INTRODUCTION

This report represents a composite of the most comparable statistics on the workload of Federal judges which are collected by the Administrative Office of the United States Courts. The data selected and the general format are approved by the Subcommittee on Judicial Statistics. The information contained in this report and those published in previous years comprise the basis for the Biennial Judgeship Analysis conducted by the Subcommittee of the Judicial Conference Court Administration Committee. The one page devoted to each court supplies six years of statistical data on the docket conditions of the federal courts.

District court workload figures are divided by the number of authorized judgeship positions in each court to provide the workload per judgeship. Cases in the courts of appeals are generally handled by panels of three judges. Consequently, workload figures in the courts of appeals are shown per panel. The per judgeship and per panel figures virtually eliminate the influence of court size and allow comparison between courts of different sizes.

The national profile for the courts of appeals is on the foldout page at the end of the section on the courts of appeals at the front of the report. The national caseload totals and averages for the district courts are displayed on the last page of this report. When comparing these national averages to the averages for a particular court, caution is required since circumstances, which are not reflected in the statistical profile, could cause a court to vary substantially from the national average. Some examples are long-term judgeship vacancies, an unusual case in progress which requires the full time service of one judge, a relatively high number of senior judges augmenting regular judgeship strength, and administrative burdens of the chief judges in the largest metropolitan courts.

The two following pages provide detailed explanations of the data contained in the statistical profiles for the appeals and district courts. Pages 13 and 129 of this report present additional discussions of the changes which have been made this year, and a more complete explanation of specific judicial workload statistics. Please refer to these pages before using the statistics in this report.

*OVERALL WORKLOAD STATISTICS	Filings	TOTAL NUMBER OF DISTRICT COURT CASES WHICH WERE (Exclusive of all misde- meanor criminal cases for 1980 and all minor and petty offenses for 1975-1979)	Filed during the year, including transfers
	Terminations		Terminated during the year
	Pending		Pending at the end of the year
	Percent Change in Total Filings -- Current Year	Over Last Year ▶ Percentage change in total filings -- current year over previous Over Earlier Years ▶ Percentage change in total filings -- current year over two, three, four and five years ago

	Vacant Judgeship Months	Number of months during profile year that an authorized judgeship was not filled	
*ACTIONS PER JUDGESHIP	FILINGS	Total	Total civil and criminal cases filed
		Civil	Includes all civil cases filed
		Criminal	Includes all criminal cases filed whether by indictment, information, or transfer
	Pending Cases	ALL FIGURES IN THIS SECTION ARE OBTAINED BY DIVIDING THE TOTAL STATISTICS FOR THE COURT BY THE NUMBER OF AUTHORIZED JUDGESHIPS. Excludes all misdemeanor criminal cases for 1980 and all minor and petty offense criminal cases for 1976-1979	Total pending cases at the end of the year

For all criminal defendants time is computed from the filing date to either the sentencing date or the dismissal/acquittal date. When the District had less than 25 terminations the median case was not computed.
		Civil	
	From Issue to Trial (Civil Only)		For civil cases, except land condemnation, going to a trial during profile years, this figure shows the time interval in months for the middle (median) case. Time is computed from the date the answer or response is filed to the date trial begins.

WHAT THE DISTRICT'S NUMERICAL STANDINGS MEAN

These show where a court's workload condition stands in relation to all other districts in the country. All "workload" statistics are ranked in descending order (highest value receives rank of 1) and all other statistics are ranked in ascending order (lowest value is ranked first). In some cases fewer than 95 courts were ranked because some of the "profile" indices are not available for all courts.

United States Courts of Appeals National Judicial Workload Profile

ACTIONS PER PANEL

The workload statistics for the courts of appeals are presented as "actions per panel" as compared to the "actions per judgeship" profile used for the district courts. This type of profile provides a more accurate indication of the workload of an individual judge since appeals cases are generally handled by a panel of three judges rather than one.

TERMINATIONS AFTER HEARING OR SUBMISSION

In order to provide a greater measure of uniformity in the presentation of judicial workload, the selection criteria was revised in 1974 in respect to those cases considered terminated after oral hearing or submission of briefs. The criteria used were:

1. filing of the complete record,
2. filing of briefs pursuant to Rule 28, Federal Rules of Appellate Procedure,
3. a reported date of either an oral hearing or submission, and
4. reported date of termination.

If a case reported terminated included the above data, it would be included in the "after hearing or submission" category. Any record deficient in any of the above would be included in the "without hearing or submission" group.

CRIMINAL WORKLOAD STATISTICS

Criminal data for 1975 - 1979 excludes minor and petty offenses. All other misdemeanors are included. In 1979 the Federal Magistrates Act expanded the authority of magistrates to dispose of all misdemeanors. Consequently, because this report is primarily a statistical statement reflecting the workload per authorized judgeship, 1980 criminal data excludes all misdemeanors and includes only felonies.

WEIGHTED FILINGS

The weighted filings figures for 1979 and 1980 were based on weights developed from the 1979 Time Study conducted by the Federal Judicial Center. Weighted filings for 1975 - 1978 were based on weights established by the 1969 Time Study. A more detailed discussion of the 1979 time study and earlier studies appears in the 1980 *Annual Report of the Director of the Administrative Office of the U.S. Courts*.

TRIAL DEFENDANTS IN PENDING CRIMINAL CASES

In 1976 the Administrative Office began maintaining data on the status of every criminal defendant whose case was pending at the end of the year. The data since 1976 shows the number of defendants considered triable; i.e., available for final plea or trial by judge or jury as of June 30 and the percentage of the total pending caseload accounted for by these defendants. The figures exclude defendants awaiting sentence, those committed for observation and study, and fugitive defendants. Also excluded are defendants who cannot be tried under applicable provisions of 18 U.S.C. 3161(h) of the Speedy Trial Act of 1974. These provisions result in a nontriable status often brief in nature.
