finds the motor vehicle easily accessible for transportation for any purpose. The remaining thefts are mainly for the purpose of resale, theft of parts, and for use in committing other crimes.

MOTOR VEHICLE THEFT SUMMARY

1979

A total of 3,719 Motor Vehicle Theft offenses were reported for 1979.

Motor Vehicle Theft comprised 9.4 percent of the total for the Non-Violent Crime category and 8.7 percent of the total Crime Index Offenses.

August recorded the highest number of Motor Vehicle Thefts with 384 offenses.

There were 198.0 Motor Vehicle Thefts per 100,000 population in West Virginia.

The total dollar value for Motor Vehicle Theft offenses was \$13,424,010, an average of \$3,610 for each offense.

A total of 855 Motor Vehicle Thefts were cleared by arrest or exceptional clearance, a clearance rate of 23.0 percent. Adults were involved in 607 of the clearances.

There were 719 persons arrested for Motor Vehicle Theft offenses; 667 of those arrested were males, 325 were under 18, and 669 were white.

WEST VIRGINIA ARREST DATA

WEST VIRGINIA ARREST INFORMATION

The West Virginia Crime Reporting Program requires the monthly reporting of data concerning persons arrested in the state. A record of total arrest activity for criminal acts in both Part I and Part II crime classes is received from 368 county, state and municipal law enforcement agencies and is analyzed and arranged according to age, sex and race of persons arrested. Traffic arrests, except Driving While Intoxicated, are not reported. A total of 80,598 arrests for Part I and Part II criminal offenses were reported during 1979. This was an increase of 3,284 arrests over the 1978 figure of 77,314. Based on 1979 population estimates, there was a statewide arrest rate of 4,291.7 arrests per 100,000 persons in West Virginia. The arrest rate in 1978 was 4,156.7.

Since 1975, the number of persons arrested for Part I and Part II offenses has decreased 1.2 percent while the arrest rate has decreased 4.9 percent.

A person is counted on the monthly arrest report each time he or she is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to the differences in local arrest procedures and policies. It should be noted that a person may be arrested several times during a given month for the same or different offenses. This occurs frequently for such crimes as drunkenness, disorderly conduct and similar offenses. A juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be counted or when police or other official action beyond a mere interview, warning or admonishment is taken.

These arrest figures do not indicate the number of individuals arrested or summoned since, as has been pointed out, one person may be arrested several times during the month. However, arrest information is useful in measuring the extent of law enforcement activity in a given geographical area as well as providing an index for measuring the involvement in criminal acts by the age, sex and race of the perpetrators.

Of all reported arrests for 1979, 12.3 percent were for Part I offenses (Murder, Manslaughter, Forcible Rape, Robbery, Felonious Assault, Breaking and Entering, Larceny - Theft and Motor Vehicle Theft). Analysis of Part I arrests indicates that Larceny, as in past years, comprised the highest percentage of all arrests for Part I crimes with 49.7 percent. The "drunkenness" category continues to record the highest percent of arrests for Part II offenses. In 1979, this offense accounted for 50.2 percent of all reported arrests for Part II crimes.

Juveniles were involved in 8.8 percent of the arrests in 1979 compared to 9.1 in 1978. This marked a decrease of .3 percent of juvenile participation in criminal acts. Female arrests amounted to 11.2 percent of the total compared to 10.8 in 1978. Since 1975 female participation has increased .1 percent in Part I offenses, but hasn't increased for total Part I and Part II offenses.

Arrests by race show that 93.5 percent of the persons arrested were white while 6.5 were Negro. Other categories comprised less than half of one percent.

VIOLENT CRIME

Arrests for crimes of violence (Murder, Rape, Robbery and Felonious Assault) on a statewide basis accounted for 16.5 percent of all arrests for Part I and 2.0 percent of the total arrests for all offenses. A further evaluation indicates that arrests for Felonious Assault were the most frequent, representing 55.2 percent of the total arrests for violent crimes.

PROPERTY CRIME

Property crime arrests (Breaking and Entering, Larceny - Theft and Motor Vehicle Theft) comprised 83.5 percent of all arrests for Part I offenses and 10.3 percent of all arrests.

The highest percentage of property crime arrests, 59.5 percent, occurred in the larceny category.

