ANNUAL REPORT 1979-80

HAWAII COUNTY POLICE DEPARTMENT

THE

ACQUESTICADE

HERBERT M. RICHARDS Chairman

POLICE COMMISSION COUNTY OF HAWAII HILO, BAWAII

The Honorable Herbert Matayoshi Mayor, County of Hawaii Hilo, Hawaii

Dear Mayor Matayoshi:

The Police Commission of the County of Hawaii is pleased to submit to you the 1979-80 annual report of the Police Department.

Many of the impressive heights we have reached in the past year have been made possible by the support of you and the members of your administration.

Sincerely,

Herberty Rel

Herbert M. Richards Chairman

Hawaii County Police Commission County of Hawaii Hilo, Hawaii

Dear Commissioners:

Revised Statutes, is the annual report of the Hawaii County Police Department for 1979-80.

We have reached a number of new levels in our service to the people of the Island of Hawaii, as this year's report will outline.

The pride that our officers and employees have in the Hawaii County Police Department, and the willingness with which they take on assignments far beyond the call of duty, is reflective of the high level of service shown by those who serve on the Police Commission. We appreciate your leadership and your dedication.

Sincerely,

Guy A. Paul Chief of Police

Takashi Aragaki

Kiyoshi Kamitaki

Yasuhiko Kawawaki Dr. Leila Kanno

GUY A. PAUL Chief of Police

GUY A PAUL CHIEF OF POLICE

Submitted herewith, as required by Section 52-66 of the Hawaii

Sgt. Ronald Akau and Patrolman Jay Enanoria show that the Traffic Enforcement Unit uses its radar on every passing car.

More than 28,000 Big Islanders, or about one-third of the island's population, had an opportunity during the past fiscal year to learn from a first hand viewpoint about the Hawaii County Police Department's Traffic Enforcement Unit.

asked to step out of their cars.

Traffic investigators have long believed that driving under the influence and speeding are the predominant causes of fatal traffic accidents.

As a result, the Traffic Enforcement Unit, which is funded by a federal grant, spends most of its time on 55 mile-per-hour highways, and the goal of the unit, to slow the increase in traffic accidents, was reached in its first year of operation.

units.

4

TRAFFIC ENFORCEMENT UNIT REACHES GOALS

They ranged from a man on roller skates who was cited for being pulled along the highway by his dog to drivers who were so drunk they couldn't stand up when they were

During the fiscal year, a total of 11,566 traffic citations were given out by the unit, and 16,620 other violators were stopped and given warnings.

It makes for an impressive stack of statistics:

Each day during the fiscal year, more than 77 violators were contacted.

The total stack of traffic citations issued would be 24 feet high, if placed in a stack, or 1.6 miles long, if laid end to end.

A total of 140 drivers were cited for driving under the influence of alcohol. Another 5,150 received citations for major moving violations, especially speeding.

A key factor in the operation of the specialized unit, which is headed by Sgt. Ronald Akau and consists of nine patrolmen, is that it doesn't take the place of regular patrol

"Instead," explains Lt. Albert Paiva, who has overall charge of all traffic operations, "the Traffic Enforcement Unit supplements the ongoing operations of the patrol units.

control."

the Big Island.

Department.

It's reaching traffic law violators where they need to be reached, and the result, in the 1979-80 fiscal year, the first year the unit was in operation, was a decrease in the number of traffic fatalities, a decrease in accidents and a decrease in injuries.

Fiscal Year

Number of Fatalities

Number of Accidents

Number of Injuries

"The high concentration of traffic units is an effective psychological aid to traffic

The impact of the Traffic Enforcement Unit was immediate, and noticeable, as the statistics at the end of this article will show.

In the months that followed its beginning, accidents and traffic fatalities took an immediate dip, and the decrease came despite growing population in nearly all areas of

The Traffic Enforcement Unit is doing a major job for the Hawaii County Police

Detective Richard Carter, who has spearheaded the organized crime efforts, and deputy Hawaii County prosecutor Robert Rodrigues look at potential sites for action in the war on organized crime.

departmental pride during the past years.

against organized crime.

Two major state crime figures were facing trial on the Big Island at year's end on serious criminal charges. One was in custody, and the other was out on bail.

early 1981.

A major factor in the indictments and charges was the thorough documentation, the continuing observation of the crime figures and the ability to weave, in the courtroom, a complete picture of the organized crime activities on the Big Island.

income for organized crime.

