Introduction

The National Criminal Justice Thesaurus contains listings of descriptors or terms used to index the literature in the National Criminal Justice Reference Service (NCJRS) document data base and to retrieve information about the literature for users of the service. Term selection is based on the vocabulary used in documents entering the NCJRS system, on the frequency of term usage in the literature, and on the language of the user community. The 5-digit number assigned to each term is used as a descriptor code in searching on that term.

SUBSTANTIVE DESCRIPTORS AND RELATED ENTRIES

The order in which notations appear under a descriptor, when appropriate, is as follows:

SN SCOPE NOTE
UF USED FOR
BT BROADER TERM
NT NARROWER TERM
RT RELATED TERM

A SCOPE NOTE (SN) explains the specific use of a term in the NCJRS system. A typical SCOPE NOTE is included in the terms under "Miranda rights" in the example under Related Term, below. It may be a true definition, may place a positive or negative limitation on usage, or may combine definition and positive limitations.

Two types of terms are listed: descriptors and synonyms or near synonyms. Descriptors are authoritative terms that are acceptable for indexing and searching. A USE entry follows synonyms or near synonyms of descriptors. This entry directs the user to the preferred valid descriptor for communicating with the system. Synonym entries appear solely to provide as many points of entry to the Thesaurus as possible. The importance of the USE entry extends beyond synonymy. The entry can represent the relationship to a descriptor of a near synonym with general conceptual similarity. A USE entry provides a valid descriptor term synonymous with or approximating the concept of the term referenced. For example:

Remote terminals
01027 USE Terminals (computer)

The USED FOR (UF) entry is the reverse of the USE entry. The entry shows the user that the descriptor includes the concept represented by the UF entry. For example:

01027 Terminals (computer)
UF Remote terminals

v Preceding page blank

A NARROWER TERM (NT) entry denotes a hierarchical relationship between the main descriptor and a descriptor that belongs in the same class but is on a lower level; that is, the narrower term is more specific. For example:

01777 Hallucinogens
00616 NT LSD (acid)
05131 NT PCP (phencyclidine hydrochloride)
01450 NT Peyote

A BROADER TERM (BT) entry is also a hierarchical notation and is the reciprocal of the NT notations. A BT entry indicates that the descriptor is in the same class but that it is on a higher level in the hierarchy. For example:

01450 Peyote
04632 BT Controlled drugs
01777 BT Hallucinogens

The RELATED TERM (RT) entries perform two functions, only one of which is concerned with the scope of the main entry. A term listed as RT may clarify scope, that is, provide further definition of the main descriptor entry. The alternate function is to alert the user to other terms and thus provide additional points of reference. For example, to illustrate the two-sided RT relationship:

04183 Arrest and apprehension
04985 RT Arrest warrants
02462 RT Citizens arrests
05069 RT Crimes in progress
04816 RT Lawful use of force
00624 RT Manhunt
05208 RT Miranda rights
05136 RT Police pursuit driving
03215 RT Postarrest procedures

05208 Miranda rights
SN (Pre detention rights of the
accused as required by the US
Supreme Court ruling)
04197 BT Constitutional rights and civil lib
04183 RT Arrest and apprehension
02879 RT Rights of the accused

Every hierarchical and collateral entry has a complementary entry elsewhere in the Thesaurus.

ARRAY TERMS are very broad terms (e.g., Equipment/, Facilities/, and Programs/) which are considered to be too general to be of much value in indexing or retrieval. Such terms have been appended with a slash (/); wherever possible, a more specific term should be used in lieu of this term. The following standard SCOPE NOTE is used in conjunction with all array terms: "Use of a more specific term is recommended; consult the terms listed below." The listing of RT references following each array term refers the reader to all terms at the next lower level of specificity (but not to the still lower levels of specificity).

ORGANIZATIONAL DESCRIPTORS

These descriptors, in their respective sections, are treated in the same manner as the substantive terms; that is, structured using the UF, NT, BT, and RT notations as required. A relatively obscure organization--international, American, or newly organized--is given a SCOPE NOTE. For organizational terms, acronyms and mnemonics are UF entries, and broader and narrower terms are indicated as necessary.

GEOGRAPHIC DESCRIPTORS

Geographic terms use the NT-BT notations for countries and continents or similar geographic areas (e.g., Far East) and for states and regions.

For example:

90610 Southern States
90609 BT North America
90990 BT United States of America
81000 NT Alabama
85000 NT Arkansas
22000 NT Louisiana
28000 NT Mississippi
21000 RT Kentucky
47000 RT Tennessee

SCOPE NOTES and USED FOR entries are sometimes used to simplify usage for overlapping jurisdictions. For the United States, the names of regions (e.g., Middle Atlantic States) and states are included. For other countries, only regions or geographic areas (e.g., Far East, Western Europe) are listed.

THE KWOC LIST

Following the Thesaurus proper is the "Key-Word-Out-of-Context" (KWOC) List. Each significant word in each Thesaurus term is extracted, listed alphabetically, and followed by a listing of all the terms containing that word. Nonpreferred terms are preceded by the symbol @. Hence, all Thesaurus terms containing a particular key word are grouped together and can be easily scanned. The following is a partial KWOC listing from the key word **Fraud**.