NARCOTIC DRUG LAW ARRESTS

Information concerning arrests for narcotic drug law arrests is collected and analyzed according to specific drug categories. During 1979, a total of 2,049 arrests were made for narcotic drug law violations, a decrease of 209 arrests from 1978. Evaluation of data reported for 1979 discloses that 45.1 percent of all persons arrested for narcotic drug law violations were under 21 years of age. Moreover, 14.1 percent of those arrested were under 18 years of age. Analysis of individual drug categories showed that the highest percentage of arrests, 85.8 percent, involved marijuana. The lowest percentage of arrests occurred in the opium, cocaine and their derivative category, amounting to only 3.5 percent.

GAMBLING ARRESTS

Arrests for gambling offenses during 1979 amounted to .3 percent of all reported arrests for Part I and Part II offenses. Of those arrested for gambling, 87.6 percent were males. The highest percentage of arrests for gambling offenses, 13.3 percent, occurred in the 25-29 age category. A total of 249 gambling arrests were reported during 1979, a decrease of 89 from the 1978 figure.

LAW ENFORCEMENT EMPLOYEE DATA

POLICE EMPLOYEE DATA

1979

The Uniform Crime Reporting Program in West Virginia incorporates the collection of pertinent data relating to the police of the state. Information regarding police employee strength, distributions, assaults against law enforcement officers and circumstances surrounding the killing of police officers are discussed in this section.

This information is submitted by county, municipal and state law enforcement agencies and compiled on an annual basis. Specific information concerning the number of law enforcement employees reflect the status as of October 31, 1979, and is limited to municipal, county and state law enforcement agencies currently reporting to the West Virginia UCR Program.

A total of 3,949 full-time law enforcement employees was reported by the agencies, of which 2,990 were sworn personnel. This is a rate of 2.10 employees for each 1,000 inhabitants of the state and a rate of 1.6 officers for each 1,000 inhabitants.

The determination of police strength for any given area or municipality should be a subject for serious consideration. Such consideration, however, should be based on the numerous factors which create the need for police services. Some of these factors, discussed elsewhere in this publication relate to size, density of population, geographic location, character, and proximity to metropolitan areas. The information in this section relates to reported police employee strength and should not be interpreted as recommended strength for any given municipality. Such determinations should be made after objectively evaluating the need for police services based on the above factors.

The personnel of each law enforcement agency differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties. This current upward trend in police agencies to perform clerical duties is in line with the thinking of many police administrators who recommend the use of civilians in this capacity, thus freeing the sworn personnel for actual police related service. There were 959 civilians included in the total full-time law enforcement employees for West Virginia.

Municipal police departments reported a total of 2,017 employees, of which 1,672 were sworn officers. This is a rate of 2.12 sworn officers for each 1,000 inhabitants (urban population only).

West Virginia's 55 county sheriff departments reported a total of 1058 employees, of which 774 were sworn officers. This is a rate of 0.71 sworn officers for each 1,000 inhabitants (rural population only).

In an attempt at comparisons of employment levels of individual sheriff's departments with other agencies, consideration must be given to certain functions that are particular to a sheriff's department. The function of county sheriff's departments vary widely throughout the state. The operation of one sheriff's department may be limited exclusively to civil areas and the administration of the county jail, or they may be actively involved in criminal matters throughout the county. These functions are usually performed by sworn officers, thereby presenting a misleading picture of the actual enforcement strength of the department.

The West Virginia State Police reported a total of 874 employees, of which 544 were sworn officers. This is a rate of 0.50 sworn officers for each 1,000 inhabitants (rural population only).

LAW ENFORCEMENT OFFICERS KILLED AND ASSAULTED 1979

The killing of a police officer has an effect on society which reaches far beyond the overt act. Such occurrences constitute an immediate threat to the well being of the community and a serious breach of the internal security of the country. Today, a young man who considers a career in law enforcement must also consider the very strong possibility of being killed or assaulted by a member of the very same society he is sworn to protect. This deplorable situation should be a subject of serious public concern, for in truth, an attack on a police officer is an attack on society. The violence directed against law enforcement officers acting in the line of duty is clearly demonstrated by the following summary information:

One law enforcement officer was killed in the line of duty during 1979. State Trooper Philip Kesner was shot and killed November 7, 1979 during an escape at the State Prison in Moundsville.

A total of 194 Assaults on Law Enforcement Officers were reported in 1979, of which 74, or 38.1 percent resulted in personal injury to the officer.

For every 1000 arrests, there were 2.4 Assaults, and for each 100 sworn officers there were 6.5 Assaults.