One major breakthrough came with the decision by a major local crime figure to turn state's evidence, with the result that a number of indictments have been returned and more are expected in the future.

The man in question had been in charge of collecting extortion money from gambling activities all over the east side of the Big Island, from Naalehu to Honokaa.

A key point is not the gambling activity, but that citizens had to pay for the privilege of gambling. Extortion was providing money for the organized crime efforts, and it is our goal to continue supression of it.

One major setback came in a local court decision that informants in criminal cases must be identified, even if the information they provide is later substantiated through other investigations.

In the words of one veteran officer, "There's a lot of pride in the accomplishments of the department. A lot of sacrifices were made, but these kind of results make everyone in the department proud."

PRIDE: A BY-PRODUCT OF WAR ON CRIME

From upper level officers to patrolmen on the beat, there has been a strong increase in

One major reason for this has been the department's continuing success in the battle

The primary impact was a severe blow to the efforts at organized crime throughout the State of Hawaii, but particularly on the Big Island.

One of the organized crime figures was tried during the past fiscal year on a murder charge, but a hung jury resulted in a mistrial. A new trial is expected in late 1980.

The other was indicted on seven different charges, and may go to trial in late 1980 or

Efforts continued at the supression of sports betting and cockfighting, as well as the growth and shipment of marijuana, which has become more and more a source of

Such a ruling caused two sports betting cases to be thrown out of court, but these decisions have been appealed to the State Supreme Court.

Homicide

small hotel.

solved.

Another was the high quality of investigation, the consistent police work, the thoroughness that is needed to close a serious case.

Also cited by many members of the department has been the fine assistance rendered by the Federal Bureau of Investigation, especially the FBI's Crime Lab, which frequently provided the in-depth analysis and comparison of evidence necessary to produce a conviction.

On the Big Island, one of the goals of the Hawaii County Police Department is to make sure that those who commit the crime of killing another human being are apprehended and brought before the proper officials.

HOMICIDE: EMPHASIS IS ON SOLUTIONS

It's described by Webster as "any killing of one human being by another."

It's the most drastic example of man's inhumanity to man.

Even in the Paradise that is the Big Island of Hawaii, there is homicide.

It is as inevitable as the setting sun, or the rising tide.

It is a crime that the Hawaii County Police Department shows great concern for.

And, in recent years, it is a crime that the police of the Big Island have solved.

In calendar year 1979, there were ten homicides, ranging from a ball park incident in which one player hit another over the head with a bat, to a brutal burglary-slaying in a

Of the 10, only two are currently unsolved.

During the first six months of 1980, seven homicides were recorded, and five were

A number of factors were responsible for the high closure rate.

One was the closeness of the community, and the fact that many of the members of the police department have contacts and sources throughout the island.

As long as there is mankind, there will be homicide.

Detective Daniel Minan and a large batch of marijuana seized during one of the Green Harvest operations.

A National Guard helicopter, loaded with marijuana, takes off during Operation Green Harvest. (Photos courtesy of Gilbert Tomas.)

Marijuana, on the Big Island, is big business. It's easy to estimate that it is a \$100 million a year business.

Helping to supress the growth of marijuana is a lot of work, hard, dedicated work, for the men of the Hawaii County Police Department.

was in excess of \$14 million.

the department.

In the 12 months of operation, a total of 160,584 plants, ranging in height from a quarter inch to 20 feet, were recovered and destroyed.

grown.

The department realizes that it is impossible to stamp out all the marijuana on the Big Island. At best, it is estimated that our search and seizure efforts result in the destruction of 10 to 15 percent of it.

But the major problems of the involvement of organized crime, and the growth of violent crimes as a result of theft of marijuana, make it necessary for us to expend hundreds of man hours in the fight against the growers.

Our goal is to get it at the root level. It is a dangerous goal, as our officers found as they discovered 11 booby traps during the two Green Harvest operations.

is involved.

We win little battles, but we will probably never win the war. Our efforts will continue. As long as the growth and cultivation of marijuana is against the law, and as long as there are people on the Big Island who would violate that law, we will continue the battle.

GREEN HARVEST: GET IT WHERE IT GROWS

It cuts across all racial, economic and social levels. It is grown all over the island, but the primary concentrations are in Puna and Kona.

