ACKNOWLEDGMENTS

This inventory is intended to give a brief overview of the state of development of the Juvenile and Adult Courts of Canada with respect to formalized information systems. Numerous other local or informal systems exist but have not been included. Hopefully this summary will enable jurisdictions contemplating computerized applications to know where similar work has been done already and who should be contacted for detailed information.

To give a perspective to the state of system development, a table showing major statistics for each jurisdiction is given. These figures are taken from the reports produced under the mandate of the National Task Force on the Administration of Justice (NTF). The assistance of the Director, Mr. Francis Prevost and his staff is acknowledged.

Financial support for the production of the inventory was provided by the National Work Group on Justice Information and Statistics (NWG). Their assistance in arranging these resources and the work of Mr. Rick Beattie of the Ministry of Solicitor General in summarizing the NWG files is gratefully acknowledged.

For the Association of Canadian Court Administrators, Mr. David Thornton, Director, Information and Computer Systems Branch, Ministry of the Attorney-General of Ontario, and Chairman of the Association's Systems Committee, gave support, assistance, and encouragement in numerous ways, all of which were most helpful. Each entry was referred to the appropriate court administrator and staff for review. Without this expert knowledge and encouragement for the project the information would not have been as accurate or complete.

All the interest and energy from across the country would have been ineffective if it were not for Douglas Heatley who handled the technical work of MICOM entry, who greatly assisted in formatting and brought enthusiasm as well as expertise to the project.

Responsibility for errors and deficiencies remains with myself, the compiler.

David H. Mead.

Vancouver B.C.

INTRODUCTION

This inventory was prepared by David H. Mead for the National Work Group on Justice Information and Statistics (NWG). A draft was distributed at the annual meeting of The Association of Canadian Court Administrators in Banff, Alberta April 20-23, 1980. NWG supplied financial support and arranged help from the Federal Ministry of the Solicitor General in summarising the base line information. Further editing and formatting was done by NWG.

This inventory will provide a useful reference for locating court information systems presently in use or under development in Canada. For more details the reader can communicate directly with the contact persons given for each system included. NWG would welcome comments or updates to this information and there are sheets for this purpose on pages 102 and 103.

As a background to the structure and organization of the courts in each jurisdiction, considerable detail is given in the publication of the National Task Force on the Administration of Justice entitled "Court Services in Canada 1977-78". A very useful summary will be found in Chapter Six of Prof. G.L. Gall's work "The Canadian Legal System".

NWG has already produced a similar inventory of Canadian Correctional Information Systems.

FEDERAL, PROVINCIAL, AND TERRITORIAL COURTS
SUMMARY STATISTICS *

JURISDICTION	MANPOWER		EXPENDITURES		NUMBER OF	COURT HOUSE	TOTAL COURT
	Judges	Court Staff	(\$M)	Salaries Other

* Sources: The National Task Force on the Administration of Justice Reports. "Court Services in Canada, 1977-1978", and "Justice Services in Canada 1977-1978".

For clarification of these figures the reader is advised to refer to the numerous explanatory notes accompanying the various tables which appear in the NTF Volume, "Justice Services in Canada 1977-1978", pp 83-89. Differences in manpower between this table and the inventory arise due to different sources of information.

Court Case loads are not given because of the differences in terminology and practice throughout the country. For each jurisdiction please refer to Section F "CASE LOAD STATISTICS" in the respective chapters for each jurisdiction in the NTF volume, "Court Services in Canada".