Personal weapons (hands, fists, feet, etc.) were used in 164 of the Assaults.

A total of 180 of the Assaults were cleared, a clearance rate of 92.8 percent.

WEST VIRGINIA
OFFENSE DATA
COUNTY-STATE-MUNICIPAL

The computer generated output tables contained within this section were designed to facilitate quick reference of statistical crime information relative to the different reporting areas of the State of West Virginia. The data contained in each of the series of reports will be detailed on a page preceding each listing.

Each of the four reports are listed in county name sequence. Within each county, information is further detailed to show the activity experienced by reporting area, agency type and contributor. The general identifying descriptions which indicate the reporting areas are listed and defined as follows:

(Name) County Total—This line indicates the total activity of all reporting agencies within the indicated county. It may be expressed mathematically as:

County Total = Municipal + State Police + Sheriff

or

County Total = Municipal + Rural

Rural—This line indicates the total activity that was reported by rural law enforcement agencies within the indicated reporting area. It may be expressed mathematically as:

Rural = State + Sheriff

Sheriff—This line indicates the total activity reported by sheriff's offices within the indicated reporting area.

State Police—This line indicates the total activity reported by all State Police Detachments within the indicated reporting area. It may be expressed mathematically as:

State Police = State Police Detachment 1 + SPD2 + SPD3 +

MUNICIPAL—This line indicates the total activity reported by all municipal law enforcement agencies within the indicated reporting area. It may be expressed mathematically as:

Municipal = Municipality 1 + M2 + M3 +

(City Name) Police Department—This line indicates the total activity reported by the individually specific police department.

For comparative purposes, each reporting agency or area identified on the report details the activity experienced for the calendar year of 1979 and 1978 respectively. Also, the numerical difference and the percent change between the two years has been calculated and displayed on separate lines. All amounts are signed with a plus (+) or minus (-) sign to indicate whether the quantity has increased or decreased from 1979 to 1978. An asterisk (*) appearing on the percent change line indicates that due to no activity being reported for either 1979 or 1978, calculation of percent change was impossible.

It should be noted that statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of West Virginia and project a state-wide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

CONTINUED

1 OF 3

CRIME INDEX REPORT

The tabulations in this section indicate the volume and distribution of crime in West Virginia on the basis of a crime rate.

The Uniform Crime Reporting Program utilizes seven crime classifications to establish a rate to measure the trend and distribution of crime. The number of actual offenses of murder, forcible rape, robbery, felonious assault, burglary, larceny and motor vehicle theft are reflected in this report. The number of actual offenses of manslaughter and assaults (not aggravated) are not index offenses, thus counts of these offenses are not considered in this report.

Each heading contained in this report is defined below.

Population—Estimated population of the indicated reporting area. This information, representative of the year 1979, was provided through the assistance of the Federal Bureau of Investigation and the United States Bureau of Census.

Total Offenses—This is the sum total of the seven Index Offenses.

Total Cleared—The sum total of the seven Index cleared.

Percent Cleared—The percentage of Index Offenses cleared by arrest or exceptional clearance.

The mathematical formula may be expressed as follows:

$$\text{Percent Cleared} = \frac{\text{Total Index Offenses Cleared}}{\text{Total Actual Index Offenses Reported}} \times 100$$

Crime Rate—This is sometimes referred to as a victim risk rate and is representative of the number of Index Offenses per 1,000 population.

Example - A crime rate of 10.00 would imply that 10.00 persons of each 1,000 population were the victim of an Index Offense.

The mathematical formula for calculating the crime rate of any reporting area may be expressed as follows:

$$\text{Crime Rate} = \frac{1,000}{\text{Area Population}} = \text{Reciprocal} \times \text{Total Actual Offenses}$$

$$\text{Crime Rate} = \frac{\text{Total Actual Offenses}}{\text{Area Population}} \times 1,000$$

*Reciprocals developed to five (5) decimal places.

The remaining columns of the report indicate the number of actual Index Offenses reported by category.

UNIFORM CRIME REPORTING

CONTRIBUTOR PARTICIPATION

This section of the report indicates the participation of West Virginia law enforcement agencies contributing to the Uniform Crime Reporting Program.

An "X" indicates that the specific agency (or group of agencies in the case of multiple State Police Detachments within the county) submitted UCR Reports for the corresponding month of 1979.