In the past fiscal year, more than 73,000 pounds of marijuana were uprooted and destroyed by officers of the department. The estimated street value of this marijuana

Marijuana was seized in a pair of "Green Harvest" sessions, in October, 1979 and June, 1980, and in the continuing operations of the vice squad, patrol and country divisions of

In the October Green Harvest, \$6,684,000 worth was seized and destroyed. The tally in June, 1980, was \$3,622,400 worth. The other regular missions of the department resulted in the destruction of marijuana valued at \$4,441,000.

The Green Harvest operations involved the use of Hawaii National Guard helicopters, and men from the Hawaii County Police Department, officers from all districts and all divisions, brought together in an all-out effort to reduce the amount of marijuana being

Crime involving marijuana growers, especially thefts and assaults, are becoming more and more commonplace. We learn of only a small minority, usually when serious injury

PRAISE: FROM PARIS WITH APPRECIATION

Praise for the Hawaii County Police Department comes in various ways, and in various

One unusual letter of praise last year came all the way from France, where Francis Carassic of Paris wrote to commend Officer Stanley Gomes, who is assigned to the Kona

Carassic and his wife had been visiting the Big Island, and had enjoyed a farewell swim at Hapuna Beach Park, when her purse, with airplane tickets, passports, travellers checks and a variety of personal papers, was taken from the trunk of their car.

The purse was recovered, with most of the non-monetary items intact, it was rushed by police patrolmen to Kona, but in the interim Mrs. Carassic had a nervous collapse and

While rescue squadsmen worked on the stricken woman, Gomes rebooked the visitors' flights, provided them a place to rest prior to continuing their journey, and saw them off

"In these painful conditions, my wife and I highly appreciated the fact that we received much more than normal 'administrative' care," Carrasic said in his letter. "We have discovered that, in their normal job, people may be together with excellent

professionalism, able to show a lot of humanity, comprehension and sympathy."

Criminalist Kenneth Saito injects a sample in the injection port of the gas chromatograph mass spectrometer.

Kenneth Saito uses the photo microscope to take a picture of a piece of evidence.

The equipment used in the scientific efforts was provided by funds from the Economic Development Agency of the Federal government, as well as the Law Enforcement Assistance Administration.

The equipment of the crime lab can also be used for fiber comparisons, firearm identification and weapon comparison, restoration of serial numbers on firearms or vehicles, blood analysis, paint comparison and hair comparison.

Items of evidence had to be sent away, either hand carried or by registered mail, to labs, and the testing officials had to be brought back to the Big Island to be witnesses in criminal proceedings.

This resulted in frequent delays, in added expense and in a hesitancy on the part of investigators to risk sending evidence off for analysis.

Today, an investigator, in an emergency situation, can sometimes get an answer within a few hours, instead of two weeks to a month that it used to take.

subjects.

The total cost of the crime lab, with its highly sophisticated equipment, is more than a quarter million dollars.

It's a small investment in the continuing war against crime.

CRIME LAB NOW FULLY FUNCTIONAL

During the 1979-80 fiscal year, the Crime Lab of the Hawaii County Police Department grew from a long-awaited dream to reality.

With sophisticated equipment in place, with advanced knowledge of that equipment available, with greater departmental awareness of the advantages of scientific investigation, the Hawaii County Police Department was able to take several major steps forward in the ongoing war against crime.

Included on the roster of technical equipment available in the crime lab are a gas chromatograph, a second gas chromatograph which is tied into a mass spectrometer, an ultra violet spectrophotometer, and a stereo microscope, a photo microscope, comparison microscopes and dissecting microscopes.

The chromatographs and spectrophotometers are used primarily to identify compounds, to determine if substances are drugs, poisons, pesticides or other matter.

Equipment is available for chemical processing for latent fingerprints, to lift prints from surfaces where it hasn't been possible in the past.

In past years, prior to the organization of the crime lab, such sophisticated equipment was available only from the Honolulu Police Department, the Drug Enforcement Agency or the Federal Bureau of Investigation.

Kenneth Saito, the department criminalist, handles most of the internal lab work, and also gives classes for officers in the proper handling of evidence, analysis and related

SPECIAL UNIT FIGHTS **KAILUA CRIME PROBLEMS**

A voluntary effort by a group of concerned Kona policemen has resulted in the creation of a Crime Reduction Unit that has helped cut into visitor-related crimes in the village of Kailua-Kona.