FRAUD

048090 Bankruptcy fraud
000885 Check fraud
051557 Commodities fraud
048124 Consumer fraud
040865 Credit card fraud
051078 Credit fraud
@Deceitful practices (fraud)
@False pretenses (fraud)
017681 Fraud
@Impersonation (fraud)
@Insufficient funds check

046490 Insurance fraud
051086 Investment fraud

Several limitations of the KWOC List should be kept in mind:

1. The extracted word, which is in upper case, may or may not be a Thesaurus term.
2. Both preferred and nonpreferred terms are included in the KWOC List. A quick check under the unacceptable term in the Thesaurus listing will lead the user to the appropriate synonym.
3. The KWOC List does not substitute for BT-NT cross-references. The extracted words may or may not be related hierarchically, and other terms which are so related may not contain the key word under consideration.
4. Not all words are extracted; e.g., common connectives, such as "of," do not appear in the KWOC.

HOW TO USE THE THESAURUS

Alphabetization

Terms are alphabetized on a letter-by-letter basis. All spaces, hyphens, and other signs which may appear within the term are ignored, except the left parenthesis "(", which precedes "a." The example below demonstrates this exception.

UF Hypnosis (questioning under)
Hypnosis of victim or witness
Hypnotism in investigation

Selecting the Most Specific Descriptor

To avoid retrieving irrelevant documents and to assure full retrieval of target information, you always should select the most specific thesaurus descriptor of the concept you are searching on. Because documents are indexed to the narrowest applicable term within a hierarchy, a search on a broader term only will not retrieve the documents indexed to the narrower terms.

Search Examples

Suppose you wish to find documents about "juvenile delinquents" in the NCJRS data base. The Thesaurus can help pinpoint the appropriate term or terms for your search. You might begin by checking the rather general term **Delinquents**, in which case you would find the following entry:

Delinquents (juvenile)
USE Juvenile delinquents

This citation indicates that the term **Juvenile delinquents** is the preferred descriptor for indexing and retrieval. Turning to the preferred term, you find the following list of cross-references.

01637 Juvenile delinquents
UF Delinquents (juvenile)
03990 BT Juveniles
02409 NT Emotionally disturbed delinquents
05119 Female juvenile delinquents
05425 Male juvenile delinquents
05261 RT Alternative schools
05049 Crime in schools
05095 Juvenile court waiver
03669 Juvenile offenders
04103 Juvenile status offenders
05245 Parent education
05241 School delinquency programs
08311 Ungovernable juveniles
03001 Youthful offenders

Skipping over the term designated UF (i.e., the nonpreferred synonym of **Juvenile delinquents**) and the BT (indicating that **Juvenile delinquents** is part of the more comprehensive hierarchy of **Juveniles**), you will come to the NT references. **Emotionally disturbed delinquents**, **Female juvenile delinquents**, and **Male juvenile delinquents** are all valid search terms which you may prefer to use if they are more accurate expressions of the concept you are searching for. As mentioned above, a search on the term **Juvenile delinquents** alone will not retrieve the documents indexed under **Emotionally disturbed delinquents** or under the two other NT's. If any of the narrow terms are relevant to your search, they should definitely be included in your search strategy. You should also note the RT references, which provide new directions for your search by adding related terms.

Focusing Your Search

If the first term you locate is followed by a slash, it is an ARRAY TERM. Though ARRAY TERMS can be used for searching, they are often too broad to be useful for indexing or retrieval. The following entry is typical of ARRAY TERMS:

01391 Property crimes/
(Use of a more specific term is recommended; consult the terms listed below)
UF Crimes against property
04914 RT Antitrust offenses
02497 Arson
00110 Burglary
02443 Counterfeiting
04384 Crime costs
04941 Crimes against businesses
01405 Dealing in stolen goods
01726 Extortion
03629 Forgery

01768	Fraud
03627	Hijacking
00469	Hit and run
04651	Industrial espionage
03850	Loan sharking
04600	Offenses
02586	Piracy
05362	Property crime statistics
04255	Property identification
03640	Theft offenses
04757	Vandalism
01355	White collar crimes

Scan the RT terms listed under the array term and select those related to your interest as new points from which to search. Do not make a final choice until you have determined whether there are still narrower terms that would be better choices. In this particular example, if you selected the RT **Crime costs** as a new starting point, you would find that **Crime costs** has two NT's, **Business crime costs** and **Stolen vehicle costs**, either of which may be a more specific expression of the concept you are trying to locate.

Searching on Cross-Cultural Terms

To facilitate access to the numerous international documents in the data base, the Thesaurus contains a number of cross-cultural terms. These include expressions peculiar to a foreign country which have no direct equivalent in the U.S. system or for which such an equivalent cannot be readily identified. For the most part, these idioms are entered as nonpreferred synonyms of their nearest American equivalent. For instance, the French concept "Sursis avec mise a l'epreuve" would have the following reference to the preferred American term:

Sursis avec mise a l'epreuve
USE Probation

In addition, numerous international organizations are included in the organizational file of the Thesaurus.

Combining Several Descriptors

To attain an even greater level of specificity, the technique of combining or "coordinating" more than one descriptor in a search is useful. Though the Thesaurus contains no specific term to express the concept "police attitudes toward abuse of authority," the combination of the existing descriptors **Abuse of authority** and **Police attitudes** will yield only those documents which hold relevant information on both descriptors. In coordinating, descriptors from all three files of the Thesaurus (substantive, geographic, and organizational) may be combined. For instance, the geographic code or descriptor for **France** may be combined with **Preventive detention** to obtain information on preventive detention in France.

Consulting the KWOC List

If all efforts to locate a suitable descriptor fail, resort to the KWOC List at the back of the Thesaurus. Select a single word that you think might be part of the term you are seeking and look up that word in the KWOC List. The List includes every term in the Thesaurus which contains that word. Once you locate terms of potential interest, consult the Thesaurus again for narrower or related terms.