Arson

Arson 1979

The offense of arson is defined by the National Uniform Crime Reporting (UCR) Program to include any willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Early in 1979, in accordance with the FBI-UCR Program, the West Virginia UCR Program began collecting arson data submitted by the UCR contributing agencies. During 1979, there were 643* actual Arson offenses reported with an estimated damage to property of \$5,539,533. 174 of the arsons, or 27.1 percent, were cleared.

Structural Arson

Structural arson includes the following categories:

- A. Single Occupancy Residential:
Houses, Townhouses, Duplexes, etc.
- B. Other Residential:
Apartments, Tenements, Flats, Hotels, Motels, Inns, Dormitories, Boarding Houses, etc.
- C. Storage: Barns, Garages, Warehouses, etc.
- D. Industrial/Manufacturing
- E. Other Commerical: Stores, Restaurants, Offices, etc.
- F. Community/Public:
Churches, Jails, Schools, Colleges, Hospitals, etc.
- G. All Other Structure:
Out Buildings, Monuments, Buildings Under Construction, etc.

There were 347* Structural Arsons for an estimated property damage of \$4,631,195. 137 of the structural arsons, or 39.5 percent, were cleared. Within the structural category, Single Occupancy Residential had the greatest number of arsons - 161, or 46.4 percent. Other Commercial had the greatest amount of property damage, \$1,689,495.

Mobile Arson

Mobile Arson includes the categories:

- H. Motor Vehicles:
Automobiles, Trucks, Buses, Motorcycles, Etc.: UCR Definition.
- I. Other Mobile Property:
Trailers, Recreational Vehicles, Airlanes, Boats, etc.

There were 210* Mobile Arsons for an estimated property damage of \$893,193.33 of the mobile arsons, or 15.7 percent, were cleared. Motor Vehicles had the greatest number of arsons - 195, or 92.9 percent, for an estimated property damage of \$797,898.

Other Arson

Other Arson includes the category:

- J. Total Other:
Crops, Timber, Fences, Signs, etc.

In 1979, there were 86* other arsons for an estimated property damage of \$15,145.

*Includes a total of 27 arsons submitted by the State Fire Marshal's Office during 1979.

MONTHLY RETURN OF ARSON OFFENSES KNOWN TO LAW ENFORCEMENT

This report is authorized by law Title 28, Section 534, United States Code, and the enactment of the fiscal year 1979, Department of Justice Authorization and S. 3151. While you are not required to respond, your cooperation in using this form to report all incidents of arson which become known to your department during the month will assist the FBI in compiling comprehensive, accurate data on a timely basis. Instructions appear on reverse side.

GLOSSARY OF TERMS

ADULT—For West Virginia Uniform Crime Reporting purposes, a person age 18 or above.

ARREST RATE—The number of arrests reported for Part I and Part II Offenses for each unit of population, generally per 100,000. Arrest rates are computed in the same manner as crime rates.

CRIME INDEX—The sum total of seven major offenses used to measure the extent, fluctuation and distribution of crime in a given geographical area. Crime classifications used in the Index are: Murder, Forcible Rape, Robbery, Felonious Assault, Breaking and Entering, Larceny- Theft and Motor Vehicle Theft. Each of these offenses is referred to as an Index Offense.

CRIME RATE—The number of Index Offenses reported for each unit of population, generally per 100,000. Crime Rates are computed for communities with varying populations by dividing the Index Crimes by the population and multiplying the answer by 100,000. (Example: 500 Index Offenses $\div$ 10,000 population $\times$ 100,000 = 5,000 Crime Rate).

EXCEPTIONAL CLEARANCE—A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against an offender.

JUVENILE—For West Virginia Uniform Crime Reporting purposes, a person under the age of 18.

PART I OFFENSES—The first of two main categories of crime classes composing a Universal Crime Classification System established for Crime Reporting purposes. Part I Offenses are by their very nature more serious and/or occur most frequently. The monthly tabulation of Part I Offenses provide a count of "Offenses Known".

PART II OFFENSES—The second of two main categories of crime classes composing a Universal Crime Classification System established for Crime Reporting purposes. Part II Offenses are generally less serious in nature and/or occur less frequently. Monthly tabulations of Part II offenses are limited to arrest information only.

PROPERTY CRIME—Consists of the Index Offenses of Breaking and Entering, Larceny-Theft and Motor Vehicle Theft.

VIOLENT CRIME—Consists of the Index Offenses of Murder, Forcible Rape, Robbery, and Felonious Assault.

END