The unit began nearly a year ago, as a group of officers gave more than 200 volunteer manhours to the effort, which grew out of continuing reports of harrassment and assaults on visitors, petty thefts, burglaries and similar problems.

Two or three officers, sometimes as many as five, would handle the special assignment. They would start at one end of Kailua and walk through the village, noting violations, warning potential trouble-making groups to disband, preventing problems just by being there.

Reaction from the business community was good, according to Kona commander Captain Raymond Glory.

John Burns, president of the Kona Chamber of Commerce, said "We were pleased that the police made this effort. We were particularly pleased to see the amount of volunteer effort by individual officers. This indicates recognition by the Police Department that Kailua had some unique problems, and the businessmen appreciate their efforts. Efforts of this type have led to the fine reputation that the Police Department has in the community."

As the results of the volunteer special unit become apparent, and as staffing in Kona increased, the Crime Reduction Unit was formed as an operating part of the Kona District, working, either on a regular time or overtime basis, with a sergeant in charge and three to five patrolmen assigned on an as-needed basis.

By the end of the fiscal year, the problem was minimized to the point that the formal unit had been disbanded, but was available on an on-call basis, in the event the need for it should return.

Sgt. Solomon Malani

In his letter of nomination, Victorine went on to say:

"Sgt. Malani is at his best in times of crisis. When storms raged, and calls for service were most demanding, Sgt. Malani maintained a calm, composed demeanor. Even when near exhaustion from long hours of work, he kept abreast of all situations, encouraging his men to stay with it.

"He has also demonstrated investigational skills and determination above the norm. He supervises all traffic casualty investigations which involve fatal or near fatal injuries. negligent homicide in the first degree, and the determining of fact regarding contributory causes to accidents which make clear the responsibility of drivers or other participants in accidents."

His guidance and skill in this area has resulted in the successful prosecution of a

in the nomination.

He helped coach the Laupahoehoe High School basketball team, he coaches t-ball and is involved in other community activities.

Sgt. Malani joined the police department in 1966, and has been a sergeant since 1975. His service with the department was interrupted from 1968 to 1970, when he was called to active duty with the Hawaii National Guard for service in Viet Nam.

SGT. SOLOMON MALANI OFFICER OF THE YEAR

Sergeant Solomon K. Malani Jr. was named the Police Officer of the Year for Hawaii County by the General Insurance Association of Hawaii.

During 1979, Sgt. Malani was the sole field supervisor for the North Hilo District, due to a manpower shortage. He was cited by Captain Leroy J. Victorine, who commanded the North Hilo District, for being "instrumental in the district maintaining the selected goals for efficiency and productivity."

Sgt. Malani's involvement in athletics and youth work in the community also was cited

OFFENSES KNOWN TO POLICE & CLEARANCES 1979

STATISTICS: NUMBERS HELP TELL THE STORY

Statistics.

To some people, they are vital indicators, useful in determining trends and patterns.

To others, they are just a bunch of numbers.

As in past years, the statistics in this annual report are based on the previous calendar year, which in this case is 1979.

They show that, on the Big Island, there were an average of 14.26 Part One, or more serious, crimes committed each day, and that 5.31 Part One crimes were cleared each day.

The incidence rate of Part One crimes was up 4.4 percent, but the yearly clearance rate was up 15.1 percent.

All crimes, major and minor, were committed at a rate of 25.34 per day, with 10.8 cleared per day. That total was up 2.2 percent compared to 1978, and the clearance rate was up 8.3 percent, compared to 1978.

During the year, \$1,567,475 worth of property was stolen on the Big Island, and more than a third, \$553,028 worth, was recovered.

At the end of the year, the Hawaii County Police Department had an authorized strength of 264 sworn officers, with 40 vacancies, and an actual strength of 224 officers. There were 374 persons on the Big Island for each police officer.

It cost the residents of the Big Island \$77.38 each for policing expense, and 75.4 percent of the department's \$6,476,662 budget went for salaries.

During the year, police officers on patrol drove 2,663,423 total miles, or enough to have taken them around the world, at the Equator, 107 times.

And, at the year's end, there was one sworn police officer on the Big Island for every 17.9 square miles of land.

*State Dept. of Planning & Economic Development Estimate

As a Law Enforcement Officer, my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.

I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.
